List of Figures	xvii
Foreword	xix

PART I GENERAL ISSUES

1	Introduction	3
	Opening remarks	3
	Definition of the subject	4
	Organisation of the volume	5
2	Fundamental Concepts	9
	General	9
	Goods markets	15
	Service markets	17
	Production factors: labour markets	20
	Production factors: capital markets	23
	Policy; positive integration	27
	Summary and conclusions	30
3	Short History	33
	Introduction	33
	Until 1815, a traditional world with little integration	34
	1815 - 1870: progressive integration following the Industrial Revolution	36
	1870 - 1914: stagnating integration	41
	1914 - 1945: disintegration	45
	1945 - the present: a new upsurge of integration	48
	Summary and conclusions	52
4	Institutional Economics of the European Community	55
	Objectives and means	55
	The institutions	59

	The Commission	62
	The Council of Ministers	64
	The European Parliament	66
	Court of Justice	67
	Laws and rules, decision making	69
	Budget	73
	Summary and conclusions	78
PART II THEORETICAL FOUNDATIONS		
5	Customs Union	83
	Introduction	83
	Free trade versus protection	86
	Short-term static effects	93
	Long-term restructuring effects	103
	Summary and conclusions	112
6	Common Market	115
	Introduction	115
	Integration of factor markets; disregard of goods movements	117
	Interrelations between goods and factor markets and the effects of barriers to movement	128
	Towards a theory of international production	136
	Summary and conclusions	143
7	Economic and Monetary Union	145
	Introduction	145
	Allocation policies	146
	Stabilisation; macro and monetary policies	150
	Redistribution policies	162
	External policies	166
	Some common aspects	168
	Summary and conclusions	170
PART III PRODUCTS AND PRODUCTION FACTORS		
8	Goods	175
	Introduction	175
	Community regime	176
	Trade patterns	178

	Explanation of spatial trade patterns	190
	Price differences	193
	Welfare effects	195
	Summary and conclusions	199
9	Labour	201
	Introduction	201
	Community regime	202
	International exchange of labour (migration)	207
	Wage structures, convergence or divergence?	215
	Welfare effects	220
	Summary and conclusions /	221
10	Capital	225
	Introduction	225
	Community regime	226
	Direct investments	231
	Portfolio investment; stock-market integration	237
	Other capital	240
	Welfare effects	243
	Summary and conclusions	244
PART IV SECTORS OF ACTIVITY		
11	Agriculture	249
	Introduction	249
	Community regime	250
	Sketch of the sector	255
	Market regulation and its effects	259
	Conflicts and solutions	268
	Summary and conclusions	271
12	Manufacturing	273
	Introduction	273
	Community regime	274
	Sketch of the sector	279
	Case study 1: Steel	285
	Case study 2: Cars	289
	Case study 3: White goods	293
	Summary and conclusions	295

13	Energy	297
	Introduction	297
	Community regime	298
	Sketch of the sector	302
	Case study 1: oil refining	311
	Case study 2: electricity	314
	Summary and conclusions	318
14	Services	321
	Introduction	321
	Community regime	322
	Sketch of the sector	325
	Case study: insurance	330
	Summary and conclusions	335
15	Transport	337
	Introduction	337
	Community regime	338
	Sketch of the sector	346
	Case study 1: inland goods transport	349
	Case study 2: passenger transport by air	353
	Summary and conclusions	356
PART V CONDITIONS FOR BALANCED GROWTH		
16	Allocation, Internal Market Policies (1992)	361
	Introduction	361
	Community regime	362
	Competition	365
	Direct intervention in prices and quantities	370
	Indirect influence on prices, fiscal barriers	374
	Access to markets, technical barriers	381
	Welfare effects	384
	Summary and conclusions	386
17	Stabilisation: Macro-Economic and Monetary Policy	389
	Introduction	389
	Community regime	390
	Monetary policy: stability of exchange rates	395
	Macro-policy: the need for convergence of inflation rates	404

Growth policy, convergence of wealth levels	411
Summary and conclusions	414
18 Redistribution: Regional and Social Policies	417
Introduction	417
Regional disparities and policy	418
Social policy	429
Summary and conclusions	436
19 External Relations	439
Introduction	439
External policy: general issues	439
Trade policy: a fan of instruments	443
Trade policy: differentiation by area	449
From trade to foreign policy	459
Summary and conclusions	465
 PART VI CONCLUSIONS	
20 Evaluation and Outlook	471
Introduction	471
Progress of integration; economic indicators	472
Progress of integration; policy indicators	475
Welfare effects	481
Towards new objectives	482
Summary and conclusions	488
 ANNEXES	
List of Abbreviations	493
Bibliography	497
Index	535

List of Tables

3.1	Some indicators of European economic development, 1810–1870	38
3.2	Some indicators of European economic development between 1870 and 1910	42
3.3	Some indicators of European (EC12) economic development, 1913–1938	46
5.1	Effects of various forms of protection on trade and production of country A	89
5.2	Trade effects of a Customs Union, countries A and B	96
5.3	Trade and production effects of a CU under conditions of economies of scale (countries A and B)	108
6.1	Welfare effects of integrated production-factor markets	118
6.2	Effects of the integration of production-factor markets	122
6.3	Welfare effects of various trade instruments with and without capital mobility	132
6.7	The product life cycle and international production patterns	138–139
7.1	Effects of co-ordinated and non-co-ordinated policies on utility and its distribution among countries	156
8.1	Percentage share of goods imports and exports in total GDP (current prices), 1960–1985	179
8.2	Percentage shares of EC in total commodity imports and exports of (future) member states	180
8.3	Intra-EC trade by country, 1985	182
8.4	Geographical distribution by groups of countries, of the EC12's extra-Community trade in goods, 1958, 1972, 1985	185
8.5	Distribution of the EC12's foreign trade by commodity group, 1962 and 1985, in percentages	187
8.6	Percentage share of member states in EC extra-Community trade	188
8.7	Specialisation index of export trade in high-value technological products, 1963–1983 (OECD = 100)	189
8.8	Average levels of intra-industry trade, in selected EC countries 1959–1980	191
8.9	Price dispersion (coefficient of variation) in the EC9, by product group, 1975–1985	194

8.10	Effects of the integration of manufactured-goods markets on the percentage trend growth rate of EC member states	198
9.1	First work licences granted to foreign workers by the six original EC member states, 1959-1973	208
9.2	Estimate of the number of foreign labour in the EC member states, 1960-1980, and their relative importance (%) on the labour market of the host country	210
9.3	Total number of foreign workers in the 12 member states of the European Community by country of origin (millions), and percentage shares in total labour force 1973-1985	211
9.4	Female-male earnings differential (ratio) 1972, EC6	219
10.1	Direct foreign investment flows of EC12 by major partner 1969-1986 (billion current Ecu)	232
10.2	Direct investment flows (in billion Ecu) between the member countries of the European Community, 1975-1983	235
10.3	Percentage growth and profitability, 1979-1988	236
10.4	Indicators of EC stock markets, 1985	238
10.5	Weighted percentage change in correlation coefficients of five European stock markets with those of the rest of Europe, the United States and Japan	239
10.6	Correlation coefficients between European stock markets, 1973-1979 and 1980-1986	239
10.7	Growth of Euromarkets, 1960-1985	241
10.8	Convergence of interest rates in the EC 1963-1985	243
11.1	Percentage share of agriculture in total GDP and total employment of the EC12, 1950-1985	255
11.2	Percentage share of some selected product groups in the total production value of agriculture	256
11.3	Development of the number and size of agricultural establishments	257
11.4	Average yields of agricultural products, EC10	258
11.5	EC agricultural prices as a percentage of world-market prices (five-year averages)	264
11.6	Self-sufficiency ratio of the European Community for some selected agricultural products, 1958-1985 (index)	266
11.7	Outlay (in million Ecu) on the European Guidance and Guarantee Fund for Agriculture, 1968-1987	267
12.1	Percentage share of manufacturing in total GDP and total employment, 1950-1985 (EC12)	280

12.2	Employment (million) in manufacturing by branch (EC12) 1950-1985	280
12.3	The ten largest manufacturing firms based in the EC (private ownership), 1972-1984, by world-wide employment	281
12.4	International comparison of the performances of firms by relative firm size (100 largest), 1980	285
12.5	Estimated number of steel plants by size category (Mt/y) in the EC9	286
12.6	Largest European steel producing firms with a crude steel output of over 1 Mt/y and concentration ratios, 1985	287
12.7	Some characteristic data on the Community (EC12) steel industry, 1950-1985	288
12.8	Production (x 1000) of the largest European car manufacturers in the EC12 (over 100 000 a year in 1986)	290
12.9	Production and consumption of, and external trade in, cars in the EC 1960-1985 (millions)	291
12.10	Shares of the three largest national producers in home market sales	292
12.11	Production of and trade in refrigerators, 1958-1972 (1000 units)	294
13.1	Percentage shares of primary energy sources in total energy consumption in the European Community (Mtoe), 1929-1985	305
13.2	Percentage shares of energy sources in the consumption of power stations in the EC12 1955-1985	306
13.3	Final domestic consumption of energy in the EC12, by consumer category and secondary energy source (Mtoe), 1950-1985	310
13.4	Number of refineries in Western Europe by size class, 1950-1985	313
13.5	Generation and exchanges of electricity in Western Europe, 1970-1984	315
14.1	Percentage share of the service sectors in EC12 total employment	326
14.2	Percentage shares of service sectors in total value added EC12, 1960-1985	327
14.3	Imports and exports of services (percentage of GDP, current prices)	327
14.4	Trade in services of the EC10 with third countries, 1984, thousand million Ecu	328
14.5	Largest European insurance companies	331

14.6	Indicators of life-insurance market interpenetration (around 1980)	333
15.1	Percentage share of transport sector in total GDP and employment, EC12, 1950-1985	346
15.2	Characteristics of the transport system (EC12), 1950-1985	347
15.3	Inland goods transport in Europe (EC12) by mode of transport (in percentages and in 10 ⁹ ton/km, 1970-1985)	351
15.4	Percentage market shares of each transport mode in international goods transport among all member states of the EC10: and the remaining part of the Community by NST commodity group, 1984	352
15.5	Total passenger kilometers (1000 million) on scheduled services (international and domestic) of major European airlines, 1960-1985	354
16.1	Sectoral concentration in the EC, 1962-1973	369
16.2	VAT (rates and receipts) as a percentage of total GDP and total tax receipts in member countries of the EC (around 1986)	377
16.3	Examples of excise taxes (Ecu, 1987) and importance of excise tax revenue in total GDP (percentage, 1983), in EC member states	378
16.4	Corporation taxes in the EC (rates as of 1985)	381
17.1	The Ecu in relation to the component currencies (September 1989)	397
17.2	EMS bilateral central rates and margins of fluctuation (as of September 1989)	398
17.3	EMS parity changes and the Ecu	400
17.4	Index of variability of exchange rates against other currencies	402
17.5	Average percentage yearly growth rates of trade (exports plus imports) in constant prices, 1973-1985, by group	403
17.6	Average annual percentage inflation rate (GDP price change) by country and period	405
17.7	Average yearly growth rates of GDP (volume), and development of GDP/P (EC12 = 100), for the 12 EC member countries, 1950-1985	411
18.1	Indices of regional disparities of wealth in the EC, 1950-1985	422
18.2	Schematic view of impacts by policy area and type of region	424
18.3	Concentration of ERDF aid (EC10), 1975-1984, and shares of EC countries in ERDF (as of 1986)	427

18.4	Social Fund Aid, in percentages, by category and member state, 1976-1980	435
19.1	Transactions of the EC with third countries by category; average assets and liabilities 1976-1984	440
19.2	New Tariff Barrier equivalents (in percentages) for various countries and products	445
19.3	Yearly welfare effects of the Tokyo Round by country, in percentage of GNP	448
19.4	The hierarchy of EC trade relations	450
19.5	Market penetration by imports from LDC into the EC, USA and Japan, 1973 and 1983 (in percentage of apparent domestic production)	455
20.1	Growth of integration in the EC (goods, services, labour and capital), 1960-1985 (percentages)	472
20.2	Price convergence for goods, services and production factors, 1965-1985	475
20.3	Growth of European administrative and related organisations, 1960-1988	476
20.4	Synoptic view of the development through time (1958-1988) of the degree of policy integration by activity area	479

List of Figures

3.1	European industry around 1870	39
3.2	Evolution of British, French and German average tariff rates of protection, 1850–1938	41
4.1	The EC Institutional system	61
4.2	The Community's legislation-making process	71
5.1	Advantages of international trade:	
	(a) Production-possibility and indifference curves	84
	(b) Supply and demand curves for commodity x	85
5.2	Trade effects of a tariff	88
5.3	Welfare effects of a tariff, country A	90
5.4	Welfare effects of quantitative restrictions, country A	92
5.5	Trade and production effects of a customs union, countries A and B	94
5.6	Welfare effects of a (trade-diverting) customs union, country A	97
5.7	Terms-of-trade effect of a tariff for the CU	100
5.8	Effects of tariffs, account being taken of the customs union supply curve, country A	104
5.9	Advantages of improved technical efficiency, country A	105
5.10	Economies of scale in production for individual countries A and B and for customs unions of A and B and of A, B and C	107
5.11	Welfare effects of learning	110
5.12	Effects of eliminating trade barriers in a customs union	111
6.1	Effects of movement of production factors:	
	(a) No factor-market integration	116
	(b) Integration of factor markets, price convergence	116
6.2	Integration of factor markets; price equalisation	121
6.3	Welfare effects of production factor market integration	124
6.4	(a) Demand and supply of capital in separated small and large markets	127
	(b) Demand and supply of capital transferred from small (local) markets to a large (central) one	127
6.5	Welfare effects of trade impediments with and without capital-market integration	130
6.6	Effects on factor earning under partial integration of goods and capital markets	135

6.7	The product life cycle and international production patterns	138
6.8	Allocation of the capital stock to countries under conditions of technological dominance	141
6.9	Labour import in sunset industries	142
7.1	Monetary integration in a Phillips world	152
7.2	Monetary Union in a Friedman/Phelps world	154
7.3	Monetary Union and international balanced growth	164
8.1	Clustering of European countries by trade pattern	183
9.1	Bilateral recruitment agreements; end of 1973	209
11.1	Disequilibria on agricultural markets: hog cycle	259
11.2	EC market-regulation system for major agricultural products (guarantee prices)	
	(a) Imports	
	(b) Exports	261
11.3	Alternative market-regulation systems (deficiency payments)	
	(a) Imports	
	(b) Exports	263
11.4	The effect of quotas	270
12.1	Production and trade patterns of multinational, multi-product companies under different trade regimes	282
13.1	European Community import prices of energy	300
13.2	Development of total energy consumption in Western Europe, 1950–1980 (1000 Mtoe) and of GNP (index 1975 = 100)	303
13.3	Flows of crude oil towards Western Europe (around 1985)	309
13.4	Exchange of electricity	
	(a) 1966	316
	(b) 1986	317
14.1	Annual premiums (best buy) of a term insurance in the EC countries	335
15.1	Frontier-crossing inland goods transport among EC9 member states, on the basis of tonnage, 1970–1985	350
16.1	Mergers in the EC, 1973–1986	369
17.1	Inflation and currency depreciation or appreciation	404
17.2	Inflation and budget deficits	409
18.1	Areas eligible for ERDF assistance at the beginning of 1987	426
19.1	Ecu/\$ exchange rate through time	461
