

The Economics of the Latecomers

Catching-up, technology transfer
and institutions in Germany, Japan
and South Korea

Jang-Sup Shin

Routledge Studies in the Growth Economies
of Asia

CONTENTS

<i>List of figures and tables</i>	vii
<i>Foreword</i> by Professor Chris Freeman	ix
<i>Preface</i>	xi
INTRODUCTION	1
Part I On methodology	
1 LATE INDUSTRIALISATION AND CATCHING-UP	9
1.1 <i>Abramovitz: a universal proposition</i>	13
1.2 <i>Perez and Soete: technological entry barriers</i>	17
1.3 <i>Gerschenkron: a differentiated system</i>	21
1.4 <i>Concluding remarks</i>	24
2 TECHNOLOGY TRANSFER, TECHNOLOGICAL CAPABILITY AND NATIONAL SYSTEMS OF INNOVATION	26
2.1 <i>Technology transfer and technological capability</i>	27
2.2 <i>National systems of innovation</i>	33
3 INSTITUTIONS, INSTITUTIONAL CHANGE AND CATCHING-UP	38
3.1 <i>The tension between theory and reality, and the analysis of institutions</i>	38
3.2 <i>Gerschenkron's 'pattern of industrialisation': technology gap and institutional responses</i>	49
Part II On interpreting history	
4 COMPARATIVE SETTINGS	65
4.1 <i>An overview of the schema for interpretation</i>	65
4.2 <i>Technological progress in the iron and steel industry</i>	67

CONTENTS

5	REGIONAL CONTRAST IN THE DEVELOPMENT OF THE IRON AND STEEL INDUSTRY IN GERMANY, 1800-1850	72
5.1	<i>Upper Silesia: a state-led development</i>	73
5.2	<i>Rhineland-Westphalia: state guidance and differential tariff system</i>	76
5.3	<i>Concluding observations</i>	82
6	UK-GERMANY-JAPAN COMPARISON IN THE IRON AND STEEL INDUSTRY, 1850-1930	83
6.1	<i>German overtaking of the UK: the role of the investment banks and cartels</i>	84
6.2	<i>Beginning of the modern iron and steel industry in Japan: a state-led catching-up</i>	89
6.3	<i>Concluding observations</i>	92
7	USA-JAPAN-KOREA COMPARISON IN THE IRON AND STEEL INDUSTRY, 1950-1990	94
7.1	<i>Japanese overtaking of the USA: oligopolistic competition and MITI guidance</i>	95
7.2	<i>Korean catching-up: POSCO and 'Korea Inc.'</i>	102
7.3	<i>Concluding observations</i>	107
8	USA-JAPAN-KOREA COMPARISON IN THE SEMICONDUCTOR INDUSTRY, 1950-1993	109
8.1	<i>Technological imperatives in the semiconductor industry</i>	110
8.2	<i>Japanese advance in a new industry: continual state initiatives and integrated electronics firms</i>	113
8.3	<i>Korean catching-up in a high-tech industry: changing configuration between the state and the chaebols</i>	122
8.4	<i>Concluding observations</i>	137
	CONCLUSIONS	139
	Notes	154
	Bibliography	194
	Index	207

FIGURES AND TABLES

FIGURES

2.1 A comparison of production function analysis and technological capability analysis	29
4.1 Iron- and steel-making process	69

TABLES

1.1 Convergence and divergence among the OECD countries: changes in comparative levels of per capita GDP	10
1.2 Convergence and divergence among high-income countries: changes in comparative levels of productivity	11
1.3 Convergence and divergence among country groups during the post-Second World War period	12
8.1 The share of export to production in the Korean semiconductor industry	125
8.2 Time lag of DRAM development and mass commercial production	129
8.3 Financing of investment in a semiconductor firm	131
8.4 Major R&D indicators in Korea	132
8.5 Investment trend of Korean wafer manufacturers	135
