

# OZONE DEPLETION

## IMPLICATIONS FOR THE TROPICS

Mohammad Ilyas  
(Editor)

# CONTENTS

<b>FOREWORD</b>	vii
<b>PREFACE</b>	ix
<b>PART I: PROTECTION OF OZONE LAYER: OVERVIEW</b>	1
Chlorofluorocarbons and Ozone Depletion <b>F.S. Rowland (USA)</b>	3
Ozone Depletion Over Antarctica <b>J.C. Farman (UK)</b>	30
Ozone Depletion, Ultraviolet-B and the Tropics <b>M. Ilyas (Malaysia)</b>	35
UNEP Ozone Layer Review : Atmospheric Ozone Science <b>R.T. Watson (USA)</b>	48
UNEP Ozone Layer Review : Effects of Ozone Depletion <b>J.C. van der Leun (The Netherlands)</b>	60
UNEP Ozone Layer Review : Technical Feasibility of the Montreal Protocol <b>G.V. Buxton (Canada)</b>	63
UNEP Ozone Layer Review: Economic Implications <b>J. Lupinacci (USA)</b>	72
<b>PART 2: STRATOSPHERIC OZONE AND UV RADIATION MEASUREMENTS</b>	75
Atmospheric Ozone : Natural and Man-Made Variations <b>W.A. Matthews (New Zealand)</b>	77
Ozone Measurements in the Tropics <b>A. Mani (India)</b>	84
Variations in Tropical Total Ozone as Measured by TOMS <b>R. Stolarski (USA)</b>	98
Total Ozone Patterns from Singapore Data <b>K. Thulasidas (Singapore)</b>	106
Atmospheric Ozone Measurements in Beijing by Solar and Skylight Spectrophotometer <b>Q.Y. Xue (China)</b>	110
Solar Ultraviolet Radiation: Measurement Techniques and the Australian Network <b>R.C. Roy and H.P. Gies (Australia)</b>	114

## *Contents*

Solar UV Radiation: Ozone Impacts and Monitoring Strategies <b>R.E. Basher (New Zealand)</b>	126
<b>PART 3: TROPOSPHERIC OZONE MEASUREMENTS</b>	137
Ozone in the Tropical Troposphere: A Review <b>I.E. Galbally and R.C. Roy (Australia)</b>	139
Indication and Causes of Ozone Trends in the Planetary Boundary Layer over Western Europe <b>R. Guicherit (The Netherlands)</b>	159
Surface Ozone in Karachi <b>B.M.K. Ghauri, M. Salam and M.I. Mirza (Pakistan)</b>	169
Diurnal And Seasonal Variations of the Tropospheric Ozone in Indonesia <b>N. Komala (Indonesia) and T. Ogawa (Japan)</b>	178
Surface Ozone Measurements at Bandung <b>L.S. Pardede (Indonesia)</b>	189
Tropospheric Ozone Studies in Japan <b>Y. Tsutsumi, Y. Makino and M. Hirota (Japan)</b>	196
<b>PART 4: EFFECTS OF OZONE DEPLETION: BIOLOGICAL AND CLIMATIC</b>	203
Effects of Ozone Depletion on Human Health <b>J.C. van der Leun (The Netherlands)</b>	205
UV-B Effects on Terrestrial Plants <b>M. Tevini (Germany)</b>	213
Perspectives on Ozone Reduction and Tropical Vegetation <b>M.M. Caldwell (USA)</b>	227
Effects of UV-B and Global Climate Change on Rice Production: The EPA/IRRI Cooperative Research Plan <b>D.M. Olszyk (USA) and K.T. Ingram (Philippines)</b>	234
Effects of Ozone Depletion on Aquatic Ecosystems <b>D.P. Hader (Germany) and R.C. Worrest (USA)</b>	254
<b>PART 5: EFFECTS OF CLIMATIC CHANGE</b>	271
The Greenhouse Effect, Climate Change and Sea-Level Rise: Tropical Perspective <b>P.H. Whetton and A.B. Pittock (Australia)</b>	273

Climatic Effects Due to Increasing Atmospheric Trace Gases and their Induced Ozone Changes <b>W.C. Wang (USA)</b>	292
Ozone Depletion and Global Warming: Need for A Chilean Response <b>M.B. Prendez (Chile)</b>	302
Global Change Research within U.S. Department of Energy <b>M.R. Riches and A.A. Patrinos (USA)</b>	309
<b>PART 6: ALTERNATIVE TECHNOLOGY, MONTREAL PROTOCOL AND THE DEVELOPING COUNTRIES</b>	315
The Montreal Protocol on Substances that Deplete the Ozone Layer: An Analysis of its Key Features <b>G.V. Buxton (Canada)</b>	317
Refrigeration and Refrigerants: Efficiency and Global Availability <b>L.J.M. Kuijpers (The Netherlands)</b>	322
Substitutes to CFC Blowing Agents in Foam Plastic Products <b>J.M. Lupinacci (USA)</b>	335
Alternatives to CFCs in Aerosol Products <b>I. Kokeritz (Sweden)</b>	349
Global Issue of Ozone Depletion and Problems Encountered in Complying with The Montreal Protocol: Malaysia's Response <b>K.S. Goh (Malaysia)</b>	354
Adjustment/Amendment of the Montreal Protocol on Substances that Deplete the Ozone Layer <b>G.V. Buxton (Canada)</b>	359
<b>LIST OF CONTRIBUTORS</b>	371
