

RE-THINKING THE NETWORK ECONOMY

The True Forces that Drive the Digital Marketplace

STAN LIEBOWITZ

Contents

Preface	ix
CHAPTER 1	
Introduction	1
What You Will Find in Later Chapters	3
CHAPTER 2	
Basic Economics of the Internet	9
How the Internet Creates Value	9
Special Economics of the Internet—or Maybe Not So Special	13
Network Effects	13
Economies of Scale	15
Winner-Take-All	16
How the Internet Alters the Likelihood of Winner-Take-All	18
CHAPTER 3	
Racing to Be First: Faddish and Foolish	25
From Winner-Take-All to First-Mover-Wins	26
The Concept of Lock-In	30
Strong Lock-In	32
Weak Lock-In	35
Impacts of Lock-In on First-Mover-Wins	36
What Does the Real World Tell Us About Strong Lock-In?	38
The Internet and First-Mover-Wins	43

Additional Evidence	44
Business Lessons	48

CHAPTER 4

The (Non) Ubiquity of E-Tailing? 58

How Might the Internet Transform Business? E-Ordering vs. E-Tailing	60
--	----

Characteristics of Products That Are Likely to Determine the Extent of the Internet Transformation	61
---	----

Size and Bulk Relative to Value	62
---	----

Immediate Gratification Factor (Impulse Buying)	63
---	----

Perishability	64
-------------------------	----

Experience Products and Free-Riding	64
---	----

Thin Markets	67
------------------------	----

The Role of Taxes	68
-----------------------------	----

What Types of Products Are Most Compatible with Full- Fledged E-Tailing?	69
---	----

Digitized Products	69
------------------------------	----

Information	71
-----------------------	----

Books and CDs	73
-------------------------	----

Examples of Markets Likely to Resist the Internet Assault	75
---	----

Grocery Items	76
-------------------------	----

Automobiles	83
-----------------------	----

Furniture	84
---------------------	----

Prescription Drugs	85
------------------------------	----

The Nature of Selling on the Net	86
--	----

The Evolution of the Current Pricing System	87
---	----

The Concept of Price Discrimination	89
---	----

What About Auctions?	92
--------------------------------	----

CHAPTER 5

The Value-Profit Paradox: The Cruelty of Competition and Internet Margins 96

The Diamond-Water Paradox	99
-------------------------------------	----

The Cruelty of Competition and Attempts to Subvert It . . .	101
Implications for Internet Companies	106
Future Competition and Performance	108
Margins and Profits on the Net	110
Understanding Profit Margins	110
The Nature of Competition in Internet Markets	114
CHAPTER 6	
Can Advertising Revenues Support the Net?	121
The Inadequacy of the Television Model	124
Advertising Effectiveness on the Internet	126
Size of Audience	126
Advertising Effectiveness on the Net	127
Advertising Budgets	131
Positive Aspects of Internet Advertising	132
Advertising Revenues on the Internet	134
CHAPTER 7	
Copyright and the Internet	144
The Economic Impacts of Copying	147
Direct Economic Effects of Copying Technology	148
Indirect Economic Effects of Copying Technology	150
The Economic Impacts of Previous New Technologies on Copyright Owners	155
Photocopying	155
Videocassette Recording: The Betamax Case	157
Audiotaping	158
Digitized Networked Copying: Lessons from the Napster Case	159
The Impact of Peer-to-Peer Networks on Revenues—The Theory	161
Indirect Appropriability	162
Exposure Effects	165
The Impact of Napster on Revenues—The Evidence	167

Pure Peer-to-Peer Technologies: The Devil You Don't Know	174
Digital Rights Management	176
DRM Will Not Harm "Fair" Use or Any Use	179
DRM Will Not Reduce Production of New Works	181
Public Goods, DRM, and Other Alternatives	183
The Bottom Line	188
CHAPTER 8	
Conclusion: Whither Supply and Demand?	206
Lessons	210
Index	215
