"Wise statesmen as they were, they knew the tendency of prosperity to breed tyrants, and so they established these great self-evident truths, that when in the distant future some man, some faction, some interest, should set up the doctrine that none but rich men, or none but white men, were entitled to life, liberty and the pursuit of happiness, their posterity might look up again to the Declaration of Independence . . . so that truth, and justice, and mercy, and all the humane and Christian virtues might not be extinguished from the land."

Abraham Lincoln,  
on the founding fathers,  
August 17, 1858
