JILID/VOLUME 17, 2005

ISSN 0128-0198

- Penggantian Sebahagian Pasir dengan Debu Kuari ke atas
Ciri Konkrit Prestasi Tinggi Baru 3 – 12
*Muhammad Fauzi Mohd. Zain, Sudharshan Naidu Raman,
Azimin Samsul Tazilan, Abdul Halim Ismail, Mazlan Tahir
& Zulhairuse Md Darus*
- Determination of Enhancement in D-region Electron Density
using Solar Flare Model and GOES-7 Measurements 13 – 26
Mardina Abdullah & Ahmad Faizal Mohd. Zain
- Comparing Linear and Bilinear Models on Water Level for
the Kelantan River in Malaysia 27 – 32
*Azami Zaharim, Mohd Sahar Yahya,
Ibrahim Mohamed, Abdul Halim Ismail,
Zulhairuse Md Darus & Zulkifli Mohd Nopiah*
- Shear Strength Parameters of Unsaturated Residual Soils 33 – 46
*Bujang B.K. Huat, Faisal Hj. Ali,
Affendi Abdullah, Saravanan Mariappan & Soenita Hashim*
- Penggunaan Penggugusan Subtraktif bagi Menjana Peraturan Kabur 47 – 58
*Agus Priyono, Muhammad Ridwan,
Ahmad Jais Alias, Riza Atiq O. K. Rahmat,
Azmi Hassan & Mohd. Alauddin Mohd. Ali*
- Role of Cu-Mfi Zeolite Catalyst on Direct Conversion of
Methane Ethane to Gasoline 59 – 69
*Norzita Ngadi, Nor Aishah Saidina Amin
and Didik Prasetyoko*
- Fatigue Data Editing Algorithm for Automotive Applications 71 – 84
Shahrum Abdullah, John R. Yates & Joseph A. Giacomini
- An Expert System to Design Composting Facilities for
Municipal Solid Waste 85 – 99
Noor Ezlin Ahmad Basri, Hassan Basri & E.I. Stentifor
- A Computer Integrated Manufacturing System for Low Repetitive
and High Product-Mix Components 101 – 112
Ginting A. & Che Hassan Che Haron
- Teknik Penderiaan Jauh dalam Kajian Sedimen Terampai 113 – 119
di Muara Sungai Langat

Jurnal Kejuruteraan menjadi ruang forum bagi penerbitan karya-karya dalam semua bidang kejuruteraan. Karya asli yang lengkap, tinjauan-tinjauan dan komunikasi ringkas dipelawa dari penulis untuk tajuk-tajuk seperti eksperimentasi (teknik dan data), peraga teori yang baru, ulasan serta perbincangan ke atas kerja yang telah diterbitkan dan surat kepada editor. Karya hendaklah ditulis dengan baik dan mengikut format jurnal yang telah ditentukan supaya membolehkan penerbitan karya dengan cepat. Karya-karya yang diterima akan dinilai berasaskan mutu dan keaslian kerja serta gaya dan persembahan karya. Segala surat menyurat mengenai karya serta perkara yang berkenaan hendaklah dialamatkan kepada:

Jurnal Kejuruteraan provides a forum for the publication of papers in all areas of engineering. Full length papers, reviews and short communications are welcome, on subjects such as experimentation (both techniques and data), new theoretical models, commentaries work and letters to the editor. Since the emphasis is on original work in progress, the editors also encourage submission of accounts of tentative results, provided they are well documented. Papers which are accepted will be evaluated on the basis of quality and originality of the work as well as the style and presentation of the paper. All correspondence pertaining to papers and related matters should be addressed to:
