## CONTENTS

Preface	vii
Introduction	ix
<i>L.J. Brady</i>	
<b>Physical and Chemical Properties of <math>I_E</math> Clusters</b>	
Survey of $I_E$ Clusters	3
<i>S.Y. Lo</i>	
Possible Mechanism of Formation and Stability of Anomalous State of Water	48
<i>C.Y. Wong and S.Y. Lo</i>	
Dielectric Spectral Study in Low Frequency of $I_E$ Water and Some Other Solvents	65
<i>Li W., Lai T., Li H. and S.Y. Lo</i>	
Inelastic Neutron Scattering Technique and its Application to the $I_E$ Water	81
<i>Y. Wang and J.C. Li</i>	
Atomic Force Microscopy of Adsorbates from $I_E$ Solutions	91
<i>S.N. Magonov</i>	
<b>Application of <math>I_E</math> Technology in Chemical Processes</b>	
Suppression of Coke Formation in the Steam Cracking of Alkanes: Ethane and Propane	105
<i>K.Y.G. Chan, F. Inal and S. Senkan</i>	
Use of $I_E$ Water for the Mitigation of Calcium Carbonate Scaling	124
<i>S.A. Parsons, G. Sanchez and C. Diaper</i>	
Surface, Solution, and Liquid Properties of $I_E$ Water	135
<i>S.D. Christian, J.F. Scamehorn, A. Tabatabai and O. Berson</i>	
Experimental Study of Saturated Pool Boiling Heat Transfer of $I_E$ Water	149
<i>C. Wang</i>	

**Application of I<sub>E</sub> Technology in Areas of  
Microbiology, Biochemistry and Immunology**

<b>Induction and Regulation of Human Peripheral Blood TH1-TH2 Derived Cytokines by I<sub>E</sub> Water Preparations and Synergy with Mitogens</b>	167
<i>B. Bonavida and X.H. Gan</i>	
<b>Effect of I<sub>E</sub> Crystal Water on Enzyme Activity</b>	184
<i>L. Christoserdova and M.E. Lidstrom</i>	
<b>Effect of I<sub>E</sub> Solutions on Enzymes and Microbial Cells</b>	191
<i>A.P. Sinitsyn, O. Berson and S.Y. Lo</i>	
<b>List of Participants</b>	207
