Contents

Foreword	page vii
1 Nutrition Can Be a Fascinating Subject <i>The reasons nutrition is not applied</i>	1
2 Breakfast Gets the Day's Work Done <i>Sugar slowly absorbed gives a sustained pickup</i>	6
3 The Stuff You're Made Of <i>The body structure is largely protein</i>	15
4 One Trick in Staying Young <i>Proteins, generously supplied, repair as wear occurs</i>	20
5 Do Not Underestimate the Familiar <i>Certain fats are as important as are the vitamins</i>	28
6 Can We Prevent Being Deluged? <i>Sugar, sugar everywhere</i>	36
7 Which Apricot? Grown Where? <i>It is difficult to obtain adequate vitamin A</i>	39
8 The Paupers Were Better Off <i>The B vitamins are largely lost when foods are refined</i>	48
9 It Is Only an Assumption <i>The lesser-known B vitamins may be important indeed</i>	53
10 I'm Afraid to Take the Chance <i>More B vitamins which are important too</i>	61
11 Are Blue Mondays Necessary? <i>Perhaps B vitamins can prevent them</i>	70
12 Study Yourself in the Mirror <i>Vitamin B₂ deficiencies often show at a glance</i>	74

x	<i>Let's Eat Right to Keep Fit</i>	
13	It Is No More Important Than the Others <i>Vitamin B₁ does not always enrich</i>	79
14	Foods Taste So Much Better <i>They should be made from fresh unrefined ingredients</i>	84
15	I Wish I Knew <i>Can vitamin supplements meet our varying needs?</i>	92
16	Reducing Blood Cholesterol <i>Open arteries help circulation</i>	97
17	The Two-Hundred-Year-Old Vitamin C <i>Known facts concerning vitamin C are still not applied</i>	103
18	A Finger in Every Pie <i>Vitamin C can protect the body from many harms</i>	109
19	The Nicest People I Know <i>Vitamin D can pay rich dividends</i>	118
20	Needed by Every Cell <i>Vitamin E has many functions</i>	127
21	Your Disposition Tells the Story <i>Calcium helps to relax nerves and tissues</i>	141
22	Nature's Own Tranquilizer <i>Magnesium has much to offer</i>	148
23	As I See It, There's No Excuse <i>The value of iron and iodine has long been known</i>	155
24	There Must Be a Balance <i>Excess sodium causes potassium to be lost</i>	164
25	How Firm a Foundation? <i>Minerals must first be in the soil</i>	174
26	The Perfection That Is You <i>The health of a cell, multiplied by billions, is your health</i>	184
27	Let's Not Be Part-Smart <i>Forty or more nutrients make up normal nutrition</i>	190
28	Personal Rewards of Good Nutrition <i>Normal weight, a happy sex life, and longevity can be such rewards</i>	207

29	How Good Is Our National Health? <i>Primitive peoples surpass us in health</i>	218
30	It Is Easy to Believe <i>To make millions is the goal of the food industry; producing ill-health is incidental</i>	227
31	When Ability Becomes Responsibility <i>What you can do to help build national health</i>	236
	<i>Tables of Food Composition</i>	247
	<i>Index</i>	278
