

INTELLIGENT BROADBAND MULTIMEDIA NETWORKS

Syed V. Ahamed and Victor B. Lawrence

INTELLIGENT BROADBAND MULTIMEDIA NETWORKS

Syed V. Ahamed and Victor B. Lawrence
Bell Labs Innovations, Lucent Technologies

| | |
|---|------------|
| PREFACE | xix |
| PART I GENERIC ASPECTS OF NETWORKS | 1 |
| 1.0 NETWORKS AND COMPUTER SYSTEMS | 3 |
| 1-1 AN HISTORIC PERSPECTIVE | 4 |
| 1-2 TODAY'S ENVIRONMENT..... | 5 |
| Control | 6 |
| Communication | 7 |
| Computation..... | 7 |
| Switching | 8 |
| 1-3 WHAT ARE INTELLIGENT NETWORKS?..... | 9 |
| 1-4 INs AND CONVENTIONAL COMMUNICATION NETWORKS | 16 |
| 1-5 INs AND COMPUTER NETWORKS | 21 |
| 1-6 RECENT SERVICES AND IMPLICATIONS OF INs..... | 23 |
| 1-7 PARALLELISM OF METHODOLOGIES | 25 |
| 1-8 EVOLUTION OF INTELLIGENT NETWORKS CONCEPTS | 27 |
| Stored Program Control | 27 |
| Common Channel Signaling..... | 28 |
| Service Independence | 29 |
| 1-9 REFERENCES—ADDITIONAL READING | 30 |

2.0 BASIC INTELLIGENT NETWORK CONCEPTS 32

| | |
|---|----|
| 2-1 GLOBAL PERSPECTIVE | 33 |
| 2-2 OVERLAP OF IN AND COMPUTER..... | 36 |
| Functions..... | 36 |
| Basic Hardware..... | 36 |
| Devices and Logic..... | 37 |
| 2-3 INFORMATION PROCESSING WITHIN INs..... | 38 |
| 2-4 MONITORING OF INs..... | 41 |
| 2-5 SWITCHING AND TRANSMISSION IN INs..... | 42 |
| 2-6 DATA TRANSPARENCY AND INFORMATION CONTENT | 47 |
| 2-7 INFORMATION RATE OF NETWORKS | 48 |
| 2-8 INFORMATION FLOW AND ITS MANAGEMENT | 51 |
| 2-9 IN ENVIRONMENT..... | 55 |
| IN Design Considerations | 57 |
| Vendor Access | 58 |
| 2-10 CONCLUSIONS | 59 |
| 2-11 REFERENCES—ADDITIONAL READING | 59 |

3.0 NETWORKS AND THE INFORMATION SOCIETY 60

| | |
|--|----|
| 3-1 THE SIGNALING NETWORK..... | 61 |
| CCIS Network..... | 62 |
| The Common Channel Signaling System 7 Network..... | 66 |
| 3-2 DATA NETWORKING AND COMMUNICATION NETWORKING | 70 |
| 3-3 NETWORK TYPES..... | 75 |
| 3-4 THE EVOLUTION OF PHASED INTELLIGENCE IN AMERICAN | 84 |
| 3-5 PUBLIC-SWITCHED NETWORKS | 84 |
| AT&T View..... | 84 |
| Bell Operating Companies' View | 86 |
| 3-6 THE NEAR-TERM PUBLIC DOMAIN INs..... | 88 |
| AT&T View..... | 89 |
| Bell Operating Companies' View | 89 |
| 3-7 TECHNOLOGICAL FEASIBILITY | 90 |
| 3-8 THE IMPACT OF THE 1996 (US) TELECOM DEREGULATION | 91 |
| 3-9 ECONOMIC AND SERVICES FEASIBILITY..... | 92 |
| 3-10 REFERENCES—ADDITIONAL READING | 93 |

4.0 THE ROLE OF THE OSI MODEL..... 94

- 4-1 OSI MODEL AND INTELLIGENT NETWORKS 94
 - Overview in Context to Communication Systems 95
 - Features of the OSI Model within Communication Systems 96
- 4-2 LAYERS OF THE OSI MODEL..... 97
 - Signaling in the IN Environment..... 102
 - Signaling in the Conventional Communication Environment 102
- 4-3 PROTOCOL AND INTERFACES..... 109
- 4-4 PROTOCOL OBJECTIVES AND IMPLEMENTATION..... 115
- 4-5 THE X.25 PACKET-SWITCHED NETWORK STANDARD 117
 - HDLC Features 118
 - Data Transparency 118
 - Transmission Strategy..... 118
 - Link Control and Connections 120
 - Error and Flow Control in X.25 121
- 4-6 REFERENCES—ADDITIONAL READING 123

PART II RECENT AND EVOLVING NETWORKS 124

5.0 WIRELESS COMMUNICATION NETWORKS 127

- 5-1 CUSTOMERS AND THE TECHNOLOGY 128
- 5-2 MODES OF OPERATION..... 128
- 5-3 THE AMERICAN PERSPECTIVE 132
- 5-4 THE EUROPEAN PERSPECTIVE 135
- 5-5 OTHER PERSPECTIVES..... 139
- 5-6 TECHNOLOGICAL OVERVIEW..... 139
 - Transmission Considerations 140
 - Techniques and Models 142
 - Modulation..... 143
 - Interference 144
- 5-7 THE NATURE OF IMPACT FROM WIRELESS TECHNOLOGIES... 145
 - Traditional Landline Applications 145
 - Existing Wireless Technologies..... 146
- 5-8 PERSONAL COMMUNICATION NETWORKS 148
- 5-9 WIRELESS AND INTELLIGENT NETWORKS 150
- 5-10 REFERENCES—ADDITIONAL READING 151

| | |
|---|------------|
| 6.0 RECENT AMERICAN INTELLIGENT NETWORKS | 152 |
| 6-1 IN TYPES..... | 153 |
| 6-2 COMMONALITY AND CONSISTENCY OF INs | 156 |
| 6-3 EVOLUTIONARY ASPECTS OF AMERICAN NETWORKS..... | 157 |
| The Major Events in the Telephone Environments..... | 159 |
| Major Developments toward Intelligent Networks | 166 |
| 6-4 THE ADVANCED 800 SERVICE..... | 171 |
| 6-5 THE ROLE OF ISDN AND ITS IMPACT ON INs..... | 176 |
| Functional Differences | 177 |
| Consistency and Commonality | 178 |
| Collaboration between ISDN and INs..... | 178 |
| 6-6 REFERENCES—ADDITIONAL READING..... | 183 |
| | |
| 7.0 ISDN ELEMENTS AND ARCHITECTURE | 184 |
| 7-1 ISDN USERS..... | 185 |
| 7-2 ISDN ARCHITECTURE..... | 186 |
| ISDN Channels | 188 |
| ISDN General Framework | 189 |
| Conventional and Improved Features in ISDN | 192 |
| ISDN Interface at Customer Premises..... | 193 |
| ISDN Interface at Central Office | 195 |
| 7-3 ISDN SERVICE CAPABILITIES..... | 198 |
| Basic Rate Access..... | 199 |
| Primary Rate Access | 201 |
| 7-4 CLASS I AND CLASS II TERMINALS FOR ISDN..... | 203 |
| 7-5 ISDN BEARER CAPABILITIES..... | 204 |
| 7-6 ISDN LAYER 3 SIGNALS AND MESSAGES | 206 |
| Classifications of the ISDN Signaling..... | 207 |
| Call Processing in ISDN Environment..... | 208 |
| 7-7 BROADBAND ISDN (BISDN) | 210 |
| 7-8 ATM CONCEPTS AND IMPACT | 212 |
| 7-9 REFERENCES—ADDITIONAL READING..... | 216 |

8.0 THE AT&T VIEW OF INTELLIGENT NETWORKS (INs) 217

8-1 THE SWITCHED NETWORK AND NEW ARCHITECTURES 218

8-2 THE ADVANCED 800 SERVICES NETWORK..... 219

8-3 THE DIGITAL DERIVED SERVICES NETWORK 220

8-4 THE UNIVERSAL INFORMATION SERVICES NETWORK..... 221

8-5 UNIVERSAL INFORMATION SERVICES NETWORK COMPONENTS 222

 Service Switching Points in UISN 223

 Signal Transfer Points in UISN..... 223

 Service Control Points in UISN..... 224

 Off-Network Node or the Intelligent Peripheral in UISN 224

 Service Management System in the UISN 225

8-6 TWO-TIER SERVICES ARCHITECTURE IN UISN..... 225

8-7 THE ENRICHED SERVICES TIER OF THE UISN..... 226

8-8 THE TRANSPORT TIER OF THE UISN 226

8-9 CUSTOMER INTERFACE FOR UISN..... 226

8-10 REFERENCES—ADDITIONAL READING 227

9.0 THE BCR VIEW OF INTELLIGENT NETWORKS (INs) 229

9-1 INTELLIGENT NETWORKS (IN/1,IN/1+,IN/2) 230

9-2 IN/1 ARCHITECTURE AND BUILDING BLOCKS 231

9-3 SERVICE SWITCHING POINTS 232

9-4 SERVICE CONTROL POINTS 233

 Hardware Aspects 234

 Software Aspects..... 235

9-5 SERVICE MANAGEMENT SYSTEM 237

9-6 SIGNAL TRANSFER POINTS..... 238

9-7 THE 800 SERVICE 239

 Alternate Billing Service..... 240

 Private Virtual Networks..... 242

 Area Wide Centrex 245

 ERS or Emergency Response Systems..... 245

9-8 REFERENCES—ADDITIONAL READING 248

| | |
|---|------------|
| 10. INTELLIGENT NETWORKS/1+ (IN/1+)..... | 250 |
| 10-1 IN/1+ BUILDING BLOCKS OR NETWORK ELEMENTS..... | 251 |
| 10-2 SERVICE SWITCHING POINT FACILITY..... | 253 |
| 10-3 THE INTELLIGENT NETWORK ACCESS POINT..... | 257 |
| 10-4 SERVICE CONTROL POINT FOR IN/1+..... | 258 |
| 10-5 THE SERVICE LOGIC INTERPRETER (SLI/1+)..... | 258 |
| 10-6 INTELLIGENT PERIPHERAL FOR IN/1+ (IP)..... | 260 |
| 10-7 INTEGRATED SERVICE MANAGEMENT SYSTEM FOR IN/1+ (ISMS)..... | 261 |
| 10-8 REFERENCES—ADDITIONAL READING..... | 262 |
| | |
| 11. INTELLIGENT NETWORKS/2 (IN/2) | 264 |
| 11-1 ELEMENTS OF IN/2..... | 264 |
| 11-2 ARCHITECTURE OF IN/2..... | 267 |
| 11-3 IN/2 ARCHITECTURAL ELEMENTS..... | 272 |
| 11-4 SERVICE SWITCHING POINT/2..... | 272 |
| SLI (Resident at SSP/2 and/or SCP/2 and/or IP)..... | 273 |
| NID (Resident at SSP/2 and/or SCP/2 and/or IP)..... | 274 |
| NRM (Resident at SSP/2 and/or SCP/2 and/or IP)..... | 275 |
| 11-5 SERVICE CONTROL POINT/2 (SCP/2)..... | 275 |
| Evolution of the Service Logic Interpreter (SLI)..... | 275 |
| Evolving Service Logic Programs..... | 276 |
| Suggested Functional Components (FCs)..... | 276 |
| 11-6 SIGNAL TRANSFER POINTS..... | 278 |
| 11-7 INTELLIGENT PERIPHERAL (IP)..... | 278 |
| 11-8 OPERATIONS SYSTEMS (SMS/2 AND SCE)..... | 278 |
| 11-9 VENDOR FEATURE NODES..... | 279 |
| 11-10 SUMMARY AND OVERVIEW OF PUBLIC DOMAIN INs..... | 280 |
| 11-11 REFERENCES—ADDITIONAL READING..... | 280 |
| | |
| 12. GLOBAL INTELLIGENT NETWORKS..... | 282 |
| 12-1 THE INTELLIGENT NETWORK CONCEPTUAL MODEL AND CAPABILITY SETS (INCM & CS)..... | 283 |
| INCM Evolution..... | 284 |
| Four Planes of INCM..... | 284 |

| | |
|--|-----|
| 12-2 SIMILAR COMPONENTS, DIFFERENT CONFIGURATIONS..... | 291 |
| 12-3 BRITISH TELECOM IN (DDSN) | 292 |
| Geographical and Architectural Differences | 293 |
| DDSN and ISDN in the United Kingdom | 296 |
| 12-4 TELEFONICA IN SPAIN | 297 |
| Network Control and IN Features | 297 |
| Major Switching Facilities | 301 |
| Signaling in Telefonica | 301 |
| 12-5 SIP AND ASST IN ITALY | 303 |
| ISDN in Italy | 304 |
| Traditional IN Evolution | 305 |
| 12-6 FRENCH IN ENVIRONMENTS | 308 |
| 12-7 RECENT CANADIAN ENVIRONMENTS | 311 |
| 12-8 JAPANESE IN ENVIRONMENTS | 314 |
| 12-9 REFERENCES—ADDITIONAL READING | 317 |

13. ADVANCED INTELLIGENT NETWORKS

| | |
|--|------------|
| (AINs) | 318 |
| 13-1 GENERIC COMPONENTS OF AINs | 319 |
| Design of the Service Switching Points | 320 |
| Service Control Points | 321 |
| Signal Transfer Points | 322 |
| Intelligent Peripherals | 324 |
| Service Management System | 324 |
| AINs and Private INs | 324 |
| 13-2 AIN PLATFORMS | 325 |
| 13-3 AIN PLATFORMS 0 AND 1 | 326 |
| Service Circuit Node | 328 |
| Network Access Node | 328 |
| Operations Systems | 329 |
| 13-4 NEW ENVIRONMENTS AND SERVICES | 329 |
| The Role of Adjuncts | 331 |
| SCN Developments | 331 |
| Wireless Environments and AINs | 333 |
| 13-5 MICROSCOPIC AIN | 333 |
| 13-6 MACROSCOPIC AIN | 335 |
| 13-7 REFERENCES—ADDITIONAL READING | 335 |

PART III FUTURE INTELLIGENT NETWORKS.. 337

14. EVOLVING EDUCATIONAL ENVIRONMENTS:A PROJECTED IMPACT OF RECENT NETWORKS 339

| | |
|--|-----|
| 14-1 TECHNOLOGY AND EDUCATION | 340 |
| 14-2 SUMMARY OF MAJOR SOCIOECONOMIC INTERACTIONS | 340 |
| 14-3 DIGITAL REVOLUTION AND EDUCATIONAL ENVIRONMENTS | 342 |
| 14-4 BASIC SYSTEM MODEL..... | 344 |
| Role of the Communication Networks | 345 |
| Role of Microprocessor Industry | 346 |
| Role of CD ROM Disc Technology..... | 346 |
| Role of Graphic Interfaces and Video Compression..... | 347 |
| 14-5 EXISTING PLATFORM FOR MBES | 347 |
| A New Open System Educational Interconnect (OSEI) | |
| Implementation | 352 |
| Proposed Partial Implementation | 352 |
| 14-6 CONCLUSIONS | 352 |
| 14-7 REFERENCES | 353 |

15. ARCHITECTURAL CONSIDERATION IN THE DESIGN OF NETWORK-BASED EDUCATIONAL SYSTEMS..... 354

| | |
|--|-----|
| 15-1 DIRECTION OF INS..... | 356 |
| 15-2 THE EDUCATOR'S PERSPECTIVE | 356 |
| Features Common to Educational Environments | 357 |
| Role of Networks in Education Environments | 357 |
| Role of Knowledge Bases in Educational Environments | 358 |
| 15-3 THE NETWORK DESIGNER'S PERSPECTIVE: BASIC EXISTING BUILDING BLOCKS..... | 359 |
| Campus Networks | 359 |
| Very High-Speed Data Networks..... | 359 |
| Knowledge Bases..... | 360 |
| 15-4 OTHER ELEMENTS OF THE NETWORK | 360 |
| Knowledge Ring | 360 |
| Knowledge Management System | 361 |
| 15-5 NEW KEY ELEMENTS IN THE NETWORK | 362 |

Knowledge Query Point or Software Interface between NBES and CN... 362
 The Knowledge Transfer Point..... 363
 KQP-KTP Combination..... 363
 Knowledge Control Point..... 364
 Knowledge Logic Interpreter..... 364
 KCP-KR Protocol..... 364
 NBES Network Protocol..... 365
 15-6 EXISTING PLATFORM FOR NBES..... 365
 15-7 ARCHITECTURE OF NBES..... 365
 15-8 INTELLIGENT (AI) FUNCTIONS OF NBES..... 367
 Supplementary Knowledge..... 367
 Complementary Knowledge..... 369
 Inductive Knowledge..... 369
 Analogical Knowledge..... 369
 Deadlocked (Self-Contradictory) Pursuits..... 370
 15-9 CONCLUSIONS..... 370
 15-10 REFERENCES..... 371

16. INTEGRATED MEDICAL SYSTEMS 374

16-1 IMS METHODOLOGY..... 375
 16-2 PROCESSOR ENVIRONMENTS IN IMS..... 376
 16-3 MEDICAL COMPUTER ARCHITECTURE..... 377
 The Medical Processor Unit (MPU)..... 377
 Subprocedure Instructions..... 378
 Speed and Capacity of the MPU..... 380
 16-4 ARCHITECTURAL CONSIDERATIONS..... 381
 Processor-Based, Local-Knowledge-Bank System..... 381
 Distributed-Knowledge-Bank System..... 383
 16-5 INPUT/OUTPUT CONSIDERATIONS..... 385
 Input Aspects..... 385
 Output Aspects..... 386
 Overall I/O design..... 386
 16-6 IMPLEMENTATION CONSIDERATIONS..... 387
 16-7 MACHINE/NETWORK FAILURE AND OTHER CATASTROPHIC
 EVENTS..... 389
 16-8 CONCLUSIONS..... 390
 16-9 REFERENCES..... 390

| | |
|---|------------|
| 17. ARCHITECTURE OF A KNOWLEDGE MACHINE | 393 |
| 17-1 PROCESSING..... | 394 |
| Conventional Processing..... | 394 |
| Call Processing..... | 394 |
| Service Processing | 395 |
| 17-2 PLATFORM OF THE KNOWLEDGE MACHINE (KM) | 396 |
| Communication Module of the KM | 397 |
| Switching Module of the KM..... | 397 |
| Administrative Module of the KM..... | 401 |
| Knowledge Module(s) of the KM | 402 |
| 17-3 ARCHITECTURE OF THE KM..... | 403 |
| Single Processor Environments..... | 403 |
| Multiprocessor-Based Environments | 405 |
| 17-4 ALTERNATE ARCHITECTURES | 408 |
| 17-5 A MULTIFUNCTIONAL INTELLIGENT NETWORK..... | 408 |
| An Integrated Design Approach..... | 409 |
| Proposed Architecture..... | 410 |
| Design Options..... | 410 |
| 17-6 CONCLUSIONS | 411 |
| 17-7 REFERENCES | 411 |
| | |
| 18. ARCHITECTURE OF A KNOWLEDGE PROCESSING SYSTEM (KPS)..... | 414 |
| 18-1 BASIC BUILDING BLOCKS..... | 415 |
| Data Base Unit (DBU)..... | 416 |
| Knowledge Processor Unit (KPU)..... | 417 |
| Numerical Processor Unit (NPU)..... | 417 |
| 18-2 BLOCK DIAGRAM OF THE KPS..... | 418 |
| The DBU and Its Functionality | 419 |
| The CPU and KPU Cycle..... | 421 |
| The "Fetch" of CPU and KPU | 423 |
| The "Decode" of CPU and KPU..... | 424 |
| The "Execute" of the CPU and KPU | 427 |
| The "Fuzzy" NPU | 428 |
| 18-3 DESIGN AND IMPLEMENTATION OF THE SYSTEM | 428 |
| Program Execution Mode of the KPU | 430 |
| Learning Mode of the KPU..... | 436 |
| Program Execution Sequence in the Learning Mode | 440 |

| | |
|------------------------|-----|
| 18-4 CONCLUSIONS | 440 |
| 18-5 REFERENCES | 441 |

19. HOME INTELLIGENCE: PERSONAL COMPUTER-BASED INTELLIGENT HOME NETWORKS 443

| | |
|---|-----|
| 19-1 GENERIC COMPONENTS | 444 |
| 19-2 EXISTING TECHNOLOGICAL PRECEPTS AND CONCEPTS | 445 |
| SSP, STP, SCP, SMS, and IP of the INs..... | 445 |
| Processor, Memories, Switches, and I/O Devices of PCs | 447 |
| 19-3 THE HUMAN ASPECTS | 449 |
| Self, Mind, and Society | 449 |
| Need, Motivation, and Struggle | 450 |
| Self, Mind, Society, and the PIN..... | 451 |
| Need, Motivation, Struggle, and the PIN | 452 |
| Humanistic and Human Transactions..... | 454 |
| 19-4 BASIC BUILDING BLOCKS OF PIN | 455 |
| 19-5 ARCHITECTURE AND IMPLEMENTATION..... | 455 |
| Single User PC Implementation of PIN | 458 |
| Multiuser PC Implementation of PIN | 459 |
| 19-6 IMPLEMENTATION AND DESIGN OF THE PPU | 460 |
| 19-7 CONCLUSIONS | 466 |
| 19-8 REFERENCES | 467 |

20. SOCIAL AND CULTURAL IMPACT OF INTELLIGENT BROADBAND MULTIMEDIA NETWORKS 469

| | |
|---|-----|
| 20-1 TWO MAJOR FORCES | 470 |
| Network Perspective | 471 |
| Knowledge Processing In Networks | 473 |
| Evolutionary Planning..... | 474 |
| 20-2 THE EVOLVING KNOWLEDGE SOCIETY | 475 |
| The New Knowledge Tools | 476 |
| The New Communication Methodologies..... | 477 |
| 20-3 IMPACT ON SOCIETY..... | 478 |
| Use and Misuse in Personal Life..... | 478 |
| Psychological and Social Isolation..... | 478 |

| | |
|--|-----|
| Family Structure..... | 479 |
| Public Sector..... | 480 |
| Educational Sector..... | 481 |
| Service Sector..... | 481 |
| Corporate, Business, and Industrial Sectors..... | 482 |
| 20-4 CULTURAL INFLUENCE..... | 484 |
| Progression..... | 484 |
| Regression..... | 486 |
| Compromise..... | 487 |
| 20-5 A PERSPECTIVE AND A PLAN..... | 489 |
| The Impending Change..... | 489 |
| A Plan..... | 490 |
| 20-6 AUTHORS' NOTE..... | 491 |
| 20-7 REFERENCES..... | 492 |
| | |
| GLOSSARY..... | 496 |
| | |
| INDEX..... | 537 |
