managing in  
turbulent times

*his new guide for management today*

# Contents

|                     |          |
|---------------------|----------|
| <b>Introduction</b> | <b>7</b> |
|---------------------|----------|

## **1 Managing the fundamentals**

|  |    |
|--|----|
| Adjusting for inflation                                    | 14 |
| Managing for liquidity and financial strength              | 16 |
| Managing productivities                                    | 18 |
| The productivity of the knowledge worker                   | 26 |
| The costs of staying in business v. the delusion of profit | 31 |

## **2 Managing for tomorrow**

|                                    |    |
|------------------------------------|----|
| Concentrating resources on results | 43 |
| Sloughing off yesterday            | 45 |
| Managing growth                    | 47 |
| Managing innovation and change     | 50 |
| Business strategies for tomorrow   | 61 |
| A scorecard for managers           | 68 |

## **3 Managing the sea-change: the new population structure and the new population dynamics**

|   |     |
|---|-----|
| The new realities                                 | 76  |
| Production sharing: the transnational integration | 94  |
| The new consumer markets                          | 108 |
| The implications for managerial strategies        | 114 |
| From 'labour force' to 'labour forces'            | 116 |
| The end of mandatory retirement age               | 122 |
| The 'double-headed monster'                       | 127 |
| Job needs in the developing countries             | 131 |
| The need for redundancy planning                  | 139 |

## **4 Managing in turbulent environments**

|   |            |
|---|------------|
| <b>The integrated world economy</b>                   | <b>152</b> |
| <b>Transnational world money</b>                      | <b>153</b> |
| <b>The end of sovereignty</b>                         | <b>159</b> |
| <b>The fractured world polity</b>                     | <b>165</b> |
| <b>The world economy's almost-developed countries</b> | <b>167</b> |
| <b>Business policies for the world economy</b>        | <b>174</b> |
| <b>The employee society</b>                           | <b>177</b> |
| <b>'Power follows property'</b>                       | <b>186</b> |
| <b>Can the labour union survive?</b>                  | <b>195</b> |
| <b>Business enterprise as a political institution</b> | <b>200</b> |
| <b>Managing in a political environment</b>            | <b>212</b> |

**Conclusion: the challenge to management** **219**
