Preface	xi
Acknowledgments	xv

1. Introduction **1**

What on Earth Will Happen Next?	1
The New Business Environment	4
Seven Key Drivers of the New Business Environment	6
The New Enterprise	10
The New Paradigm in Information Technology	13
Three Critical Shifts in the Application of Information Technology	14
Eight Critical Technology Shifts	18
The New Challenges	26

Part 1. The Promise **29**

2. The High-Performance Business Team **31**

The Business Team and the Open Networked Organization	32
In Praise of Hierarchy?	35
How People Used Computers in the First Era	36
The Transition to Era II	37
Work Reengineering	38
Work-Group Computing	41
The Impact of Work-Group Computing	45
Work-Group Computing Functionality	48

Citicorp: Building the High-Performance Team	53
Summary: Work-Group Computing—The Shifts	56

3. The Integrated Organization **57**

Era I Systems: Islands of Technology	58
The Problem of the Unintegrated Enterprise	61
The Integrated Organization and Integrated Systems	62
Location, Location, Location	65
Multimedia Customer Support	67
Smart Card, Smart Key, Smart Customer	68
“Diet Coke—Phone Home”	69
Artificial Intelligence Gets Integrated	69
A New “Image” for the Enterprise	71
Getting at the Information Resource	72
Summary: The Integrated Enterprise—The Shifts	86

4. The Extended Enterprise **87**

Reaching Out to Customers	89
Reaching Out to Suppliers	90
Reaching Out to Affinity Organizations	91
Reaching Out to Competitors	91
The Technology of External Reach	93
Beyond the Fax Tip of the Iceberg	95
Document Interchange Goes (Fully) Electronic	96
Reaching to the Customer at the Point of Sale	100
It's in the Mail	102
Interenterprise Databases, Applications	105
I'd Rather Talk to the Computer, Thank You	106
Should You Become an Information Provider?	108
Summary: The Extended Enterprise—The Shifts	118

Part 2. The New Technology Paradigm **119**

5. Network Computing Comes of Age **121**

Era I Host Computing Environments	122
What Is Network Computing?	124
The Client/Server Approach	126
Why Network Computing?	126
Whither the Host?	132

6. Open Systems for an Open World **135**

What Are Open Systems Anyway?	136
-------------------------------	-----

The Origins of Open Systems	138
Standards: Not a New Thing	140
Do Standards Inhibit Innovation?	142
Information Technology Grows Up	143
Achieving Open Systems: Six Critical Areas of Standards	144
The Initial Case for Open Systems	150
How Open Systems Reduce IT Costs	151
Value-Added Benefits of Open Systems	156
Four Seasons Hotels: Open for Business	158
The Changing Case for Open Systems	160
The Standards-Based Architecture	161
Open Standards and Standards That Are Opening	162
Open Systems Don't Simply Provide Benefits	163

7. The Industrial Revolution in Software **165**

Software as Art or Craft	167
Seven Problems with Software as Art	168
The Shift: From Craft to Manufacturing	170
Theme One: The Rise of "Lego" Software	172
Theme Two: Software Goes Gooney	174
Theme Three: Software Can Be Engineered	175
Theme Four: Computers Can Help Develop Computer Systems	178
Theme Five: Rise of the Software Parts Industry	179
Theme Six: You Are Becoming a Programmer	179

Part 3. The Transition **181**

8. Achieving a Shared, New Vision **185**

The Era II Transitioning Framework	186
The Demise of the IT Strategic Plan	189
Five Guidelines for Achieving Vision	197

9. Reengineering the Business **207**

New Technology—New Enterprise: Ten Corresponding Themes	208
Thirty Principles of IT-Enabled Work Reengineering	213
Are We Just Rehashing Total Quality Management?	218
Eight Guidelines for Work Reengineering Programs	219
Plateaus for Work Reengineering	220
Building a Team Structure: The Shell Brockville Plant	226
Recasting External Relationships: Opening the Enterprise	229

10. Retooling Information Technology	231
Toward the Standards-Based Architecture	234
The Architecture Framework	236
IT Architectural Principles	241
Technology Architecture	246
Ten Guidelines for Achieving an Era II IT Architecture	254
11. Realigning the IS Function	257
The Stereotypical Era I IS Organization	258
The New Strains on the IS Organization	260
Building the High-Performance IS Function: What Is Involved?	262
Eight Symptoms of an Organizational Alignment Problem	263
Reimaging: Twelve Principles of IS Alignment	264
Five Structures for Aligning IS with the Business	266
Making the Transition to the Second-Era IS Organization	278
12. Leadership for the Transition	281
The Leadership Crisis	281
Leadership for the Work Group: Eight Lessons from Audrey Howe	284
Jack Hoffman and the Transformation of the IS Executive	286
The Chief Information Officer and the Gorbachev Syndrome	288
Leadership for Learning	291
How People Learn the New Paradigm	293
An Organizational Learning Program for the Shift	294
Leadership and the IT Industry	300
Nine Themes of the New IT Industry	301
Leadership for a Changing World	309
Leadership for the Transition Is Your Opportunity	312
Notes	315
Index	325
