

PLEA 91

ARCHITECTURE AND URBAN SPACE

Edited by

**SERVANDO ALVAREZ
JAIME LOPEZ DE ASIAIN
SIMOS YANNAS
E. DE OLIVEIRA FERNANDES**

CONTENTS

Part 1: ARCHITECTURE AND URBAN SPACE

Architecture and Urban Space	
A. Cruz, A. Ortiz	3
Searching for the Bioclimatic City	
J. Cook	7

Part 2: URBAN SPACE

Urban Design for Hot Humid and Hot Dry Regions	
B. Givoni	19

Chapter 1: Climatology and Urban Space

Wind in Urban Spaces. Development and Application of an Evaluation Method	
---	--

A. Fernández, S. de Schiller, J.M. Evans	35
--	----

Reduction of Cooling Loads and CO_2 Emissions Through the Use of Vegetation in Italian Urban Areas	
G. Barbera, G. Pecorella, G. Silvestrini	41

Analysis of Thermal Effects of Urbanization	
I.A. Camilloni, V.R. Barros	47

Facing Environmental Issues in Our Cities: the Case of Lima, Peru	
L.O. Beltran, G.L. López	53

Chapter 2: Urban Design Concepts and Methods

Solar Rights and Planning Codes	
G. Casabianca, J.M. Evans, S. de Schiller	61

Decision Project Following Informative System for Environmental Quality Control	
G. Caterina	67

Control Techniques of Environmental Quality in Urban Space: Research and Case-Study	
G. Cuppini, A. Mingozzi, G. Bacci	75

Integration of Urban Edges and Architecture	
G. Intini	81

An Environment-Site-Urban Space-Architecture Card Index J. Bouillot	87
Scientific Knowledge and Urban Design. The Role of Modelling and Simulation J.P. Peneau	93
Quality for Public Urban Space and Pedestrian Movement N. Pressman	99
Design of Outdoor Spaces: Socio-Political Tendencies and Bioclimatic Consequences S. de Schiller, J.M. Evans	109
Chapter 3: Urban Projects	
Proposed Historic Trail for Almadinah Almunawarah A.M. Farahat, A. Turki	117
Covered Pedestrian Spaces Along Revolution Boulevard in Belgrade D. Radovic	125
Urban Plan for a New Neighbourhood in Seville J. López de Asiaín, J.M. Cabeza	129
Barkantine 2.000: A Green Plan for London Docklands D. Turrent	135
Urban Conception of the Old City of Nice to Provide Thermal Comfort E. Rauzier, X. Berger	139
Prehistoric Pueblos & Plazas of the Anasazi J. Cook	145
Chapter 4: Outdoor Spaces	
Planning for Visitor Comfort, Outdoors, at the United States Pavilion, EXPO'92, Seville, Spain M.R. Yoklic, N.V. Chalfoun, T.L. Thompson, D. Macloed, B. Myers	153
Evaporative Cooling for Large Exhibition Spaces: A Methodology for Systems Design/Engineering Based on Human Comfort N.G. Hicks, T.L. Thompson, M.R. Yoklic, N.V. Chalfoun, K.J. Kent	159
Summer Comfort in Urban Environment R. Serra, H. Coch, A. Isalgué, N. Sierra	165
General Aspects of the Work on Climatic Control of Outdoor Spaces at EXPO'92 R. Velázquez, S. Alvarez, J. Guerra, E.A. Rodríguez, J.M. Cejudo	171

Comfort Issues in the Outdoor Spaces at EXPO'92 J. Guerra, S. Alvarez, E.A. Rodríguez, R. Velázquez	179
Climatic Control Applications in Outdoor Spaces at EXPO'92 S. Alvarez, J. Guerra, R. Velázquez	189
The Avenue of Europe at EXPO'92: Application of Cool Towers S. Alvarez, E.A. Rodríguez, J.L. Molina	195
Case Study of Outdoor Climatic Comfort: The Palenque at EXPO'92 R. Velázquez, J. Guerra, S. Alvarez, J.M. Cejudo	203
Full Scale Experiments in EXPO'92: The Bioclimatic Rotunda S. Alvarez, J.M. Cejudo, E.A. Rodríguez, J. Guerra	209
The Open Spaces of EXPO'92 J. López de Asiaín, J. Pérez de Lama, J.M. Cabeza, A.L. Ballesteros	217

Part 3: BUILDING DESIGN

Chapter 1: Building Design Concepts

Smart Bioclimatic House A. Krainer	227
The Hidden Dimension. An Eye-Opener for the Architect A.N. Tombazis	233
Passive Solar for Small Compact Buildings: A New Design Paradigm D. Procos	239
Bioclimatic Characteristics of Some Traditional Urban and Architectural Forms in Montenegro D. Vuksanovic	245
ATRIA - Temperate Climate Responses G. Robertson	251
Le Corbusier and the Mur Neutralisant: An Early Experiment in Double En- velope Construction H.J. Bryan	257
Residential Densities and Application of Passive Solar Systems J.P. Milica	263
The patio: A Constant in Mediterranean Architecture; Climate and Symbol- ism J. Pérez de Lama, J.M. Cabeza	269
Low Energy Design in an Urban Context K.A. Steemers	275

Advisory Project Rules for the Re-use of Rural Settlements in Lombardy M. Bottero, N. Braulin, E. Costa, C. Fontana	281
Not Every Courtyard is Necessarily a Good one Climatically S. Al-Azzawi	287
The thermal Gestalt S.V. Szokolay	299
Chapter 2: Projects	
Bioclimatic Projects in Florence A. Gioli, P. Puccetti, M. Sala, A. Toti	307
The Architecture of A.N. Tombazis and Associates A.N. Tombazis	313
Design of a Naturally Ventilated Laboratory Building in Leicester, England B. Ford, A. Short	319
Library and Cultural Center Herten City D. Schempp	325
Urban Housing Tender in Dortmund-Wellinghofen, Germany D. Schempp	331
Research Laboratory for Experimental Traumatology(EX-TRA) D. Schempp	337
Hotel, 42 the Calls, Leeds, Urban Regeneration D. Clarke	343
The Axis Mundi and Solar Architecture D.J. Oppenheim	349
A Solar House in the Centre of Athens. Evaluation of the Thermal Performance E. Andreadaki, C. Spyropoulou	353
An Environmental Housing Design for Ecolonia, Alphen Aan de Rijn, the Netherlands F.E. Bakker, A.P. Thijssen	359
El Centro de Información e Interpretación de la Naturaleza en el Parque Natural del Penyal d'Ifac. Calpe (Alicante). Spain I. Blanco	365
The Hacienda Porzuna Environmental Educational Centre I. Blanco	371
Educational Facility for the Disabled J. López de Asiaín, J.M. Cabeza	377

Bioclimatic Design as an Alternative Solution to the Environmental and Energy Problems Related to Buildings in Urban and Rural Settlements of Mexico J.R. García	385
Solar Indoor Sports Centre in Thessaloniki, Greece K. Antoniou, M. Papadopoulos, K. Pattas, B. Sotiropoulos.	393
A Low Energy House in Warm Humid Region of Brazil L.S. Bittencourt	399
Passive Components in Residential Buildings M. Sala, L. Ceccherini	405
Cultural Center - Yenitsa, Greece M.E. Nomikos	411
Passive Heating and Cooling in Dwellings. Castilla-La Mancha S. Hernández	417
Retrofit- Feasibility study S. Kovic. A. Krainer	423
 Part 4: DESIGN AIDS	
Strategic Design Tools for non-Domestic Buildings N. Baker	431
LESOSAI-X: A Software Package with Expertise A. Faist, F. Leresche	441
Hypercoen A. van Hal, K. Duijvestein	447
SETIS: An Intelligent System for Thermal Design of Buildings C. Robin, J. Brau, P. Depecker	451
Automatic Determination of Solar Access and Shading of Buildings in Complex Situations. Graphic and Analytical Approaches L. Bonanno, M. Pietrafesa, G. Rizzo, A. Nucara	457
A Design Tool for Direct Solar Gain Evaluation M.A. Herrero, M. Rodríguez	463
The Respect of Constraints in Urban Sites in CAD P. Fernández, A. Chatelet, M. Gerber	469
First Developments of ADLINE: A Link between a CAD Program and Daylighting Design Tools R. Compagnon, C. Green, J.L. Scartezzini	475

Part 5: PASSIVE AND LOW ENERGY TECHNOLOGIES

Chapter 1: Progress in Model Development and Simulation

Coupling Ventilation Network and HVAC Systems to Multizone Infiltration Models

A.C. Megri, F. Allard, G. Krauss 485

Evaluation of Passive Solar Components by Identification Techniques: Tests for Model Validation Purposes.

E. Palomo, F.M. Téllez, J. Marco, M.R. Heras 491

Water Drops as a Natural Cooling Resource. Physical Principles

E.A. Rodríguez, S. Alvarez, R. Martín 499

Laboratory Modelling of Natural Ventilation Via Chimneys

G.F. Lane-Serff, P.F. Linden, D.J. Parker, D.A. Smeed 505

Thermal Behavior Modelling of Buildings: The Need of Adapted Models

J.J. Roux, C. Inard, G. Krauss 511

A Frequency-Domain Identification Method Applied to Simplified Modelling of Building Elements

J.M. Cejudo, J. Guerra, J.L. Molina 519

A Simple Model for the Estimation of Potential Cooling by Nighttime Ventilation

J. Van der Maas, C.A. Roulet 525

Chapter 2: Components Performance

Experimental Characterization for Daylighting Innovative Components

F. Aleo, M. Antinucci, P. Carbonaro 533

Some Considerations on the Environmental Properties of Domes

J.M. Cabeza 541

Procedure to Evaluate the Efficiency of Shading Devices

G. Gómez 549

Plastic Multilayer Ribbed Sheets for Bioclimatic Buildings

G. Raffellini, S. Piva 555

Approach to Technologies of Solar Concentrators by Refraction to Architecture and Urban Planning

J.I. Pérez 561

Bioclimatic Health Center with Solar Roof

J. Martínez 569

SAV System: Towards the Ideal Component

X. Traver, M. Miró, F. Bonvehí, A. Trias 575

Intelligent Building: Low Consumption and Increased Comfort X. Traver, M. Pujol, A. Trias, X. Millet	581
Chapter 3: Cooling	
An Illustration of Semi-Passive Bioclimatic Architecture: The Belgian Pavilion Project for the Seville World Fair 1992 A.C. Gillet, J.M. de Laminne, S. Lefebvre	589
Intelligent Control of Night-Time Ventilation A.C. Pitts, R.S. Abro	595
Thermal Processes in Building Envelopes to Improve Summer Comfort A.N. Ayoob, R.A. Attalage	601
Thermal Behaviour of Roof Covers in Humid Tropical Microclimates C. Barroso, O.D. Corbella	607
The Effect of Convection on a Roof Pond Cooled by Radiation in a Hot-Arid Climate. E. Erell, Y. Etzion	613
Direct Air Cooling from Water Drop Evaporation E.A. Rodríguez, S. Alvarez, R. Martín	619
Thermal Performance of Water Ponds: Modelling and Cooling Applications J. Guerra, J.L. Molina , J.M. Cejudo	625
Evaporative Cooling Effects in Hot and Humid Urban Spaces K.I. Kimura	631
Performance Evaluation of Buildings Associated with Earth to Air Heat Exchangers. The Cooling Potential M. Santamouris, G. Agas, T. Matsagos, T. Argyriou, K. Theofilaktos	637
Preliminary Investigation of the Effect of a Passive Direct Evaporative Cooling System on a Courtyard at UCLA N.A. Alhemiddi	643

Part 6: BUILDING ENERGY ANALYSIS

Chapter 1: Climatic Data

Applying Reduced Weather Data to Temperate Climates for Energy Analyses of Buildings M. Columba, S. Barbaro , G. Cannistraro, G. Rizzo	653
A Method to Determine a Set of Statistically Independent Climatic Elements. Application to 44 Urban Stations All over Peninsular Spain M. Pardo, C. Gómez	659

Climatic Sequences in Urban Environment R. Serra, X. Solsona, J. Roset	665
 Chapter 2: Concepts and Methods	
Termographic Projections for Evaluating Energy Performances D. Nicoletti	673
Energy Consumption and Wall Openings in Commercial Building J.C. Klainsek	679
Passive Solar Energy as a Fuel J.V. Doggart	685
Users Response and Energy Consumption Profile in Bioclimatic Architecture J.A. Cusidó, J. Jorge, J. Puigdomenech, J.J. Escobar, J. Esteves, A. Mitja	691
Comparison of Energy Balances of Passive and Conventional Premises Differentiations in the Performance of the Passive Systems. M. Papadopoulos, N. Chrisomallidou, K. Kotoulas, M. Zygomalas	697
The Climate of Urban Spaces as a Decisive Energy Parameter in Building Design and Construction N. Chrisomallidou	703
Solar Design Zones for Queensland S.V. Szokolay	709
New Portuguese Building Thermal Regulations: A Passive and Low Energy Approach V. Abrantes, M. da Silva	715
 Chapter 3: Case Studies	
Measured Performance of a Passively Cooled Industrial Building in Malta. Preliminary Results B. Ford	723
Modular Systems for Natural Ventilation Research on New Typologies for a Tropical Architecture A. Adarve	729
Use of Basement in Passive Cooling of an Administrative Building in Sion (Switzerland) B. Lachal, R. Meldem, W. Weber, C. Ancay, O. Guisan	737
A Solar Passive House in an Urban Context: Simulations E. Gratia, B. Meersseman	743

Simulating the Thermal Performance of Naturally Ventilated Spaces: A Case Study	
H. Eppel, K.J. Lomas	749
A Low Energy Design for King Alfred School, London	
J. Walker, M. Wilson, Y. Dean, J. Van Heyningen, B. Haward, N. Choudhury	755
Passive Cooling Techniques in Industrial Buildings: A Simulation and Evaluation Study	
J.L. Molina, J. Guerra, R. Velázquez	761
Comparison between Simulation and Experimentation Applied to Real Building	
M.R. Heras, J. Marco, J.L. Montesinos	767
Experimental Analysis of Energetic Behaviour in an Specific Typology of Spanish Vernacular Architecture	
M.R. Heras, J. Marco, J.L. Montesinos	773
A Thermal Improvement of a 9 Story Building, Built in 1963, Situated in the Suburb of Geneva (Switzerland)	
W. Weber, B. Lachal, A. Gsponer, O. Guisan	779
Bioclimatic Design for an Elementary School in Northern Japan	
Y. Kodama	785

Part 7: EDUCATION AND TECHNOLOGY TRANSFER

The Negev Design and Construction Workshop: An Alternative Education Prototype	
I.A. Meir	793
Modelling Wind/Building Interactions Using Computer Animated Graphics: An Evaluation of the Educational Effectiveness	
K. McCartney and P.J. Rhodes	799
Eco-Design-Aid	
L. Gommans, K. Duijvestein	805
Assessing and Meeting the Needs in Energy and Environmental Education in the 1990s: the Situation in Britain	
S. Roaf, M. Hancock	809
Building 2000: Technology Transfer and the Design Process; Pilot Study of Five UK Projects	
S. Wolff, M. Wilson	817

Part 8: LATE PAPERS

One 'Manzana' on the Wind J.A. Ramirez	825
Energy: A Letter in the Alphabet of Architecture S. Kristl	831
Influence of Spectrally Selective Paint Coatings on Building Thermal Response B. Orel, M. Klanjsek, A. Krainer	837
Energy Analysis of Office Building Design for the Hot Arid Climate of Egypt S.M. Aziz, G.B. Hanna	843
Author Index	849
