

lonely planet

# Antarctica

A photograph of an Antarctic landscape. In the foreground, there is dark, choppy water. In the middle ground, a large, flat-topped ice shelf or ice plateau extends across the horizon. The sky is a deep, vibrant red, suggesting a sunset or sunrise. A single, bright, circular light source, likely the sun or moon, is positioned in the upper center of the sky.

Includes 32-page full-color wildlife guide
