

MY AWAKENING

DAVID DUKE

My Awakening is more than just a fascinating autobiography of a very controversial man. It is an incredibly honest book that dares to confront the most challenging issues of modern times.

David Duke's book is not for the faint of heart or for those smug in their belief systems. It is for those unafraid to be stimulated by facts and ideas that may well question established beliefs. It is a revolutionary and evolutionary book that Glayde Whitney (a prominent behavioral geneticist) says may well "rattle civilization to its core."

David Duke, devotes most of the book to his views on race and its implications for society and evolution, but it is also an exciting and revealing story of a man known only as a caricature painted by a hostile media.

In advancing his powerful thesis, he offers copious research and amazing quotes from men both in historical and contemporary times. He offers over a thousand references and an extensive index for the researcher.

Love him or hate him, you will be affected by his candid, totally open, hell-for-leather gallop across the politically corrected landscape of our times.

After reading *My Awakening*, you may never be the same again.

"...more than just a book. It is a painstakingly documented, academically excellent work of socio-biological-political history that has the potential to raise tremendous controversy and change the very course of history."

-- Professor Glayde Whitney, a leading researcher in the field of behavioral genetics, from his Foreword in *My Awakening*.

I dedicate this work to my friend, William Shockley – scientist, inventor, activist and Nobel Prizewinner. Dr. Shockley invented the transistor, laid the foundation of Silicon Valley and thus ushered in the electronic, computer and information age. He not only fought bravely for the truth, his scientific work made its dissemination inevitable. He not only crusaded for our heritage, he gave it the means to victory. Future generations will someday realize his vital role in the struggle for the survival of our people and the securing of our freedom.
