Basic Readings in Malaysian Economics

PETER LIM
M. P. NATHAN

Basic Readings in Malaysian Economics is written primarily for students who wish to acquire a basic understanding of the Malaysian economy. It contains twenty-one articles covering the major aspects of the Malaysian economy. The approach of the authors is simple and direct, but there is no sacrifice of subject matter and clarity.

The articles covered in the book are:

- * The Economic Framework
 - * Economic Planning
 - * The Second Malaysia Plan
 - * National Income
 - * Agricultural Development
 - * Agricultural Marketing
 - * Land Development
 - * Industrial Development
 - * Infrastructure for Development
 - * Manpower for Development
 - * Population and Employment
 - * Trade Unionism
 - * Social Services
 - * Money and Banking
 - * Money Market and Capital Market
 - * Public Finance
 - * Trade and Balance of Payments
 - * Foreign Investment
 - * Public Enterprises
 - * Regional Economic Co-operation
 - * The Economic Challenge of the Seventies
- The book also contains a Glossary of Basic Economic Terms.
