This is the most modern 737 there is. We've ordered seven for you.

We're Asia's brand new airline,
so it's only logical we should have brand new planes.

And we have - seven Boeing 737-200's - the most advanced
737 in the world. The fastest. The smoothest in flight.

The most gentle in landing.

Inside, the decor is distinctively Malaysian, with overhead lockers
to give you the spacious 'stretch-out' feel of a superjet.

And there's something else we're offering as standard
equipment. Asia's most charming girls,
waiting to fly you with a smile.

mas

malaysian airline system
we'll fly you with a smile.
