Contents

<i>Introduction</i>	9
1 Rowing and sculling – an introduction to the sports	11
Types of competition	13
Improvement in performance	15
Performance-determining factors	17
2 Rowing technique	27
Position in the boat	28
Holding the handle	29
Bladework	30
Styles	32
Learning good technique	33
Fault correction	41
Anatomy and biomechanics – lessons for greater efficiency	44
Arcs and angles of the oar	48
Balance	51
Rhythm	51
Forces during the stroke	54
Different techniques for different boats	56
3 Sculling technique	59
Getting into the boat	60
Holding the sculls	60
The cycle of the stroke	61
Balance	69
Crew sculling	70
Learning to scull	72
4 Steering and coxing	75
Where to steer	76
Steering in races	80
Steering the sculling boat	81
Steering the coxless boat	82
Outings in the dark	84
Coxing	85
Coxing in a race	91

	<i>Rowing and Sculling</i>	
5	Boat and oar design, construction and rigging	95
	Resistance to movement through water	95
	Air resistance	99
	Boat construction	100
	Construction methods	103
	Boat ergonomics	104
	Oars and sculls	104
	Rigging and adjustments	109
6	General principles of training	121
	What happens in our bodies when we train	124
	The young athlete	126
	Female athletes	127
	Methods of training and their effects	128
	Variety and periodization in training	129
	Putting together a training schedule	133
	General training tips	136
	Warming up	137
	Testing and assessment	137
	Illness, injury and safety	138
	Examples of training schedules	139
7	More advanced ideas in training	143
	Response to stress	143
	Respiration – energy for action	149
	The circulatory system	153
	Causes of fatigue	158
	Training for strength and power	163
	Training for endurance	167
	Training for co-ordination	167
	Training for speed	168
	Training for flexibility	168
	Motivation	169
8	Racing	171
	Deciding on a competition programme	171
	Regatta and head organization	173
	Coming to a peak	174
	Race day preparation	176
	Warming up	177
	The racing start	178
	Race profiles	181
	Race tactics	184
	The umpire	188
	After the race	189
	The drug problem	190

Contents

7

9	Looking after yourself	193
	Environmental conditions	193
	Nutrition and diet	205
	Hygiene and blisters	214
