- Introduction** page 1
- Chapter 1** Once a union splitter always a union splitter? Phobic anti-communists come to power within the US unions and get control of US labour's international machinery and so, in turn, extend their influence wider afield. page 5
- Chapter 2** The CIA gets into the action. Unions split up throughout post-war Europe and a pattern is established. page 13
- Chapter 3** The hidden years at the ICFTU. British and European labour resistance to US labour's international plans peters out in exhaustion and bitterness. page 17
- Chapter 4** Government links with international labour programmes become increasingly visible. The TUC says their overseas programme is non-political. page 27
- Chapter 5** Is the Western trade union movement implicated in the downfall of democracy in Chile and in a number of other Latin American countries? page 39
- Chapter 6** "Sabotage and subversion," is exported to the Nigerian trade union movement. Throughout Africa, allegedly using bribery as one device, the US labour machine tightens its grip at the expense of trade union solidarity and the British and European trade union presence. An official claims the TUC doesn't always know what is being done overseas in their name . . . and with our money. In Asia, the pattern is repeated . . . page 51
- Chapter 7** Tracing the business links to the international labour programmes. A top trade union official breaks the silence and speaks his mind about what has been going on. page 69

## **Chapter 8**

Dividing the workers? The role of the International Trade Secretariats and a study of the politics of the biggest, the International Metalworkers Federation. **page 89**

## **Chapter 9**

International solidarity disappears in a bureaucratic maw. The strange case of the Sri-Lanka tea workers. The Miners show what could be done. **page 101**

## **Chapter 10**

How big business is running rings round international labour... and why lack of information to workers from the trade union leadership speeds this process. **page 115**

## **Chapter 11**

Some questions for the TUC, and some reflections. **page 125**
