Saya nak ambil peluang kat ruangan ini untuk utarakan pendapat tentang PPSMI. Harap Ayahanda Tun dapat ulas berkenaan perkara ini selepas ini.

Saya adalah seorang guru berasal dari kawasan kampung di Johor. Saya guru sains dan hasil dari didikan dalam bahasa Melayu sepenuhnya kecuali bagi subjek bahasa Inggeris. Saya berharap PPSMI ini diteruskan. Program ini sebenarnya dapat membantu bangsa saya (Melayu) untuk maju dan bertambah bilangannya bukan sahaja di IPT malah di bidang pekerjaan profesional yang berkaitan di dalam dan luar negeri.

Banyak blog yang saya baca dari kalangan pelajar serta bekas pelajar universiti dulu dan sekarang yang komplek betapa susahnyanya nak belajar di universiti kerana kekurangan bahan rujukan dalam bahasa kita. Mereka menjadi malas dan ramai yang berhenti atau diberhentikan kerana tidak dapat mengikuti pengajian dengan baik. (Sama yang dialami oleh saya sekarang ini. Terpaksa belajar semula basic science dulu dalam bahasa Inggeris barulah dapat memahami subjek di universiti. Yang terus pun tak berapa baik keputusannya.

Bertambah buruk yang berjaya itu pun banyak kertas kerja mereka diupahkan kepada orang lain. Maka terhasillah graduan yang tidak bermutu. Bila memohon kerja mereka pula sukar untuk diterima dek kelayakan akademik mereka. Nak pergi kerja kat luar negeri???? Lagi tentunya tak dapat. Yang belajar kat luar pun ramai yang balik sama ada kandas atau tak diterima kerja di sana. Kalau dapat pun kena jawat jawatan yang tidak sesuai dengan akademik mereka.

Jadi saya rasa kalau program ini dimansuhkan dan dengan keadaan bangsa Melayu sekarang yang masih tidak membudayakan ilmu, saya takut bilangan bangsa kita dalam bidang sains dan teknologi nanti akan berkurangan dan yang berjaya hanya dapat mengisi jawatan yang ditawarkan kerajaan sahaja. Bidang lain?????. Tak percaya....kenapa kita terpaksa import pakar luar seperti doktor dan jurutera ke dalam negara. Kan ada ramai rakyat kita!!!!. Jawapannya orang kita belum mampu lagi. Jadi bagi saya, program ini bukan memusnahkan identiti bangsa saya Melayu...malah akan dapat meningkatkan kemajuan bangsa saya. Saya rasa tidak ada orang Melayu akan mengaku dari bangsa lain jika kita dah maju. Lagi satu bukan hanya pendidikan yang boleh memusnahkan identiti bangsa (kalau ada) malah banyak lagi. seperti pegangan agama dan adat, sikap dan dorongan.

Saya juga tidak bersetuju dengan pendapat2 yang mengatakan program ini adalah diskriminasi kepada pelajar pendalaman. Tidak semua yang pendalaman itu BODOH. Ada juga yang pandai(faham dan mengaplikasi ilmu). Saya rasa bilangan dia lagi ramai sebenarnya dari yang dibandar tu. Yang rata2 menghafal untuk dapat keputusan yang baik dalam peperiksaan. Jadi denga dorongan dan "force strategy" dari semua pihak serta bantuan dari golongan politik dan NGO saya rasa orang kampung akan menjadi lebih baik dan berjaya diperingkat nasional dan international. CUMA BERHENTI LAH MEMINTA DIBERHENTIKAN PERKARA YANG BAIK INI. Tukarkan nada suara itu kepada: APA YANG AKU BOLEH BANTU UNTUK MEMASTIKAN BANGSA DAN SEMUA GOLONGAN MENDAPAT MANAFAAT DARINYA.

Dear Tun Dr M,

Merry Christmas to all my friends who are Christians. However, New Year is virtually celebrated by the whole world. All of us might have different new years according to our individual religions or races. However, whether we like it or not, most of us assume that 1st. January is the new year we acknowledge and practice.

However, in Malaysia, several states including Johor Darul Takzim do not give a holiday for the 1st January. It would not cause any serious dent in to the economy, as the Federal Capital and most of the other states observe public holiday on 1st January.

I would like to suggest to all the related state governments that the holidays of the country be streamlined.

Salam Tun, semoga tun sihat selalu.

1. Tun sy ni dah hampir setahun menggunakan minyak sawit sebagai minyak enjin kereta saya. Jadi kat sini sy nak share kepada semua orang termasuk tun. Kalo boleh tun ketengahkan la mengenai perkembangan ni kepada Proton ke, Produa ke, naza ke...

2. Saya mencampurkan 80% minyak sawit kedalam minyak injin manakala 20% lagi adalah minyak enjin biasa. Hasilnya seperti kita gunakan minyak enjin fully sentitik memang menakjupkan. Ketiga tiga kereta lama saya, Proton saga 1.5 auto, Fordleser 1.8 auto dan peugeot 405 1.9 auto juga guna minyak sawit. Motosikal kris 100 saya juga menggunakannya. Tapi harus diingat mesti gunakan minyak sawit asli bukan minyak jagung ke, minyak soya atau lain lain..

3. Menariknya bila kita guna minyak sawit ni enjin kereta saya menjadi lebih senyap dan halus, temperature juga tak mau naik tetapi dia maintain pada 70 degree je. Keupayaanya pula setakat ni saya dah cuba speed sehingga 150 ke 170/kmj malah keadaan enjin masih stabil dan halus.

4. Kreativiti adalah hak milik peribadi. Sesiapapun boleh menjadi seorang yang kreatif. Jika kreativiti seseorang itu ditambah lagi dengan usaha, inilah yang terhasil.

5. Minyak masak sawit sebenarnya boleh dijadikan sebagai minyak hitam atau (engine oil) kereta. Agak kelakar kenyataan ini tetapi itulah yang telah dilakukan oleh segelintir daripada rakyat Malaysia. Kisah mengenai minyak masak yang dijadikan sebagai minyak kereta bukanlah satu perkara baru. Kalau tidak silap aku, Majalah 3 pernah membuat slot untuk cerita beberapa tahun lepas tetapi tu hanyalah sekadar tontonan umum sahaja.

6. Tetapi apabila "kisah benar" ini dipaparkan secara rasminya di akhbar Kosmo, saya rasa sudah sampai masanya bagi badan-badan yang terlibat (NGO mahupun kerajaan) membuat satu kajian yang khusus dan serious kepada kebenaran minyak masak sawit ini.

Tun pun boleh cuba kat kereta Merce tun tu. Kalo tun pakai minyak sawit tu saya percaya ramai orang akan buka mata ..

Wasalam

Assalamualaikum YABhg Tun

Saya ingin mengambil kesempatan ini untuk mengucapkan Happy Merry Christmas to visitor of this blog dan Selamat Menyambut Tahun Baru 2009.

Tahun 2008 telah meninggalkan pelbagai peristiwa kurang baik dalam sejarah perjuangan Melayu sehingga ada yang mengambil kesempatan diatas kelemahan tersebut dengan mencabar pertuanan Melayu serta menghina Islam sehingga menjejaskan perhubungan kaum.

Kita berharap tahun 2009 tidak seburuk 2008. Walaubagaimanapun keadaan stagflasi semakin mengancam ekonomi dunia.

Semoga YABhg Tun sekeluarga dirahmati Allah.

Dear Tun Dr Mahathir,

Assalamualaikum. I'm a Malaysian currently studying in one of the good universities in the West and I am quite impressed that my lecturer quoted your name several times in the lecture, saying that the former Malaysian Prime Minister was the main spokesperson of the Less-Developed Countries, very critical of the West and never succumbed to any ideas that would allow the West to infiltrate and ravage their natural resources, politics and wealth.

In fact, most of the international students I met here praise Malaysia for her tremendous progress and they never failed to mention your name as the architect of such success.

Only time will time how great you were as our leader.

PS: I still hold on to your words that "Hanya yang cekal dan tabah dapat membina mercu tanda bangsanya yang berjaya".

A'kum Tun.

Slmt tahun baru 2009. Semoga 2009 akan memberi lebih byk kebaikan, kerahmatan dan keredhaan daripada yg Maha Esa.

Tun,

Apasal yg IJN tu nak di swastakan. Saya qasa masa awal penubuhan IJN dulu byk juga sumbangan sykt dan pihak swasta yg dihulurkan bagi membantu kerajaan berdasarkan hasrat penubuhannya.

Kalau Sime Darby nak berniaga dlm bidang perubatan, buat jer Hospital baru, apa masalah depa.

Kalau dah jadi swasta, business oriented so cam na depa kata nak jaga kebajikan org miskin. Tak kan org business nak nak qugi kot.

Lebih teruk lagi bila depa kata utk org yg keje dgn kerajaan, pesara kerajaan akan dpt mcm sekarang la konon nya, habih pekerja swasta cam na.

Yg bekerja dgn kerajaan hanya 1 juta lebih jer, habih yg keje swasta 5,6 juta cam na.

Parerka nie sama la seperti yg berlaku dekat penglebuhrayaan jalan jalan bandaran. jalan yg tersedia ada di up-grade jadi 4 lorong, buat tol, cakap kat orang kalau tak nak bayar tol ikut jalan alternatif iaitu jaln antara satu taman perumahan dgn taman perumahan. memang ceqedik.

Cakap pun tak guna, takat seronok sendiri jer.

YAB Tun,

Assalamualaikum, Selamat Sejahtera and a very good morning.

Allow me to take this opportunity to wish all readers of this blog who celebrated Christmas, 'A Very Merry Christmas To All of You'.

For All Muslimin and Muslimat, 'Selamat Menyambut Awal Muharam' and to All Malaysian and fellow CheDet Bloggers, 'Happy New Year 2009'

The Run-up to March 2009 is going to be very interesting indeed. The by-election for P 36 is going to make thing much more interesting, but I guess the result is already written on the wall..

I like the comment made by fellow blogger Kamal Ahmad which was posted under the 'IJN Privatisation' Dec 21, 1039 am. I quote ' We Malays Don't Need UMNO To Survive, Not At All, but UMNO Needs Us, Malays, To Survive'.

Looking at the sorry state UMNO is right now, I guess Kamal is right. Sadly, those UMNO leaders do not seem to realise how bad UMNO is at this point and time!

The result for P 36 by-election will determine where UMNO and BN will be heading, come PRU 13.

Assalaimulaikum Selamat Berbahagia kpd Tun dan Keluarga,

May your family be blessed with joyful heart & healthy life.

Firstly, A Very Merry Christmas And Happy 2009 New Year to All Malaysian in Christianity faith.

As we know many malaysian wish each other in any cultural festivals and season whether be it Hari Raya, Deepavali, or Christmas and other customary celebration such as harvest day we are born really typical in this world.

Include this festival and coming New Year for Malaysia I suppose is every malaysian's wish to take away or remove the difference in cultural or religion opinions just accept the good faith in trust as long as God or (Allah) or even Buddha that we understand is not our desire or caused by desire of few minority acute-minded leaders to reject us because of practise goodness of things in good health like issues about 'yoga exercise' or because of word use we dispute so much! Faith and believe in religion is very personal but not as much having all in common to teach us to have love wisdom and kindness. For those who cannot accept the common guidance in any could be like a bad seed falls on the rock that can't grow to become a plant!

Thank you Tun and effort of many good malaysian's wisdom that Malaysia can reach that far till today. "Halleluyah", I suppose is too a good shout to share with many here.

May we be blessed with a better years in Malaysia for malaysian to come starting from 2009.

By Chris on December 26, 2008 12:56 PM

Sir,

Thank you and Tun Siti very much for you your heartfelt Christmas greetings. I'm so sorry for this belated comment. I was living up to our unique concept of open house and I was entertaining my friends and neighbors and their families. It was a wonderful atmosphere of goodwill and friendly banter among the

guests. There was much merrymaking and beer guzzling and good food conjured up by the wife. My Muslim pals enjoyed the beef rendang and the ubiquitous chicken curry to their hearts content. Just imagine the scenario with Malays having soft drinks while some Indians and Chinese were boozing away in the same room. My Malay pals did not mind at all. In fact, some of them were doing the topping up for the infidels while discussing politics, religion and, of course, the coming KT by-election. Sir, there is no racial animosity at the ground level at all. We love each other. Only in the political realm is there such stupid talk and unfounded fears. Out in the streets we're all very happy with our fortune: being a Malaysian. Thank you again, sir, and hope to read more of your postings soon.

Selamat Menyambut Tahun Baru Maal Hijrah 1430 untuk Tun Dr. Mahathir bin Mohammad dan Datin Hajah Siti Hasmah, anak-anak kandung dan cucu-cicit. Allah Satu tiada Dua, Allah Maha Berkuasa dan Maha Mulia. Siapa mengaku dirinya lebih Mulia selain Yang Maha Berkuasa.

Moga di panjangkan umur, sihat tubuh badan hendaknya. Amiin ya Rabal Alamiin.

Assalamualaikum YABhg. Tun.

Selamat menyambut Tahun Baru 2009. Sekian lama sudah saya menunggu ulasan Tun tentang Rang Undang Undang Suruhanjaya Pencegahan Rasuah, tapi ulasan tak nampak nampakpun. Yang saya ingin nak tahu pendapat Tun samaada pendekatan kerajaan dalam perkara ini mengikut landasan yang betul atau tidak. Ini kerana sejak beberapa tahun yang lalu, termasuk dizaman Tun, kerajaan banyak menitik berat pendekatan secara undang undang, untuk menangkap pesalah. Banyak juga usaha terutama dizaman Tun meningkat efisiensi jentera kerajaan, tetapi dalam masa yang sama kerajaan juga sebok menambah peraturan peraturan dan red tape yang membuka peluang untuk perasuah.

Saya telah membuat sedikit penyelidikan tentang hal ini dan ini saya tulis dalam artikel di Blog saya.

YABhg. Tun dan pembaca sekalian di jemput ke blog DAH IKHWAN, mudah di lawati melalui google search.

Salam hormat

DAH IKHWAN

Dear Y.A.B. Tun Dr. Mahathir and Tun Dr Siti Hasmah,

I wish to thank you for giving me the opportunity to take a picture together with the both of you with my girlfriend on 28th December 2008 at the Pavilion, Kuala Lumpur.

I did not had the courage to approach you to have a picture taken initially along the sidewalk cafes as I was utterly shocked to have seen you in person! I was deeply regretting missing this golden moment to my girlfriend later who suddenly told me that we were indeed walking next to the both of you this second time around.

You have been a supreme leader of our country and will always be. To me, this will always be a special occasion for me to have a picture taken with the NO 1 HUSBAND AND WIFE TEAM OF MALAYSIA! Merry Christmas and a lot of wonderful new years ahead!

Tun Dr. Siti Hasmah, I thank you for being so nice by asking me to pass the camera to one of the bodyguards so that I can be included in the picture as well!

Sincerely

Awareness
