1. We have a much prosper life in average compared to the Mainland Chinese People.

2. We retained the pride of our race by having our own school, celebrate our religion and customs. Please be reminded other Chinese in like our Neighbour Indonesia and Thailand they do not have the privelege to have their own family name.

3. Our bumi friends are learning a lot of our tradition and culture. Including the virtue of 'hardworking'.. Many of the Bumi father/Mother are holding two or three jobs a day to raise his/her family. They send their kids to Chinese School in hope for better education and as competent as us in the society.

My Malay friends are taking night class in learning mandarin..some of them can even sing mandarin song in KARAOKE!...they enjoy watching Hong Kong Series..they like Andy Lau, Jet Li, Jacky Chan, Michelle Yeoh(One of our Malaysian Pride).

We eat Bah Kut Teh and they eat Chi Kut Teh(Chicken).

We give Ang Pao and they give Ching Pao(Ang Pao in Green for Hari Raya)

We all willing to sacrifice for brigther future for our kids.

My fellow Malaysian KAMI MEMANG TIDAK BANYAK BERBEZA

However, you have identified one crucial point. Malaysian Chinese do not request for any privilege from the government. We want to be accepted as Malaysian Not Orang Cina.

We want to our contribution and ideas be recognized and appreciated.

We wants talents to run our country regardless of races. That is why ALL MALAYSIAN have so much faith in you sir.

Please don't get so dissapointed with us..we are still on the right track towards WAWASAN 2020.

PS: Stop comparing Singapore with Malaysia..90% of the 3 millions Singaporian(LOCALS) are Chinese. They not even considered a true MULTI RACIAL Country.

By Liew on September 23, 2008 12:57 PM

Tun,

I totally agree with statement no. 21: I believe that for this multi-racial, multi-lingual, multi-religious and multi-cultural country with extreme economic disparities, the BN is still the best political solution provider. It is still the best way for the different races to cooperate to govern this country.

But BN need to change their view about other races (including Malays) other than UMNOputra. Currently BN policies, businesses and everything else is all about UMNOputra only. The Non-Malays are not angry with Malays but they are surely angry with UMNO.

UMNO can still be the dominate party in BN but not with 99% absolute power where the other component parties are merely a bystander. In Penang, the Gerakan lead local Govt. is just a puppet to Ahmad, Hilmi and his "mamak" gang. Does those mamak gangsters care about Malays or any other races, no they only fill their pockets with money. Those that have connection with this mamak gang will get business but everyone else just sit and look. Further more with a leader like Ah Koon, Penang just stand still for 18 years. Do you think Penangites are blind and stupid to continue to vote for BN? What did BN Govt. do for Penang?? UMNO is too arrogant and GERAKAN is totally useless and that cause BN to fail. The citizens of Malaysia is fed-up with UMNO not BN.

Tun, if you do come back into UMNO please make sure UMNO is more fair to the non-malays and the non-malays will support BN again like they used to. Forget about MCA and MIC they are useless, non committal and spineless party and they are not the important factor for BN to shine again. It is UMNO fairer policies that are going to be the critical point for BN to raise again. Remove the UMNOputra crutches, sack those kris waving politicians and sent the mamak gang members back to MIC and you will find peace, stability and prosperity in Malaysia.

You can be the savior of Malaysia and a legend too.

Assalamualaikum Tun dan keluarga,

Kalau ikut hati rasa malas nak ambil tahu fasal politik sekarang, tapi bila dikenang masa depan nasib kita terutama anak-anak kita, risaulah pulak.

Rasanya ramai lagi yang merasakan apa yang saya rasa. Harapan saya agar perkara ini tidak berpanjangan. Api kemarahan antara kaum perlu dipadamkan segera.

Masa Tun mengumumkan pengunduran Tun, Makandeh menangis dan sekilas membayangkan perkara yang tak elok ini bakal berlaku. Bukan kerana taksab kepada Tun, tetapi seingat saya, sepanjang pemerintahan Tun perkara ketegangan kaum ini tak pernah terjadi.

Oleh itu, saya mengharapkan pemimpin yang berkuasa yang tentunya dah 'berusia', tunjukkan contoh teladan yang baik pada anak cucu kita yang satu hari nanti bakal menjadi pelapis bagi menjadi pemimpin negara. Kalau boleh terimalah pandangan bekas pemimpin yang mempunyai pengalaman yang luas. Jangan dok syok sendiri.

Kepada Tun, pandangan Tun amat kami hargai. Semoga Tun tak jemu untuk menegur dan memberi pandangan atau ide-ide yang bernas demi keutuhan negara kita.

Selamat berpuasa dan selamat Hari Raya untuk Tun sekeluarga.
By Jamal on September 23, 2008 1:15 PM

Selamat Berpuasa Tun yang di sanjungi,

Semoga Tun Sehat selalu dan di Rahmati Allah.

To Dr Syed Alwi Ahmad,

You must be living in a dream world full of idealism. Where everything goes according to the TRUTH as you see it.

It so unbecoming of a Doctor (is it medical or PHD?) to pen such an emotional out burst! Do you have an axe to grind with BN or UMNO or Tun.

Or perhaps you had been badly slighted or hurt or suffer under the hands of these people. Or may be you lost lots of money by people claiming to be with UMNO who cheated you in a purported joint venture.

Everyone agrees with you that corruption is rife in UMNO. There are thousands if not millions of claims to that effect. But without proof and witnesses how do you prosecute these wrong doers.

In your Singapore the CPIB (ACA) can use their draconians laws to do whatever to catch these people. But in Malaysia Only the ISA can do that - even then when used it will cause a lot of backlash from many quarters - as shown recently.

Corruption is present everywhere - even in your clean Singapore. Can you vouch by your holy book that there is 100% no corruption in Singapore? Or do you just wish to see the truth - as you see it.

No one is perfect and no system is perfect. Not even the capitalist economic and financial system - it has now shown its darkside in a most unbecoming manner.

For all Tun's weakness his strength and achievements outweigh all misdeeds he may have done. Misdeeds done (I am sure with) pure and sincere intentions for Malaysians.

Great people are driven by a vision and with an overdrive of passion. That is what makes them great and able to achieve considerable goals.

Many people (in Malaysia) may not agree to his vision or are just getting in the way of his grand vision of Malaysia (which all Malaysians are enjoying). So for the sake of the Majority and the Nation the few have to be sidelined.

Do you think your LKY does not do the same thing?

As Doctor I suggest you take a week off from work and go to Langkawi to meditate and do some introspection. Try to discover the Truth as it really is. May your god grant you that wisdom.

Awat la Tun bagi Malaysia kat Pak Lah.... kami yang dok aman dan sentosa di bumi bertuah nih tersiksa sgt sekarang. Memang state government of Penang bagus sekarang tapi kalau depa menang lagi next election pakat semua orang Melayu dok dalam pondok la.

You are always my idol.....since my schooling era until now....the only ultramalay....Selamat Hari Raya buat Tun sekeluarga dari saya sekeluarga.

Yg Amat B'bahgia Tun. Kami sokong Tun 100% tapi apa caranya hendak suruh Mr AAB supaya turun, kerana kalau 2010 dia masih bolih kayakan menantu dan anaknya. Tapi, ta'kan ta ada jalan lain yang bolih bawa dia turun. Najib memang amat takutkan AAB supaya rahsianya dengan kes altantuya tidak dipecahkan AAB. Ketua umno yang lain ada kepentingan sendiri seperti Muhammad Muhammad Taib, Tengku Adnan Tengku (now) Mansor, Syarif Samat, nak maintain position, so siapa yang bolih turunkan dia??? Tolonglah Tun, we cannot take this any more, kerana Malaysia bukan Malaysia yang pernah dihormati oleh negara asing dahulu lagi... we love you and long life Tun and Tun Dr Siti Asmah.

Assalamualaikum YBhg Tun,

Saya cukup hairan dengan ahli-ahli politik BN dan rakyat Malaysia sekarang ini. Tidakkah mereka sedar yang kita harus bersatu di bawah satu parti supaya kita kuat dan kukuh sepanjang masa. Bak kata pepatah bulat pembetung kerana air bulat manusia kerana muafakatnya. Ada lagi pepatah lain, jika sebatang lidi mudah untuk dipatahkan tetapi jika seikat lidi susah untuk dipatahkan. Banyak pepatah yang mengajak kita bersatu. Saya juga percaya banyak juga pepatah yang maksudnya sama dalam budaya Cina, India, Iban, Kadazan, Murut, dll. Tetapi kenapa kita tidak mengendahnya??? Saya belajar semua makna pepatah ini di bangku sekolah lagi. Orang tua ajar tetapi mereka tidak pula mengikutnya. Orang tua di sini maksudnya para pemimpin kita itulah.

Bersatulah wahai bangsaku jika kamu tidak mahu melihat tanahair kita ini musnah!!!

Saya tertarik dgn satu komen yg dihantar oleh saudara Syazrul Aqram Iman dalam blog ini. Pelajar tahun 3 Sains Fizik Universiti Sains Malaysia katanya. Tak nak komen banyak cukuplah kalau saya katakan belajarlh dulu, komen tu tak bernas langsung dan bukan seperti pemikiran orang terpelajar. Tapi mungkin juga komen dari orang yang hanya tahu/sedang belajar tak mungkin sama dengan mereka yang bekerja/berpengalaman dan merasai perit hidup sekarang ni..

Belajar sampai lulus dan kerja baru saudara bagi komen macam tu..

hi tun.

one thing that amazes me is how malaysians in general can continue to accept politicians suspected of wrongdoings in the first place. around the world when leaders are suspected of any wrongdoings they almost immediately get rejected and resigns before being sacked. in malaysia the culture is so strange - our leader will accept carrying the tag as a 'murderer' or 'weakest leader in malaysian history' and go on as if nothing has happened.

now i wonder if a 'sodomiser' or 'murderer' is going to be a better leader, although i will try to say that they are innocent until proven otherwise. (the weak leader is probably irrelevant from now). if i were u i will jump out of nowhere and give these 2 aspiring leaders a new challenge. change some fundamental problems with the rakyat's dissatisfactions and i think u can kick these 2 (or 3 if we include AAB) out of the picture once and for all. one thing for sure though, u ought to consider your 'racist' approach - the people suffer and children grow up being racist if our leaders carry this approach in their leadership. every country goes through ups and down and perhaps it will take people with the leadership like you to change the mindset of every race. i'm sure you'll be more respected than ever before if you can do just that.

By ZACHARY64 on September 23, 2008 2:23 PM

ASWB tun & fellow bloggers,

Just to quote Tun's statement;

7. Now the Malays are angry with the Chinese and the Chinese are angry with the Malays. Party-wise UMNO is angry with Gerakan and MCA and Gerakan/MCA are angry with UMNO.

Not all Malays are angry with the Chinese and not all Chinese are angry with Malays. Only the politicians are adamant with one another.

E.g - the Umno Penang & Gerakan/MCA have already severed their ties.

Definitely the UMNO/PUTRAS are angry and having grudge with GERAKAN in particular if compared with MCA. Of course the UMNO/PUTRAS are angry with the DAP and PKR for trying to topple the current federal government and reform the country's policies.

Should there be any Malays or Chinese are angry to one another could be attributed to their personal reasons; Malays in the private sector feel that they are being discriminated based on ethnicity and not based on performance/meritocracy. And The chinese due to the certain rights they feel that they are not getting from the government and the treatment from their fellow Malays in education and business.

Is it right for us to stereotype that if the politicians are angry to one another, then the entire race will also be drawn to the bickering ?. Like Tun's third last statement; "Because of one drop of indigo, a whole pot of milk is spoilt." just because Ahmad Ismail & Pg UMNO are having crisis with Tsu Koon and GERAKAN doesn't make it right for us to stereotype that Malays are angry with the Chinese community. THE TRUTH IS THAT THE CHINESE COMMUNITY DO NOT TRUST UMNO and Barisan Nasional anymore. A good evidence to cite during the aftermath of the 12th GE in Penang that the Chinese voters openly voted for the party other than BN component parties. A friend of mine openly told me that, if PKR/DAP/PAS were to field any 'dick' or 'harry', they would undoubtedly vote for the candidate.

The 'crisis' epicentre started in Bukit Bendera PG and there's a feeling of animosity between the former BN comrade in arms- UMNO & GERAKAN. they are not in talking terms now and definitely this scenario reinforces the PKR/Dap stranglehold on the state government and the Penangites' loyalty. If this CRISIS

were to go on, then the PKR/DAP will definitely to continue governing Penang to another term.the ones who will suffer out of this political bickering will be definitely be the Penang Malays. IF DURING THE ERA OF BN GOVERNANCE, THE PENANG MALAYS ARE STILL NOT PROGRESSIVE AND REMAIN BACKWARDS, THEN JUST PONDER THEIR FATE & SITUATION UNDER THE PKR/DAP led government. What is it going to be for them ?

By Rosnah on September 23, 2008 2:26 PM

Asalamualaikum Tun,

Semalam orang Penang dan Kelantan menyatakan sokongan mereka kpd AAB sebagai PM. Kelakar betul. Kedua-dua negeri ni adalah negeri2 yang kalah teruk dlm PRU12 dan terpaksa jadi senator untuk dapat jadi menteri. Jadi terpaksa terus membodek untuk kekal berjawatan. Ahmad Ismail pun terhanguk-hanguk bersama mereka masa sidang akhbar. Mestilah dia menyokong 100% kerana dia terhutang budi kerana AAB tidak mengambil tindakan terhadap dia. Untung2 dilantik jadi Senator dan terus dapat jadi Menteri Undang2. Pasal rupa dia pun dah serupa dengan bekas menteri dulu. Cara cakap pun sama. Jenis cakap tak guna otak yang waras. Saya rasa negara ini akan menjadi hancur lebur kerana sikap pengampu yang diamalkan. BN memang akan hilang di bumi Malaysia ini. Semua orang sudah meluat dengan sikap pengampu2 ini.

Saya risau apabila mengenangkan apa akan jadi kepada nasib anak2 saya 5 tahun akan datang jika kerajaan sekarang meneruskan sikap yang berpura2 begini. Seluruh Asia tenggara merasakan keadaan ekonomi yang tidak menentu ini,tapi menteri keewangan malaysia yg baru masih boleh tersenyum dan mengatakan Malaysia boleh bertahan dan kadar inflasi boleh dikurangkan. Hari2 saya mendenengar keluhan pemerintah Singapura mengenai keadaan ekonomi dunia yang akan mendatangkan kesan kepada mereka. Tapi kerajaan Malaysia sungguh selesa dan tidak menampakkan keresahan. Mengapa kerajaan kita ini suka berpura-pura?

Kalau keadaan ekonomi kita sungguh kukuh, kenapa semua projek-projek dalam RMK 9 yang telah ditenderkan sejak bulan Mac 2008 yang lalu, masih tidak di tawarkan kepada kontraktor lagi. Beratus-ratus tender telah keluar sejak dari bulan Mac, April, May, Jun, July dan Ogos 2008 tetapi satu pun tidak menjadi projek. Ia hanya kekal sebagai tender sahaja. Bayangkan berapa banyak duit yang telah kerajaan BN kumpul dari hasil jualan tender; boleh mencecah lebih RM500,000.00 kalau dicampur seluruh Malaysia. Semalam menteri Kewangan baru berkata, bahawa kerajaan akan meneruskan agenda dalam budget 2009. Macam nak muntah saya dengar. Kalau menteri tu cerita dengan anak saya yang berumur 5 tahun, mungkin budak itu akan percaya bulat-bulat kata Pak Najib.

Saya percaya jika YB Tun masih memimpin kita, YB Tun sudah pasti akan melakukan sesuatu yang drastik dan menyelamatkan kita dari kehancuran ekonomi. Ada pepatah mengatakan " If you don't change direction, you will end up where you are heading" dan dalam konteks kita, kita sedang menuju kehancuran.

AAB dan kuncu-kuncunya tidak akan sedar masalah ini kerana mereka ada agenda kekayaan sendiri. Hanya YB Tun saja yang akan dapat menyelamatkan kita dan negara kita yang tercinta ini.

Dear Tun,

I am so looking forward to the next sequel to "Barisan Nasional". Frankly, me and all my mates are fed up of Barisan Nasional and especially UMNO. We are all for Pakatan Rakyat.

By JB_FROM on September 23, 2008 2:36 PM

Tun,

I hope you are healthy and well.

At first when I see the title BN 2. I thought that you are considering a 2 party system. BN 2 with respecting component party mirror BN.

I think this would resolve the monopoly issue of BN.

A simple analogy,

If my car is faulty, and if I am not fully happy with the first repair shop, I can go to the second one. The shop owner will strive to make me happy in order to get my business.

If there is only one shop, then the shop owner becomes arrogant, rise the service charge as high as they like due to the monopoly and do not care much with their customer.

In economics, Monopoly is always not good for the consumers. We have now 3 mobile service providers and the outcome of that, the service and call charge rate have drop tremendously.

About racial harmony. Although I do not agree with Anwar Ibrahim in every thing, one particular thing that he said do make a lot of sense. According to him, whenever UMNO is in trouble, they will produce the race card.

If you look at the Malay in Indonesia. Some of them do have obtain a good livelihood, however a large number of them are not economically sound. The reason behind it is the inefficiency and very high corruption rate of the country.

We in Malaysia, do have the same problem which is the corruption and inefficiency. Our monetary value is very low and the income per capita is also low. We are very far away to be considered as a developed country despite of vision 2020.

BN have been governing the country for half a decade. In order to to camouflage the economic problems, BN politician like the one in Penang always produce racial matters and issues in order for them to look relevant. Some of the issues are artificial rather than truth.

Pakatan Rakyat have shown the economic factors in their political agenda. This is currently what matters to the people.

We should stress that racial harmony is crucial for the nation but it should not be exploited in the expense of the economy.

By dputra705 on September 23, 2008 2:39 PM

Tun,

For me, 2 factors that determine good government: Good Party, Stong Leadership.

Look at current political situation. Sadly we are no way close. The BN itself is heavy attached/challenge by party components and external. The link that ties all components party is soo weak, after 50years of

merdeka, everything seen wrong and mean nothing.... Yes, i do agree with you, The BN has to a NEW BN with new Leadership and Ideology and it has to be Malaysian Ideology.. ... that gives new hope for everyone.

How to turn thing arround, strong leadership (good is not enough). (Wish i still admire about you). But, let face the fact, good leadership is difficult to find and i can't see in currently our leaders...

Anyway, it's not fair for us to ask you to come back, you already serve the country for so long, you have done so many thing for us.
(for me, there is nothing right or wrong decision as it depended on environment, only the time will tell. I' hate to look back to history....)

May be, we should accept ourself that it will be "like that" for time being until new Leader are born....

Selamat Hari Raya..... to all
By artkawi on September 23, 2008 2:45 PM

kelemahan pemimpin hari ini adalah punca segala malapetaka sekarang. Kebanyakan pemimpin2 BN especially dari UMNO hanyalah jenis "yes man" dan actually, they don't care about people. Simple example, bus nak balik kg raya pun jadi masalah besar. Dah tau super peak season, buat la preparation and planning 3-4 months ahead. Bukan dah terantuk sampai benjol, baru nak kecoh. Belum lagi isu ekonomi. Pak Lah, actually he don't know what he is doing.

Slmt Sejahtera Tun Dr M,

Nak comment sikit pasal posting dari budak U - Syazrul Aqram Iman aka Qareem Need Rebel.

Kita sekarang membincangkan masalah negara, bukan masalah kat Kolej ok. Performance yang ditunjukkan oleh Tun Dr M amat menyerlah jika dibandingkan dengan yang sekarang. Jadi PM dah semestinya bukan senang..terutamanya untuk buat keputusan..kena hati-hati dan tepat. Bukan 'senang-senang' aje buat keputusan..lepas tu flip-flop.
Benar, berlembut itu bagus..tapi perlu tegas sebagai ketua, yakin serta berfikiran tajam dan kritis..bukan lembut lembik..

Atas sebab tanggungjawab pada kesejahteraan Negara lah kami menegur PM sekarang... kalau ambil sikap tunggu dan lihat aje..padah Malaysia kita ni...PM sekarang yang di jolokkan kuat tidur tu sebenarnya dalam pengertian sebenarnya adalah bersikap alpa, lambat bertindak (no urgency) bukannya tidur yang berdengkur tu..meskipun gambar beliau tidur tu adalah serbuk perasa atau penyedap untuk kenyataan tersebut.

Sayang awak tak merasa kemantapan era Tun Dr M sepenuhnya (tentu awak masih hijau lagi masa beliau resign),saya harap awak belajar rajin-rajin dan bercampur dgn semua jenis orang dari pelbagai latar belakang dan bidang. Atau mungkin awak patut buat MBA selepas awak grad dlm Fizik untuk memantapkan management knowledge & skills awak kerana ternyata ia tak sama dengan konsep Fizik. I hope u dig that, budak U.

Wasalam, Tun Dr M.

Y.A.Bhg Tun yang dikasihi,

It's time for the current government (Component parties)to pull up their socks instead of pointing fingers...give the rakyat what is due to them...or the PR government may become a reality in the 2013 election...we all can screamed and yelled in here... a shoulder to cry on to Tun...and...unfortunately...

Our beloved Pak Lah will still be sleeping...look here everyone!..."HE IS STILL IN CLOUD

NINE"...see...those people at that cloud level can't and will not think well...can't make any decisions...don't want to be blamed for...too tired to think...too tired to do anything...out of focus...speech-less...still in comfort zone...

He claimed he's not pressured with the current problem surrounding him everytime he made a press statement...he claimed he wants to rectify the problem before 2010...by then....it will be too late!...people can't wait to see that change...we can not afford to give an inch more to the opposition to form PR government...and will not let it become a reality...not ever!!

My dearest Tun...you may not know me personally...but I've known you all my life...I've learned about your struggle, and your ups/down in politics arena...your endless contributions to the country...etc...you will always be remembered...UMNO is here to stay!

And to those against you...they can say what they want...but I missed you so much like a son to a father...and another frustrated UMNO & BN supporters....concern for our future generation...salam Aidil Fitri Maaf zahir & Batin.

Dear Tun,

Why Paklah want to keep his jobs until June 2010 ? Maybe there are something very important project or political reform programme to be done. May i suggest that if possible, that Tun spend some precious time to meet and talk to PakLah, otherwise, we are wasted a lot of time and energy talking here, without knowing that Paklah aware of this, that many people are tired and hope that he would resign as soon as possible. We can't find somebody like you, a dynamic and visionary leader. Paklah just too slow and also he slow down the Malaysia economy which is really make people sad and angry. Yet, he loss 5 states in the election, the UMNO and others component parties remain silence or the most, only finger pointing at each others. We can't go on like this, something must be change, but who will make the first move. Barisan Nasional is in danger.

salam Tun,

I have enjoyed reading some of your thoughts and perspectives on many issues. Some of your ideas are innovative and really beyond the standards of many of our current leaders. I am not bodekking you or whateva because I also have certain reservations about your moves in your times.. but most times my late father used to scold me when I questioned the steps you took, in making this country what it was about 10 years ago.. it was almost a perfect model country of a modern islamic nation. My late father idolise your ability and vision and really hated the reformasi movement which he thought was useless and created much havoc to the nation. My post graduate friends who are from the arab nations only know you and think of you so highly... sadly, not the same to our current premier.

I find it amusing when some "learned" people posting here actually blame you for the mess Paklah is in. I guess not. Maybe if he had followed you 100% and the country is still in a quagmire , then we can blame you. But no, paklah didnt follow much of what you told him to do, he does thing his way. So, I dont think it is fair that when the country is getting reduced to a fourth world nation, we cannot blame you entirely.

The only thing we can probably blame you is that you have, with or without realising it, created many monsters in the coalitions, who are greedy and that they have blurred vision between making money for themselves being there, or doing some justice to the voters.

The leader now must show committment to make the country the best of its kind, the people happy and minimal racial conflicts, but what is happening now? There are so many lack of trust between races, religion and culture. What are the ministers doing? Politicking to get position only? How come no one cares about the people anymore? Just their perut buncit matters? How come people like Mat Taib, Tamby Chik and many more are still in important positions when they have many interesting history the public knows about?

To one fellow blogger who wrote about paklah sleeping in meeting, due to work strains, i have never heard such stories when Tun was a PM. He was a marvellous leader , even think while he sleeps and have successfully put Malaysia in the world map. But still he did not sleep attending important meetings.

Tun, dont worry about those minority posts. You are the best.

Dear Tun,

Looking at the running no for the comments up to 300+, hopefully you can still read mine. And I wonder do you really read each of these comments personally and digest them or you get your assistant to do it? :)

1. As always stressed by your goodself, will the replacement of Pak Lah as PM really help stabilise and move our country forward? Is it the only way?

2. I don't really have confidence in PKR/DAP/PAS to run the country smoothly as I doubt they are not used to the nature of the jobs. However, if they are to be given the tasks like the current 5 states won by them in current election, I think they will do just fine with the right attitude and hardwork.

3. We as citizens are glad that we are here in Malaysia especially after visiting foreign neighbouring Asean grounds like Indonesia and Thailand. We have excellent highways and even trunk roads, beautiful and healthy trees, plantations and highlands, peaceful, colourful and fantastic seashores, comfortable and convenient malls, great hawker foods, casual dining and fine dining joints, not too dodgy 'longkangs', and quite evenly spread wealth within the community example the poor.

4. Management of BN certainly is quite a hard job especially when its for the whole country. However, some of the younger generations are pretty satisfied with the achievements of Malaysia so far. Some of the younger generations grow up comparing and admiring the big cities like Singapore, Australia and Europe when they travel, we feel that we are lack of the prestigious life as experienced by the human living in these foreign grounds. However, looking at what we have today, we are happy enough. And we do hope that it would further improve in terms of:

- Developing and Conceptualising More Renewable Energy and Environmental Friendly Initiatives (transports, products, foods, constructions)~ please stop open burning! it hurts.

- 'Direct' sharing of small pies from the government jobs & offers

- Lower Cost of Living

- Variety of choices for consumers

- More funding and development to Individual States / our kampungs

These would all help make Malaysia a better place to live and to love.

wishing you best of health!

Assalamualaikum Tun.

Pada pandangan saya pemimpin BN sekarang kekeringan idea, tidak membuat pembaharuan untuk menjadikan BN terus relevan. Kita lihat senario pilihanraya baru-baru ini. Sebelum pilihanraya isu-isu pembangunan dalam media seperti memperbodohkan rakyat, rakyat yang terus sokong rasa diperbodohkan. Contoh isu yuran sekolah, ibubapa ingatkan bila KPM kurangkan yuran tak perlulah bayar beratus-ratus rupanya yang dikurangkan tak sampai RM10-masuk akhbar bermingu-mingu macam hebat sangat pengurangan yuran. Keduanya minyak naik tapi Cukai Jalan diturunkan. Rakyat mana tak rasa bodoh. Cukai Jalan bukan hari-hari! Isu wilayah pembangunan diwar-warkan bagai nak rak, peruntukan kepada pengangkutan awam pun jadi macam tu, dekat Hari Raya isu pengangkutan awam masih tak selesai. Sepatutnya peruntukan digunakan pada peringkat "Designing preventive measure" bukan bagi duit sana-sini tapi harga minyak naik. Orang suka dapat duit tapi masalah "design" tak selesai. Bila kerajaan ada duit baguslah, kelak bila tak ada duit inflasi akan jadi teruk, macam-macam "multiplying effect" datang tanpa diminta.

Saya lihat PKR bagi subsidi air bagi penggunaan bawah RM20. Kemudian BN pun buat bil api bawah RM20 tak payah bayar! Diperbodohkan lagi. macam orang tak nampak. kadar bayaran elektrik meningkat, berapa ramai yang guna elektrik bawah RM20 bagi seisi rumah? Tak pandai kira kot. Bukan nak sokong PKR tapi BN tak ada idea lagi. Ini pandangan peribadi saya agar BN buka mata-kalau nak kekal relevan berubahlah bukan pakai "copy paste" kaedah lama. Masalah sokongan rakyat dan sebab sokongan menurun bagai terang lagi bersuluh-cuma Pak Lah masih belum TERKEJUT, yang dia terkejut kononnya bila Muhyidin Yasin buat kenyataan pelan peralihan kuasa.

Sayang sarawak sungainya besar..sayang UMNO

Assalamualaikum Tun Dr Mahathir,

First of all, thank you for the good article again. Surely, MCA & Gerakan once again play the racial issue to save their faces from the poor performance in the last GE.

UMNO has been a punching bag from its own partner in BN and from the opposition. The sad story is PAS overreact in belittle UMNO and its nasionalism movement.

What UMNO can do now is to quickly change its leader. But unfortunately Pak Lah refuse to give on. I bet you Tun he will stay on for the December UMNO election and win easily. The rules in UMNO makes him so powerful and the laws in the country make him super power.

As such, looking at the current state of affair, the political scenario will not be much change and UMNO ship will continue to slow down. The opposition will cross the final line because it is not to say they are good but UMNO, MCA, Gerakan and MIC have made a lot of mistakes. They argue openly in the public society make the rakyat give up of them all.

Once BN lost, you can see a new era of Malay become slave in its own land. The lyric of anak kecil main api by dr nordin kardi will be played in the near jungle in 10 years after that where Malay will stay; waiting for another good leader to guide them. The Malay wouldnt know that no such man will come since they are interested in making fast money, selling their land, stabbing in the back, jealous, greedy and most of all sleep during working hours.

Very sad. But you and I will not be around to watch this episode. We are gone. Your grandchild and my children are going to experience all this.

wow.... wake up!!! jadi ...wake up!!!! jadi

Until when you want to support this spoon feed government.. dont you see.. this malay privilege policy is making malay weaker and weaker... you are not handicap.. malay word say "cacat".

grow up!! man. grow up!!

malaysia is far way behind where it should be because of the government corruption and spoon feed policy for the malay group for the past 30 over years..

Open your eye and see how bad the economy in the country and dont tell me you dont feel it?? dont fool by media claimed the economy is just fine and so and so economy data..

lastly... do not live in your own world and stop day dreaming..
do something to make your malay proud and gain the respect from other.. like tun do..

Salam Tun....

Punca nya hanya 3 benda sahaja

1. ABDULLAH AHMAD BADAWI
2. KHAIRY JAMALUDIN
3. SEGEROMBOLAN AHLI2 UMNO YG RASUAH

Berbeza dgn PAS Tun, mereka ahli2 PAS di didik dgn usrah setiap hari, setiap pagi, kuliah subuh (bukan ceramah politik), jemaah menunaikan solat bersama, sentiasa dekat dgn org awam (walaupun tiada media yg melaporkannya berbanding dgn org2 dlm UMNO yg gah terpampang dimuka2 suratkhbar dgn bantuan 'IKHLAS' beribu2 ringgit kepada mangsa, bantuan itu ini...) Apabila timbul masalah Kaum (kononnya) mereka (suratkhbar perdana) secara pantas memetik isu ini dibangkitkan oleh Pembangkang. Jgn gunakan sentimen perkauman...tetapi Tun, mereka tidak sedar, bahawasanya mereka sendiri (UMNO) yg memulakannya...Org ramai, terutama melayu semakin jelak dgn UMNO yg ada sekarang.

Kenapa mereka menyerang UMNO? Sbb UMNO adalah tunjang kepada pentadbiran negara. Ketuanya, timbalannya...

(Sekadar Pendapat)

Assalamualaikum yang amat dihormati Tun,

Everybody have their own conclusion of what transpire from GE12. Though some may disagree, your thought is very much welcomed. But for me, i agree with what you have said.

Tun,
My family are staunch supporter of Perikatan then and BN now. My great grandfather was the Umno head of my kampung as so was my uncle. All my family members were and are Umno members. However, during the last GE, i did not vote but i remain an Umno member. To my surprise, BN lost in my constituency but of course not just due to loss of my vote. Why didn't i vote then? You summarized it well Tun.

BN still relevant. Yes, i agree with you Tun. I however respect the opinion of some who dont believe so. The opposition capitalised from BN weakness. I wish to know the direction of our country, if PR do win the next GE. Will it be an Islamic state or will it be a secular state. Well, they have to decide if they win the election.

Tun, my sincere thanks to you as you has steered the country to success. Though some may dislike and discredit you, but the fact remain: you are the greatest leader of this nation. I shed my tears when you stepped down, but i shed more tears now.

Tun,

Are you trying to say "Only" BN able to rule m'sia forever? And there's "No" other party can rule as BN? I disagree!! The arrogant BN should learn that, they should respect the people's power. They must remember that, they are "Wakil Rakyat".

By khairi ali on September 23, 2008 4:46 PM

Assalamualaikum Tun, Yes I do agree the concept of BN is still relevant, and it is important for the government to be strong in order to govern a pluralistic nation like Malaysia.

2. But as a Malay, I found out that Malays are not behaving like Malays anymore. And they are not that religious also. I think even PAS leaders are struggling to put forward the ideas of Islamic state. I think this issue will always be haunting the Malays.

3. The problem with UMNO is that they still do not want to really go in depth on Islamic state. Tun can see that the leaders, especially women, still could not wear proper Islamic attire, but the members are wearing it. This is the glaring example of not understanding the wants of the Malays. In fact, they sent their sons and daughters to more Islamic base schools than before.

4. What I'm trying to say is that the Malay leaders do not really try to comply with the wish of the members and supporters. They tend to talk more about developments, trying to acheive the develop status, the global challenge, the new ideas of running the corporate, and so on. So, comparatively, matters on Islamic state are not being scrutinised properly. Thus, giving the picture that the present form of Malaysia is already an Islamic State.

5. I'm bringing this question of the Malays is because Malaysia will be in trouble if the Malays could not unite. Or may be it will be more accurate if I say that Malays are not bothering their own nation as they should. So, how can we get a united nation like Malaysia, if the main core of its nationals - the Malays - could not be united?

6. Therefore the relevancy of BN lies in the ability of the Malays to unite. Beyond that Malaysia is like a coco crunch, ready to be eaten by anybody! Or to put it in line with sci-fi movies, the black hole of Malaysia is now, existing.

By Jason on September 23, 2008 4:49 PM

My personal view is that MCA, MIC and Gerakan are so outspoken in the public nowadays because of 1 main reason. That is their view has far been swept under the carpet through close-door negotiation cause the final WORDS or DECISION is still based on BN lead which is UMNO. Therefore supporters of the component BN party except UMNO deserted them as though their respective leaders didn't bring any changes. Therefore I think all component parties should sit together and discuss the problem and get a unify decision or solution. Example you see MIC and MCA president keep their voice heard nowadays in the public on issue which they don't agree with UMNO after they have no more positions in the cabinet. :(

Assalamualaikum Ybhg Tun & famili dan selamat menjalani ibadah puasa.

1. DSAAB akan cuba baiki damages yg dia dipertanggung jawabkan sebagai PM. Kadangkala tengok muka dia semasa berita, terasa kesian pula. Semua dok hentam dia. Pembangkang pula tersenyum dan ada yg ketawa melihat PM yg semua tak kena.

2. Ybhg Tun dan penyokong (termasuk saya) terpekik dan memaki hamun (melalui tulisan) dari luar. Kemungkinan mereka (ahli UMNO) yg berada di dalam itu dengar pekik terlonjong kat luar tp mereka tak berani nak sambung.

3. Kenapa? Mereka (ahli UMNO) sendiri tidak pasti kemungkinan apa yg akan terjadi sekiranya DSAAB out of picture. Kemungkinan keadaan akan jadi lebih teruk dan kali ini kemungkinan mereka akan kehilangan semua yg ada.

4. Mereka (ahli UMNO) tak berani berkorban, tetapi ada kemungkinan juga mereka telah bertindak tetapi undian mereka dinafikan (1% mengatasi 99%).

5. Dalam UMNO siapa yg mampu dan berani merancang semua 'IMPOSSIBLE' jadi 'POSSIBLE'? Orang itu mesti terlalu licik mcm sang lamri dan dia memang inginkan keadaan sebegini berterusan. Dia juga kemungkinan dah biasa buat mcm ni (baling batu sorok tangan) dan amat berkesan utk kenakan org lain.

6. Fikirkan.

Salam Tun,

I hope PAKATAN RAKYAT wins and HADI AWANG becomes PRIME MINISTER. I wonder just how many people in the opposition would love that outcome? Their ideologies completely differ from one another

They just dont get it. They got NO common goals and ruling over the people is completely suicidal.

They (opposition) and other Barisan component parties, MCA & Gerakan are using this opportunity to solidify their position within the cabinet so that they can demand more. It is now or never for them...

The opposition talks of wiping out NEP seems to be very tempting for Gerakan and MCA but the fact that NEP has made Malaysia multi racial peace loving country.

Disposing of the NEP contract may be tempting to those who want to make extra gains despite the method use. SacrificING the harmonious situation HERE to gain some extra profits...Splendid!

The media too has potrayed the political situation in Malaysia as unstable and they are too be blamed.

The tactics used by opposition indefinitely states that the leaders are in it for political and social gains. They never even sit together to consolidate their position.

During this period of political uncertainty, we need a FIRM leader not a nice 1 though..to bring things back in order and to stir our economy to greater heights.

We cannot eradicate corruption as it exists everywhere and I can only say that we can MINIMISE IT.

BN presently is sinking because of the present leadership but united under a powerful banner/Man the 'SHIP WILL NATURALLY TRANSFORM ITSELF INTO AN ARMADA OF POWERFUL FLEETS OF AIRCRAFT CARRIERS'

Ps: To see Malaysia as a SEA SUPERPOWER.

Selamat Berbuka Tun.

Umno is divided into five divisions now;supporters of Abdullah;supporters of Najib; supporters of Mahathir; supporters of Annuar and finally those who support in the name of Islam(fanatics).As such Umno is on the verge of destruction.After the election the Chinese are more towards DAP, the Indians clueless and the rest just living.In a situation like this Annuar's Malaysian Malaysia will win the day.51 years of ignored corruption, misuse of wealth and power,nepotism and blatant use of government power and finally the ISA.For the Umno/BN to come back will be just next to impossible.How much you plead in the name of the UMNO/BN coalition will not help anybody.It is best you stay away from politics and just concentrate on your own weakness.Abdullah will not step down and even Najib will not listen to your pegging.They have already made up their mind on how the country is going to be ruled and how they have lost their majority power.From now onwards no government will enjoy the two third majority.All politicians have to work for a living.The Malays will have to give up their rights as now the aborigine have already exerted their power; a mistake made by the Malays.The other races will fight for this downtrodden and the world will support them.We are going to face new problems.Your urgings will not materialise; it will be a dream.

Assalamualaikum Tun,

Malapetaka dalam politik sekarang disebabkan oleh pemerintah kita kat atas tu tak sedarkan diri. Itulah kalau memerintah tak ikut ugama, itulah padahnya. Allah tu Maha Agong, di balasnya dengan keadaan kucar-kacir sekarang. Harap-harap PM, DPM dan geng-gengnya sedarlah dan bertaubatlah cepat-cepat, kalau tak rakyat yang menderita, mendapat musibah.

Anyway, someone should sms or write to our PM asking them to read your write-up and our comments. Then only he will how many people dislike him. But I think he will "buat bodo" as usual.

It's also nice to read all the comments. Never thought Malaysian are so creative and can throw in a lot of ideas. Thanks to Cyberspace!!

Well...whatever it is, we will have to wait and see...tunggu dan lihat (disamping berdoa!)

Any chance of us "the rakyat" to choose our own PM?

By ardy1 on September 23, 2008 5:32 PM

Dear Tun,

Agree with Opposition being a hypocritical. PAS is an easy target. DAP only generates hate.

NOW, UMNO is fast becoming that too. Outsiders see the party as being ultra Malay, enough for them to even turn their votes to extremist oppositions.

Let's say DSAAB withdraws, sooner or later, it does not make the problems go away. The racial resentments are real. It is alive and well in every culture and society.

I saw a very open minded Prime Minister when you were in power. Now, UMNO seems to be very very closed. Explanations given does not satisfy the general public. Oppositions are using this opportunity to attack.

Salam hormat Tun Mahadhir

Berulang kali saya mengatakan Malaysia adalah negara yang luar biasa "unique". Negara yang berbilang kaum dan di beri kebebasan mutlak memilih jurusan sekolah apa aja sekolah cina sekolah india atau sekolah kebangsaan bahasa Malaysia.. Dengan adanya sekolah cina dan india perpaduan rakyat sukar mahu di capai sehingga sampai ini isu perkauman tidak dapat dikawal.

Yang aneh tapi nyata parti pembangkang khusus DAP tidak pernah sentuh demi menyatukan rakyat supaya sekolah cina atau india di tutup dan hanya sekolah kebangsaan bahasa Malaysia diwajibkan untuk semua kaum. Masih ada kaum cina tidak boleh bertutur bahasa Malaysia sama sekali. Di negara Singapura pernah dulu ada universiti Nanyang dan banyak sekolah cina, india dan melayu. Sekarang negara yang jauh lebih maju rakyatnya bersatu dan hanya sekolah dan universiti inggris aja yang wujud. Kenapa boleh?. Yang sering kita dengar DAP berteriak 2 "Malaysian Malaysia" tetapi tidak mahu tolak asur supaya rakyat dapat bersatu. Kalau berterusan begini bila boleh rakyat Malaysia bersatu? juah api dari panggan.

Mereka yang menentang BN adalah sebahagian kecil. Penulis seperti Helen Tan, Kim Quek, Tian Chua dan banyak lagi penulis di Malaysiakini kurang paham aspirasi khusus rakyat melayu. Sebagian besar bangsa melayu di kampung, ladang getah ladang kelapa sawit dan di ladang FELDA menaruh harapan besar hanya BN boleh menjamin masa depan mereka. Menurut saya kalau PKR, DAP atau PAS ambil alih pemerintah Malaysia akan terjadi kocar kacil dan mungkin kehancoran negara. PKR dan DAP jangan lah bermain dengan api.

Isu perkauman sangat sensitif Bar Council menentanginya tanpa mengira kalau terjadi bertumpah darah mereka mahu bertanggung jawab. Generasi muda ini termasuk bekas menteri Zaid penulis di Malaysiakini dan pemimpin BAR Council pada waktu rusuhan 13 May 1969 mereka semua ada di mana?

Akhir ini Teresa Kok pula buat tuduhan yang tidak masuk akal apakah orang tahanan harus beri menu sama dgn restaurant?

WELL WHY CANT YOU ALL ACCEPT THE FACT?! BE PRACTICAL- MALAYS ARE RACIST AS WELL THE CHINESE AND AS WELL THE INDIANS! VERY FEW ARE NOT RACIST! BLAME THE EDUCATION SYSTEM THAT BUILD SUCH!!!! IM SAYING THIS AGAIN AND AGAIN - CHANGE THE MENTALITY FIRST!! MENTALITY OF THE MALAYSIAN! MAJORITY OF US ARE NOT SO SMART AS THE WHITES- SO IN ORDER TO BE SMART & TO CHANGE THE MENTALITY - IS BY RESTRUCTURING AND STRENGTHENING OUR EDUCATION SYSTEM!!!! WHOEVER WE ARE IS BASED ON EDUCATION SYSTEM!! IM NO A TEACHER!! BUT YET I THINK THE EDUCATION SYSTEM IS VERY BAD AND IT DOESN'T ENCOURAGE STUDENTS TO MIX WITH OTHER RACES-MEANS LEARNING TO ACCEPT EACH OTHER. EVEN IF THERE ARE STUDENTS DIFFERENT RACES SITTING IN THE SAME CLASSES- HAVE YOU NOTICE - THAT MOST OF THEM CLICK ONLY WITH THEIR RACE DURING REST TIME- OR DURING OUTINGS- NOT MANY SCHOOL CHILDREN I CAN SEE HAVING BREAK TOGETHER OR SHARING SWEETS OR DRY FOOD WITH OTHER RACES- EVERYONE IS WORRIED ABOUT EVERYTHING- MALAY IS WORRIED ABOUT HALAL/ CHINESE ARE WORRIED ABOUT BLACK MAGIC IN THE FOOD - WHERE- ELSE THE INDIANS ARE WORRIED ABOUT 'LEMBU'. SO MANY OBSTRUCTION FOR ONE UNITY. PLEASE EDUCATE OUR CHILDREN TO BE MORE OPEN MINDED- BUT NOT BY EATING LEMBU OR NON-HALAL FOOD- BUT JUST BY ACCEPTING EACH OTHER SINCERELY THAT WILL BE ENOUGH FOR MALAYSIAN UNITY. THANKS!

By Dr Syed Alwi Ahmad on September 23, 2008 6:05 PM

Assalamualaikum wr wb,

This is in reply to Kamal Ahmad,

Firstly I support the fact that there are no high ranking Malays in the SAF. We Singaporeans do not want a Malay General who has split loyalty between Singapore on one hand - and Malaysia & Indonesia on the other. We know that Malaysian politicians - Tun Mahathir especially - will pressure high ranking Malays to

support Malaysian policies towards Singapore. This we cannot have.

If Malaysia wants to put a Chinese General on top - well then - that's Malaysia's choice. But we are not going to take chances with a Malay General in the SAF.

Secondly - I also support the banning of tudung in Singapore schools. We need integration as we believe in aiming for equality between the races. If we start by segregating the students via tudung, etc - then when will Singapore Malays integrate into our Non-Muslim society ?

If Malaysia does not want to integrate her Chinese population - then that's Malaysia's choice. We in Singapore however - seriously believes in racial integration. Hence everyone must make compromises. No tudung in Singapore schools - period. Besides - it's only in schools - but Muslimahs ARE allowed to wear the tudung at work and at the university.

Regards

Dr Syed Alwi Ahmad

Dear Tun,

Najib ignore you. He said Malaysia are fundamentally strong and stable, so re-peg is unnecessary. As usual, all BN leaders ignore you. I strongly believe the theory of 'RAHMAN' will be realize soon. That is bad news to all Malaysian because BN power will come to an end after 'N'. I think the next word to replace it is 'ANWAR'.

What happen in the past is history. Whatever damages done cannot be undo. BN now is like a basket full of red beans and green beans. Sorting out the green and the red is a tedious job especially when BN leaders are colour blind. Lets move forward. Globalisation is inevitable. All Malaysian should make fast decision. Time is not on our side. Lets PKR rule and see what they can do to the country. Malaysian will never lose as long as we stay together.

Is time to end politician games.

it's not about race,
it's about corrupted practice that made Malaysia falling back,
BN is not the best choice around, why?

the pot of milk is full of indigo, not only a drop,
wake up, why you guys think that if PR ruling it's the end of the world?

it's not, it's a new n better choice,
they fight against corrupted practice which implanted decades long, they revitalize the economic structures , the wealth of country is not only for cronies, but to all Malays, Indians, Chinese.

We talk about globalisation , we should talk beyond races, it's a Malaysian's Malaysia, get it?

wasn't that is the vision of Tunku Abdul Rahman when fighting for Malaysia independence?

everybody, how long do u think the race issue need to prolong to? another 50 years?

"Because of one drop of indigo, a whole pot of milk is spoilt."

Dr.M

The thing that irk me most is your choice of words here. You describe us as Chinese which most readers from SE Asia would immediately understand as your reference to Malaysian Chinese. In another global forum, most would have thought your reference to China Chinese.

To most, a simple word of reference wont mean much as long as it brings the meaning to the readers. The effect on the ones being referred to is that they are subconsciously being reminded that they have a motherland to return. The same goes to Malaysian of Indian descendants

Surely you dont want to be the indigo.

Mahathir,

Short and simple - prepare for a change of Government.

From opposition component to BN - basically Malaysia do not have a good Leader that can rebuild the multi race and multi cultural society NOW! Every politician is just have the "EYES" on the pots of gold that Malaysia have generated for the last 50 years.

This generation politician is a greedy idiots and a small handful that are willing to fight for the society but it is too little too late.

All we need is the a BN (II) or something similar to reactivating the spirit of multi race that has been working side-by-side since 1957. We need to abolished anything that been once misused such as ISA law to Ketuanan Malay. All these old concept / deal MUST go - I knows that it is a huge step that some MUST take and overcome, but the outcome of better Malaysia will be only achieved.

You can see now "Malaysia Boleh!" and "Wawasan 2020" enthusiasm and spirit are all gone, forgotten and die-down. Last 10 years we always can hear praise of Mega-project been launch in Malaysia. Now all seems to be very quite - Nothing to ignite the Malaysian Spirit anymore - Nothing to proud of malaysia. It just going down hill (like an Avalanche).

I remember I did bring up this topic amongs my friend and family. They told me we still have Malaysis Eye. My reply is that Malaysian now is lack of innovative and creativity until we needs to copy other peoples work to get well known. This isn't things to prouds but it is just a shames amongs Malaysia that they can not use their ability to come out with something unique that every part of the world will praise it. NO, No more of such cases in malaysia.

This is why Malaysia will turn into unrespected, uncompetitive, unattractive, and undeveloped country in the eyes of investor, foreign leaders and malaysian citizen itself.

By luewoon on September 23, 2008 7:54 PM

Dear Tun,

1. For BN to be revive, BN must first show example and take the lead, the current crop of top echelon leaders and going-to-be leaders are no longer acceptable, with tainted reputation and/or belonging to the old school of thoughts of purely race based inclinations.
2. Many potential good leaders are forever waiting in the wings but will never be able to attain the decision making level where it counts and therefore add new branding to BN because of the restrictions and obstacles i.e. minimum branches nominations to qualify, the 'old school' grassroots support for existing leaders, and not excluding money politics and of course patronism by existing leaders to ensure that their legacy continues on....
3. Top leaders must never be allowed to overstay, and their term must be restricted to no more than say 2 terms. As the saying goes, "power corrupts and absolute power corrupts absolutely"
4. Minimum qualification to be elected e.g. in Singapore, you need to have a tertiary education from an established and reputable university. This eliminate some of the gutter politicians we have today.
5. Leaders are thus elected through the natural process of elimination, where the unfit and corrupt have

been filtered out, leaving the qualified ones.

6. No leaders are elected due to sentiments based on grass-root support only.

7. Rewards to elected members to commensurate with their work and this monetary reward are comparable to private sectors. Severe punishments to be meted out without fear and favour if they are corrupt and not able to perform their duties as required.

8. This is just some of many things we must do if we are to avoid the type of leaders we have today to run our country. Who can blame the opposition on capitalising on these known flaws and sure enough they would be making even further in-roads...

To Dr Syed Alwi Ahmad

Just to comment on your quotation; Firstly I support the fact that there are no high ranking Malays in the SAF. We Singaporeans do not want a Malay General who has split loyalty between Singapore on one hand - and Malaysia & Indonesia on the other.

What is the rational of your so-called 'meritocracy government' to impose such a policy to deter Malays from holding top position in the Armed Forces ? the way I see it, that if there were to be 'war' between your country and Malaysia/Indonesia, the Malays soldiers loyalty to your country will be at stake and they will desert the forces and turn against your country ????? I could still recall your Brig Jen Lee JR who stated that "WE DO NOT WANT TO PUT OUR SOLDIERS IN DIFFICULT POSITION WHERE THEY LOYALTY TO THE COUNTRY WOULD CONTRADICT WITH THEIR RELIGION AND BELIEFS. BY MAKING THIS STATEMENT LONG TIME AGO, YOUR GOVERNMENT AT THAT TIME WAS REFERRING TO MALAYSIA/INDONESIA AS POTENTIAL ENEMIES. I HOPE THAT PERCEPTION WILL CHANGE BUT IT SEEMS THAT THE POLICY OF APPOINTING MALAYS TO THE TOP BRASS IS STILL BEING ENFORCED.

AT least in Malaysia, there are Chinese and Indian pilots, armed forces officers and police officers. May be you should tell us if there any Malays officers in your army, navy and Airforce.

What is a big deal ?? Should there were to be Malay General who refuse to carry an order then by all mean relieve him outright...simple as that....

your other statement -Secondly - I also support the banning of tudung in Singapore schools. We need integration as we believe in aiming for equality between the races. If we start by segregating the students via tudung, etc - then when will Singapore Malays integrate into our Non-Muslim society ?

I don't understand...your government is enforcing the intergration but yet when it comes to the recruitment of Malay officers, why there's a double standard ????? In Malaysia, we are not forcing the Punjabis to remove their turbans...either in school, serving in the armed forces or while they are riding motorcycle along the street...

over here, we are not forcing our people to intergrate.....through strict policy..we allow flexibility and that is our beauty....

If you country really appreciate racial intergration that is good if you could also be consistent in the fair representation of the ethnicity in your country's human resources....

1. Macam kamu, brader, saya juga pernah ke luar negeri beberapa kali, tetapi saya sentiasa enggan pulang ke Tanah Air Ku (TAK), kerana saya pernah (dan sedang) berkerja to luar negeri (termasuk Singapura, Australia & Britain) dan hanya di TAK saya pernah kena discriminas kerana bangsa dan warna kulit saya. Di negeri2 dimana saya tidak ada kewarganegaraan and hak2 selaras dengan

kedudukan itu, saya di terima sebagai manusia biasa dan di anggap sebagai manusia sama dgn warga Negara sendiri. Kena apa nak pulang ke tanah beranak saya hanya untuk dihina oleh orang pendatang seperti saya sendiri (ia itu orang Melayu dari Indonesia atau India macam Tun sendiri)? Kena apa? Also, mengapa, brader, nak banding dgn Somalia, mengapa tidak banding dgn US ke, UK ke, Singapore ke dan Australia. Kalau kamu orang Islam, kan lebih sesuai you pergi ke Somalia :-)

2. Cabar apa, dik, saya sudah lama keluar TAK dan kerana kebolehan dan pelajaran saya – yang dibayar oleh mendiang bapa saya (seorang pegawai tentera yg banyak berjasa untuk TAK) dan bukan scholarship yg diberi kepada umnopena menggunakan wang cukai orang bukan bumiputera – saya boleh masuk and keluar mana2 negeri barat yg saya suka. Saya lama dah berdikari bukan macam ramai bumiputera di TAK yg masih - dan saya pikir akan selalu - bergantung kepada NEP. Cabar kepala otak awak!

3. I was not rude, brader, just direct and to the point. Saya bukan manusia biadap atau kurang ajar. And I have told Tun many times how much I respect the many good things he has done in the past & I stand by that. But the question was why BN lost in March 2008? My honest answer was that it was because of Mahathirism and the failure of Pak Lah to put an end to it as promised. Paham, Bro?

4. Berkenaan Islam, apa yg patut orang Islam kena buat ialah hentikan pembunuhan orang Islam oleh orang Islam. Don't blame others especially "Orang luar selalu nak cari alasan nak menjahanamkan Islam". More Muslims are killed by Muslims than ever by non-Muslims in all of history. So who jahanam who, dik? You want to do something for Islam, stop Muslims from killing Muslims first. OK?

Dr Syed Alwi Ahmad ,

You are a trully Malay Singaporean who have forgotten what Malay is and that its ok for Malay not to become an Air Force General since thier loyalty including Dr Syed Alwi is questionable and it ok to ban tudung in Singaporean school even though the name Syed represent a true muslim and it ok that thats is what freedom meant to Singaporean Malays. Prabo Dr. Unfortunately Dr, you cant find all those thing in Malaysia, and freedom in Malaysia is you can fly as high as you want, just dont cross the line.

Greeting Tun,

First of all, I'm proud to be a Malaysian. Because we have you.

Your blog member getting more and more, I cannot read all, but 98% here wants back the old Government, the time you as the PM.

We want a peaceful country, a harmony party that rules the country. We are sitting in a same ship, we all will face the same fate if it sink.

Actually, I don't care if its an Islamic country or not, a multi-racial party rules or a single party to rules all. Just make the whole Malaysia prosper, harmony and respectful.

The current PM fail to do it! Lets fotget PKR, just an act. But we need PKR to balance the flows, no more monopoly of anything. We need a new PM right now! One person failure bring the whole country down.

Lets put a side our differences, putting hands to hands, work it out a win-win solution to all. Say it easy, so can we just try to make it easy. I will be the first to do my part, I will support the next PM who can bring us out from this bad time.

Good health, Tun. And all blog members.

Saya berminat dgn penulisan (By S..Tan on September 23, 2008 12:46 AM).Memalukan orang melayu kalau difikirkan betul-betul. Orang UMNO mempunyai semua, kuasa,projek,bank,harta..Tapi kerana tamak haloba,ingin senang diri sendiri makan sendirian sahaja tanpa ada niat menolong sama sendiri.. "Salah siapa"

Itu orang UMNO ,bila masa menggundi percalonan sampai ceruk dapur pun masuk suruh sokong .Bila dapat kuasa lupa orang kampung dan buat harta sendiri.."Salah Siapa"

Itu sebab org suka masuk UMNO, boleh dapat projek dan dapat duit. Bila kalah..harta semua dah ada..Orang kampung jadi mangsa..Macam tu lah kaedahnya.."Salah Siapa"

Dear Tun,

Being an ordinary person that living in Malaysia, All we are looking for a better living environment such as :-

1. Good monthly salary for government and private employees.
2. Affordable basic need such us food and fuel
3. Fair and equal opportunity for advancement in employment or business for all races
4. Uncorrupted government.
5. Low inflation and unemployment rate
6. Stable and strong financial with low interest rate (BLR)

This a some of the thing that have to be looked after by every ruling party in this country. Failing to do so will be translated in poor support (eg. election).

So based on the recent 12th general election, I think the current government must be failed to honors some if not all of the public expectation that I mentioned above.

For example, In our neighbor Singapore, their fuel (Diesel & Petrol, Food, and almost everything are more expensive compared to Malaysia but their people do not complaining. This is because their household Income is very much better than us. Its mean that all this stuff is still within their budget and after all that spending still have some money for long term saving. TO BE SIMPLE, ITS IS OK TO REDUCE THE SUBSIDY BUT GOVERNMENT MUST HAVE RAISED THE STANDARD LIVING OF EVERY PERSON LIVING IN MALAYSIA.

I am respecting Tun View but not really agree In the issue that the opposition will fail if given the chances to govern this country. I think this same perception was first raised by British Colonial to the Barisan Nasional (Pakatan) when they hand over this country. The British thinking was that the new government will fail to govern Malaya and British will come to rescue this country but thank GOD Tunku and others manage to prove that we can. Now, the same Scenario is imposed to PR. Actually only Heaven knows what will be happened if PR really govern.

For ordinary people like us, having a two strong opposing political party is good and healthy for our beloved country. Its mean that from now on any ruling party must really do a hard work, failing to do so will be fatal for them.

Anyway, I still solute and respect TUN for what you have done in the past and now.
God bless.

By Dr Syed Alwi Ahmad on September 23, 2008 11:30 PM

Assalamualaikum wr wb,

This is for Zachary64 & antubiul,

First of all - it is UMNO that always promises to bathe in Chinese blood with the keris. It is Indonesia who views Singapore as a red dot in a green sea. The truth is - Muslim countries in ASEAN have severe problems with the Overseas Chinese due to historical and economic factors. I do not see a problem with not having a Malay General. What for ? We know that Malaysian politicians will pressure such a Singaporean Malay General to support Malaysian viewpoints. Better not to have one. Its a blessing in disguise !

Secondly - by the looks of things - it is Singapore that has a more successful approach towards governance and economics. Why should we follow Malaysian ideas when it does not even work ? The Malaysian Chinese are migrating to Singapore in large numbers because of Malaysia's racial policies. BUT how many Singapore Malays are migrating to Malaysia ? Very few indeed ! Life in Singapore - for a Malay - is quite good !

Finally on the tudung - we need to integrate our minorities and every group has to give up something. For example - we do NOT allow Sikhs to carry their knives around. We jail the Jehovah's Witness because they do not want to do National Service. And so on. The tudung is only one small aspect.

By the way - Singaporean Malays are NOT the same as Malaysian Malays. We Singaporean Malays are born and bred as a minority Muslim community in a Non-Muslim country. We do not have the tongkat or wheelchair or NEP or Hak Istimewa or Ketuanan etc. We stand on our own two feet and we are very very proud of it.

Best Regards

Dr Syed Alwi Ahmad

assalamualaikum Tun,

1. Pada pilihanraya yang lalu, saya telah memilih BN .Walaupun saya amat tidak menyenangi cara kepimpinan DSAAB. Pada pendapat saya BN tetap lebih baik daripada parti pembangkang yang ada di Malaysia. Saya bimbang dengan PM yang lemah, sekiranya negara diperintah oleh parti pembangkang negara bertambah tidak stabil dari segi politik, sosial dan ekonomi. Sekarang sudah terbukti dengan parti pembangkang memerintah 5 buah negeri, semakin naik tolong mereka ini. Perkara sensitif yang tidak sepatutnya dibincangkan mula dipertikaikan. Sepatutnya PM patut mengawal keadaan ini dengan secepat mungkin .
2. Negara ini yang pelbagai bangsa , agama dan budaya (walaupun melayu lebih ramai) Pemimpin harus tegas, berani dan bijak seperti Tun.
3. Suami saya menjalankan perniagaan kejuruteraan sendiri. Semasa zaman Tun memang murah rezeki tambahan pula suami saya seorang yang kuat bekerja (bekas didikan pengurusan dari kilang Jepun). Tetapi sekarang memang perit untuk mempertahankan syarikat dengan kos operasi

meningkat dan ekonomi negara yang tidak menentu. Kami yang berniaga sendiri memang merasa sakit. NO THANKS TO DSAAB.

4. Memang benar Tun saya seperti kebanyakan rakyat biasa yang lain tidak kisah tentang hak kebebasan suara dan entah apa-apa tututan merapu sesetengah NGOS. Apa yang kami harapkan kestabilan politik, peluang perniagaan dan pekerjaan yang luas, pendidikan anak-anak dan masa depan mereka cerah, harga barang keperluan tidak naik, rakyat bersatupadu dan negara aman. (Kekalkan ISA).

5. Saya berdoa semoga DSAAB dibukakan hati untuk berundur dari jawatannya dan diserahkan kepada timbalannya. Jangan FLIP FLOP lagi.

6. Sudilah Tun sekiranya dapat memberi penjelasan dengan keputusan menteri kewangan tidak mahu menggunakan mekanisma kewangan yang dinasihatkan oleh Tun.

7. Kepada Saudara Shariff 5 jangan bersikap kurang ajar kepada orang lebih tua tambahan yang banyak jasa kepada negara. Tanya diri anda apa sumbangan anda pada keluarga, masyarakat setempat dan negara? Jangan asyik nak mengutuk orang (ikut gaya parti pembangkang dan makhluk pengacau) cuba mengajar orang yang lebih berpengalaman dan telah bersusah payah memajukan negara. Begitu juga yang lain, yang datang ke Blog Tun tetapi bersikap biadap (Nasha bin Edwin)

8. Harap Tun akan cepat kembali ke Umno dan berganding bahu dengan ahli-ahli dan pemimpin UMNO yang ikhlas bagi memperbetulkan Parti supaya bebas rasuah dan kembali kepada perjuangan asal. Slogan Cemerlang, gemilang dan Terbilang hanya layak dibawah pemerintahan TUN bukan PM sekarang.

Selamat Hari Raya dan maaf zahir batin sekiranya terkasar bahasa. Semoga Tun Dan Tun Siti Hasmah diberkati Allah.

just a thought,

In real politic, there are no permanent friends, only permanent interests. I believe that race based political party will prefer to strive for their own race interests first and will only seek friendship once their interests are fulfilled.

In the case of Malaysian politics, there are lots of people like Ahmad (the most forgetful malay). Simple remedy is, remove him from his post, strip him his datukship, sue him in court and declare him a bankrupt, then he will become friend to all.

Regardless whether BN or BN II, as long as it comprises of race based political party, the top paragraph will continue to prevail.

TO DR SYED ALWI

why must you waste your time commenting in this blog? This blog has nothing to do with the small country like yours which provide new water to its people...

just switch off your laptop or redirect your explorer to somewhere else.... and sit down nicely on a big comfortable leather sofa and JUST ENJOY THE NEW WATER

Selamat Hari Raya...

err...do you still remember how the azan sounds? or the Eid Takbir?
may be you should consume more NEW WATER....

Salam My beloved Tun & Madam Tun,

Saya ada cadangan untuk blogger semua.

Apa kata Hari Raya yg bakal menjelang ni kita semua hantar Kad Hari Raya pada Pak Lah! Tulisannya antara lain berbunyi begini :-

"Buat Datuk Seri Abdullah Ahmad Badawi & keluarga,

Terima kasih di atas segala sumbangan dan jasa yang telah dicurahkan sepanjang tempoh Datuk Seri menjadi Pendana Menteri Malaysia.

Dengan berbesar hati saya bermohon agar Datuk Seri dapat melepaskan jawatan Perdana Menteri Malaysia & Presiden UMNO dalam tahun ini juga dan menyerahkannya kepada Timbalan Datuk Seri.

Saya maafkan segala dosa yang telah Datuk Seri lakukan secara sengaja atau tidak & jika sudi saya harapkan yang sama dari Datuk Seri. Tak sudi tak pe.

Selamat Hari Raya Aidilfitri & Berhati-hati Di Jalanraya!

Ikhlas,
Mohd Lenny Hasan"

Amacam kawan2, masih lom terlambat ni. Kita pakat ramai2 hantar kad hari raya utk Pak Lah 'tercinta' ni. Kurang2 dia dpt gambaran sebenar sambutan rakyat terhadap dia!

Adios!

asalamualaikum Tun,

saya pernah membaca mengenai BIOGRAFI Tun masa masih sekolah dulu, Tun ada menyatakan kalau nak idea kita terlaksana dan dibuat walaupun mdpt tentangn pihak lain, maka kita kena duduk pd peringkat atas skali spy kita ada kuasa utk melaksana dan mpyai kuasa utk meyampaikn idea kmudian dilaksana oleh badan2 pelaksana.

ternyata spjg 22 thn sbgi PM, Tun berjaya menyampaikn idea yg bernas biarpun byk yg tak stuju sbb mgkin kurang cerdik ataupun kemampuan akal mereka bfikir tak terjangkau spt apa yg Tun fikirkn. Nah..kini kita boleh lihat idea Tun dulu telah byk mberi faedah berbanding idea2 pemimpin skrg yg dr mula sudah mnunjukkn kepincangn dan mudah dikesan ketemberangannya.

kpd pembaca budiman yg lain yg mgkin tak brpa suka dgn kepimpinan Tun dhlu, (mgkn apa yg Tun sumbangkn tak sampai pd mereka atau rasa teraniaya dibwh pentadbirn kabinet Tun), mana2 blogger yg memuji Tun melalui tulisan mereka adalah disebabkan mereka dah buat kajian, buat penilaian dan kemudian buat perbandingn antara tempoh 5 tahun Tun mjd PM dengan 5 tahun pak Lah jd PM. memang amat jauh bezanya

walaupun pak Lah kata dia ada cara sendiri tp caranya kurang cerdik dan tak byk membantu kpd kejayaan negra, perpaduan bangsa dan keteguhn agama Islam di bumi malaysia. smuanya caranya dlm tempoh 5 thn ini merosakkn kejayaan ngara sblm ini (tak ada kejayaan tersdiri yg nampak jelas di mata), perpaduan bangsa mjd goyah dan amalan agama Islam diperlekehkan (bkn sja oleh org Islam sdiri bahkan bgsa lain yg bkn Islam pun sudah berani mcabar ksucian dan kemurnian ajaran Islam utk diamalkn scara terbuka di negara ini).

Betul ke you pernah belajar kat "overseas"? Pengolahan ayat you semacam je I baca...BTW, itu tak penting, cuma I nak you jawab satu je soalan saya iaitu:-

Jika benarliah dakwaan you mengatakan bahawa BN kalah pada PRU Mac 2008 lalu adalah disebabkan oleh kegagalan AAB untuk menamatkan "Mahathirism", kenapa selama 22 tahun Tun Mahathir Mohamad memerintah Malaysia, kita tidak pernah mempunyai rekod kekalahan kepada pihak pembangkang seperti sekarang?

To those who think that Dr Syed Alwi Ahmad opinion is wrong

I think those who think Dr. Syed comments and opinions are wrong should examine themselves. What Dr. Syed wrote is honest and truthful. Our beloved Tun Dr. M is not always right or prefect but if those finer points that Dr. Syed wrote can be taken as a lesson to be learn by the M'sia Govt, then it is for the better for all of us. There is no necessity to fire Dr. Syed as he has all the right to comment as everyone else. TDM must be particaly responsible to some of Malaysian past and present screw-up.

I agree 101% that TDM is the best PM for his fire, vision and commitment to raise Malaysia and be recognized by the international communities. It is his people and their agents in the ministries and agencies that screw-up Malaysia. If not for the corrupted, lazy, good-for-nothing Ministers and head of agencies, Malaysia with TDM leadership would have been even more significant. TDM is not god and he alone cannot control very aspect and details in his drive to globalize Malaysia. He needs good, honest and capable people to assist his drive forward but too bad most of the better ones are working for other Govt. or become citizen of other country. This is one of the most important subjects the current administration needs to address. Like I said, Ministers should not be politicians, Ministers should be professionals with quota and accountability. Politicians are always hungry and in need of alot money to feed their supporters as it is the only way they know how to win support. They don't want to work hard to earn their support so the quickest way is to swindle the Govt and its people's money.

Salam Tun,

Here is to Dr. Syed Alwi on our comment especially regarding tudung...

quote---"Secondly - I also support the banning of tudung in Singapore schools. We need integration as we believe in aiming for equality between the races. If we start by segregating the students via tudung, etc - then when will Singapore Malays integrate into our Non-Muslim society ?

If Malaysia does not want to integrate her Chinese population - then that's Malaysia's choice. We in Singapore however - seriously believes in racial integration. Hence everyone must make compromises. No tudung in Singapore schools - period. Besides - it's only in schools - but Muslimahs ARE allowed to wear the tudung at work and at the university."----- unquote

May I asked, are you a Muslim? by looking at your name, I assume you are one. If yes, Dr. Syed, mengucaplah banyak-banyak...how could you support the banning of tudung...it's a disgrace to the religion for even writing that...gosh! is this the perception of Muslim in Singapore?

I sincerely hope that you "bertaubat" and study in depth about the religion before passing such remarks.

Very sad indeed and I only hope that Allah will forgive you and you will get hidayah from him...Amin

May Islam in Malaysia won't be like our neighbouring country...
Don't you think so Tun?

Wassalam....

By akubosan on September 24, 2008 3:46 PM

To Dr Syed Alwi and co, pls do not post in many different names. You sound the same whichever way you phrase the sentences.

Your knowledge or understanding about inter faith is null. You are also a muslim who knows nut of your own religion (if you are a muslim, that is). Tudung is not a uniform you can take out anytime you want. There are rules to that. And don't talk about other people's religion if you do not have any thing good to say about it.

So, in summary, don't talk nonsense about religion when you have no clue of what you are discussing about.

No need to cover up with the doctor title. In here, you may be someone else, you can probably be some BN spin doctor trying to show that there are outside respects to our current premier. Who knows if you are even one of the KJ committee member?

I also have no interest to blast on singaporean moslems or say much about their predicament. Only for people like this so-called Dr syed alwi, you have no right to say anything about our Malaysian's social contract. You should be glad that you still can keep your Arab name in singapore.

Salam sejahtera dan semoga bahagia berpuasa. Harap yang ini lulus...

PARTI BN BERCAKAR

Semua masalaah BN di Semenanjung disebabkan Umno yang ANGKUH- bukan permintaan parti lain. Di Sabah Sarawak tiada masalaah sebab Umno betul betul berkongsi kuasa (Ketua Menteri atau Timbalan bukan Umno) Jadi BN tidak ditolak rakyat. Sebaliknya Umno Sabah S'wak yang meluat dengan Umno semenanjung membolot semua kekayaan. Di semenanjung di benci pengundi, di Sabah Swak dibenci Umno sendiri. Inilah Umno Semenanjung yang kepala besar!

KEBESARAN Umno

Rakyat benci meluat dengan Umno yang angkuh, sombong, liar, penghasut, tak adil, rasuah, mat lesen, mat kontrak dll. Tak pandai berhujah dengan hemah membuta tuli mengecam segala permintaan untuk adil sebagai anti Melayu, pertikai hak istimewa, persoal kontrak sosial, naik atas kepala, menghina Melayu mcm-mcm lah! Kuasa di tanganmu, nak beri tak suka hati kamu, apa nak api apikan keadaan - orang lain bukan boleh buat apa apa, boleh bising saja. Tapi semarakkan api perkauman, menakutkan satu sama lain tunjak pendekatan Umno 51 tahun. PAKAI SAMPAI LAPUK!

Bekasar atau BERBAHASA?

Orang saran,minta dengan bahasa Umno(melalui sekutunya) tolak dengan berkasar – dia lawan dengan tunjuk perasaan jalanan, mencarut maki hamun, fitnah. Contoh Uitm, tindak balas Ahmad Ismail, membuka keris. SIAPA BESAR KEPALA? – yang minta dengan bahasa atau yang berkuasa bertindak liar.

Yang melapurkan kata benar Ahmad Ismail masuk ISA, yang melapur fitnah terhadap Theresa Kok lepas, mangsa pula disumbat ISA! RPK tak menganjur satu demonstrasi pun, sekutu Umno demonstrasi nak merempuh mencedera orang! Siapa kena ISA? Inilah Umno, satu ahli dia kena 10 orang mesti terima padah. Mcm dasar rejim Israel.Umno boleh bantah tindakan Raja dengan 'berkumpul' di pintu Istana bawa sepanduk,tapi orang lain?? Tau sama tau. SIAPA KEPALA BESAR?

Dah berkuasa insaf,rendah diri,berhemah sedikit agar dihormati SEMUA!

kurang ajar adalah perkataan yang paling tepat buat kamu. Islam tidak boleh didakwahkan sebegitu. Masih banyak lagi ayat dan perkataan yang sesuai. Islam itu indah tetapi bahasa kamu mencemarkan Islam. Niat yang baik sudah jadi busuk. Lain kali belajar bersopan.

Tun telah banyak berjasa kepada negara. Dengan izin Allah, Tun telah bertungkus-lumus membangunkan Malaysia bukan saja untuk anak-anak Tun saja tetapi juga untuk kita semua mencari rezeki tanpa prejudis terhadap semua agama mahupun bangsa. Tergamak kamu mengeluarkan bahasa sebegitu terhadap seorang negarawan.

Saya yakin, Allah lebih memandang Tun dari kamu kerana Tun telah banyak beramal jariah melalui kerja kerasnya selama ini. Cuba bayangkan berapa juta rakyat Malaysia yang mampu hidup dengan selesa atas usaha Tun? dan berapa kerat pula yang hidup atas titik peluh kamu?

Akhir sekali, saya nak tanya kamu, apa yang kamu telah berikan kepada Islam, Malaysia dan Melayu?

pada saya cuma mencemarkan sosio-budaya saja sama macam Anwar Ibrahim.

Brader,

1. Memang pengolahan ayat saya semacam kerana saya dah lama keluar dari racist Malaysia dan kerana saya berumur lebih 50 tahun saya begitu lebih fasih menggunakan Bahasa Inggeris. Tetapi saya, bila ada peluang, minat bertutur and menulis dalam Bahasa Malaysia. Boleh kah kamu bertutur and bertulis dalam 3 bahasa? Tak mungkin, kerana hampir semua orang Melayu di Malaysia hanya boleh menguna BM and sedikit Bahasa Inggeris (kebanyakannya buruk). Hanya orang bukan Melayu di Malaysia boleh menguna 3 bahasa dgn baik, dan ramai orang bukan Melayu yg berumur kurang 40 tahun lebih fasih dalam BM berbanding dgn orang Melayu.

2. As to your question why BN did well for so long under Tun, there are many reasons. However, if you face the truth and understood the hatred the Malays had for Tun (Maha Firaun, remember) when he left government in 2003, you would acknowledge that BN would have been decimated if Tun had led it into the 2004 GE. Remember that in 1999, BN was saved by non-Malay votes, not the Malays. So why did the people give the 90% landslide to AAB in 2004? It was because people believed his promise to rid the country of the excesses, corruption, oppression, cronyism and blatant racism of the Mahathir years. But why did they take away his 2/3 majority in March 2008? It was because he failed to rid the country of the

excesses, corruption, oppression, cronyism and blatant racism of the Mahathir years as promised. Now you don't have to have studied overseas to see the logic of that and my conclusion that AAB lost the 2008 GE because he failed to end Mahathirism. Q.E.D brav!

Sang Ketua bukan sahaja perlu didesak/dipujuk selalu untuk melepaskan jawatan, malah mulai dari sekarang MT juga perlu didesak terus-terusan untuk mendesak Presidennya letak jawatan.

Ahli MT nampaknya selama ini tidak tahu atau tak mahu ambil tahu keadaan akar umbi. Mereka gagal menyuarakan keluh-resah orang dibawah. Seolah2 mereka berada didalam dunia mereka sendiri, bukan mewakili masyarakat melayu yang mereka pimpin.

Walaupun Tsunami politik 7 bulan berlalu kesannya masih dapat dilihat sana-sini, Sekarang ternampak mereka sudah tersedar dari lamunan panjang seolah-olah selama ini tiada arah tuju. Sekurang2nya desakan itu menjadi guideline arah tuju yang betul perlu dipikul selari situasi yang sebenarnya berlaku.

Ia meringankan beban dan azab sengsara yang ditanggung PM kebelakangan

ini dek memerah otak memikirkan bagaimana caranya dia hendak melepaskan jawatan dalam keadaan yang terhormat dan penuh kegemilangan. Bilakah tarikh yang sesuai itu akan tiba. Kita sedia maklum PM kali ini memang teramat lembab nak buat keputusan.

Kini PM tidak keseorangan lagi, MT bersama-samanya dan bersedia membantu melicinkan transisi yang dirancang dikaji kadar segera. Tidak perlu fikir banyak nak tanya pendapat anak-menantu dan isteri, ini boleh merunsingkan fikiran. Dengan cara itu keputusan akhirnya dapat dicapai sebulat suara dan lebih meyakinkan.

Inilah dilemma yang mengusutkan keadaan kerana hendak menjaga hati semua pihak, kewibawaan institusi parti, presiden, rakyatlah dan macam-macam perkara remeh yang tak sudah-sudah, hanyalah melengahkan perjalanan negara itu sendiri. Ia harus ditangani cepat dan semua ini patut dihentikan segera.

Dilemma Badawi, Dilemma Letak Jawatan..

Dear Tun :

I am not sure I can agree with you that the BN is the best option for the country. Admittedly, PKR might not be good too - as you correctly pointed out - the component parties have deep-seated ideological differences. It is a marriage of convenience.

BUT : when someone is faced with the option of having to choose between 2 evils; any thinking person would choose the lesser of the 2 evils. It so happens that the rakyat thinks PKR is now the lesser of the two evils, and they are prepared to wage a gamble. WHY ? Because 5 decades of power abuse by the powers that be have plundered the government over and over. It is also a joke that the likes of Datuk Seri Dr Khir Toyo could actually have made it to become Chief Minister of Selangor. Now, he is agitating by the sides to regain power and control - so that he can continue to sit in the ivory tower. When he was just a doktor gigi, he was probably more idealistic, honest and selfless. But when he controlled power and riches, his appetite became insatiable. We all know what his wife Datin Seri Zaharah Kechik tried to do when BN lost control of the state government. She tried to remove RM 10 million from Balkis I suspect that Khir Toyo is now creating all this wayang and drama to shield himself from all the attention which ACA might otherwise shower on him. Now, he styles and champions himself as the pembela maruah dan martabat orang-orang Melayu. He knows that by so doing and loud sabre-rattling, he will be safe, because his cronies and followers will ensure that they protect their Hero (in a sheep's clothing) and the law cannot get him.

Tun, I have read your works, and I know that deep within you, you have a sincere and burning desire to do good for Malaysia. That is why I still have high regards for you, although I disagree with your approach and methods. But, looking at the quality of the MPs and Ministers you put into your government, it is no wonder that Malaysia will not do well - especially in future with all the desakan dan tekanan zaman globalisasi. You may disagree with DSAI, but the extension of the NEP and affirmative action is the surest way of burying the martabat orang Melayu. The government needs to immerse their Malay scholars in the real corporate world overseas. Since you dislike the West so much, maybe you should immerse them in Japan or Korea or even Singapore. Oh, I forget. You hate Singapore even more, and without fail, in your blog posts, you keep on insinuating that Singapore is bad, insensitive and ill-treats the Malays. Is it because the Chinese taxi driver drove you to the gardener's shed during your undergraduate years in the University of Malaya in Singapore that you felt so hurt that you have never been able to forget and forgive ? It seems to me that you want to influence all your readers to have the same jaundiced view about Singapore.

I am no big lover of Singapore, and for that matter, no country is perfect. But the fact that it can achieve

so much with totally no resources (not even enough land, water, sand, stones and rocks !) after being expelled must put us in Malaysia all to shame. We have plenty of natural riches. Similarly, Myanmar, Indonesia, Brunei, etc, etc. Are you saying there are no lessons to be learnt from Singapore ? Even your daughter Marina wrote sometime last year that there are valuable lessons to be learnt. Perhaps it is because of your feeling of wanting to pertahankan maruah orang Melayu that you refuse to admit and swallow humble pie. If that is the case, I don't blame you. It amazes and amuses me why you keep harping on Abdullah abandoning the crooked bridge project. You actually wanted to leave behind a LEGAGY as the Prime Minister who built The World's First Crooked Bridge project. Goodness knows how much that project would have cost Malaysia, and how much it would cost to maintain; and how much economic benefits it could return - and whether it was worth the money. But you were OBSESSED ! You were prepared to pour hundreds of millions of RM which could have been used to improve our national infrastructure into a silly costly crooked bridge project just to prove to Singapore that Malaysia Boleh (... Bina Jambatan Bengkok !). Sometimes, I think you bring embarrassment to Malaysia. Incidentally, each time I drive to Singapore, I am amazed by the standards and quality of its infrastructure - expressways, MRT, LRT, airport, seaport, etc, etc. Last Saturday, they opened Southeast Asia's longest underground tunnel - the KPE (Kallang Paya Lebar Expressway). Dr M, you should try driving through it as well. They funded all those projects using their own money gained through years of robust economic growth managed by a competent and honest multi-racial government. And ours ? How did Ling Liong Sik the previous Transport Minister get so rich ? Oh, I am sorry. He is not rich. His son Ling Hee Leong is rich. Samy Vellu ? Could Malaysia not have done the same or better ? Where did all the country's money go to ? when in fact proper management by a good, honest and competent government would have made all the difference. Instead, much of our money was used to build the world's tallest Twin Towers, start a failing national car project, and launch a Malaysian into space - just to show the world that Malaysia Boleh. The cosmetics is good for a while, but when the cosmetics start to fall off under the heat, we do not know how to hide our ugly faces. Now, that is the problem and cancer that affect the BN government. So far, there is no cure for cancer and the only way to lessen the danger is to amputate or excise the diseased parts. Sigh.

Tun,

Ini lah jadinya bila RPK masuk ke dalam dan sibuklah tukang komen Malaysia Today cari tempat lain untuk meluahkan masaaalah mereka.

Sekali imbas kita dah tahu yang mereka ni sebenarnya adalah orang orang yang sangat kecewa, apatah lagi pemimpin tersohor mereka asyik menunda tarikh bila nak jadi PM.

Kalau dah desperate sangat sampai penjenayah pun nak di jadikan PM, mereka ni sebenarnya amat bergembira kalau negara kita hancur.

Kalau tanya, mereka akan jawab kita bukan hina Islam, tapi hina penganut Ugama Islam....Kita bukan benci Melayu tapi kita benci orang Umno....itulah jawapan standard yang diberikan walhal kita tahu bos mereka RPK pun menghina Ugama dan mengakui dia masih lagi mencari tentang kebenaran Islam dan menganggap sunnah Rasulullah itu kemungkinan hanya cerita rekaan semata mata. Kalau tak percaya sila baca tulisan tulisan beliau dari awal lagi, itu pun kalau belum kena delete.

Pengikut taksub beliau dengan bangganya menganggap solat, mengerjakan haji dll hanyalah ritual yang tidak penting.

Mereka cukup gembira melihat org Islam berbunuhan sesama sendiri, seolah olah penganut ugama lain tidak berbuat demikian.

Mungkin dewasa ini banyak peperangan berlaku dikalangan org Islam tapi jika kaji sejarah pembunuhan berjuta juta org banyak berlaku di negara majoriti nya penganut ugama lain contohnya Jerman, Cambodia, Russia dsb.

Peperangan sesama Islam juga sekarang ini banyak melibatkan faktor faktor lain seperti minyak dan di api apikan oleh kuasa kuasa besar yang mempunyai kepentingan masing masing.
Kesalahan org Islam memanglah banyak tapi menyalahkan mereka 100% adalah pandangan yang amat meloyakan.

Tapi, saya juga inginkan supaya beliau dihadapkan ke mahkamah atas tuduhan yang berkaitan dan bukan dibawah ISA.

Kepada pembenci TUN, janganlah harap Tun akan memberi response kepada anda supaya anda boleh berbangga kerana mendapat perhatian, tapi sebaliknya pergilah layari blog blog seperti Jebat Must Die atau Sakmongkol yang akan dapat memberi penjelasan atas kekeliruan anda selama ini. Itu pun kalau mereka ada masa nak layan orang yang buta kebenaran seperti anda.

Saya cuba nak tanya kepimpinan yang ada.

Jika ditakdirkan Singapore ditimpa bencana seperti gempa bumi dahsyat atau Tsunami yang menenyapkan sama sekali terus dari peta bumi.

Apa tindakan Kerajaan?

-Adakah govt dengan mudah membuka tambak Johor kepada Singaporean?

-Bolehkah pelarian Sing' kita biarkan merempat dibumi M'sia?

-Adakah PM Sing' akan merayu M'sia menerima rakyat mereka?

-Adakah govt akan membuka kewarganegaraan?

-Bolehkah rakyat 'yang ketinggalan' itu mengikut undang2 style M'sia?

-Kalau M'sia tak benarkan adakah M'sia dikira tak berperikemanusiaan?

-Apa tindakan Govt untuk membendung banjiriran pendatang Sing' ini?

-Macamana kalau-kalau mereka ini naik tocong?

-Bagaimana nak mengatasi gejala sosial yang akan dibawa pendatang ini?

Saya secara peribadi cadangkan agar jangan diterima masuk orang tak sedar diri ini ke M'sia biar mereka tenggelam duduk tengah laut atau halau mereka ke Indon, Filipin atau Australia. Kalau diterima juga "Negara" Sing' mesti ditukar menjadi "Negeri" Singapura. PM dan rakyat negara over confident ini mesti menjadi rakyat yang baik dibawah naungan Seri Paduka Baginda Yang DiPertuan Agong.

AKAN TETAPI DALAM DIRI TUN DR MAHATHIR ,TETAP MEMPUNYAI KEBESARAN DAN KEBERSIHAN JIWA UNTUK MENJADI SEBAGAI SEORANG PEMIMPIN SEJATI DAN SANGAT SAYANG KEPADA RAKYAT MALAYSIA DAN TIDAK MAHU MELIHAT NEGARA MALAYSIA YANG TELAH DI BINA NYA SELAMA 22 TAHUN SEBAGAI NEGARA YANG DI SEGANI DAN DI HORMATI,MENEMUI KEHANCURAN DI TANGAN SEORANG "PEMIMPIN YANG BUKAN PEMIMPIN"YANG LEBIH MEMENTINGKAN KEKAYAAN KELUARGA NYA DARIPADA PENDERITAAN RAKYAT MALAYSIA SENDIRI.

APAKAH SAUDARA Shariff 5 BEGITU BUTA HATI DAN BEGITU BODOH SEKALI UNTUK MENGETAHUI CIRI -CIRI DAN SIFAT SEORANG PEMIMPIN SEJATI? Jangan lah kamu bertanya soalan no .3 kepada sesiapa pun kalau KAMU SENDIRI TIDAK MAMPU UNTUK MENJAWAB NYA.

Dear Sir,

I would like to express my concerned over the news of Raja Petra Kamaruddin (RPK) being detained under ISA.

I had been reading quite some of his writing and i would like to say that its quite enjoyable although some argue that its a bit confusing and too critical. However, i don't think that his article will actually incite hate among different races. As for the saying that some of those article insulted Islam, do bear in mind that some Ustaz had been reportedly mentioned that ISA is not Islam friendly in the first place. Thus, it doesn't make sense that a law which is not Islam friendly was used to so called "protect" Islam for not being insulted. Furthermore, i believe that Islam's teaching are good in nature and i also believe that most

Muslim are wise enough to differentiate the good vs evil; black vs white, and thus, won't be "Incited" easily.

Anyway, if it is indeed true as reported in news that the police had enough evident to show that RPK's article is seditious, then why don't the government / police sue him under the existing law? Else, please release this poor old man.

Thanks.

Regards,
Poh Soon

- 1) Increasing Truth n transparency
- 2) Corruption free
- 3) Merit n productivity
- 4) Working hard
- 5) Peace, unity n kindness.
- 6) No abuses of power that is granted to leaders

BN, OR BN II, PL SHOW US THE ABOVE otherwise we tried something else like PKR, DAP, PAS, SAPP, PR, MCA, GERAKAN + etc.... Anything that give us hope for CHANGE N IMPROVEMENT. MFA appoints new Ambassadors and High Commissioners

By Imelda Saad, Channel NewsAsia | Posted: 24 September 2008 1632 hrs

SINGAPORE: Singapore's Foreign Affairs Ministry has made several new diplomatic appointments.

Simon Tensing De Cruz will be the next Russian and Ukraine Ambassador, while Jacky Foo Kong Seng will take on the post of Ambassador to Germany in January.

Both men are seasoned diplomats who have served at various Singapore embassies.

Also appointed are Chelva Retnam Rajah who will be High Commissioner to Papua New Guinea, and R Jayachandran who assumes the post of High Commissioner to Mauritius.

Mr Rajah is currently a partner in the Singapore law firm Tan Rajah and Cheah, while Mr Jayachandran is the non-executive director of property investment company, Kewalram Singapore.

Saya rasa sesiapa ahli-ahli Majlis Tertinggi UMNO yang menyokong supaya peralihan kuasa dikekalkan, semua mereka akan gagal dalam pencalonan untuk merebut kerusi MT. Percayalah! Banyak dari ahli-ahli MT akan menjadi mangsa kerana melawan arus angin kencang yang datang dari ahli akar umbi yang mahukan Pak Lah berundur diri.

Mereka salah langkah dan membuat percaturan yang BODOH akhirnya mereka MELOPONG. Tersingkir !!!

I think about this Singapore thing. It all started when Tun commenting about Malay Singaporean. Now we have seen a lot of comments from Singaporean and from Malaysians to Singaporean.

This remind of of the incident in Penang. This guy Ahmad Ismail trying to incite racial sentiment and says that the chinese are squatters.

Of course Tun being a statesman and everything, he is not going to says what the guy from penang says.

It will create chaos among the community.

However, saying about singapore is quite safe and convenient. It did manage to raise racial sentiment. That is the purpose anyway to get people stir up. I wonder how long people is going to realize that this is all a political game.

We should be more mature and stop throwing pot shot at each other , just because of a statement from a politician.

to ALL commentators who seems to be blinded by the supreme hatred of one man to my country...Negara Singapura.

Dr Syed..take no heed their lame "intellectual" repartee. Its not worth the effort. Seriously, they only good at mud slinging..btw its an artform mastered by the "Great one on the other side of the RED DOT".. I love that connotation.. so easy for them to remember.

Every time they see a RED dot...wah laah...eyes green with envy...!!

One thing they got it right though.. we copied their projects that would do good for us here..F1,Casino,err...can't think anything else now..

BUT..we also remember NOT to do their cock ups!!! lol.

Love these guys..I used to be angry with them, but after reading the lacked of essence in their arguments..I now used it for my relaxation therapy.

You should try it too..

Ignore those stereo typing racist sorry excuse for a human being...

If this is published...wow..gua kaya beb!! office running a bet here.

I would like to know if our country is really democratic? If so, why is it that our PM's job is being "handed over" ? Shouldnt it be an elected position by the people, for the people?

Tun,

Is it the time to create "UMNO BARU II"? I'm not an umno member but a strong BN supporters all the while. What I can see here current government is so weak. Why?Because UMNO is very weak. I can't see any UMNO contribution to the society the pass few years - the significant one. So, I would like to propose that you take a lead if we need "UMNO BARU II".

Dear Dr.M,

Economic crisis, Inflation and racial tension, these are the current major issues and also phrases often used by everybody in everywhere. As Dr.M mentioned, there is no point blame each other. Being a 'pointer' won't solve any problem but being a 'doer' the problem might reduce gradually. I believe all Malaysia citizen should work out their part to overcome the current crisis.

Assalamualikum Dato Seri , rakan-rakan dan salam sejahtera pada semua,

Sebagai sebahagian dari warga negara MALAYSIA, saya amat berharap agar semua pihak termasuk parti komponen barisan nasional dan parti pembangkang dapat mengenyahkan semua kepentingan, perasaan ego dan duduk semeja.

Bersifat terbuka dan yang penting sekali kawal emosi. Anda semua adalah pemimpin-pemimpin negara. Jangan biar rakyat tertawakan anda semua. Tunjukkan pada kami anda semua profesional. Kami amat berbesar hati sekiranya anda dapat duduk berbincang bersama dalam keadaan santai tanpa sebarang bentuk emosi. ini negara kita. Negara semua.

Bukan caranya untuk anda bertikam lidah menunjuk-nunjuk ego. Tolong lah. Kami semua mahukan kedamaian. Cukup la `tuduh menuduh` , `api-mengapi` , `lalang` , `pengampu` yang ada sekarang. Sebagai bangsa melayu. Tunjukkan contoh pada bangsa lain. kita warga peribumi harus bersatu. Bukan begini porak peranda. Berbincang.

Dan pada semua penyokong-penyokong setiap parti. Tolong la jangan merapu-merapu bagi statement. Anda semua akan mengeruhkan keadaan. Diam adalah lebih baik dari berkata-kata. Diam tidak bermakna kita jahil atau salah.

Pada semua bangsa. kita bersatu. jangan sesekali kita pertikaikan hak-hak yang sedia ada. Cukuplah perang untuk memerdekakan MALAYSIA. ingatlah pada generasi yang akan datang. Bersatu bukan hanya untuk sekarang. Tapi untuk anak cucu kita.

DEAR DR M :

THIS IS MY 6 TH ATTEMPT SINCE 25 SEPTEMBER TO SEND MY COMMENTS TO YOUR BLOG IN RESPONSE TO LRJ'S COMMENTS DATED 25 SEP, BUT YOU HAVE FAILED TO PUBLISH IT. THE CONTENT IS NOT MALICIOUS, AND THE LANGUAGE USED IS NEITHER VULGAR NOR OFFENSIVE. IT LOOKS LIKE YOU EXERCISE SELECTIVE CENSORSHIP TO FAIR COMMENT - ESPECIALLY IF IT IS NOT IN YOUR FAVOUR. I WILL HAVE TO FIND OTHER AVENUES TO AIR THIS COMMENT IF IT STILL DOES NOT GET PUBLISHED. ISN'T IT STRANGE THAT YOU CAN ACCUSE PAK LAH'S GOVERNMENT OF CONTROLLING THE MEDIA AND CENSORING YOUR THOUGHTS,

BUT YOU ARE GUILTY OF THE SAME ?

~~~~~  
This post is a reply to LRJ about Indians & Singapore.

The Indians in Singapore make up only about 8.7% of the population. BUT, within the main Cabinet of 20 Ministers in the Singapore Government, there are 4 Indian Ministers; as follows :

1. Professor Jayakumar - Deputy Prime Minister, and also the Co-ordinating Minister for National Security.
2. Mr Tharman Shanmugaratnam - Minister for Finance.
3. Dr Vivian Balakrishnan - Minister for Community Development, Youth and Sports.
4. Mr K Shanmugam - Minister for Law.

A simple calculation will reveal that the Indians make up 20% of the Cabinet. Obviously, if we look at the statistics in a very narrow and parochial manner, some people will be tempted to say that Indians are over-represented. BUT, that is NOT the case in Singapore because MERITOCRACY is at work and widely accepted. The Indians have made it because of meritocracy. Despite being a minority, the system has enabled them to excel and contribute to society. Unfortunately, that is not the case in Malaysia. Despite being capable, you will not find it easy to prove yourselves.

Incidentally, the President's post in Singapore, though largely ceremonial in nature - is also held by an Indian - Mr S.R. Nathan. Whether Indians, or Malays or Chinese or Eurasians or other races, Singaporeans are increasingly seeing themselves as "Singaporeans" first, and as a Malay, or Chinese or Indian, etc second.

Singapore is afterall, a very young country - at only 43 years old. In perhaps 50 to 100 years, they may totally see themselves as just "Singaporeans" more and more.

Also, they have Indians in other important government appointments :

1. Dr Balaji Sadasivan - Senior Minister of State, Ministry of Foreign Affairs
2. Mr S Iswaran - Senior Minister of State, Ministry of Trade & Development
3. Ms Indranee Rajah - Deputy House Speaker
4. Mr Inderjit Singh - Deputy Government Whip

Whatever our race, we are the Human Race. We should harness whatever talent we have to better Malaysia and live harmoniously. Unfortunately, we all know that some people who got into positions of power through unmeritocratic means have abused their positions to enrich themselves. Some can "wayang" so well that they pretend to be fighting for the rights, honour and prestige of their own people; and holler into the microphone and bay for blood - claiming to protect their race, their rights and their religion. Yet, look closer and you will see his "other hand" under the table or behind his back .... doing something corrupt and deplorable. Why are some Malaysians so naive ? (Samy Vellu, are you reading this ?) The government's policy is also driving the people further and further apart.

I look forward to the day when Barack Obama gets elected President of the USA. It will be a symbolic victory for all people in the world who are minorities in their countries; yet can rise to the highest office in the land.

The practice of meritocracy in the US makes it possible. May the best man win; and DO GOOD FOR ALL regardless of your skin colour ! THEN YOU WILL COMMAND EVERYBODY'S RESPECT BECAUSE YOU EARNED IT - AND NOT BECAUSE YOU ARE BESTOWED OR BORN INTO IT. Nobody told Barack Obama that he is a "pendatang" or "penumpang"; and "kalau you tak suka, you boleh balik Kenya !" Admittedly, America is not perfect. There is also racism here and there. But at least there are no huge blocks or barriers placed to deliberately obstruct your path. Someone wrote in an earlier post that we need a Nehru or Mandela to save Malaysia. Is there a Nehru out there ? And I said a "Nehru", NOT a

"SAMY VELLU" !

Muka AAB nampak baik, tetapi biasa orang macam ini hanya tau jaga kepentingan diri dan air muka sendiri. Jom bagi AAB 'chance' sampai October 26 ini, dan kita bilang apa akan terjadi pada hari itu. Saya percaya orang yang baik biasanya tak tau bikin ekonomi. Bila I turun padang, orang Malaysia tidak puas hati dengan kenaikan petrol yang terlalu tinggi (rakyat panik), dan ramai berpendapat AAB memang tidak boleh dipercayai. Jadi oposisi parti ambil kesempatan ini untuk mengambil alih BN.

Walaupun bagaimanapun, BN tetap akan berkuasa. I dah nampak ada perubahan pada diri ahli-ahli BN yang dulu selalu lewat sampai ke upacara, sekarang dah "on time" lah. Yang paling menyedihkan hati bila seseorang masuk politik hanya untuk kekayaan. Tetapi selepas March 8, orang yang mempunyai fikiran ini tidak akan berjaya kerana rakyat Malaysia dah bijak!!!!

Salam Tun dan selamat hari raya!

I agree with u, Tun. Sepatutnya setiap parti komponen BN bekerjasama memperbetulkan keadaan dan bukannya saling salah menyalahi atau mencari salah komponen yang lain. BN sebuah parti yang melambangkan persefahaman dan gabungan pelbagai kaum yang tinggal di Malaysia.

Tak terasa macam budak sekolah ke.. macam budak kecil yang takut kena marah (walaupun tak buat salah) sibuk bergaduh dan salahkan orang lain.Langsung tak menunjukkan ciri kepimpinan jadi bagaimana rakyat nak letakkan kepercayaan?

Tak kiralah pemimpin melayu ke cina ke semuanya kadang-kadang memeningkan kepala. Isu perkauman dan agama pula yang dijadikan mainan. Paling mengecewakan ialah lontaran kata-kata dari ahli umno yang tersebut tu.Mengatakan orang lain sebagai pendatang seperti itu tidak sepatutnya berlaku. Sebagai muslim pun bukankah kita perlu hormat menghormati dan menyakiti hati orang lain itu berdosa.Sedangkan kita pun sebenarnya tak boleh panggil seseorang dengan nama yang tidak disukainya seperti "Yahya gemuk" atau "Tam tempang". Jangan pakai songkok depan kaca TV tapi apa yang diamalkan tak seperti songkok yang dijunjung.Kalau tak profesional macam tu..lebih baik balik kampung tanam jagung...

Saya pun orang melayu tapi saya tahu adab sopan dan santun orang melayu. Pemimpin yang baik bukan cakap ikut sedap mulut tapi berfikir sebelum bercakap. Orang tua-tua kata "Kerana mulut santan binasa"..

It's not an easy journey for Malaysian for several years ahead. Tak tahu apa lagi akan berlaku. Belum lagi campur dengan isu yang ditimbulkan oleh pembangkang yang dah ada kerajaan sendiri.

Sepatutnya berhentilah dari tikam sesama sendiri. Tumpukan pada keperluan rakyat. Ini bukan setakat kisah harga minyak naik semua orang jadi marah. Tapi kekuatan pimpinan BN itu sendiri saya rasa.

Orang kata dalam rumahtangga suami umpama nakhoda. Gagal nakhoda gagallah rumahtangga. Diharapkan BN mampu memeperbetulkan kesalahan dan buktikan kepada rakyat keteguhan, kepimpinan dan kesungguhan mereka. Bercakap sahaja tak guna. Kami ada mata melihat dan poket yang semakin nipis setiap hari ni kadang-kadang memang buat orang cepat naik darah...

Tun,  
terima kasih di atas kepimpinan Tun yang lepas.  
Maaf zahir batin

Tun, greeting,  
I like the comment written by Kerbauogus. Fascinating and professional in nature. Though it seemed in favour of the Indian and the immigrant(if we can still use the word now?) He also made a comparison between Singapore and Malaysia which to my opinion is quite inappropriate. Probably someone is asking why? Easy. In a society like Singapore or probably the U.S. Chinese in Singapore makes up more than 80% of the total population and in America the white makes up almost 90%. They do not feel any racial threat. The selection of these people to their current post are actually just make-up (I am definitely sure that out of 280 million American, there must be more than half which is more competence and capable compared to Condoliza Rice.)Get what I mean...? Some additional ingredients purposely add in to make the soup tastier and liked by everybody. Where as in Malaysia the situation is different, here we are saying it again and again, we advancing and developing within our own 'casting'(I don't know if the word is right)Acuan bah...Meritocracy? What if it is made of artificial intelligent, is there still a merit in it. I give you one example, something which is bought, not genuine? What we really need is a leader packed with genuine quality, sophiscated mind, futuristic, strong psycically and mentally etc. Someone far outdoes Mr Lee Quan Yu of Singapore. If he or his son rule Malaysia - I am sure muntah angin punya. Governing Singapore is easy, slightly bigger than Sarikei in my state Sarawak... kacang...

pls lah, ini forum antara negara M'sia lah, jangan pula gaduh dengan rakyat negara lain. orang lain pun kasi pandangan saja, agak jiran mereka itu sedar dan bangun.  
kalau negara nak kuat, rakyatnya mesti lah bersatu tak kira bangsa. rakyat haruslah beri sokongan kepada kerajaan, bukan suka2 ikut perasaan. yg suka saja ikut perasaan dan suka tunjuk perasaan haruslah di tahan, sebab kelakuannya sudah memusnahkan keamanan dan menyebabkan kekacauan, telah membangkitkan pembencian dan keselesihan persefahaman antara bangsa dan kaum.  
Dtk Syed Hamid tidak salah, org bawahannya tidak salah, kerajaan tidak salah; agak apa juga langkah yg diangkat cuma utk menentukan keamanan dan memberhentikan kekacauan.

Pengisytiharan Hilal Syawal 1429H  
PDF Print E-mail  
Selasa, 30 September 2008 06:40

ALLAHU AKBAR ALLAHU AKBAR ALLAHU AKBAR, LA ILAHA ILLALLAH, ALLAHU AKBAR, WA LILLAHIL HAMD

Segala puji bagi Allah, selawat dan salam atas Junjungan Besar Nabi Muhammad saw, keluarganya, sahabat-sahabatnya serta sesiapa sahaja yang mencurahkan taat setia dan mengikut baginda, sesiapa sahaja menuruti jejak langkah baginda dalam memperjuangkan akidah Islam sebagai asas pemikirannya dan menjadikan hukum-hukum syarak sebagai kayu ukur perbuatannya serta sumber undang-undangnya.

Telah diriwayatkan oleh Al-Bukhari di dalam kitab Sahihnya bersumberkan dari Muhammad Bin Ziyad ra yang berkata,

"Aku mendengar Abu Hurairah ra berkata, Rasulullah saw bersabda, atau ia (Abu Hurairah) berkata, 'Abu Al-Qasim (saw) bersabda: Berpuasalah kalian apabila melihat hilal dan berbukalah (berhari rayalah)

apabila melihat hilal, dan jika kalian tidak nampak akannya, maka genapkanlah Sya'ban 30 hari"

Setelah melihat hilal di bulan syawal hari semalam (Isnin - 29 Ramadhan), secara syari'nya, hilal telah disahkan dilihat di beberapa negara umat Islam. Oleh yang demikian, hari ini (Selasa - 1 syawal) adalah hari raya Idul Fitri.

Dalam kesempatan ini, Amir Hizbut Tahrir sedunia al-Alim 'Atha' Bin Khaleel Abu Al-Rashta (semoga Allah melindungi beliau), memohon kepada Allah agar merahmati umat ini dan sesiapa sahaja yang telah memperjuangkan risalah Allah. Allahu Akbar! Semoga Allah melindungi umat ini dan menerima segala ibadat kita di sepanjang Ramadhan dan semoga Allah memuliakan umat ini dengan kedatangan Daulah Khilafah al-Rasyidah tidak lama lagi.

Allahu Akbar, Allahu Akbar, Allahu Akbar, La ilaha illallah, Allahu Akbar, wa lillahil hamd.

Ketua pejabat media Hizbut Tahrir dan kesemua warga kerjanya dengan ini mengucapkan tahniah kepada semua Muslim di hari raya Idul Fitri ini, dan kami memohon kepada Allah agar merahmati umat Islam dengan kedatangan seorang Khalifah Rasyidah yang mana kita akan berjuang dan berlandung di belakangnya.

Semoga Allah swt menerima ibadat kami dan ibadat kalian.

Wassalamu alaikum wa rahmatullahi wa barakatuhu.

Sambutan Idul Fitri 1 Syawal 1429H adalah bersamaan dengan 30 September 2008.

Salam Yang di kasihi Tun,

Walau apa pun komen yang diberikan oleh semua orang, ianya tak akan boleh merubah kepada yang terbaik atau seperti yang terdahulu. Perubahan kuasa dan pucuk pimpinan perlu segera dilakukan baru ianya akan merubah segalanya. Tidak ada sesiapa yang tahu akan apa yang ada dalam fikiran, pandangan, rahsia, strategi dan cara pimpinan yang tersendiri pada seseorang yang akan memimpin negara ini. Seperti juga macam Tun M dulu, macam2 dia ubah, ada siapa tahu? Terfikirkah semua orang bahawa detik jam diubah? itu menunjukkan ketegasan dan pemimpin yang berwawasan yang pentingkan kemajuan rakyat dan negara. Harap2 Najib dan Muhyiddin bekerjasama dan cuci bersih2 apa yang ada kat keliling kita sekarang. Jangan takut, nanti bagi tahu kabinet dan orang2 dlm MT BN supaya ikut cakap PM dan TPM. Sesuatu yang dah confirm kat dalaman saja baru boleh dikeluarkan. Sebab diluar banyak Media yang mulut celupar danalang negara. Sekarang tidak ada waktu untuk cari harta, betulkan dulu negara dan rakyat jelata kemudian bagi saksama, maka dtanglah harta... jangan rakus.. ingat siapa sebenar yang bekerja untuk pendapatan negara?

Fikir fikir lah, saya yakin Tun boleh bantu dan beri pandangan kepada dua orang itu supaya negara dan maruah negara terbelah.

TK.

To Manjalara

Your comment:

I dont agree on your point no.7. Now the Malays are angry with the Chinese and the Chinese are angry with the Malays. The rakyat are not angry with each other, it is the politicians (you included) that is trying to split the races in order to gain support and popularity. The rakyat are dissapointed with the quality of our PM and the cabinet. Look at how our Home Minister handle questions from the press, oh my god!! Cant believe he is a lawyer. Well, NEP product mah !!!

My comment:

Syed Alba has done a terrific job handling the sharp questions by media. From your writing I guess you are a chinese who read chinese newspaper. if I am not mistaken, we may be neighbour. Recently, Donald Lim suggested to sell off the stakes hold by Nanyang. Do you know why?? Because the newspaper has gain tremendous profit and circulation through DAP - focus on dissatisfaction among the chinese through DAP's mouth. The China Press has gone above the line on one coverage for the sacking of the chief post of MPAJ due to "roboh kuil india". Of course we chinese feel proud that PR has won in the case. But do you know that it was MCA that supported Nanyang all this while to protect the chinese community in a Malaysian way whereby MCA has to play the role that is agreed by all components in BN. Yes no doubt MCA has lost in 308 election, but DAP pakat with PKR, Pas, Hindraft to topple the government when BN is weak by playing the takeover by PR leader and now the ISA agenda. Do you trust PR can govern our contry? I doubt so because all the newspapers that supported the opposition are in fact racist and out of control. Please open up your mind and think in a Malaysian way (regardless your race). We can support any components we think suit our agenda, not the component that can do harm to Malaysia and the economy.

By ATM on October 21, 2008 3:06 AM

Greetings Tun. Greetings All.

The ailments suffered by Malaysia are due to Malaysians themselves. Malaysians must blame themselves first rather than anyone else. It takes a great man to be able to admit his flaws. So, I call upon everyone including Tun to ask themselves what is their attributes to the sickness that Malaysia is experiencing. What can you do to help cure it? Yesterday is gone. It is tomorrow that must be looked upon. Bickering among you, whether in this blog or out there, will do no one any good. In any war, there is no winner. So, please wake up to reality. There are so many things that need to be done. You can beat your chest and tell the world that you are better than your neighbour. Are you really better? It is true that Malaysia has achieved so much. Do remember though that others succeeded as much, if not more, as well. Like it or not, despite whatever you may bemoan, your neighbour is already a first world country while you are still developing. Don't you think that, instead of hitting at each other, you should pull your resources and race with each other to make Malaysia a first world country in the very near future?

I am no smart aleck. I am very sure all of you are much learned. I am just nobody giving my worthless comment.

Yang Daif,

ATM

Anak Tanah Melayu

Powered by Movable Type Personalizing the comments on my blog on 'Mengingati Pejuang-Pejuang', when I came across a comment which respectfully disagreed with me that the defeat of BN in the General Election was not due to support for the opposition but disaffection with BN.

2. He said if that was the case they could have voted for the third candidate who actually lost his deposit.

3. I had lost in the Election of 1969 in a constituency with 35,000 voters of whom 30,000 were Malays. I had won in this constituency in 1964 with more than 4,000 votes majority. I figured that in 1969 that even if the non-Malay voters did not vote for me I would still win because support for me amongst the Malays had increased by almost 3,000.

4. But what happened shocked me because Chinese voters not only refused to vote for me, which meant a loss of 3,000 votes but they voted for PAS. I needed 6,000 more votes to replace 3,000 voters who did not vote for me and another 3,000 because they voted for PAS.

5. I lost by 900 votes. If the voters who were dissatisfied with UMNO and BN voted for a third party or refuse to vote, the BN would lose these votes but may still win if the margin previously was big and the opposition did not get additional votes. But when votes were taken away from BN there would be a decrease in BN votes. Then when the votes are given to the opposition there would be an increase in votes for the opposition and so the gap is widened and the opposition would win.

6. Experience has shown that independent third parties hardly ever win. Supporting them would reduce BN votes but that would not be enough to ensure the opposition wins.

7. The rakyat are right in being fed-up with corruption by UMNO "plutocrats". But that had not always been so. It is the corrupt practises of UMNO leaders of today, especially the topmost leader, which has caused deep anger against the party.

8. Actually the present leader's involvement with graft, his support for his son's business, the power he

gives to his son-in-law, his well-known sleeping habits, indecision, lack of ability to handle problems, sudden withdrawal of oil subsidy, cancellation of the bridge to Singapore, wasting money on the unused RM800 million (Johor Baru) Customs, Immigration and Quarantine building, cancellation of the railway double tracking and electrification project, the monsoon cup and lots more are what turned the voters against BN.

9. The kampung folks and the ordinary Chinese by and large are not too concerned about human rights or more liberal Government. Even the ISA did not bother them as shown by their strong backing for the Government party, before.

10. The talks in the kampungs and the ordinary Chinese and Indians were about the increase in cost of living, few business opportunities and of course the behaviour of the PM's family.

11. In 2004 they gave wholehearted support for the BN so that the party won 90% of the seats in parliament and recaptured Terengganu. Could it be possible that the voters who were so greatly enchanted with the BN in 2004 but in a space of just four years have changed their collective minds so radically?

12. As for rejection of race based politics, why did the voters vote for PAS, a 100 percent Malay party and DAP, a predominantly Chinese party.

13. I know many who admire the West tend to support their values. They would like to interpret the disastrous performance of the BN based on Western thinking. But we are Asians and in Malaysia our basic racial differences are extreme. All we can do to avoid confrontation between the races is to allow them to form race based parties and to have them cooperate with each other. This was the BN policy and practise. And it worked for almost half a century.

14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party.

Like you said before as an ex-doctor the cancerous part must be removed in a surgery for the patient to get well again.

In our country we need to remove the leader responsible. If not the 'cancer' will spread throughout the whole body.

i think the poor performance of BN is due to misunderstanding arising from misinformation and disinformation which prevent the rakyat to access the right information from the right sources. may be too much spinning. moreover, as the saying says power corrupts itself and absolute power corrupts absolutely. The nature will takes its course.All the things are kept on changing especially politics.

Salam TUN,

Congrat on ur blog touching 7mil in such a short span.I agree with your comment that we Asians are deeply rooted in the race polarity.Thus, BN is still considered the best party to govern our beloved country.Time has proven that we are successful in administering our country for half a century.We should not emulate the west for the sake of emulation.We have our own formula for our ppl. I really look forward to ur joining UMNO,so that something can be done before everything is too late.

Whatever it is you are still the best.I longed for your brilliant ideas in propelling M'sia especially with financial turmoil is just around the corner.We are sure lucky that Tan Sri Nor is still there in the Finance Ministry,but he still need a person with integrity and capability of making fast and correct decision of which i do not see anybody who can replace you.

Selamat Hari Raya and Puasa to you and Ibu Hasmah and your family.

Ramai yang salah faham (tidak termasuk warga che det di sini) dengan keikhlasan Tun memperjuangkan nasib bangsa Malaysia. Malah lebih teruk mengatakan Tun sekarang 'racist' walaupun hakikatnya tidak benar sekali jika kita faham 'snippets' Tun secara dalam-dalam.

Hanya Tun yang tahu sama ada ingin 'pedas' atau 'asam' dengan keadaan sekarang. Saya sokong apa yang patut disokong, dan saya sanggah apa yang patut disanggah.

Selamat menjalani ibadah puasa Tun..

Hello Dr M,

The previous PM, Dr M did not foresee the impact of internet as an alternative media, globalisation and increasing political awareness of Malays and non Malays and other Malaysians.

Had Dr M done a reasonable job in his 22 years iron regime, Malaysians would not have this mess damaging the country.....good leadership is not about winning, it is also about departing with proper arrangement of transition of power....Dr M stayed too long for the good of the country and the ordinary people have to pay the price for the mess from his incompetent successor.

Dr M dream vision 2020 is just a political survival gimmick in UMNO-BN lead government but he failed his vision to mould a good strong leader like Anwar was put behind bars for a decade and replaced by a weaker leader. Dr M called for his removal and step down is too late since the root of all evils in the corrupt government are there to support him and continue to destroy BN in the next 13th GE.

Finally, Malaysians sad to say a simple message to TUN DR M - " YOU HAVE FAILED " .

I agree with you Ayahanda Tun.

People nowadays are not stupid, blind and deaf. They can investigate with their eyes of what they heard wrong and they can think by their globalization mind of what they see wrong. That is why when AAB refused everything from DSAI, we know who is coward and in wrong.

I am not interested in any party. What I'm interested is a great party and I cannot sense any of it from both AAB and DSAI. It is quite dissapointed because I once thought that BN is the greatest party but now... all rakyat know...

Selamat Hari Raya dan semoga sihat sejahtera hendaknya kepada ayahanda Tun.

By ng thing seng on September 20, 2008 12:47 PM

Salam Tun,

1. In the space of 4 years, one of the difference in the electorate is that there are an injection of new younger voters.

2. The voting patterns of these young voters also make a difference. Indeed you are right, and I think the younger generations are more westernize. Yes the modern western civilization is not without its fault but definitely has its merit too.

3. One of their merit is their transparent governance, freedom of press, and system of check and balances which is seriously lacking in most Asian and third world government.

4. These younger generations of voter will continue to grow and by the next general election there will be even more such voters. If

BN want to entice these voters they have to change certain fundamental policy and race base politics is one of them. The opposition in the meantime will be more appealing to these group of voters.

5. Like I say before these group of young voters are more internet savy and the thinkers among these group also control the internet media.

Salam Tun,

Teringat kembali semasa open house Tun 3 tahun lepas. Boleh dikira berapa ramai menteri yang dtg. Semua takut kena boikot dengan Pak Lah.

Sekarang Najib adalah harapan kami sebagai warga Malaysia untuk menyelamatkan MALAYSIA YANG TERCINTA. Kerana we knew that Najib is the most trusted people untuk Tan Sri.

Dulu karier Paklah dikikis oleh Khairi & sekarang saya takut karier atau imej Najib dikikis oleh isterinya yang tidak seperti isteri Tun pada masa zaman pemerintahan dulu. Pls advice him also about this. Sebab sokongan beliau (najib) boleh dikurangkan dengan kerakusan isteri beliau dengan projek2 pembangunan di MALAYSIA.

Saya amat terharu dengan komitmen Tun meluahkan idea & komen yg saya pikirkan amat perlu juga diikuti oleh menteri2 yang lain.

Im a Malay and im a Malaysian  
I would love to implement the free human rights and equality like the west. Eventhough we hate them in many ways, we should take whats good from them...

but i agree with Tun that we as Malaysia is different from them, thus we might have very litle approach. We are a young country, not matured enough.  
we still not yet ready for all that  
the future maybe...

Eventhough this ideology is great and promising but like Tun said actually not many Msian citizen agree or even aware of it.  
quote:

9. The kampung folks and the ordinary Chinese by and large are not too concerned about human rights or more liberal Government.

we just have work hard to settle our probs, strengthen our diversity races then we could live in harmony with those beautiful ideology and hope we could achieve it in the near future

Assalamualaikum Tun,

Kemerosotan undi BN adalah kerana Pak Lah, anak beranak dia dan menteri kitchen cabinet half past six dia.

Semua teori satu parti untuk semua bangsa ni tak boleh pakai. Ini adalah permainan pihak pembangkang mengambil peluang di atas kelemahan BN sekarang.

Saya hairan kenapa menteri menteri kabinet sekarang ini sanggup berbohong faktor kekalahan BN kepada ahli ahli Parti sendiri dan Rakyat. Tiada seorang pun yang sanggup menampar muka Pak Lah untuk menyedarkan dia dari tidur.

Teruskan usaha Tun memberi penjelasan kerana penjelasan Tun kali ini semestinya juga telah menyedarkan parti dari kaum kaum lain khususnya MCA dan Gerakan untuk tidak terikut ikut rentak Keadilan dan DAP.

Saya percaya Dato Najib dan Tan Sri Mahyudin dapat memulihkan Umno dan BN kembali kepada kekuatan asal. Harap harap mereka berdua ini tidak membelakangkan Tun seperti Dollah The Ultimate Traitor

sesungguhnya saya bersetuju. mereka mengundi parti lawan semata-mata mahu memastikan BN tewas, bukan kerana mereka menyokong perjuangan DSAI.  
DSAI merupakan manusia hipokrit yang mementingkan diri. Perjuangannya hanya untuk menjadi PM dan berkuasa untuk melakukan apa sahaja. Selepas itu, apa lagi? sanggup dia memancing MP agar berpaling tadah. adakah MP sebegitu yang kita mahukan? dan kenapa DSAI begitu 'desperate' nak menjadi PM? sanggup dia ke luar negara dan 'mempromosikan' keburukan negara? tindakannya menyebabkan negara kucar-kacir dan pelabur berpaling ke nagara lain...

Tun,

Actually, I came to admire and value your leadership, work and your thinking, in the true sense of the word, after you've left the office of PM. I think the country still needs a leader of your calibre and true

charisme, one who has the brain, will and strategies of translating ideals into practice. We don't need pseudo-leaders who seems charismatic, like Anwar but full of rhetorics and manipulations. I suppose Pak Lak should have appointed you as Senior Minister, just like Lim Kuan Yew of Singapore, so that you can 'guide' him until such time that we can find a replacement. Now, the whole nation knows and understands, why you were so reluctant to leave the office. Simply, you're just being a responsible leader. Please, make a come back in whatever way or form. I suppose true leaders never retire.

malaysia has been crafted so well by you for almost more than 20 years but it has been ruin for not more than 4 years in their hands until our foreign minister can be mocked by condoleeza rice the nuclear lady,plus we being laugh by the OIC, OPEC, and NAM commetee.

at the end we will be deserted by our own countrymen....

they do not see this as threat but they always see our weekneses as the opportunities for they to collect what ever they want with our treasury.

weekneses....

we are the one who keep on queering outside the league by complaining what ever they did.

what can we do...

just pray...

for how long...

until there is no more to eat... like somalia

until there is no more to breath like africa

until bullet will become our rain

until bombs will become our fireworks fiesta (like at putrajaya) accompanying our hariraya and merdeka

until we can count our relative with only 1 hands

until we do not bother to search for grave since we can leave it there or anywhere

for how long we think we can survive...

dont they ever thought about pakistan and india where politics is no more a results of disagreement. where killings of minister is the best solution.

why we must seek for people hatred and grievance.....

only god know how its end

Asalamualaikum wbt,

Apa khabar Tun hari ini..??

1. I was reading the comments on my blog on 'Mengingati Pejuang-Pejuang', when I came across a comment which respectfully disagreed with me that the defeat of BN in the General Election was not due to support for the opposition but disaffection with BN.

=Apa yang dapat saya perhatikan disini ialah parti PKR banyak menggunakan perang saraf untuk menarik pengundi.

Contoh = Dengan berkata "Cuba dulu" Maksudnya memujuk pengundi secara lembut.

Contoh = Dengan berkata "Seimbangkan Kuasa" Maksudnya memujuk pengundi supaya mengundi pihak mereka supaya mereka boleh berkuasa untuk bersuara di Parlimen kerana "alasan nya ialah BN parti kuat".

Dan DLL.

14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party.

=Dah nampak ..orang lain pun ada comment Tun pun dah bagi Jawapan.

=Setiap teka teki Tun akan bagi jawapan juga kan..??

Selamat Hari raya buat Tun sekeluarga dan juga untuk warga chedet..  
harap maaf kalau ada tersalah kata.

Dear Tun.

Tun, We already loss of confident of this two top leaders in Malaysia now. I'm sure we need a strong government to drive us through prosperity and peacefully. But the people up there are too stubborn and stupid to realize their situation now. they will ruin their party to ash is they are still grabbing the authority.

And very good to Media Prima and government TV. They are not learning of how to play their part effectively. They happy to report about the Malaysian Politician Drama. Yes. everyday on TV3 screen 8.00pm to 8.30pm. After that 10min for economies, 5 min for World news than 5 min for sports. Others will be commercial advertisement.All malaysian can see the Politicians mumbling and talking stupid things on screen. We are not voting for them to talk about politics! Kerja la wei!

Yes Tun, the barisan already win the election with majority. but they should things the current situation. It is like a time bomb right now. I feel something not good will happen... hm hope not :(

By Chris on September 20, 2008 1:06 PM

Sir,

I believe that was the personal opinion of your commentator. For me, personally, it was my total frustration at BN for not doing anything to rein in Samy Vellu. This man claimed to represent all Indians in Malaysia. How wrong he was! He lorded it over us for close to 3 decades. It was simply too much for most of us to bear. So, my rejection of BN was due to this man. BN was, and still is, the only solution for

Malaysia. 51 years of peaceful growth and development took place under BN. When you came to power, we really took off. Now with DSAAB, all the progress went down the drain. So, yes, I voted opposition out of total frustration of the BN consensus attitude when it concerned component parties. I was very happy when Samy Vellu was thrashed in Sungai Siput. Now I sad that BN is losing its focus and allowing PR to gain a foothold in Malaysian politics. You are right when you assert that BN lost and not that PR won.  
By nookvillage on September 20, 2008 1:07 PM

Tun,

The struggles of some UMNO politicians are to enrich themselves forgetting the ultimate aims: Malays and Islam. If you place Malay and Islam as the UMNO struggle, UMNO would be strong and undivided. Look at the other components of BN and opposition DAP, unavoidably, they are much centred on their own interests.

Salam Tun and all,

1. Me and my spouse stayed away from the last 12th General Elections.
2. At that time, I put it down to the fact that we really couldn't care less who won because we were simply fed up with the whole thing. The candidates from the BN and PR were both mere puppets unworthy of our votes.
3. I guess, now I understand that it was really a protest on our side.

4. And BN got the result, which hopefully they understood- that is when BN supporters lose confidence, results sway to the other side.

5. The KJ factor is one that all in UMNO must understand; some may be enchanted by his smooth talking. But for the rest of us down here at the akar umbi- he is way too confident of himself, speaks too smoothly for comfort, is suddenly in the front out of nowhere, is too highly profiled to deny some help from the dad-in-law, and if he is really as innocent as the daddy-in-law would like everyone to believe- then I say the daddy-in-law is guilty of denial of the highest order. Just ask any honest UMNO branch member for information.

6. Be truthful, UMNO members, please. If you are really concerned for the Agama, Bangsa dan Negara.

Thank you Tun. Another analysis bang on target.

By curut on September 20, 2008 1:08 PM

Saya masih percaya Tun hanya akan menjadi ahli UMNO semula, menghantar surat permohonan sedetik atau sesaat selepas Dolah melepaskan jawatan. Mungkin itu tidak kesampaian dalam masa terdekat dan mungkin Tun juga akan berada di luar UMNO sehingga akhir hayat.

Pengumuman KJ bertanding Ketua Pemuda adalah signifikan, perjuangan 'sekeluarga' ini baru sahaja bermula dan Dolah tidak mampu untuk tidak meneruskan perjuangan yang 'selangkah' ini sahaja. Dengan segala kekuatan (kedegilan) yang ada padanya, dia akan terus bertanding sebagai Presiden (dan mengeneipikan suara Majlis Tetinggi) kerana dia masih percaya 'akar umbi' masih memerlukan dia selepas Ketua Pemuda Bahagian yang dihidiahkan kain pelikat nampak melawan arus.

Di atas kertas, 30% pencalonan yang diperlukan sudah ada, di bawah meja, angka itu akan bertambah lagi, 'up'kan sikit, angka itu berganda. Tidak ada logiknya Dolah akan berundur kerana garisan selamat sudah hampir tiba, jika dia berjaya (do or die) sudah tidak ada tangan lagi yang boleh memaksanya turun. Saya percaya Tun juga tidak mempunyai lagi 'senjata ampuh' untuk berhadapan dengan Dolah walaupun kakinya lembek kerana taming sari sudah di tangannya. Harapkan Jebat (Muhyiddin) - dia seumpama hangat2 tahi ayam, harapkan hang tuah, dia dah jadi 'pak turut' dan sekaang dah jadi 'pak sanggup'.  
By mrgood on September 20, 2008 1:08 PM

hi, Tun.

i am a regular reader of your blog. i like your blog, sometimes i agree with u, sometimes i just dont.

It is no doubt that rakyat dislike the current government because of the increase in cost of living, few business opportunities and of course the behavior of the PM's family. but those were only part of the reasons.

personally i totally disagree with the use of ISA. my friends and family, in fact, are also disagreed with the use of ISA. the main reason why during your time, people don't really show their objection against ISA because if they really strongly objected to the use of ISA, someone might use ISA against them and locked them up without giving them a chance to defense themselves.

of course, i'm agree that PM Abdullah is a softer leader compared to our previous PM. that's why we can see that there are many people protest against the use of ISA last week. these anger and objections are

not start last week only, in fact, these anger and objections were started many years ago. The different is rakyat now is dare enough to show their dislike against ISA. last time they werent not dare engouh to show it. Many current ministers also publicly show that they dont support ISA, some even resign from their minister post because they dont like ISA.  
Rakyat, no matter kampung folk or city folk, don't like ISA.

NO ISA!!!

Assalamualaikum ayahanda Tun

I might not have known what really happened inside the political 'plutocrats' or how they even posible to commit such a shameful act just to fill their own pockets and families.

But I have one personal experience with DSAI which really dropped my respect to him until now.

In early 1998, there was a meeting held in UIAM with the DPM then, DSAI that involves all IPTA's student leaders. When answering to a question, he repeatedly stressed that "Mahasiswa jangan libatkan diri dalam politik. Ingat susah payah mak bapak hantar kamu belajar. Belajar dulu, dah grad pilihlah apa parti nak masuk, terpulanglah."

Well, the tone was different though when he as sacked from the cabinet later that year, hahaaahha.

Suddenly he urged, "Mahasiswa perlu bangkit menentang ketidak-adilan."

Why? Because he was sacked, then suddenly no need to think about mak bapak eh? Suddenly it was 'halal' for the student to hit he road for reformasi and street demonstration eh? And, suddenly no need to graduate and risking yourselves of being jailed ONLY to save his political career eh?

It's amazing how many people still fooled by this guy. I am no political fanatics, nor I am a member of any. I am just a bystander who really disgust with these kinds of people who lust for power and claimed the title PM as if it's his 'birth right'!

May Allah save Malaysia from destruction from him or even the Flip Flop PM and his butt-kissers.

2. Leaders who make racial diversity its enemy, who sow hatred among the different races will drive talents out of Malaysia, make the rakyat less tolerant and if not kept in check could throw the country into turmoil.

But of course human government is not 100% clean like a government run by the angels.The present PM is a real failure.

Assalamualaikum TUN

Terus terang saya katakan, bahawasanya pilihanraya pada march yang lepas, mempunyai senario politik yang amat mendukacitakan. Saya membantu calon BN di DUN Cempaka di Pandan Kuala Lumpur, apa yang saya dapati calon-calon yang disenaraikan merupakan calon pilihan Pak Lah dan bukan calon yang benar-benar layak untuk bertanding. Sebagai contoh abang saya juga merupakan calon Adun kawasan batu maun pulau pinang. Ia juga merupakan penyokong kuat khairi dan Pak Lah.

Apa yang saya katakan ini benar, maka bila adanya calon pilihan kawasan ditolak oleh calon Pak Lah, mulalah timbul ketidakpuashati di kalangan pengikut masing-masing, kerana itulah puteri umno menolak dan tidak membantu calon yang bertanding. Bila ini terjadi maka peti undi yang sepatutnya penuh dengan undian barisan Nasional bertukar kepada pihak lawan.

Ia nya termasuk saya sendiri, amat berat utk saya memangkah BN, tetapi saya tetapkan hati dengan memangkah BN. Ramai di kalangan kawan saya tidak keluar mengundi dan ada pula yang memangkah pihak lawan.

Apa yang perlu dibuat sekarang adalah memaksa Pak Lah letak jawatan, rata-rata yang saya temui tidak berpuas hati dengan kepimpinan Pak Lah. Buat lah apa pun tindakan untuk menyenangkan rakyat tetapi mereka pasti menolak Pak Lah.

Salam Hormat

1. 2004 election BN win over oppositions and gain support from people from all race denotes a new chance to "him". 4 years later, the people had seen enough jokes and crisis where the government did not handle it well as what you had said, so they vote out of BN government.
2. If BN governance has no fault and you insist that the leader of UMNO faults, why would MCA, MIC and Gerakan also lost completely?
3. Series of unfortunate events throughout 2004 - 2008 will mark all the reasons for 2008 defeats of BN
4. Political races tensions only appears in political parties and cronies level, normal citizen of all races are not as races tensions as whoever claimed. I live by example and proof as my neighbors are Indian and Malays.
5. ISA and other "berat sebelah" policies are not been welcomed by the people of this country, if BN does not change, someone else will.

Good day tun,  
i agree with you tun that everyone voted for the opposition just because there are more corruption in BN not only UMNO but the entire team like MIC for example. PAK LAH gave power sharing well, i think, such as SUP for education and SUP for youth (two Indians) but what they did, nothing. They didn't improve anything for Indian communities during 5 years. They didn't fight for anything which the AAB should have follow-up their job but unfortunately it was too late. Still the confidence level can be improved by studying thoroughly by NAJIB and the gang but this time should follow up with each race representative in the government on what is going on and what need to improve so that the country doesn't go into turmoil like many countries are facing. All Malaysians hope that our country can be on track on economy's level as soon as possible like in your time tun. For AAB i think it is better for him to take rest with his family but this time try to don't listen to his favourite khairy cause he's the cause for AAB's downfall.....OK  
ENJOY YOUR WEEKEND TUN.

Salam Tun,

I'm curious... if by changing the Prime Minister alone, we can improve on a lot of things, then shouldn't the people directly decide who should be our Prime Minister ala US Presidential Election?

Salam.. Tun & Keluarga..

Persoalan yang timbul adalah pemimpin yang membutakan hati, mata dan telinga dari mendengar, melihat dan merasakan penderitaan rakyat.

Berapa tebal kah muka Pak Lah? Masih lagi sanggup berada di no. 1. atau hanya mengikut nasihat anak menantu? Menyusahkan lah orang tua ni....

Yang jadi kambing hitam adalah DS Najib.. Treasury dah teruk baru nak lepas kat orang.. Memang teruk la pak lah ni...

Walau apa-apa pun kami sebagai anak NEP.. terus menyokong TUN.

Selamat berpuasa dan beribadat..

13. I know many who admire the West tend to support their values. They would like to interpret the disastrous performance of the BN based on Western thinking. But we are Asians and in Malaysia our basic racial differences are extreme. All we can do to avoid confrontation between the races is to allow them to form race based parties and to have them cooperate with each other. This was the BN policy and practise. And it worked for almost half a century.

True, Ayahnda Tun!

It looks like this very same formula is about the best the Pakatan Rakyat has to offer also.

And, they are even more losely cobbled than BN ever was.

Conventional wisdom says that the stark differences in their inherent ideologies would make it very difficult for them stay fused.

Right now the only thing gluing them is the common purpose of seizing the government.

Bet anything, all the parties in the coalition are all already conniving and strategizing about how to push their advantage at the expense of their partners of convenience once that target is achieved.

Good explanation, Tun!

I'm totally agree with your point that even when people cast their vote for independent candidate/party, it will not be enough to let the opposition win. The people knew that to teach the Barisan National a lesson, the party's worst nightmare of winning opposition coalition parties had to be made true through their vote. However, everyone should know that the return of Anuar is also a factor, because he can sway the people's votes to him by his excellent political skills, only to be matched up to Tun's skill, of course. With all the charges thrown at him from nowhere (remember, we can't accuse the government is the culprit until we had all the evidences to prove it), people don't care as long as he could serve their cause as their voice of opposition of government's tangled policies in the Parliment. So, it's not true that people had to

"choose the lesser evil" because they do not judge based on what the situation looks like, but what is right to do.

It's time for the politicians in the ruling party to learn from the people about the freedom of telling the truth (not freedom of speech, and even in a subtle yet firm way). If not, soon Barisan National will join the list of other parties in the History books as one of the coalition parties which had been disappeared after no win and all loss in the upcoming election.

By the way, I admired Tun's way of being critical for the sake of the country. Surely your patriotism and your love for Malaysia is greater than all of us living now. May God (or Father or Allah or whatever name we call Him in our religions) give us the resolute heart and mind like yours to better protect our beloved homeland.

Happy 'berpuasa' to Tun and the family, and enjoy your Raya with all the people you loved.

By mkhaleez on September 20, 2008 1:25 PM

Salam Tun,

1. Agreed with you about the loss of confidence to BN. Too many scandals in the component party.
2. All the leaders better find the solution fast.
3. Pas & Umno leaders have to put the interest of the people & the nation in priority rather than self interest or power crazy.
4. Both have to synergize and unite so that the power to rule the country will not fall into the hands of the 'kafir' or 'munafik' people.
5. I have never been this worried about the Malaysian political scenario since before.
6. As a young generation who love our country very much, I sincerely appeal to all the political leaders to go back to the basics objective of jihad.
7. I hope and pray that Allah Almighty will open the heart of the people with power so that they will be shown the truth and guided to right path.
8. Semoga hikmah dan keberkatan bulan Ramadhan yang mulia ini memberi kemenangan kepada orang-orang muslimin.

P.S - As a Sufi sayings - Anger that has no limits causes terror. Kindness that is inappropriate, does away with respect. So do not be so severe with others, as to terrify them and do not be so lenient with others as to make them take advantage of you.

Assalamu'alaikum Tun!

You're definitely right. I agree with you. Actually it's not the party should take the blame, but the persons who lead or manage the party. As you said, the decrease of rakyat support is not due to opposition strength but the BN weakness. I'm not sure either they not aware or just refuse to accept the facts.

By no.1fan on September 20, 2008 1:30 PM

It's true what you said Tun..BN is the only party or the only way that we can actually co-exist in this multi racial country. How can one party comprises of 3 races rule Malaysia? Surely each and everyone of them wants a bigger piece of the pie. I dare say this because look at them..they are of different race, different religion, different beliefs, different way of life, different behaviour etc. If Anwar do take over the government, who do you think he'll elect as his deputy..chinese, malay or indian..and bare in mind ..can he actually do it without provoking anger or dissatisfactions among the other races. Think about it.

Tun,

If the underlying logic of your analysis which stipulates that "in Malaysia our basic racial difference are extreme and therefore we should form race based parties and to have them cooperate with each other in order to avoid confrontation between races" holds true, then Pakatan Rakyat (PR) may be a much better alternative to the multi-racial society of Malaysia. This is because PR component party PAS represents one end of the Islamic ideological extremism and another PR component party DAP represents the other end of the Non-Malays dominant democratic socialist ideological extremism, with the third component party PKR sitting in between in order to conduct the coordination and reconciliation for the perfectioning and smoothing of two ideological extremisms. In other words, PR may provide a better solution than Barisan Nasional (BN) in the midst of Malaysians' losing direction in their spiritual value system and in the midst of fast deterioration of the material betterment largely owing to the mismanagement of the BN government. A system which has been adopted for almost half a century may be proven to be outdated and old-fashioned. This is the right time for Malaysians to consider replacing the old system with a new, clean, and efficient system. Apparently, PR provides a good choice for Malaysians at the present critical moment. Why should we miss the train now when the train is already docking at bay?

Dear Tun;

I am glad to hear that you are joining UMNO very soon but I believe this time the struggle and the game plan is totally different and tough as well but at least by now you should realize who is the real culprit. It's not the party that is wrong, it's the leader. Dalam teori 'tulang ikan' Jepun ada berkata 'ikan yang busuk itu bermula dari kepalanya'. Ini ada juga kebenarannya.

In my opinion the biggest coppupt 'he' had done is not to allow the corruption report on him to be investigate. He don't want to let go his position is because he know that he will be in danger or might end up in a cell so most probably he is in the process erasing all the witness and the list is too long it might takes another few years..

I wish u and wife SELAMAT HARI RAYA THIS YEAR AND MANY YEARS TO COME.  
ASSALAMUALAIKUM.

Selamat Sejahtera Tun ,

Gd'day & best of health Tun.

I wonder all these election talks & past history is going to bring current Malaysia to anywhere. The state & current affairs emerging in Malaysia is very appalling heading downhill. It's certainly not good to local as well as foreign news.

Lets move on & progress . We need to see change immediately or suffer the setback especially during this time of financial crisis. I truly agree with Tun that none of them in the government today is worried about the happenings around but more on local politics .

Its very sad to see there isn't anymore of Tun's calibre to steer the whole country like what is used to be once upon a time. Probably we need the comeback of YAB Dato Seri Dr. Mahathir Bin Mohammed. But I doubt this will ever happen to the disappointment of all Malaysians.

Having said that , I believe the next in line very close to take up this duty will be none other than DSAI. Well I have to admit that I'm not an ardent fan of DSAI either but none in present government have the experiences or calibre of his. Credits should go to Tun for everybody should know why.

This should happen sooner than later since the country is in turmoil now & need someone capable very badly. This is my sincere view of present time.

Take care Tun.

salam Tun,

DSAI is exploiting DSAAB's weaknesses to the hilt now.

DSAAB failed to properly recognize the contributions of East Malaysia to GE12 that should have reflected on the composition of the Cabinet ministers.

DSAAB failed to rein in inflation which made rakyat very angry.

DSAAB failed to assert his authority to quell racial tensions.

Congratulations to DSAI for managing to 'menangguk di air keruh'.

Even though PR's governance is questionable, but people are saying what the heck, let's give them a chance. We couldn't be any worse off than now!

UMNO / BN take heed!

Yang sebenarnya mereka yang kononnya interlektual segaja buat tidak tahu keadaan yang berlaku di sekitar negara. Mereka mahu demokrasi total sama dengan negara2 barat. Saya percaya mereka memang tidak mahu tahu sama sekali apa yang berlaku di kampung2, dimana sebahagian rakyat Malaysia hidup dengan harapan masa depan mereka terjamin. Selain daripada UMNO party mana yang boleh mempertahankan bangsa, agama dan tanah Melayu. Pernah penulis Helen Tan tanya dimanakah Tun Mahadir akan berada pada tanggal 16 Sept. Beliau dan penulis lain di Malaysia ini memang dengan segaja suka menghina Tun mereka hanya melihat kepentingan bangsa mereka pada hal bangsa majoriti tidak di perhatikan. Kemajuan Malaysia saya mahu tahu apa komen dari Helen Tan tanggal 16 sept sudah berlalu. Pendapat beliau sangat memalukan dan kenapa Helen Tan diam2 saja. Kalau tidak tahu buat perkiraan yang tepat jangan se enaknya tulis "rubbish" nama aja pendidikan tinggi. Saudara Anwar pula bukan saja mengelirukan rakyat beliau juga mati2 mahu jada PM tidak peduli sama ada bulan Ramadan. Iar kita lebih beramal tapi beliau buat rally waktu orang2 muslim berterawih dan sebahagian yang hadir bangsa Cina dan India. Saudara Anwar benar2 tidak menghormati bulan Ramadan yang mulia ini karna penasihatnya bukan muslim kerana saudara Anwar mementingkan diri nya sendiri. Seharusnya saudara Anwar banyak berdoa kepada Allah minta karunianya semoga dapat menjadi PM. Saya berharap orang2 muslim jangan tertipu dengan party politik yang lain hanya UMNO yang boleh menjamin masa depan, kedaulatan negara, agama dan bangsa. Kepada anak2 Melayu interlektual hasil dari NEP jangan lupa asal usul kamu dan berjasa lah kepada nusa dan bangsa jangan jadi korban "Melayu mudah lupa".

Tun,

I have been reading your posts almost daily since you officially started your own blog. During your PM days, your speeches were like fresh lecture notes on economy, history, and politics to me. I truly enjoyed reading most of them.

But now, our country is in a pitiful state. With due respect to other politicians, I feel, only YOU can bring back those glorious days and steer Malaysia once again out of trouble. I do not know how you will do it. We only can pray that Allah s.w.t will give you the strength to once again lead us to where we should be.

Selamat Berpuasa.

By akubosan on September 20, 2008 1:44 PM

The respected Tun,

Some of what you had written there are probably very obvious facts e.g sleeping habit. Some may be hearsay or just your opinion about Paklah? However, we respect this fellow blogger trying to stop discussion about our pious looking PM, esp during the puasa month, but can we do something else so we are not just discussing here meaninglessly? This blog has been the place where citizens express their

dissatisfaction and feeling hopeless about our country's leader performance.

The power that be is ignorant about whatever you have written, spoken or even asked for; how do you expect them to act as if you exist when even now I think they are playing dumb about everything, esp the plight of the people.

The only thing we can do for now is to hope for the UMNO grassroot do something but most are tight lipped , due to fear of losing their post etc. How on earth this materialistic stand has overcome the love to the nation? Dont anyone in UMNO, except for Muhiyiddin , think again that if they are so selfish, there could be the reason for the destruction of the beloved nation? Or they just think it is always the possibility of migrating to another country when the situation hit the worst? Oh yes, then the only ones suffering are the people.

Tun, pls do anything to help undo the mess. We dont want the people to go on streets to express their unhappiness over the leadership..or is that what they are waiting for before making any wise decision?

I am seriously concerned.

Assalamualaikum Tun...

Saya tertarik dengan artikel di perenggan 8:

8. Actually the present leader's involvement with graft, his support for his son's business, the power he gives to his son-in-law, his well-known sleeping habits, indecision, lack of ability to handle problems, sudden withdrawal of oil subsidy, cancellation of the bridge to Singapore, wasting money on the unused RM800 million (Johor Baru) Customs, Immigration and Quarantine building, cancellation of the railway double tracking and electrification project, the monsoon cup and lots more are what turned the voters against BN.

- Sememangnya inilah punca utama rakyat menolak BN dan mengundi pembangkang di PRU12 baru-baru ini.
  - Dah terbukti paklah melakukan kesalahan-kesalahan ini, rakyat sekarang pun dah peka dengan keadaan semasa.
  - Rakyat sekarang bukan macam zaman dulu.
  - Apabila dah terbukti kesalahan yang dilakukannya, paklah buat 'BODO' je... walaupun dah ramai rakyat yang tidak berpuashati.
  - Ditambah pulak dengan 'PEMBODEK-PEMBODEK' yang memberi "sokongan" kepada paklah ni.

There are several factors that cause BN to lose badly.

1. There is a "conman" by the name of Anwar Ibrahim.
2. There is a "black sheep" by the name of Khairy Jamaluddin.
3. There is a "Hang Tuah" by the name of Hishamuddin.
4. There is a "Mat Rempit" by the name of Aziz.
5. There is a "tiger show" scandal.
6. There is a "snake show" on the street.
7. There are "party impressionists" showing their wealth through corrupt practice.
- 8 There is a "Tok Guru" who has no political principle.

9. There is "taichi master" by the name of Lim Kit Siang.  
10. There is a "sleeping beauty" by the name of Abdullah Badawi.

Greetings Tun,

First of all, i am a Chinese born at the 70s. I whole heartedly agree that most Chinese does not too concerned about human rights or more liberal Government like what Tun said. We care more about our living condition, our safety, cost of living & our business more than any other things.

Seriously, i dont have problem with NEP. I dont have problem with Bumiputra getting some advantage in some area. I respect the decision that has been done by our race's earlier leaders. I have Malay friends, i have Indian friends, i hang out with them, i do business with them. I feel happy when we all can work together.

As a Malaysian I think the country has given me enough. A place to live in peace, a place to make families, friends. And that's enough, if i wanted something more i can always work harder no matter what disadvantages i get.

Tun, i have met you before. I wont forget that morning where i was sitting at a coffee shop at Bintang Walk. I saw a group of very urgent officers. There i saw someone smiles & wave hand toward us, so friendly and yet so confidence. Tun, that was you.

Tun, you could have go away & enjoy your life somewhere else yet you are still here. Like a kind father who cannot stand to see his son goes bad. You love the country so much.

I would like to thank you for all your efforts on making Malaysia a peaceful & united country!

Hi Tun,

I respected your contribution to Malaysia for the past 20 years. Truly appreciate that. Your contribution and legend will be in Malaysia history, and pass on to Malaysian's future generation.

Nevertheless, I am not supporter for non-racial politics, nor racial politics. My view is simple, I want the best out of Malaysia.

DSAAB claimed that BN has won the majority on the PRU-12, I agreed and no doubt about that. The question is, what if 6 months down the road, since federal government was formed, and the confidence of rakyat to the current government has faded? Our Perlembagaan didn't mentioned anything about the majority was lost along the government life, before the next general election. Thus, I strongly believe, the rakyat will be most important and not MPs.

For DSAI to take over the government, which he claimed, he has the majority of the support of MPs, I couldn't agree too. The national fate is not decided by those MPs, it is the rakyat to decide. Thus, I strongly urged that the decide power come back to Rakyat now, as whether we want the current government to continue, or a new one shall be formed.

Let's do it the rakyat way.

Personally, I vote for opposition because I want to give the govt a loud awakening from its long slumber. I just do not realize the same sentiment is being shared by many translated to 5 states going to the opposition.

Voting 3rd candidate, would be wasteful. After reading your blogs, it make perfect sense.

By alfresco on September 20, 2008 2:08 PM

Salam Tun & Fellow Bloggers,

Maybe AAB needs time to do some spring cleaning to remove all the traces and evidence of his family graft to avoid any implications that may arise later. I believe, the truth will prevail and he has to face the music for his many wrong doings.

In my opinion, the idiot zombie should be removed by force, if he still stubborn and arrogant for wanting to cling on to power despite his incapability and the people's hatred towards him.

Going forward, I pray that you have time to groom a new leader as Malaysia needs a leader who is "brave and smart" and who also practice the true Islamic teachings which is based on justice and equality to all mankind. Insha Allah, God will assist and give this leader the clarity and vision to achieve the objective pursued.

But my question is this... we all now Pak Lah is a very bad leader more like the direct opposite of you, but is Najib with all the bad publicity, allegations and what not fit for the top job?  
By mzzainal on September 20, 2008 2:09 PM

The BN concept of powersharing was a good concept under an effective PM.

The BN now is a confused political animal. It has proven to fail in providing for society and the country. It is the leaders and their henchmen that has destroyed the collective parties and their history of milestones.

As long as PakLah is at its helm, there is no point in supporting BN/Umno. His weaknesses has transformed BN/Umno into their bastion of power that serves themselves. Malaysians do not benefit from their political control. BN's misconducts have shamed the rakyat and our country.

The longer PakLah and his henchmen are in the Govt, the more Malaysians would support other non-BN leaders. It is not just about picking the alternative choice just because people do not like BN. It is simply about a severe mindset change of how Malaysians want changes.

BN is unable to unite for many simple causes, such as Ahmad's racist views and the recent heavyhanded usage of the ISA. This merely excites many Malaysians and their support naturally goes to the other parties.

I believe if PakLah continued with the economical/social progress that Tun had set, then these issues might not have cropped up. Instead PakLah dismantled the Vision 2020 and the economical structure of our country, just so as he could lay down his own foundation of legacy. He appears to want the Rakyat to remember and worship him as a Hero. Well he failed in his foolish attempts. Instead Malaysians would remember him for his weaknesses and his inability to effectively manage the country.

PakLah is a blessing for those who oppose the Govt/BN/Umno. PakLah is the entity that an opposition would love to have in a political game. PakLah infact has played to the tunes of those who oppose him.

And BN fell along into the trap.

For those UMNO members still support AAB to bacome chairman, they will make big mistake because AAB is outgoing, and very soon.

Any wise UMNO member will start to cling to up rising Dato Seri Najib. Those show strong support to Dato Seri Najib will have a bright future. AAB has made a big mistake of setting stepping down schedule. Tun has done a good job to pressure AAB down. Thanks.

Salam Tun,

Saya mengundi pembangkang pada 2008 kerana saya terasa tertipu dengan janji janji manis Pak Lah pada tahun 2004, kononnya tidak untuk mencari harta dunia tetapi mencari Al-Ghazalie dan Al-Shafie. Gambar-gambar beliau memegang dan memeluk perempuan-perempuan bukan muhrin menggambarkan peribadi beliau yang sebenarnya. Beliau bukan imam besar Islam Hadhari (yang beliau reka) tetapi playboy. Tunku Abdul Rahman juga seorang playboy tetapi beliau tidak cuba menyembunyinya disebalik agama. Sekurang-kurangnya Tunku berjaya memujuk British memberi kemerdekaan kepada Malaya, apa yang Pak Lah dah lakukan untuk kita selama 5 tahun selain menyusahkan rakyat jelata. Sekiranya Pak Lah ada terbaca komen ini (reading is not one of his known virtue), tolonglah kami dengan meletak jawatan dengan segera. Tak payahle buat apa-apa lagi, cukup dengan buat pengumuman letak jawatan serta merta.Tolongla kami Pak Lah, buat kali terakhir.

Dear Tun,

You are amazing, the capabilities and knowledge you have make you a great leader and person. I always remember you are the only leader in the whole planet dare to tick and tell the US president off, at that time i was so proud of you when my Canadian friends put double thumbs up for you. Canadian never like American much and they felt suppress and belittle by them, whatever invention made American claim is USA.

I really hope the day will come Malaysia will have a strong leader like you, certainly we cannot wait too long cos things are rotting and going into bad.

Take care Sir and God bless you

Assalamualaikum Tun sekeluarga,

Monsoon Cup tu buat buing duit ja. Bukan ramai pun orang pi tengok. Puak-puak depa ja yang memeriahkan keadaan, buat syarat ja untuk pesta arak. Kesianlah pada kami yang berpendapatan

rendah ni. Depa tu suka-suka ja buang duit rakyat. Mana rakyat tak marah? KJ tu pi tauk buang tingkat 4 meluat ngat ai...

Tau la..politik mana yang bersih? Tak dak pun dalam dunia ni politik bersih tapi ni dah melampau sangat-sangat. Depa tu tak rasa pun beras naik ka minyak naik ka barang2 naik ka letrik naik ka....

Assalamualaikum.

Dear Tun,

I actually not going to comments on your topic but I would like to comments on one of comments By khairi on September 20, 2008 12:27 PM

Kebetulan nama serupa dengan menantu pak lah atau memang menantu dia yang give the comments, sebab sini saya nak highlight sedikit maksud fitnah dan tomahan.

Fitnah atau tomahan adalah jika seseorang tu membuat tuduhan yang palsu. Semua orang tahu facts yang Tun tulis, fitnah ke tu...?

Betul kata ayah khairi, "Banyak Cakap Banyak Silap" ayah saya pun bukan sekolah tinggi mana tapi dia pesan kalau nampak yang salah perlu cakap atau tegur sebab akibat berdiam diri tidak akan bawa kperubahan. Takkan kalau anak sudah buat silap, nak biarkan sahaja, orang tua ada perpatah " Kalau sayang anak tangan tangankan"

Apa yang tun buat macamlah menegur perbuatan anak yang telah membuat salah. Kenapa tak terima nasihat, kalau nasihat itu betul?

Kalau itu lah perlakuan yang salah, apa yang dilakukan kerajaan sekarang betul?

Orang melayu kita suka menggunakan akhirat dan dosa, sapa kita manusia untuk menimbang yang seseorang manusia itu berdosa atau tidak sedangkan tuhan belum lagi mengatakan pasti terhadap orang itu.

Hipokritlah namanya kalau masih tak dapat terima nasihat orang, malah dalam bulan puasa inilah segala yang ditegur patut dijadikan teladan. Terimalah yang baik dan hindirlah yang buruk. Jangan hanya kenyang dipoket terus menerus memperjuangkan hak yang salah.

Terima Kasih Tun, semoga tun terus memberi nasihat kepada anak anak tun. Jangan putus asa.

Selamat Berpuasa..

Salam hormat Tun.

I think Tun, we in Malaysia are too many political parties, and every party seem wish to get position in the govt. I do not understand why from the beginning such idea to allow every everybody to form their own political party. Unlike in the west we know there are only two parties Democrat and Republican. Because what happened after the Gen. election normally the PM itself is to get headache to choose his cabinet members due to JAGA HATI. So I think it's time perhaps our parliament members to revise back the system we have to the two parties only in the general election.

One more thing I would like to arise here is The Penubuhan Persatuan Persatuan Kebajikan. The objective of this association to form very good to look after the welfare of the members. Unfortunately it doesn't. All the while the agenda of this association is becoming political body. The chairman or the Presiden of the association is aiming to stand in the General Election. That is why in Sabah itself every race has their own Persatuan to enable for its leaders to be chosen as a candidate in the election.

Because he thinks he has followers.

so this is how the racial issue is always become hot topic everywhere in our country.

God Bless...

And what about those younger Malays, Chinese and Indians who didn't vote in the 2008 election? They have taken the laid back attitude that have put Malaysia in its puttering position now.

Yes, most young Malays are in tuned with Anwar Ibrahim. But I see more and more young Malays/Indians/Others going back to the government. Young Chinese might fully reject what they deemed as UMNO putra, but bear in mind the rest of us who are not Chinese or liberal Indians, also reject DAP wholeheartedly. WE WILL NEVER ALLOW A CHAUVINISTIC PARTY LIKE DAP TO REIGN OVER MALAYSIA, NEVER TILL THE END OF TIME.

In America, there are feuds among Blacks and Hispanics because the Hispanics are taking the Blacks' works. So the west itself has terrible records with race relationships except our whitewashed liberals refuse to talk about that.

We should learn to minimize racial tensions, we shouldn't dream of baseless liberal utopia of a race-less society.

Tun,

1. Saya merasakan sebab dan isu penolakan yang berlaku seperti yang telah Tun huraikan sebenarnya telah diketahui oleh semua pihak sama ada sebelah yang menyokong ataupun yang membangkang ataupun tuan punya diri sendiri. Namun ketidakendahan keatas isu ini dengan niat yang lebih besar menyebabkan ianya diabaikan untuk kepentingan peribadi mereka.

2. Saya pernah berbual dengan masyarakat kampung saya tatkala saya pulang ke kampung dan seperti biasa 'lepak' dan minum-minum dikedai kopi. Isu yang dikaitkan bukannya berkenaan kerajaan tidak terbuka atau apapun seperti yang telah Tun hutraikan tapi kenaikan harga barang atau taraf hidup.

3. Bagi mereka tiada gunanya mereka menerima pembangunan sekiranya taraf hidup mereka bertambah mahal. Contohnya kalau dulu sebelum ada pembangunan harga secawan kopi sekadar RM 0.50 tapi kini kerana sudah ada sedikit pembangunan sudah mencecah RM 1.00. Yang rugi mereka kerana masih disitu.

4. Apatah lagi sekerang tiada pembangunan tetapi taraf hidup terus meningkat. Mereka bertimpa-timpa rugi.

Salam Tun,

IYA Tun, saya setuju. Saya tak mau nak ngaku saya 'mewakili rakyat' kerana bila ada bloggers yang kata begitu, timbul rasa takpuas hati walaupun saya setuju ngan komennya. Tapi saya ngaku mewakili hampir 20 pengundi PU12 baru ini - kalau selama ini kami sentiasa mengundi BN, walaupun terdapat beberapa perkara yang tidak kami setuju tapi kami lebih melihat kepada 'the greater picture', yakni kestabilan negara.

Tapi PU12, kami 20 pengundi, tidak berpakat, tapi masing2 dengan sendiri ngaku mengundi PAS bukan kerana kami sokong PAS, tapi lebih kepada faktor paklah ! walaupun ada calon ketiga peringkat ADUN, kami tidak mau mempermainkan pilihanraya yang datangnya cuma 4-5 tahun sekali. Kalau pilih parti BN, paklah akan kata rakyat sokong dia, jadi kami nak beri 'signal' pada paklah dan kami undi PAS.

Cuma sedih, paklah masih lagi 'buat bodoh dia'..lebih sedih kerana saya sebagai rakyat tidak mampu berbuat apa2 sekarang...kecuali melihat saja percaturan politik beberapa 'tokoh' negara berebut2 menjadi juara.

Dear Tun,

Selamat berpuasa.

The drastic changes of support for UMNO-BN was because the rakyat felt that their welfare was not taken care of and simply they felt that the PM has not did and done something that really really benefits to the people.As such, being fed up,they simply opt for changes.

BN is still no.1 (hope so) just because it is very obvious the rakyat feels that the UMNO-BN led government could have did something to ease the burden the rakyat felt.(lower the price of petrol immediately)

Salute to Muhyiddin,Hishamuddin,Rafidah & S.Apdal for asking (force) Pak Lah not to proceed this coming UMNO election.

When he (Pak Lah) steps down,I bet you can see the changes of support for UMNO-BN will eventually increase.A similar scenario when you Sir decided to retire.

Because now Pak Lah still PM...all hope is gone.

Selamat Hari Raya to you and family (& all Muslim)

Tun,

For me ISA is good is a capable leader know how to use it, it would be terrible is the person who handle do not know how to use is, the worst part is, if it been used for personal agenda. Actually, people doesnt care either we demolish it or keep it. The previous general election proved (but not recent general election) that people dont care about it. Im trully believed that the majority of people will still support ISA as long as it doesnt harm our country as a whole.

To CSI Malaysia.

Please don't say the Malaysian said YOU FAILED, if it is true how come the people of Malaysia could give full support to BN during 2004 general election. It clearly shows you are actually a short thinking person who let yourself be influenced by baseless allegation. Please laaaa open your mind pleaseeeeeeeeeeeeeeeeeee. 1. I hate the UMNO "Plutocrats". UMNO sudah "basi"! -a party in a total shambolic state.

2. Today I read the following news in The Star (<http://thestar.com.my/news/story.asp?file=/2008/9/20/nation/2081163&sec=nation>). It is obvious that the PM is under pressure to exit -most of the UMNO supreme council members wanted him to go. A clear indication! Abdullah said he wants to "reform". Then, "reform" by resigning as PM!

3. Say, if I would tender my resignation in 3 months from now, I don't think I will work as hard as before in my last working days. I think it also applies to the Prime Minister. If he wants to step down in 2010, he might as well resign now. Our nation can not wait (2010-2008) 2 years holiday. By mlkview on September 20, 2008 3:17 PM

Dear Tun,

Why the insensitivity shown by UMNO youth leader playing the Keris, and the insensitive remarks by UMNO delegates to use it?

Why the insensitive handling and torn down of Indian Temple? Why using and spraying water cannon on Batu Cave temple followers and damage the temple compound?

Why the Parliament Roof is leaking??

Why Organise Moonsoon Cup with hundreds of millions wastage?

Why Build a Kristal Mosque with over inflated cost?? I heard it's OVERPRICED.

Why the FUEL PRICE keep increasing and increasing every quarter and everything increase but not going down.

Why the PORR outer ring road crack?

Why suddenly cancel of 2nd Singapore bridge??? And I hear compensation for nothing (no job done) being paid...and we wasted fund on this.

Why the Atlantuya C4 case take so long to resolve?? This is C4 being used not some kitchen knife where you can buy in supermarket.

Why does UMNO being insensitive and keep harping of this right and that right for their political expediency and the leaders later found out to be the corrupt ones like Ismail.

Tun, when will NEP end??? And all Malaysian being treated fairly and equally? Regardless of how many generation they are here.

Salam to all,

Yang dihormati Tun, I am wondering why you keep on saying that PAS is a Malay based party. Any reason that you can share with us why you considering PAS such party? All this time, we have been told

and PAS itself senantiasa menwar-warkan yang mereka adalah party Islam. In fact few visitors here saying the same thing too.

Newspaper today revealed about perjumpaan between top rank UMNO MT with PM. Pray that PM has the courage to accept the situation and berundur gracefully.

God bless all of us.

14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party.

I have to disagree here. Compare the Malays 50 years ago and the modern Malays, and see how much they have improved, for the better. World changes and people improves. Though the BN concept may be correct, the strategies have to be changed in time. The 50 years old strategy will not work today and there is no where else to look but the party's ownself.

By lakshy on September 20, 2008 3:29 PM

We even had bn component party branch chairmen advising, this time dont vote for bn.

I even heard through the grapevine that Tun campaigned against bn, except for his own son. That would explain much of the reason for the swing, and why Kedah fell to PAS.

And now Tun returns to umno as the "saviour".

By lakshy on September 20, 2008 3:33 PM

Your reasoning may be a bit flawed.

If your votes amongst the Malay voters increased by 3000, presumably they also would reduce your opponents votes by 3000 if they had voted for your opponent before. Hence if the Chinese votes swung away from you by 3000 votes to PAS, these two situations would have neutralised each other.

The fact that you lost by 900 votes simply meant you lost. Wonder what would have happened to Malaysia if you had kept losing!

By Hajar on September 20, 2008 3:36 PM

Dearest Yg DiKasihi Tun,

1. I totally agree with Tun's reasoning. DSAAB MUST GO.

2. As for the commentator who said, "if that was the case they could have voted for the third candidate who actually lost his deposit.", I believe he/she doesn't really know how to calculate accurately/wisely. To make sure that BN lost the election, the votes must go to the opposition (for the best impact), not to the independent candidate. If the votes had been given to the independent, there's still a possibility that BN might have won.

May Allah SWT bless Tun & family

Kekalahan BN didalam PRU 12 ada banyak sebab:-

- 1.Malaysian dah muak dengan BN/UMNO therefore they voted for Oppositions
  - 2.Malaysian looking for alternative instead of BN they voted for Oppositions
  - 3.Ada possibility that Oppositions more genuine in facts & figures compare to BN
  - 4.BN for the last uncounted years regularly "Insulting The Intelligence Of Malaysians"
  - 5.Malaysia is not belong to BN/UMNO ie die with boots on.
  - 6.New generations used more brains to evaluate facts & figures.
  - 7.Generasi sekarang agak lebih terbuka dan praktikal.
  - 8.Kesempitan hidup membuatkan rakyat lebih kreatif dan kompetitif looking for alternative.
  - 9.Tiada tender tanpa UMNO/BN proxies.
  - 10.Hopefully BN/UMNO will rest in piece.

Hi Tun! It appears as the political situation begins to progress you just may get your wish fulfilled that is to put things right. Don't be too hard on yourself as most of us do have our fair shares of errors in judgement, the only difference though is that the consequences may not be so dire.

The ordinary folks irrespective of race basically will be more interested in the basics like whether there is enough food in the pantry, whether there is sufficient money to set aside for education and for the rainy day etc. I reckon the immediate response of the Government is to put more ringgit power into the Rakyat now that there is a change in the Finance Ministry.

When the Rakyat's interest is taken care of, the votes will be taken care of by itself. After 4 to 5 years of inertia in the economy, i believe there is a lot of catching up to do.

Hi Tun,

Looking back at history it was a proven fact that politicians were dogmatic in their political approach and hence a political landscape that suited BN at that point of time but now it is a different ball game altogether. The tide of time brings changes whether we like it or not and BN must flow with that wavelength. Yesteryear political ideology has to change and definitely it will be hard for yesteryear politicians to accept changes but they must gradually change or make way for change. This is the reality of the present time.

I disagree with you that our politics must be east orientated and not the west, ths is not the question, it must be based upon the needs and expectations of the rakyat. We have to assimilate ourselves into the era of globalization. BN should take the responsibility of elevating the standard of politics in our nation and not hinder the progressive political maturity of the rakyat.

As for our present PM, his popularity was affected when he did not handle the Hindraf issue properly, the

hike in the price of petrol, the soft handling of his UMNO politicians and of course indecisions of important matters, the crust of it was the present spate of ISA arrests. When I come to think of it you got away with all the ISA arrest that came under your leadership.

Corruption free politics is hard to come by and I have stopped judging any politicians. I think we Malaysians are more concerned about what the present BN or any ruling party can give to the nation.

Bye. God keep you in good health.

Salam Tun,

Letih rasanya nak analisis tentang votes yang Tun terangkan. Tapi berkaitan dengan AAB tu saya sokong. Dialah punca kejatuhan BN dan punca BN hilang vote. Tapi bila Tun kata bukan salah parti, saya kurang bersetuju. Apakah sebenarnya parti? Pada saya orang dalam parti yang menjalankan parti adalah parti itu sendiri. Maka putar punya putar tetaplah BN yang menyeksa rakyat. Biarpun BN sekarang dengan BN dulu tak sama.

By T on September 20, 2008 4:10 PM

/// 4. But what happened shocked me because Chinese voters not only refused to vote for me, which meant a loss of 3,000 votes but they voted for PAS. I needed 6,000 more votes to replace 3,000 voters who did not vote for me and another 3,000 because they voted for PAS.

5. I lost by 900 votes. If the voters who were dissatisfied with UMNO and BN voted for a third party or refuse to vote, the BN would lose these votes but may still win if the margin previously was big and the opposition did not get additional votes. But when votes were taken away from BN there would be a decrease in BN votes. Then when the votes are given to the opposition there would be an increase in votes for the opposition and so the gap is widened and the opposition would win. ///

Hello Doctor,

Mudah Lupa, or as usual spinning your side of the story? If I remember correctly, you were so sure that you can win without the Chinese votes that you told the Chinese just before Polling Day that you don't need their votes. And you got punished for it.

Yes, you were shocked and rightly so. Because you thought you will surely win. In that instance, the Chinese did not abstain or spoil their votes. They swung their votes to Haji Yusoff Rawa. You lost by 989 votes, not 900 votes.

To khairi who reminded chedet to slow down during Ramadhan, well, that depends on the things chedet wrote, I believe they are all true, so what's wrong with that? During Ramadhan, good deeds are multiplied, but that doesn't mean we should stop performing our other worldly responsibilities... and being an elderly statesman, chedet has a responsibility to continue highlighting the misdeeds of our current leaders.

Banyak cakap, banyak silap - this is like buang TV dlm lombong because it shows unislamic shows, tak nak keluar rumah sebab banyak perempuan tak tutup aurat etc...

If chedet dapat dosa sebab org lain buat fitnah dlm blog ni, it means TM pun berdosa sebab provide internet utk chedet dan bloggers yg lain, TNB pun berdosa sebab provide electricity for chedet's and the bloggers' pc to run etc etc...

By muja on September 20, 2008 4:12 PM

Tun,

The problem with most political parties in Malaysia is that they are full of those who lack leadership qualities. I would like to recall an incident when a young girl commented that even his father was more capable than our present PM.

2. Although I'm a staunch UMNO member, I'm not a staunch supporter of their present leaders. I honestly believe that the majority of the UMNO leaders are not up to the mark. This is what happens when UMNO has been the killing field of up and coming young leaders.

3. Get down to the branches and we will realise that most of the ones holding positions are the ones who think that the party belongs to them. They do not have proper and strong academic background. They can't even think straight and yet they win year in year out. This is a case of "I vote for you and you must vote for me." Thus UMNO becomes stagnant, waiting for its slow death.

4. Forget the next general elections. UMNO needs to look into its own backyard first. UMNO is the backbone of BN and if the numero uno leader in UMNO is weak, the whole set-up is going to collapse.

5. So why did BN lose the last general elections? The answer is very clear and yet we don't want to admit it. Ask Pak Lah to step down now or else you are going to regret it.

Take care Tun and all Malaysians.

By azmany on September 20, 2008 4:13 PM

Tun,

The loss of confidence in BN today is already undisputed. 99 out of 100 people asked will agree that the Rakyat has generally lost confidence of the current leaders.

The question is how to gain the confidence back? The period for rhetoric statements are over, it's the action and decision of the leaders that will be watched and on which they will be judged.

Hopefully Pak Lah finally listened to his MT views. But what then?.. Can Najib overcome his Achilles heels: the spectre of Altantuya and the shadows of his wife?

By beema on September 20, 2008 4:16 PM

HIDUP INDIA, HIDUP MELAYU, HIDUP CINA, HIDUP MALAYSIA.....

By Skill on September 20, 2008 4:23 PM

Dear Tun

The loss of confidence in Pak Lah is greatly understated. Some actually despises him now.

As the days go by, we see incidences that simply erodes BN's authority and ability to govern. ISA detentions. The war of words among the ministers. The fights among the BN partners. The economy. The attempt by Pak Lah to cement his son and son-in-law's position in business and UMNO.

I don't think Najib will be able to pull things together in BN especially after so much damage that has been rendered. By keeping mum, Najib has mirrored himself as a yes-man to Pak Lah and this has greatly damage his own reputation permanently. In addition, the Attantuya's case is also another smear to his character, in the manner in which the whole affair was dealt with so incompetently. When true leadership is warranted, he clearly was not up to the task.

In view of the attempts of Pakatan's increasing popularity and the public's loss of confidence in BN, I see no way for BN to come back and govern and govern well except for the removal of Pak Lah and his lot immediately and the reinstatement of Dr M as a caretaker prime minister during this critical interim period till a more suitable leader rises.

If this is not allowed to happen, I fear we will witness the ship going down with its captain.

Apa akan terjadi dengan projek2 yang di-ilhamkan oleh Pak Lah...contohnya WPI..Koridor sana-sini..Monsoon Cup dan sebagainya...??  
Apa kah sepatutnya di teruskan atau di BERHENTIKAN dengan sertamerta...macam mana yang dilakukan pada projek2 tinggalan zaman Tun..jambatan bengkok..double tracking dan macam2 yang lain??  
Bagi saya bakal PM nanti..mempunyai alasan kukuh utk. nak review atau nak Stop...langsung pun tak apa..pasai laa ni keadaan ekonomi dunia yang tak menentu..!  
Macam mana pula ..Pak Lah rasa ketika itu...!! Atau sebab ini lah kut antara punca nya Pak Lah dok tangguh pi-tangguh mai!!  
Bagi saya..masa paling sesuai Pak Lah letak jawatan, adalah sebelum Sidang Parlimem yg. akan datang ini...!!  
Undi tidak percaya mungkin akan dilakukan pada sesi sidang Parlimen yang akan datang ini...kalau dah tukaq PM...mungkin senario nya akan berpihak kpd. pimpinan baru BN.. !!  
Dan juga katak2 'opportunist' politik tu.. tak lah jadi melompat kut..!!  
Ini semua kemungkinan...dan serba mungkin berlaku..kita sama2 lah tunggu..tenghoq nanti apa kah ...serba-mungkinnya itu!!  
Harap2 jangan lah dok bercelaru macam laa ni..Harapan rakyat di bawah ni..sesangat lah tinggi melangit semoga keadaan pulih sejahtera hendak nya..aman damai sentosa seadanya....!!  
Macam mana yang Tun coretkan dilaman ini.. saya bersetuju sangat..!

Salam Tun,

I would like to say that what has happened the past few years in UMNO has resulted in the Malays losing their pride. In total essence, the malays are unable to stand with their heads held high and say that our achievement is truly ours.

Our leaders are corrupted and outright blatant about it. It has become like we are dealing with the mafia here. They steal money from the people in full sight and without shame, and when the people complain they ignore and belittle the people for doing so. This is why I believe Selangor fell becoz the public was disgusted with the antics of the previous MB whom until now still feel that he is untouchable.

What UMNO needs to do is to give the Malays back its PRIDE. I for one am sick and tired of hearing

about rich malays who make it because of connections. I am sick of hearing about shameless malay goverment officials who has no qualms about asking for handouts from business men.

I am sick of hearing a chinese business man say that he prefers to deal with malay officers cause they are easier to bribe.

I believe the government needs to employ strict gift & entertainment guidelines and impose strict enforcements. This people who readily accept and most instances ask for bribe should be immediately removed from govt as these people are traitors.

That's all folks.

Have a nice buka puasa.

Salam kepada Ayah Det and mama and family,

after reading so many comments, i find it very intriguing to read a comment from one khairi which implies a certain thing in the holy month. i would lik eto reiterate and rebutt his comments. we all know that this is the holy month for all muslim around the world. what u have written in yr blog are facts that cannot be denied. these things are all happening and it is very detrimental to our beloved country. if the khairi had asked u to stop yr comments, then i would ask him to suggest to the higher ups governing the country to stop the wrongs that they are doing so that it would make it difficult for you to make comments in yr blog. and i think that he has forgotten that you were the former prime minister of this country and you had led the country through thick and thin to ensure that the whole world knows where malaysia is. i don't think he has encountered people asking him do malaysians still live up in trees. i had that experience way back in the late 1980s. it's so embarassing. but my reply was, yes we do live up in trees but escalators and lifts are available to bring us up to the hut in the trees. i believe that majority of yr readers appreciate what u have written and only certain quarters (the minority) may not like it. i suppose if the higher ups has an option, they would have put the isa on to you. but i can only hope they will not abuse the isa and did what they have done.

i could just hope that you will still carry on with your comments and keep the public abreast with the issues of the country with NO SPINNING (what the media is doing now)!! if the khairi is unhappy, i would suggest that you host a questionnaire and have the readers fill it accordingly. i believe that majority of your readers will support you all the way. i believe it would be more than 2/3 majority..maybe above the 90% mark just like the what the voters did in 2004. the 90% majority during 2004 would be because of all your hard work in making sure that malaysia strives towards a developed nation status. now it has all gone to waste and moreover, the whole scenario in malaysia is sickening. hope all htose bickering will stop, and the higher ups will start reconstructing and bringing back those glory days of the nation rather than killing the country slowly.

i would like to wish ayah det, mama and family the best of health and GOD BLESS.

selamat berpuasa and salam aidilfitri...suffian

Assalamualaikum Ayahnda Tun n Bonda,

With respect to Ayahnda Tun,

Allow me to educate khairi@12:27pm!

Who are you to decide whether a person goes to hell or heaven??? Do you know where you are going to, yet??? Might as well learn your fate before conjuring someone up like Tun to go to hell!!! I'm afraid that the path of ignorance and bliss falls on people like you who is blackened from mind to heart, who could

not see beyond the lines about what is truth and reality as you only chose to curse and condemn others as you like...Everyone is accountable to his or her own doing and Allah the AlMighty decides who goes where, when, how, NOT you!!!

Thank you Ayahnda for your superb governance all these while...  
happy fast-breaking from me & family.  
May Allah bless both of you more, each passing day...  
Wassalam.

Assalamualaikum Tun,

My Name Is Azlan Samat@Samad From Sabah.

I were young when my first vote goes to BN in very short minded decision . BN is only Party that can lead perfectly . Why , It never fail since i was kid until getting influence in political issues on my teen . My paradigm goes totally 'twisting' , BN going Bad .  
All causes been described by TUN 'on one single click' , 'point on Abdullah'.

All of most , everybody fed-up with matters that bring tension since last election , most ambitious people stuck on rally to achieve 2020 mission , they think they are running low but they not even run .

Strictly let me express my favor ,  
Sabahan people morely seek on modernization , Reducing high cost living and Education . For Us, we had been almost change state govern before UMNO came to Sabah , To many leader but that goes nothing - YOUR! TUN! The ONLY TRUE LEADER.! YOUR ARE NOT SABAHAH BUT BRING A LOT THINGS SUCCESSFULLY.  
Please ! Lead back this country TUN - kick that BO-DOLAH! OUT ! SHU! SHU!

SELAMAT HARI RAYA TUN,  
SEMOGA SIHAT SELALU.

I belive the loss of confidence in the government of the day was more serious than you a make it out to be. You have with great humility not elevated your role. The people were used to your rising above categories and seeing the real needs of the people and keeping the economic momentum going forever. So there wasn't a gap between the real needs and the economy and hence BN's success in 2004.

And then the government started running you down, and instead of helping them it backfired. It was quite clear to everyone you as the PM had every right to listen to whoever and then decide on the appointment of judges and there's nothing wrong with that - that's decocracy. Everybody knows and their angst was against the government's running down of a statesman and his influence on our affairs, likes of which statesman we are unlikely to see again. They know the oppositions' claims were legalistic and self-serving and out of touch with the reality and hence irrelevant.

So there was a complete loss of social cohesion, and hence the votes against the government.

The cohesion or confidence has nothing to do with democracy. It does have everything to do with what the people think is right or wrong. Peter Turchin, in his recent book, War and Peace and War, uses Ibn Khaldun's concept of Asabiyah and argues convincingly that social cohesion can arise in both democratic and autocratic empires. He argues it has everything to do with a leader's ability, and he also argues history shows likelihood of succesful leaders following a great one is very small indeed.

Assalamualaikum Tun.

Tournament Pencarian Jaguh Catur Terengganu akan masuk siri ke-4 pada bulan Oktober ini.

Pada Disember ini adalah Grand Finale.Seluruh rakyat Malaysia yang mempunyai FIDE rating dijemput menyertainya.Berkemungkinan pemain utama negara,IM Mas Hafizul akan turut dijemput.Semoga pertandingan ini akan berterusan seperti mana Merdeka tournament.But i'm not organiser.Cuma promote.

Sila lawati [www.caturterengganu.blogspot.com](http://www.caturterengganu.blogspot.com)

Saya cuma bermain (dalam mood) 4 games dari keseluruhan 21 games.Hanya dapat kumpul 3.0 points.Berada diranking 24 sekarang.Saya telah berjaya kalahkan ranking no 5 terkini pada permainan yang lepas.Proud of me.

Jika saya tidak berjaya ke Grand Finale pada Disember ini kerana kurang kemenangan,ianya bukan kerana salah pertandingan.But I have to look elsewhere for the loss.

Terima kasih Tun.

Salam Sejahtera Untuk Tun Dan Keluarga.

1)Sebenarnya kita sedia maklum waktu Tun melepaskan jawatan dan memberikan kepada Pak Lah.Semua merasa sedih hingga ada yang menangis.

2)Tun telah memberi jawatan PM kepada Paklah di atas dulang perak (on a silver platter) semua orang tau waktu itu UMNO melalui jalan kearah kekukohan setelah isu Anwar dan krisis mata wang berakhir di mana Tun dan rakan-rakan berjaya mengatasi nya dengan cemerlang.Semua nya dalam landasan yang betul

3)Tetapi Tun tidak angkuh,tetapi setelah pilihan raya 2004 BN berjaya menang 90 peratus ada pihak yang mula angkuh yang mengatakan mereka yang membawa kemenangan. Lupa akan jasa Tun.

4)Saya rasa Pak Lah mesti mengambil jalan buang yang keruh ambil yang jernih.perkara ini mudah balik lah ke pangkal jalan.Gunakan semula kemahiran NEGARAWAN KITA TUN untuk membantu kita memulihkan keadaan.Kita tahu kita sudah makin meleset jauh.Selagi Tun masih hidup dia masih boleh dan sedia membantu.Kita tahu akan sifat Tun.

5)Pak Lah ambil yang keruh buang yang jernih.

TUN KAMU TIDAK KESEORANGAN.

I wonder what Pak Lah will do now. As this matter becoming more complicated, I think its better for him to release all post he has in the party and the government, and pass it to Najib as soon as possible. Thinking of other alternative leaders such as Ku Li or Muhyiddin Yasin? this is not an appropriate time to discuss with. Let Najib select who he desires to become the No.2, as for now, its safe for us to have a smooth transition and that will be Najib as our next Prime Minister. We are on stake, we don't want to fall apart and cause this country divided into more various form of instability.

Assalamualaikum Tun...

Saya dibesarkan dalam era pemerintahan Tun sedari 1977 sehinggalah Tun melepaskan jawatan. Semestinya perbezaan cara pemerintahan akan wujud. Adalah lebih bagus jika kita semua umat Melayu jangan mengalah sebelum berjuang dengan membetulkan apa yang salah. Tiada gunanya mengkritik sahaja tanpa tindakan. Saya percaya ini bukan cara Tun sebab Tun akan lakukan apa sahaja untuk kebaikan. Siapa yang tidak kecewa dengan kekalahan PRU12. Sebagai manusia golongan menengah dan tidak punya apa-apa, saya ingin bertanya kepada Tun, apakah caranya yang dapat saya lakukan untuk memulihkan imej Melayu dalam konteks saya bakal menerajui sekumpulan wanita Melayu Muda. Pandangan Tun amat saya hargai.

salam TUN Sekeluarga,

BN seharusnya kembali bersatu menjadi kuat seperti dahulu. Rakyat masih lagi mengharapkan kepada parti BN terutama umno.UMNO melambangkan kekuatan orang melayu sejak dahulu lagi. Jangan kerana perebutan kuasa rakyat yang menjadi mangsa. Rakyat sayangkan BN. Hanya segelintir saja tidak menyokong. Dulu, orang tidak melihat siapa calon BN ketika pilihanraya.Yang penting ialah parti BN.Sebab itu sudah tentu calon BN pasti menang dalam pilihanraya. Kini rakyat sudah berubah kerana mereka menilai siapa calon itu.Bukan menilai atas kepartian. Sebab itulah disarankan supaya BN kembali bersatu. Kalau kita bersatu, kita menjadi kuat.Rakyat tidak suka melihat pertelingkahan dikalangan ahli politik kerana yang menjadi mangsanya rakyat. Rakyat bukan semuanya kaya raya. Kebanyakannya hidup sederhana dan miskin.Sepatutnya kita semakin langkah kehadapan membantu rakyat yang hidup

dalam kesusahan. Ini tidak berlaku. Apa yang berlaku membantu ahli politik meningkatkan kerjaya.

salam ramadhan

Semoga Malaysia kekal sejahtera.

Assalamualaikum wr wb,

Dear Tun Mahathir,

You are blind to any other alternatives to racialism simply because you benefit most from it ! If you are an average Chinese - then I think that you will curse racialism. Those who lose out will not support racialism !

Malaysia's racialism and the BN - benefits the Bumiputeras ONLY and some people would even say that its ONLY the UMNO-Putras (whom you helped create) that benefits from the system.

I cannot for the life of me accept a system which shoots itself in the foot.

Why should any race be given privileges based on history ? Why should someone who did not do well in the exams - be given higher priority than someone who did well - just because of your racialism ?

What I find irritating is your constant attacks on Singapore. Please go and look after your sinking boat first before you show to the world just how great Malaysia is. For your information - I do not believe that Malaysia is great at all - thanks to your racialism !

Best Regards

Dr Syed Alwi Ahmad

Tun

I cannot agree with your assessment on item 9. It appears that you are out of touch on the demands of voters today.

Do not be clouded by your perceived and continuous pursuit against your nemesis AAB that you can say something that is not reflective of the ground sentiments during the last PRU12 and as of now.

In fact there has been too much excesses by BN especially by UMNO that ordinary Malaysians began to teach BN/UMNO a lesson. Meaning, the power to be lies with the rakyat not anybody else. The rakyat has been made to suffer too much for the wasteful finances Malaysia had lost; either by way of illegal means or otherwise, full of ill-intentions to rape Malaysia of her virginity and sexuality.

A stop has to be put into this to further a clean & just administration of the many years to come. We do not want to see our next few generations suffer; just as the doing away of the teaching of Maths & Science in English.

Assalamualaikum ayahanda Tun. Saya pernah tinggal di kawasan setingan kira kira 20 tahun yg lalu, pada

saya kekuatan BN ketika itu dipengaruhi oleh faktor penduduk setinggan apa taknya UMNO dikawasan setinggan melayu bergitulah yg lainnya seperti MCA DAN MIC. Setiap kemudahan amat dijaga minta apa sajalah jalanraya, letrik dan air pasti kan didapati pada setiap pilihanraya. Pemimpin masyarakat ketika itu sangat mufakat, segala masalah diatasi dan tumbuh lah cawangan cawangan umno hampir disetiap kawasan. Tetapi bila kawasan setinggan itu akan dibangunkankan dengan pemindahan penduduk bermulalah agenda yg mengukar kacirkan keharmonian sesuatu kawasan. Akan ada pemimpin mengutamakan kepentingan sendiri semua nak hidup mewah lupa perjuangan semasa mula mula membangunkan setinggan, kawan jadi lawan yang patut dapat nama digugurkan, peruntukan yang dapat tidak diagihkan. Kisah benar ini berlaku di KG CHUBADAK, KG PUAH SEBERANG DAN KG TUN H S LEE DI KAWASAN SENTUL. PARLIMEN BATU. PEMBANGUNAN PESAT KAWASAN SETINGGAN JUGA ADA KESAN NYA PADA POLITIK SEMASA. KALAU KAWASAN SETINGGAN PUN SUDAH ADA PEMIMPIN YANG RAKUS APATAH LAGI PERINGKAT TETINGGI. Dalam hal ini yg salah adalah diri kita sendiri, kita lupa diri dibuai arus pembangunan. Saya percaya perkara yang sama juga berlaku dilain lain kawasan. PERCAYALAH UMNO, MCA, MIC TAK BERSALAH, YG BERSALAH IALAH ORANG YANG DIBERI AMANAH UNTUK MEMERINTAH. AGAKNYA BOLEH TAK AYAHANDA SENARAIKAN PEMIMPIN SEKARANG YANG BOLEH DI BERI AMANAH UNTUK MEMIMPIN. JANGAN SAMPAI PEMIMPIN DI HUKUM LAGI OLEH RAKYAT YANG BERSENJATAKAN SEBATANG PENSIL BERNILAI 20 SEN. Sekian dari anakanda yang membesar di setinggan.

Tun..

thank you for bringing up this topic..., as I remember vividly in the last general election, for the 1st time in my life, I was voting for opposition..., doesn't matter whether they're PAS or Keadilan or even DAP..

And I peek in the ballot box when I'm about to slip in my ballot paper..., to my surprise .. most of the opened ballot paper revealed - almost like my ballot, they're also voting for opposition..

and this is happening at constituent where BN/UMNO was strong traditionally!..

It's like a - WOW! I am not alone in this feeling?

Why? did I do that? I've been voting since 1995.. and I remember that my 1st vote is for Chinese BN candidate @ Selayang Baru.. (I think for Selayang/Gombak Parliamentary chair)

And I keep voting for BN - no matter what races BN fielded for my area.

You have also touched this subject before, during your ruling ERA - why? we, Malays can vote for non-Malay candidate from BN component party MCA or MIC ? But BN can't do the opposite? (i.e - fielding Malay candidate in a non-Malay majority area like Jinjang, Kajang, or any other area?

Why? i can't remember what is your answer that time when you brought up this topic.

I think it's more to do with our Malay value where we - Malay - tend to be more tolerant and forgiving citizen, always able to support the govt vision of developed nation with multi-racial component in it.

I wonder why other races can't think like us .. who have given a lot.. for the sake of unity and harmony.

Back to the topic of your snippet - I think the real reason why current BN govt have lost so much in this last GE - was simply - 'Rakyat' or normal citizen can't nor longer tolerate the in-ability of current govt in handling our nation various sensitive issue and also - widespread view of corrupt practice that the current govt have closed one eye.. and sometimes seems aggravating it.

we are in view that the weak leadership - no longer listen to the voices of people.. , and he continue to do so..

There's a discussion topic on this @ online community forum -  
Bincang.net/forum you can participate in the discussion there for more interactive mode. click on this link below will bring you direct to the topic.

Assalamualaikum YAB Tun. Syukur Alhamdulillah Tun masih sihat dan segar dan masih menegur dan membantu.

BN khusus dengan ikatan UMNO, MCA dan MIC boleh dianggap masih mampu memimpin negara ini merentasi berbagai cabaran. Dalam soal ini kepimpinannya perlu ditukar SEGERA. Darah muda yang sanggup menerima semangat sebelum merdeka wajar sangat di cari dan di serapkan ke dalam BN yang harus berani membuat persiapan kemungkinan wujudnya sistem dua parti di negara ini ( atau pun 3 parti ).Bagi membantu peralihan ini tunjuk ajar dari Tun masih diperlukan oleh BN bukan saja UMNO.

Pakatan adalah satu "perikatan" yg longgar dianggotai oleh misfits.Anwar jelas bergerak mengikut satu strategi dan rancangan yg di atur oleh tangan tangan di belakang tabir. Latar belakangnya sejak dari di Universiti dan dalam berbagai pertubuhan belia antarabangsa telah memperlihatkan "talentnya" menarik perhatian mereka yang berkepentingan menguasai kita. Dia begitu garang kerana dia banyak duit - dari mana, maka kesimpulannya dia mempunyai ramai bapa angkat dari luar.

Jika UMNO masih tidak dapat mengesan perubahan ini sekarang maka tandanya UMNO akan berkubur dan corak politik Malaysia akan berubah teruk.

Assalamualaikum Tun Dr, Mahathir Mohammad,

Perang pemikiran Tun vs Pak Lah amat jauh bandingannya. Tun memberi jalan keluar kepada setiap permasalahan. Dibalikannya Pak Lah masih terkial-kial dengan pencariannya. Nasihat Tun malah diabaikan saja. Masih berpegang pada pemikiran lama tanpa berdasarkan landasan ilmiah pemimpin terpelajar. Antara Tun dengan Pak Lah seperti langit dan bumi. Amat jauh perbandingannya daripada segala aspek. Tun insan pemikir tetapi Pak Lah harus dibanggai dengan sikap " tak apa lah ". Ia mengingatkan kita pada almahrum TAR.

Semakin lama rakyat makin menjerit dengan lantang. Namun yang dijawab mudah oleh Pak Lah - kita akan keluar dari kemelut politik dan ekonomi yang semakin parah (tanpa apa-apa dateline and cara penyelesaian). Peralihan kuasa adalah satu retorik politik yang tidak ada noktah malah ingin Pak Lah perlahankan, entah sampai bila.

Sekiranya ada pilihanraya kecil dalam masa terdekat saya sangat inginkan supaya Tun menjadi calon. Ramai yang inginkan Tun bersuara di dalam Parlimen. Jika ada undi percaya saya amat yakin Tun pasti jauh ke depan. Wassalam dan semoga Tun dipanjangkan umur. T. kasih.

Dear Tun,

My conclusion is simple:

i)PRU1999 - The Malays who sympathise with Anwar turned their back to BN, but most of the non Malays (especially the Chinese) supported BN since they wish for continuous economic and political stability.

ii)PRU2004 - Most Malaysians gave a fair chance to Pak Lah to show his leadership although we're sad to see you leave.

iii)PRU2008 - The truth prevailed - We need to do something urgently to ensure our country doesn't fall any further.

Selamat Berbuka.

"The kampung folks and the ordinary Chinese by and large are not too concerned about human rights or more liberal Government. Even the ISA did not bother them as shown by their strong backing for the Government party, before."

Merujuk petikan di atas, pentadbiran negara hari ini adalah seperti amalan "Assabiyah" di Zaman Jahilliah. Semenjak DEB dilaksanakan, Kerajaan asyik melindungi kaum sendiri dan orang sendiri, meniadakan hak mereka yang cerdik pandai untuk meneruskan pendidikan, meniadakan hak mereka yang miskin untuk mendapatkan biasiswa dan subsidi, meniadakan hak mereka yang berwibawa mendapat kenaikan pangkat, meniadakan hak syarikat2 bersaing secara sihat, meniadakan hak rakyat Malaysia khususnya bukan Bumi (ikut istilah Perlembagaan) untuk bersaing secara adil dengan rakan-rakan yang lain. Ketidakadilan ini akhirnya memakan bangsa Melayu sendiri, kerana sudah menjadi tabiat kerajaan untuk meniadakan orang lain, lebih2 lagi ke atas mereka yang digelar pendatang. Padahal pendatang inilah juga menentang penjenayah, ada yang mati dan cacat tetapi bukan mati sebagai perwira tetapi mati sebagai pendatang! Adakah benar kaum Cina dan India boleh terus dipinggirkan? Cina dulu mungkin lebih kaya, India dulu mungkin bodoh, tapi hari ini Cina dan India sudah sedar bahawa kita semua sama, kita semua bangsa Malaysia, kita semua perlu dilayan sama rata. Terima kasih.

You have served your time as the CEO of the country, 22 years and it was a great achievement. The projects implemented during your time was well thought and you have this great vision for success. The only setback before you left the Cabinet was to unwind some of the nitty gritty policies made during your time which can be detrimental through misuse of it.

Given the kind of cabinet members in your team, you have managed them very effectively. Although it may sound dictatorial, but you have no choice and as an effective leader, you have to make that choice and decision.

Well, it is time that you give it a thought AND PEN YOUR constructive messages in this blog to serve the Rakyat and the Government if you want to rather than to re-join UMNO. We do not live forever and enjoy your retirement from active politics.

Live the life as a true Statesman, with pride and honour.

Im very sure pak lah will have to step down some time this year.. If he do not withdraw from contesting for UMNO President, he would be challenged and defeated.. As a face saving measure, I suspect he, at the end of the day, wont contest for UMNO presidency.. Then he will have all the time to sleep... thanks

Salam Tun,

BN lost and still losing. That is fact. There are many reasons why people vote against BN e.g. corruption, inequalities, racism, cronyism, inflation, "plutocrats" and many more. Wait...does all these problems exist in other country? Of course they do. In fact all these problems happen everywhere in the world. That is why we need a strong leader to alleviate or eliminate (if possible) all these issues. The main reason BN lost is simply due to POOR LEADERSHIP. Thanks to AAB.

Malaysia was lucky for the past 46 years (1957-2003) because we have great leaders. But now...things have changed. Good leaders in BN are no where to be seen or heard. Some are good like Muhyiddin but not good enough to change anything. Tun, you are great leader, but your era was long gone. BN are doom to fail. Proof me wrong.

If BN happen to survive through this 'Dark Age', please fix a date (public holiday)to remind Malaysian not to repeat the same mistake. I love holiday.

With raw fillets + few slices of ginger, carrots, chili powder & alittle bit of vinegar, dat will be a simple dish while having porridge. Most of the chinese in d 50's-60's love it so much. D malay sure cant even swallow it. Yet many malay at d present still dun like it at all.... as for d chinese....some of them still love d simple dish. Honestly, malay & indian will neva eat dat as daily breakfast. Malaysian can neva be d same.

During 2004 Malaysian vote for BN simply b'coz TUN is out of d government, & Malaysian live with a new dream. AAB has bcom the sole hero in bringin d new Malaysian dream- transparent crystal. There will be No more corrupted moral and d country is moving to a new era of Hadhari. I was among the supporter for dat dream, coz....nobody will ever denied d concept of religion brought and being used as a fundamental to lesser d extant of corruption.

But after few years of dreamin, the public has waken and found dat nuctin being done accordingly.Everthing went wrong & soon the Malaysian found dat during Tun period, Malaysian enjoyin more wealthiness and affluent compared to wat the government has to offer now.

Parti ADIL, came jus in time & now had bcom the new savior for d depressed rakyat. For a moment, PKR promising new dream to live on & dat have blind folded many Malaysian. No matter how ideal d promises, its only d matter of time b4 the blind folded Malaysian turn againt PKR. Assuming d malay and indian want to try the above porridge recipe, i wonder how long can the malay and indian can tahan.

Salam sejahtera buat Tun sekeluarga yang dikasihi serta semua yang berjuang bersama Tun.

Bangsa Melayu perlu kepada satu kuasa pendesak tulin dikalangan bangsa Melayu itu sendiri yang mampu 'menguruskan' atau 'membasmi' parasit-parasit politik tidak kira parti mana yang mereka ini wakili samada UMNO,PAS,PKR malah DAP,MCA,MIC dan sebagainya.Selagi perkara ini tidak wujud, maka lupakanlah niat murni untuk melihat negara ini sihat sejahtera.

22 tahun dibawah pemerintahan Tun akan kekal abadi sebagai tempoh paling gemilang yang Malaysia pernah rasai.Saya berkata demikian kerana Abdullah Ahmad Badawi telah berjaya membuka seluas-luasnya pintu ke arah kegelapan masa depan negara.Sesiapa sahaja yang menjadi PM selepas

ini tidak akan berjaya untuk mengawal keadaan memandangkan pemimpin-pemimpin parasit ini dibiarkan bermaharajalela. DAP adalah parti parasit terulung di negara ini yang amat menyakitkan hati bangsa Melayu. Semua parti politik cina sebenarnya senada dengan DAP, ini amat jelas kerana inilah perjuangan sebenar mereka. Bukan niat menghasut, tetapi ini adalah hakikatnya. Media massa memberi ruang sebeb-bebasnya kepada parasit-parasit ini. Stesen TV kerajaan turut memberi 'airtime' kepada mereka ini. Kenapa Pak Lah benarkan ini berlaku? Saya perasan sebelum pilihanraya ke 12 lagi perkara ini berleluasa, kononnya memberi kebebasan. Rakyat sedar perkara ini. Pak Lah sebenarnya sudah merosakkan Rukun Negara itu sendiri, terutamanya Kedaulatan Undang-Undang. Polis diperkecilkan, bidang kehakiman semasa era Tun diberikan tafsiran baru sebagai TIDAK SAH. Kesannya hari ini Hindraf juga berani mendakwa penahanan mereka adalah tidak sah. DAP adalah paling kebal hari ini, sebarang tindakan ke atas mereka adalah tidak sah. Sesuatu itu hanya menjadi sah apabila mereka dibiarkan bebas mengatakan apa saja.

Akta Hubungan Kaum sedang diperkatakan. Akta ini akan gagal selagi wujud DAP dan Hindraf, selagi wujud sekolah cina dan tamil. Bagi saya najis dadah bukan lagi menjadi musuh utama negara, kerana seribu orang penagih tidak mampu memporak-perandakan negara. Kini MUSUH UTAMA NEGARA adalah intelektual parasit yang kini menghuni parlimen kita.

Tun yang dihormati,

1. Kemenagan besar BN 2004 adalah disebabkan rakyat terlalu inginkan perubahan pucuk pimpinan.
2. Kemenangan besar in juga boleh dianggap sebagai undi protes terhadap tun yang di anggap terlalu lama di tampuk pemerintahan. Paklah merupakan pilihan yang tepat pada masa itu disebabkan imej yg yang bersih, islamik dan sedarhana.
3. Namun 4 tahun jelas mendedahkan kelemahan2 yang ketara pada Paklah. Serangan yang berterusan daripada Tun sendiri terhadap kepimpinan paklah telah menyebabkan melayu konservatif kanan hilang keyakinan pada UMNO yang mereka sokong pada 2004. Rakyat mula membuat perbandingan diantara Tun dan Paklah. Pastilah zaman tun lebih menarik.
4. Undi 2008, rakyat ingin sekali lagi menukar pucuk pimpinan. Sekiranya Paklah tidak bertanding BN pasti meneruskan tradisi kemenangan. Tetapi Paklah masih disitu dan rakyat mula melihat pemimpin diluar BN.
5. Pembebasan Anwar menyebabkan rakyat menganggap segala tuduhan padanya adalah palsu dan PKR mendapat keuntungan daripadanya.
6. Anwar sendiri terperanjat dengan penolakan rakyat terhadap BN dan 'underestimate' sokongan terhadapnya.
7. Pilihanraya yang akan datang pasti akan berpihak kepada Anwar sekiranya tidak kelihatan adanya pemimpin UMNO yang 'kuat'. Tetapi Anwar sudah terkenal dengan sifat tidak sabarnya untuk mendapatkan kuasa. Itu lah sebab dia lakukan apa yang dia lakukan sekarang.
8. Serangan Anwar terhadap Najib adalah 'consistance' bagi merosakkan imej Najib dimata rakyat. Tapi memenangi pilihanraya akan datang adalah plan B Anwar.
9. Anwar lebih suka seronok sekiranya dapat menumbangkan BN sebelum pilihanraya akan datang. Selain mengelakkan risiko dirinya tersabit dengan tuduhan liwat oleh mahkamah.
10. Saya yakin kemasukan Tun dlm UMNO pasti dapat menarik semula sokongan melayu terhadap UMNO seterusnya rakyat terhadap BN.
11. Tetapi pasti paklah akan cuba meredakan isu kemasukan tun kedalam BN. Sekurang-kurangnya sehingga 2010.
12. Pendapat saya, selain Tun perlu berusaha bersungguh melobi kemasukan semula kedalam UMNO, Dato' Mukriz perlu lebih matang untuk tidak kelihatan hanya sebagai pemimpin 'budak-budak' UMNO.

You said "But we are Asians and in Malaysia our basic racial differences are extreme. All we can do to avoid confrontation between the races is to allow them to form race based parties and to have them cooperate with each other. This was the BN policy and practise. And it worked for almost half a century."

That is what you would like to believe as that justifies for you the continuation of the race based politics.

I can only feel sorry for you as obviously you have not allowed yourself the opportunity to get really close and to see people of other races and/or religions as fellow human beings with equal claim to this God created earth. That is assuming you do believe in God.

No sir, your kind of thinking belongs to the dustbins of the dinosaurs. You continuing to believe in that thinking qualifies you to the dustbins of the dinosaurs as well.

Since you have shown yourself to not able to understand the difference between a human being and one who rather confine the description of himself as a subsector of this great bigger whole, you are not qualified to indulge in this discourse.

You sir are sick with the thinking that you propagate here.  
By cakkuncak on September 20, 2008 7:05 PM

YAB Tun,

I agree with you on the point that some people tend to analyze the whole situation based on Western thinking which is not applicable in our situation in Malaysia.

You are right that the majority of the people do not have confidence in DS Abdullah. People are especially disgusted with his ignorance and denials. The fact that his son and son-in-law is in the picture as well have only make it worse.

DS Abdullah actually betrayed the trust given to him by you and the people of Malaysia. When you handed the leadership of the country to him, people did not expect him to be so weak, undecided and biased to his family interest.

Now, he must be made to go - since he is adamant that he is right even though the message given is as clear as daylight.

Replacing him may not solve all the problems that he have caused so far, but the country is heading for difficult times and we do not need a leader who is incapable and worse he is only concerned about his family's interest.

He should be replaced so that the country will have a chance to correct its course.  
By Daimag on September 20, 2008 7:25 PM

BN concept is very much alive as long as we never wish to lose our colors. Having race-base school explain everything. So I say you don't crying out loud for Malaysian Malaysia if you still support for these schools.  
By gooner86 on September 20, 2008 7:40 PM

1. Tun, you are right that people want a change in the leadership. However, ordinary people like us also equally want a change in governance, which is to see the fall of BN.

2. I agree with you wholeheartedly that the leaders are leading us in the wrong direction, yet not just the leaders are responsible, but the governance of the government as a whole, which is rife with corruption, nepotism and cronyism.

3. Every single bad thing that you mentioned about the leadership can also be said about the governing party as a whole.

4. A change in the leadership would make no difference whatsoever as his successor is no more different than he is, as he comes from the same party which promotes a system polluted by cronyism, corruption and racial hatred.

5. The only way to direct Malaysia on the right track without a change in the governing party is to reform the party and rid it of mismanagement and corruption. However, that is a colossal task and almost impossible to be done as BN is rotten top down to the core.

6. A new government might be inexperienced and raw, yet if it practices good values, promotes racial harmony and does not waste its time on useless political in-fighting, it is a choice we Malaysians are willing to make, no matter how experienced BN is compared to it.

Salam Tun and family,

The truth is the majority of the Malays have lost confidence, faith and trust in UMNO. UMNO is only for the Malays who want to be rich and getting richer. UMNO now is not the same as UMNO during Tunku, Tun Razak and Tun Hussein Onn era. UMNO is irrelevant anymore!

Thank you

To Saudara Khairi-

Kalau takut sangat nak bincang perkara negara sebab takut terjerumus dalam penipuan ataupun fitnah, tak payah la baca blog Tun lagi, apatah lagi bagi komen.

Orang nak menyelamatkan negara die fikir dosa/pahala. Kalau nak berdakwah tu pergi la ke forum forum Islam ke ataupun majlis majlis fikir/debat. Negara tengah bermasalah kenalah dibincangkan, ni plak nak "advocate" senyap macam tugu. Ape kejadahnya.

Memanglah banyak cakap mungkin banyak silap. Tapi kalau senyap cam dungu je ape faedahnya? Macam tu ke nak didik anak anak nanti? Senyap je. Sunyi sepi aku sendiri.

My 62 years old Chinese friend told me that his family of five had all voted for the oppositions parties during the March 8 general election. Two of them whose registered address was in Jalan Klang Lama, KL. Thus they voted for the DAP candidate -- Teresa Kok. When I asked them why and they told me that they have been a strong supporter of DAP for years due to DAP's consistent political struggle for Malaysian Malaysia concept.

My friend's three other children, aged ranging from 22 to 32, voted for PAS candidates of Shah Alam and Batu Tiga (Selangor). When I asked them why they had voted for PAS and not BN candidates, their replies were the same -- angry and fed up with BN's dirty politics and BN's double standards in various

policies.

I am sure there are many such Malaysian voters out there waiting for the next general election to come -- just want to teach BN a lesson.

Assalamualaikum wbt..

Kepada Tun,pada pendapat saya kejatuhan BN adalah kerana perbezaan cara mentadbir.Pada zaman Tun,saya percaya ramai rakyat berada dalam keadaan cukup selesa.Peluang pekerjaan yang banyak,peluang perniagaan yang banyak dan kos sara hidup yang sederhana.Poliik yang stabil,pelaburan yang banyak di dalam negara.Malah boleh dikatakan pencairan wang berlaku dengan baik sekali.

Saya masih ingat bagaimana ayah saya menguruskan perniagaan pada zaman kemeseletan ekonomi tahun 1998.Betul pada ketika itu ekonomi dunia dalam keadaan yang teruk.Tetapi Alhamdulillah pada zaman itu juga saya melihat ramai peniaga masih stabil dan masih banyak peluang pekerjaan yang ada.Tetapi apabila kita melihat keadaan negara jiran tatkala itu,boleh dikatakan ramai yang terpaksa "melarikan" diri ke Malaysia untuk cari makan.

Tun telah mentadbir selama lebih 20 tahun,dan begitulah lamanya Malaysia telah membangun dengan pesat.Begitu jugalah lamanya rakyat Malaysia telah hidup dengan begitu selesa.Saya teringat pada zaman Tun mentadbir,ramai rakyat yang tidak mempunyai kelulusan mampu memiliki kenderaan,mampu memiliki rumah kos sederhana.

Tetapi zaman telah berubah,Tun telah berundur dari mentadbir kerajaan.Sebagaimana yang ramai harapkan,"succesor" Tun mestilah mentadbir lebih baik atau sama (sistem pentadbiran) dengan Tun,kerana telah menjadi kebiasaan bagi rakyat Malaysia hidup dengan zaman "mewah" ketika Tun mentadbir.Namun apa yang diharapkan hancur musnah,ekonomi negara menjadi semakin meleset dan semakin ramai rakyat menderita.

Dasar kerajaan juga berubah,dari menjadi sebuah negara yang patutnya negara industri,seolah mahu berundur kembali menjadi negara pertanian.Benar pertanian mampu menguntungkan,tetapi manakah yang lebih menguntungkan rakyat,perindustrian atau pertanian.Dalam keadaan negara yang penduduknya bertambah.Saya percaya lebih banyak peluang pekerjaan yang diperlukan.Berbanding dengan pertanian,perindustrian memerlukan lebih pekerja.

Saya juga melihat DSAAB cuba mencipta identitinya sendiri dan tidak meneruskan apa yang Tun telah tinggalkan.Inilah sebabnya bagi saya beliau gagal mentadbir dengan baik.Keputusan beliau menongkah arus dengan apa yang Tun visikan.Itu sahaja yang mampu saya coretkan.

P/s Semoga Tun dalam keadaan sihat sejahtera.

Salam Ayahanda Tun, I think Datuk Seri Najib and his upcoming team ought to fast track the transition plans all out under his capacity as Deputy President of UMNO. No one hold the hands of time, and no one will be spared by its sweeping hands. Concerns are fast turning to terror, and resentments are fast scorching into detestation as plenty idling still saddles UMNO even now. And in the midst of all this, we could only hear Khairy Jamalludin talking about his dim imaginings into Pemuda UMNO's chain of command. They should bundle silently and go out kindly and quietly into the night. That way, may they be spared some compassion in the passage of time.

Hi Tun,

I am not sure the real intention for the voters to vote for Pakatan Rakyat. But, one thing I am sure is that Pakatan Rakyat have equal power among the three parties. Not even one party can leave Pakatan Rakyat if they want to remain strong to challenge BN. But, this is a different story for BN. In BN Umno is controlling every movement and every decision of BN. In my opinion, 3 party in Pakatan Rakyat actually have even power to fight for the rights for different races. This should be a good concept for the rakyat! However, I still share the same experience with Tun believing that BN is still the best political party in BN. Tun, although I am a chinese, but I still believe that there is no one can replace you in leading Malaysia to a better future! Not Anwar, not Najib and certainly not current PM, AAB!!!

1. Percaturan dan perubahan politik di semenanjung malaysia sentiasa perhatian dan perbincangan yang serius di sarawak.
2. Perjuangan politik dan suasna politik sarawak akan berubah sekelip mata, rakyat sarawak terutama Dayak (Iban, kayan, orang ulu)sengsara dibawah pemerintahan BN (pehen sri TM).
3. Isu ketidakadilan kerajaan BN Sarawak begitu memeritkan terutama sekali rakyat luar bandar terutama sekali isu-isu tanah milik adat (Native customary right) dibangunkan oleh agensi kerajaan LCDA menceroboh hak-hak rakyat sevara tidak adil.
4. PM sekarang memanglah tidak berkemampuan mentadbirkan Malaysia dan Sarawak kearah Negara Maju pada tahun 2020.
5. Ketidakadilan pembahagian ekonomi di sarawak begitu serius, begitu isu perkauman di Sarawak yang menyaksikan ekonomi dan politik sarawak dirampas oleh TM Sarawak dan keturunan, kroni-kroninya (15% drp Rakyat Sarawak).
6. Tetapi Tun, saya percaya Tuhan Maha Adil, hak-hak rakyat di tindas atau diambil oleh mereka akan kembali mereka yang berhak. percayalah .....

How far can Malaysia go? I always want to ask. Is it still going for Vision 2020? Unlike during your premiership, current leadership has none of ground-breaking inventions, discovery or development that could bring us on the right track and on the fast track.

Malaysian minds are still on 'i want him to be the next PM', 'i believe in him, totally' - whereby unlike in the western countries, yes they obey, yes they loyal - but those are only up to certain limit and it cannot go beyond the people's interest.

Interesting to note that politic climate in Malaysia is always warm to meet the tropical state condition, and it has never taste the four climates - thus no seasonal feels and touches. It maybe good, but at one time, it bored the people.

Not against the BN nor supporting PR, but Malaysia has to finds the real interest aside to politic. Indeed politic determine where we heading, but politic alone without understanding the economy, the environment, people's interest would be meaningless and the power vested into those kind of power will only pop as a bubble, and it is only as a matter of time.

Malaysia: Eid Mubarak and smile, sorry no seasonal climate to wish under the year-long warm tropical climate. You may want to try it, it is no wrong and who knows you may like it!

Assalamualaikum Tun

Saya bersetuju dengan pendapat Tun bahawa 'kemenangan' Pakatan Rakyat dalam PRU-12 adalah kerana undi protes rakyat terhadap kepimpinan BN dan kepincangan mereka dalam menguruskan

ekonomi negara. Namun begitu, sebagai salah seorang pengundi muda (berusia bawah 25 tahun) di sini ada beberapa pendapat yang ingin saya kongsi hasil perbincangan dengan rakan-rakan sebaya dengan saya khususnya mereka yang pernah mendapat biasiswa kerajaan Persekutuan dan GLC-GLC semasa melanjutkan pengajian mereka di peringkat ijazah dahulu

1) Kebanyakan mereka menolak idea Dasar Ekonomi Baru (DEB) kerana mereka merasakan kaum Bumiputera telah cukup kuat dan hebat untuk bersaing dengan bangsa asing, oleh itu tidak perlu undi BN kerana BN mengamalkan konsep DEB, DEB dianggap 'racist'. Mereka menganggap mereka mendapat biasiswa untuk ke luar negara atas kebolehan dan kehebatan diri mereka sendiri, bukan atas dasar kerajaan melaksanakan DEB

2) Mereka telah menerima idea Barat, menolak idea politik perkauman, mahukan sistem politik yang memberikan hak sama rata kepada semua.

3) Mereka malu untuk mengaku diri mereka Melayu dan Bumiputera, kerana bagi mereka kerajaan BN menyebabkan Melayu dan Bumiputera mundur kerana perlu dibantu melalui DEB

4) Mereka mahukan parti politik yang 'gagah', menganjurkan demonstrasi jalanan, mengadakan ceramah berapi-api kerana bagi mereka taktik kerajaan BN mendekati rakyat dan pengundi melalui kaedah berhemah sudah ketinggalan zaman dan tidak cukup 'cool'.

5) Mereka mempercayai sepenuhnya dakwah yang dibawa oleh pihak pembangkang kerana bagi mereka segala maklumat yang disampaikan kerajaan BN adalah palsu, walaupun mereka tidak mengkaji dan mengamati informasi yang diterima daripada pihak pembangkang secara rasional

Berdasarkan perkara-perkara ini, saya fikir ini adalah antara faktor penyumbang kepada tumbanganya kerajaan BN di beberapa negeri yang maju di Malaysia

By malim on September 20, 2008 8:42 PM

A'kum Tun...

Memang benar sekiranya rakyat ingin menjatuhkan kerajaan maka rakyat akan mengundi untuk parti yang ketiga. Namun saya yakin bahawa rakyat bukan saja berkeinginan demikian, namun rakyat juga inginkan adanya perubahan demi kebajikan mereka yang lebih terjamin. Kalau kita melihat masyarakat di negara lain misalnya di Indonesia dan Thailand, kebanyakan rakyat di sana bukan memilih suatu pemimpin baru kerana kemampuan yang terdapat pada pemimpin baru tersebut, malah kebanyakan pemimpin tersebut belum pernah pun maju di arena politik perdana. Namun rakyat memilih mereka kerana :

1. Ingin kerajaan baru yang membawa harapan baru.

2. Ingin bertaruh apa kemungkinan pemimpin yang baru tersebut dapat dapat membawa perubahan yang lebih baik dari pemimpin yang sebelumnya sedangkan pemimpin yang sebelumnya tidak terlalu jelas kekurangannya.

Maka dapat disimpulkan bahawa pada PRU yang lalu, rakyat bukan sahaja menolak kerajaan, namun rakyat juga inginkan adanya perubahan dan kemajuan yang sudah entah hilang ke mana...

Selamat berpuasa Tun...

Assalamualaikum Tun & WARGA Chedet.com....

Saya bersetuju dgn kebanyakan pendapat di sini & rasanya kebanyakan orang tahu kekalahan BN adalah disebabkan undi protes bukan kerana BN tidak relevan lg pada masa sekarang.

Saya sendiri pada PRU yang lepas membuat undi protes memandangkan BN meletakkan calon yg kurang berkelayakan & faktor dalaman parti sendiri.

Tp skali2 kami tidak akan menyokong pakatan pembangkang yang rapuh & tidak mungkin akan berjaya merealisasikan harapan rakyat Malaysia.

Kepimpinan tertinggi BN sekarang juga makin teruk & harus dibuang sebelum barah merebak, tetapi bagaimana???

Harap Tun boleh membantu sebelum keadaan menjadi parah...

Kami rakyat Malaysia akan sentiasa berdoa negara selamat & kedaulatan agama Islam & Melayu berkekalan. Isyaallah..

TUN,

I am compelled to make a comment after reading ur snippets. I agree personally with what you have said. To me there is nothing wrong with BN concept or governance, but the people who is using BN to achieve personal interest. Before this, the BN leaders fought for the people's rights, but now I personally believe they are fighting for their personal interest. I now see lack of unity among BN leaders because they put their personal interest first without thinking about the people who voted for them. I think they haven't learned from their lost in the past election since they keep on making mistakes and chaos. Maybe they should read the novel 'Animal Farm' by George Orwell. They can learn a lot from it.

DSAI had all the years in jail thinking and planning what he would do and what he should do. And that's all he did.

Our problem is not the current PM. He is DONE.

I am not saying if DSAI is bad or good for the future of our country. Tun has always been an excellent judge of character. I think we should now be very cautious of DSAI's many plans. If it is for his own agenda - it will be trouble!

And what is this about Kairy going for the top post in UMNO youth? Can he be more serious? It must be a joke and I would be very insulted just being budak Melayu. Good Lord! corruption is at it's worst in UMNO, maybe even the whole political system!

By samuraimelayu on September 20, 2008 9:11 PM

SALAM AYAHANDA RAKYAT TUN,

IZINKAN,

14. We cannot fault the BN concept and governance.

'samuraimelayu' has consistently said so. Once in Kijal while having durians along the roadside in an area apparently PAS stronghold. There was a group of men at the durian 'hut' and were condemning the BN government for unethical governance and corrupt paractices. The 'superlatives' describing Ayahanda and Daim and UMNO/BN were of the 'highest' order. We cud see 'blood' in the eyes.

However, we took them to task. We said "This morning I was in KL and wanted to taste the infamous 'kijal' durians and here I am enjoying the fruit. Do you think I cud have reached Kijal within hours if not for the 'highways' built by the BN government?. I believed that now you all cud make \$1,000-\$3,000 during

the durian season as compared to \$200-\$300 before the gov't built the 'highways'. They nodded their heads and listened attentively to this half baked 'penceramah politik'. They began to realise their standings.

We added, BN systems were good and proven effective to nation building but we agreed that there were political leaders who abused them, including those in the PAS government!

Our brother who is an UMNO supporter was worried of the situation we were in coz there had been incidents where UMNO or pro-gov't 'campaigners' were chased out of their areas. There was this deep feeling of hatred towards pro-government(BN)people in that areas.

Perhaps, Allah swt. had given us the 'protection' from their 'parangs'.

Wallahu..

Alfatihah, Amin

p/s. Seems like ages waiting for some our our comments to be pulished. we feel dejected but we respect the house of Chedet.com.

SALAM SEMUA...

MEMANG KEPERCAYAAN RAKYAT KEPADA PEMERINTAH AKAN KUKUH APABILA EKONOMI RAKYAT ITU SENDIRI KUKUH YANG MANA KUASA BELI MEREKA SEMAKIN BAIK DARI TAHUN KE TAHUN. TAPI MALANGNYA KEMAMPUAN RAKYAT UNTUK MEMBELI DAN BERBELANJA SEMAKIN MENURUN INILAH YANG MENYEBABKAN RAKYAT HILANG KEPERCAYAAN. KINI RAKYAT MERASAKAN KALAU DI BAWAH BN MEREKA MASIH MUNDUR SELEPAS 50 TAHUN BN MEMERINTAH. APALAH SALAHNYA MERAKA CUBA PEMIMPIN DAN KERAJAAN BARU YANG MEMERINTAH.

RAMAI PEMIMPIN BN MENGATAKAN BAHAWA MEMILIH KERAJAAN YANG MEMERINTAH BUKAN BOLEH DIMAIN-MAIN. NAMUN JIKA KITA LIHAT REKOD PEMIMPIN BN SENDIRI RAMAI YANG MEMPERMAINKAN PERASAAN RAKYAT. MISALNYA TUN SENDIRI YANG TELAH MENCUBA-CUBA PAKLAH UNTUK MEMERINTAH NAMUN AKHIRNYA LEMAH. ITU PILIHAN PEMIMPIN YANG KITA ANGGAH SANGAT HEBAT DAN NEGARAWAN TAPI BUAT KESILAPAN JUGA. DI SINI KITA BOLEH BERFIKIR TIDAK SEMESTI PILIHAN ATAU APA YANG DIKATAKAN OLEH PEMIMPIN ITU BETUL. JADI APA SALAHNYA PILIHAN RAKYAT JIKA MEREKA BERALIH ARAH KEPADA PEMBANGKANG. RAKYAT KINI BEGITU TERDESAK SEHINGGA SEGALA KEPERLUAN HARIAN MEREKA TERPAKSA IKAT PERUT. MALAH PENIAGAAN MEREKA SEMAKIN TERHIMPIT DENGAN SEKATAN OLEH PIHAK KERAJAAN SENDIRI. LEBIH BAIK MEMILIH KERAJAAN BARU DARIPADA TERUS KEKAL DENGAN KERAJAAN SEDIA ADA YANG SUDAH JELAS MEMBIARKAN RAKYAT TERDESAK DAN TERTEKAN. SEKIRANYA KERAJAAN BARU TIDAK SEPERTI YANG DIIMPIKAN NAMUN IANYA TIDAK RUGI KERANA KERAJAAN SEDIA ADA PUN JELAS TELAH MENGHIMPIT RAKYAT DENGAN BEBAN KENAIKAN HARGA BARANG.

Dear TUN & Family

I am agree with you on item no.8. Everybody, even in coffee shop also know about this especially on KJ special power given by his F-I-L (AAB). We don't know if AAB really realize this because he is reading only the spined doctored newspaper.

On the cancellation of the bridge to Singapore, I think that is the worst decision made by AAB to the shipping industry in Malaysia. If constructed, most of the big and biggest ship should use port of Johor instead of go to longer journey to Singapore. I think, more than half local & international shipping company should have use this passage by now.

I read The Daily Express (sabah) yesterday mentioning Tun statement that some of the UMNO top leadership don't really happy with Tun intention to rejoin UMNO. I think its true, since AAB said this will discussed by MT (majlis tertinggi) but on their MT meeting recently , agenda of TUN not been included at all. I think they do this for fear of being attacked by TUN.

Selamat berpuasa to Tun and family, TQ

2004 saya mengundi BN bukan kerana PakLah, tetapi kerana menghargai perjuangan BN selama ini, dan juga TUN dan pemimpin2 terdahulu yg telah terbukti hasil kejayaannya. Dengan harapan perjuangan itu dapat diteruskan. Memang awal lagi saya kurang yakin dengan PakLah, tapi TUN yang pilih, tentu tun lebih arif. Kalau betul Tun janji sepenggal sahaja, itu memang tepat. Yang selebihnya memang PakLah yang lupa diri dan membuka pekung didada.

2008 saya mengundi BN dalam keadaan serba salah. Cuma saya seorang dikalangan kawan2 sekerja yang masih menaruh harapan pada BN. Dengan hati yang berat saya memangkah BN dengan harapan BN boleh di perbetulkan dari dalam. Saat ini saya tak nampak ada nya tanda2 perubahan kearah itu, masing2 pemimpin BN jaga periuk nasi sendiri

Kini kepercayaan saya semakin terhakis....banyak perkara yang tidak menyenangkan telah terbongkar...hanya sedikit berjuang untuk rakyat & negara. Yang lain nya untuk kepentingan peribadi.

saya sedih jika UMNO yang jadi tulang belakang BN akan berkubur.... mungkin kerana turun nya 'bala' kerana pemimpin yang tidak amanah. " Bersih, Cekap, Amanah " pembangkang dah tukar " Adil, Bersih & Amanah ". tak nampak pun pembaharuan yang paklah bawa, melainkan menumpang kegemilangan TUN

tun, i beg to differ this time. We can never do away race politics, the world tried but have not succeeded anyway. Race and religion has a potent mixture and any attempt to seperate these two would be met with deadly consequences. So best is to not talk about it. But with regards to those UMNOputras.....i think is not like these people just suddenly appeared out of nowhere. I believe they grew up to be one...it is over the years of spoiling and spoon feeding...they say a haughty spirit goes before a fall...how true.

I hope the avenue for repentance is there.....the saga continues.

UMNO mula berpecah selepas pemecatan Anwar, kerna pemecatan yang dibuat sedemikian rupa...Dr lebih mengetahui

Ia memberi kesan dalam PRU 99 apabila ramai ahli UMNO beri undi protes kepada parti lain

Apabila Dr letak jawatan sebagai PM penyokong Anwar yang protes dalam tahun 99 kembali mengundi UMNO. Kemenangan BN dalam tahun 2004 bukan lah disebabkan kekuatan Pak Lah tetapi kekuatan penyokong Anwar yang bergumbira kerna Dr berundur ketika itu.

Assalamualaikum Tun sekeluarga:  
Pada saya blog tun adala tempat utk rakyat menghantar message kepada Pak Lah.

Dia dijelmakan oleh TUN. dan dia pulak menjelmakan KHAIRY.dikoreknya dSAI dari dinding.Dltimang NAJIB.

Endup all dah messed up.Semua angkara saper: KJ?ANuar?Najib?Pak Lah?

Rakyat dah tersalah pilih dan letak kepercayaan pada UMNO/BN.  
Macamana yg TUNpernah kata , bukan PKR yg MENANG, UMNO yg KALAH.

Ada orang disaat ini bukan laa PILIHAN tapi berada di permukaan peluang yg tepat utk menonjolkan diri.Bukan bagus, tapi berada di KEADAAN dan MASA yg sesuai.

So apa lagi yg rakyat bole buat..KOMEN..kena CANTAS/SPIN oleh Khalimullah,  
DEMOTRASI...ISA...Kuar TV..ISA...so whatelse.  
Rite now..u are the one yg bole BACA dan kemukakan apa yg rakyat TULIS dan inginkan.

Saper je yg TULIS N TYPE>..kena SPIN..for u ..there's a room of THAT..i believe...SO what i want...  
please...RELAY it SAY it..lets the nations know..let my MUM n DAD yg tak tahu pakai PC tahu..bukan setakat BLOG..please..this is better..rather than keep this to certain community..cos ..YOUR PEOPLE is not only in INTERNET n KL>.spread it out

As for me: i want to challenge AB n Khairy to step down..but where should i go..just in here? think not enough...lets goen by gone..  
be new LEAF for our people..so..lead me to the place where i should say and POINT ..no matter all the MP or Wakil rakyat..

i just want our country to be good as usual, harmony as usual.Dont ever think we are effected by this 5 Clown (AB,DSAI,KJ,Najib,Muhiyydin)...Lead me or maybe people from this blog..where is the rite place

for us to say: Pak Lah..Step DOWN..not ROUND ABOUT>..

Tq TUN..if its sound harsh ,,wanna my detail as Malaysian citizen, i dare to stand before u and asking this too. TQ

Selamat Malam Tun ,

Your article Loss in Confidence especially at para 4 clearly shows that you are one good politician who knows the true art of politic.

Hopefully , Najib knows what he is doing. We are all Malaysian and we need each other to do battle.

No doubt Malay are the majority but not all Malays support UMNO , and I guess this was not taken into consideration by the present old arrogant PM who maybe guided by wrong msg from his own people.

Tun still remember that Tun also did went through election tsunami but Tun manage to put it off, simply because Tun also respect other Malaysian races and that with the support of the other Malaysian races , Tun won on those occassions.

But now, I do hope that Tun will send a loud and clear msg to all rakyat Malaysian that a financial tsunami will be coming to Malaysia soon.

All politicians should sit down and focus as to how to overcome this financial tsunami before it is too late.

I would like to take this opportunity to wish Tun and your family in advance "Selamat Hari Raya".

Dear Tun,

They are people who still denied for changes due to fear. Fear losing their beloved land, their privilege, heritage and peace. But i guess nothing last forever unchange. Change is undeniable.

You may return to the battle field again to protect umno and bring back people confidence. Your return is appreciated but it is also prove one thing, Malaysia has no hope without your leadership.

All this issue will repeat again. By that time, do you think you can still come back again? Let put our sight further ahead ok.

Selamat Hari Raya.

assalamualaikum Tun

1. Saya telah memilih BN pada pilihanraya yang lepas, bukan kerana saya menyokong DSAAB TETAPI KERANA Parti BN keseluruhannya masih lebih baik daripada parti pembangkang yang ada. Pada saya parti pembangkang hanya tahu membangkang apabila sudah dapat memerintah tahupun tidak semudah membangkang dan asyik menyalahkan kerajaan.
2. pada pendapat saya dengan kelemahan PM sekarang sekiranya diberi banyak peluang kepada parti pembangkang (5 buah negeri sekarang) mereka akan berani naik tolong dan adalah pekar yang sepatutnya tidak patut dituntut dan dibincangkan akan dituntut. Inilah yang saya fikir akan berlaku sebelum pilihanraya yang lepas.
3. terdapat juga komentar dalam ruangan Tun bagi saya yang KURANG AJAR terhadap Tun. Bagi saya mereka ini adalah golongan kecewa, perasan pandai, tidak tahu bersyukur dan 'ego' untuk berterima kasih kepada orang yang lebih tua khususnya yang telah banyak berjasa kepada negara. Kepada orang sebegini apakah sumbangan POSITIF anda terhadap keluarga, komuniti setempat anda dan negara?
4. Memang benar Tun rakyat biasa seperti saya tidak kisah tentang kebebasan suara dan lain. Apa yang kebnyakan rakyat mahu ialah kesejahteraan hidup, barang asasi tidak naik, pendidikan dan masa depan anak-anak cerah, banyak peluang pekerjaan dan perniagaan, rakyat bersatupadu dan negara aman.
5. PM sekarang perlu berundur segera dan memberi jawatan itu kepada timbalannya. Ahli umno dan juga ahli BN yang lain perlu dibersihkan daripada budaya rasuah walaupun sukar tetapi perlu dilakukan daripada sekarang.
6. Masa depan negara semakin mencabar, kita rakyat mesti bersabar, bersatuhati dan bekerja keras dalam menghadapi masa yang sukar ini. Jangan terikut-ikut rentak sesetengah ahli politik yang menyukarkan lagi keadaan, yang mereka tahu untuk memenuhi agenda mereka sendiri dengan mempergunakan rakyat.

Saya berdoa semoga DS Najib tidak menjadi bongkak seperti DSAAB  
Saya berharap DS Najib mempelawa Tun untuk sama-sama menyelesaikan masalah ekonomi negara dan membuat perancangan bijak untuk melindungi negara daripada kegawatan ekonomi dunia.  
Saya dan keluarga sentiasa menyokong Tun, semoga diberkati Allah TUN dan TUN Siti Hasmah. Selamat berpuasa dan Selamat Hari Raya.

The effect of inflation is like toothpaste being squeezed from the tube. Once the toothpaste is out, it is very hard to put back in.

I believe the petrol price increased has many consequential direct effect on inflation. The petrol price was increased too suddenly, i believe and has caused many daily consumption items to increased over night.

People are losing confident in the way inflation is handled currently, especially when we are the net exporter of petroleum.

Until today, no one has taken the liberty to identify ways to counter the inflation in this country.

What is so wrong about Barisan Nasional when it is supposed to be so right ?

It does not talk  
It lacks wisdom  
It breaks promises  
It likes to show off  
It is the big brother  
It controls everyone  
It forgets to be humble  
It does not give chances fairly  
It uses the Malay race to its' advantage  
It forgets that God is no respecter of any political party

The Star Reports: Police released Seputeh MP Teresa Kok from the Internal Security Act (ISA) detention as they were satisfied she was not a threat to public order.

Home Minister Datuk Seri Syed Hamid Albar said her release from detention was not because police could not build up a case against her but because they were satisfied that she did not threaten national security.

=====

How does PakLah not expect Malaysians to lose their confidence and trust in the Govt? If one gets in ISA because the police need to check on your credibility, that's quite funny. I would think that the police would be able to do it frm a far distance however in this case, they would need to lock that person up under ISA.

Can the Govt refrain itself frm damaging its reputation? I do not think so. It is within the nature of PakLah to make more and more mistakes.

Dear Tun

I totally disagree with you here. You are a very intelligent man but somehow you don't get why we rejected Barisan. Or perhaps, you and the rest of Barisan are in denial. Yes, the Chinese and the Indians voted for PAS too this time coz we see them better than UMNO. Go around the blogs of Malay PAS supporters and see for yourself. They don't preach ketuanan Melayu. They preach fairness for all races, no ISA, no to corruption. It is through their blogs that we non-Malays now know that PAS is not evil. In fact, PAS members have better morals in most areas as compared to UMNO. Their only setback is trying to impose certain moral rules on others. Other than that, PAS is not evil. UMNO is and has shown it once too many times. I read an article about hudud laws and why non-Muslims should not be afraid. It explains that only bad people like murderers, thieves, rapists and so on should be afraid. Good people have nothing to fear. In a way, it is true. So, what I am trying to say here is the people have woken up and seen the truth through the internet and are no longer easily deceived. We really do not want racial politics anymore. We want to embrace everyone and live together as one. We want the government to help us achieve this instead of separating us.

Greetings TUN,

You nailed it on the spot TUN on why BN experienced the defeat in this year's election. Not to mention, people also being mesmerised by a powerful orator ,who is still trying to pull stunts until today.A lot got to do with the arrongance of BN in handling issues which come up from 2004 till now. Their handling of HINDRAF, comments from certain lacklustre MPs on whether they need the non-Malay votes , lack of projects, plus a certain young Oxford grad who was making use of his "connections" for his own benefits were among the reasons, the general public decided to give the opposition a try.

We need someone with your calibre TUN to manage this country. For 22 years , you have brought this country up to a recognisable status. The country needs a revamp in leadership. Let's hope the next premier will have some of your guts and leadership essentials

Dr. M,  
Here's a wayang kulit scenario for you. You will never want Anwar to get to be the next PM and as he will surely pull all your skeletons out of the closet. You do not want Pak Lah to continue as he is too weak and do not have the support of the people. You have disendorse Najib as the next PM. There are no suitable candidate left in UMNO that can take over as all the remaining UMNO VP's are useless.

Hypothetical scene 1:

At the next UMNO general meeting, Pak Lah is ousted out along with Najib. UMNO members demand you return and you do. You are asked to be the interim PM to save the country as you are accepted by your former comrades, UMNO, MCA, MIC, Gerakan and the East Malaysian parties.

salam Tun,

Kita berasa sedih sekali apabila tindakan DSAI sejak kebelakangan ini menyebabkan perkembangan ekonomi negara terjejas. Perbuatan beliau yang tidak mempedulikan segala risiko yang terpaksa ditanggung oleh rakyat jelata di atas nama 'menghalalkan cara', akhirnya membuatkan rakyat semakin 'menyampah' terhadapnya.

Jelas sekali, tindakan Tun memecat beliau daripada Kabinet pada 1997, adalah satu keputusan tepat dan 'membuka mata' penyokong fanatiknya siapakah DSAI yang sebenarnya.

Sebab utama mengapa DSAI beria-ia mahu menjadi PM melalui 'jalan tidak bermoral', tidak lain dan tidak bukan, hanyalah untuk menghapuskan segala tuduhan salah laku, penyelewengan, serta perbuatan tidak bermoral terhadap beliau. Kali ini beliau tidak memilih mengadakan demonstrasi jalanan kerana tindakan itu didapati tidak berkesan.

Bagaimanapun, DSAI mungkin sudah terlupa bahawa walaupun beliau terkenal dengan kemahiran menyusun pelbagai strategi, akhirnya perancangan Allah SWT juga yang menentukan segalanya.  
Wassalam.

Dear Tun,  
So much have been said about our sleeping PM, be it the defeat of the last GE, or present racial tension and ISA, OSA etc...  
But you are the one who appointed him as your successor! So, you owe us Malaysians an APOLOGY AND EXPLANATION on why he is being chosen!!

We definitely know you have regreted, that explains why you are trying to so much effort to pull him down. But we do not know why he is being chosen; is it due to Najib being too extreme? or Najib needs more time to mature and trained? or other UMNO leaders are more extreme?  
Answer: ALL of the above?

On your explanation why BN lost in the last GE.

Before the election, we happened to have few Indians and Chinese gathered and talked about who to vote for.

Our conclusion is : Never vote for UMNO!

Reasons: UMNO is too arrogant! It never listens! It only talks about KETUANAN UMNO!

Dear Tun,

Bernama reported that Umno information chief Tan Sri Muhammad Taib Saturday denied there was pressure from Umno Supreme Council (MT) members for Prime Minister Datuk Seri Abdullah Ahmad Badawi to relinquish the party president's post earlier.

Comment:

Another stupid statement made by a Minister whose credibility is GROUND ZERO. He is still in a state of denial because his position is at risk. This kind of person is a real "ball polisher". His statement is nothing more than to ensure his political survival. He thinks that the grassroots members of UMNO are "pekak, buta dan tuli" like him.

His ministerial position is actually redundant. He does not deserve to be in the cabinet. Haparak and HP6 just like his boss. The earlier both of them go the better for everybody in UMNO.

Now is the time for UMNO to get the best technocrat brains to manage the party. Or else UMNO will be like "katak bawah tempurung" just like party kampong having jagoh kampong Mat Tyson continuously having HP6 mentality.

Come on, Mat Tyson you are just nuts. Your time is over just like Pak Lah, period!!!

Salam Ayahanda Tun..

Memang benar kata Tun. Tidak dapat disangkal bahawa memang ramai yang menyokong pembangkang, tetapi lebih ramai rakyat yang kecewa dengan kepimpinan yang ada..namun tidak dapat berbuat apa-apa

kerana laungan tidak didengar, dan suara tak diterima.

Lantas, mereka yang kecewa tersebut mencari jalan alternatif untuk melepaskan kekecewaan tersebut. Tidak lain lagi, melalui undian dalam pilihanraya.. Ianya sebagai satu penterjemahan suara hati kepada pucuk pimpinan. Bagi mereka yang dapat mengambil iktibar dan pengajaran, apa yang disuarakan oleh rakyat itu dijadikan pemangkin atau penyuntik semangat untuk melakukan penghijrahan kepada sesuatu yang lebih baik. Namun bagi yang bebal, berlakulah apa sekalipun, keadaan tetap sama. Maka rugilah manusia yang sombong tersebut. Dan malangnya, rakyat yang terheret sama kedalam gaung yang gelap..

Saya tetap berdoa Tun, agar Allah mengekalkan kemakmuran Malaysia, agar aman, sentosa dan sejahtera. Saya tidak berputus asa yang negara ini akan kembali maju seperti sebelum ini. Moga Allah melindungi negara ini dan rakyatnya dari apa jua musibah dan bala bencana. Dan saya berharap yang lain pun akan terus mendoakan yang sama.

Ayahanda Tun, moga dilimpah keberkatan, kerahmatan dan kenikmatan..serta mendapat anugerah LailatulQadr yang sebanyak-banyaknya..insyaallah.

Wassalam.

Dear Tun

Again, you hit out at Singapore for the cancellation of the 'scenic crooked' which has rendered some RM800 million spent on the new CIQ terminal in Johor Bahru to a lost cause. That 'scenic crooked' bridge will be the laugh of the town, the world over if it is ever built at all and surely, it does not make any commercial sense for Singapore to invest millions just to please your side of the bridge during your tenure. Singapore is not blessed like Malaysia, we do not have natural resources, aplenty to splash and surely, we do not aspire to build the tallest building in the world(then) for the sake for showing off even it is half empty (or half full); for every cent spent must be justified & accountable. Why would Singapore have to agree to straighten that 'crooked bridge', only to invite your irks when it was a lopsided deal with Malaysia then? While I agree that Pak Lah has not been on top of everything now, surely this decision not to build 'the crooked bridge' is one wise one. I'm a Singaporean, by the way.  
By matanahair on September 21, 2008 1:01 AM

GOT YOU TUN~!

in your No 13. you said

"But we are Asians and in Malaysia our basic racial differences are extreme. All we can do to avoid confrontation between the races is to allow them to form race based parties and to have them cooperate with each other. This was the BN policy and practise. And it worked for almost half a century."

but you just said in your previous title "MALAY UNITY AND MALAYSIAN UNITY".

you said, in point No 25 (not excluding other previous points, cause i dont want to only pointing partially of your statement)

No. 25. "If we still want Malaysian Unity we need to be willing to make sacrifices regarding what we consider to be our racial rights. Everyone has to do this. The leaders must be given some mandate to discuss these matters in private and to make concessions. After each step the lower rung leaders of each race must be given full briefing as to why the concessions have to be made. It would be useless if they don't agree."

Seems that you NOW profess that Malaysia unity needs at some point, to avoid confrontation of races; respecting each other (and we HAVE BEEN doing if not MARVELOUS, at least EXCELLENT for 50 years, and we are happy about it)

Please Tun, sometimes, i wonder what is your intention, that you hate someone so much that you go to the extent you criticize every single point, NOT REALISING you contradict your own points.

It seems that you "Protest for the sake of protest".

Hope you look into the mirror, and ask yourself, "WHY am i behaving this way?" and be truthful to your own answer, and may the divine power bless you.

By forevermalaysian on September 21, 2008 1:19 AM

i am not really sad at the whole scenario now but actually glad that the people's voices are now much more powerful than when you were the premier. reading your posting here showed me that you are a very, very clever genius and a capable strategist who explores all possibilities. i need not say more.

By Zahari S on September 21, 2008 1:35 AM

Assalamualaikum YBhg Tun Dr. Mahathir,

As Tun mentioned, the "loss" of the PRU12 was due to pent up frustration of the rakyat with Pak Lah and his antics regarding his son's business interest and Khairy's invisible hands in Pak Lah's decisions.

During PRU12, most government supporters contemplated whether to vote for BN or to protest either by not going to vote or just simply throw away their votes. A good percentage voted for the oppositions. For those who were always on the fence, they throw in their weight on the oppositions. And the results speaks for itself when BN won by a simple majority and loss five plus one states to the opposition.

As far as I'm concerned, PRU12 reflect the frustration of the rakyat and the opposition is taking advantage on such frustration to spin a story on how Malaysia is moving away from a racial based politics and moving into a two parties system. We can't blame the opposition because the weak government under Pak Lah have allowed such thing to happen.

The six months after PRU12 is such a tumultuous times for the rakyat. There are uncertainties arising from the liwat allegation, PRK Permatang Pauh, 619, drastic increase in price of petrol, the so call change of the guard in 2010, and most recent one is the ISA follies by the police. All of these indicated that Pak Lah is already out of touch with reality and only provide the oppositions with more munitions to shoot at the government and "poison" the rakyat.

As such, Pak Lah have to go and he has to go NOW. Not in June of 2010, but immediately.

Wassalam.

Greeting Tun,

All I can say here is, you always do the right things at the right time. Nobody can fulfill all party, but you have tried.

In some reason, you know you had to continue be PM at that time(for 22 years). Because no one is

capable to take the job, not even now. You had been "force" to let it go, and you have to made some agreement with your successor but what you get is a stab in the back. Pity.

To form Malaysia required unity among the people, talking bad to each others won't get anywhere. If the leaders can understand the people wants, you all won't get the bad result in the election. All wants the top post, but CAN YOU RUN THE COUNTRY?

Dulu lain, sekarang lain... Dulu S1.00=RM1.00, sekarang S1.00=RM2.80... Is that progress??? (compare with a country which without natural resources, a country that required to buy WATER from us) The reason is simple... They are educated people who runs the country. See what we have, leaders that crazy for power, money. More power get more money, more money buy more power.

Please change, our younger generation learn from west but still keep the quality from east. We will live through, stay good health people.

By Calvin's TigerAuthor Profile Page on September 21, 2008 1:49 AM

Tun,

I cannot speak for others, but the reason why I think BN won big in 2004 was that Pak Lah portrayed himself as the force of change, i.e. to change from dictator style of "ruling" to serving style of leadership, to remove corrupted politicians like those who worked under your regime.

He did not keep all of his promises. Corrupted politicians are still around. Nobody was punished or removed for their past and present corruptions and money politics. For whatever reason, he kept them around in UMNO, though trying to do some minor changes.

He was cornered by these corrupted politicians during the recent supreme council meeting to quicken the power transition plan. I think this served him right. He should have kept his 2004 election promises to sack these politicians.

By HaizarFarizTahir on September 21, 2008 2:17 AM

Dear Tun,

Many seems to be in agreement to below:

10. The talks in the kampungs and the ordinary Chinese and Indians were about the increase in cost of living, few business opportunities and of course the behaviour of the PM's family.

These include the majority of ordinary people on the urban streets as well. A perception so badly portrait which has become an epidemic so difficult to rid off even it was untrue. Why did it happen in the first place?

How to change of these talk and perceptions? Only the wiser know better.

I have always told myself, if my conscience is clear then it is not true of what people say.

But if thousands or millions are saying it then could there be no truth in it? Could these be the facts to point 10. or I could be wrong.

We have yet to listen to what our leader has to say with the latest development, lets pray that it would be a good decision for all malaysian.

Sincerely, what is wanted is peace, stability and good economic balance for all.

So, If one work harder then the rest, one should produce something better then the rest. When such

situation happens please don't blame others if you lagged behind. A phenomena difficult to instill among majority of citizens.

Hope the government will take these challenges of "MIND SETTING" seriously be in education or exposure as to change PERCEPTIONS of the majority quickly as the Nation depends on these changes to make majority of Malaysian competitive and verser tile in turn, able to face and compete DOMESTICALLY before leaping Internationally. A difficult task but it is a practical one to see a brighter Malaysia.

Having more responsible Malaysian with the proper "mind setting" the truth of the matter which is the facts of life.

For the hardcore poor, aid and skills be provided by the relevant governmental agencies right down to them without sip pages.

Thanks Tun Dr. Mahathir for penning your thoughts and opinions.

A wake up call for everybody who think of the future.

Salam.

Now some UMNO leaders are asking PM to step down.

They think Malaysian don't know the reason. They think we forgot about the APs scandal and other crap they have done. Not getting a piece of the pie has driven them mad.

I wonder how much is enough, how much money is enough for these leaders

By sggee on September 21, 2008 2:22 AM

1. In 2004, Voters saw a light with new leadership and wanted to gave "a chance" to the new leadership. The big win went to BN.

2. However the stronger the support, the bigger the expectation; the bigger the hope, the bigger the disappointment and dissatisfaction will be created when things did not move well. The big lost to BN in 2008.

3. You have shown your "LOSS OF CONFIDENCE" on new leadership. The more you condemn on the new leadership, the more disappointment will be created, then more voters will reject BN. The deeper the BN will fall.

Salam Perjuangan...

Tun...

Saya merasakan yang sudah tamat waktu untuk berbincang dalam forum ini sebaliknya terus bertindak. Pakatan Rakyat akan terus berjuang untuk berjumpa dengan YDPA bagi mendapatkan kelulusan baginda dalam peralihan kuasa. Sudah masanya Tun keluar dan memberi segala keperluan kepada rakyat dalam menangani Pakatan Rakyat dalam mengambil alih kerajaan dari terus berbincang isu2 ini tanpa melakukan sesuatu.

Saya percaya yang orang Islam akan berbunuh sesama sendiri satu hari nanti jika Pakatan Rakyat mengambil alih kerajaan. Amatlah diharap agar Tun dapat membantu dalam menyekat usaha DSAI dari

menggondol status PM dari PakLah. Saya menyokong penuh agar Datuk Seri Muhyiddin Yassin dilantik sebagai PM.

Saya berharap agar Dato' Fadzilah Kamsah dapat dijadikan orang tengah dalam meyakinkan rakyat yang UMNO masih relevan sekiranya PakLah dapat disingkirkan memandangkan beliau dihormati oleh masyarakat.

Sekian.

Salam tun.

I hope KJ will not win the Ketua Pemuda Umno post for the sake of unity in the party. I can tolerate anybody else besides him. Can you do something about it?

Selamat hari raya

=====

I do also hope that KJ does not win. And I might just be right. There are too many negative factors attached with his father-in-law. KJ would not be able to carry the weight of his old man and his reputation. KJ would fail, just like PakLah.

Dear Tun,

Bernama reported that Prime Minister Datuk Seri Abdullah Ahmad Badawi Saturday held a closed-door meeting with Perak Umno leaders from the divisions as well as the Wanita, Youth and Puteri wings at the party's state headquarters here.

Comment:

Enough is enoughlah Pak Lah. Masih nak melobi lagi ke? You are no more wanted by the grassroot members of UMNO. Terimalah hakikat ini dengan hati terbuka, Jangan nak sampai menjahanamkan UMNO kerana kepentingan diri. Cukuplah tu dan sedarlah diri. Time is not in favour of UMNO. The longer you stay the worst UMNO will become.

**JANGAN JADI MAKHLUK PEROSAK KAPADA UMNO!!**

Pintu sudah terbuka besar untuk Pak Lah berundur diri. Tak guna nak melobi lagi dan membuat percaturan untuk mempertahankan kedudukan. Pak Lah dah tak penting lagi. Yang penting ialah kemana arah rakyat nak tuju sekarang. Pak Lah dah jadi itek tempang.Semuanya Haprahk!

Sekarang bukan masanya lagi untuk rakyat memberikan simpati kepada Pak Lah. Banyak perkara yang tak selesai yang memerlukan pemikiran yang baru dan bernas untuk memulihkan UMNO. Pak Lah tidak lagi mampu berbuat apa-apa lagi. Semuanya dah tidak mendatangkan hasil. Jadi apalah nak tunggu lagi seperti hidung tak mancung, pipi tersorong-sorong. Zaman "politik belas kasihan" tidak boleh diguna pakai lagi. Ianya akan memudharatkan UMNO. Pahami sikitlah Pak Lah. You don't have the mental capacity to move the country forward. You are too weak a leader. Please accept this fact and accept reality, for heaven sake !!!

Dear Tun,

Pak Lah adakan mesyuarat tertutup dengan UMNO Perak. Apalah lagi nak buat "road show" dan mesyuarat tertutup lagi. Kan lebih baik pergi jelah kemasjid bersolat terawikh mengadap Allah, lebih berfaedah lagi.

Pak Lah tak payahlah nak buat road show lagi. Habiskan boghas je!!

Why are you so desperate? Nothing can make the situation in your favor anymore. It is already written clearly on the wall that the Majlis Tertinggi UMNO have already "point blank" asking you to expedite the handing over of power and resign immediately.

Tak payah lagi nak cuba meraih sokongan dan simpati lagi. All you need is just to pack up your things and hand over your notes to Najib, period. The rakyat now are feeling restless and fed up to see you are still around. They just refuse to listen to your whatever statements you make. It means nothing to the

rakyat anymore. Masuk telinga kiri, keluar telinga kanan jadi kelabu asap!! Dah jadi bahan ketawa sahaja !!

Tun..

thank you for bringing up this topic..., as I remember vividly in the last general election, for the 1st time in my life, I was voting for opposition..., doesn't matter whether they're PAS or Keadilan or even DAP..

And I peek in the ballot box when I'm about to slip in my ballot paper..., to my surprise .. most of the opened ballot paper revealed - almost like my ballot, they're also voting for opposition..

and this is happening at constituent where BN/UMNO was strong traditionally!..

It's like a - WOW! I am not alone in this feeling?

Why? did I do that? I've been voting since 1995.. and I remember that my 1st vote is for Chinese BN candidate @ Selayang Baru.. (I think for Selayang/Gombak Parliamentary chair)

And I keep voting for BN - no matter what races BN fielded for my area.

You have also touched this subject before, during your ruling ERA - why? we, Malays can vote for non-Malay candidate from BN component party MCA or MIC ? But BN can't do the opposite? (i.e - fielding Malay candidate in a non-Malay majority area like Jinjang, Kajang, or any other area?

Why? i can't remember what is your answer that time when you brought up this topic.

I think it's more to do with our Malay value where we - Malay - tend to be more tolerant and forgiving citizen, always able to support the govt vision of developed nation with multi-racial component in it.

I wonder why other races can't think like us .. who have given a lot.. for the sake of unity and harmony.

Back to the topic of your snippet - I think the real reason why current BN govt have lost so much in this last GE - was simply - 'Rakyat' or normal citizen can't nor longer tolerate the in-ability of current govt in handling our nation various sensitive issue and also - widespread view of corrupt practice that the current govt have closed one eye.. and sometimes seems aggravating it.

we are in view that the weak leadership - no longer listen to the voices of people.. , and he continue to do so..

Malaysian Bar Calls For Immediate Release Of All ISA Detainees

comment:

I don't subscribe to such call. We need the ISA to prevent those trying to be racist in different form by subtly instigating racial sentiments. Most of them who play racial card are unfortunately the elite few and the politicians who think they are the champion of the people. They are the culprit!

Assalamualaikum Tun Dr. Mahathir,

Saya dapat info dari kawan saya, ada banyak property (asset) di dlm Kuala Lumpur telah di jual kepada singaporean. Is that true?  
Contohnya:- KL Pavilion Shopping Complex, KL Plaza Shopping Complex, Sungai Wang Shopping Complex, Central Market, Plaza Yow Chuan and the latest one is the KLCC One of the Tower is going to sold to them. Tu belum kira yang kat Penang.

If true, Malaysia nie macam nak kena jual jer..... I feel very sad...  
how come goverment yg ada sekarang nie, senang2 membiarkan orang singapore beli asset kita....

Assalamualaikum wr wb,

Dear Tun Mahathir,

I have to add another point ; the BN is absolutely corrupt due to the opportunities presented by the NEP. Why should the rakyat support racial policies that encourage cronyism and corruption ?

The reality today is that the BN is no longer relevant. I may not like Anwar etc but what alternatives are there ? The BN promises more racial divide and more corruption.

Your ideas of racialism benefits only the Bumiputeras and the NEP benefits only the UMNO-putras. Why should the Indians and the Chinese and the more educated, liberal Malays accept such a regressive racial philosophy ?

Either Malaysia wakes up to the realities of the 21st century or she will lose relevance.....

Best Regards  
Dr Syed Alwi Ahmad  
By lakshy on September 21, 2008 6:30 AM

Tun,

Cant you accept the fact that malaysians have matured and want an alternative government? Wont that be in their best interest?

Developing an alternative government and allowing it to show the abuses, is the best way to prevent or at least reduce such abuses. Now these abuses are coming to light. Most during your tenure.

It's not going to be a good record to take with you to your grave.

People could curse you for generations to come!

Khas kepada Sdr Khairi,

Tulisan Tun tidak membawa keberkatan?  
Tulisan Tun akan membawanya ke neraka?

Sdr Khairi, janganlah jadi Tuhan kerana sdr seperti saya, dijadikan Tuhan.

Kalaulah saya cuba berfikir positif daripada komen sdr, saya bolehlah menganggap sdr begitu kasihkan Tun dan cuba menasihati beliau dari terlanjur kata.

Namun saya berpendapat, jika itu niat sebenar sdr, amat malang sekali kerana sdr sebenarnya menunjukkan sifat kejahilan yang amat memalukan.

Apa bezanya berbuat dosa di bulan Ramadhan dan berbuat dosa di bulan-bulan lain?

Jika sdr ada belajar agama serba sedikit, beramal ibadat di bulan Ramadhan akan mendapat balasan lebih dari Allah Taala. Bulan Ramadhan juga adalah 'refresher course' bagi umat Islam agar sentiasa sedar diri. Ianya mengajar kita agar mempunyai ketahanan diri dari berbuat dosa dan diatas kesusahan kita menahan diri sepanjang Ramadhan akan menginsafi diri kita dari berbuat dosa di masa-masa akan datang.

Saya tidak akan memohon maaf walaupun seandainya komen saya menyinggung perasaan sdr kerana saya berpendapat kesakitan itu akan menjadi ubat mujarab bagi kebodohan utk sesetengah orang.

8. Actually the present leader's involvement with graft, his support for his son's business, the power he gives to his son-in-law, his well-known sleeping habits, indecision, lack of ability to handle problems, sudden withdrawal of oil subsidy, cancellation of the bridge to Singapore, wasting money on the unused RM800 million (Johor Baru) Customs, Immigration and Quarantine building, cancellation of the railway double tracking and electrification project, the monsoon cup and lots more are what turned the voters against BN.

this is so true..when he 1st canceled the bridge project to Singapore.. i immediately doubt his credibility to become a leader..

but it seems like the voters now are given any good choice of candidates..

he n his clan nor anwar ibrahim cannot be trusted. i doubted the objectives of anwar's manifestos. in my opinion, he comeback are purely based on revenge and power-hunger ..he would do anything to get his arse on the PM seat..

things get ugly with people fitnah each other and it gave a bad reputation to other good candidates..

p/s:his well-known sleeping habits;reminded me of gus dur..hehe..sorry for my poor english and would u please sign me an autograph in my THE MALAY DILEMMA book.. hehe..

SELAMAT RAMADHAN TUN!!

By Masceyus on September 21, 2008 7:10 AM

Dearest Tun,

you know why all these things happen today, these are all results of the so called leaders of the country, believe it or not.

Because the previous leaders (dictators, including your honorable Tun) were unjust (selective prosecution), lying (not really implementing DEB), unfair (multiple standards), like to spread false information (conspiracy to righteous people), protect atrocities (cronyism and favoritism), oppressing the poor (the ever poor people in villages and squatters), killing innocent people (Memali), hiding the truth (never practice real Islam), being very stupid (only think about the worldly gains and always forget about imminent hereafter) and finally purposely forget about death, repentance and think that they can leave forever even though nobody ever able to do that since time immemorial (even the pharaoh died). The solution is let us immediately find the truth, repent and get ready for the future journey while our soul has not reached the throat.

Askm..Tun!

Sejak Tun mewujudkan Blog ini, boleh dikatakan saban waktu, kata-kata hikmat Tun lah yang menjadi pendoman dan panduan saya dalam menyoroti perkembangan serta kancah politik terkini tanah air. Akhbar-akhbar tempatan pun saya baca tapi macam yang Tun pernah katakan, susah nak percaya. Semuanya dah di 'Spinning' kan terlebih dahulu supaya bila dibaca, bunyinya macam sokong pucuk kepimpinan hari ini. Bukanlah begitu taksab pada diri seseorang atau nak mengagong-agongkan Tun lebih dari pencipta (Allah swt) kita, tetapi secara jujur dan ikhlas, Tun adalah satu-satunya ayah (Bapa) kepada seluruh warga Malaysia yang masih hidup. Alhamdulillah .. saya rasa amat bersyukur dan berterima kasih pada Allah SWT dan Tun sendiri. Bapa Kemerdekaan, Bapa Pembangunan dan Bapa Perpaduan, semuanya dah pergi meninggalkan kita.

Disini, saya ingin menyuarakan rasa kesal dengan pendapat sesetengah individu yang masih tidak faham atau pun buat-buat tak faham atau pun mungkin dalam bahasa brutal mat rempit .. boleh dikatakan 'lambat pick-up'. Mereka terus memberikan komen-komen yang -ve terhadap pendapat-pendapat dan pandangan-pandangan Tun. Yang hairannya ada yang ayahnya sendiri pun satu kepala anaknya.

Tun ..! Teruskan Tun! Bulan puasa bukanlah bererti Tun perlu berhenti menulis. Ya...! Bulan puasa

adalah bulan yang mulia dan kita sepatutnya perbanyakkan amal ibadat tapi lihat lah bila negara kita dipimpin oleh seorang yang berlatarbelakangkan pendidikan agama.. dan lahir dari keturunan alim ulamak, Hancur.. ! Huru-hara jadinya. Mereka tidak faham. Saya mendengar pendapat-pendapat seperti ini namun saya tidak akan terima. Orang-orang macam ni tidak faham sejarah. Bukan hendak mengetapikan Islam sebagai agama yang suci, namun maruah diri, bangsa dan agama Islam ini juga perlu dijaga. Nanti bila dah sampai nak Azan Subuh pun tak boleh .. baru nak perjuangkan Islam. Tatkala itu, semuanya sudah terlambat. Apa yang Tun lakukan ini, semuanya adalah satu perjuangan dan seperti yang Tun pernah ungkapkan.. 'Perjuangan masih belum selesai' . Teruskan Tun!

I 'll will always support u..

Wslm.

Salam Tun,

Selamat Berpuasa dan Menyambut Hari Raya, Maaf Zahir dan Batin.

Tun, I think politician like Tan Sri Muhd Taib should retire from politics. He is already a burnout and his credibility is not acceptable anymore by the public. He maybe acceptable to the people or UMNO Selangor but to the general public he is NOT anymore. He has sold his soul to the devil when his 'AUSTRALIAN' case surfaced. It is not important whether he pays a price for it or not. He has lost and yet the leader of UMNO put him in a place of importance. It is as though there are no other potential leaders anymore in UMNO.WHY???? This is the set back of UMNO. When a leader is found guilty or seen as a corrupt leader why must UMNO have him as one of them. When a person lives beyond his income unless his father or great grand father is filthy rich otherwise .....!This is one of the statement mentioned by most in the public. Go back to history.

By cakkuncak on September 21, 2008 8:04 AM

YAB Tun,

I have a question Tun ....

WHY IS IT so difficult to get DS Abdullah to step down? and WHAT IS IT that is so difficult ?

Im not talking about his won ignorance and stubbornness but I am talking more from the UMNO perspective and the BN in particular.

Why is it the leaders in the government and UMNO who are supposed to do their job do not see the clear fact that he has to go?

I am not familiar with the dynamics of Government and politics in Malaysia, but we all know that he is now a liability to the nation. Are all these leaders willing to risk the nation well being just to be nice to him? , to pity him?, to wait and see what happens ?

Is it worth the risk? we can see some of the damages that he is responsible for that will probably be almost impossible to rectify - eg the bridge to replace the Causeway to Singapore - it will definitely cost much more when we inevitably have to build it due to the obvious chronic congestion faced there on a daily basis.

For all my lack of experience on the working of politics and governance, I still fail to comprehend what is making all of the leaders take this unnecessary risk?

It is really frustrating to see your country deteriorating while those in the know and have vested power are acting as if nothing is happening.

Don't they love their own country? "Tanah tumpahnya darah ku" does not mean anything to them??

Tun

I think I must admit is you have the courage to publish all comments in your blog unlike some others example that of Mike Tyson where I had 3 comments which were not published because I criticized him (of course in a well mannered way without any form of coarse words etc) and Khir Toyo whom I believe only publishes comments that are good to his ears.

I believe, for any effective leader, they must have maintain a culture of hearing first as opposed to talking first. Why?

Firstly, by hearing out from others, the leader has nothing to lose and more to gain. People's opinions are

sources of direction for the leader to take cue from. Secondly, hearing like talking is God-given. It's free and being a free gift from God must be a blessing. Make use of it as God has a purpose. Those leaders who go against these natural gifts or rather natural directives tend to suffer. Nature is the direction to greater heights. There were many instances where human beings went against nature and suffered. Can't we learn from here.

Touching on nature and applying to whatever we do, including politics, is no different. Well the choice is yours for the taking. The ball is at your feet and at your court. If you lose it, your coaches ("the rakyat") would punish you. What say you then?

By Le Gorgeous on September 21, 2008 8:47 AM

Assalamualaikum Tun,

1. That's why when news on Pak Lah as a dissatisfied commuter train passenger that made the front page didn't impress me.
2. Just about 2 months before, it was announced that SCOMI had been given the 'responsibility' as the lead management or contractor to improve transportation services in KL
3. That was less than 7 days after our fuel price increase announcement few months ago.

Just thought I share a personal observation. Btw, I still believe Anwar is power crazy. He has yet to improve the 5 states he had won but get to the top asap. Ego trip. I spoke to my friends who now are on the opposite side - they said what makes them believe Anwar can make a change is because he is feeding support and carrying a magic wand to the opposition leaders greatest wish list and concerns. He is saying things that they want to hear aka so called New Malaysia.

Oh, I would hate the day if Anwar did get to the top. I am also not too confident with Najib or Muhyiddin though. Tsk tsk.

Wishing you great health. We are grateful for your memoirs.

Dear YAB TDM,

Hope TUN can be a voice for the RAKYAT instead of BN.

"You assist an evil system by obliging its orders and decrees.  
An evil system never deserves such allegiance.  
Allegiance to it means collaboration with the evil.  
A man of principles will resist an evil system with his whole soul.  
Non-collaboration with evil is a sacred duty!

It may be long before the law of love will be recognized in this beautiful country. The machinery of evil administration stands in-between and hides the loving hearts of the Nation!"

Salam Tun,  
Selamat Hari Raya.

- I agreed with that the performance of the BN in the march elections were due to the dissatisfaction of the people to the Govt. and its leadership
- When I went back to Muar I asked my in-laws what did they voted; surprisingly DAP; though they are strong supporters of BN but they were angered with Pak Lah
- Same here in Sungai Way Subang, my in-laws refused to go to the polling station; why the same reasons they gave
- Same things to some of my non-bumi friends; they too refused to vote though some of them are not happy with certain policies but since the (policies) didn't hurt them much they stayed here and migrating but some did anyway, that goes to my neighbor who refused to migrate but theie sons did
- Only those that are chauvinists will vote for the opposition but they stay here why? Is better here than other places if they have frequently travelled?
- Good performance of the opposition is temporary just for this election and as such they work hard to try to form the govt. this is the only chance; opportunity comes once not twice
- So the five states would try to be at par or better but with a loose coalition and inexperience I don't think they would performance well
- So if all remedies are solved I am confident the next election results would be better and maybe we don't see Lim Kit Siang and those inexperience young chickus who even cant converse well in parliament and in the state assembly

>The kampung folks and the ordinary Chinese by and large are not too concerned about human rights or more liberal Government. Even the ISA did not bother them ...

Hey, that is no longer true. It was true only when they lived in conditions being suppressed, a few decades ago. Now they are all awake.

Tun,

Saya amat tertarik dengan apa yg tun tulis.....

"I know many who admire the West tend to support their values. They would like to interpret the disastrous performance of the BN based on Western thinking."

sememangnya pengaruh pada pemikiran barat ni dah jadi macam budaya yang makin menjadi ikutan dan panduan bagi masyarakat malaysia moden dan dunia hari ini. Saya rasa ramai yg menganggap tamaddun barat ini begitu superior tiada cacat cela dan sepatutnya di dokong dan dijaja- dan mungkin ramai yg akan menganggap jika kita menentang "western value" bermakna kita racist. Perlu di ingat seperti mana-mana tamaddun yg ada didunia ini ada penghujungnya.....dan saya rasa kebebasan secara total adalah tidak baik kerana kita hanya berlandaskan kepada akal dan pemikiran manusia sahaja.

selamat berpuasa dan selamat menyambut hari raya untuk tun sekeluarga. salam - chedot

Saya ingin mengambil kesempatan ini untuk mengucapkan Selamat Hari Raya kepada Tun dan keluarga, maaf zahir batin.

Assalamualaikum Tun,

Saya amat mengagumi Tun dan segala pandangan bernas daripada Tun. Cuma yang saya kesalkan sekarang ini Tun, adalah sokongan daripada golongan yang berumur diantara 25 tahun ke 40 tahun sekarang yang terlalu byk cenderung kepada parti pembangkang dan melupai segala kebaikan dan kejayaan yang pernah diraih oleh Umno dan Barisan Nasional.

Senario ini menjadi satu trend yang pada hemat saya sudah menjadi virus dan boleh mengakibatkan barah dalam konteks fahaman dan pegangan golongan ini untuk terus menyokong kerajaan. Apa yang membimbangkan saya adalah senario politik semasa di Malaysia dan pergolakan yang berlaku sedikit sebanyak telah mempengaruhi sentimen para pelajar terutamanya yang berada di luar negara.

Pada saya sudah tiba masa dan ketika sekarang ini semua pemimpin UMNO memenangi kembali hati rakyat dengan menjaga akhlak dan memberi contoh dan teladan yang baik kepada rakyat selaku pemimpin yang telah diamanahkan untuk menjadi pemimpin.

Tun fikirkan dan bagilah cadangan kepada pihak tertentu supaya membuat perancangan yang sewajarnya untuk memenangi hati golongan muda yang terlalu emosi dengan pegangan dan fahaman masing-masing dan ini perlu difokuskan kepada pelajar-pelajar di luar negara yang juga kakitangan kerajaan tetapi sudah terpedaya dan terpengaruh dengan dakyah politik pembangkang yang boleh mengganggu gugat kestabilan negara jika tidak dibendung.

Sekian, terima kasih.

SALAM SEMUA...

KEYAKINAN RAKYAT JUGA TERHAKIS TERHADAP BN(UMNO) KERANA DASAR PEMIMPIN UMNO(BN) YANG TIDAK BERLAKU ADIL DALAM MELAKSANAKAN UNDANG2 ATAU SESUATU AKTA. MISALNYA YANG PALING JELAS PERLAKSANAAN ISA ITU SENDIRI KEBANYAKAN YANG DITANGKAP ADALAH PEMIMPIM PEMBANGKANG. NAMUN ADA PEMIMPIN KERAJAAN YANG MEMULAKAN ISU PERKAUMAN TIDAK DITAHAN DI BAWAH ISA TETAPI HANYA DGANTUNG PARTI SELAMA 3 TAHUN. NAMUN PADA SIDANG MEDIA PEMIMPIN BERKENAAN JELAS MENGHASUT RAKYAT DENGAN MEMPERTAHANKAN TINDAKAN BELIAU. MALAH TIDAK PERNAH DAN TIADA PEMIMPIN UMNO(BN) YANG MASIH BERKUASA APABILA MENCETUSKAN HURU-HARA ATAU ISU PERKAUMAN DI TAHAN DI BAWAH ISA. JADI TAK PAYAHLAH NAK KAJI LAGI MANA2 AKTA ATAU CIPTA AKTA(AKTA PERHUBUNGAN KAUM) SEKALIPUN, JIKA KITA TIDAK BERLAKU ADIL TIADA GUNA AKTA BERKENAAN. SAMA SEPERTI AKTA DADAH BERBAHAYA YANG MENGENAKAN HUKUMAN GANTUNG SAMPAI MATI KE ATAS PESALAHNYA TETAPI BILA KENA PADA KELUARGA SENDIRI AKTA TERSEBUT TIDAK DIGUNAKAN. MALAH MUTAKHIR INI KEADAAN YANG TIDAK STABIL KEBANYAKANNYA TELAH DICETUS ATAU DIPROVOKASI OLEH KERAJAAN SENDIRI DEMI SURVIVAL POLITIK MEREKA. TANPA MEMIKIRKAN KEPENTINGAN RAKYAT.

Bukan BN yang bersalah tapi pemimpin yang patut di persalahkan...

Kepentingan diri dan keluarga lebih di utamakan...

Pak Lah mesti berundur segera, Najib pula harus berwaspada ,Muhyiddin mesti di beri tugas utama memimpin negara, pelapis juga mesti di siap sedia ,Hisham,Mukhriz,adalah harapan generasi muda...

Assalamualaikum Tun,

Saya ni memang tidak faham politik walau saya berada dalam politik.

Orang cakap berjuang ye memang saya berjuang untuk bangsa dan agama. Saya dalam UMNO tapi dalam UMNO juga ada pertelagahan yang bila menjatuhkan atau mahu mengambil tempat ada aje

keburukan yang timbul telahan sebelum itu kepujian melambung. Itu yang saya tak faham. Bagi saya bila saya dah sokong saya tetap menyokong walau tidak memberi apa-apa imbuhan kepada saya. Masa awal saya berkecimpung dalam UMNO Datuk Sri Anwar menjadi sanjungan saya, cara dia berpakaian, cara bercakap pada khalayak ramai. Tiba-tiba saya terkejut bila secara mendadak ia dipecat dan didakwa saya tak faham marah macam orang kebanyakan kepada Tun. Lepas tu satu sesi penerangan oleh MB Johor barulah saya faham dan menerima hakikat. Kemudiannya masa Pak Lah mengambilalih kuasa kerana Tun mengundurkan diri, cukup terharu. Masa Tun melafazkan perletakan jawatan saya ada dalam dewan PWTC. Terlalu cepat berlaku. Kita semua meletakkan kepercayaan kepada Pak Lah walau keyakinan saya melantai. Memang nyata saya lihat cuma ada sedikit perubahan dan kini beliau mendapat penghinaan memanjang. Sedih dan resah dibuatnya serta bimbang kedudukan melayu masa kini. Walau terkadang rasa terdetik gembira bila Melayu UMNO dan Melayu PAS sepakat memperjuangkan bangsa dan agama, ditambah dengan kuasa raja-raja. Sekarang ni bagaimana? Petualang Anwar makin berleluasa ditambah dengan pergeseran yang jelas timbul antara Tun dan kepimpinan UMNO.

Saya dahulu sering kali menghadiri majlis yang Tun terlibat untuk mendengar ucapan dan mendapatkan input-input terkini melalui tiket-tiket. Tetapi tidak sekarang kerana tidak kesempatan. Saya selalu membisikan kepada Tun semasa berjabat tangan di setiap pertemuan dengan ucapan Tebrau, apabila macam ada sesuatu yang ingin Tun tanyakan atau cakapkan bila masa berjabat tersebut. Sekian

Just to add a comment on para. 14. Review ISA to prevent abuse of the usage. It doesn't make sense to use ISA for BN political advantage. It's not democratic and create hate in rakyat. You don't have to publish this statement.

Dont you see that in Pak Lah ??????

Salam Tun,

Apa yang Tun kata itu memang betul, tak usah layan yang buta perut.

Saya sendiri pun rasa kerugian dengan tindakan Pak Lah yang membatalkan semua projek yang telah berjalan seperti jambatan ke Singapore dan keretapi landasan berkembar dan lain-lain tindakan yang menghabiskan wang rakyat.

Apa saja keputusan dan tindakan Pak Lah membuatkan rakyat tak puashati kerana menjadikan ekonomi rakyat tidak seimbang terutamanya yang bekerja swasta Pak Lah langsung tak indahkan. Ini yang menjadikan rakyat menolak BN disamping pekerja awam juga menolak Pak Lah yang tak berpuashati kerana tak beri bonus walaupun telah diberi kenaikan gaji yang besar sehingga 35%. Ini menunjukkan Pak Lah tak pandai mentadbir uruskan negara dan rakyatnya.

Harapan saya Tun teruskan perjuangan.

By Moon Rider on September 21, 2008 11:42 AM

Dear Tun

12. As for rejection of race based politics, why did the voters vote for PAS, a 100 percent Malay party and DAP, a predominantly Chinese party.

PAS is not 100% malay party , they fielded an indian in 2008 election remember .. DAP has multiracial members .. ONLY BN Praticce Race Parties...

I voted BN in 2004 but 2008 I change my mind .. And I dont blame Badawi and everyone(including urself) should not put the blame on him alone .. A country run with A PM with the help of the minister .. A blame should be put on all the BN parties and cabinet minister .. there are the one who did not do or act to make things correct ..

In June, i dont agree with PR to topple the gomen , but after the ISA arrest , I really hope the new gomen will take over and make us people feel safe and peaceful .. PR give most of malaysian a hope that we can live in multi racial , no corruption and the main thing is to abolished ISA .. I am a chinese, but I like PAS and admire Tuan Guru Nik Aziz ...

Take care of yourself Tun .. Since u r not Umno member , I still salute you as your courage to left UMNO .. but whatever u said to BN, i believe they will left in right out attitude ..

Why not spend time blog and give more ideas on improving and helping the country economics instead complaining on Badawi..

By lebaikudin on September 21, 2008 12:12 PM

Salam Tun & fellow bloggers,

I have few 2 cents worth of ideas which is worth a ponder or two:

1.Race/Religion differences do exist,don't try to deny it.Instead of deviding areas like Parliament/DUN,my suggesstion is collective vote for leaders by race.That means Kit Siang vs Soo Koon and other Chinese candidates,DSAAB vs Hadi Awang,Samy vs Karpal.Malays only vote Malays,Chinese vote Chinese.Allocation should be 55:30:15,Malay,Chinese,Indian respectively

2.Merge all the political parties weather BN or Pakatan under one umbrella.These is to minimise friction,racial tension & wastage of time & resources due to squabbling.Check & balance could be done by Majlis Raja-raja,NGO,independent commissioner

3Automatic party's membership as in id card registration when a baby is born.Make it a law that voting is as important as attending NS.Dodgers will be punished

p.s KJ your days are numbered.Backbone that you are leaning against is about to be broken,soon...vultures are hovering, hehehe

Wassalam

Salam berpuasa Tun,

Pak Lah's days as PM of Malaysia are numbered. The wheels have started rolling to ensure he does not hang on to the Premiership longer than 9th October 2008.

The UMNO grassroots will begin their meetings and with it their nomination for the UMNO Supreme Council positions.

Do you think Pak Lah will survive this process? Muhyidin & Najib would not have said what they said if they were not sure what the grassroot sentiment is. It points to an anti Pak Lah sentiment. For him to let go ASAP.

Would Pak Lah want to risk being humiliated by a lack of the needed divisional nominations? It is a gamble he will not take. There is still time for him to step down honourably.

We await 9th Oct 2008. Pak Lah your time is up.

UMNO grassroot will show their true colours and were their heart fundamentally really is - The Malay's cause for all Malaysian.

Hidup Tun! Whatever happens do not be divided. Divided we fall United we all can aim for 2020.

To the new PM - having TUN as a Minister in the PM office will be a definite PLUS for the future of ALL MALAYSIANS.

By Vor Joe on September 21, 2008 12:22 PM

Presiden Pakistan letak jawatan,Mugabe kurangkan kuasa,PM Jepun letak jawatan,PM Thailand di singkir,presiden Afrika Selatan letak jawatan sebelum disingkir....mungkin juga PM Malaysia...tetapi bagi saya samada Paklah letak jawatan atau tidak BN tetap akan kecundang entah bila...mungkin dalam PRY ke 13.

Berhubung perjanjian peralihan kuasa antara Pak Lah dengan Najib mungkin satu perkara yang elok jika di lakukan sekarang ini semasa Paklah masih Presiden...dan bukan dalam tahun 2010 kerana pada masa

itu Paklah belum tau lagi jadi Presiden UMNO , jadi bagaimanapula ia merancang menyerahkuasa. kecuali dia pasti dia akan mengekalkan jawatan presiden dengan cara yang kurang demokratik dengan menutup peluang orang lain....

Salam Ayahanda Tun, I don't know if you would print this in full, but I am constantly amused to the comments made by Dr. Syed Alwi down south. Dia cuma meludah ke langit sahaja, sambil menyusukan anak orang sampai anak sendiri sedang mati kelaparan. Kesian.

However Tun I respect your sense of openness in allowing all sorts of clean comments to flow freely here. To quote Dr. Syed Alwi: "I have to add another point ; the BN is absolutely corrupt due to the opportunities presented by the NEP. Why should the rakyat support racial policies that encourage cronyism and corruption ?" – End of quote.

It simply mirrors my view on PAP, LKY and his cronies. Temasek Holdings lost billions in the Thaksin Shin Corp telco deal letdown and not much was ever said in their media. Who runs Temasek at that time? LKY daughter in law. Who runs Media Corp and CNA? LHL cronies. I don't know Dr.Syed Alwi, but reading your comment is like watching my children's cat undergoing potty training now in the back yard. Macam kucing kambus taik nak dikatakan pun ada juga.

Tun, I sincerely admire your generous accommodations of all views whether dissenting or otherwise on your comments site. That shows your poise and strong class.

As well with the many others, I am learning many things from you. And for that I humbly thank you Tun.And thank you also for not allowing me the space to make a fool of my self at times. I appreciate that now. Salam Ramadhan Tun.

Kenapa org UMNO Atasan degil sangat tak mau dengar keluhan rakyat atau apa yang kami suarakan tak sampai ke telinga mereka. Rata-rata dan ke mana sahaja saya berani bertaruh orang akan kata PAK LAH KENA TURUN,PAK LAH KENA TURUN - bukan 2010 tapi SEKARANG, NOW ,immediately tak payah pantun pantun, straight forward aje turun, letak jawatan...last 50 yrs kenalan, saudara, keluarga kami adalah penyokong kuat BN, tapi minta maaf/ampun march 2008 menggigil, terketar ketar kami pangkah calon pembangkang yang namanya entah tak pernah dengar dan tak kira lah DAP,PAS,PKR janji bukan BN. MACAMANA LAGI kami nak suarakan kehendak/mesej/pendapat yang terbuku - PETI UNDI saja. tapi kalau PAK LAH dan FAMILY and KONCO KONCO YESMAN ( menteri&geng umno jawatan tinggi yg faham tapi tak bersuara takut hilang share/kepentingan/duit)tak undur saya amat pasti next election rakyat semua akan memilih parti lawan.PAK LAH bukannya tido saya rasa dia dah peringkat ZOMBIE dah - sedar, jaga , makan ,minum tapi otak tak jalan. sekian TUN ,selamat berpuasa dan menyambut hari raya.

The best thing you can do for Malaysia is to disappear forever. You are the one most responsible for destroying all institutions. The only reason you are coming back is because there are too many skeletons you left behind. How much longer are people going to believe the biggest conman in Malaysia ? They should erect a statue in KL - the fountain head of corruption - TDMM.

Yang Berbahagia Tun,

Saya bersetuju dengan pendapat Tun, namun pada saya (this could be my personal opinion), pemimpin dan ahli UMNO sendiri yang banyak merosakkan parti. We used to talk on how the YB should care for his constituency, but what really happened was, sebenarnya, the constituency yang menjadi semacam perlu berkhidmat dan menyembah YB untuk mendapat sebarang bentuk bantuan. YB sepatutnya menjadi tempat untuk rakyat mengadu segala masalah but most of the time, pada saya, YB yang banyak memberi masalah kepada rakyat. Kita belum cakap pasal penyalahgunaan kuasa oleh sesetengah YB. Macam samseng pulak nampak gayanya. Politik wang, sogokan kebendaan, bukan benda baru, semua orang tahu..kalau nak kaya, masuk UMNO..Zaman Tun pun berlaku benda-benda macam ni, but somehow or rather, this time around, dah jadi teruk sangat..UMNO itu suci, wujud dari perjuangan yang suci. Orang-orang melayu kena jaga UMNO, itu saja kekuatan kita..Kalau sayangkan parti, yang mana yang mengarut tu kita buang saja..but again, susah jugak nak buang sebab banyak ahli yang nampak gayanya lebih setia dan berpihak pada pemimpin yg pandai menyogok..tak boleh nak buang jugak..Saya rasa sedih sangat dengan senario politik semcm ini..I quit buying newspaper recently..dah naik menyampah baca mcm-mcm cerita yang hampeh.

Dear Tun,

It is being reported by a blogger that Abdullah told to "stand and fight"

SEVERAL members of the UMNO supreme council are backing Datuk Seri Abdullah Ahmad Badawi, and urged the party president to stand his ground and defend his post at all costs.

I understand that the move to encourage Abdullah to fight all the way is led by party Sec Gen Datuk Teuku Adnan, and assisted by a state liaison chief and another supreme council member from a northern state.

The state chief told members of the state liaison committee not to be influenced by unfounded talk that the party president is under siege. Instead, the state chief insisted that Abdullah will get the nominations to defend his post come mid December.

In the past 24 hours, party operators and ground leaders have been busy meeting in small groups to push their agenda through. On Thursday, many supreme council members spoke out advising Abdullah to step down and not wait for 2010 to execute the transition plan endorsed two months ago by the council.

The supreme council members who spoke out on Thursday believed that Abdullah won't be getting the required number of nominations to defend his post. A contestant for the number one post needs 58 nominations in order to qualify to make a bid for the presidency.

Those pushing for leadership change are also on the ground, meeting division chiefs and re-inforcing the change agenda. The division chiefs are most sought after because they have considerable say and can influence nominations.

Divisional meetings starts on Oct 9.

Comment:

Orang yang masih hendak Pak Lah ialah orang yang berkepentingan diri kerana mereka merasa tergugat kedudukan mereka. Adakah mereka ini benar-benar memperjuangkan UMNO atau memperjuangkan kedudukan mereka?

Saya nasihatkan kepada mereka tolong jangan menjual UMNO hinggalah akhirnya UMNO lemah longlai kerana pemimpinnya semuanya dah "expired" dah tidak laku lagi dipandang oleh ahli-ahli grassroot dan rakyat keseluruhannya.

Tidak ada ertinya menyokong Pak Lah akhirnya mereka semua terjerumus kedalam LONGKANG dan UMNO terkubur.

Orang Melayu mesti bijak berpolitik dan jangan berpolitik mengekut nafsu. Fikirkan bahawa perjuangan UMNO ialah untuk masa depan orang Melayu dan bukan masa depan pemimpin yang berkepentingan.

#### RUMAH TERBUKA

Looking at current situation with all sort of nonsense created by those lawmakers from PR and BN, the economic issues, ISA, racial harmoni and etc. etc will rumah terbuka or open house be the same again?

Should the coming Hari Raya celebration be used to mend ties with all races, politician etc etc or should we just ignore it.

Should Hari Raya celebration be used by Anwar Ibrahim to seek forgiveness to Malaysian for not materialising the 916 target.

Should Anwar Ibrahim seek forgiveness to Malaysian for being selfish to gain power thru backdoor by not respecting the people who voted for BN to still govern Malaysia.

Should PR and BN seek forgiveness to Malaysian for creating such tension among them that had affected us Malaysian.

Should the powerbroker from PR and BN seek forgiveness from Malaysian for not working together for a better Malaysia.

Should Ahmad (Bukit Bendera Umno) seek forgiveness to Gerakan Koh or should both of them reconcile for the sake of unity.

Should PR and BN seek forgiveness to the Malaysian and International community for reprising the role of Tom and Jerry by making themselves a cartoon and look stupid in Malaysia especially the International eye on their catch a mouse episode in Taiwan?

Should PR and BN seek forgiveness to the Malaysian for making mistakes since March 8 instead of governing the States and at Federal level.

Lastly, should BN seek forgiveness to Malaysian for attending to Anwar matters more than us Malaysian.

Not forgetting, should PM seek forgiveness from Malaysian for steering Malaysia under 'Auto Pilot'

Sorry, one last word should we all forget all the nonsense above and celebrate Raya open house together and open a new chapter for a better Malaysia.

Tun Mahathir,

Salam Dengan Penuh Hormat.

Loss of Confidence ....

Under present turmoil, we have lost our confidence in almost every thing.  
Look at PDRM, how could they have mistaken YB Teresa Kok as a "bitch".

But not to worry, human are reactive lots. When pushed to a coner, they will react accordingly and to the best of their ability.

We have the intelligence to know what is right and what is wrong but the problem is ; there are people who twist and spin and make use of the law to right what is wrong and to wrong what is right.

Let us complete our fasting in peace and SELAMAT HARI RAYA to all

Tun,

1. I agree that the BN should cooperate. However, it is precisely the over dominating and arrogant UMNO over the past 5 years that had discarded and forgotten the cooperation concept that has helped enabled BN to be well supported.

2. Perhaps, blame should also be apportioned to those of the other so called "major" component parties like MCA & MIC who have traded their "silence" in exchange for "rewards"??

By Bebas on September 21, 2008 1:57 PM

Tun,

Jangan terlalu bimbang tentang PM sekarang yang angkuh dan gila kuasa.

PM juga manusia biasa, dia tak akan dapat bawa bersama-sama semua kuasa & harta bila tiba masa akhiratnya.

Apa yang penting bagi seorang pemimpin ialah perlu meninggalkan nama yang disanjung tinggi oleh generasi yang akan datang.

Di sini, sesuatu yang baru akan tercatat di sejarah bagi PM di Malaysia. Di mana Pak Lah menjadi PM yang dibenci dan memalukan Malaysia.

Selamat menyambut Hari Raya yang akan datang.

Sir, Frankly do you think when Najib takes over from Pak Lah as PM, the situation in our country will be any better? Personally I dont see any capable leaders especially from UMNO and BN at this moment who have the charisma, creativity, intelligence etc which are required for a CEO of a country. Sad but true to say BN politicians have been enjoying privileges for far too long, ignorance, arrogance and greediness have become a way of life not only at the top level but downright to division level as well. This also applies to government department where even a low level clerk expects kickbacks whenever dealing with the public. These kickbacks have become their rights. This corrupt culture in the past n present government is

an open secret even to foreigners,dont you agree ?

Therefore your opinion of not the opposition who won but BN have lost is correct partly,the people are fed up with the government.You are wrong partly because as you see its the top leaders are corrupt which have affected your top level friends thats why you are so angry.Actually for the people its not the top level only ,its the whole corrupt governing system that the people are angry about.

This is the main reason why the people are giving PR a chance.They might be good or they might fare worse than the BN if they govern but at least there is an option for the people and what better way to keep the future leaders on their toe and down to earth.

Salam Tun,

Rakyat Malaysia, nowadays know what type of leader they need.

A leader who able to rule the country wisely.

A leader who can take care of the rakyat welfare.

A leader who have a vision.

A leader who always wanted to see improvement.

A leader must treat all the rakyat Malaysia equally.

A leader who knew how to push up our country economies.

A leader who can make decision correctly.

A leader who can protect our country.

Yes, at this moment there is still a leader who have the above stated qualities, that person is.....TUN yourself.

Selamat berpuasa TUN.

Terima kasih.

Selamat petang dan selamat berpuasa. Cuma tinggal beberapa hari sahaja lagi kita akan menyambut idilfitri yang mulia.

Saya bukanlah faham sangat tentang politik dan ekonomi negara, malahan bukanlah dari golongan yang terpelajar dan selama ini saya tidak ambil kisah pasal politik. Bagi saya tiada hasil bermain politik apa yang penting saya ada kerja dan setiap bulan menerima gaji.

tetapi sejak kebelakangan ini terlampau ketara masalah yang dihadapi oleh umno, walau sebenarnya bukanlah kritis sangat pun masalah ni. Ianya boleh diselesaikan dengan senang iaitu pucuk letak jawatan, itu sahaja. Sekiranya PL lepas jawatan, kemungkinan masalah ini tidak berlanjutan sampai sekarang dan DSAI pun mungkin tak berani bersuara.

Memandangkan keadaan sekarang yang agak kucar kacir, salah satu cara reformasi ialah tubuhkan satu gagasan tapi bukan berasaskan bangsa tapi satu gagasan ISLAM untuk memperjuangkan agama Islam

Dear Tun

I dont agree with you that "race base" political system still valid .

i just attended the gathering by DAP, peoples from all walks of life, chinese,indian,malay came majority are not dap members.

If you look at BN parties gathering, mostly attended by party members or govt. servant being "invited".

That's the signal send by "rakyat", Tun, your era might be different but you cant compared now.

Tun has many credits in bring up Malaysia, but need to admit the unfair policy to award permit to taxi drivers has made Malaysia won "The worst Taxi system in the world". It is too sensitive for me to say but "rakyat" know what i means by unfair policy .

i am not sure if i am rejecting pak lah but i am quite sure that i am rejecting UMNO not because of me being a racist but i think UMNO is behaving like he is the 'taiko' of all the components. tu yang buat saya rasa menjijikkan. walaupun saya sokong dr mahathir masa dulu dr mahathir jadi PM, tp saya kini sokong PR. saya sanggup beri undi saya kepada PAS pun saya tak akan beri kepada UMNO atau "kwn-kwnnya" utk menyerahkan negara ini tuk pemerintahan BN. melainkan kalau UMNO benar-benar mengambil tingkah laku yg lebih mulia dan sederhana dan berkongsi (instead of being taiko), then my vote will probably get back to BN. afterall, i have recently got more information about PAS and found out that PAS is not bad indeed.

Tun saya tak mau komen pasal artikel ni tapi saya nak minta 2 perkara...

1) Tun jangan masuk UMNO selagi Pak Lah tak berundur. Buang masa dan tenaga saja kalau Pak Lah masih mentadbir negara. SAMA!

2) Saya baca Tun kat MalaysiaKini kata Tun tak setuju ISA pada Teresa Kok dan Raja Petra. Betulkah ? Saya rasa elok sangat2 dua2 tu di ISA sebab dua2 main2kan AGAMA RASMI kita. Apa akan jadi nanti kalau semua orang di Malaysia asyik main2kan agama orang lain ? Tolong beri penjelasan.

Sekian. Terima kasih.

Tumpang lalu:

Dr Syed Alwi Ahmad & the likes;

1. I bet you would get some kinds of 'highs' or 'turn-on' every time you addressed the Tun!
2. You are downright rude and sarcastic!
3. I too bet that you are one of those ultra modern Muslims who does not know how to respect your elders when addressing them!
4. This is Tun's blog. As much you are welcome to visit, PLEASE OBSERVE SOME COURTESY!
5. While I am sure you would now demand that is it your rights to speak your mind, Tun too has a right to speak his mind. Do you not think so?
6. Your downright arrogance is making me sick!
7. Like I always said here, "talk is cheap!" Are you a leader of a group, a community or something? A

politician perhaps? If you are not already one of those, why do you not start becoming one, and see if anyone would listen to you. I bet you even your kids (if you have one lah!) do not listen to you!

many commentators here condemn Tun like they are very clever people. They do not realise that you know what you are talking about as you had a proven 22 year track record. Who are these people to ridicule you?

No wonder CSI Malaysia is a sad young Malaysian because his /her predictions for 16 September did not come true. Simply put; CSI, YOU FAILED!

Tun, please return to UMNO ASAP to kick ass! The signs are encouraging.

MT members have started speaking out.

We must not let DSAI take further advantage of the situation.

I voted for PKR last election not because I like Anuar Ibrahim nor do I hate Pak Lah. Like others, I want change. Enough is enough to the boring election routine. It was a gamble for better or for worst. Come what may, I believe Malaysia will prevail with BN and Pakatan competing to be the best.

YAB TDM,

Same Question as cakkuncak wonders in my mind.. Why is it so hard to get Pak Lah to step down??? Tun as former PM and most powerful figure in the country and afar had to resign from UMNO just to show how you feel about Pak Lah!!! Is Pak Lah that powerful that Tun could not get him removed while within UMNO??? He undid all your plans including wawasan 2020 while you were in UMNO!!! Has UMNO given it's Presidents that sort of power even to ignore former presidents? If so it is alarming as we the rakyat

are nothing to them then!!!

Democracy in the nation is being hijacked by the un-democratic system within UMNO. Most of us on the street want a stable gov to guide the nation to prosperity while keeping us safe and sovereign. It is the racist and inciting behaviours of the so called UMNO leaders that is ruining the racial harmony at present. Shockingly UMNO has no strong leader to control these freaks from their verbal diarrhea.

Hoping for Tun to help us all Malaysians to get the nation back on track towards wawasan 2020.

Tun,

I believed since your defeated to the opposition, you have learned a lesson. Since then, you never lose in election. Ironically, you received a lot votes from Chinese community which help you to retained 2/3 majority in 1999 general election. Clearly, Chinese community doesnt bother your skin colour, but they really bother to what you can do for them. This is what happen to DSAAB, he have let certain closed Malays to him play racial card.

For me a good PM is somebody who can be PM to all Malaysian. You have shown it during your as PM of Malaysia despite being regarded as Malay Ultra before that.

Thanks.

Dear Tun,

During my college days, my mates and i had exhaustive discussions regarding the unique political senario of Malaysia whereby the ruling govt. had immense power (eg. control over the media and laws such as ISA).

We agreed that is was neccesary to facilitate speedy growth which was important to close the gap between us and the developed nations. All that is well and good as long as we had responsible leaders like yourself. However such powers in the hands of irresponsible or less pasionate leaders could have dire consequences. There was no effective mechanism to ensure that those who inherited these powers were up to the mark.

It is apparent now that the non existance of this mechanism had led to the current situation in our beloved country.

I believe that u understand that it is important to ensure that this doesnt happen again. There no point in just patching things up temporarily.

We need a long term solution. If anyone can solve this problem its you! At the moment the opposition seems to be the best available option. We definately cant say that they lack passion.

The economic situation is realy bad mainly caused by the sudden increse in fuel prices. There seems to be an irreparable chain reaction.

Please sort it out Tun! It was an oversight on your part.

Salaam Tun,

May Allah bless you.

I am truly amazed that at 82 years old your mind still sharp and no matter what others said I can't find a word in any dictionary to describe my total respect and amazement on the way you see things and your strong leadership throughout your 22 years as the Malaysian PM.

When I heard that AAB now is the Defence Minister, I said what a disaster! But thank God, Malaysia is not a country that the Generals have a huge appetite to rule the nation like Thailand (General Sondhi), Indonesia (General SBY), Singapore (Brigadier General Lee Hsien Loong), or Philipines (General Fidel Ramos). If not, to have a weak Defence Minister like AAB will trigger God knows how many 'kudeta' in Malaysia.

We don't want to wake up in our fine morning to see many military tanks nicely parked in front of our house, instead of our sport cars, do we?

If all this while AAB give his 'command' but nobody really wants to 'do' (e.g in Ahmad Ismail case, whereby AAB 'command' him to apologize but Ahmad Ismail didn't really give a damn to 'do'), I think there will be time that our Commando unit will be a Sleeping Beauty unit under Defence Minister Datuk Tak BerSeri Abdullah Ahmad Tiduri.

If in his own country, nobody cares about the sacred command from a PM like AAB, I don't think American like Encik John bin Rambo will have any fear towards Malaysia. Compared to the stability and economic prosperity during your era, I think AAB is a disgrace. He is utterly indecisive.

May Allah bless Malaysia.

1) Tulisan Khairi dalam komen num3 diatas sangatlah menunjukkan kebodohan dan kejahilannya sendiri, mungkin niat dia baik tapi pemikiran dia belum cukup matang.

2) Disuruh TUN hentikan tulisan ni dalam bulan Ramadhan xbaik konon2nya mengutuk, fitnah la apa la..tapi bulan2 lain boleh kah buat macam tu? ajaran mana dia pakai?

3) Kenapa dia kata fitnah? apa alasannya? sejauh mana dia tau? kalau dia kata TUN memfitnah kemukakan bukti seperti mana TUN kemukakan bukti dan fakta, kalau dia xmampu kemukakan bukti yg TUN memfitnah maknanya dia memfitnah TUN sbg pemfitnah.

4) Seharusnya khairi perlu lebih risaukan dirinya dari azab neraka ttp dia lebih risaukan TUN alhamdulillah, hehehe

5) Berdakwah la dgn penuh hikmah dan kebijaksanaan saudara khairi.

6) Untuk perjuangkan kebenaran xperlu untuk kita tunggu abih Ramadhan kecuali org yg anggap salah je, ada ketika perang pun di bulan Ramadhan.

7) Saya yakin TUN sedang bergerak ke arah kebenaran, moga kebaikan diteruskan TUN tapi kalau TUN salah saya tp akan membangkan TUN juga wahai saudara Khairi, sbb aku lah Tuah Derhaka

Yes! It's due to Loss of Confidence....!Not due to A More Greater Space for Democracy...!A Great Nation generally due to A Great Leader in the country!

Power given by the people is to execute the responsibility to the mission of People for the Nation-Building Vision..!The implementation is always the Challenge Ahead must be resolved by Leaders amicably anytime anywhere convincingly.

The ways and methods in handling any issues must be Consistent and Complied in accordance with the principle of " RULE OF LAW " in achieving the Spirit Of Law. But unfortunately ,it's clearly shown it's done otherwise.....!

"RULE BY LAW " will never achieve wholeheartedly the Minds & Souls of the People at large justifiably and democratically...!

Ordinary People at large are not against Draconian Acts but apparently they are against the ways and methods in executing the laws abusingly...unjustifiably... and unjustly..!

Mainly because "Democracy is not the Law of the Majority but the Protection of the Minority : The Jurisdiction must be the only, and nothing ,for the Principle OF Justice..be achieved..!

Dear Tun,askm wrhmtllah.

Congrats to Dato' Seri Najib on the appointment of new Minister of Finance. Hopefully, Tun can also give advice to Dato' Seri Najib on steering Malaysia forward especially in this turbulent moment. Being pragmatic or pragmatism that's the word I remember from Tun Razak and you as well have done what is supposed to be done for the country last time rather than mere rhetoric.

Today, the United States of America is facing huge problem in its finance, with Fannie Mae, Lehman, Merrill Lynch and AIG to name a few. They too, have banned short selling and they also plan to rescue or bailout their problematic banks for USD700bil by using agent like Danaharta. I am not saying that the US is following you even though cases are recorded for reference if needed. Like we too, Chile had done something like that before. The point is that we cannot just sit down or pass the problem to IMF or World Bank to help. Our house, our backyard is our own responsibility. That's what we called Merdeka ! We fought the British to gain Independence. Had we not fought hard enough, would the British give us Independence, I doubt so. Pragmatism, sincerity and desire to help is needed in a leader. I have all this while supported UMNO and BN and only on 8th March 2008 that I have ticked on Oppositions other than BN not because they are good or more capable, but I was tired of arrogance of Khairy Jamaluddin, weak leadership of Pak Lah as well as arrogance of other ministers and MPs, at that time ! Now, I sensed there is a wind of change in UMNO especially. I want to register as UMNO member soon and support your son Dato' Mukhriz as coming Youth Leader ! Hidup Melayu ! Hidup UMNO ! Hidup Malaysia ! Salam.

Assalamualaikum Tun,

I believe that AAB has some personal agenda, or some unfinished business before leaving the government. I read the articles about handing over Finance Ministry, giving a chance for Najib to prove himself, of which he himself can't even manage. Why after all the pressures, still he doesn't want to step down. bak kata pepatah, ada udang di sebalik batu.

I heard from someone that he was approached by Tun Musa Hitam sometime last week or so, of which Tun Musa came to see him together with someone from Daim's team, to discuss about some proposal. He downright agreed to it, then came his son objecting to the proposal, and said that he will tell AAB why the project can't go be done? Is he the Prime Minister, or his son the Prime Minister?

I heard all the stories about his son and son in law, and it really makes me mad. It was indeed a mistake for you to hand over the PM post to him. I hope that he will go soon, and hand over his helm to Najib soon.

Take care Tun, Will contribute to your blog soon.

p.s. maybe your blog should have the latest entry on top, instead at the bottom.

Recently, KuLi seems to be on the wrong track. He is busy making statements about Anwar, when he should be seriously advocating changes within Umno itself. He should make more efforts in ensuring that he wins this Dec. There is no point in making Anwar the target when it is PakLah who is the main problem of the country and Umno.

Just like many politicians, they seem to constantly lose focus of their aims. If Kuli intends to make a difference for Umno, then he should start by clearing up Umno's mess, and not Anwar.

Umno needs to change dramatically, or else it faces a political demise. The demise would not be related to Anwar or his political agenda. The demise would be caused by Umno members themselves, and not to mention by the MT.

So for those in Umno, please do conceptualise and plan on how you could ensure the continuation of your party. Do remember to discuss about national unity, racial harmony, the economy and most importantly how to ensure the change of leadership takes place before 2009.

Financial mathematics is a main branch of applied mathematics concerned with the financial markets. Financial mathematics is the study of financial data with the tools of mathematics, mainly statistics. Najib Tun Razak has been named Finance Minister

with immediate effect. Did he learned a simple or logic mathematics? I hope at least he already learned the damned BASIC!!!! At least and IMMEDIATELY!!! Dear DMM,

I disagree with the following points;

"9. The kampung folks and the ordinary Chinese by and large are not too concerned about human rights or more liberal Government. Even the ISA did not bother them as shown by their strong backing for the Government party, before."

[My Comment] This is simply because people naturally tend to focus their energy on what they can influence. And certainly ISA is not one of them. People only know, opposing ISA would mean a 1 way ticket to be the next ISA detainee. It is naive to think that people are not bothered about ISA.

"13. ... All we can do to avoid confrontation between the races is to allow them to form race based parties and to have them cooperate with each other. This was the BN policy and practise. And it worked for almost half a century."

[My Comment] This summarizes the fundamental problem. You and the current crop of leaders cannot see beyond a race based politics. You are convinced that there are no alternatives.

14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party.

[My Comment] Do you still want to sweep it under the carpet? BN's concept of governance was never right. It was a result of brainstorming 50 years ago. It may have served an immediate need. Times have changed. So must the governance.

Dear Tun,

These are my favourite blogs:-

1. Chedet.com

2. Tunkuaisha.blogspot.com

3. Jebatmustdie.wordpress.com

By the way, Anwar Ibrahim's blog is so pathetic. His blog merely serves as publicity stunt desperately trying to project himself as a (so-called) great leader. Almost every subject he wrote is about himself, his image, his political agendas and so on...so much in contrast with Tun' blog which are so broad and diverse in subjects of common interest, politics, economy, finance, history, world affairs.

All my critical comments at Anwar's blog were not published. Pakatan Rakyat's "suara rakyat" and transparency agendas are a mockery, all lies just like the man himself.

Dearest Tun,

True Tun. I too had lost confidence in BN leadership although I still support BN. I believe BN is still the best compared to PR when it come to ruling this country, but we seriously need to get the right candidates to do the job instead of the bunch of goons we have now who are only interested in enriching themselves with their positions in government.

God bless you Tun.

To CSI.

You called Anwar a "good strong leader"? Tell me Mr genius. What had Anwar done for this country when he is in the government? He is the number two man in power, right? What big changes that benefited the people is initiated by your hero Mr Anwar? During the financial crisis in 1998, do you know what your so called hero does? He caused many people to go bankrupt by implementing his genius policy. Next time go and get your facts right before you call a rat a tiger.

Only unappreciating moron like you will say Tun's failed.

To wesuffer,

Tell me, what guarantee we have that if we don't vote for BN but vote for PR, things will be better? Can you guarantee things will be better?

I agree that some leaders in BN are not worth a sen, but then again, what PR leader is initiating now to take over the government is not very gentlemanly too. Why must he ruin Malaysian economy just so he can take over the government now and become PM?

Is becoming PM so important to him that if peace had to be forfeited, so be it, and if some life had to be killed, so be it? Are we all living in great misery now? Are we all suffering under the present government now? Are there many deaths due to the present government abuse of power now? Are many of the rakyat dying due to food shortage now? So, why DSAI must become the PM now? What's the hurry that he can't wait for the normal process of democracy?

Please enlighten me.

To Ajith,

If there are too many skeletons left behind by Tun, don't you think Tun will sit down quietly and enjoy his life and not caused any mischief that might get the leaders who had the power angry?

You are another example of a nut who does not use his brains to think before speaking. You think Tun is

a conmen and yet you keep coming to his blog. What's wrong with you? Are you a prevert? You should dissapear forever from this blog.

Sorry for this rudeness Tun.

By crazyidiot on September 22, 2008 1:00 AM

Hi Tun,

Taxi's nowadays are too expensive. Living cost has gone up tremendously. I don't think 8.5% inflation is a true number. It's more like almost 200% because the price of all raw materials have gone up "Individually". Let's say we want to open up a toy shop selling toys. Plastic gone up by 8%, metal gone up by 8%, paint gone up by 8%, electrical goods gone up by 8%, shop rental gone up by 8%.... and it keeps on adding up and finally kills the consumer. It hurts the people. It hurts our pocekets. It hurts our loved ones. It hurts too much.

IT HURTS!!! DOES BADAWI UNDERSTAND ENGLISH???

It's hard to imagine that with all this money, he's given his bloody useless son in law to open a new bank ECM LIBRA and make more money out of us. He's a politician. He shouldn't be going around doing these things. He's making us damn bloody angry. We have no other choice to vote for the opposition as long as he or his deputy or the people that support him are in power. It's not because we want to do it. It's because he isn't doing anything to help the pain.

He's just putting salt on the sore.!!! It makes the pain unbearable.

By crazyidiot on September 22, 2008 1:02 AM

You know the source of our pain.

We have no better choice. It's a T-junction with no U-turn allowed.

By PAL on September 22, 2008 1:06 AM

Sir, my thoughts are different. I will vote for whichever person / party that shows the ability to do the good job of running a clean and efficient Govt that can grow the country. It has nothing to do with race or sex or age or NEP. The way things are going till March 8, voters did not have much choice. Other than BN, other parties are "small". Too many mistakes has caught up with BN. If BN continued, it can only get worse. Hence, I believe some voters out there felt they had to take a chance on the opposition. The way out was voting for anything non-BN. When it is already at the bottom, the only way is up - at least give BN a chance to wake up, wise-up and improve. Alas since March 8, we still see obvious mistakes like getting Mercedes cars while the Govt keeps asking the people to change lifestyles. Or the flip-flop use of ISA.

By crazyidiot on September 22, 2008 1:13 AM

He's mentally unstable. He should be sent to the psychiatric unit. They sent him to the wrong building. They should have sent him to hospital instead of Parliment.

Badawi is digging a grave for the whole BN with loyal accomplice Najib. Both are partners in crime.

By crazyidiot on September 22, 2008 1:22 AM

It seems rather ironic that AAB & Najib are religious, holy and fearful of God, when their actions prove otherwise.

They put on a pitiful, sympathetic, religious mask and think that the people (27 million citizens) are fools to believe that it is their real flesh and blood.

I may be sarcastic, but I always hit the nail on the head.  
By crazyidiot on September 22, 2008 1:23 AM

AAB has no feelings for the people. He just keeps sleeping and dreaming of wonderland. He doesn't know what's real and what's a dream.

Salam Tun

BN and PKR is like a brand of products.

During your time, you had upgraded the products of the brand and promote it very well. Most of the Malaysian bought and used the product and they felt the effect and trusted it even though some has side effect.

The other brand did not sell very well coz they were not effective and caused a lot of complication.

After your resignation the products still sells very well but the new CEO take for granted. Instead of working on R & D to improve the products in order to combat current and future diseases they bring down the standard of the product but still expecting the same demands.

A new products combination from your former competitor products were launch. Their Advertising and Promotion were very aggressive. Some of your former customers support their products even though the products shows bad effects.

Dear Tun, you have to come back and create a new R & D team to work aggressively and launch a new product under the same brand with differnt package to get back all your former customers. Heal the malaysian

Salam Tun,

Mengapa Tun menjadi jadi menghentam PM sedangkan itulah orangnya yang Tun percaya sangat satu masa dahulu. Tun kata Tun pandai tapi kena tipu juga dgn gelagat Mr Clean Pak Lah. Ini bermakna Tun juga senang di tipu. Pak lah tu tak hairan dgn apa yg Tun katakan padanya. Dia buat pekak jer. Apa yg ada pada Tun sekarang? Tun adalah seorang pesara yg malang yg bersara atas dasar kecewa kerana desakan supaya Tun bersara. Tun sekarang ibarat berpekik pada sebatang pokok, kuat ke perllahan ke tiada siapa yg kesah. Ahir kata saya tabik tun kerana telah berjaya membawa Malaysia ke pelusuk dunia dan saya kesian nengok tun kerana dlm usia yg tua masih lagi mempunyai musuh.

Apalah malang TUN.

Dear Tun,

Bernama reported that Jerlun Member of Parliament Datuk Mukhriz Mahathir, who has announced his intention to contest the post of Umno Youth chief, Sunday called for an immediate stop to attempts to restrict party members from meeting with leaders or candidates, saying they were contrary to the democratic practice in Umno.

He claimed that some Umno Youth members had been prevented from meeting with him while others had been disallowed at functions he attended.

"I see unhealthy elements (in the campaign for the contest for Umno Youth chief) in the form of restrictions. When I am invited to meet with friends in the divisions, certain (Umno Youth members) people are disallowed there.

Comment:

UMNO memang dah rosak teruk. Kalau beginilah keadaannya maka harapan UMNO tidak akan kesampaian untuk memulihkan parti yang telah dipunahkan oleh Pak Lah, koncu-koncunya dan keluarganya.

Sungguh amat menyedihkan jika keaddan ini terus-menurus kekal sebagai budaya UMNO.

Kita akan lihat UMNO hancur dan yang menghancurkannya ialah Abdullah Ahmad Badawi. UMNO tidak akan dapat memerintah lagi dan Abdullah Badawai akan dihina dan dicaci sampai habis hayatnya.

JIKA PENDEK UMUR PAK LAH TIDAK MUNGKIN IA DAPAT DISEMADIKAN KE TANAH

BN lost because the non-malays turned their back away from BN while at the same time the malays are split.

So why are we only punishing the malay leaders?

By pakbelalangAuthor Profile Page on September 22, 2008 2:06 AM

Dear Tun,

Now that Pak Lah will have no choice but to resign immediately, the door is open widely for Najib, Ku Li , Mahyudin, Rais Yatim to contest for presidency. Leave it to UMNO grassroot members to decide whom they want their new president. All of them stand good chance to win the race. If the grassroot members make one of them their choice then we have to accept it with an open heart. There should not be anymore condemnation of the new president. The majority is always right.

8. Actually the present leader's involvement with graft, his support for his son's business, the power he gives to his son-in-law, his well-known sleeping habits, indecision, lack of ability to handle problems, sudden withdrawal of oil subsidy, cancellation of the bridge to Singapore, wasting money on the unused RM800 million (Johor Baru) Customs, Immigration and Quarantine building, cancellation of the railway double tracking and electrification project, the monsoon cup and lots more are what turned the voters against BN.

You left out the points below:

- 1) Menggunakan ISA dengan sewenang wenangnya (dengan sesuka hati) ke atas rakyat Malaysia.
- 2) Bermain main dengan kepimpinan UMNO supaya tidak dicabar pada Disember untuk calon Presiden
- 3) Bertukar tukar portfolio macam budak umur 2 tahun selepas membentangkan budget 2009 tidak memberi faedah kepada rakyat.
- 4) Tidak mahu turun takhta.
- 5) Tidak memberi kebebasan kepada media untuk melaporkan yang benar
- 6) Memungkir janji kerajaan dengan mensensor blog Malaysia Today.
- 7) Tidak membuat apa-apa apabila pendatang asing dari negara lain datang ke Malaysia dengan membawa penyakit, membuat jenayah, pencuri, menculik (ie kes Nurin) dan mengambil alih tugas tugas / kerja / pendapatan rakyat.
- 8) Tidak membuat apa-apa bila kastam dan pegawai sempadan ambil rasuah.
- 9) Tidak membuat apa-apa tindakan apabila hubungan diplomatik / politik dengan negara Mongolia terancam akibat kes Altantunya.
- 10) Membazirkan duit rakyat untuk mesyuarat dengan George Bush dengan membayar pelobi terkenal Amerika

Salam Tun,

(Ini lagi satu University Malaya generasi 80'an.)

We salute to your relentless efforts in laterally giving constructive views and opinions for the sake of improving the well-being of this beloved Nations, Malaysia.

Whatever the opposites want to say about you and your wittiness, let them do so! In fact, deep in the bottom of their heart they feel guilty and regrets. But they simply don't want to admit. Their minds has been poisoned for the past many years and it takes a little bit time to realized and repent.

At least they realized theirr own idolized has bewildered and move aimlessly, between choosing to rule the country without solid vision and destroying the beloved land with foreign interference. This naughty leader doesn't seemed to care that with his few billions RM will make Malaysia a PAWN STATE. What he care is Power!

A loyal citizen won't be dragged to his foolishness in the long run because what they will encounter is a Destruction of Malyasian Identity.

For the younger generations, Tun was a Great Statesman with Vision. He don't do with billions RM to stick to the helms of power for 22 years. He don't need to buy anybody, he don't need to Pawn The Sovereignty of the Country. He wisely used that billions to make Malaysia and Malaysians prosper. Rememeber that 8% growth achieved continuously for many many years under Tun's rule. His more on the Prosperity. He's a leader with pragmatic approach.

Remember when his opposites cursed him on Industrialisation, Proton, Penang Bridge, KLCC, Putrajaya, all the dynamic-innovative train systems in KL, the Lee Kuan Yew-envied-Formula 1 in Sepang, the modelled KLIA International Airport, the Pegging System, the Dinar Idea, Bersih Cekap Amanah, the exhaustiveness he suffered as a Salesman and Marketing Professional to sell this country to the Whole World. Thank Goodness. All for the sake of being Cursed by the Opposites. Our small brain and little body was lying comfortably in bed embracing beloved wife and affectionately cuddling our bautiful children when he endured all the pains to be a Productive Prime Minister!

Don't worry Tun, many of the silent majority still stick to your fashionable minds and discipline. Millions out there appreciative of your WISDOM. You don't hurl abusive and sarcastics words to stick to Legendary. You don't condemned to be praised. That Malay Easily Forgets, Chinese Easily Forgets and Indians Easily Forgets are and eyesores and nuisance to the Silent Majority! We valued Love, Peace and Harmony, Negara Kita Acuan Kita!

Respect you Tun.

Out of ten, eleven say YES to your Foresightedness and I repeat again, WISDOM. Economics and Politics. Not Cheap Rethorics or Hypocicies, whats more Aimless-Dreams and False Hopes.

Respect to the Genuine Elderlies.

Sincerely 40' something,

DI SINI SAYA HENDAK MENGAJAK SEMUA RAKYAT MALAYSIA BERFIKIR BEBERAPA PERKARA.

1. KENAPA KUASA BESAR DUNIA BEGITU SIBUK DENGAN SENARIO POLITIK NEGARA KITA DENGAN MENYOKONG DATUK SRI ANWAR DAN PAKATAN RAKYAT. APA TUJUAN DAN MAKSUD

SEBENAR NEGARA LUAR MENCAMPURI DAN MENYOKONG MEREKA.

2. GUSDUR (bekas presiden INDONESIA)MENYOKONG DATUK SRI ANWAR,SIBUK NAK MENCAMPURI URUSAN POLITIK MALAYSIA,SEMASA MEMERINTAH NEGARA SENDIRI PUN DIA GAGAL.KENAPA MENYIBUK.

3. JIKA BENAR ADA AHLI DARI PAKATAN RAKYAT YANG DATANG BERJUMPA DENGAN AHLI BN DENGAN MENAWARKAN GANJARAN YANG LUMAYAN. DARI MANA PAKATAN RAKYAT MENDAPAT SUMBER.

4. JIKA PAKATAN RAKYAT HENDAK MENGHAPUSKAN RASUAH JIKA MENTADBIR MALAYSIA. TIDAKKAH TINDAKAN MEREKA SEKARANG MENUNJUKKAN PAKATAN RAKYAT LEBIH MENGAMAL RASUAH SECARA TERANG-TERANGAN DENGAN MENAWARKAN GANJARAN KEPADA AHLI BN YANG TERTENTU.

KESIMPULANYA,FIKIR-FIKIRLAH WAHAI RAKYAT MALAYSIA KENAPA,APA DAN MENGAPA SEMUA INI DI LAKUKAN. Saya doakan kesejahteraan buat Tun Sekeluarga semoga diampun Allah segala dosa yang telah lalu.amin.

Tun doakan saya juga ye.

saya masih ingat ketika tun merasmikan KTM 100 tahun 1985 diTaiping masa tu saya darjah 6.

dulu saya bangga sebab masih ada nama 'TANAH MELAYU'pada KTM.

tapi sekarang saya sedih sebab kebanyakan 'tanah melayu' telah

dijual pada orang asing..orang melayu tak jadi tuan tanah lagi

oang melayu melalak sana sini sedar tak sedar kita bukan tuan

tanah lagi..saya bukan nak puji kelantan,tapi hakikat kita

mesti terima ,semundur2 negeri kelantan.

orang melayu masih tuan tanah....semua orang tahu akta tanah negeri kelantan.

mungkinkah 20 tahun lagi orang melayu jadi macam

orang melayu singapore.

Salaam Tun,

May Allah bless you.

I am truly amazed that at 82 years old your mind still sharp and no matter what others said I can't find a word in any dictionary to describe my total respect and amazement on the way you see things and your strong leadership throughout your 22 years as the Malaysian PM.

When I heard that AAB now is the Defence Minister, I said what a disaster! But thank God, Malaysia is not a nation that the Generals have a huge appetite to rule the country like Thailand (General Sondhi), Indonesia (General SBY), Singapore (Brigadier General Lee Hsien Loong), or Philipines (General Fidel Ramos). If not, to have a weak Defence Minister like AAB will trigger God knows how many 'kudeta' in Malaysia.

We don't want to wake up in our fine morning to see many military tanks nicely parked in front of our house, instead of our sport cars, do we?

If all this while AAB give his 'command' but nobody really wants to 'do' (e.g in Ahmad Ismail case, whereby AAB 'command' him to apologize but Ahmad Ismail didn't really give a damn to 'do'), I think there will be time that our Commando unit will be a Sleeping Beauty unit under Defence Minister Datuk Tak BerSeri Abdullah Ahmad Tiduri.

If in his own country, nobody cares about the sacred command from a PM like AAB, I don't think American like Encik John bin Rambo will have any fear towards Malaysia. Compared to the stability and economic prosperity during your era, I think AAB is a disgrace. He is utterly indecisive.

May Allah bless Malaysia.

Dear DrM

Things you can do if you lose confidence of the CEO of a company.

- a) Stay on and wait for your salary every month but make sure you must be seen to be perform not as good as your boss.
- b) Stay on and make as much money as possible becoz your boss would not bother or know.
- c) Join another company.
- d) And if the management team is talking nonsense in the board meeting then no harm inviting competitors to join in the party.

But too bad we are talking about a country here.

Selamat Hari Raya to you & your family. Any open house this year?

Dear Tun,

Zaid's simple recipe to reforms

By SHAILA KOSHY (Star)

A reform is only complicated if you don't want it, says senator Datuk Zaid Ibrahim. If you want reforms, make the Government more transparent, adopt meritocracy and a more equitable system; that's not difficult.

Comment:

Semua orang boleh cakap tapi bila buat semuanya tak menjadi. Zaid is too idealistic a person but in reality the system just cannot be changed so easily.

What happens to the ex-gratia payment? You say you want transparency and yet you don't practise it. We want to know exactly how much being paid to the guilty ex-judges. Why is it so difficult when it is so simple to release the figure to the public. Where is the transparency?

Hi Tun,

With all due respect the thinking in terms of Western values do not make one forget one's own origin or root. Wonder during your administration why the education( maths and science) was to be thought using English ?

2. Please try to understand the Malaysian people are now wants a bangsa Malaysia. ( Which was initiated by yourself as part of Vision 2020).

3. Supporting any party candidate that are not from BN base do not mean the people still support the Race base party but because this Non BN candidate / party has been advocating certain righteousness issue compare to the current ruling administration party.

4. It's disappointing a former PM such as your good-selves is advocating on necessity on RACE at homeland and advocating about peace in to the westerners. Such a high level of HIPOCRISY in the approach.

5. The so called leader who put Malaysia on the world map has the most shallowest thinking of all time

PM in Malaysia. Such a disappointment to even think how the past people has digest this sort of leadership for 22 years. Such a disgrace to the nations to have a RACIST card player as a leader and justified that with Asian values.

6. Such a disgrace and hypocrite when Tun advocating the Human rights for the War victims/ criminalise war to the Western world at the same time Tun with your own word said UN Human Rights Declaration is a westerner values imposed on others.

7. Nation building is not about BUILDINGS, City and huge bank balance in every crony's bank account.

8. Developed nation status is not defined by the number of Mega cities, and buildings in a country. Still wondering who's values are those to have a TWIN TOWER , tallest tower, longest bridge, mega city, technology city( silicone valley- cyberjaya/technology park, putrajaya- washington dc, Petronas Tower - US twin tower, ) etc if it was not mooted by the Western country and values.

Salam Ayahanda Tun and a very good morning to you.

I think that the government should just state evidently to the public and prove to the public about our revered Constitutional Charter. For in it, any good lawyer would come to the conclusion that there is simply no proviso in support of even a single shred of non-democratic means. Disseminate information's about the mechanism of consequences that lies await those who dare's our democracy structure. This would put to rest public apprehensions via the strongest of means: education. The genuine threat to this country is:

1. The present PM along with his cronies and their toilet roll reforms and policies.

2. The present government dancing to the beat of Anwar's tune. As by doing this, they are only reaffirming Anwar's boasting overseas that he is now in control of politics here and the newly crowned power broker.

Any good lawyer in UMNO must surely like to read. Lawyers read the smallest of details even on cereal boxes and soap wrappings just out of instinct. So read about the clause to summon an emergency extra-ordinary meeting in order to discuss, pass resolution and how the MT are duty bound to deliberate further of any pertaining issue(s) that was raised. Read about the required quorum from the very simple but powerful divisional level in order to fulfill and trigger that clause into effect. I humbly submit that if anyone bothers to read, they would see there exist a plethora of information's to educate one's mind and soul. It's true what Tun had said often then, kita ni sebenarnya malas membaca. Reading is the key to freedom, wealth, righteousness and legacy. And on that note Tun, I shall begin to read your latest book by today, Inshallah. Thank you.

P.S: Tun, a man was once asked by News Week in 1999 about his take on the future. And his reply was: "I am not that much bothered by it- as just 10 feet past ahead, is all darkness anyway". Not even Homer Simpson would be caught on his worst scripting day saying that to the media.

TUN ynag dihormati.

1.Pelbagai cara telah TUN usahakan untuk mengingatkan ahli umno betapa akan rosak nya negara ini selagi AAB masih tidak diturunkan.

2.Namun segala pandangan dan nasihat TUN tidak diperendahkan oleh mereka.

3.Namun TUN tidak sendirian, di dalam Blog TUN telah menterjemahkan suara rakyat yang menyokong pendapat dan pemikiran TUN. Lebih 7 juta yang melayari blog TUN hampir 95% menyokong dan masih setia dengan perjuangan TUN.

4.Apa kah ini masih belum membuka mata pemimpin2 UMNO? Apakah AAB masih mendabik dada rakyat masih inginkan dia sebagai PM? Dan masih lagi asyik berulang2 ucapan nya."I know what is best for the rakyat". So, Please step down!! That would be the best for rakyat.

5.Dalam meeting MT baru2 ini pun mereka masih lagi mempertahankan tarikh peralihan kuasa 2010. Setelah TSMY membuka lorong untuk mereka (MT) memberi pendirian namun tidak ada kedengaran apa2 perkara berbangkit dalam soal itu.

6.Mereka2 MT ini tak ubah lah seperti lalang. Hari ini mereka begitu taksub akan sesaorng. Tapi itu akan berubah juga bila muncul orang baru. Dan mereka akan mencium tangan orang ini pula dan melupakan terus tangan orang yang mereka cium terdahulu.

7.Mereka2 ini bersifat lemah. Tidak ada keyakinan diri sendiri.Dan mereka ini tidak mungkin akan menjadi seorang pemimpin yang berwiba dan berwawasan.Tapi hanya pemimpin cari makan.

Selamat berpuasa dan menyambut Hari Raya .

Asalamualaikum and Hi Tun,

I'm off topic once more;

Its about ISA again, I totally DISAGREE with the police releasing Teresa Kok and the other culprits. She should have been HELD there for many years. She have repetitively questioned the Islam rights in Malaysia. 3 times in a row. For bloggers who doesn't realize these (especially the Muslims), let me refresh your memory;

[1] Gaining cheap popularity among the Chinese (and Christians) by exaggerating issue on "Jawi signboard". Strike One!

[2] Proposed JAIS to elect at least 30% Non-Muslims into its department for enforcement purposes. (Nauzubillah, betul kata Rasullulah, akhir zaman nanti, urusan Islam akan ditentukan oleh bukan Islam). Strike two!

[3] Asked the mosques in Damansara area to lower down the speaker's volume (in other words, might as well shut down the speaker). Strike three!

Should we allow this Anti-Muslim/Anti-Malay to lurk around in Malaysia. I'm sure she's not even feeling safe outside her house now that all the Muslims/Malays knows what she did. Shame on you. May you rot in hell!

We can forgive but we will never forget!

Dear Tun

Maybe you already knew this. During the election, 9 out of 10 of my friends and colleagues, including myself that we will vote to anyone else except BN. No matter MCA, MIC, or UMNO. This is how angry we are during that time.

The present government simply under estimate the power of internet and information flow today. They should take a course in Information Technology analysis at any University.

Had some teh tarik session with my friends couple of days before and we came to conclusion that if election again, BN will loose the majority if the current situation not changing.

by the way, all my friends and colleagues are around age 20++ - 35. multiracial.

Regards,

Michly.

Assalamualaikum, Tun. Sorry for the late response. It is because I'm trying to contact my members. For your info, I am the supervisor for our political watch group. we concentrate mostly in Kelantan. We consider ourself as being 'hired' during the 2004 election. Our back-stage role made a prediction, and it turned out that our prediction of BN nearly taking over Kelantan, the close call result, and the reason for the shift to be very near to the polls result. And so was with the case of the downfall of BN in 2008, and the lost of Datuk Wa. Even the number of seats won by BN seem to be in accordance with our prediction.

2. Referring to para 12 of the snippet, the race tainted voting can be seen in the light of the Opposition campaign in 2008. For eg, BN is a racist party, preferring the Malays, and performing divide and rule policy in their governments' policies. So, even though the name of the parties are not related to a particular race, but they know fully well who are (the race) behind them. With the winning of the major towns area, which are dominated by a particular race, added another sign of racial voting. So, it is a calculated voting, with the mind of racial alliance in their conscience. If not, the smoke screen they are using in their campaigns did the impact.

If we refer to Anwar's blog, we can see how their supporters start to question the Opposition struggle when the PR made the statement that they supported the Constitution!

3. As for yb nasir (22.9.08:5:33am), Tun tidak akan serah borang selagi tidak mendapat sokongan berdokumen dari cawangan-cawangan. Takkan Tun nak serah borang, dan kemudian biarkan di buang ke dalam tong sampah, atau terpedaya dengan sokongan sesetengah pihak? Cam na. Betul tak Tun?

So, we can't help but to say that it is racially tainted, the very least, and the full brunt will be seen in the next election.

Good morning Tun,

When you were the PM, you carried out mega pojects. These pojects created business opportunities for the people of the country. The people had a higher income and they were happy. They were however not very happy because there was corruption and favouritism in the way contracts and pojects were handed out.

When the present PM took over, he was percieved as a very religious man and therefore clean. Everyone had the thought that he would fight corruption and favouritism. I for one know that he was not as clever as you and as dynamic as you. But all that I hoped that he would accomplish during his tenure was to reduce corruption and favouritism. To me, a simple minded person, this would be good enough to ensure that the economy would remain at the level he took over. But what I had in mind was not to be. I voted opposition, not because I like them.

I thought the recent elections were an eye opener to the ruling party. But alas, more fumbling and the raayat is suffering.

So Tun, what to do now?

God Bless

"12. As for rejection of race based politics, why did the voters vote for PAS, a 100 percent Malay party and DAP, a predominantly Chinese party."

Salam Tun,

I believe the above statement is misleading. UMNO, MCA & MIC IS race-based political party. No non-Malay or non-Bumi may join UMNO, no non-Chinese may join MCA and no non-Indian may join MIC.

Where as, anybody from any ethnicity may join either DAP, PAS & PKR. The only extra requirement for joining PAS is being muslim. Even this is not applicable for the so-called Kelab Penyokong PAS.

For the time being, I remain politically non-partisan, as far as membership is concerned.

Thank you & wassalam.

Sikit Tun saya nak nasihat kepada Khairi On yang menasiti Tun agar berhenti menulis, memberi nasihat, mengkritik PM sekarang dan perkatakan benda yang PM sekarang buat banyak tak betul.

Wahai Khairi On, nama dan fikiran sama dengan KJ yang tak tahu malu dan bodoh dalam hal ehwal politik tapi buat macam tahu dan nak jadi hero. Minta saudara bertanya kepada kawan2 pegawai didalam kerajaan sekarang adakah mereka setuju atau tak tak setuju mengenai PM dan Timbalan PM sekarang yang banyak bercakap, menghabiskan duit negara untuk menantu, anak dan diri sendiri.

Untuk Tun teruskan telisan Tun, sapa tak nak baca biar pe kak depa.

12. As for rejection of race based politics, why did the voters vote for PAS, a 100 percent Malay party and DAP, a predominantly Chinese party.

Sebab utama penerimaan PAS dan DAP bru2 nie ialah rakyat sudah bosan dengan UMNO dan BN..tak kiralah Tun masih bergelar PM lagi skrg pn,rakyat juga akan menolak Tun..rakyat bosan dengan politik omong kosong UMNO..hanya pandai bercakap besar dan menabur janji kosong.

Knapelah korang sume kaw2 mengutuk ulul-amri yg korang sume sanjung dan angkat sebagai 'ulama' besar nie...kesian ah kat Pak Lah..pemimpin yg korang sume pangkah mase PRU 2004 gak..skrg sume bru nk myesal ke?termasuk Tun sendiri?.dh terlambat ah..bru 4 tahun jd PM dh nmpk menghancurkan 22 tahun Tun jd PM..

Dear Tun,

Thank you for writing again. Your analysis about the March 8 , 2008 election results is partially accurate but I would prefer to say that such significant loss by BN in a short period of time from 2004 to 2008 is caused by many factors besides what was written by you. For example , Lingam tape, Keris waving , Zakaria's case , Pakatan Rakyat under the leadership of Dato Anwar Ibrahim and his orator skills during the campaign period , rakyat's expectation, Bersih demo, Hindraf demo, 'perception of greater deterioration in race/religion relationship 'etc has helped to create this perfect storm. Generally , all these have helped to create a negative sentiment that translate into votes for the opposition against the BN. We would not be able to put an end to all these discussions about why BN loss so significantly if we try to just limit or simplify the factors to what we would like to think is all that contribute to the March 8 results. Also wishing you Selamat Berpuasa and Hari Raya!  
By asam jawa on September 22, 2008 9:55 AM

Assalamualaikum YABhg Tun

Saya bersetuju dengan pendapat YABhg Tun bahawa pengundi Cina pangkah PAS. Trend ini masih kekal sehingga sekarang dimana mereka akan pangkah parti bukan kerajaan. Pada masa yang sama mereka ambil kesempatan menuntut kerajaan memberi habuan kononnya mereka menjadi undi penentu. Semasa Datuk Jo mula bertanding, Cina Jitra minta kelulusan tanah untuk To'kong belakang pekan Jitra.

Pengundi Cina tetap pilih DAP bila calon mereka bertanding. Manakala dikawasan tiada calon DAP, mereka pilih calon pembangkang.

MCA dan GERAKAN menang jika ramai pengundi Melayu. Biasanya pengundi Melayu pilih calon BN dan menolak PAS walaupun calon BN bukan orang UMNO.

Semasa PRU12 lain sikit. Pengundi pangkah pembangkang sebagai protes ketidakpuasan terhadap kepimpinan UMNO. Jadi MCA dan GERAKAN tidak lagi mendapat undi Melayu manakala bukan Melayu seperti biasa tetap pilih calon pembangkang.

Ahli parti komponen BN perlu sedar dan bertindak segera untuk memulihkan keyakinan pengundi. Mereka mesti sedar bahawa kemenangan datang dari majoriti pengundi bukan ahli parti. Pengundi mahukan DSAAB segera berundur. Jadi bertindaklah dengan sewajarnya sekiranya masih ingin terus berkuasa.

Pemimpin UMNO boleh beri pelbagai alasan dan pendapat untuk menjaga hati pemimpin demi kepentingan sendiri. Manakala rakyat sudahpun tetap dengan keputusan supaya DSAAB berundur dengan segera.

Semoga YABhg Tun sekeluarga dirahmati Allah.

Datuk Seri Dr Rais Yatim  
Tan Sri Muhyiddin Yassin  
Datuk Seri Syed Hamid Albar  
Datuk Ahmad Zahid Hamidi  
Datuk Dr Ng Yen Yen

Pada pandangan kasar saya, mereka adalah yang terbaik untuk memimpin negara.....tak taulah kalau di

antara mereka ada agenda tersembunyi yang tak kelihatan....maafkan saya kalau tersalah pilih....

Apa pendapat Tun mengenai mereka semua?

I am a very direct person

It is very sad to learn that MCA,UMNO leaders are too busy with

their party election.Apparently they are not too concerned with

the international Financial turmoil following the collapse of Lehman Brother and AIG.

The leaders of component parties of BN should also take serious concern about the financial turmoil and other important internal issues that might affect the life of every Malaysian ,so that they would be respected by every Malaysian .

/// 4. But what happened shocked me because Chinese voters not only refused to vote for me, which meant a loss of 3,000 votes but they voted for PAS. I needed 6,000 more votes to replace 3,000 voters

who did not vote for me and another 3,000 because they voted for PAS.

5. I lost by 900 votes. If the voters who were dissatisfied with UMNO and BN voted for a third party or refuse to vote, the BN would lose these votes but may still win if the margin previously was big and the opposition did not get additional votes. But when votes were taken away from BN there would be a decrease in BN votes. Then when the votes are given to the opposition there would be an increase in votes for the opposition and so the gap is widened and the opposition would win. ///

Hello Doctor,

Mudah Lupa, or as usual spinning your side of the story? If I remember correctly, you were so sure that you can win without the Chinese votes that you told the Chinese just before Polling Day that you don't need their votes. And you got punished for it.

Yes, you were shocked and rightly so. Because you thought you will surely win. In that instance, the Chinese did not abstain or spoil their votes. They swung their votes to Haji Yusoff Rawa. You lost by 989 votes, not 900 votes.

[http://en.wikipedia.org/wiki/Mahathir\\_bin\\_Mohamad](http://en.wikipedia.org/wiki/Mahathir_bin_Mohamad)

Bravo! T for exposing the stunt of the spinning doctor(Oops, pensioner).

Folks, today we learn a few lessons :-

- 1) new concept of arithmetics :  $989 = 900$  (our teachers used to teach us 989 to carry forward to 1000)
- 2) new act of spinning, you can sway info to your advantage
- 3) you can always open your eyes, suppress your conscience and point your accusing finger to someone, although four others are pointing back to yourself.
- 4) it takes a "been there, done that" person to know hanky-panky of another bird of the same feathers.

By Pak Ali on September 22, 2008 10:14 AM

Salam Tun,

Sebenarnya Tun, zaman sekarang ada 4 jenis golongan pengundi:

- 1) Pengundi veteran yg dah masak dengan parti mana yang boleh di percayai dan tidak boleh dipercayai. Golongan ini adalah hardcore penyokong UMNO, PAS, MCA, DAP dan MIC.
- 2) Pengundi muda yang baru sekali dua mengundi dah lebih senang terpengaruh dengan kepitahan berpidato dan janji manis yang dilemparkan. Mereka ni idealis dan nak semua perubahan secara cepat, maklumlah darah muda.
- 3) Pengundi tak kisah - fence sitters, mereka ni macam lalang, kiri boleh kanan pun boleh, kadang kadang mereka melihat dulu pihak mana akan beri gula-gula yang lebih.
- 4) Pengundi rasiet - mereka ni tidak tengok kepada manifesto calon atau parti, tetapi warna kulit. No matter how bad a person is asalkan sama kaum mereka akan undi calon itu.

Tun, saya rasa Malaysia akan memerlukan sedikit masa lagi untuk matang, untuk calon pilihanraya berkempen dengan memfokuskan isu-isu penting dan bukan character atau parti assassination. Penyokong-penyokong parti di Malaysia pun perlu lebih matang supaya tidak menyokong membabi buta dan terlalu emosional dan agresif. Format kempen pilihan raya US adalah contoh yg baik dan dibuat di dalam dewan yg tertutup agar tidak menyusahkan orang awam.

Selamat terbuka Tun sekeluarga

"14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party."

Come on, let's face the truth. Though it may not be what you like to hear, the BN concept and governance is no longer relevant. Ask yourself, how can something drafted some half a century ago be relevant today? Times changing, people changing, society changing, mindsets changing, needs changing .....

Pak Lah is not the only problem. It is the whole BN concept and governance. Replacing the leader is like changing the bottle not the wine. Continual denial is not going to solve the problem. It is taking us round and round, leading to nowhere.

Anybody who is sensitive, receptive and responsive to the needs of the people will be the leader of the day. But it must be supported by a fair and equal system. I admire Zaid for his very open and unbiased principle. We need people like him to lead the country - OPEN, SINCERE, FAIR.

No need to look elsewhere to regain the confidence for BN. The problem lies within BN itself. So, stop sweeping the problem under the carpets, remove your tinted glasses and broaden your mindset, before we can even start to talk about a fair and equal country for all!

Tun,

Di mana-mana bila orang bercakap tentang UMNO dan melayu, orang akan cakap UMNO mesti tukar perangai (korupsi) dan tukar kepimpinan.

Masalahnya orang-orang yang bercakap ni, mereka berada diluar UMNO. Mengaku menyokong UMNO bila ditanya tapi tak pernah jadi ahli UMNO. Mereka mencadangkan supaya UMNO tukar itu dan tukar ini. Itu tak relevan dan ini tak relevan. Semua orang tahu akan perkara ini akan tetapi adakah pucuk pimpinan UMNO mengambil kisah tentang hal ini? Sudah tentunya buat pekak telinga sahaja.

Dimusim pemilihan di dalam parti ini, ahli-ahli UMNO sendiri diperingkat akar umbi hanya seronok jumpa2 sesama mereka dan tolong melobi untuk orang yg bertanding supaya undi geng mereka. Apa agenda orang yang mereka patut undi mereka tak kisah. Asalkan ada geng dari cawangan lain untuk undi, mereka ikut aja. Wang dilempar sana sini...

Perjuangan asal UMNO dilupakan begitu saja. Menyertai politik di dalam UMNO hanya untuk kepentingan peribadi. Perjuangan demi orang melayu dilupakan.

Pucuk pimpinan tak ada sorang pun yang boleh diharapkan untuk ubah kepimpinan ini. MT UMNO, menteri kabinet semua takut untuk bersuara. Semua ikut punggung PM aja. Takut kalau bersuara besar sikat akan dipecat. Tak tahu nak pergi mana.

Tks/Fauzi

Dear Tun,

I agree with what you said. The revival of Bn is vital. Certain group are trying to demolish the strength of BN which I think is the pillar of our long lasting "perpaduan". They are trying to disintegrate BN so that rakyat "berpecah" thus easily for this group to penetrate and achieve their agenda. To revive Bn and get the confidence of the rakyat is not an easy task. Within BN as what we seen and read in news paper it seems that the party is in disagreement in many things. During your tenure things are solve immediately but today things move differently. To me pakatan rakyat is not an ideal alternatif to BN. I doubt Pakatan Rakyat can do better than what we have achieved in the last 50 years under the perikatan and BN. I hope BN should work the same formula as before put aside all disagreement and work together for the betterment of our beloved country and rakyat. Allah bless Malaysia.

Dear Tun,

I think Paklah purposely lost in this march 2008 election, because some of the senior ministers was very hard to remove them i.e. like samy, khir toyo etc. He is fully control whether to win or lose in the election. No body dare to say anything or challenge him. even anwar ibrahim can not turn him.

Kehadapan Tun,

Tak tahu kenapa kali ini saya terpanggil untuk menulis komen di blog ini....biasanya saya hanyalah pembaca tetap tapi mungkin rasa rindu pada Tun dah tak dpt dibendung lagi...saya pernah berpeluang bersalaman dgn Tun pada tahun 2004 (selepas Tun meletak Jawatan)di suatu majlis bersama Bintang Kecil. Saya tak tahu orang lain pernah lihat Tun secara dekat atau tidak, tapi saya cukup kagum melihat Tun sehingga saya menangis tersedu-sedu. Betapa saya mengagumi Tun. Terima Kasih Tun atas khimat dan jasa Tun Selama ini. Untuk Pengatahuan Tun setiap tahun saya akan ke Langkawi dan pergi melawat Gelari Perdana - tak jemu membaca kisah kejayaan Tun dan begitu banyak sekali penghargaan yang Tun peroleh dari orang luar tapi saya pelik kenapa orang di malaysia ini tidak pandai menghargai orang yg bernama TUn Dr Mahatdir Mohamad. Saya benar-benar pelik dan kecewa kenapa pucuk pimpinan tak terfikir untuk menjadikan Tun sebagai rujukan & penasihat...  
Apapun saya tetap mengharapakan UMNO & BN akan pulih seperti sediakala dan negara ini akan kekal aman & damai...

Semoga saya berpeluang membawa anak saya berjumpa Tun sebab setiap kali saya membaca blog ini mata saya akan berkaca dan dia akan bertanya kepada saya kenapa mama sedih bila mama reading laptop??  
dengan senyum saya akan ceritakan pada dia ttg Tun & keluarga..

Tun, saya ucapkan semoga Tun & isteri akan terus sihat & panjang umur serta diberkati di dunia & akhirat. Selamat hari Raya & Maaf Zahir Batin - salam lebaran untuk keluarga Tun....

Tun Mahathir,

Sememangnya salahguna kuasa dan rasuah oleh para pemimpin UMNO, termasuklah para pemimpin di era Tun sama saja dengan apa yang berlaku sekarang ini. Tidak ada kurang dan lebihnya dan Tun janganlah cuba mencari alasan lain dan cuba menyalahkan orang dalam kekalahan dalam pilihanraya 2008.

Hanya ketentuan oleh Allah SWT yang mungkin untuk menghukumnya di zaman pemerintahan PM yang ada sekarang, bukan di era Tun.

Insaflah Tun!....ini berlaku adalah akibat daripada tangan-tangan seperti Tun dan lain-lain pemimpin lalu ataupun yang ada sekarang.....kesemuanya ini adalah balasan daripada dan ketentuan Allah SWT, yang boleh memilih masa dan ketika untuk menentukan balasan ke atas perbuatan kita semua.

Wallahualam.

YBhg Tun,

BN must take important note of its performance, it must serve Malaysia with extraordinary performance, when that performance disappears because the system on what it's been based becomes eroded, then BN have lost everything.

BN, UMNO and other component members, must have 3 elements to succeed:

1. A government that people have confidence in and will trust when tough decisions need to be taken.
2. Leaders who are above board, who make decisions based on necessity, not how they will personally benefit. The leaders should make decisions not to get them richer, but decisions that make Malaysia richer.
3. Malaysia needs able men in charge.

I am very sad, today's present Government fail in meeting above 3 criteria.

The Malaysia of Today make me feel like living in a communist country, arresting people here and there.

Excuse me... even communist country like China also won't simply detain ppl especially when they didn't do anything wrong! Communist is an ideology from Karl Marx not from China... If u study communist history it's actually practice equal rights fair with no division... In Malaysia we always linked communist as terrorist because of the past confrontation in our country BUT we still friend with China...And do u mean that if you living in China (communist country) you will scared of being detain everyday? If like this, the

whole China population and tourists need to afraid living/going there...

ASSALAMUALAIKUM AYAHANDA TUN DAN BOPNDA SITI HASMAH

Berpolitik dengan cara MEMBELI,MENAWARKAN JAWATAN,MENMAWARKAN HABUAN seperti yang sedang di amalkan oleh anwar ibrahim adalah sesuatu yang amat MEMALUKAN DAN TIDAK PUNYA HARGA DIRI DAN MARUAH.

Berpolitik dengan cara melompat parti setelah mendapat kepercayaan RAKYAT SEBELUM NYA adalah LEBIH MEMALUKAN DAN TIDAK PUNYA HARGA DIRI DAN MARUAH DAN AKAN DI CELA OLIH RAKYAT TEMPATAN.

Berpolitik dengan cara ORANG BENGONG DAN LEBIH MEMENTINGKAN KELUARGA ,KRONI DAN KEKAYAAN SENDIRI adalah merupakan KEMALUAN YANG TERBESAR SEKALI DAN TIDAK PUNYA HARGA DIRI DAN MARUAH DAN AKAN DI CELA OLIH RAKYAT SATU NEGARA MALAYSIA.

Hi Tun

Thanks for the incisive analysis. I do agree with you that the 2008 general election results are largely a repudiation of BN, rather than enthusiastic embrace of the alternative parties. I do beg to differ with you however on the remedy though. Honestly I don't think that the solution lies in just getting rid of the current top leader of UMNO. A compelling case can be made for refining the BN model and making it respond to new demands. For instance, the BN can't just say that the problems of the Indians, for example, has to be left entirely to the MIC to handle. Neither can it say that the Iban or Bidayuh or Kadazan grievances has to be managed solely by their respective ethnic representatives. The ordinary rakyat looks up to the entire BN leadership, and particularly UMNO, to help them when their own ethnic parties fail them.

There are calls from all facets in our society for the government to review the draconian ISA. All walks of Malaysian lives, NGOs, Bar Council Society, politicians, PKR, DAP, PAS, SAPP, etc.

I can understand when when opposition parties are calling for the review of ISA, but we can read even MCA (a long closed party to the coalition ruling govt) is also calling for the review.

It seems the govt is indifferent to the public calls. A typical behavior that saw the beginning of the downfall of any organization or government when one is not listening.

Do not be so arrogant that you become so blind.

4. But what happened shocked me because Chinese voters not only refused to vote for me, which meant a loss of 3,000 votes but they voted for PAS. I needed 6,000 more votes to replace 3,000 voters who did not vote for me and another 3,000 because they voted for PAS.

Tun,

This shown that Chinese dont discriminate Malays and Islam. I learned that PAS in Kelantan treated Chinese very well. That's y all the races in Kelantan can go along well with each other. But in BN it's totally opposite!

UMNO ppl that giving racist statements dont get caught but reporter that get the punishment under ISA! UMNO ppl whom talk about racist statements get the advisory role although 3 years suspended. I dont think its fair. He still sleep well and eat well...

UMNO always claimed that they follow Islam. But when PAS said that Islam dont practice simply detain ppl without evidence, UMNO kept quiet... Actually it's not only Islam, i believed other religious doesnt practice such ways...That's y BN component parties lost confidence in UMNO and pull out from BN. And if the situation pro long, I would see others will pull out too.

That's why we have lost confidence with UMNO...

Salam,

TUN KATA:

But what happened shocked me because Chinese voters not only refused to vote for me, which meant a loss of 3,000 votes but they voted for PAS. I needed 6,000 more votes to replace 3,000 voters who did not vote for me and another 3,000 because they voted for PAS.

PANDANGAN SAYA:

Sifat perkauman sentiasa ada di Malaysia sejak sebelum Merdeka 1957. Cuma rakyat tak berani nak ungkit semasa zaman Tun. Depa takut kat Tun!Jangan marah Tun.

Kehilangan undi 3000 undi Cina pada pilihanraya Tun dulu kerana masa itu Tun dikenali sebagai "ultra Malay".UMNO pula nampak lemah ketika itu. Cerita orang2 tua kat saya dulu.

Beberapa lama kemudian Tun berjawatan Menteri dan sehingga kepada Perdana menteri, depa jadi kecut perut. Tiada pilihan kecuali menyokong saja, takut kot2 terlepas periuk nasi.

La ni Tun depa kata Tun dah berubah, depa kata Tun perkauman berdasarkan blog Tun ini kerana terdapat komen2 "sensitif" pembaca.

Pada zaman sekarang pula. Sekiranya saya seorang bukan Melayu, sudah tentu saya akan sokong siapa yang boleh bantu saya. Mereka akan sokong PAS kerana PAS sekarang dah mula hampir sama dengan aspirasi mereka. PKR dan DAP adalah seperti isi dan kulit.

Dulu lain sekarang lain. Pemimpin PAS generasi sekarang dah mula nampak macam orang PKR. Sudah tentu kalau saya bukan melayu, saya akan sokong orang melayu PKR dan PAS sebab nampak seolah2 mereka adalah penyelamat ("savior") kepada kaum2 bukan Melayu akibat ketidakadilan Dasar Ekonomi baru. Bagi orang Melayu pula, secara keseluruhannya orang Melayu PKR dan PAS adalah orang yang "nampak" lebih alim dari orang UMNO.

Mohon maaf jika terkecil hati jika tersalah bahasa terutamanya di bulan puasa ini  
By Daryl on September 22, 2008 12:45 PM

How can the country survive with corruption, questionable actions PDRM, judicial ruling that are suspicious, Ah Long advertising all over the place, poor Education system at best, and more I can go on and on. The problem doesn't fall on one person shoulder but the whole nation even though UMNO is putting blame on everyone else. PM Abdullah Badawi being weak just highlight all the problems we have but his inability to sweep it under the carpet probably help Malaysia from being one of the top is SEA to the last.

Saya sedih tengok keadaan Malaysia sekarang. Berpecah belah. Semua pentingkan diri sendiri. Tiada

kesudahan yang baik yang dapat saya lihat.

Menyentuh keinginan sesetengah orang memperjuangkan satu malaysia, satu rakyat, all malaysians...saya rasa terlalu hipokrit. Jika benar inginkan satu rakyat, all malaysians no race, apa kata kita semua dapat pendidikan yang sama. Hanya ada satu jenis sekolah. Tiada sekolah yang khas untuk kaum kaum tertentu. Apa kata kita semua dukung bahasa kebangsaan negara ini dan pastikan semua boleh bertutur bahasa ini dengan baik. Apa kata, kalau inginkan anak anak mempelajari bahasa ibunda masing masing maka kita semua belajar bersama. Satu jenis sekolah yang di dalamnya semua belajar Bahasa Malaysia, Bahasa Inggeris, Bahasa Mandarin dan Bahasa Tamil. Biar kita semua saling memahami satu sama lain tanpa ada sekatan bahasa. Biar kita semua ada peluang yang sama. Tiada perbezaan. Sebab pendidikan adalah asas kita. Kemudian selepas kita capai persefahaman ini, selepas kita betul betul nampak diri kita sebagai rakyat malaysia dan bukannya anak bumiputra, atau terasa dianak tirikan, bila kita buat sesuatu untuk semua dan bukannya hanya untuk komuniti kita sahaja, barulah perjuangan all malaysians boleh dicanangkan.

sekarang, di sebalik "perjuangan" itu, masih nyata pieces yang tak fit together. hanya sekadar menggunakan "perjuangan" itu untuk mendapat kuasa dahulu dan kemudian baru nak fikirkan macam mana nak capai satu malaysia ni. bila kita semua masih memilih untuk mengikut bangsa masing masing, bukankah kita hipokrit?

jadi saya tak setuju sangat dengan the so called perjuangan untuk freedom yang hakikatnya tiada tanggungjawab. memperjudikan nyawa dan keamanan untuk kebebasan yang hanya mementingkan satu pihak.

Tun,

The problem with the BN is the group leaders who are cancers to the whole BN are reluctant to be removed, yet to step down by themselves. Instead they keep on using the same threatening action such as ISA and Seditious Act to cool down anyone who came across their way of working style.

As such it already cause many people casting their votes for the opposition because the opposition are very flexible and willing to accept and listen to their stories.

Since time is becoming very short for the BN to keep their survivals, hopefully the BN leaders would do whatever it takes to clear up the cancers in the BN (By doing so please do not make harsh decision in arresting opposition leaders on political motives). Else, BN will become a history in a near future.

Dear TUN

On the subject of loss of confidence, very little is talked off the role of Malaysian Indian voters who voted across the board for the opposition. IT WAS A REJECTION of the MIC- period. This swing had a far greater impact in some constituencies then other factors in GE12.

VERY few of those who took to the streets were really aware of nor did they care about the hindraf memo. The fact that a hotch potch of 5 average lawyers(buruk?) could pull it off says volumes. Something was not right , here on the ground and nobody took the message. (you however TUN place an un justified weight on the content of the memo in your writings) and the pettion to the british queen.

Enough of the MIC they simply said, a pary that had the strongest BN BASE from GE1 till GE 11. but this time they walked the protest talk in the voting. WHY? YOur views on this , sir pls.

Another thing sir, there is always reference to the "nasib orang Melayu di Singapura" and the associated wailings and lamentations.

What is the State of affairs regards this in reality?.

Tried to get some info on the "Nasib orang india in singapore"

-maybe outdated ,but some points to note

-350,000 indians

-2 presidents, some ministers

-8 % of population

65% in the workforce

-16% with tertiary education! One in every six! 95 % literacy

-43% working in professional category!

I am a TRUE BORN AND BRED Malaysian and certainly NOT a fan of our conceited ,irritant and arrogant neighbours -But something not right in our place lah sir, by now we should be way ahead of them in all aspects.

Thanks

I guiltily voted for BN during the last PRU. I did so cause the only other option was DAP which didnt have my interest at heart. Had there been a PAS or PK candidate, I may have voted for them. I think since racial parties are a fact (no matter how much PR supporters try to say otherwise), it might be wise to see it from a racial point of view.

I am a Malay. I dont think Malays are superior or inferior to other races. I get flack from others when I try to defend the bumiputra policy but that is another story. Speaking as a Malay city guy in his late 20s, in my view the poor 2008 election results for BN was due to the following reasons:

1. Economy - higher prices of almost everything

2. Safety - daily news of rapes, child kidnaping, murder and robbery

3. Inactivity - with DAAB at the helm, we never saw progress. We hear about project cancelations, tax payers money being wasted, low impact projects and the corrupt getting richer. Real lack of leadership here.

I really dont care if there was corruption in the government or others getting rich easily as long as the country continues to grow and the rakyat enjoys prosperity. In my view, we need to look at the big picture which is the nations well being. I can live with others making a quick buck as long as the job gets done and the general rakyat benefits.

Most likely if you ask an Indian, he may say the HINDRAF handling had a role in his decision. Ask a

Chinese and he may point to the bad business due to higher prices or behaviours of some elected leaders (ketuanan Melayu + keris waving?!)

In other words, to the average joe like myself, politics is distant and necessary evil. The less we know the better. I have accepted that there is no such thing as CLEAN politics and a clean politician is just one who is smart enough not to get caught. I am OK if a politician plays hardball or uses so-called dirty tricks as long as he has the rakyat's well being in his heart first, and the size of his pockets second.

Will Malaysia fare better under the opposition? I don't know but if DAAB stays in power much longer or things don't change (even under Dr. Najib), many people including myself will be tempted to find out.

Selamat sejahtera Tun.

There was once a cartoon by Lat about learning english, but was misinterpreted as being english instead. Thats it!. As long as Malaysian is not ready to bring themselves as malaysian first dan maintain the values that was taught to them by their datuk and nenek they can never succeed. Hampir semua nya nak ikut rentak barat. Tak pernah saya tengok malaysian bakar ke pukul2 efigy presiden sebuah negara lain[saya lupa tapi TV3/suratkahar tunjukkan dgn jelas], pertama kali saya tengok masa condoleza datang malaysia di klcc. ...dipimpin oleh siapa agaknya...memalukan. Sudah hilang sopan. Ni ikut budaya siapa. Tak faham saya, perjuangan dengan kelakuan yang bercanggah dengan kesopanan. Saya tanya ibu pernah ke dulu2 zaman dia nampak orang bakar bendera ke apa2 macam kat setengah negara? Katanya tidak, dan saya percaya. Tapi sekarang ni..Korang2 yg muda2 tu yang terdesak nak memimpin, ni bulan puasa kenal2lah orang dulu2 dan belajarlh dari mereka..sijil cuma lekat kat dinding, pengalaman kena lalui tiada jalan pintas. Saya tak mengundi sebab saya menyampah dengan perangai2 yang ditontonkan di tv dan di laporkan di akbhar. Dan saya ingat saya sahaja. Rupa2nya ramai yang berasa begitu. Buktinya, itulah result pilihanraya. Tak percaya buat lah lagi.

The problem is the UNMO.

When there is plenty and few to share, the theft of a few billion is not noticed. Today, here is a huge Malay middle class and tens of thousands of new graduates every year. And many more Malays migrating from Indonesia. The civil service is constantly growing to absorb this increase. They are all bumiputras, at some point, what the government collect in taxes will not be enough.

Your tax paying Chinese population is leaving, both their businesses and their families. At some point, the famous Chinese middle class will collapse.

UMNO politician have been threatening the Chinese population for the last 40 years, at some point these people will get frighten and leave. Unfortunately those that could leave are the rich. And those that remain are less capable financially and less educated.

With more mouths to feed, a shrinking economy and oil that will not last forever, even the Malay middle class knows this NEP dream will have to end someday.

Investment outflow is greater than investment inflow, does that tell you anything?

The core of Malaysia's economy (the ones that doesn't depend on government spending), the Chinese SME and Multinationals, are moving their operations elsewhere.

Even an idiot would know that what worked yesterday does not necessarily work today.

By wn on September 22, 2008 3:37 PM

Dear Tun Mahathir,

UMNO party is only meant for one race as the name itself implies. MCA party is only meant for one race. MIC party is also meant for one race. BN, however, hold these 3 different parties loosely together. To be truly non-racist, BN should form a party by itself and do away with all its party components.

If we analyse the percentage of people turn out on polling day, we could say that the proportion of those eligible to vote casting their votes can further be improved. If everyone suddenly become interested in politics and cast their vote, chances are, the general election outcome could show a different pattern altogether. Wonder when will that be the day?

Keep up with your very enlightening write up. I must say my English has improved considerable when I have made it a point to read each and every article you wrote in your blog. How I wish my English can be as good as yours!

Well done!

Dear Tun,

I have to write something after reading comments from this 'Dr.':

-----  
By Dr Syed Alwi Ahmad on September 20, 2008 5:24 PM

Assalamualaikum wr wb,

Dear Tun Mahathir,

You are blind to any other alternatives to racialism simply because you benefit most from it ! If you are an average Chinese - then I think that you will curse racialism. Those who lose out will not support racialism ! (YOU DON'T HAVE TO SINGLE OUT 'AVERAGE CHINESE' AT THE FIRST PLACE, IF YOU THINK THERE IS NO SUCH THING AS 'RACIALISM' FOR LIBERAL PEOPLE LIKE YOU. HOW ABOUT THE IMPACT TO THE 'AVERAGE MALAYS' AND 'AVERAGE INDIANS'? THEN ONLY YOUR QUESTION WILL BE VALID)

Malaysia's racialism and the BN - benefits the Bumiputeras ONLY and some people would even say that its ONLY the UMNO-Putras (whom you helped create) that benefits from the system. (WHAT IS THE DIFFERENT OF THIS SYSTEM IF WE COMPARE IT WITH THE SYSTEM WHERE PEOPLE AROUND GEORGE BUSH, LEE KUAN OR ANWAR IBRAHIM GAIN LOTS OF BENEFITS WHILE THERE'RE IN POWER?)

I cannot for the life of me accept a system which shoots itself in the foot. (NOT ALL OF US AGREE WITH YOU)

Why should any race be given privileges based on history ? Why should someone who did not do well in the exams - be given higher priority than someone who did well - just because of your racialism ? (I HOPE YOUR 'DOCTORSHIP' TEACH YOU ENOUGH LESSON ON THE DIFFERENT BETWEEN EQUITY AND EQUALITY AND HOW IMPORTANT IS HISTORY TO THE DEVELOPMENT OF ANY SOCIETY)

What I find irritating is your constant attacks on Singapore. Please go and look after your sinking boat first before you show to the world just how great Malaysia is. For your information - I do not believe that Malaysia is great at all - thanks to your racialism ! (I BELIEVE YOU ARE A SINGAPOREAN... AND WE DON'T THINK SINGAPORE IS GREAT IF YOUR 'MAGIC FORMULA' FOR SUCCESS IS BY BEING A 'PET' TO THE US).

Best Regards  
Dr Syed Alwi Ahmad

Salam Tun,

Kepada orang orang Malaysia Timor, alhamdulillah anda semua dapat hidup bersatu padu diantara kaum. Tapi awas kemunculan 'dajal mata lebam' akan memporak perandakan anda semua.  
Wassalam.

This is regarding sec. 13.

Dearest Tun,

But that doesn't mean we can use that excuse to evade the fact that our racial inequalities and racisms are EXTREME to the point of ridiculous stages.

This is just like an apple. The outside looks perfect, but inside there's a worm - the whole apple gets thrown away.

It is just like cancer too. Internally, it's slowly eating the body (ie. Malaysia) up, and it'll be gone before you know it.

Yours sincerely.

Dear Tun,

Dulu apa Tun kata...MCA cakap ""Kita setuju dengan PM", MIC cakap "Semuanya terpulang kepada PM", Gerakan kata "Kita sokong kenyataan PM". Tapi sekarang apa Pak Lah cakap diorang semua kata "KAMI TAK PEDULI DENGAN APA PM CAKAP!" Kenapa jadi begini?

It was reported in The Star today that: Jane Lim must still attend National Service (NS) training because her brother's death is not a valid reason for exemption.

NS Department director-general Datuk Abdul Hadi Awang Kechil said it had no authority to exempt the 17-year-old from the programme because her brother Ricky died nine days after his NS stint.

"If she wants to defer training or be exempted from the programme, she will have to submit an official request to our department according to normal procedure," he said. Abdul Hadi said Jane could only be exempted from the programme if the reason given for her request fell under the conditions stated in the National Service Training Act.

=====

I feel it is this type of mentality from the NS's DG that festers the unhappiness of Malaysians. I am sure rather than adopt a strict confrontational attitude, why not the DG consults the parents? They have gone through so much due to the loss of their child.

The NS programme cannot prove that it has successfully trained the young people. Behavioral change is an ongoing process and surely several months in the jungle would not part value to young people. Rather it forces young people to adopt a mentality of survival - to survive the boot camp, so that they can be free of its chains.

Like many of the Govt's initiatives, it merely breeds unhappiness amongst Malaysians. The NS is a perfect example. There are no indicators of achievements, but many incidents which we, as parents, do not want inflicted on our children. The NS seems to force young people, within a limited duration, to adopt racial tolerance, learn new skills, shoot a rifle and others. However what young people lack are creative problem solving skills, communication skills, decision-making skills, critical analysis, etc. These life skills are valuable and not how to march in a jungle, or learn how to use the military survival kits.

Just like the case of the parents of Jane Lim and her deceased sibling, the Govt should show more compassion, understanding and wisdom, rather than cite the Law and expects families to give up their children for the sake of a programme which never had any intention of raising awareness of racial harmony and national unity.

Guo nak coment sikit apo yg Ir. Syahrizan cakap pd September 22.

Jiko mu betul2 muslim, mu tak payoh cakap 'rot in hell'. mu ingat mu ado kuaso tuhan? manusio mano blh cakap mcm tu. mu jgn senang jo nak kondem org sesuka hati mu.

kito sbg rakyat ado hak, dan kito tak perlu org dgn mulut mu.

jiko teresa bersalah, dio sepatutnyo msk penjara. tapi police lepas dio krn tak ado bukti tuduhan tu. jiko hang ingat dio bersalah, dgn mulut mu pun blh masuk lockup. knp emosial ah Ir. Syagrizan? mu penyokong fanatik ko?

rakyat negaro kito ni ado hak, dan hak ini lah yg goboment mesti jago. rakyat perlu perlindungan dan pertolongan, bukan nyo setiap kali bersuaro kena masok isa!

mcm mu yg takut jo!

Dear Tun,

Salam kepada Tun. Selamat berpuasa. Thank you for permitting my previous comments in your blog. I disagree with the views you present.

#### EXTREME RACIAL DIFFERENCES

I agree with Tun here but Tun 'forgot' to add it is due to Umno propaganda of ketuanan Melayu which institutionalised and induced further racial differences through corrupt and self preserving politicians. Despite your belief Chinese are not interested in politics and human rights why have their awareness of racial differences increased over the decades. It is due to Umno's relentless cry wolf to the Malays about threats to their rights everytime some fairness and justice is suggested.

Hak istimewa.

Umno always frighten the Malays with this. Look at all Umno division leaders, rumah banglo berkolam renang berkereta Mercedes melaung laung hak dia atau hak Melayu? Melayu miskin nak apa kita beri tak salah, Melayu kaya kontrak tak mau berusaha mengada ada tamak tu yang orang tak tahan! Hak Melayu lebih di ancam kaum sendiri yang membolot kekayaan untuk keluarga sanak saudara sendiri.

Budaya bangsa Melayu

Mustahil bangsa jumlahnya bermajority bulat menguasai penuh perkhidmatan awam, polis, tentera, mahkamah boleh hilang atau tergugat oleh kaum minority lain. The maths dont add up except from an Umno teacher.

Salahkan kaum lain

Umno selalu menuding jari kepada kaum lain bila berdepan dengan Melayu miskin. Macam kaum lain rampas harta mereka. Selepas 51 tahun Umno memegang hasil negara, diberi kuasa bagi lesen, kontrak, saham, pinjaman salah siapa Melayu miskin banding yang lain tak dapat bantuan? Sebabnya rasuah dan kekayaan (tak bayar cukai) di bolot sekelompok warlords. Hasil ini di punggah ke luar negara (tak boleh belanja di sini tapi kena bayar cukai negara lain) Orang kaya lain rajin usaha besarkan perniagaan di bumi ini (bayar cukai) membina lebih peluang pekerjaan (yang boleh dicukai) Melayu yang Umno pupuk dan lantang bersuara hak bumiputera ialah jenis nak kontrak, lesen, saham, pinjaman tanpa bayar. Lepas tu cari kaum lain (tak berani jual pada Melayu). Orang tu tak ada pilihan, kalau nak pekerjaan nak hidup

terpaksa pajak lesen tu. Habis pemberian ini di jual pajak kerana mrk tau boleh minta lagi- hak istimewa Melayu.

Inilah pembelot perosak bangsa, menggadai maruah bangsa - Umnoputra sarat lesen. saham, kontrak di gadai pajak. Tun pun mcm terpaksa tunduk kepada mrk kerana nak kembali. Nyanyi lagu rentak mrk- main isu kaum, hak Melayu, sosial contract, salahkan permintaan kaum lain Melayu gagal. Ini semua terdapat dalam blog Tun.

Ayahanda Tun sekeluarga.....Assalamualaikum

Buat DatukM (on September 22, 2008 10:15 AM )

Apabila anda menggunakan perkataan - perkataan kasar secara tidak langsung telah memberi gambaran siapa anda yang sebenarnya. Kalau anda berkasar dengan orang yang lebih tua dari anda insyaallah suatu hari anak - anak anda juga akan biadap dengan anda. Adakah anda bangga jika orang mengatakan anda sekeluarga adalah manusia biadap.

Maaf Ayahanda Tun jika saya terlanjur. Kadangkala kita perlu memberi ingatan kepada mereka yang kurang ajar ni. Ruangan ini bukannya utk mereka yang biadap.

Salam My Beloved Tun & Madam Tun,

I have post below my opinion in your "Financial Turmoil" comment column. I think it might be related to this posting also i.e. regarding loss of confidence. So I enclosed herewith just for fellow bloggers to read through (if haven't) & to comment, with your permission. Thanks

-----  
I would like to put my humble thought regarding "The Effect of Financial Turmoil to the BN in particular MCA & Gerakan"

1. From my general observation, the chinese community is the majority shareholder in business enterprises in m'sia. I'm referring to the medium to small size businesses. Or perhaps even for the bigger corporations.
2. And the malays are being majority as the consumers. Thats explain why some chinese towkays reaping more business during malay festivities like Hari raya, wedding etc. etc. than from their own festival like CNY.
3. So with the world financial crisis that will hitting our shores soon, the chinese businessmen being the majority entrepreneur here will surely being affected. Especially the medium to small enterprises.
4. And when this happen, they will not happy. They will push their 'representative' in govt. which is the MCA & Gerakan to take necessary measures.
5. So the question is, even if MCA & Gerakan wanted some measures taken to help the Chinese businessman during this crisis can Pak Lah tackle it? The previous 5 years' record during Pak Lah admin. should give the answer!
6. If immediate action is taken & the affect is minimal & their buss. not badly hurt, the Chinese community will give undivided support. Thats what Tun experienced previously during 97/98 crisis.
7. But if nothing happen, they will support the opposition; same way as they support Tun before.

8. And like a 'sleepy person being given a pillow' the opposition voices will be stronger than ever when receiving this support. But obviously their strength is merely an illusion. Its very fragile.

9. So the opposition might win the nx election due to this support. Thats mean the MCA & Gerakan will also falls.

10. And if the opposition win & in power with majority support from non-malay, high chances a lot of govt. action will be in favour of them. The malays will surely angry & rebel. Racial harmony will be in jeopardy.

11. At the end the business will be affected also as the business environment is not healthy & malays; who is the main consumer is not happy with the chinese towkay & not buying from them anymore. So the problem is not solved.

12. So should the Chinese vote for opposition when the MCA & Gerakan fails to do anything in the govt., can we blame the Chinese for this? Obviously no. They do what they have to do. The malays did this too. They also vote for opposition when they dislike Pak Lah & last time when Tun sack Anwar .

13. So does MCA & Gerakan's silent move in the BN now helps? Are their action of letting Pak Lah continue with his flip-flop management in the govt. will not harm them? Is the chaos in UMNO as the main party in BN benefitting them? I think if MCA & Gerakan wise enough, they should know that the answer for all these is NO!

14. If MCA & Gerakan dissatisfied with Pak Lah administration and wanted him to step down, they should voice it out without fear. In Malay, silent means agree.

15. Its your right as part of BN coalition that wanted the best govt., at least for your people. This is not racial issue. Whats the reaction will be like by other parties in BN, is another matter to handle.

16. And with current sentiment everywhere in Malaysia, I think MCA & Gerakan should not worry about this. They even will be getting support from the Malays itself, even from UMNO Malay!!

Eiii...awat la ada lagi tetamu kat laman che det yang tak reti sopan santun, budi bahasa. Hangpa semua tak sekolah ka ? Kalau tak sekolah pun takkan mak bapak hangpa tak pernah ajar untuk hormat orang tua. Tun pun tak pernah guna ayat2 yang menghina orang lain, habis2 kuat Tun sindir je, kalau terasa tu kira nasib lah. Jangan la hina Tun kat blog ni.

Lagi satu ada juga makhluk Tuhan kat sini yang sibuk nak jadi wakil Tuhan. Awat? Hangpa tau ka berapa banyak yang ada dalam akaun pahala dan akaun dosa Tun ? Hangpa tau ka apa dalam hati Tun, apa niat Tun ? Tu, yang hangpa duk tuduh Tun macam2, ingat Tuhan tak kira ke ? Suka hati je jatuh hukum kat orang, kata orang macam2... macam la dia tu bagus sangat...

Geram ni dah lama terpendam Tun,maaf la ye,

Dear Tun,

Dont bother what people said about you. You know yourself better.

I didn't vote for BN in 2004 election for the sake of Abdullah Badawi. But I did it to appreciate prosperity brought by you, dear Tun. In 2008 election, I vote for no one.

Hopefully there is light at the end of the tunnel.....

By Dr Syed Alwi Ahmad on September 20, 2008 5:24 PM

Assalamualaikum wr wb,

DR SYED ALWI AHMAD,

YOUR COMMENTS MAY HOLD SOME TRUTH. PERHAPS, IN A COUNTRY WHICH HAS NO MAY 13TH TO LEARN FROM ESPECIALLY THE ROOT CAUSE OT THE CALAMITY I.E. THE DISPARITIES OF WEALTH BETWEEN THE RACES.

BEFORE THE MAY 13TH, THE ECONOMY WAS PRACTICALLY CONTROLLED BY ONE RACE AND THE OTHER WAS CONTROLLING THE GOVERMENT. DEVELOPMENTS HAVE TO BE CARRIED OUT AND ONLY THE ECONOMICALLY POWERFUL RACE HAVE THE CAPABILITIES, EQUIPMENTS AND FINANCES TO BACK THEIR BUSINESS VENTURES.

SORRY TO SAY, THIS POLITICALLY STRONG RACE LACKED THE BUSINESS ACQUIREMENTS NEEDED DUE MAINLY TO THE 'DIVIDE AND RULE' REGIME OF THE BRITISH MASTERS.

AND SPICED UP BY THE 'RACIST' BUSINESS ATTITUDES OF THE ECONOMICALLY STRONG RACE VIA THEIR STRONG 'ASSOCIATIONS/TRIADS' WHICH WILL STRATEGICALLY 'KILLED' ANY COMPETITIONS FROM OTHER RACES. THOSE 'ENVIRONMENTS' COMPOUNDED TO THE

'VOLCANIC ACTIVITIES' OF HATRED AMONGST THE RICH TOWKAYS AND THE POOR AND 'DEPRIVED' KAMPUNGITES.  
AND WHEN THE TOWKAYS, LED AND INSTIGATED BY THEIR POLITICAL LEADERS, WANTED TO SHOW THEIR 'MIGHT' IN 1969 GE, THE DREADED INCIDENT HAPPENED.

SO, MY DEAR DR., THE NEP WAS INITIATED AND IMPLEMENTED PRINCIPALLY TO ADJUST THE DISPARITY BETWEEN THE RICH AND POOR AND NOT MERELY TO BENEFIT THE MALAYS. THE PROBLEMS LIES WITH THE IMPLEMENTATION/PRACTICES AND NOT THE POLICIES INTENDED. THE FACTS ARE THAT AFTER 30 YEARS OF ITS EXISTENCE, MOST MALAYSIANS DID BENEFIT FROM ITS POLICIES OR OTHERWISE,  
THE MALAYS WILL STILL BE 'ORANG KAMPUNG AND GOMEN', THE INDIANS 'ORANG ESTATE' AND THE CHINESE 'TOWKAY BANDAR'. CAN WE DENY IT?

IN YOUR WORDS WITH A DIFFERENCE,  
I HOPE YOUR 'DOCTORSHIP' TEACH YOU ENOUGH LESSON ON HOW IMPORTANT IS HISTORY TO THE EQUITABLE DISTRIBUTION OF WEALTH OF ANY SOCIETY TO AVOID 'AAB' (ANARCHY AND BLOODSHED) RULES THE COUNTRY.

TO ERR IS HUMAN, TO FORGIVE DEVINE  
LET'S US ALL THE RAKYAT STOP THE BICKERINGS AND REPENT AND GET BACK TO THE FUTURE VIA THE PROVEN TRACK RECORDS OF THE BN AND ITS VISION 2020 GOALS OF A DEVELOPED MALAYSIAN MALAYSIA.

LESS THE 'AAB', 'ABI', 'BIRD' AND 'DUMB' POLITICAL 'BRAINS', OF COURSE!

THE RAKYAT SHUD SAY THE PRAYERS(DURING THIS MONTH OF RAMADHAN ALMUBARAK) FOR 'SANITY' TO RETURN TO THE GOVERNMENT FOR THE SAKE OF PEACE AND POSPERITY UNDER A NEW AND CAPABLE LEADERSHIP IN UMNO/BN. GOD FORBIDS POWERS TO THE PR!

MAY THE ALMIGHTY ALLAH SWT GRANTS OUR WISH.

ALFATIHAAH, AMIN.

Assalamualaikum Dear Tun

You have brought a very important subject, the national integration program. With the present system of sharing power between the three major races, it barely works, even in the beginning as shown by the incidence of 13 May 1969, later some modification is included, races are not to be identified with economic achievements, a policy known as NEP was created in order to reduce disparity, economically, between the races. We start the policy with great enthusiasm, in the early seventies and now we barely reach the target of our dreams. Suddenly we realized identification of people according to races become enhanced and our wishes of national integration is actually drifting away. To achieve national integration we have to work towards making the people having the same religion, languages and culture. No assimilation is possible without similarity. No one can change their races, but they can change their religion. One can learn languages and change to adopt a different culture but one cannot change their races. The Government should adopt dakwah with love and affection to the non muslim and muslim as the national agenda. The non muslim should be invited to embrace islam and the muslim should be invited to obey the orders of Allah. In all the national school Malay, English, Chinese, and Tamil are taught from standard one to form five. Culture can be learned through mingling between the different races and this will become much easier when everybody understands each other. Later on in Malaysia, a situation exists, where we still have different races but the majority will have the same religion, know many languages and adopting basically the same culture. In this situation, we may dream of achieving national integration and the choice of leaders are no longer on the basis of race but on the basis of good qualities. During that time we do not need a party based on race and the concept of sharing power is no longer relevant. Please give thought to this, thank you and I love you.

Dear CSI Malaysia

Tun has already know the impact of globalization before he retired. You are such a easily emotionally swayed young person who only read what you are interested. "I call you Smart Alec" who think you know everything, unfortunately, you are not. If you got time, read and study all the articles posted by Tun and books written by him. Time and environment change and so does Tun as to adapt to the changes. Don't be rude by calling Tun a failure. Read his articles in his blog with OPEN EYE & MIND.

Zul Hassan is facing a corruption charge over a development project at Seri Iskandar in Perak Tengah. In a complaint that he lodged against one Mohamad Imran Abdullah, he and businessman Fairul Azrim Ismail admitted having accepted offers to have sex with Chinese nationals.

=====

it is sad to see that corruption is everywhere nowadays. It is not surprising that Malaysians are losing their confidence in the political field. People like Zul Hassan should be severely punished for their crimes, however that would not stop the rot. It seems habitual that many politicians still are eager for the easy way out, whether to satisfy their lust or greed.

The system of governance should adopt harsher policies to prevent a repeat of such incidents. For every corruption news that Malaysians read or hear, we grow uneasy and restless.

At the end of the day, let us not drag our country into the pits of chaos, similar to political situations in the Phillipines where corrupted politicians seems more numerous than criminals harboring in their prisons. I believe many of their citizens lost faith in the Govt and their policies to the point of constantly openly protesting on the streets. Be it the BN or the Pakatan, everyone must make a stand or lost the faith of all Malaysians.

By servo on October 3, 2008 5:08 PM

Greetings,

Admirable Tun,

i am not really a fanatic fan of malaysian politics but with the recent mishap happening in malaysia, i must say it does looks rather "screwed".

"14. We cannot fault the BN concept and governance. We have to look elsewhere for the loss of confidence in the party."

The major loss of confidence and the vote IS due to the BN governance and the concept of it is totally long overdated. This is the information age, people now are smarter or well aware now. Everything and anything can be found in the WWW.

Every human is born equal .. every human should have equal rights, thus by opening up a revamp racial policy and administration

i dont think malaysian politics will be THIS "screwed"

3. The failures are all due to playing with money, selling mortgages, selling papers and all kinds of financial dealings which have been invented by the finance houses in order to make huge sums of money out of nothing. Currency trading is one of them.

4. I am not a financial expert but I see trouble coming our way. Our currency should be appreciating against the cheaper US Dollar. But instead it is depreciating. This must be caused by weaknesses in our economy.

5. Despite Government propaganda through the controlled media that we are doing well, the reality is otherwise. The foreign investors, including Arabs came, and the reports claim that hundreds of millions of Ringgit in investment would be coming in, but there is no sign that the investors are actually investing. In fact I hear in the IT sector a proposed 600 million Ringgit investment has been withdrawn.

6. Apart from Arabs buying up new skyscrapers there is no sign that investments are really coming in.

7. I talked to potential investors and they told me they would not be investing and they are pulling out from the Malaysian stock market. The KLSE figures show how much market capital has disappeared. I am told that it is more than 100 billion Ringgit.

8. In the meantime the prices of oil and foodstuff are high and may go higher. But incomes are not increasing. In other words we are experiencing inflation. When the American financial crisis really hits us we may not be able to handle it.

9. Dato Seri Najib Tun Razak's appointment as Minister of Finance has come at a crucial time. I pray and hope he will be able to handle the impending crisis. If he fails then he will have to take the blame. Dato Seri Abdullah is now only involved in social issues, reform (of what?) and Islam Hadari. Appropriately he has taken over the Ministry of Defence.

10. We are in for a very interesting time. The PM should read carefully SAPP President Yong Teck Lee's press statement. But I don't think he would. He is reputed to have told Malaysian diplomats undergoing training that if they are asked critical questions they should "buat bodoh" i.e. pretend to be stupid. I believe that is precisely what Abdullah would do to Yong's statement.

PS

1. I read this morning that the Federal Reserve Bank will loan to AIG US\$85 billion to prevent it from going into bankruptcy.

2. I remember well how we were told never to bail out failing companies. But in the last one year the Fed has bailed out dozens of failing banks, mortgage corporations and other businesses. Altogether the bail out has cost the Fed almost US\$500 billion dollars.

3. I just wonder where the money comes from. Does the Fed hold hundreds of billions of dollars in readiness to rescue failed banks? I don't think so.

4. The money used is "created" through entries in account books. No cash or dollar notes are issued or even printed. Like a magician, the Fed make money from invisible sources.

5. Whatever, the USD will continue to fall.

6. Malaysia would be wise to get rid of dollar holdings. This goes for Bank Negara too. It must have lost quite a bit because of the depreciation of the USD.

Salam TUN

Interesting review on global economics situation BUT in Malaysia ramai yang buat BODOH saja...

One thing, sapa kata AAB kaki tidoq n tak reti buat keputusan? Terer apa org tua ni? Sebab dia dah 'baca' yg dia takkan mampu nak tangani situasi ekonomi/kewangan global yg mungkin bakal berlaku di sini, MAKA Panglima Perang AMNO ni pun terus serahkan KEMENTERIAN Kewangan pd no2.. Satu percaturan hebat kan?!!

Rasanya, semua yg berlaku especially last week dalam senario politik negara nampak seperti dirancang... Who's the Spin Doc in this case? ISA mula dikenakan, ex-de facto Law Minister letak jawatan, Menteri Wang jadi Panglima Perang, KJ declare lawan Ketua Pemuda dll rasanya bukan satu kebetulan..

Anyway, Sejahtera dan semoga TUN sentiasa dirahmati...

Salam Tun,

The swap may turned out a double edge sword for Najib, but truthfully, I doubt if anyone could do much for the nation's economy as we are in so much debt now to do anything.

What else can be done now Tun? The global economy is in tatters and we are still concerned about transitions, crossovers, holding on to positions, enriching kawan kawan, rakan taulan and sanak saudaras.

The country is fast going in the opposite direction from what we had visualised it to be heading to when you were managing it.

Wasalam and Selamat berbuka.

Tun,

The present financial turmoil Americans face now is more or less similar to the financial turmoil Malaysians suffered during 1998. The main cause is originated from the highly inflated housing market and overgearing debt-financing in housing mortgage loans.

The solution to the financial turmoil may not be as difficult as most people see since Americans already have a good case study of Malaysia in relation to the financial turmoil during 1998.

I believe it is good for us Malaysians to hold a humble attitude if Americans are to learn from the previous experience of Malaysia, which Tun may have earned a good merit of making the right decision.

For your information, the FED does have the power to print money. Whether the US Dollar will continue to depreciate against other major international currencies will all depend on whether the international business communities are still having much confidence in the Americans' economic future. I believe the foreign direct investment will continue to flow into America as soon as the American housing market is able to come down to a much more comfortable price level. Generally speaking, American capital market will be a much more attractive market than Malaysian capital market in the long term since the political structure of America is much more stable and much more matured than that of Malaysia. Your good son, Mokhzani, and your lovely daughter, Marinah, shall be able to confirm this viewpoint of mine. American power that be will not resort to gunpoint or arrest under draconian law in order to stay in power if there is a vote of no confidence against the incumbent political leader or against the ruling party in the Executive Branch of the government.

Tun's comments are listed here for reference:

"2. I remember well how we were told never to bail out failing companies. But in the last one year the Fed has bailed out dozens of failing banks, mortgage corporations and other businesses. Altogether the bail out has cost the Fed almost US\$500 billion dollars.

Dear Tun,

10 years ago, the currency traders trigger a massive problem for South East Asian economies. I remember that you wanted to propose some international law to regulate excessive and unfair trading and speculation but was not successful as it doesn't get global support.

Perhaps , these countries are reaping what they sow, it is hitting back at them. We should use genuine effort & productivity to generate wealth and not unhealthy activities like speculation and the like.

Tun ,thank you for your article , you are such a well read and informed person on both the local and global scene.

Can you suggest or comment on some possible actions that Malaysia can and should take based on the current global economic scene. It may would helpful to our new Finance Minister.

Dearest Tun

Wow, again you touched on an issue that has been on my mind constantly since the announcement of Lehman's bankruptcy. Are we going to have another financial crisis? It's scary the way there is almost nothing on the problem in our media. Instead, they are still talking about Anwar and whatever shenanigans he is up to. Even the government is focused on him when what they should be doing is ignoring him and focusing on the country. I wonder how our people who have been investing heavily are doing, since some unit trust are investing in foreign markets. When we had the crisis in 97, you steered us to safety and we survived where others failed. A shame, that was also the time others decided to bring you down, when you did the greatest service to Malaysia. If this happens again, we are in for some tough times ahead. Thanks again for everything you have done for us Tun. And hopefully the government will heed your advise and do something. Always feel better when I read your blog :)

By Ezri on September 18, 2008 4:40 PM

Why would bringing in Nazir be a problem? It shouldn't. Najib has more of a finance background than Pak Lah. God help us.

If the ministers and politicians don't realize the enormity of the economic situation, then, I'd hit them with a brick again and again (metaphorically speaking, not a threat or whatver, for those ISA mongrels). It's time to govern. Let's see what's more important to the politicians - their own self (with the UMNO elections nearing) or the people's welfare ("it's the economy, stupid!").

If the politicians take light of the economic situation, then God help me, help this country - if it is deemed that Anwar take over, so be it. But it looks like it, though. All these warlords are more interested in their status and themselves more than the people - i.e. economy.

If given a choice, I'll choose the lesser between two evils and right now, from UMNO's display of

arrogance, flip-flops and non-committal doings, I'd choose Anwar.

1) Pak Lah walaupun nampak macam bodoh dan kuat tidur tapi dia sebenarnya bijak. Mulai hari ini, Najiblah yang akan bertanggungjawab atas segala masalah ekonomi tapi Rosmah will be shopping like crazy as usual, apatah lagi sekarang her husband is taking care of the country's money.

2) Apakah agaknya yea Pak Lah akan buat bila dia in charge of country's defense now. Bahaya pasti datang bila kita memberi amanah kepada orang yang kaki tidur untuk jaga keselamatan kita.

3) Gunakan emas sebagai mata pertukaran instead of currency.

4) Sepatutnya Pak Lah lantik Tun jadi Menteri Kewangan. Tun, you are the best in managing this country, economically.

Selamat terbuka Tun.

Assalamualaikum Ayahnda.

I think, Politics is the biggest concern at the moment. Yes, there would be some impact of the turmoil in the U.S., but the domestic politics is hurting the market more than that.

16/9 is a D-day according to Anwar, but whether or not something happens is not clear. And this uncertainty is actually killing the market.

Malaysia's political picture has been clouded since the March general elections, with investors staying cautious ahead of the self-imposed deadline of Sept. 16 set by Malaysian circus clown Anwar Ibrahim to topple the government.

I still remember in 97 crisis, when Ayahnda Tun first called for curbs to be placed on currency trading to prevent the damaging effects of speculators and manipulators on the real economy, he was widely and strongly attacked in Western financial and media circles.

Ayahnda Tun was portrayed as being 'seriously out of touch' with the modern world of finance, where the free markets operate efficiently to reflect the economic fundamentals of countries, and where manipulation by a few big players was not possible.

Several Western magazines suggested that his calls for financial reform were responsible for South-East Asia's continued weakness, and that he would be doing everyone a favour by resigning.

Today Ayahnda Tun should feel vindicated by the recent events. He would be justified for saying 'I told you so' to his detractors.

You are the icon of islamic world not just for your braveness but you are well admired because of your capability to think out of the box.

I truly respect you Ayahnda and i hope that there will be a second 'Mahathir' to guide Malaysia. May Allah bless our country.

Tun,

Just to ask:

If the US Dollar (USD) is appreciating against the Ringgit (RM) why does Bank Negara go at a lost? It should go at a profit if it has more US Dollar.

The US Fed is bailing out by using tax payers money. Not invisible cash.

The Riggit is going down because Abdullah, Najib & Co refuses to listen to us, the people!

Salam dan selamat berbahagia buat Tun sekeluarga..  
Kepimpinan sekarang seperti tidak mahu memberikan gambaran sebenar keadaan semasa kegawatan ekonomi dunia. Hanya yang diberitahu pelabur ini melabur beratus juta, pelabur itu akan melabur di sini, ekonomi negara kukuh dll.  
Tidak seperti era Tun yang memberitahu sebenar-benarnya kegawatan ekonomi dunia. Tun juga cepat bertindak seperti membuat tambatan ringgit, menggalakkan pelancongan dalam negara dll.  
Saya sebagai rakyat Malaysia sangat merindui kebijaksanaan Tun yang terbukti berjaya menangani krisis ekonomi negara dan pada masa yang sama memberi kesejahteraan kepada semua rakyat.  
By Benderbuzz on September 18, 2008 4:48 PM

Salam Tun.

Seperti yang dijangka sejak beberapa bulan kebelakangan ini, dunia sedang menuju ke arah berulangnya "Great Depression 1930".

Semua yang berlaku kini bagaikan diatur-atur kejadiannya. Selepas satu, satu yang lain timbul. Namun itu pada peringkat global.

Di Malaysia, kita masih tak habis-habis berpolitik, tak habis-habis mengejar impian untuk menukar kerajaan dan menjadi PM. Tak mengapa, biarkan luncai terjun dengan labunya.

Tun, saya rasa sekarang adalah masa terbaik untuk dikumpulkan semula semua tenaga pakar ekonomi untuk kita bersama-sama bersiap sedia menghadapi kemelesetan ekonomi.

Mungkin, ada baiknya jika DS Najib menjemput Tun dan teamnya yang bertanggungjawab menyelamatkan ekonomi malaysia pada tahun 1998-99 dulu, membantu dan menasihati beliau sebagai menteri kewangan 1.

Harapan saya agar DS Najib mendapat kekuatan untuk menghadapi krisis ekonomi yang mendatang berkat usaha dan kerjasama dgn Tun.

Sesungguhnya kita sudah kesuntukan masa namun masih belum terlewat.

Projek-projek yang menggerakkan ekonomi perlu disegerakan. Sebagai contoh, yang berkaitan secara terus dgn DS Najib iaitu penswastan sisa pepejal kebangsaan dan projek-projek di bawah JK Kabinet mengenai Alam Sekitar yang dipengerusikan oleh beliau sendiri. Segerakan kerana pelaburan asing sudah siap sedia menunggu.

Tun,

I remember about one book, "Web of Debt" by Ellen Hodgson Brown (her website: <http://www.webofdebt.com/>) the book available at Popular Bookstore and other store perhaps.

US dollar we hold now is Federal Reserve Notes, NOT Unite States Notes.

How the Federal Reserve is not a Federal in real term, and how the US government make loan to that corporation, and their debt increasing by the hour.

Perhaps, when you said that Muslim supposed to go back to gold and silver - you must have already seen the patterns and understood their (US) financial system.

Wonder, how do Bank Negara knows how much they need to print, and how do they give value to the paper - based on what?

Salaams Tun,

You have given a wealth of information in most of your writings especially here in this article. I wonder if the professionals in the Ministries concerned are taking note of these inputs from you.

It would indeed be a waste if such comments and feedback from you are not given serious considerations by the government.

My only regret is that the government of the day does not appreciate your wealth of knowledge on how to steer the country into the right direction. Mistakes after mistakes have been made. Political blunders after political blunders have been made either knowingly or unknowingly by PM Pak Lah.

Are they not aware anymore that what they are doing is insulting our intelligence? How long more do we go on with such rhetorics and inaction?

As a businessman, I never wished to interfere in the running of the government machinery. But what has been going on since you retired has made me a very sad person as no one in the right places really CARES anymore about the rakyat and the country's economic position.

I pray that Pak Lah and Najib (who incidentally started his own blog yesterday) will take time to read your personal advice in your writings in this Blog and once and for all tell the truth and shame the devil!!

I pray that sincerity and good faith prevails among all top cabinet members to stop the rot and start doing something for the sake of the betterment of the people. How long more do we have to go through these uncertainties and political infighting among fellow UMNO members? Don't the Ministers and MPs have a conscience? Is their conscience in tact?

This is the month of Ramadhan. I hope all UMNO members can rally around and tell Pak Lah that enough is enough and he must decide for the sake of Allaah and let go of his position if he knows his reluctance to give way will only hurt our economy and pride.

Let good feeling prevail and I believe that your personal involvement could be the "catalyst" to get things moving into the right direction sooner than later.

Your writings and articles have been an inspiration to me personally and I look forward to the day the government of the day will start taking your suggestions & comments seriously and act for the best of this nation.

Dear Tun,

I look forward to reading your latest blog everyday.

I'm not a financial wizard too, but I am convinced this time around it will be worst than the financial crisis of '97. I am in business and I am directly impacted, so who is our Prime Minister trying to kid, suggesting that everything is fine.

Do you know Sir, more and more M'sians are seriously looking at the option of migrating? Then we hue and cry about brain drain! Why would hardworking Malaysians stick around only to see their income, their savings, their investments and their basic rights depleting? Why take the chance?

Oh my God, someone rumored that Najib might bring his brother in to help him with the Finance portfolio! Please.... this sound like cronyism to me. There's so many bright Malaysians out there, pay them the money they deserve and they'll probably do a much better job than all our politicians combined!

I almost failed my economics, but the current economic scenario of Malaysia is of serious concern. Who is managing it as i don't get a sense too...isn't it Noh Mohd ( I hope I've got his name right ) the finance and economy expert or has he assumed a new role i.e being a politician that he finds the world of economy boring now!

Okay Tun...selamat berbuka puasa to you and your family. Please stay healthy and safe.

Salam Tun !

People know the economy is on the downturn. The effect of the downfall of US economy possibly worst than 1930s would come about sooner than expected. Pak Lah is not a leader for turbulence time. Najib, Muhyiddin & Anwar should work together instead of fighting.

Hah... I was just telling a friend during buka puasa last night that the international financial turmoil does not seem to bother Malaysians as we are preoccupied with our political telenovelas that is benefitig no one.

Danger is knocking at our door and no one seems prepared to tackle it. Scary.... we have one power-crazy-diva willing to do everything to be PM and another selfish-diva who clings to the PM post and denying everything that suggest otherwise.

Let's continue living in la-la land; pretence and denial. Whe the roof fell on our head, just blame it on fate or whoever the politicl adversary on the other side.

Assalamualaikum.

Ayahanda Tun M, musim ni mana ada siapa nak peduli hal ini semua. Semua sibuk isu Pak Lah n Anwar berebut kuasa. Tu yang terutama pada mereka, demi nak jaga periuk nasik masing-masing.

Ayahanda Tun, MD suggest Ayahanda jangan kembali pada UMNO dulu. Tunggu PakLah sama kunci-kuncunya semua blah, baru Ayahanda kembali. Meluat sungguh dengan cara depa semua layan Ayahanda selama Pak Lah pegang kuasa. Sampai sekarang sedih lagi dengan statement2 Pak Lah dalam paper yang mengata Ayahanda. Tak kenang budi betul, dapat jadi PM pun da cukup bertuah. Nak mengundi pun menyampah.

Semoga Ayahanda Tun M dan Bonda Siti Hasmah sentiasa sihat dan tenang menjalani Ramadhan. Ayahanda tetap negarawan terulung di hati MD.

Dear Tun,

Arabs are no longer looking at business with Malaysia with sense of Brotherhood in Islam - its a matter of Dollars and sense when come to business.

They are much more willing to trade with Singapore as they know of the city's capabilities for producing results to investors.

I like the last part where u listed that the Fed bailed out failing companies. Only they can do it freely, not us.

This is the time Datuk Seri Najib to prove his ability.

Tun, why dont you recommend Najib your finance/ economy advisor when you were the PM last time.

Dear Tun,

Najib will go through the most challenging period of his assignment as Finance Minister for the next six months just when the AGM is looming. This turmoil will get worse before it gets any better. Dealt wrongly or hesitantly, and Najib will be roasted at the AGM.

The fact that Ringgit is depreciating under weak US dollar as you have accurately pointed out is certainly alarming. There are fundamental flaws in our system that need quick intervention.

Selamat berbuka puasa.

Permisi Tun,

Sekarang dunia sudah berputar balik ke masaalah kewangan macam sapuluh tahun dulu. Benda ni memang cyclical, sistem yang digunakan memang menjurus ke arah itu.

yang sudah pasti Budak anwar itu macam kene sumpah bende ni , dulu 1998 bende ni berlaku dia sibuk nak jadi Pm , Tun kesian dia bagi dia handle kejap. skang dia pun tengah mengaruk nak jadi PM masa dunia tengah gayat masalah wang.

Apa pun mesia akan kene tempias skit Tak banyak , pasaran saham memang jatuh teruk , tetapi kalau ceo syarikat dan kuncu2 jujur dan wat keje baguih ,xde masalah. Syarikat besar dinegeri kita saya rasa tak banyak meminjam wang .

Najib ada adik Nasir yang kira pandai jugak urus bank , moga kita akan beroleh kemakmuran.

From WSJA - 18th September 2008

"The prime minister(Pak Lah) has not introduced any substantive reforms during his nearly five years in office, preferring to rely instead on opening up the government purse. Under the Ninth Malaysia Plan announced in 2005, he(Pak Lah) expanded public-sector spending to RM200 billion annually from RM160 billion. In his Midterm Plan Review this year, he increased this outlay to RM240 billion. The national debt now stands at RM285 billion, up from RM192 billion in 2004. The official fiscal deficit has risen to 4.8% of GDP this year, from 3.2% last year. Revenue is being spent faster than it is coming in !!!! "

Apa tunggu lagi..Pak Lah merupakan ancaman ekonomi negara....

YAB Tun,

Imagine that Foreign investor come into MALaysia and invest here. Do they expected a Investment performance report that written in Bahasa Malaysia? They most likely preferred a report written in International language(English). So they no need to translate into their own preferred language, and reacted faster to the fast changing Global Business!

Like in the factory, how can the real stituation in the manufacturer site reflected to the top management? operator report to leader, then leader to Supervisor, then Supervisor to Superintendant, then manager, GM, CEO and Board of Directors. And the report is filtered according to their favour and perception during the process.

Imagine a MD that don't speak BM visit the plant, and ask for feedback from the operator. Operator don't speak English ... leader speak a little .... supervisor speak not that good ... eventually manager translate the feedback and do some touch up on the real feedback with his own hidden agenda.

In good day , business as usual. MD don't worry! In bad time, everyone trying to save their own a\_s and started to point finger! And the MD started to laid off worker! Imagine what would it like when sacking all operator and keeping all management staff .... !? Investment is doomed!!!

And the Board of director wanted round table talk with the operator and lower management. Is it possible? All feedback is twisted in between operator and top management!

When wanted operator to improve their performance, those master english and skill get a better paid, but operator insisted that this is Malaysia, and our national language is Bahasa Malaysia, and Malay should be paid higher regardless of skill and capabilities and ask the investor better to start learning how to communicate in BM .....!??

End up, operator remain operator, poor and suffer .... mid management remain high paid and wealthy and do nothing how to improve the stituation according to the rightoues and reality. continue to twist the feedback in fovoured for them. Until one day investor suffered loses and decided to leave the country. And operator start to Amok and blame the investor for no loyalty and pulling off with big beg of money AS SUGGESTED BY THE MID MANAGEMENT!

Dear Tun

Thank you for your blog. You would make a fine Finance Minister!

By The Simple Man on September 18, 2008 5:17 PM

Hi Tun,

Its my first time commenting in your blog. I come to your blog everyday and more often than not what you say make a lot of sense. However sometimes it just hurts when you are vindictive and sometime seem as if you are racist. I do agree with most of the commentors here that you were strong leader and we always knew that in your time whatever crisis that came our way, you always knew how to overcome it. We were always very confident with you. Having said that, i am brave to say from the circle of friends i have, we voted for the BN mainly because of you and never voted because of your subordinates. Having said that, this year i didn't vote for BN because there no one we can pint our on hopes on. There is no direction in the way they run the country. All they do is just doing stop clog measure to run the country. Its not effective and you can't expect with a level mind to support them. Be it the rakyat or the foreign investors. They have no substance nor plan. You may not agree with me but the way i see it at least the Pakatan is saying the right things to move forward. I voted for them because in the last 5 years the BN has suddenly become so irrelevant. Pak Lah is so weak in running the country and the rest looks like they are just in for a free ride. They don't give us hope but just flip flop decisions in the last 5 years. So even if Finance Ministry is passed on to Najib, i truly doubt that he can make a difference. Be it his capability or credibility. I don't see a leader in him. I am sorry again as you may not like or trust him but i believe Anwar will be a better leader than Najib. he has shown better leadership qualities.

Tun this just my opinion. You sir, have all the experience and know how to run a country. My sincere hope is that your wisdom with all this experience and know how transcends in a greater Malaysia for Bangsa Malaysia and not just for a single race in your writings. After all Tun you initiated the Bangsa Malaysia and we accepted it.

Thank you Tun for giving me this space and Selamat Berbuka Puasa!

YAB Tun,

After reading this particular writing, I can't help but feeling the cold sweat running down my spine and my heart beat faster.

Gosh, what are we getting into... another financial crisis like the one in 1997?

What Malaysia need now and badly, is a brain like Tun to once again steer us out this impending mess we are going to face in the near future. The signs are on the wall. Only ignorant people does not see this coming.

I sympatise with the new Finance Minister because he will be the one to have to answer and carry the heavy burden to face the coming crisis. His name will be remembered as the failed Minister during that particular crisis.

The change over of port folio was a good move by a far-sighted person who knows when to relinquished a particular post and to assume another.

May ALLAH lindungi Rakyat Malaysia daripada malapetaka yang akan mendatang. Mudah mudahan ianya tidak akan berlaku.

Assalam Tun,

- 1) Inilah padahnya kalau sibuk dengan politik tak habis-habis. Kampung dah nak tergadai pun tak perasan lagi.
  - 2) Kestabilan ekonomi Malaysia banyak bergantung kepada (a)kekuatan politiknya, (b) perpaduan kaum, (c)insentif strategik kepada pelabur luar.
  - 3) Ia saya pun bukanlah "expert" tetapi hidup dah lama dalam Malaysia dan buat perbandingan di negara luar sedikit sebanyak dapat buat inferensi sendiri.
  - 4) Aspek yang paling ketara lagi adalah (a) politik entah ke mana, (b) ekonomi dah mula nak buat hal, (c) buat keputusan terburu-buru, (d) kepimpinan = tepuk dada tanya selera
  - 5) DSNTR yet to prove his competency in handling new portfolio. I guess he needs time to adjust and insyallah, given time he might do wonderful jobs but it is uphill battle that he needs to face because one silly mistake he is totally out.
  - 6) Best bet, Tun, needs to address all these issues during UMNO meeting so that all can "BUKA MATA" that if we continue like this, we are not going anywhere so VISION 2020 can become just a VERSION. First thing first, we need an effective LEADER.

Tun

You have, as usual, made some good (albeit sarcastic) observations. It is true that Malaysia (like all other countries) are not immune from events in Wall Street. Like you, I am equally puzzled as to why the government has not provided any guidance or even made any statements on the phenomenon taking place in Wall Street despite the effect it has had on Bursa Malaysia (which went below 1,000 points today).

I recall that in 1998 you valiantly fought to keep Malaysians as safe as possible from the Asian Contagion. It was truly a heroic effort.

Like all Malaysians, I hope that the current crop of leaders understand that there will always be some political issue or another. But someone's got to mind the "economic shop" on a full-time basis. The politicians in government owes that duty to all Malaysians since they have been given the privilege of power. With great power comes great responsibility...even Spiderman knows that!

Selamat sejahtera buat Tun dan sekeluarga.

Buat kali pertama menyertai aktiviti seperti ini walaupun dari dulu Tun menjadi PM sehinggalah Tun bersara, saya amat kagum dengan cara Tun mentadbir negara kerana ketegasan Tun berjaya menaikkan negara dan bangsa serta melonjakkan nama negara setanding dengan negara maju. Setiap kali saya menjejak negara Filipina dan Indonesia, semuanya memuji keupayaan Tun menyelamatkan Malaysia daripada krisis matawang dan memajukan negara.

Tetapi kini pengganti Tun nampaknya tidak segagah Tun dan juga tidak berfikiran dan berpandangan jauh seperti Tun. Apa yang pengganti Tun buat sekarang semuanya semata-mata ingin menaikkan imej masing-masing dalam masa yang singkat walaupun terpaksa berbelanja banyak dengan projek yang rasanya boleh dilaksanakan tetapi perlu berperingkat-peringkat berdasarkan kemampuan modal negara.

Setiap ada masalah atau isu timbul, bukan No 1 yang berbicara, semuanya No 2 ke bawah.

Nak menangkan hati ahli politik dan rakyat, bukan No 1 yang berfikir, semuanya No 2 ke bawah.

Apa-apa yang berlaku sekarang menyebabkan semakin malas nak membaca akhbar dan menonton berita kerana apa yang ada seperti mudah untuk dijangkakan. Walau bagaimanapun, takut dikatakan "Katak di bawah tempurung", jadi terpaksa mengikut perkembangan negara yang seolah-olah seperti paparan wayang kulit politik yang tiada kesudahan.

Sememangnya tiada siapa yang boleh menandingi Tun dalam mentadbir negara ini dalam masa 10 ke 20 tahun yang akan datang. Biarlah satu mempunyai banyak kebaikan berbanding sedikit keburukan daripada mempunyai banyak keburukan berbanding sedikit kebaikan. Manusia tiada yang sempurna tetapi dengan kejayaan yang telah dibawa pasti menjadi contoh kepada generasi baru.

Hidup Tun Mahathir.....

Jasamu akan sentiasa dikenang oleh generasi dulu, sekarang dan yang akan datang.

Syabas...

I would like to write about the Budget 2009 and how it's going to project the development of the economy of our country. The recent events that took place in US seems to give me a blockage on how are we going to deal this economy situation. Without refering politically (if possible), could you please give me ideas on how can we maintain our economy and specifically our construction sector? What can the construction community could do at this moment?. You are the master mind of our development Tun, i hope you can help me.

Saya mengikut setiap comment dalam blog Tun dan saya akui jasa Tun selamat memerintah negara dan saya ucapkan syabas kerana berjaya mengangkat martabat Malaysia sehingga disegani disesetengah negara maju. Dalam keadaan sekarang memang terlalu rumit untuk di perkatakan kemanakah halatuju kepimpinan BN yg kucar kacir tambahan segenap penjurur menempelak kepimpinan DSAAB yang kurang mantap dan tegas tapi tak perlulah mengeluarkan tulisan-tulisan yang boleh menimbulkan prasangka yg negative. Mungkin ada yg kata dah DSAAB tak faham so gunalah pendekatan begini. Bagi saya berada di kedudukan DSAAB amat sukar kerana samada untuk meneruskan atau berhenti menjadi

PM akan menimbulkan implikasi yg besar kerana kedua-dua akan menjadikan sebab samada dah berlaku, sedang dan akan berlaku tetap kesalahan itu ditanggung oleh beliau. Sebagai bekas Presiden dan PM Tun seharusnya berjumpa 'One to one' dan bincang secara mendalam dan buat pelan halatuju yg betul. Saya rasa DSAAB tidak menolak jika Tun panggil untuk berbincang. Saya tidak menyokong mana-mana pihak tapi saya bosan dan bingung seolah-olah tiada jalan penyelesaian tambahan adanya insan-insan yang hanya pandai berkata-kata tanpa ada asas yg betul. Belajarlah dari pengalaman yang lepas kerana sedikit kesilapan akan mengakibatkan kekesalan yang berpanjangan. Saya masih menaruh harapan pada Tun dan DSAAB untuk duduk semeja agar kekalutan ini berakhir dengan menang-menang untuk rakyat dan negara Malaysia. Belum ada saya nampak bakal pengganti untuk memimpin BN dan UMNO yang betul-betul matang, mantap dan mempunyai kredibiliti yang jitu dan tegas. Akhir kata saya mendoakan semoga setiap ruang kejalan kebaikan itu akan dapat diputuskan dengan mudah dan berjaya. AMIN

Dear Tun,

It has been well known that we will encounter huge financial turmoil. I do not know how long this one will last. For sure this time will be different from 97 currency crisis. I believed this crisis at least 5 times worst than 97 crisis.

Sadly our commander-in-chief letting his hands go so easily on this responsibility.I doubt Najib could turn around our country economy. It is not an overnight matter.

Our situation would be like everywhere is flooding now and we are going to expect a huge hurricane or tsunami to hit us soon. The only way is make an exit.

So what would be your plan in this? You mentioned you will prayed hard for our DPM about the new fresh post. I hope he will seek your advise in dealing with this turmoil. It is totally different ball game now.

Other than that, we just pray hard or harder....

By abd. ghani on September 18, 2008 5:41 PM

Assalamualaikum Tun,

Pak Lah memang tak ada niat nak tinggalkan jawatan PM sampai 2010.

Saya lebih tertarik kepada kenapa Pak Lah nak ambil portfolio Menteri Pertahanan. Agak menarik dalam situasi sekarang, dengan masalah dalaman UMNO, PKR, Ekonomi,Pak Lah pula tukar sana-tukar sini.

Kalau betul ia satu proses transisi kenapa kena TUKAR,bagi jelah pada Najib, Pak Lah jangan ambil

apa-apa, baru nampak kerja dia kurang sedikit-demi sedikit. Boleh rehat banyak sikit,tidur-Warm down.

Atau Pak Lah nak istihar DARURAT? Ini juga satu jenaka kerana PM ada kuasa istihar darurat tanpa perlu ambil alih portfolio Menteri Pertahanan. Mungkin Pak Lah sebenarnya nak lihat apa Najib dah buat dalam Kementerian Pertahanan, Mungkin Najib simpan TERLALU BANYAK MAKLUMAT keselamatan lalu Pak Lah kenal tau daripada awal, lambat la sikit Najib naik jadi PM sebab Najib dah panas-(hal ini saya tak boleh ulas panjang). Atau sekurang-kurangnya boleh tahan Najib sampai 2010. Jadi kalau Najib ada rancangan tertentu dengan Muhyidin-Najib kena slow down sikit nampaknya. Ooops.

Isu Menteri Kewangan diberi kepada Najib juga menampakkan Pak Lah macam baling batu sembunyi tangan. Tak boleh urus dah bagi kat oranglah. Sepatutnya kalah pilihanraya umum lalu bagi la kat orang lain pulak, bila hal ekonomi boleh pulak bagi kat orang? Hal ini menyebabkan saya tidak nampak asas yang kuat untuk pertukaran, ia sekadar satu strategi menjadikan Najib dengan Muhyidin slow down sikit. Mungkin itu tujuan Paklah.

Walau apa pun fikiran Pak Lah, orang masih boleh buat tekaan. Buat masa ini Pak Lah teruslah guna media tutup mata orang-selagi boleh.Saya menyokong kerajaan BN tetapi bukan Pak Lah.  
By siti zubaidah on September 18, 2008 5:41 PM

Assalamualaikum TUN,

GOSH...Can Najib handle it?..Scary to know that those two swap portfolio....

Will Najib be confident enough to handle that responsibility?  
Will he be able to cope with the financial problems that the country is facing?  
Will he be clever enough to come out with brilliant ideas to get our country out of the financial turmoil?  
Does he has that fighting spirit to take care of us "the rakyat" and avoid us from facing the money crisis?

We will just have to wait and see....although at the moment it is very unlikely we can see a positive move from him...we can only hope that he will be "transparent" and "clean" with no "hanky-panky"

....

HOPEFULLY....Ya Allah lindungilah kami semua dari musuh-musuh Mu dan lindungilah semua rakyat Malaysia...Insyallah

Thank you very much for such a brilliant observation on the world 's current economic crisis. Apparently, I think it is because of the spin doctors, none of the issues are being highlighted by the mainstream media. I believe if not careful enough to managing the country we are at the verge of collapsing as well.

Can you please outline or share with us ( i hope you would) steps or actions taken by you when facing this kind of situation back in 1998. It would be be very good case study..

Selamat Berbuka Tun

I've been wondering when you going to start commenting on the world economy crisis.

I've read the star online this morning and about Pak Lah putting Najib as the financial minister. I know there must be a catch putting Najib on that position. I think Najib is just a scape goat. Hope he is wise enough to turn our economy around.

God bless you Tun.

A'kum Tun,

\* This is precisely the same concern I hilited in my previous comment. Huge economic storm is coming our way and our political leaders are "busy killing" each other. Those people bought US share are seeing downward spiral of the share value. Ringgit is also weakening against US currency notes. Few nights ago the news commented that it will weakened as low as RM3.70.

\* What to expect from US besides double standard and refer the rest of the world as inferior!. During 1998 crisis, they slam Tun for bailing out companies. Now the US is doing the exact same thing but with 100 times more money. Tun responsibility is to the Malaysian public and Tun did the unprecedented to safe our country. Thanks Tun.

\* Just wondering if the crude oil price will maintain below USD100 per barrel. So far no news from federal government whether to lower the fuel price. 15 cent is nothing compared to the oil price trend. Maybe the PM and his cabinet are busy with Anwar that they forgot about this!.

Salam Tun,

Najib jadi Menteri Kewangan pada saat dan ketika wang negara telah habis di belanjakan oleh Pak Lah, anak-beranak dan juak-juak nya.

I wonder whether Najib is going to sit down every day in early morning together with all his advisers and generals to tackle the economic problems we are facing, just like you when the nation had facing financial crisis in 1997/98.

apa yang di khutiri konco-konco nya tengah berfikir apa-apa tender besar atau kecil yang boleh di sapu oleh diri sendiri dan keluarga.

Dear Tun,

Imagine all these are once upon a time the biggest brand name in investment banking and insurance. And all this while the US is preaching capitalism, but the fact has proven they are only a good talker. They would once again conned the Asian countries into subscribing to their fancy notes (aka debts). What an idea, trade real money with a piece of junk note.

The question for Malaysia is what's our plan ? Can we attract more FDI and keep our economy running at fast pace in this global environment ? Or will the government blame the crisis and justifying our already bad shape economy. Don't forget Temasek is making S\$18 billion profit out of this situation. I expect a smart and competent government to tap on the opportunity offered and grab the bargains in the market.

Tun, I thank you for making the right decision in 1997 for not kowtowing to the IMF. Hopefully the government can handle the crisis and lead us through.

Btw, the blue chip in KLSE are so cheap :)

By Onlooker on September 18, 2008 6:07 PM

Tun,

I believe the economic situation of Malaysia will continue to deteriorate further if we have such a power-hungry Police Chief as Tan Sri Ismail Omar to keep asking people to keep their mouth shut and not talk about the problem of financial turmoil. Like the then IGP during 1998, Tan Sri Rahim Noor, the present deputy IGP, Tan Sri Ismail Omar, may not be the good candidate to intervene in the freedom of speech on the discussion about economic performance or stock market performance. Economic policy or individual investment decision may not be the specialization field of the Police and therefore the Police should not stop people from discussing further on whether they should come in or get out of the stock market at this critical juncture of market turmoil!

Very often, the Malaysian economy is being destroyed by those top police officer who wishfully think that he is the genius who can help to recover from the plunge in the stock market by invocation of the Section 73 of the Internal Security Act (ISA). I sincerely believe that the Malaysian economy will perform much better if there is no further inappropriate intervention from the Police.

Section 73 of the ISA must be abolished in order to further prevent the misuse or abuse of the draconian law by the tyrannic Police Officer.

Tun,

Dalam keadaan Malaysia memerlukan foreign investment, saya begitu hairan apabila seorang pegawai atasan di Putrajaya yang saya temui minggu sudah mengatakan "foreign investor boleh pergi ke mana-mana negara yang dia suka, kami tak halang, Malaysia negara demokrasi". Untuk pengetahuan Tun, saya bersama rakan niaga dari German pergi berjumpa dgn pegawai Putrajaya untuk memohon lesen bagi mendirikan sebuah kilang di Malaysia dengan membawa masuk pelaburan dan teknologi dari German. Pelaburan tak banyak la, lebih kurang 20 juta. Tapi cukup hairan pegawai atasan Putrajaya kata dia tak kisah Malaysia tak dapat pelaburan luar. Kalau masih ada pegawai-pegawai macam ni di Putrajaya, saya rasa Malaysia tak selamat. Kawan saya kata pegawai kerajaan di Singapura mengalu-alukan sebarang mesyuarat dari rakan niaga yang ingin melabur di negara tersebut walaupun sedikit. Saya rasa, ada pegawai-pegawai di Putrajaya yang tidak "business friendly"

Salam,

somehow, the situation right now almost as if we in Malaysia is under attack. we have never seen this kind of instability since merdeka time. i mean both political and financial storming and create chaos in the country. at least in the past, we still able to master the other (either political or financial).

but this time, the truest form of challenges are in front of us. it's scary and am sure it's going to be a tough one as it goes globally. the USA now is plunging and Fed Reserve is taking charge of the situation right now.

many banks are going bankruptcy (who would have thought Lehman Brothers can go bankruptcy??), AIG, Merrill Lynch and the rest.. these are giants of the financial industry and they are dwindling. do you have many friends that work in any of these financial giants?? i have very few and they are so proud of their company (big three or five or whatever).

one good thing about catastrophe like this is only the fittest survive.. too bad for us, if we are not fit to be in this marathon or sprint, we will get wipe out.

i urge many Malaysians to save money to weather the bad time. and eat healthily. because if you don't eat

healthily,u cant be fit enough to work and fight this battle.

as for our government, i wish them all the best. it's very unlikely we will recover from this so called "reform" soon. with dsai pushing for one thing after another,i pray for the best for this country. i hope there will be someone who is brave enough and of course with power and back ups to clear this political cloud..

it hurts the business, big and small. it hurts FDI and also projects. i dont want to imagine something that never happen for last 51 years, but Malaysians...if you really pushing it hard and wish for change, you will get it..but it will need to have some sacrifice.would we want to sacrifice the peace,wealth and harmony that we have now? look at our neighbouring countries,are they peace,wealthy and harmony? prepare for the worse malaysians.

you will get what you wish for,but are you ready??

salam Tun,

this crisis reminds me of your DINAR EMAS proposal before you retired.

Your idea would make OIC countries be free of international currencies hegemonies.We all knew what happened when the Americans interfered through their proxies.

Could we try to revive this idea?

I still recall TS Nor Md. Yaakop's recent comments about 'unseen hands manipulating the economy'.Is there any truths to this?

DSAAB knew the right time to let go of the Finance portfolio.He's not so dumb-witted after all!Good luck to DNTR!

Assalamualaikum & sejahtera Ayahanda Tun & Bloggers sekalian...

Sebagai peniaga kecil yg berniaga di kaki lima, keadaan ekonomi kita dah semakin teruk dan tenat.. Kuasa membeli dah semakin berkurangan.. Jikalau di bulan ramadhan ini pun keghairahan membeli semakin berkurangan, apatah lagi selepas syawal nanti.. Semuanya nampak jelas dalam buku kira-kira peniaga-peniaga kecil seperti kami..

Ayahanda, keadaan dah semakin kritikal.. Kembalilah kepada kedudukan Ayahanda yang dihormati demi anak bangsa dan rakyat tanah melayu ini sebelum IKAN BILIS & SARDIN MENJADI LAUK YG SANGAT MAHAL UNTUK DIBELI DAN DIMAKAN.. AYAHANDA PERNAH MELAKUKANNYA PADA TAHUN 1997-1998 SEHINGGA BERJAYA MEMBAIK PULIH BUKAN SAJA EKONOMI NEGARA KITA MALAH MENJADI IKUTAN NEGARA-NEGARA DUNIA KETIGA LAIN...

Salam Tun,

I always have better understanding in many issues like this financial turmoil when you explain it simply but intelligently.. Thanx a lot Tun..

I truly believe that what you foresee or what your worries were, especially about this Financial Turmoil was the reality & is happening..

Hopefully, all of the cabinet members can really start working on all these now that September 16 is just a bluff.. And with DSNR swapped as Finance Minister, hopefully things can be corrected, even though a bit too late.. Nasi dah hampir jadi bubur dah.. Boleh ke DSNR buat??

The turmoil looks very bad and worrying in many parts of the world, especially USA.. The Giant is terribly shaken now.. To add to their misery, with the typhoon Ike that destroyed billions of USD..

Lagi lah susah hati & susah hidup rakyat semua kalau inflation semakin teruk.. The worsts are yet to come????

Dah lama orang dok cakap inflation, inflation,.. depa dok sibuk politik, politik..

DSAI & gang pun tak habis2 lagi mengganggu.. September 23 pula..

Susah hati & sakit kepala serta confused rakyat di buatnya..

DSAI, Can you please stop all these drama???

Mari lah kita semua berdoa agar Malaysia pulih dari segala huru-hara & terpelihara dari sebarang mala petaka, kemurungan dan kecelakaan... Ameen..

TUN, BY KNOWING THIS, OUR PAK LAH HAS COME TO CONCLUSION THAT HE HAVE TO RUN AWAY FROM THE POST AS A FINANCE MINISTER. HE KNOWS THAT HE CANNOT OVERCOME THIS HARD TIME. PEOPLE ARE NOT COMPLAINING ANYTHING ABOUT THE ARM FORCE IN THIS COUNTRY, SO AT THE END OF THE DAY HE HAS NO CASE TO ANSWER AND CAN SLEEP TIGHTLY AT HIS HOME. ANY DISSATISFACTION IN THE CURRENT ECONOMIC ENVIRONMENT HAVE TO BE ANSWERED BY HIS " YES BOS " DEPUTY. I PERSONALLY DONT THINK THAT THEY HAVE TAKEN ANY PRECAUTION ACTION TO AVOID OUR COUNTRY TO FALL IN A ECONOMY CRISIS OR AT LEAST TO REDUCE THE DAMAGE. TUN THE FUTERE OF OUR COUNTRY IS NOW QUESTIONABLE DUE TO THIS UNCERTAINTY. AS A MALAYSIAN I START THINKING WETHER, WILL MALAYSIA REMAIN AS A SUITABLE COUNTRY FOR LIVING OR NOT? MY IMAGINATION THAT VERY SOON SOMETHING GOING TO HAPPEN, SINCE EVERYONE DO NOT WANT TO TOLENRATE AND PLAYING WITH THEIR OWN AGENDA. NOW PERSONAL INTERSET ARE OVERRIDING COUNTRY INTERSET. HOPEFULLY VERY SOON THIS STUBBORN PEOPLE WILL GIVE U SOME WAY IN UMNO OR ANY OTHER PLATFORM TO THROW YOUR VIEW AND THEY WILL TAKE EVERY OF YOUR WORD SERIOUSLY BECAUSE THAT VIEW COME FROM THE FATHER OF DEVOLEPMENT THAT HAD CONTRIBUTED TO THE GROWTH OF THIS COUNTRY THAT MAKE MALAYSIA KNOWN TO EYEVERONE IN THIS WORLD. I WOULD SUGGEST TO YOU, THAT YOU MAY ORGANIZE A COURSE ON HOW TO MAKE AN IMPORTANT DECISION BY THE GOVERNMENT WHEN IT COMES TO AN IMPORTANT ISSUES THAT WILL HAVE DIRECT

INFLUENCE TO THE NATIONAL INTEREST, STABILITY OF THE GOVERNMENT, THE PEOPLE AND ETC. THANK YOU TUN. I WOULD LIKE TO TAKE THIS OPPURTUNITY TO WISH YOU RAMADAN AL MUBARAK AND EID MUBARAK.MAY GOD BLESS YOU.

salam Tun,

I respect your critical view on the financial turmoil... The fact that financial market is created thru confidence. When some said that the number of GDP, export, fdi increased, then stock market may fly up..Those are the good old days, that the commodity price depended on the demand and supply aggregate... What the two school of thought for economy...,

Now that, prices for commodity and values of assets are depending the 'chef' and 'chief cook'. Price of steel increases when more hot money (chilly) throw into them,start buying and stock upon it.

We have to accept the fact that we can't change them, it is rational to follow them. Look at the price level of palm oil going for "V" and "U" price movement.... We have the choice to follow the rule of the game set by others.....

I believe u may want the government to go back to fundamental by strengthening the basic need of the people...Have a strong cash flow government current account....

May be you try to get the new finance minister to change the tax system.... instead of imposing 20-25% corporate income tax .... instead impose to the max. 10% corporate and personal income tax.. and followed by GST system..say 7% to 10%...Think about those corporate sector, I bet most of the companies 'hampir semua lari cukai'...

Perhaps some of the needy item such as rice, flour, etc could be subsidized for the price escalation due to GST...

I dont with Singapore's method of designing it as so called regional financial centre...tapi...should be classified as regional money laundering centre....

sekian Tun,

regards and thanks

Salam Tun,

Hari ini saja saham kita telah menjunam teruk iaitu kira-kira 40 mata. Kalau tak ditangani dengan bijak, negara kita akan mengalami krisis seperti 1997. Mungkin sebab inilah kementerian kewangan diserahkan

kepada Dato Sri Najib sedangkan bajet 2009 pula Pak Lah yang buat.

Tapi kali ini mungkin bank-bank kita akan lebih berdaya saing sebab proses pengabungan bank-bank telah Tun usahakan dahulu. Semua ini adalah usaha Tun untuk mempertahankan serta memperbaiki masalah matawang kita sedekad yang lalu. Mudah-mudahan Dato Sri Najib dapat membuat sesuatu untuk mengelakkan jatuhnya matawang kita buat kali ke dua.

Semoga Tun masuk semula UMNO dan jadi penasihat UMNO untuk membantu masalah kerajaan kita sekarang.

Selamat berbuka puasa Tun.

Assalamualaikum.....

- 1) Tidak hairanlah mengapa negara kita Malaysia berjaya menanggapi krisis ekonomi 1998 dulu. Ini adalah kerana dari kebijaksanaan Tun ketika itu.
- 2) Saya yakin dengan penerangan dari artikel tun ini, Tun masih mampu lagi mentadbir negara kita dan khususnya menjaga kewangan negara. Jika tidakpun, sekurang-kurangnya menjadi PENASIHAT EKONOMI NEGARA.
- 3) Semestinya Paklah mahu lari dari tanggungjawab kerana melepaskan portfolio kewangan di saat krisis ekonomi ini. Masakan tidak, dalam soal-jawab ekonomi paklah tak tahu apa satu pun.
- 4) Kepada Dato Najib, jika betul-betul mahu menjadi Menteri kewangan yang cekap dan berjaya di saat krisis ini, terimalah Tun Dr. Mahathir sebagai PENASIHAT DI KEMENTERIAN KEWANGAN.
- 5) Jika betul-betul kerajaan sekarang telus untuk pulihkan ekonomi negara, semestinya nasihat dari orang-orang berpengalaman diperlukan.
- 6) Bukannya mendengar nasihat dari 'lulusan oxford' atau 'runner tingkat 4' yang hanya mempunyai kepentingan diri sendiri yang GILA.

Salam Tun,

Saya membaca posting Tun dengan perasaan berdebar-debar.

Ke manakah arah tuju Malaysia? Setelah ekonomi negara dihancurkan dengan sebegitu rupa oleh regime Abdullah Badawi, sekarang dia nak lepas tangan pulak.

1. Saya sebagai rakyat menuntut Abdullah Badawi untuk letak jawatan PM serta merta.
2. Serta merta juga, pasport Abdullah dan keluarganya harus dirampas oleh pihak kerajaan.
3. Abdullah Badawi harus dihadapkan ke mahkamah atas pelbagai tuduhan salah guna kuasa dan rasuah.

Ini harus dilakukan oleh pihak kerajaan. Jangan tunggu lagi.

By Jean Pierre Polnaref on September 18, 2008 6:53 PM

Dear Tun,

The truths is that the politicians are aware with the upcoming turmoil.

But as all the Malaysian knows, they just making it easy as one two three.

Abdullah Ahmad Badawi is aware with this by his 'level 4 goons' and cunningly swap his portfolio to Najib.

What is this?

For me this is a cowardly move that i ever seen for a prime minister.

If Najib can't cope with the effect economic turmoil, what Abdullah and his goons know that they have "washed their hands" and just pass the blame to Najib for his incompetency.

As all Malaysian knows mostly the business people, all of Malaysia's economic details and stability has been fabricated day by day.

I wonder how for a person like the governor of bank negara can take it easy with this fabrication?

Tun, as a humble person may i ask you. Do you want to see this good country is up for grabs from the IMF?

As i know, Abdullah also have said that Anwar is his friend. No wonder they are so eager to make this land up for stakes.

Happy Ramadhan

Najib couldn't even handle the Malaysian National Service (16 deaths and counting) and now he gets to handle our finances. This is a prime example of not getting on with the job (i.e. making sure the Malaysian economy is not screwed) but instead devoting all energy into politics (swapping portfolio to get closer to becoming PM).

By baganAuthor Profile Page on September 18, 2008 7:11 PM

Assalamualaikum Tun,

With this Subprime crisis taking its toll on American investment banks as well as Europeans, our local banks

are in good shape as our exposure towards the ridiculous risk is very minimal. But IMF has a new source of bullets now, the Sovereign Wealth Fund, even bigger than all the hedge funds put together at US\$3trillion of hard cash (not bytes)! Imagine the amount of electronic money they can create this time.

What can we do to avoid the next web of trouble, as the banks and insurance companies are facing huge loans obligations from the feds and under tremendous pressure to recover, they might resort to all type of speculative activities, and with the new bullets in town the kind of havoc that they can create, perhaps something unimaginable till now! Normally at their scale they will go for macro bets in instruments that can cater to their appetite like currencies, commodities, and perhaps equities of huge economies. One SWF can take on one country's currency like a syndicate did a 2nd board counter! Limit up or down before you can think of what to do. So take note, they might take us on another ride on oil, dollar and other common source of wealth.

What can we do:

Start going for alternative energy despite the oil price down.

Runaway from US\$ dependency fast! As far as we can.

And never get greedy & take any loan from them, ever!!!

By one on September 18, 2008 7:13 PM

Salam Tun,

Just to share views on the very crucial current economic turmoil. You are the only ONE who concerns. and this matters to me, us and the public. So far, no ministers had made clear statement explaining to the public of what is happening to the US economy and what is going to happen next. To them, nothing else matters but continue playing the political game to be in power is the utmost important.

The US is already dead! This is the real COST of their destructive invasion of Iraq. The War had destroyed what have been built by the mankind for many decades.

Now, we better fasten our seat belt. Be prepared to face the reality of the worst economic turmoil, far worse than 1998. This time it may last 5 years or more, depending on where you are.

I agree with Tun that the AIG bailout is just a creative accounting exercise to comfort the public. There is no real money flow into the system.

First, they said AIG's balance sheet was wiped off some USD50billion when Lehman Bros announced bankrupt. The next day, the Fed Res rescued AIG with USD85 billion loan (only). I wonder how long it would stay afloat. 4 weeks, months or up to X'mas.

Just wait a little longer, we 'll see a lot more going down as a domino of the collapse.

No more paper / creative, sophisticated instruments trading will take place to camouflage the transactions. The world economy has been unproductive with those paper dealings / tradings.

The wise ones are the ones who watch and understand what is going on. There will be opportunities to come... at the right price and right time.

Our leaders must be alert and watchful on the world economy is going now.

Selamat terbuka TUN.

Spot on my most admired and respected Tun.

Those same people who condemned our bailouts by danamodal and danaharta after the 1997 asian financial crisis are bailing out companies on a far bigger scale now. And latest news is the fed is going to get even more involved in such bailouts. What a bunch of two faced and double standard, hypocrites!!!  
By sherry on September 18, 2008 7:14 PM

Dear Tun,

To ezani's "Tun would made a fine Finance Minister".

I believe if anyone had gone thru' the Asian 1998 financial turmoil which bankrupted the Anwar's IMF-prescribed economy of South Korea, Thailand, Indonesia and many other Asian countries caused by George Soros-like money market manipulators and conspirators, Malaysia had managed to overcome the crises through the unpopular, orthodox and conventional yet intelligent and drastic affirmative actions undertaken by the then Prime Minister and Finance Minister Tun Dr Mahathir Mohamad, and at a time of political challenges created by yet again Anwar Ibrahim.

Hence, Tun Mahathir would be the most brilliant Malaysian finance minister ever todate.

At this time of world economic uncertainties, it would be most wise for all Malaysians to unite and call for immediate;-

1. Removal of Abdullah Badawi as prime minister and accept a new PM from the present ruling party mandated by the people (a major factor to our present ailing economy).
2. Stop politicking by all parties until next general election and end the back door and undemocratic change of Government pursued by Anwar Ibrahim [another major factor to our current economic slowdown].
3. Form an Economic Think Tank comprising all brains including those from ngos and opposition parties to formulate an all action plan to weather the looming economic doomsday [a knee-jerk to boost people's confident].
4. Appoint Tun Mahathir as Financial Advisor [a stimulant, or tongkat ali power root badly needed by people].

To all Malaysians of all races, religions and ideologies, lets work together to face the real DEVIL looming ahead of us all...Mr World Economic Turmoil from America. Alan Greenspan just quoted..."this scenerio is once in a Century.."

It seemed that Tun dislike my comment and filtered it out from your blog.

I'm puzzling where/what wrong with the comment. Or it's not a good time for the blog to add it in this

current sensitive timing?

Non Malay Malaysian have the duty to let their young to know and to choice for their own future. What should the parent tell their young? Teach them not to complain and study hard and away from politic(may labelled as greedy "Yahudi"), one day when the opportunity come, leave this country for good? For those who not qualify to go aboard, just swallow and bear it?

We spent billions of ringgit in scholarship, and sent them to the West / Arab to study. and End up rejected the Secular / Islamic Value that have in common. Equality in Justice.

It is clearly that Perlembagaan UMNO, FASAL 3- ASAS DAN TUJUAN : "Melayu demi mengekalkan maruh dan martabat bangsa, agama dan negara" (<http://www.pemudaumno.org.my/modules.php?name=Perlembagaan>) where the important of bangsa is contradict and on top of the Agama(Equality in Justice) - <http://www.islamreligion.com/articles/376/>

I hope that the current government aware about the difficulties of the people. They should think more about the people instead of thinking ways to protect their own interest. Action thats count. Today, the people are more knowledgeable and do not think that we can easily blind by the 'gila-gula' and 'janji-janji' manis.

By Ahmad Syafiq on September 18, 2008 7:50 PM

To save Malaysia there is only one way Tun has to be back in power. It is impossible to have Tun as our PM although all Malaysians except for Pak Lah and KJ would love to see that happen. So the other way is use the back door. Appoint Tun as an advisor of UMNO and also advisor to the PM whoever that may be n of course not Pak Lah. Also please get rid of that Nazri he is one reason the rakyat of Malaysia today has lost confidence in the government and BN that has been ruling the country for more than 50 years.

By azhari on September 18, 2008 7:51 PM

Dear Tun,

I heard the swap of Cabinet positions were carried with immediate effect. As such, there is no time to waste by DS Najib. Instead DS Najib must act swiftly to minimize the impact of the crisis on Malaysian economy. At least something similar to NEAC must be activated!

DS Najib should emulate your actions 10 years ago. Some things are different but sometime most of the things are still the same and hence DS Najib should revisit past actions as well as working on new solutions to counter the new problems.

But I doubt any of the present leader has similar economic acumen,unlike you, to assess correctly the problems and then put in countermeasures. One good example, the currency control mechanism is no longer there because we have lifted it due to persuasive talks of foreign economists.

Well I just hope that DS Najib would show his true colours in the new job and bring with it great success to deflect off the impending economic crisis from 'hurting' Malaysia.

Good luck to DS Najib & I'm sure he needs plenty of this to help carry the hopes of the Nation.

Regarding to Tun's post, I would like to elaborate some more points.

1. The US Federal Reserve is basically a private corporation and it's major goals are to profit more.
2. The reason why the US Federal Reserve is bailing out AIG is because of that the AIG is a major guarantor of many derivative products such as CDO's etc which are deemed as " toxic waste " by most economist. These financial products needed to be insured so that it can improved it ratings by the ratings agency. Thus luring investors to buy those products. If AIG fails, it will render all those financial derivative products to be worthless and losing value. Resulting that more financial companies and hedge funds are

going busted due to that their so called paper assets are considered worthless as if it was toilet paper and it means they are insoluble. If this happens, there's going to be more failure in the finance sector.

3. The Federal Reserve creates money out of thin air as if creating money is just a matter of creating an entry in an book keeping account. Please do some research on how banks created money.

4. The value of US Dollar is rallying up recently. Maybe someone could explain to me why since most of the commodities and equities market are suffering. Something is not right when prices are going down but supply is not enough or the market has been filled with coordinated speculators and hedge fund traders who took part in creating a bubble to manipulate the market and sucking out our hard earned income. Or something much more eerie is brewing up as if we're going into a war.

5. I think it is wise for Bank Negara to dump US dollars. However if a war broke out. I wonder what will happen to the US dollar.

6. Last words ... be cautious and resilient. Read and analyze more. Prepare for what has to come.

Khairul

Dear Tun,

I look at the same way to your comment abt being "magician" that buy over or bailout somebody from falling down. Well, nothing much to refresh as this already being as the most easy way or probably let just call it the "only way" because it's not really their hard-earn money, so get use to it.

Well, going down under absolutely not very good to any circumstances that probably in nearest day would or might hit or pulling the others as well. What im trying to imagining is to get us all think a little bit careful and puzzling the in-coming "disease" whether we got the ready "antibodi" or "vitamen" to get well soon.

If anyone stick to everyday no change because of yesterday reminding of us what being stated or being practiced regularly then somebody tell anyone that it gonna be fine...all the way. I am not gonna be the one to say that.

I will change to follow the day, i will not talk about yesterday unless i able to stop the day that keep coming.

All well to you & family.

Dearest Tun Dr M,

I feel sad for our country. I grew up with almost two third of my life having you as the PM. I have gotten very comfortable with your leadership. Now the country is not stable and there are lots of uncertainties. Who is lying and who is telling the truth. My wish is that you would be able to contribute again to the governing of Malaysia. Please help Malaysia.

Always loving and respecting you.

YBHG Ayahanda Tun,

Saya sungguh kagum diatas kejaayaan Tun dalam menyelamatkan kami rakyat Malaysia semasa krisis ekonomi 1997. Walau banyak orang mengatakan "formula" Tun adalah mustahil dan jenaka, Tun akhirnya telah buktikan bahawa Malaysia mampu selamat dari si Durjana George Soros.

Kali ini saya ingin melihat apa yang akan PakLah akan buat untuk menangani isu ekonomi yang kian meruncing.... seperti tidak percaya.. dia serahkan tampuk pak kewangan kepada Pak Najib. Adakah beliau ingin lari dari tanggungjawab ini dan serahkan segala masalah yang mendatang kepada Pak Najib?

Saya tidak tahu kenapa tidak ada seorang pun Pak Menteri kita menyuarakan prihal ini.. yang makin pelik berita hairan dan tvE langsung tidak menyentuh masalah ekonomi dalam negara? Menagapa? Ingat rakyat bodoh bebal ke? Harga kawalan syiling yang digembar gemburkan oleh Pak Shahril hanya tinggal gembar-terkubur aje.. barang tetap naik walaupun belum hari perayaan lagi!! Apa nak jadi kita rakyat malaysia??

Harapan saya cuma satu.. hanya Ayahanda Tun sahaja yang boleh menyelamatkan kami rakyat Malaysia.. kembalilah ke pangkuan UMNO dan bantu kami dalam keadaan getir ini .. keadaan dimana nak cari sesuap nasi pun susah.. keadaan dimana ketakutkan sentiasa menyelubungi diri... keadaan dimana perasaan bangga pada negara kian pudar.. kembalilah wahai wira bangsa dan negara.. kembalilah wahai pemimpin yang disanjung... kembalilah wahai anak malaysia! Selamatkan bangsamu selamatkan agamu... kembalilah wahai Mahathir!

Salam Tun & isteri ..

1. Saya berasal kesal dengan sikap PM sekarang ini yang lepas tangan. Sepatutnya PM hendaklah memastikan keadaan ekonomi dalam keadaan stabil dahulu barulah pertukaran jawatan dilakukan. Ini merupakan helah untuk menutup kejahatan yang dilakukan.
2. Saya melihat perbuatan ini merupakan satu teladan yang tidak baik. Sepatutnya pemimpin hendaklah menjadi contoh yang baik tetapi telah berlaku sebaliknya.
3. Saya juga berharap, PM tidak menggunakan kementerian pertahanan (Tentera) untuk kepentingan peribadi demi keselamatan negara dan rakyat.

Selamat berterawih Tun & isteri :)

By babacurious on September 18, 2008 8:17 PM

My dear Tun

As the saying goes.. "When the going gets tough, the tough gets going". This is certainly not the case with our PM. After more than 5 years on the PM's chair, he finally realised his ability as a Finance Minister that he needs to swap with his DPM for the Defense Ministerial portfolio. Are we to expect more ISA abuse and perhaps marshall law? Or perhaps more purchase of military hardwares. Without being prejudice, Najib is not a financial thoroughbred and the same with his brother Nazir. Doing the job and being seen to do the job or having the knowledge or seen to have one is entirely a different thing. Knowledge is not enough without the experience. Sorry to say the both lack hands-on experience in this case. I am surprised why the FM1 wasn't promoted to the post instead. He may be academic but his hands-on experience under Tun previously could have earned him some better knowledge and experienced. This is not the time for trial and error or even a learning process. Seek good financial advice. The nation is at stake

By babacurious on September 18, 2008 8:18 PM

Salam My dear Tun

You have studied the economic trends in the US financial system very philosophically. You must have seen it coming from afar. You have put it very simply and clearly to everyone. This is only the beginning of the financial turmoil. Worse has yet to come. What ever financial turmoil affecting US now will soon be spilled over to the rests of the world..if not already. The US is now slowly but surely changing her Oil Dollar to Gold Dollar. The irony is that the US has infact sold off vast quantities of their gold possession during the turn of the oil century. And to gather the quantity of the commodity to back up their dollar takes time. Today Asia has the most gold in their possession. China for one, and they are not heeding the US's request to increase their currency and they stayed steadfast to building up their own economy. The printing of new dollar or currency is nothing new to US. They have done that in many occassions years back from the time in 1934 if not longer. Till this day, such currencies are still in some possessions though they may not be tradeable currencies. The real enormity of the financial and economic turmoil will come very soon. It will last for quite a while this time around. So, brace ourselves and behold.

By Mohd Riduan on September 18, 2008 8:20 PM

Salam..Pertukaran jawatan diantara AAB dan NTR sepatutnya dilakukan lebih awal. Dalam keadaan Maybank melabur (dipaksa dalam erti kata sebenar) untuk membeli BII di Indonesia melalui pembelian saham-saham milik Temasik Holdings. Siapakah disebalik aturcara penjualan saham ini? Janganlah jadi seperti kera di hutan disusukan anak dirumah mati kelaparan. Tidak menjadi kesalahan bagi syarikat negara untuk melabur diluar negara namun perlu ada badan yang mengawasi pelaburan ini. Sekiranya badan pengawas ini ada sekalipun, sekiranya mendapat arahan pihak atasan yang mempunyai kepentingan untuk memberi kelulusan pelaburan ini..maka badan pengawas ini juga akan berkata 'Yes Bos' umpama burung belatuk, maka fikir-fikirkan lah. Selamatkan Ekonomi Malaysia

By adamjohari on September 18, 2008 8:29 PM

The US dollar will definitely fall. But do not underestimate the hardworking American people. They are extremely determined, and they work their butts off for their ideals. I think the worse is yet to come, but the American people will bounce back quite fast.

How bad Malaysia will be affected is still unknown. I hope Najib will be able to handle it. He looks like a smart person. When financial turmoil like this happens, I wouldn't be afraid to call the smartest people in Malaysia; CEO's, financial analysts, financial consultants, economic professors etc and try to find a solution that will enable Malaysia to cushion the fall.

The coming months will be very interesting.

SALAM AYAHANDA RAKYAT TUN  
IZINKAN,  
PS

6. Malaysia would be wise to get rid of dollar holdings. This goes for Bank Negara too. It must have lost quite a bit because of the depreciation of the USD.

THE SO CALLED FINANCIAL EXPERTS SHUD IMMEDIATELY SEEK THE ADVICE OF AYAHANDA TUN TO AVOID THE RINGGIT BEING 'DROWNED' IF AND WHEN THE FINANCIAL MARKET 'TSUNAMI' HITS OUR SHORES!

DONALD TRUMP'S VIEWS OF AN IMPENDING 'DEPRESSION' IN THE ECONOMY SOME TWO YEARS AGO WENT UNHEEDED AND THEIR FINANACIAL EXPERTS KEPT TELLING THE AMERICAN PUBLIC 'ITS ALL WELL ON THE ECONOMIC FRONT'.

NOW AYAHANDA TUN HAS THIS TO SAY,

4. I am not a financial expert but I see trouble coming our way. Our currency should be appreciating against the cheaper US Dollar. But instead it is depreciating. This must be caused by weaknesses in our economy.

TAKE NOTICE, PLEASE!

ALFATIAH, AMIN.

Salam Tun,

Inilah akibatnya kerana terlalu percayakan pada golongan muda. " I would rather listen to the young ones" begitulah ungkap yang selalu diucapkan semasa AAB memegang jawatan Menteri Kewangan. Sekarang apa dah terjadi pada ekonomi kita? Jatuh merundum. Singkirkan saja bebudak tingkat 4 tu, dan semoga Najib dapat menyelamatkan ekonomi kita. Lupakan saja ancaman dari Anwar Ibrahim. Anggaplah ia bagai tidak wujud dan tumpukan perhatian pada masalah ekonomi kita.

By hamidi on September 18, 2008 8:50 PM

what better time to put a scape goat at this point of economy the world is facing.. sneaky pak lah is running away from all the blame. pity najib has just about to start his plan for rehabilitation of the country. i have faith that this crisis will be handled carefully by najib, and hopefully tap whatever benefit the country can gain in this economy situation.

the people must realize that pak lah and his games are ending. he must therefore ensure that he has clean sheets covering him all over. najib is going to find that there are many dots on pak lah sheets but

has to accept it as it comes with the job. najib will also find on how the ACA has been used as a tool to even sharpening the claws of pak lah family based economic control.

nevertheless, najib should not have come into the MOF any later. i am very relieved that upon hearing AIG being bailed out by the US government, najib has already in the helm taking over pak lah. US economy indication has shown us that it is ready to collapse. if pak lah has not passed the finance portfolio to najib, my guess is that by December we will feel the impact harshly.

thanks tun for the enlightenment. pls return to UMNO, pls bring pak lah down, and pls, stay healthy.

we need u more than ever.

Yes, we are heading into a financial turmoil. Our unstable political environment is also adding to the agony (plus a bit of flip-flop here and there and a bit of spinning...of course).

Copy to YAB Najib,

I do hope you would lower down your ego and would learn from Tun M on how to recover the economic crisis. Based from my readings, many agree that Tun M had single handedly found a remedy to cure our previous economic situation.

Its true Najib that you have your own economic pundits to advise you. But, remember even pundits/experts do argue among themselves.

Make the right decision with your due diligence.

Copy to Tun M,

Should Najib approach you to seek for advise..i think you know what to do...=D

Thank you and Wasalam

Malaysian diplomats told to act stupid. Then get genuine stupid people to become diplomats and pay them little. The government should instruct the smart spin doctors to come up with attractive stories so that there will be investments in this country. But if all fail, then we follow like what P.M. has instructed. Start farming. He would not have that kind of money to jail unnecessary people. He has to set them free.

Since the 1997 crisis, Bank Negara is taking a good mechanism to control our RM, interest rate & KLSE. Only commercial banks are struggling to get their loan money back if we see more bankruptcies and more crime rates. Hope to see pure Islamic economic rises.

By ZNZ on September 18, 2008 9:09 PM

Dear Tun,

I acknowledged and support azmany's comment - "Danger is knocking at our door and no one seems prepared to tackle it. Scary.... we have one power-crazy-diva willing to do everything to be PM and another selfish-diva who clings to the PM post and denying everything that suggest otherwise."

From you - 7. "I talked to potential investors and they told me they would not be investing and they are pulling out from the Malaysian stock market. The KLSE figures show how much market capital has disappeared. I am told that it is more than 100 billion Ringgit."

Economy is about money. Its all begin with an investment and it moves on. 100 billion is not a small amount. Apart from personal reasons, only political unstability would trigger such.

We must stop blamming and find a way to save our country. AAB passing the baton might be a little too late but hopefully Najib can salvage some. We'll be call fools if Anwar ever succeeded in becoming the next leader. It is unbelievable that we are heading towards financial turmoils and that guy is still ever so persistence for the PM post? What kind of a Malaysian is this? And to our surprise how many idiots cheering for him right now?? Allah please saves us all.

AAB and Anwar must be shut. In the meantime watch KJ. This guy seemed to have a huge potential of being the next Anwar. Our political scenario right now is so similar to a Tamil movie. I wish you could help us but i dont intend to hope. If you want to help us just do it Tun. You have your resources. You can do it.

Yang Amat Bhg Tun..

Assalamualaikum....

1. I'm not interested to know why DS Najib is tasked to take over Fin Min, neither do I want know why DSAAB took over Def Min. All I want to know is DSAAB must step down as PM immediately. Like I said before, DSAAB has to step down by this Oct or latest by Nov, just after few UMNO branches finish their meeting. Why??? Because by then many of UMNO branches nominating presidential post to be challenged.

### DSAAB.. please step down ASAP ###

2. Lately, I have also noticed that, he was trying to confuse DS Najib and rakyat, by keep on saying to stick to his transition plan. When everytime he said that, he will turn his face to DS Najib for confirmation, and of course DS Najib looked uneasy.

!!! DSAAB.. please step down ASAP !!!

3. As soon as DSAAB step down, I call upon all Malaysian to stay in Malaysia, let us together help our govt to overcome the Fin turmoil liked we did before in 97/98. All we need to do is to ignore completely on what DS Anwar is doing now, and just stay focus on rehabilitation of our economic crisis. Jangan kita juga but bodoh macam orang suka buat bodoh (bodoh sombong).

### DSAAB.. please step down immediately ###

Wassalam, PESARA.

Dear Tun,

Krisis ekonomi sekarang tidak sama dengan apa yang berlaku di Asia 10 tahun dahulu. Masa itu, matawang Malaysia diserang teruk oleh pelabur-pelabur asing. Kini tiada sesiapa nak serang Malaysia. Pelabur-pelabur asing ini sekarang sibuk untuk menyelamatkan mereka sendiri dari krisis kewangan di Amerika. Itulah sebab, 'USD appreciate against RM' kerana mereka menarik balik pelaburan mereka di Malaysia. Ini untuk sementara sahaja, selepas ini kita akan nampak 'USD depreciate against RM'. Namun, ekonomi Malaysia akan terjejas juga akibat berkurangnya pelaburan asing ke Malaysia. Untuk mengatasi masalah ini, pada pendapat saya, Najib harus menarik pelabur-pelabur dari negara China ke Malaysia. Bank Negara juga harus mula mengurangkan pegangan USD sebelum USD susut nilai.

Saya rasa agaknya AAB tukar jadi Menteri Pertahanan mungkin dia nak ulang kes Atlantuya ke atas DSAI. Hehe...just joking.

Dear Tun Dr. Mahathir,

Assalamu aleikum.

When Anwar Ibrahim was finance minister during the 97 Soros crisis, he wanted to sell out Malaysia to the IMF/World Bank, an action that you wisely prevented. He has since dramatically increased his ties to

the US State Department apparatus. Washington DC's Georgetown University is the human resource for most of the personnel in the US Foreign Service (the US State Department). Not surprisingly, Anwar Ibrahim is an actual member of Georgetown University's faculty, to whom he owes true allegiance.

A recent article by Eric Pilch in the Georgetown Voice

<http://www.georgetownvoice.com/2008-09-18/news/prof-attempts-malaysian-takeover> stated that:

"If Ibrahim does become Prime Minister, he has expressed a commitment to economic reform and the removal of affirmative action policies for ethnic Malays. Either way, he wrote, his future would include Georgetown University.

'I'm certain to come back, but in what capacity I can't say,' Ibrahim wrote. 'Georgetown will long remain in my memory as an idyllic place that gave me a renewal at a point in my life when it was most needed.'"

In the unlikely event that Anwar Ibrahim is not bluffing about his parliamentary numbers and actually does become PM, disaster looms for all but Anwar Ibrahim who can leave Malaysia and return to his non-Malaysian "idyllic place" with his pals at Georgetown University in Washington DC.

Dear Tun,

Wicked Abdullah has strike again.

By passing the Finance portfolio to Najib, he has nothing to lose but everything to gain.

Everyone know that the US economy downturn impact will surely hit our shore soon, not today nor tomorrow, but definitely one day within the end of this year.

If we survived, Abdullah will happily pass the PM baton to Najib and claim credit for his "wise" move.

If we hit rock bottom, Abdullah will get Najib fired and held on the PM post.

Now that Abdullah hold the Defence portfolio, the army is under his wing, coupled with the almighty ISA.

Is there any opposition mighty enough to fight an armed struggle?

No Malaysian wanted that to happen though...

By onesoul on September 18, 2008 9:41 PM

Most of us are aware that financial market is a virtual market. But due to pride, greed and ambition wanting to be abreast with the other countries we have brought our own downfall upon us. We had all the resources to build a better nation but we were busy trying to grasp as much wealth for ourselves. During the 1970 when most companies were not berhad, we had a very sound economy. When companies were converting from Sdn Bhd to Berhad, all of them just inflated the price and were not reflecting the true value of the company. This is when power, money and wealth mesmerized us. And finally this evil moved into politician game to play. Each politician tries to accumulate wealth as if he is going to live for another 1000 years or more... If the financial collapse everyone will suffer but the worst be the very rich. The poor are used to this condition already.

Welcome to dream land. It's all a dream. Stop fighting and wake up Malaysian. This dream land has no past or future. This dream just evolves on the actions done on every single moment. The future is not yet come and the past is gone, so wake up people.

Dear Tun,

Assalamualaikum,

You may remember attending and delivering keynote address at the International Conference on Gold Dinar held at PWTC in July 2007. I was a member in the organising committee of the conference and was in-charge of welcoming your goodself.

We believe that this time around, US would not be able to turn around and is heading towards it's imminent downfall. Unfortunately, there would be many countries that would follow suit and the effects are going to be catastrophic. What baffles me most is that not many leaders around the world who seem to understand the issue, and this includes Malaysia. Our 'leaders' are embroiled in political disputes that no one actually pays much attention to the real problem.

It is our sincere hope that your esteemed self should spend more time and effort to champion this cause as it would benefit not only this nation but also the two third population on earth who live below the poverty line.

Pada pendapat saya, negara kita akan mengalami kegawatan ekonomi sekali lagi seperti yang berlaku pada tahun 1997.....

saya pernah mendapat info mengenai perkara ini dalam internet.....

ia menyatakan bahawa Malaysia akan mengalami kegawatan ekonomi pada setiap 10-12 tahun sekali....

jika benar pernyataan di atas, dan jika kepimpinan sekarang tidak mengambil tindakan utk mengatasi masalah ekonomi, saya percaya yang tidak mustahil negara ini akan mengalami kegawatan ekonomi pada 1-2 tahun akan datang.....

Saya minta kepada Tun utk menjelaskan tentang perkara ini dalam blog Tun yang akan datang.....

Selamat Berpuasa dan Selamat Hari Raya....

Dear Tun

You are a doctor of all kind. When the economy is sick, I strongly believe that no one else is capable for a tough job like that that you. Curing a sick economy is not a job for politicians who know nothing like Iman Hadhari or the submarine king. They should not be too arrogant, not seeking your advice on how to revive the economy for the sake of the nation.

Assalamualaikum Tun,

Saya masih ingat pada 1998, saya cuba mempertahankan idea bail out Dr M di kalangan kawan2 saya (yg pro reformasi, bersorak2 bila menonton siaran TV ucapan US Vice President - lupa namanya!, menyarankan tunjuk perasaan jalanan), mereka menuduh Dr M bail out bisnes keluarganya yg sama sekali tidak betul, menuduh Malaysia negara mereka sendiri tidak mengamalkan bisnes yg adil dan saksama, mereka kata syarikat yg demikian tidak berdaya saing.. INI KATA ORANG2 MALAYSIA SENDIRI PADA TAHUN 1998.. MUDAHNYA MEREKA MENERIMA IDEA BARAT..

U.S SENDIRI HENTAM DR M TENTANG BAIL OUT, KERANA RENCANA MEREKA UTK JATUHKAN EKONOMI MALAYSIA TIDAK BERHASIL.. MACAM2 DIKATA KAT DR M.. yg mana Tun sendiri lebih Maklum kerana Dr M itu adalah Tun sendiri.

NAH! SEKARANG APA SUDAH JADI.. SAYA MAU PULANGKAN BALIK PAKU BUAH KERAS KEPADA KAWAN2 DARI PKR DAN PAS YANG TIDAK PATRIOTIK PADA MASA ITU. Sedarlah jangan tak sedar.. jangan jadi petualang bangsa dan negara.. balik lah ke pangkal jalan!!

Salam kepada YAB Tun dan rakan2 bloggers,

1. Maybe that's the whole reasons why Dollah immediately transfer the ministry to najib...too hot to handle!
2. Dollah got the 'soalan bocor' about US finacial turmoil, so before the impacts are on us, why not let najib put his head there? Dollah's head with hairs shouldnt be there! Kesian Najib the obedient.
3. Yo Zeti, Nor Yakcop, think hard of Tun's suggestions and start acting now...we have very little time! tsunami is coming....
4. Najib, since you're the finance minister, shelve all idiotic proposals by Dollah, maybe we can save some monies. Do what you can..talk to Tun, he was there before, please, for once, fight for us! For your race!
5. Dollah sampai hati pekena najib...dulu dia kata dia akan stay untuk bawa kebaikan, untuk selesaikan kerja dahulu, takkan lari dari tanggung jawab, barulah pencen..., bohong kan?
6. Sakit hati apabila apa yang Tun cakap dari dulu lagi, apa yang ditulis oleh sahabat Tun, Matthias tentang US cop duit dan akan alami masalah, TIDAK DIHIRAUKAN OLEH DOLLAH. Dia sibuk mengaut untuk diri dan kroni, sekarang cuci tangan. Oh, lupa, ini cara Hadhari!

Tun, I know that you're ever ready to come and help before things get worst, but you also know that the ignorants would rather let us suffer than getting you to help...ego matters.

Dearest Tun,

It is useless to remind , remind and remind.

The PM is practising "BURUNG UNTA" strategy.

Everything is find . They is no economic problem, No such thing of Financial Turmoil happen in Malaysia.

Very good strategy lah.

We all in Malaysia worry so much, what will happen to Malaysia nest few days.

The government still taking sweet time of talking transition plan. It is so difficult to handover, restructure and move on!!!!

See our Japan Prime Minister. Cannot move , change Captain, move, cannot, change again until it can.

Why, It becomes or looks like UMNO has no calibre leaders to lead already.

Morale is morale. Cannot means cannot.

Dear Tun,

Your timely re-entry (soon to be) into UMNO with Ku Li in the team, would save the party and the country from going into further political and financial turbulence. If anyone could save the country given the current political and economic uncertainties, it would be you and your team that you will be bringing in into UMNO. You should reconsider of having some trust in Najib again as currently he does not have much choice rather than listen to Pak Lah. Though he knows Pak Lah is incapable of running the party and leading the nation, he is left with no choice. He is not in the position to go against Pak Lah and i am sure you know the reason very well as you have been leading the party for 22 years. Tun, instead of having 2 teams (Ku Li- Muhyidin) & (Pak Lah - Najib Team) in the coming Dec election, could we have only one team (Najib - Muhyidin) with Tun and Ku Li supporting them in all angle? i think the delegates at the divisional and the grassroots will listen to your advice and take heed of your words.

Since the march tsunami, everyone thinks, eat and live the big word called TUKAR. Anwar and gang, too engrossed with seizing power and lowering the petrol prices have forgotten that we now live in a borderless world. The world economic expansion era since the world war 2 has ended and we are embracing a cycle of an economic depression (God forbid) unseen before.

Before march8 I used to quite nicely able to 'cari makan' at the market places. Now to earn a office boy wages seems a task. What has changed between then and now? I really do not know. But what has not changed is the way we jump traffic lights, randomly park our vehicle as if the whole road belongs to our grandfather, curse and swear (some by the holy book) as if its our mother tongue.

Now our pockets are feeling some piches here and there. We are in for a rude awakening. The 'mat sallehs' are nowhere successful in sight trying to juggle the huge mess they firstly created. The rest of the world are as always in the receiving end of the catastrophic economic earthquake. I just wonder if we are able to brave the rain once more for a raja Petra ceramah.

Tun, I don't know if you'll see this one comment out of the many that you receive every minute, but I had to jot down this comment in your blog after I watched something on Bernama TV.

Basically:

The CEO of CIMB said that when everyone thought you were mad in the 1997-1998 financial crisis, you turned out to be a genius.

I felt so proud when I saw that on TV. Even the TV reporter was smiling all the way.

God bless you and your family Tun.

It fine you share some knowledge to your blog regarding globale finance crisis nowadays. So people espically like me which totally blind all these, now we learn something from you ,thanks you Sir, .. So now I think everybody is understood the reasons why of portfolio swapped by Prime Minister recently. Pity to Dato Najib. He has to face the financial turnoil at the sametime he has to solve out current political issue. Now people keep on waiting to you Tun.

when will you submit your application form for rejoining UMNO. I also do not patient to wait the reaction of UMNO Supreme council especially Pak lah towards your application soon. its very interesting to know God bless...

Dear Tun,

In about 2 weeks time, Hari Raya shall be celebrated by all muslims in Malaysia. I hereby wish everyone here including you, Tun, Selamat Hari Raya. Will this festive one-month long season be celebrated in harmony, judging from the unstable political scenarios within Malaysia and the yet-to-subside financial turmoil wave externally?

Likewise, our government members are busy politicking, trying to find a stable chair for oneself but have lost track of the external economic forces that will dampened our citizen's living standards, purchasing power and our export status shall lose out soon.

Since Bank Negara is not increasing the interest rates to tackle inflation, will the control of currency does the job?

One last question to ponder, does the current government has any plans to acquire stakes of investment banks which are now in cheap bargain?

By bexe on September 18, 2008 10:52 PM

Tun

I am afraid there isn't one person in the Cabinet that has the intellectual wherewithal to grasp the complex financial and economic issues that has engulfed us.

We are unprepared for this and we neither have a plan to withstand this onslaught nor do we have any idea as to what we should do as an aftermath.

This has been a result of Badawi's "buat bodoh" policy.- when in doubt just act stupid. The cream of our brain resources have all left us. We promote mediocrity, not excellence.

Some of the innovative initiatives you undertook put us ahead of the pack- like MSC. Regrettably we have since lost that edge and become followers rather than leaders. When America threw out their manufacturing base in favor of outsourcing, we should have been in the forefront of this change. You gave us the infrastructure, we have language and IT skills, we has good legal and other institutions. Alas, look at where we are in this food chain? We are even behind Cambodia. Instead we consciously chose to go from an Industrial nation to an Agricultural nation.

When the aftershocks of this current meltdown have subsided, the country must be well positioned to recover. That needs economic savvies, foresight and courage. We need integrity and quality in leadership. We need inspiration. We need vision. We need the ability to execute.

Tun, I am sure you can rise above the gutter politics that has consumed us all and direct the nation towards this focus of nation building. The fall of wall street has been attributed to greed. The fall of Malaysia is a result of the same.

Tun,  
This financial turmoil has long been predicted. It is no surprise it wags its tail a few times to give false hopes and rope in more victims at the stock markets and other speculative institutions, insurance included. Now many life insurance holders will not even rest in peace if they aren't already.

The markets shall crash. They either do in 10 year cycles or 25 year ones. Saving all your money won't do any good. Paper money just vanishes at the right time. Either keep gold or land. Old chinese knew that.

Today we will definitely go down because the economists are educated to believe in this monetary ruled system. It is all interconnected. The only people who are not clouded by the system are those outside it.

It is better we all have some farm land and do some farming (like me in very small way for self survival). Just in case.

Salam untuk Tun,

Saya tlah berpeluang bercakap dengan salah seorang bekas Menteri Kabinet Tun dan seorang calon muda BN (bakal bertanding Ketua Pemuda Bahagia)yang kalah pada PRU 12 yang lalu. Hakikatnya, hati kecil mereka mengakui perubahan kepimpinan perlu berlaku sekarang. AAB telah menjadi "beban" kepada proses pemulihan UMNO dan BN. Dalam keadaan sekarang proses pemulihan UMNO akan mngambil masa yang panjang walaupun AAB melepaskan jawatan. Ini kerana keyakinan rakyat kepada BN memang hampir trhakis sepenuhnya. Rakyat juga tidak menaruh "keyakinan" tinggi kepada PKR jika benar mampu mengambilalih kuasa tetapi nampaknya itu sahaja pilihan yang ada sekiranya AAB masih "berkeras" kekal.

Sokongan golongan muda kepada UMNO jauh merosot. Kalangan cerdik pandai tidak lagi berminat untuk bersama UMNO kerana budaya yang diamalkan. Bayangkan dalam satu Bahagian UMNO yang mempunyai 144 cawangan pemuda, hanya satu cawangan yang Ketua Pwmudanya memiliki kelulusan Ijazah. Selebihnya diketui oleh mereka yang "keciciran" dalam pendidikan serta rekod moralnya boleh dipertikaikan. Inilah pelapis kepimpinan masa depan UMNO yang terpilih dan ditojolkan kerana amalan politik wang.

Siapa lagi boleh diharapkan untuk memulihkan parti UMNO.... mampukan TUN untuk mengerakkan saki baki perjuang yang sezaman dengan TUN untuk bersama memulihkan UMNO.... kepada Allah jua kita memohon agar Malaysia dan Rakyatnya tidak dilanda krisis atau "bencana" kerana keanguhan pemimpinnya...

Ayahanda TUN & fellow bloggers

Happy to hear that US now using same method that Ayahanda TUN created to save Malaysia economy turmoil. 'BAIL OUT' national interest companies like AIG, Freddie Mac etc. This is the one of MAHATHIRISME THEORY ECONOMY.

Selepas mencemuh dan memperkecilkan keupayaan TEORI EKONOMI MAHATHIR pada 1998 oleh IMF, Bank Dunia & pakar ekonomi USA. Akhirnya kesan kemelesetan ekonomi Malaysia dan rantau Asia secara tak langsung telah pulih dengan jayanya.

Sekarang mereka tanpa segan silu terpaksa menggunakan TEORI EKONOMI MAHATHIR untuk menyelamatkan syarikat gergasi mereka. Sesungguhnya saya bangga dengan pendekatan tersebut. Seharusnya TEORI EKONOMI MAHATHIR dijadikan satu instrumen pemulihan kewangan dan diajar di Universiti-Universiti seluruh dunia dengan dibuat penyesuaian sesuai dengan sesuatu pergolakan ekonomi.

Assalamualaikum Tun,

1.Saya amat tertarik dengan apa yang Tun utarakan tentang krisis ekonomi kini.Seperti yang Tun nyatakan AAB takut untuk mengendalikan krisis ekonomi negara dengan tindakan menukar kementerian timbalannya,(Kesian TPM).Dengan alasan-alasan yang begitu membangkan hati TPM (kononnya).

2.Tetapi saya melihat perkara ini dari sudut yang berlainan.AAB begitu tamakkan atau gila kuasa sehingga AAB tidak memperdulikan suara-suara yang lantang mengkeritik akan kelemahan keupayaan beliau dalam mentadbir negara.Telah jelas dan terbukti akan kelemahan AAB dalam menjalankan tugas yang telah diamanahkan oleh rakyat.

3.Dengan menukar kementerian AAB dengan TPM, maka tindakan memaksa AAB melepaskan jawatannya dengan cara ketenteraan menggunakan pasukan MP ( betulkan sekiranya saya tersilap) tidak dapat dilaksanakan.Ini kerana kementerian tersebut kini dibawah kuasanya.

4.Melihat wajah AAB ketika mengumumkan pertukaran kementerian tempoh hari ketika berkata-kata,raut wajah AAB penuh seribu macam masalah.Kata-kata AAB penuh dengan kata-kata lain mulut lain dihati.

5.Saya percaya,tindakan seterusnya akan diambil dengan menyinkarkan TPM secara menipulasi keadaan.Mungkin atas alasan kejatuhan ekonomi atau masalah-masalah yang telah berlaku diKementerian Pertahanan...agaknye.

6.Melihat kekukuhan AAB di tangganya,KJ mengambil langkah proaktif mencanangkan diri sebagai calon Ketua Pemuda untuk berdiri teguh bersama AAB.

7. Dengan ini segala perancangan tersembunyi AAB n KJ dapat diteruskan dengan jayanya.

Tun,  
saya teringat akan suatu cerita tentang kejatuhan seorang raja hanya kerana tidak pandai menunggang kuda.....  
Minta dijauhkan , Bangsa Melayu akan hilang martabatnya kerana ego dan sombongnya sahaja....

Anwar Ibrahim should stop talking about this jumping ship, 31 MPs, 35 MPs. Anwar Ibrahim has been creating the uncertainties to the country. He should shut up and be a good opposition leader in the Parliament. Prove yourself first together with oppositions in the 5 states.

Yes, I agree with you that Dolah is pretending to be stupid, in actuality he is very cunning.

Having raised the petrol price with the ulterior motives to benefit his families (contracts for import/assembly of public buses, petrol subsidies payable through family owned Postal), the country is witnessing a spiral effect on the cost of practically all consumables, industrial goods and services.

Realising the grave economic consequences of raising the price of petrol, he is cunning to swap the finance with defence so that Najib would get the axe, especially so if Najib is mustering to oust Dolah in the UMNO election soon.

The strategic game by Dolah is not only to stop Najib but also to paralyse Najib's networks thereby clearing the passage for Khairy and his ANCHOR teams into UMNO.

Najib should have realised that he is being isolated when JJ was dropped prematurely from the cabinet by Dolah.

Salam Tun,

With the recent worrying developments, I feel that perhaps the time has come for the rakyat to show their disappointment. Let us not wait for DSAI to say the word and wait until he gives the order to show our disgust for the leadership. I agree with you that most rakyat are not for DSAI but are simply against Pak Lah and his incompetent leadership. Things are at a knife's edge now and perhaps we can boycott the PM's open house during Aidilfitri to show our disappointment. The reality is that UMNO has ceased to be democratic and has lost all credibility. If we the rakyat peacefully show our disappointment with the Government of Pak Lah, hopefully he can no longer say that there is no political uncertainty. He will be forced to open his eyes and the Royals will have to step in to prevent further instability. To leave things as they are is like waiting for death, with no cure in sight. My thoughts may be extreme but in times like these when our democratically elected representatives fail to acknowledge the wishes and concerns of their electorate, drastic measures should be considered. I fear for Malaysia and its people.

By John S on September 18, 2008 11:40 PM

It is proven that your previous statement that Anwar will still want to go back to UMNO for his political carrier, is an arrogant and a very very wrong speculation. Instead, The biggest joke is, the one who wants to rejoin UMNO is Tun yourself, this is really sarcastic enough, to all the Malaysians.

Worst still, you also believe at present that Anwar is capable of toppling the present government. And you also started to draft the letter to MPs to advised them not to hop to the opposition.

Anwar is a good horse (Chinese Proverb), where he does not eat the grass left behind. I respect him as much as I respect Tun Dr. Mahathir.

Dear Tun,

Clearly what I have read to-date in your blog is that "People" are frustrated with the present government, in terms of tackling the current political scene and economic uncertainties.

The only thing we, the people are hearing now days is, Johnny come lately's rubbish pledges and our top leader indecisiveness to step down honorably, instead just passing the buck thus making the situation even more difficult as already is.

Why is it so difficult to make a simple decision? It is just YES or NO.

Maybe waiting to solve the many unresolved BUSINESS Agenda by family members? I wonder?

I hope that should not be the case as to wait further will be a disaster for the country economically not to mention the impact it has already created now and today.

As time wait for no one, especially for the fast Creative thinkers of the Western BIG GAME Planners and players. Waiting further would cripple us by their Economic Game.

Let's settle our DOMESTIC issue first and fast, then move to ECONOMY,UNITY, so forth.

If the first issue cannot be solved, how to move forward with the second issue.

The "People" should forget ANWAR and GANG for now. Let the present leaders to do the right thing such as to Promote New Leaders within UMNO to Lead, Leaders of Quality of course, not interested for themselves but more for the "People". I think there are still some around. Not the below 35 criteria please even for Youth. They are still half baked. No clue as what they are doing. The only thing on their mind would be, How to make money for me and gang. Not this type please.

Somebody Senior in UMNO that has been there and done this and that i.e with proven track record and

adequate experience to lead the Country. Knowledgeable and humble.

Consider this as second chance by the "People". So please administer well and with sincerity for ALL or you will end up losing everything our forefathers had work to make Malaysia what it was.

All should stop bickering and think of our daughters and sons future down the line 20-30 years from now.

COMMON SENSE! Please.

Salam.

1. Do he will using that fund for him to be PM
2. What will happen to PETRONAS, PROTON MISC And also KHAZANAH.

You wrote: " I remember well how we were told never to bail out failing companies. But in the last one year the Fed has bailed out dozens of failing banks, mortgage corporations and other businesses. Altogether the bail out has cost the Fed almost US\$500 billion dollars."

---

Let me explain what you have failed to grasp:

There is a difference between preventing a collapse of the global financial system by bailing out legitimate, if greedy and excessive global financial institutions and bailing out crony, politically connected companies.

Also note that not all banks were bailed out - Lehman Brothers was not and neither was Merrill Lynch. In US and UK, debates are encouraged and mistakes for excesses are admitted openly. Greenspan and George Bush are being savaged whereas you escaped unscathed and uncriticized and unpunished for the excesses committed during your time as PM fo Malaysia. Please note the difference.

Assalamualaikum YBhg Tun Dr. Mahathir,

It seemed that the ten year cycle is rearing its ugly head once again. However, unlike the 1997 crisis, the recent one was already on our doorstep for more than one year since the collapsed of the sub-prime loan in the US last year.

I believe that the government did not take any preemptive action against such failure was because our local banks did not have any exposure in the sub-prime loan. However, what we failed to notice is that most local banks have a huge exposure in the consumer properties market. Property market loans are the most popular loans disbursed by local banks simply because the banks feel "safe" since such loans are secured by the respective properties.

The issue here is that what if borrowers started to default on their property loans? To put in perspective, properties in Klang Valley are not cheap. The cheapest double storey link house can easily set you back about RM300k. So, in the event that the credit crunch or crisis that is sweeping the US and Europe affected the local credit market, what will happen to all these "lucrative" property loans?

Since the economy has been on auto pilot, I'm afraid that the changing of the guard at the Finance Ministry happened a bit too late to do much good to the economy in the wake of an unprecedented financial crisis that is looming at our door steps.

Salam Tun,

I still remember when your team and especially yourself managing financial crisis ni 97/98. I hope that what Tan Sri Nor Mohamed told the truth about Tun. I hope that the curent Prime Minister will do the same thing but... impossible.

[I/We want to read & to know exactly from your mouth/pen how actually Tun managed to handle financial crisis 97/98]

I still remember when you were accused that used government money to bail out certain companies ...

but what happened to US right now, big companies collapsed and some was 'bail-out' but no one especially pembangkang say that is bail out even though that as Tun said ... are they using 'real money' or just put a number...

I just want you to come back in the arena help us - reduce my tension, and may other people. Even though our income increase up to 35%, goods and oil prices are more expensive than the money that we have.

I know that I cannot expect any miracle on you, but your experienced already prove something.

Thank you.

This is the beginning of the end of the riba-based global banking and financial markets! Investors are withdrawing their funds from the stock market and ploughing them into safer investments like commodities and even Islamic bonds!

The current crisis is going to get a lot worse and I don't think it will ever fully recover to the status quo. There will be a cataclysmic shift in the global markets' setup and I don't think Malaysia is fully prepared to face it in the following months and years; why? Because there are very few competent policy makers and implementors.

You are right Tun, this is the hypocrisy the IMF and World Bank who would preach the exact opposite of what America is now doing in terms of bailing of failing American finance institutions! America has an external debt of 15 trillion dollars! Its wealth is based upon debt and worthless pieces of paper as you rightly put it.

dear tun

it looks like the capitalism regime has shown another failure in its way to dominate the world economy. is it maybe because it already passed its glory few decades ago or its just simply cannot be uphold any longer just like any other things in this world. im not an expert in financial system myself but what i always see is that this zero sum game always take out the weakling(that is to say the poor or the dumb). i also share your skeptical about the us fed pumping money to the market but are they really printed the cash or just signing another bunch of papers to say that they are pumping the money just to create confident in the market. this bail out syndrome has spreads quickly through out all nations where previously said to be unwise and unethical. if the skepticism is true we will surely see the collapse of the regime in the near future. but it is not all bad. looks like somebody can see the bright side(if u know what i mean). somebody gets benefit out of this crisis or perhaps put up more gravity to it to achieve one own ambition more quickly. i still remember how one man used his power to intentionally increase the interest rate while malaysia faced 1997 crisis. this is what i meant by putting more gravity! now the game begins all over again. without any direct power any more to stir our economy, sabotage seem the right way to use. the panics in our financial system and social integration seem like the right recipe to overthrow the government. the last ingredient to be put in it is security chaos. i think this person wanting to be caught under the isa act to complete his plan to his ambitious agenda. i think aab is doom to fall to act as planned by this man. the question is now, what to be done? what will you do?

Salam my Dearest Tun & family,

Actually this thing (economic crisis) has been expected. However, people that holding the responsibility either too smart or not smart at all:

1. Whether by appointing TPM at this moment could reduces the effect or damage that we are expected? That is the idea of that decision and this is what they hope. However the inference is:

- a. The appointment holder is actually incapable to do that job.
  - b. The reason of course for the benefit of the national interest, but why only now? Why only at the eleventh hours? So where is the national interest all this while? Of course we have the experts who had warned them of this, and sure it is done not two days ago.
  - c. As we are practicing the ministerial responsibility, it does not matter who is holding the appointment, the leader and all the appointment holder still will be held responsible. So actually what is the different? (My humble view is the latest issue of ISA implicates that the appointment holder among themselves do not understand their ministerial responsibility)
  - d. As this is the problem of financial, it is not issues like ISA, social problem or others, but it is about the survivability of our nation, why give it to other person? The No 1 should lead the way, unless he thinks the No2 is better than him?
2. So which is which now? Is it he is not capable, is it national interest, leadership problem or no 2 is better than him?
  3. Actually this is what the game all about. I call it "taichi". Many leaders sometimes do this, but not when the matter like this where it involves the survivability of that nation, and especially not from the leader who advocates sincere and clean practices.
  4. The best is, admit that they need a more capable person who had proved that he can handle this problem or let the people decide whether the present leader is capable or not, rather than he forced us. For UMNO members, my words is " you can make the difference", open your eyes and wake up your mind, do not let the captain hit the iceberg blindly as we all are together inside the vessel.

salam Tun,

Saya amat risau dengan apa yang bakal terjadi esok, lusa dan tahun-tahun mendatang. Jika kerajaan tidak melakukan sesuatu, saya takut negara ini akan makin tidak terkawal.

Seorang anak muda yang masih mempunyai perjalanan hidup yg panjang, saya inginkan negara ini terus maju dari segala sudut sepertimana yang pernah Tun lakukan kepada negara satu ketika dahulu.

Bukan saya seorang sahaja yang risau, sebagai seorang mahasiswa, ramai juga sahabat mahasiswa yang lain makin risau dengan senario politik kita yang tidak menentu seperti hari ini. Baik pemimpin dari kerajaan mahupun dari pembangkang, kedua-dua mereka sibuk berpolitik untuk kepentingan diri asing-masing dan bukannya untuk kepentingan rakyat.

Justeru, untuk kata-kata akhir saya, saya rasa sedikit lega kerana YB Dato' Mukhriz mengumumkan untuk bertanding Ketua Pemuda Umno Pusat. Setidak-tidaknya, kelantangan YB Dato' akan mampu membawa satu perubahan kepada politik di negara kita. Saya akan tetap bersama-sama dengan Tun dan YB Dato' Mukhriz dalam memajukan negara saya yang saya amat cintai ini. InsyaAllah.....

Assalamualaikum Tun, I am a Malaysian working for another major US insurance company, just next to AIG in Hartford, CT. We feel the pain here, every day. Malaysians need to wake up and realise that the GLOBAL ECONOMY is changing, not for the better, not yet for the next few years. The emerging markets (China, India, eastern Europe etc.) have all created a huge imbalance in global economy. Here's some scary data, value losses for major financial institutions since March 2007 ... Lehman Bros \$49bn to \$0.1bn, Merrill Lynch \$122bn to \$31bn, Halifax(UK) \$56bn to \$18bn, Lloyds(UK) \$60bn to \$34bn, Citigroup \$270bn to \$81bn and AIG \$179bn to \$5.7bn. Malaysians need to prepare for the long haul and a financial wizard to weather this economic hurricane that's coming.

As read more and more here.. the strange scary feeling that the worst is yet to come became more obvious. Can't AAB feels it. He likes to just 'buat bodo' and recently passes the minister of finance post to Najib at this crucial moment! He want to 'lepas tangan la pulak'..

A'kum Tun yg dihormati,

I've been reading your blog since from the beginning but this is the 1st time i commented in your blog. I would like to thank you from the bottom of my heart for everything that you have done for this country. There is never a doubt in my heart that you are one of the greatest leader ever live and I'm proud to have live under your ruling. Even though you've done a few mistake while in the hot seat, i don't think it would change the fact that you are a brilliant leader. We all know that its not the easiest job to do. So mistake is unavoidable. It just how you find the solution that counts.

Every time i read your post, I was deeply moved by most of the comments here.For all the love that they have for you is really amazing.

Anyways, I was called to comment for this particular posting of yours, about the Federal Reserve Bank. I was shocked to heard the news about 10 major banks in America have collapsed and the huge insurance corporation, the American International Group is on the verge of bankruptcy. Just in case you wondering,(i believe u know about this) this is not the 1st time it happened and all of this happened because they want it to happened.

I don know how to explain it to you but you can watch this,(probably you already know about this also) it Scared the living daylight out of me! -

Wake Up Call

I urged people who read this blog to watch this documentary. I believe it would answer a lot of question in your mind.

I would like to take this opportunity, to wish u Selamat Berpuasa and Selamat Hari Raya. May Allah blessed you and your family.

P/s: After i watched the documentary, I could not stop wondering whether Anwar Ibrahim is one of them.

2. Jawatan Menteri Kewangan itu biasanya dipegang oleh Perdana Menteri.

3. Keyakinan pelabur dapat dipulihkan.

4. Saya percaya Najib bukan calang-calang orang. Beliau mungkin boleh memacu ekonomi negara kita semula.

5. Sokongan orang-orang yang berjiwa Nasionalis untuk memajukan negara seperti Tun kepada Najib dalam hal ini akan mengakibatkan berlakunya "keajaiban" tersebut. Amin!

Salam Yg Berbahgia Tun,

Petikan dari Berita Harian:

"Perdana Menteri Datuk Seri Abdullah Ahmad Badawi semalam berkata Anwar kini sudah menjadi ancaman kepada ekonomi dan keselamatan negara".

Memandangkan cuma selepas lebih 10 tahun baru PM kita TERSEDAR yang Anwar kini sudah menjadi ancaman kepada negara, saya tak hairan kalau PM & konco-konco beliau sampai sekarangpun masih TAK SEDAR-SEDAR tentang keadaan ekonomi dunia yang celaru/meleset pada masa ini. PM & Co seolah-olah seperti berada di dunia lain. Mungkin 10 tahun lagi baru beliau TERSEDAR tentang hal ini.

DSAAB, silalah mengakui kelemahan diri dan tolonglah letak jawatan sebagai PM.

Semoga Tun sekeluarga dirahmati Allah SWT.

Hi Dr M

Lets pray people learn from mistakes and build a better future. A leader of your status should not bear grudge of such. We should always bear in mind the people hurt most the the poor people. While we were thankful that decisions in 1997 was most appropriate, we cant deny the decay the "favor" system has caused. Lets focus on amending the wrongs in our country. We hope your wisdom can guide us through this difficult phase.

And i doubt Najib is up to that task. Just look at his achievements as defense minister. Send in the billion

ringgit ships he bought against those somalians would be sending floating coffins.

Hi Tun,

You are writing about financial turmoil but our country is going through a political turmoil.

Instead of securing financial securities the politicians are trying to secure their political positions, the next few weeks will be trying time for the nation.

I can only sum up this way about our financial development, a long time ago we did not have much but then we did not have little and then we had much but now it is becoming little.

Good day.

Assalamualaikum Tun,

I am following up on what Mukti wrote about "Pengurus Dana Rantau ..." ... In my opinion, you Tun, were not a typical leader. You understood how to run a country like a business, how to build, market and make Malaysia profitable. Our current leaders do not understand that, and those who do, are not in the picture. My point is, NOW is the time when the financial and economic specialists need to make decisions for the country and politicians need to support them. Pegging the Ringgit against the US Dollar was a brilliant idea during the Soros crisis, but, this is a different problem ... new economic ideas need to be developed just like gold Dinar .. another great idea! Where's our super economic think-tank? I know we have the people, but why aren't they being utilized?

Malaysians also need to STOP taking hand-outs, we're no longer 3rd-world, so, stop behaving like one ... we have the resources and work-force to be independent of foreign help!

Hi Tun,

I personally do not agree with your leadership in many ways and do not have much good impression on you, but there are really two things that I want to thank you very sincerely for.

1. You save us from the financial crisis of 97.

You are indeed smart and were daring to combat the international financial rapists. You hit them hard on their devil tails. Well done, I salute you. You deserve the credits!

For other readers, this is a good book for reference on financial issues - [www.webofdebt.com](http://www.webofdebt.com)

2. Keep the Gas Price Low

You understand that commoners have little incomes and tried your best to keep the gas price stable.

I do not really pray for this country as I believe that under the current political mess, there is no light at the end of the tunnel. Many Johoreans who are talented and able are and will be in Singapore. Planning for own future in another country is more practical and secured option.

By xplora on September 19, 2008 3:43 AM

Hello Tun,

The finance minister was hold by you during the 1997 financial crisis, and it proves that you are an expert and smart to combat the international financial crisis. There is no reason why you claimed yourself as "not expert".

Wouldn't it will be better if you remove yourself as Finance Minister before you resign and hand it to AAB, so the second finance minister can takeover it, so the economics probably would be tackle much better than a PM who failed his statistics.

By the way, let the past be the past. Hopefully, BN will be saved by you before DSAI managed to takeover this country.

By luqman on September 19, 2008 5:54 AM

Dear Tun,

First of all I would like to thank you for saving Malaysia from Financial ruin some ten years ago. Also, I would like to borrow some of your space to tell this 'mangkuk' that he should get more readings on UK and US financial results.

By banjaran on September 19, 2008 12:19 AM

You wrote: " I remember well how we were told never to bail out failing companies. But in the last one year the Fed has bailed out dozens of failing banks, mortgage corporations and other businesses. Altogether the bail out has cost the Fed almost US\$500 billion dollars."

---

Let me explain what you have failed to grasp:

There is a difference between preventing a collapse of the global financial system by bailing out legitimate, if greedy and excessive global financial institutions and bailing out crony, politically connected companies.

Also note that not all banks were bailed out - Lehman Brothers was not and neither was Merrill Lynch. In US and UK, debates are encouraged and mistakes for excesses are admitted openly. Greenspan and George Bush are being savaged whereas you escaped unscathed and uncriticized and unpunished for the excesses committed during your time as PM fo Malaysia. Please note the difference.

My comment:- The List of companies that have been bailed were (on record)

1. Northern Rock (UK) the Bail Out Sum is 3 Billion Pound or RM18 Billion ringgit

And the rest of US companies, I gladly paste the news from Reuters for you to digest

Reuters) - The U.S. Federal Reserve stepped in to rescue insurance giant American International Group from bankruptcy with an \$85 billion (47.7 billion pounds) loan on Tuesday, the latest in a series of bailouts and loans for the financial and housing sectors.

The action brings the total tab for government rescues and special loan facilities this year to more than \$900 billion.

Following are details of actions and amounts.

\* \$200 billion for Fannie Mae and Freddie Mac. The Treasury will inject up to \$100 billion into each institution by purchasing preferred stock to shore up their capital as needed. The deal puts the two housing finance firms under government control.

\* \$300 billion for the Federal Housing Administration to refinance failing mortgage into new, reduced-principal loans with a federal guarantee, passed as part of a broad housing rescue bill.

\* \$4 billion in grants to local communities to help them buy and repair homes abandoned due to mortgage foreclosures.

\* \$85 billion loan for AIG, which would give the Federal government a 79.9 percent stake and avoid a bankruptcy filing for the embattled insurer. AIG management will be dismissed.

\* At least \$87 billion in repayments to JPMorgan Chase & Co for providing financing to underpin trades with units of bankrupt investment bank Lehman Brothers. U.S. Treasury Secretary Henry Paulson said over the weekend he was adamant that public funds not be used to rescue the firm.

\* \$29 billion in financing for JPMorgan Chase's government-brokered buyout of Bear Stearns & Co in March. The Fed agreed to take \$30 billion in questionable Bear assets as collateral, making JPMorgan liable for the first \$1 billion in losses, while agreeing to shoulder any further losses.

\* At least \$200 billion of currently outstanding loans to banks issued through the Fed's Term Auction Facility, which was recently expanded to allow for longer loans of 84 days alongside the previous 28-day credits.

(Reporting by David Lawder; Editing by Lincoln Feast)

Therefore Banjaran, before you say anything to criticise our Tun Dr Mahathir Mohamad, please get your facts right first before publishing them. Tun wrote based on facts and nothing you say will change the facts that Tun was and will always be Malaysia's best Prime Minister for many years to come.

Thank you

You are spot on.

The US (Lehman Bros) and the UK (in the example of TSB and Halifax) had made money out of nothing. It was just papers and now they are feeling the pinch.

For us, the RM should be appreciating but not. Clearly it is due to the weak investor sentiments and weak economy management.

I wonder whether those guys in the cabinet can think (or ever bother to think) like you do. We need smart people who understand and sensitive to the global environment.

Please come back and amend the mess. Hope you will consider rebuilding the Malaysian economy and guide the (right) future leaders.

Thanks for the insight. Good Bless you and your family.

Dear Tun, Without the slightest shadow of doubt our economy is really in deep shit. But the media under the control of an idiot editor of NST Group, is still in denial and keep on spinning to show a rosy picture of our economy. Pak Lah must have got advice from those "elegant silence advisors" meeting behind the kitchen curtain of Seri Perdana that it is time for him to relinquish the Finance Ministry portfolio for fear that he will be blamed for the mess he is creating to the economy. Now Najib has got to carry the daunting task to rectify the mess his boss had poorly handled the economy. Can Najib turnaround this economic mess? I doubt so. He must get ready to face criticisms from the public. He is answerable and Pak Lah is just watching from the sideline happily running away from direct responsibility. What a shame! Pak Lah better step down after Hari Raya before things become worse and out of control.

By pakbelalangAuthor Profile Page on September 19, 2008 6:42 AM

Dear Tun,

PM stands firm: I'll decide on transition

By SHAHANAAZ HABIB, IZATUN SHARI and ROYCE CHEAH

KUALA LUMPUR: Datuk Seri Abdullah Ahmad Badawi stood firm, saying he would decide when to hand over power to his deputy, but a number of supreme council members said the understanding was for the transition to be sooner than later.

The Umno president said he was aware of the sentiments of the grassroots and was keeping his ears close to the ground.

"I am paying heed to what is happening and the current situation. And whatever decision I make, I will discuss it with Datuk Seri Najib (Tun Razak) and then bring it up to the Umno supreme council," he said Thursday at a press conference after chairing a council meeting.

Abdullah reiterated that he would contest for the Umno presidency in the December party elections.

Comment:

Time is not in Pak Lah side. Everybody is eagerly looking forward for an immediate transition of power. Pak Lah has been given the opportunity to resign gracefully so there is no reason for him to apply a delaying tactic by wanting to refer to Najib every time the pressure is forced on him. He must have backbone to decide by himself. The writing is already written very clearly that he has no alternative but to go NOW. The grassroots members of UMNO have already politely open the door widely to guide him to the

exit door.

This is the appropriate time for him to go when the economy is about to turn from bad to worse. He simply could not turn it around. So let Najib or anybody else to take the responsibility to look into the problem from scratch where there would be a fresh mind to guide the economy to the right path. If Pak Lah is sincere enough and accept the fact that he is no more popular as a Prime Minister, he should just surrender and say enough is enough, thank you very much for giving me the opportunity to be the Prime Minister for the past 5 years.

By laksemana on September 19, 2008 7:06 AM

Tun,

Tak perlulah Tun merendahkan diri. Sesungguhnya Tun sememangnya adalah seorang pakar kewangan dan ekonomi. Lebih kurang 10 tahun lalu (mungkin lebih), semasa saya bertugas saya bertemu seorang "mat salleh" di dalam pesawat dan dia menyatakan betapa beruntungnya saya mendapat Tun sebagai Perdana Menteri ketika itu.

Dia memberitahu saya bahawa dia adalah Penasihat Kewangan kepada 5 Perdana Menteri di dunia termasuk Tun ketika itu, saya rasa Tun tahu siapakah Penasihat Kewangan itu. Kalau "mat salleh" itu adalah orang yang Tun pilih sebagai salah seorang penasihat kewangan Tun, maka orang itu bukanlah calang2 orang di dalam bidang kewangan dan ekonomi.

Katanya kepada saya bahawa Tun sebenarnya tidak memerlukan pandangannya kerana pandangan dan pendapat Tun tentang kewangan sungguh hebat. Kehadirannya cuma untuk meyakinkan bahawa pandangan Tun adalah lebih bernas dan dia sungguh terpegun dengan kemahiran Tun.

Pada tahun 1997 ketika negara dan dunia mengalami kegawatan ekonomi dan ketika dunia mencari2 punca kegawatan tersebut, Tun terlebih dahulu mengetahui punca kegawatan tersebut, "Manipulasi Matawang" angkara George Soros. Dunia menidakkannya, malah pakar2 ekonomi juga tidak dapat melihat dengan jelas apa yang dimaksudkan oleh Tun ketika itu. Sehingga di Davao, dimana pakar2 ekonomi berkumpul setiap tahun juga tidak dapat menerima istilah "Manipulasi Matawang".

Tindakan Malaysia menambat RM kita kepada 3.80=USD1 adalah tindakan Tun untuk mengekang RM dari terapung dan dimanipulasikan. Tindakan ini Tun buat atas kesedaran punca segala gejala ini berlaku. Apabila kita tahu punca setiap permasalahan maka mudahlah untuk mengatasinya.

Makenisme yang Tun telah lakukan telah membuktikan keberkesannya yang mana pada akhirnya setelah 8 tahun ianya berlaku selepas Tun cuba menjelaskan kepada dunia tentang "Manipulasi Matawang", Tun terpaksa memenuhi banyak permintaan di banyak negara termasuk di Davao sendiri untuk memenuhi permintaan supaya Tun memperjelaskan semula tentang "Manipulasi Matawang" tersebut setelah mereka akur akan kebenarannya.

Kenyataan di atas membuktikan bahawasanya Tun adalah seorang pakar ekonomi dan kewangan bertaraf dunia dan kebenaran kata2 "mat salleh" itu kepada saya.

Seperti selalunya, Tun lebih terdahulu nampak apa yang sedang berlaku pada ekonomi dunia ketika ini dan Tun telah menggambarkan kemungkinan yang akan melanda dunia dan negara kita khususnya.

Saya nampak kebenarannya bahawa matawang US akan menjadi ancaman kepada ekonomi negara kita. Kita seharusnya melupuskan simpanan USD atau mungkin menukarkan simpanan negara dari USD ke EURO. Walaupun hakikatnya ianya tetap akan mengancam ekonomi negara tetapi sekurang2nya kita dapat mengurangkannya dari terus merudum teruk sekiranya kita terus menyimpan USD.

Teringat saya pada cetusan buah fikiran Tun sendiri untuk mengadakan matawang DINAR EMAS dikalangan negara2 Islam. Alangkah baiknya sekiranya ianya menjadi kenyataan. Nilai emas dipasaran

tidak pernah merudum malah terus naik dan sekiranya DINAR EMAS ini diimplimentasikan sudah tentu didalam krisis yang akan timbul ini,negara2 Islam akan mendapat keuntungannya dan keuntungannya bukan kepalang.Di saat dan ketika itu ekonomi negara2 Islam akan terus naik dan mendominasi ekonomi dunia,langkah malangnya umat Islam sedunia kerana terus tunduk pada ekonomi barat.

Tuhan telah mengingatkan kita dan selagi Ilmu ALLAH itu terus wujud hingga ke hari kiamat melalui ayat2 suciNya,"tidak akan berubah nasib seseorang itu selagi mereka tidak mengubah nasib mereka sendiri".

Nampaknya Pak Lah telah berpindah ke potfolio yang lebih selamat di dalam keadaan yang akan menimpa negara kita ini.Pak Lah juga pernah membuat kenyataan bahawa peralihan kuasa yang telah ditentukan juga bergantung kepada prestasi yang ditunjukkan oleh Najib sendiri.Nampaknya harapan Najib untuk mengganti atau mengambil alih kedudukan Pak Lah akan menjadi sukar malah berkemungkinan tidak akan menjadi kenyataan kerana Najib akan nampak gagal dalam mengatasi masaalah kewangan negara dan pada akhirnya kedudukan Pak Lah digantikan dengan orang lain atau dengan alasan itu Pak Lah akan terus kekal di kedudukannya sekarang,tidak mustahil ianya boleh berlaku.

Harapan agar pihak kerajaan dapat mendengar walau pun dalam keadaan ego yang terlalu tinggi, pandangan dan cadangan Tun ini agar bersiap sedia kemungkinan krisis ekonomi yang akan melanda negara kita ini dan bagaimana untuk mengatasinya.

Tun ibarat ubi yang ditanam di negara kita yang subur ini,makin tua makin berisi.Keupayaan Tun berfikir ibarat perpustakaan yang amat besar dan luas di mana terdapat banyaknya ilmu yang bernas terkandung di dalamnya.Tidak dapat tidak,walau apa pun pandangan orang lain terhadap Tun kena terima kenyataan dan kebenaran yang diperjelaskan oleh Tun ini.

Bersiap sedialah kerana pusingan roda ini telah berlaku lagi dan setiap lebih kurang 10 tahun ekonomi dunia berada di kedudukan di bawah.Maka dengan itu dengar2 lah dan fikir2kanlah dari orang yang berpengalaman dan arif seperti Tun ini.

WALLAHUALAM,WASSALAM.

Dear Tun,

Pakatan to meet on next move: Anwar (Update 5)

PETALING JAYA: Datuk Seri Anwar Ibrahim said Pakatan Rakyat leaders will meet as soon as possible after their demand for an emergency Parliament session was rebuffed by the Prime Minister.

He said the meeting could be as soon as Saturday, or Monday.

At a press conference earlier Thursday, the Opposition leader said he had sent a letter to the Prime Minister requesting him to call an emergency Parliament session no later than Sept 23 to deliberate on a vote of no-confidence against Datuk Seri Abdullah Ahmad Badawi's leadership.

Comment:

To Anwar, enough is enough. We do not want to listen to your stupid political ploy. Very disgusting. Time is over. Face reality.

Enough of conning the rakyat. You just have to wait next election if you are still patient enough. JANGAN JADI MANUSIA GELOJOH DAN TAK SEDAR DIRI !!

Salam Tun.

Terima kaseh Tun telah memberikan serba sedikit huraian yang jelas akan keadaan ekonomi negara dan dunia sekarang.

Keadaan ini lah yang menakutkan rakyat. Dan rakyat masih samar akan tindakan kerajaan untuk mengatasi masaalah ini.

Rakyat juga terus bercelaru dengan keadaan politik semasa yang masih belum menuju penghujung nya. Keadaan politik juga mepengaruhi kestabilan ekonomi.

Aapakah kerajaan sudah ada formula untuk menyelesaiakn kemelut ini.

Saya yakin TUN ada formula ajaib untuk menyelesaiakn keadaan sebagaimana TUN pernah lakukan pada 1998 dahulu.

Sekarang DSNTR menarajui kem.kewangan. Bolih kah dia melakukan.

Kalau usahanya gagal apakah kesan nya pada rakyat dan negara ini. Itu lah persoalan nya sekarang.

Saya harap DSNTR mintak lah sedikit nasihat dan pandangan TUN untuk sama2 mencari penyelesaian.

Selamat menyambut Hari Raya Aidil Fitri buat TUN sekeluaga.

Datuk Seri anwar, Congratulations, Party Lead by Datuk Yong Teck Lee has officially snapped all ties with Barisan Government and prefered to stay Independent for now. We have additional of 2 parimentary seats already. I know you can do it, As you use to claim, We are at the right track and now those claim are begining to prove.

Datuk Seri, No doubt the speed is like snail crossing, But will turn out to be a reality in some days or weeks time. I wish all Staunch, Hard Core and Die Hard supporters will be patient and the take over is imminent. There are many trivial issue to be solved, But sad, Those trivial issue if burst can be a major issue. That is the main cause in delay of the take over process, I guess.

Datuk Seri, My vote and support will always be yours and forever yours. I pray for a speedy take over, Despite roughly knowing the hurdles you are facing at the moment. We are really fedup with the atrocious, obnoxious and racist based government.

Datuk Seri, We are actually worried of your safety and the current government can think of several ways to kill your political aspirations to keep them in power. One of it is their pet law, ISA. I hope upon you forming the government. The ISA should be Repeal for life. But before that the last and only person to be arrested under the ISA should be Tun Mahathir. He deserve's it for all the wrong doings towards you. The history repeats.

Long live Datuk Seri and may the God and the people of malaysia with you for a smooth run of the country without favourtism, Nepotism and Cronysm.

Dear Tun,

Good morning.

I come into my office at 7.00 am every morning. No, not to beat the traffic. I had to attend roll-call and ensure that the workers are in the field.

I have been concern about the financial turmoil that seems to be picking up speed. And I also do not hear how our PM is going to handle it. Our raayat is more concern about human rights etc, etc. as if these would take care of the financial situation. If and when the financial turmoil escalates, the social situation would even get worse.

The PM has so far not shown that he could handle the finance of the country. Or maybe, as I think you are trying to imply, he has timely handed the portfolio to his DPM and wash his hands off.

The stock market has been taking a beating lately. Many people would be in trouble. People who have bought houses as investment would be finding it hard to finance their mortgage(s). Oil price is falling. Oil palm price is falling. Oil palm cost of production has gone up and it is not going to fall. A sad scenario indeed.

But hey, what is the government going to do? There is no lead. Not in the papers, and not even in the TV news. All the PM talks is about Anwar, ISA and minister resigning. Is that all he knows?

I have to go and make sure for the money I pay, my workers are giving me the value.

Good day Tun.

OK ENOUGH.

banjaran said 'you failed to grasp the difference between the US bailing out giant, good, great companies to avoid global economic crisis and your bailing out of companies belonging to cronies etc etc...'

WOW WOW WOW this banjaran MUST be somebody not less than a professor in Financial Management, to say that TUN failed to grasp the difference between the two.

For what's its worth, in my opinion,  
TUN saved his people,  
Tun saved Malaysian economy in 1997/1998 financial crisis  
TUN was smart to use the 'unorthodox' method even when the rest of the world scorned at him.

In the end, Tenaga Nasional is still ours, Telekom Malaysia is still ours, Petronas is still ours, in other words, we kept our big companies to our selves.

Maybe banjaran is not happy about that, but that is the fact, so take it or leave it.

TUN AND ALL,

Jaga diri, Jaga Solat.

Yang lelaki solatlah di mana azan diazankan. Yang perempuan solatlah awal waktu.

Kerana Solat adalah perkara pertama yang akan disoal kepada kita di padang Mahsyar kelak. Jika baik solat kita, maka akan dikira baik amalan-amalan yang lain, jika buruk solat kita, maka akan dikira buruk amalan-amalan yang lain. Salam Ramadhan, Salam Aidil Fitri.

Tun,

The downfall of the US economy signifies a new chapter for the Islamic world as the Muslim and its Islamic economy will rise to glory. We have a strong presence in Islamic Finance and I believe Malaysia will take the lead to reform the messes laid under the capitalist system. We can say goodbye to US and its cronies soon.

By rd on September 19, 2008 8:15 AM

Dear Tun,

I agree with you regards the current financial turmoil. The current government should act fast on this situation as not to allow the crisis to spillover to Malaysia. However, there are only busy with politicking rather being a real government for the nation. Handling 'remeh temeh ' issues rather than the real economy issues. I pray that they will realise their mistakes and move forward faster.

This country was better when you were in control, you were thinking of the nation interest and welfare. Thank you for your support and still concern for the nation.

Wish you well.

By gooner on September 19, 2008 8:16 AM

According to Federal Reserve Banking, banks are allowed to create money in relation with amount deposited to their account. The fact is commercial banks do create money so it is no big deal for the fed to do the same. However bailing out companies does not necessarily good for the economy. If USD 85 billion is being created out of nothing, what will happen to the value of the money that we are holding now. That is the implication of debt-based money.

People are talking to switch their holding to Euro but fundamentally it is the same. If USD can collapse, same goes to EUR. Now people realize that there are flaws in the financial economy.

By Irene on September 19, 2008 8:18 AM

Dear Tun,

I am working at overseas currently, but grow up in Malaysia. Actually, I quite like Malaysia at certain way such as friendly people, good food, diversity cultural etc. However, I find less career development and leadership been given in Malaysia.

I hardly comment on the political status in Malaysia. However, I personally like to hear your comments, speeches, views and leadership among internationally. You are a born leader with wisdom and vision. However, I hardly see the similar type quality candidate among the team. I hear their speech, I only hear the voice, but no wisdom and direction.

I am worry about Malaysia. I guess we lack of leader in our country.

When I say leader, it doesn't mean a guy can speak good English, PHD or a well presented public speaker will be a good leader. A true leader should be able to tell different enemies at different time and differentiate/filter the advices. He may lost his visibility to the circle and surrounding and be alone,

however, he is strong and gifted to stand up still and make a wise "right" decision to the nation.

I like the way you enforce the currency control policy during 1997 crisis. You help the nation to minimise the loss during recession. I guess your wisdom is come from God. Thanks God for given us such a great leader..

I don't know much about political framework, but sometimes I did like to read some of the articles. Frankly, whenever I read m'sia news or hear the speech they gave, I hardly choose who can be the leader for us and lost confident on them. They are a good leader, but probably not a true leader for Malaysia.

Salam Tun & Readers,

After 10 years 1998 economy crisis is on the way crashing down to earth,

Just want ur opinion Tun, us as RAKYAT should :-

a) Berjimat cermat, simpan duit dalam bank, avoid big spending etc

atau

b) Keep on normal spending, to ensure economy turnover?

We need to know....

Pak Lah tak bleh pakai la bab ekonomi ni...

Emmm... bukan setakat ekonomi jer, sains, matematik, sejarah, geografi, sosial, ketamadunan, sumeerrr pun tak tau...

Antara prinsip hidup Pak Lah

- Kalau tak tau, buat-buat tau atau buat buat bodoh
- Elakkan dari semua masalah, jangan berhadapan dengannya
- Aku ketua, korang kena dengar cakap aku, aku ikut cakap anak menantu jer yg aku boleh percayai
- Jadi PM ni adalah kerja makan gaji, bukan amanah dan mandat rakyat
- Alang-alang jadi PM biar harta menimbun

TQ TUN

(even though its not) even a baby could think about this --> if we own USD100 when there is USD1 billion circulating in the economy, would we be better off owning the same amount of money with total circulation of USD100billion in the economy? we are getting robbed here!! this is what is causing poverty around the world!!!

The economy situation in our country has become bad to worse. The incompetent leader up there only worsening the situation. Yesterday, the Bursa Malaysia index has break the 1000-points support level. Right now, all the expert say it will go down to 800-points level.

This turmoil will lead to inflation problem and it will hit the citizen very badly. Hopefully you can share your expertise on how we should combat this financial turmoil.

P/S: Most of the stock in Bursa Malaysia have become very attractive. The price is quite cheap. Can buy or not?

Assalamualaikum Tun.

Senario politik negara ini semakin bertambah menarik. Apa tidaknya Pak Lah telah menyerahkan portfolio Menteri Kewangan kepada Najib dan Pak Lah telah mengambil portfolio Menteri Pertahanan dari Najib. Boleh main tukar-tukar suka sama suka he he he...

Yang jelas Najib telah masuk perangkap Pak Lah. Alasan Pak Lah yang menyatakan bahawa pertukaran tersebut bagi memudahkan peralihan kuasa adalah temberang semata-mata. Apa tidaknya, krisis kewangan dunia semakin meruncing. Jika sesuatu terjadi keatas ekonomi negara siapa yang akan dipertanggungjawabkan?? sudah tentu Najib. Pak Lah akan lepas tangan seperti yang selalu dilakukannya.

Sejak Najib dikaitkan dengan isu Altantuya, Pak Lah lah orang yang membelanya. Najib telah termakan budi dan akhirnya body dia yang tergadai.

Satu perkara yang menarik apabila Pak Lah memegang Kementerian Pertahanan ini, seingat saya Tentera Darat (TD)ada membuat cadangan kepada kerajaan untuk menggantikan Armored Personnel Carrier (APC) iaitu Sibmas dan Condor kepada APC generasi baru. Salah satu syarikat yang telah membuat presentation kepada TD adalah Mowag yang mencadangkan kenderaan APC Piranha III. Yang membuatkan ia bertambah menarik syarikat dari Malaysia yang akan menjadi pengedar kenderaan tersebut adalah Scomi. Jadi apa yang berlaku seterusnya kita tunggu dan lihat.

Selamat berpuasa Tun. Wassalam.

Salam Tun Dr.Mahatir  
Honestly I dont think Tun are omnipotent , I think you yourself also agreed that is why you dont call yourself an economic expert.

But the beautiful thing is that you know who to believe who not to believe, instead of following IMF prescription you engage a German economist to solve the crisis. Malaysia was saved.

What you had elaborated in your previous article about subprime lending is also true as evidenced by the case of Lehman Brother

It is good if Tun can relate to us about the measure taken by Malaysia government to counter 1998 economic crisis,this is necessary to educate our Malaysian who are naive.

/// 2. I remember well how we were told never to bail out failing companies. But in the last one year the Fed has bailed out dozens of failing banks, mortgage corporations and other businesses. Altogether the bail out has cost the Fed almost US\$500 billion dollars. ///

The GREAT difference is that in the US, the one doing the bailing has no vested interest in those companies that are being bailed out. Those companies that are being bailed out are TOO BIG to fail.

On the other hand, in Malaysia, the companies that are being bailed out are either politically connected, or belonged to children of those in power who decide which companies to be bailed out, or to cronies.

Assalamualaikum YABhg. Tun

Alhamdulillah YABhg Tun amat peka dan bertindak cepat mengulas mengenai kemelesetan ekonomi dunia akibat krisis kewangan di Amerika.

Saya rasa ini satu rahmat Allah kepada Malaysia. Amerika sibuk dengan usaha untuk mengatasi Krisis ekonomi sehingga tiada masa untuk melayan DSAI.

Krisis kali ini lebih buruk dari Great Depression tahun 1930. Amerika telah diserang barah. Setelah skim gadaian tidak dapat pungut hutang akibat kadar gadaian yang keterlaluan tidak dapat diimbangi dengan pembayaran balik hutang, masalah berjangkit pula ke sektor insuran. Mereka sedang menunggu apa akan terjadi kepada Hedge Fund yang memberi impak lebih besar terhadap Wall Street dan bursa saham dunia.

Amerika boleh off-set kerana kebiasaannya mereka akan cetak wang tanpa sokongan emas. Saya amat setuju dengan pandangan YABhg Tun supaya Bank Negara melepaskan pegangan USD kerana nilainya akan turut secara mendadak.

Agak malang bagi DSNTAR menerajui MOF ketika krisis kewangan melanda dunia. Mungkinkah beliau dikambing hitamkan oleh DSAAB?

Semoga YABhg. Tun sekeluarga dirahmati Allah.

Inflation & artificial inflation all came satu kali gus. What the GOV is doing is sooooo tedious, like slapping their own face with their own hands!!! The GOV is creating a financial crisis & at the same time recommend ways to the citizens as to how to overcome it!! Boy! the leaders have gone 'NUTS', just like they don't even think about it when implementing something.

Men like you(TUN) is rare. As far as I'm concern, not having you in the politics is a GREAT LOSS for Malaysian!!! " Make a Great Comeback SIR".....I believe that's what all Malaysian are hoping for...rather than waiting for some dump & dumper leaders to make their tedious moves!

Tun,

1. I agree with your no. "8. In the meantime, the prices of oil and foodstuff are high and may go higher. But incomes are not increasing. In other words, we are experiencing inflation. When the American financial crisis really hits us we may not be able to handle it."

2. Pak Lah's Modern Robin Hood's way of handling our economy led us to this situation, and let us hopes that Najib does not continue with this policy!

3. Modern Robin Hood Economy is where the rich gets richer; the poor gets poorer; and the middle-income earners, suffers!

4. Najib therefore should adopt the Islamic Economy where the basic philosophy lies in creating wealth by increasing the value of the principle over time! No need for subsidy; no need for assistance; and no need for 'prime-pumping' by the government. Everything and everyone is subjected to meritocracy. The harder you work, the better the result you get! The lazier you are, the worst-off you will become! All the government needs to do is just ensures that the country is peaceful, and controls the prices of the necessities! Let the market dictates the states of our economy.

Salam Tun dan Toh Puan,

Semoga sihat sejahtera dan kekal bahagian selama-lamanya.

Tun, betul kata Tun.

Saya baru cakap kat adik beradik saya tentang skim menyelamatkan syarikat amerika yang bagkrap tu... Dulu semasa kita hadapi krisis kewangan , kita cuba menyelamatkan SYARIKAT KITA, kita beri suntikan modal...negara barat beranggapan rancangan kita tidak mengikut sistem ekonomi dunia yang terbuka luas.....mesti TELUS...TAK ADA KRONI-KRONI... Sekarang apa dah jadi, mereka sendiri yang selamatkan syarikat mereka sendiri.

"LUDAH KELANGIT TERKENA MUKA SENDIRI"

Saya pun rasa lega apabila TPM Razak dilantik menjadi menteri kewangan 1. Di harapa TPM dapat melakukan sesuatu dengan baik.

TPM pun dah buka laman web sendiri macam Tun. Dimana dia nak rakyat beri pendapat dan komen yang dapat membantu dia dalam mentadbir negara.

Assalamualaikum kepada Ayanhanda Tun dan keluarga.

Apa yang di terangkan oleh Tun itu semua benar. Kita semua masih tak sedar apa yang Amerika buat sama seperti skim cepat kaya sekarang ini.

4. The money used is "created" through entries in account books. No cash or dollar notes are issued or even printed. Like a magician, the Fed make money from invisible sources.

Ini kerana kita sendiri sudah terlalu banyak diracunkan dengan sistem2 ini.Kita gembira melihat catatan wang didalam statement tapi realitinya tidak. Kita fikirilah sendiri.

Wahai rakyat Malaysia... kita harus berterima kasih dengan Tun kerana masih lagi sayang kepada kita untuk memberitahu hakikat sebenar ekonomi yang di buat oleh Amerika.

Selamat Hari Raya kepada Tun dan keluarga.

Sehingga ekonomi reda dan pulih semula....

Kepada para pemimpin negara

1. Berhentilah seketika bercakaran
2. Bersamalah mencari jalan sesuai
3. Sedarlah anda dipilih untuk menyelamatkan negara
4. Duduklah dengan hati yang tenang dan terbuka

Kepada wartawan seluruh Malaysia fikirkan

1. Sekiranya semua anda berhenti seketika melaporkan perkara politikus semasa.
2. Sekiranya kita utamakan perkara yang lebih utama

3. Apakah yang berlaku kepada anda, keluarga anda dan rakyat malaysia semuanya jika kita leka.

Assalamualaikum Tun and fellow-bloggers,

Malaysian politicians please WAKE-UP, there are much bigger problems facing Malaysia now. Please don't think you can survive without being part of the global economy. Malaysia is USA's 10th biggest trade partner and has many big investors from Europe and Asia too. All these countries are facing the same problems Malaysian has now ... increasing oil prices, weak stock markets, money market meltdown etc. The thing is, if Malaysians think you can survive without being competitive internationally (attracting and keeping foreign investors) ... think again. No amount of oil money will be able to bail out Malaysia. Malaysian do NOT need handouts, we need legitimate investors and we need a growing economy (even in these hard times).

Malaysians are privileged (Bumiputera, Chinese and Indian alike) and have been very protected. Try to find a country in this world that has this ... low taxes (UK 47%, Australia 55%, USA 38% -- I've been there!), EPF, state health-care (very good compared to even UK believe me!), education - almost free (try paying US\$22K a year for a high school!) ... Which leads me to my last point or question I'd like to ask everyone, if United Kingdom is paying petrol roughly RM30 per liter and USA RM15 per liter, can Malaysia afford to subsidize anymore petrol today?

Hazard in BANKRUPTCY in the Insurance Industry ?

May this Kapas Pirate further help educate the people on existing financial crisis facing the World i.e when the Real Estate bubble bursts, as happening right now everywhere especially in the USA. Those that borrowed to finance their real estate venture or adventures could now NOT repay their loans.

Bankruptcy now become widespread !!!!!,in almost every corners of the World.

In standard market economics, if a lender makes a bad loan, would rightfully will have to face the consequences. Upon declared as a bankrupt or go into bankruptcy, the country's law on bankruptcy shall be applied.

What is happening now in America, the US Government is bailing out the Institutions/Companies that should rightfully declare itself into bankruptcy !. Pls note; Any creditors, anticipating an governmental bailout, would weaken its incentives to ensure that borrowers will be able to repay !.

This is an infamous moral hazard problem well known in the Insurance Industry and unfortunately now, in economics !. Its a fact that having insurance reduces the incentive to take care, to be extra prudent. A bailout in the event of a financial crisis is like "free" insurance.

As such, if you are a lender, you take less care in screening your applicants, cas. you know you will be bailout if the loans go sour.

I pray that this message be noted by all and that our Malaysian Government shall not follow the same

road !!!!!!!.

Salam Tun Dr.Mahatir

Honestly I dont think Tun are omnipotent , I think you yourself also agreed that is why you dont call yourself an economic expert.

But the beautiful thing is that you know who to believe who not to believe, instead of following IMF prescription you engage a German economist to solve the crisis. Malaysia was saved.

What you had elaborated in your previous article about subprime lending is also true as evidenced by the case of Lehman Brother

It is good if Tun can relate to us about the measure taken by Malaysia government to counter 1998 economic crisis, this is necessary to educate our Malaysian who are naïved.

Assalamualaikum dearest Ayahnda Tun n Bonda,

I pray that Allah SWT bless you both, everlastingly....

I read with heavy-chested n dreary feelings about the economy turmoil sprung in US n think that we will face the immediate unwelcome effects. I dont think our pm can do something good about this n that's why he passed the baton to DSN...

'When a fool decides an unintelligent move, he brings out all the dire consequences...'

The future seems more bleak, jeopardized by many unscrupulous crooked leaders n politicians of both gov n oppositions. The mandate given by us, rakyat, awaits uncertainty n no definite resolution offered to us concerning all issues...

I, for many times, could not believe that many MP's are making blunders in their way to acquire power by plotting dangerous schemes and strategies n mostly by manipulating people's mind [especially those who cannot think for themselves...]

Rakyat who think that they have chosen the right party to topple the gov in such a horrendous act - bribery - must remember that 'the end doesn't justify the means'...

Whatever it is, taking away the rakyat's right is unacceptable, unjustifiable!!!! Imagine when someone snatches away your right and place it in the wrong hands??? Can you tolerate that? Even in the name of politics, a sin is always a sin. One wrong cannot justify another wrong.

It was MNorYaacob who had really forked out his thoughts with the formula to overcome the crisis we had in 1998. He pursued Tun who was then in S. America & why is he now not in the limelight??? Is he not competent now as before???

We can see where we're heading. In this fluctuated @ sliding down situation, we need to be assured of our buying power (if we have any?).

I hope DSN with the assistance of Nazir, governor of BNegara n financial expertise will work together to amend the damage done by we know who....

Salam Ramadhan al Kareem n may we have a joyous eid as to accomplish the mubarak fasting.

Happy Eid to both Ayahnda n Bonda Tun.

Love you, always.

Dear TUN,

Your grasp of the economy in and outside Malaysia is indeed commendable;its because of your understanding of the issues at hand that enabled you to prescribed what you did previously.I am sure you could guidance and ideas even NOW. I pray the new finance minister will seek your views, especially at this trying time, to overcome the many woes in this country. To do the right things to revive our economy so that the masses can have the confidence back again. Hope the DPM will read this.

It really takes an intelligent and able leader to steer the country out of this doldrum we are facing; sadly lacking presently.

As always, TUN take care! God bless you and your family.

My Dearest Tun,  
Assalamualaikum, A greeting of peace and happiness to you and your family.

I have been a loyal supporter of you and will always be. When you resign from the premiership post I have told my friends and families that I pray this will not be when ancient Melaka lost it's Tun Perak. The empire crumbles under un-capable and corrupt 'Bendahara'. I still pray for history not to repeat itself.

I would like to mention that during your most heated time (crisis 98-99), when most of my friends have turn to the new opposition party. I have managed to convince a few of them to reconsider and as result Tan Chai Ho won the seat. I know that it was very small part but I'm proud that I have done it and I do not expect any in return, I'm just happy and it was a privilege to be there to support you.

If we are now in the feudal era, rest assured that I will be carrying your banner to the field of battle whenever you call for it.

May Allah care for you and wife as I pray for Allah to care for my parents. Insha'Allah

Dear Tun,

This is the first time I read your blog. I always respected you as a strong leader with good foresight.

I think bailing out is necessary if situation warrants it. In the case of AIG, my understanding is to prevent adverse effect on other financial institution and the economy from spiralling out of control.

Back then when Renong etc was bailed out, I think the same rational applies. The only problem was the perceived connection between the business and the politic. I can't verify that and I believe most Malaysian can't do so either.

I choose to judge based on facts rather than rumour. Thus, I support the bail out back then and now based on the rational as disclosed.

Assalamualaikum Tun,

Nampak macam ekonomi dunia akan jatuh macam 10 tahun lepas....Harap ianya tidak akan berlaku.Saya dah alami kegawatan 1986 - Teruk masa ni.Harga sawit jatuh,masa ni saya masih sekolah...nak makan pun susah...taknak cerita panjang sedih sangat bila kenang semula....

1997/98...masa ni pun saya dah alami.setengah sektor pekerjaan amat terasa kegawatannya...

Harap Kerajaan dapat cari kaedah terbaik untuk menyerap sedikit sebanyak perkara ini.Terbukti Tun telah berjaya meminimalkan kegawatan ini semasa menjadi PM.

Berat jugak bebanan DSNTR untuk jadi Menteri Kewangan dikala ini...Harap juga semua Menteri2 yang ada komited untuk mempertahankan Malaysia...Buang yang keruh ambil yang jernih..

Hidup mesti diteruskan.Harap juga Kerajaan dapat lantik Tun sebagai "Menteri Penasihat"

Elok kita tumpukan pada kemajuan,kemakmuran,penambahbaikan ekonomi terhadap rakyat Malaysia dll lagi...

Saya juga mendoakan "cita cita murni DSAI" tu gagal...

Harap juga Tun dapat menulis amalan pemakanan sihat yang Tun amalkan melalui ruangan ini,pernah saya terbaca bahawa Tun tidak menggemari ikan..

Terima Kasih.

Salam buat Tun dan sekalian warga bloggers,

Terperanjat saya bila mengetahui pertukaran suka sama suka 2 portfolio penting dalam kerajaan yang nampaknya macam lalang ni.Tertanya-tanya saya...mereka ini nak menyelamatkan Malaysia atau nak menyelamatkan peti besi masing-masing....mungkin juga...peti besi Pak Lah dah tak boleh menampung hasil rompakannya! Satu perancangan yang boleh dikatakan hebat...sedia maklum dengan refleksi Pak Lah yang ada lembab sikit tu...walau nampak terlalu bacul...! Sekarang Najib pulak lah kene bersedia untuk membersihkan najis yang ditinggalkan.

Rakyat sekarang bukan buta...entah apa jugalah yang ada dalam kepala Pak Lah tu...letaklah jawatan sebelum keadaan lebih mendesak....for once...please think about the people rather than ur own

\*\*\*...muak tengok drama swasta yang macam takder penghujung nie.

Tun,

please bring some changes to our nation...Pak Lah nampaknya memang tak boleh harap...we rakyat is hoping at you now...I'm hoping at you now...

tun...

this is only an opinion from me...

previously US said that it is wrong for Malaysia to bail failing company. Now, they are bailing their failing company..

In Malaysia the company that been bail out have a concentrated ownership.. In US the ownership are well dispersed. When we bail failing company in Malaysia it will look like we are bailing individual.. Of course the main reason is to save and in the best interest of a lot of people..

anyhow you cannot avoid the fact that we are bailing out an individual due to ownership structure in Malaysia listed company..

If US not to bail all the failing company it will also effect the hold world.. it is good for us if US bail failing company.. but if their money will reduce in value due to money they created, looks like it will increase the quotation of Crude Oil.. when USD become lower it will require more USD to buy A barrel of crude oil.. right??

When the quotation are higher Paklah will say that the crude oil have become more expensive now and they have to increase the price...

In my opinion.. the increase in the quotation are due to the weakening USD. it should not have any effect to malaysia retail gas price.. right? Unless RM also do decrease in value at par with USD.

Furthermore, increase in quotation of crude oil will increase Petronas income.. right?

Am I right Tun.. I am currently doing my Master in Finance.. means I am still learning.. ur blog being very educative and much appreciate if u can comment my opinion above.

By Pak Ali on September 19, 2008 10:34 AM

Salam Tun,

Tun, first thing i said when i the news of change of the portfolio between PakLah and Najib is "oh my God!". It is so clear that PakLah is running away when things get bad and is making Najib a scapegoat.

What worries me more is why is he taking the Defense Minister role?

With his attitude tidak apa and non-confrontational, i think Malaysia will lose more territory like Pulau Batu Putih episode. As it is, the expansion and modernisation of our armed forces is going at a snail pace, it takes years to decide on any procurements of new equipments because everything is tied to politics. Soldiers nee time to familiarise and train to get the best out of the equipments and form a proper doctrine. Whenever there is a delay in procurement, the standard answer is no budget! But there is plenty of budget for the sake of the cronies!

It is in this situation when we are so preoccupied with internal politics, race relations, and financial turmoil, we are at our weakest, and provide opportunities to our enemies to try their luck on our territory and sovereignty.

And when we are attack, our PakLah will say "takpe lah depa nak ambik pulau tu, kita banyak lagi pulau dalam negara kita, malam ni kita akan buat sembahyang hajat, moga-moga Allah akan lembutkan hati mereka dan mereka akan berundur tanpa sebihi peluru ditembak. Itulah Islam Adhari yang kita patut amalkan"

For God sake! Give it to some ex General who knows about the art of war and have guts to take a strong action.

Menyampah betul dengan ahli politik!

Y.A.Bhg Tun,

Kalau Tun tak berapa tahu tentang ekonomi saya lagilah...Tapi saya pergi ke web site Wikipedia untuk tahu apa dia yang dikatakan sebagai "sub-prime crisis" tu. Betul kata Tun yang ianya berpunca dari "playing with money, selling mortgages, selling papers and all kinds of financial dealings which have been invented by the finance houses in order to make huge sums of money out of nothing". Susah juga nak faham tapi faham jugalah sikit-sikit dan saya sangat hairan campur terkejut dengan ketamakan manusia hingga sanggup memberikan pinjaman kepada mereka yang sepatutnya tidak diberikan pinjaman tapi dengan kadar faedah yang begitu tinggi pula dan pengamalan "predatory lending" (ini mesti Yahudi punya idealah) yang berleluasa di Amerika.

Katanya "sub-prime crisis" ini masih lagi "the edge of the storm" dan ribut sebenar akan melanda pada tahun depan bila mana orang yang buat pinjaman pada 2004 dan 2006 mulai mengalami kadar pinjaman yang meningkat dan mulai "default" pinjaman mereka. Katanya jugak mereka yang buat pinjaman atas "prime rate" juga akan menerima kesan dan akan "default" pinjaman mereka. Kalau ini berlaku keadaan akan menjadi lebih buruk.

Freddie Mac dan Fannie May yang diambil alih oleh kerajaan Amerika Syarikat dikatakan mempunyai setengah dari \$12 Trillion hutang yang ada dalam pasaran di Amerika. Berapa zero dalam satu trillion pun saya tak tahu Tun! Katanya pengambil alihan itu telah meningkatkan hutang kerajaan Amerika Syarikat sekali ganda! Mana dia orang dapat duit Tun? Saya harap jangan dengan cetak kertas sahaja.

Kita masih belum tahu dan kerajaan masih belum umumkan berapa banyak "exposure" kita terhadap krisis di Amerika ini. Kalau bank-bank kita pun sama beli "securities" dari Amerika Syarikat habislah kita.

Saya tak yakin pemimpin yang ada sekarang mempunyai kebijaksanaan yang perlu untuk mengharungi masalah ini bila ia betul-betul sampai ke Malaysia. You have to advise them Tun.

Perpaduan Kaum

Saya tak sempat komen posting Tun beberapa hari lalu atas tajuk di atas. Jadi saya nak buat sekarang.

Saya perhatikan masalah perpaduan ini di Malaysia ini tidak seteruk dinegara-negara lain seperti Thailand misalnya. Perdana Menteri dia pun (Taksin) keturunan China (kata orang). Ini orang Siam boleh terima. Di Malaysia ini jauh panggang dari api.

Jadi setelah meneliti masalah ini, pendapat saya yang Marhain ini ialah perpaduan kaum di Malaysia agak sukar dicapai adalah kerana kita orang Melayu adalah orang Islam. Ajaran Islam melarang kita makan babi dan bela anjing. Jadi kita sentiasa prejudis dengan orang China.

Kalau jiran kita orang China bagi kita makanan misalnya, saya gerenti makanan itu akan dibuang dan tidak dimakan. Bila jiran kita orang China menumis misalnya kita akan tutup hidung takut terbau masakan mereka yang mengandungi babi atau minyak babi (lard) sekali pun mereka bukannya masak babi.

Kita tak mahu masuk dalam rumah mereka jauh sekali makan dalam rumah mereka kerana makanan mereka tak halal sebab dicampur adukkan dengan alatan memasak yang telah memasak babi dan kerana mereka kadang-kadang bela anjing dalam rumah yang kita sangat geli nak dekat.

Jadi kita sentiasa prejudis dengan mereka walaupun diluar kita cuba juga berbaik-baik dengan mereka. Jadi kalau kita tidak duduk semeja dan makan bersama mereka di mana akan datangnya kemesraan di antara kita? Kalau sudah tiada kemesraan bagaimana nak adanya perpaduan?

Cuba bandingkan sikap kita terhadap orang hindu misalnya. Saya rasa perbezaannya jelas. Kita tidak teragak-agak untuk masuk makan di restoran orang hindu kerana kita tahu mereka tak makan daging babi. Kita lebih senang makan dengan mereka dari dengan orang China. Tapi dengan orang hindu ini prejudis kita lain pulak.

Saya percaya kalau dari dulu, sebelum merdeka, kita berkuat yang negara Tanah Melayu ini mesti diistiharkan sebagai negara "bebas babi" (swine and swine product free), kita akan menjadi lebih mesra dengan orang China dan masalah perpaduan kaum ini tidak menjadi satu masalah besar di mana, saya percaya orang Melayu boleh terima kemungkinan seorang Perdana Menteri berbangsa China di Malaysia kalau dia lebih baik dan lebih geliga otaknya.

Sekian Tun pendapat saya yang bodoh ini.

Wasalam dan Selamat Hari Raya Tun kalau saya tak ada komen lagi sebelum itu.  
By JJJ on September 19, 2008 10:35 AM

salam Tun,

I think this is the time for DNTR to shine as Finance Minister and prove he is worthy to become the next PM.

He must seek advice from you and you must help him out for the sake of the country.

IT WILL BE A PERFECT PARTNERSHIP!THERE IS NO BETTER WAY!

Although you claim you are no financial expert,we are very much aware what you did during the '98 financial crisis which qualifies you as a WIZARD!

Those who condemned you then (there were A LOT of Malaysians themselves..proof of how gullible many of us were to believe foreign advise)soon realised you had outsmarted the so-called experts at their own game!

For those who called Tun 'mad','economic knowledge can fit the back of a postage stamp','will destroy the country' and much more,I say please repent before you die.

If DNTR is able to steer Malaysia out of trouble safely through this trying times,I believe the business community will solidly back UMNO / BN for the next GE.

DNTR,  
DO NOT LET THIS CHANCE SLIP BY!

SEEK ADVICE FROM TUN NOW!  
SHOW LAME DUCK DSAAB HOW TO RUN THE COUNTRY'S ECONOMY!  
THIS MAYBE YOUR ONLY CHANCE TO PROVE YOUR CAPABILITIES!

Dear M,

This is the time when we miss you most.

Your wisdom in pulling out Malaysia out from the 1997 financial crisis is very much appreciated.

If my memories recalled correctly, I have read a press that even George Soros himself admit and acknowledged your tactics in handling the financial crisis in 1997.

Generally, I still have hope on Malaysia. Not with the government but with the Malaysian people.

I think we the malaysian regardless of races only cares about two things-

Peace and Living.

Although we are still agitated race issues and etc...but fundamentally only these two things can determine where our votes cast.

Please do not give up hope on US. We will try our best to make you proud once more. Wawasan 2020

Salam Tun and readers,

Sorry off topic sikit.

I just nak clarification...

Ada ke undang-undang yang membenarkan wakil rakyat melompat parti?

Bukan kah masa rakyat mengundi dulu, calon bertanding atas nama partinya... bukan sebagai individu?

Kalau rakyat dah pilih wakil rakyat di bawah BN kenapa boleh lompat parti????

Tak beretika langsung...!!!!

Wakil rakyat tu kalau tidak bersetuju dgn BN boleh resign dan resign jawatan sekali, mana boleh angkut jawatan sekali!!!

TAK PERNAH BERLAKU .... HANYA DESPERADO ANWAR YG LICIK AJE BOLEH TERPIKIR BENDA TAK BERPEKDAH camni!!!

Assalamualaikum Yang Berbahagia Tun,  
Semoga Tun sekeluarga sentiasa sihat dan dalam keberkatan Allah.

1. Artikel Tun tentang "Financial Turmoil" di Amerika dan impaknya kepada sebuah negara membangun seperti Malaysia amat menakutkan dan saya benar benar berharap agar kerajaan yang memerintah Malaysia akan mengambil komen Tun SECARA SERIUS DAN BERTINDAK SEGERA UNTUK MENYELAMATKAN NEGARA TERCINTA INI ATAU SEKURANG KURANGNYA MENYEDIAKAN STRATEGI YANG DIFIKIRKAN WAJAR DENGAN SEGERA.

2. Saya berkeyakinan ada menteri menteri dan pegawai pegawai kerajaan dan para "think-tank" kerajaan yang mengetahui hakikat "Financial Turmoil" ini yang bakal menjadi "Tsunami" dan akan melanda secara global dan impaknya terhadap Malaysia. Namun sama ada mereka ini sudah bertindak dan bersedia tidak kita ketahui. Mungkin juga mereka sudah penuh bersedia untuk menghadapinya. .. Atau mungkin mereka tahu betapa seriusnya untuk bertindak dan bersedia, tapi tidak diberi arahan atau mandate untuk bertindak.

3. Saya sendiri merasa resah apabila membaca kejatuhan satu demi satu bank bank di Amerika Syarikat dan tindakan Lehman Brothers untuk diistiharkan syarikat gergasi itu sebagai mufliis dan yang terkininya tindakan kerajaan Amerika melalui Federal Reserve Bank untuk mambantu (bail-out) AIG dengan pinjaman 85 BILLION DOLLAR AMERIKA ..... Wow, cuba bayangkan .. untuk bail-out satu syarikat ... dekat dekat nak RM300 BILLION tu ... Jauh lebih besar dari peruntukan bajet Malaysia setahun .....

4. Seperti kata Tun, kalau Malaysia (masa Tun jadi PM) bantu PROTON ke, PERWAJA ke .. atau mana mana syarikat pun yang kerajaan ada kepentingan (walaupun jumlah bantuan tu kecil sangat !!!!) Amerika ke, UK ke .. sibuk komen kita buat tak betul, tak professional ..... Kalau mereka buat .. semua nya betul.

5. Jika "Tsunami" ekonomi yang mula menggugat Amerika Syarikat ini terus melanda, banyak negara akan terlibat sama. Bursa Saham kita juga akan terjejas. Sekarang pun ... sejak 2 hari ini, Indeks

Komposit di Bursa Saham Kuala Lumpur terus menurun 2 angka. Mereka yang professionnya menjual-beli saham di bursa saham dan sudah kaya dengan keuntungan yang diperolehi sebelum ini ..... akan mula jual kereta mewah mereka, jual rumah sewa mereka,... Mereka yang professionnya sama tapi kira cukup makan pakai aje .. akan mula resah...takut kalau kalau tak boleh beli beras !!!!! Dan ada pula yang mungkin terlalu risau kalau Indeks Komposit terus jatuh menjunam .... dan rasa nak bunuh diri sebab hutang kat "margin account" terlalu besar untuk dibayar!!

6. Yang Berbahagia Tun, Saya memang kagum dengan cara Tun mentadbir negara semasa menjadi PM selama 22 tahun. You are an excellent manager. Menteri menteri dalam kabinet Tun dulu semua "on their toes" dan buat kerja dan tak berani main main. Rakyat juga kagum dengan Tun. Sebab, Tun MENAMPAKKAN kepada semua rakyat Malaysia dan kepada negara luar juga, HASIL YANG KETARA YANG DIKURNIA OLEH ALLAH YANG DAPAT DIKECAPI OLEH RAKYAT SEMUA, hasil dari usaha gigih Tun dan "your team" serta sokongan padu rakyat. Ketika itu, pihak pembangkang juga mengkagumi cara Tun bekerja. Sejak tahun 1980 ... dari tahun ke tahun, rakyat Malaysia sentiasa mendapat menikmati DIVIDEN DAN BONUS. Tahniah dan Thanks Tun.

7. Yang berbahagia Tun, Dalam situasi sekarang, saya secara ikhlas menyarankan supaya Tun terus menggunakan ruang yang ada .. melalui blog ini dan juga pertemuan pertemuan tertentu, dengan pemimpin negara Malaysia untuk memberi pendapat untuk kebaikan dan kesejahteraan rakyat dan negara Malaysia kerana Tun mempunyai pengalaman yang sungguh luas dan pemikiran yang kritikal dalam banyak bidang, terutama dalam "Managing" a nation. Juga, Tun boleh mengumpulkan para stratejis dan perancang dari berbagai disiplin yang Tun kenali untuk memikirkan rancangan dan strateji untuk kebaikan rakyat dan negara Malaysia yang kita cintai ini untuk diketengahkan kepada kerajaan sebagai cadangan yang ikhlas. Sama ada Kerajaan nak terima untuk pelaksanaan terpulanglah kepada mereka. Saya rasa itu yang terbaik untuk Tun fikir fikirkan. Terus berbakti dan seluruh rakyat Malaysia tentu setuju.

8. Hentikanlah komen terhadap Dato Seri Abdullah (PM) sebab semua orang dah tahu. Mengata orang menambah dosa kita aje.

9. Assalamualaikum Tun, Selamat berpuasa, Selamat Hari Raya dan maaf zahir batin.  
By rarunasalamAuthor Profile Page on September 19, 2008 10:53 AM

Sir

do you only ask the questions or be a willing participant in answering some yourself?

read the headlines today where it states, you stated  
Dr M: No justification for arrest of bloggers, Teresa

and in there there was a question to you -

"Asked if he would agree for the ISA to be amended, he said there was no amendment during his time as the people who were enforcing it refused to amend it"

Q1: Weren't you the Home Minister then. Wasn't it under your ministry's purview ISA was under? In that case, what do you mean people who were enforcing it. Are you stating that the Minister in that case does not have any input into the enforcement? Is that because the minister needs to be seen unbiased to the enforcement process for checks and balance to be in place?

if That is the case, would you agree that the present Home Minister (who also is not the PM) will not have inputs into enforcement?

if that is not accurate anymore, can you shed some light as to when that amendment to the rule would have been made and why do you think that could have changed given the basis of ISA was largely used in your administration - to sum my question, why would someone have changed any policy that was largely used in your administration?

Q2: How would you have managed the issue of RPK, Theresa, SKDF etc etc. Would you have

reprimanded them in any way or are you agreeing with the sentiments of these people even though you concur they are seditious? (btw, I had to look at different reference sources to completely understand the full meaning and context of sedition).

One clarification that was provided was troublemaking.

Would you say that some of the comments made in their blogs are of this context? If yes, then would the ACT as you know it cover such instances?

if you don't answer these questions, I'll understand. It's always easier to ask than do the answering.

(Ravi)

By khairi ali on September 19, 2008 10:55 AM

Assalamualaikum Tun, Saya baca juga. Ada lapuran yang menyifatkannya sebagai satu situasi yang sama pada 1930'an dulu. Kegawatan kewangan ini masih baru bermula, dia orang kata.

2. Bila Pak Lah beri tugas ke Najib, dan Najib pula gagal mengawal ekonomi, maka 'latihan' untuk jadi PM pun gagal. Dengan kata lain, Najib di perangkap oleh PL. Tak tau la saya...

3. Fasal tafsiran politik ni, ada orang kata, Zaid berhenti kerana takutkan Tun kembali ke UMNO, dan isu ISA adalah alasan terbaik baginya. Sedap juga tafsiran ni kan?

4. Balik fasal ekonomi, sistem kewangan, runtuhnya kepercayaan orang ramai terhadap sistem kewangan dan sebagainya, sememangnya boleh diduga akan berlaku pada mana-mana titik dalam kemajuan manusia. Sebabnya, ekonomi yang ada hari ini adalah ekonomi material, dan ekonomi yang menjinakkan runtunan manusia dengan kemanusiannya, melalui material. Ya lah, sama dengan taktik perhambaan dulu : bodek melalui wang, kekayaan, keselesaan dan sebagainya bagi memancing mereka yang tak bekerja, lalu dicolek dan dijadikan hamba abdi. Bahkan hamba yang gagah diberikan pula seorang kanak-kanak untuk kemudahan kegunaannya. Jadi masa akan sampai cara ekonomi, yang dikatakan moden, maju ini, pecah. Masa tu kemelesetan berlaku... tiada kerja, tiada makanan, tiada tempat tinggal dan sebagainya.

4.i. Sungguh sayang, manusia tidak ingin mengkaji ekonomi yang terhasil dari zakat. apa yang saya dapati ekonomi zakat ialah ekonomi yang berperai kemanusiaan, yakni mengikhtisafkan kekayaan yang diperolehi adalah hasil dari titik peluh golongan miskin juga; mewujudkan perhubungan yang erat antara yang berada dan miskin; mencakna keperluan, potensi, kemahiran yang ada dari kalangan miskin; membantu mengeluarkan golongan dari hutang; menyokong dan membantu golongan pelajar dan pengembara; dan macam-macam lagi.

4.ii Tegasnya, ekonomi zakat adalah sebuah ekonomi yang tidak memperhambakan manusia. Bayangkan kuasa ekonomi yang boleh dikeluarkan oleh manusia yang tidak diperhambakan! Dalam masa 1 atau dua tahun saja, umat Islam mampu membuat tuntutan untuk mendapatkan haknya di Mekah, bila Nabi saw. melaksanakan rukun zakat!

5. Apa yang saya nampak dari idea Tun, perubahan yang perlu dilakukan hanyalah secara tempelan saja, seperti mengurangkan pergantungan Ringgit terhadap Dolar. Yakni, tidak bersifat struktur baru dalam amalan ekonomi negara.

6. Saya pernah bicarakan hal ini dengan rakan bertaraf sarjana, tapi mereka tidak dapat memahaminya, dan ada juga yang menyifatkan sebagai terlalu 'ideal'. Sesungguhnya, Islam adalah ajaran yang ideal untuk umat manusia menghadamnya.

Sekian.

assalamualaikum TUN sekeluarga... harap TUN berada dalam keadaan sihat sejahtera...

ape yang saya luahkan disini adalah isi hati saya terhadap pimpinan tertinggi negara MALAYSIA yang saya cintai...

saya dah fedup dengan keadaan politik sekarang ni. kerajaan pimpinan AAB teruk jika dibandingkan dengan pimpinan PM sebelum ni termasuk era Tun. apa yang saya lihat sekarang ni, terus terang saya katakan, sekarang ni memang negara ketandusan calon yang betul2 berkebolehan jadi PM. dengan keadaan BN & UMNO skrg ni menguatkan lagi kenyataan sy ini.

ditambah pula dengan permainan pihak pembangkang, kerajaan AAB menjadi kucar kacir. AAB tidak dapat menyerap setiap serangan pihak pembangkang. ape yang dilakukan hanyalah melarikan diri dan melepaskannya kepada NTR. saya membayangkan negara akan bertambah teruk sekiranya NTR mengambil alih tampuk pimpinan negara.

disini, dari lubuk hati saya, hanya TUN dapat mengembalikan kestabilan negara dan kesejahteraannya. saya berharap sangat...

The effort to put into place measures that will stabilize our economy will be a difficult task ahead.

It would be more difficult with PakLah still in the helm of leadership.

I am not confident that Najib is the right person as the Minister of Finance, however he is a better choice than PakLah.

Thank God for the Blessing.

Good morning Tun,

The Raya celebration is just around the corner, do you have any open-house celebration this year in KL (Country Height)? I have a little comment on the food.

I think it is good to think of a way to preserve the food, especially after 12pm. To be frank, I found out that some of the food served had started to turn sour when we reached there around 2pm last time. Only Satay was still ok. I suggest that the food can be kept warm at all time with proper lid covering it (and of course have it labeled). Cold soya drink was nice.

Maybe Tun can also set up one or two booths for some simple games for children and for exhibition. Simple souvenirs such as bookmarks can be given to children to further enlightening their days.

Hi Tun,

I personally do not agree with your leadership in many ways and do not have much good impression on you, but there are really two things that I want to thank you very sincerely for.

1. You save us from the financial crisis of 97.

You are indeed smart and were daring to combat the international financial rapists. You hit them hard on their devil tails. Well done, I salute you. You deserve the credits!

For other readers, this is a good book for reference on financial issues - [www.webofdebt.com](http://www.webofdebt.com)

2. Keep the Gas Price Low

You understand that commoners have little incomes and tried your best to keep the gas price stable.

I do not really pray for this country as I believe that under the current political mess, there is no light at the end of the tunnel. Many Johoreans who are talented and able are and will be in Singapore. Planning for own future in another country is more practical and secured option.

Dear Lim,

Thanks to people like you that Malaysian Chinese is regarded as Not Patriotic. Is this your solution to the problem when our country is in Crisis ? We should just flee like mobs ?

This is our home, our root. Yes I must admit the present government is sickening but do not give up on your homeland.

PS: LIFE in Singapore Sucks!

The Americans and the rest of the world should look at the way Malaysia handle the Asian Financial Crisis in 1997. Sorry, correction....the way Tun Dr Mahathir handled the crisis.

In order to ride out of this crisis successfully, US will benefit from your handling of the Asian crisis ie pegged the exchange rate. This temporarily measure will help stabilise the market. Otherwise, it will have a rolling effect which will affect the world economy. I don't believe even the powerhouse of China and Japan will be safe due to the high amount of exports to US. As the cost of imports rise, making imports from China and other countries more expensive, US household expenditure will drop as a result.

End of the day, it is a taste of their own medicine. I wonder if IMF will be call in bail the US economy as was in the Asian crisis???

By I copy on September 19, 2008 11:10 AM

Tun yang di hormati,

Memang benar, semasa 'financial crisis, bila Tun melaksanakan 'pegging' ringgit kepada dollar dan 'bailout' institusi kewangan, dari mengikut cadangan IMF, ramai yang tidak setuju, dan ada yang mengatakan Tun tidak pandai dalam ekonomi.

"Lesson learned".

Apabila strategi yang Tun laksanakan berjaya, ramai yang gembira terutama rakyat Malaysia. Rakyat negara jiran pun memuji langkah yang Tun buat. Akhir nya IMF pun setuju dengan langkah-langkah yang Tun telah lakukan.

Mungkin apa yang Amerika Syarikat laksanakan adalah mengikut model yang Tun buat dahulu. Kita seharusnya bangga dengan pencapaian teori dan praktis kewangan yang telah diperkenalkan.

Tahniah Tun

Good Morning Tun,

I totally agree with Tun.Only God Knows what will happen to our country if the economy crisis carry on.

Beside the USA Crisis , our own country is having also having a crisis that makes our country economy even worst.Do they really want to see where our countries back to a village country where by plants veg at our garden or even rare chicken in the city just to keep food.Cycle to work/school.cannot afford for eletric city/clean water.

With respect TUN. Please come back to action as soon as possible to clean the mess created since you retired and quit UMNO. I have faith in You TUN

Salam TUN,

Org2 yg mengutuk TUN tentang bailout Syarikat Malaysia semuanya dengki dgn TUN saja. Di US bailout belambak2 berlaku dan juga di negara lain bailout syarikat penerbangan berlaku tapi org2 ini buat pekak dan buta saja.

Pertukaran portfolio Paklah dan Najib ini hanya utk Paklah lari dari tanggungjawab saja. Kalau jadi inflasi Najib yg disalahkan nanti.

Inflasi sebenarnya dah lama berlaku di Malaysia cuma Paklah cover2 dlm berita. Contoh saya mungkin contoh bodoh tapi kami di Sabah dulu beli serai satu ikat 50sen tapi sekarang dah naik rm1. Mana ada pendapatan naik 100%. Yang naik gaji dan elaun hanya org kerajaan saja, kami yg naik hanya pembelanjaan.

Lainlah keluarga Paklah pendapatan mereka naik jutaan kali ganda.

Saya tak pernah benci PM mana sebelum ini tapi saya sangat benci dgn Paklah. Paklah PM yg bodoh lagi sombong.

Teruskan perjuangan TUN semoga kita berjaya tumpaskan kerajaan zalim sekarang.

Salam Tun,

Jangan lupa terapkan unsur-unsur Islam dalam penyatuan, pentadbiran dan apa bidang sekalipun, kerana dunia ini hanya sementara, keruntuhan ekonomi bukanlah bererti dunia akan kiamat, yang lebih membahayakan adalah keruntuhan akhlak muda-mudi Islam pada masa ini yang memang sudah tidak terkawal.

Kita kena bail out GLC dan bukan bail out syarikat yg ada talian persaudaraan dgn kita.

Sbg contoh menyelamatkan konsortium perkapalan yg bukan dimiliki oleh kerajaan persekutuan Malaysia

(cuma MISC sahaja yg jadi GLC dlm perkapalan) yg di kawal oleh anak lelaki, cucu atau sesiapa sahaja.

Salam buat Tun sekeluarga,  
Selamat berpuasa dan selamat berbuka puasa.

Memang tidak dinafikan bahawa sekarang ini kita menghadapi kemelut ekonomi dunia.. Ini disebabkan oleh keadaan ekonomi di US. Namun begitu, berdasarkan informasi yang diperolehi oleh sahabat saya di US,ianya adalah satu propaganda sahaja di US..Pada hakikatnya Tun, masyarakat dan rakyat di US tidak menghadapi sebarang masalah atau tertekan dengan situasi ini. Harga minyak dan barang di US tidak naik.. Malahan, turun pulak tu..Lalu, pada hemah saya, negara ini tidak perlu terikut dengan pergerakan dan perjalanan ekonomi di US. Sebaliknya, sudah tiba masanya kita perlu membina mekanisme/formula tersendiri bagi meloloskan diri daripada pergerakan ekonomi US.Mekanisme/formula ekonomi ini perlu mendapat kerjasama semua pihak.Ketepikanlah segala fahaman,sikap racist, dan status.

Tun,

Ada 2 sebab utama pelabur enggan melabur di Malaysia:

1. Sikap khianat yang dilakukan oleh org yg diamanahkan utk melabur wang pelabur ke negara ini dengan masuk poket sendiri.
2. Propaganda media luar dan dalam yang mengeruhkan lagi keadaan.

Pertukaran jawatan yang dilakukan oleh DS AAB dan DS Najib perlu dilihat secara positif. Sesuatu perkara tersebut ada sebabnya.. Bergantung kepada kita sebagai rakyat untuk memahaminya atau tidak. Isu DS Najib ingin membawa sedaranya adalah mungkin dia memerlukan nasihat kepakaran dan DS Najib lebih mempercayai sedaranya sendiri daripada org lain. Umum kita ketahui bahawa sedara DS Najib merupakan seorang yg pakar dlm ekonomi, dan perbankan. Sewajarnya, istilah kroni tidak perlu wujud dalam konteks ini.

Sewajarnya, org-org kaya di Malaysia tanpa mengira kaum dan status tidak sewajarnya meloloskan diri dengan membawa keluar wang dan diri mereka ke luar negara.. Di sini saya perhatikan bahawa mereka ini tidak ada sifat patriotisme dan kecintaan membantu bangsa sendiri. Mungkin, mereka dilahirkan selepas pasca kemerdekaan.. Tidak melihat zaman WWII dahulu. Sebaliknya, saat dan ketika inilah mereka perlu memainkan peranan penting dalam menyumbangkan idea dan kepakaran utk memakmurkan negara.

Tun,

Pada hemah saya, sudah tiba masanya Tun kembali bagi memberi nasihat kepada yang berkenaan.. dan isu DS Anwar perlu diselesaikan dengan segera sebelum keadaan menjadi lebih melarat. Cukuplah pernyataan yang dilakukan beliau yang pada pandangan saya terlalu melampau dan tidak menghormati bulan Ramadan. Tindakan beliau boleh disamakan tindakan Amerika membedil Iraq pada 2003.

Dear Tun Dr. M,

The politicians of late do not care anymore for the country/rakyat, and most want to become politicians so they can have a slice of the "corruption cake", utk glamour dsb.

When I was overseas for a short period I took a short economics class, and the subject of the Asian financial crisis in 1997 came up and I prided on how Tun managed and tackled the issue, refusing IMF's aid, pegging RM etc...all for the benefit of the country...

I don't think there will ever be another Dr.M in the Malaysian political world, or those that will strive to emulate the past 4 Prime Ministers...

MUNGKIN KAH SEJARAH AKAN BERULANG LAGI ?

THE FINANCIAL CRISIS OF 1997 - 1998  
By Nor Mohamed Yakcop

A moment comes, which rarely comes in a lifetime, when a particular event redefines a person's life and changes the course permanently. For me, the meeting with Dr. Mahathir Mohamad in Buenos Aires (Argentina) on the evening of October 3, 1997 was such an event. It enabled me to devote the next 6 years of my life working for Dr. Mahathir Mohamad, meeting him almost daily. In the process, it enabled me to see, at very close range, the abilities of this great man.

The combination of many noble qualities in one person is rare, and it is this unique combination that has enabled Dr. Mahathir Mohamad to transform Malaysia from an otherwise typical third world country into a thriving and vibrant nation, well on the way to become a developed nation. It is also this combination of qualities that enabled Dr. Mahathir Mohamad to save Malaysia from becoming another IMF nation during the financial crisis of 1997 - 1998.

I am often asked about my involvement in the recovery plan implemented on September 1, 1998. It began on September 29, 1997, when I received a telephone call from the office of Dr Mahathir Mohamad informing me that the Prime Minister wanted to see me. The PM was in Cuba at that time, and I asked (in jest) if I was to meet the Prime Minister in Cuba !  
I was told (not in jest) that he will be arriving in Buenos Aires on October 3, 1997 and I was to make sure I was in Buenos Aires at least a day before he arrived. I packed my bags and left for Buenos Aires, and arrived in Buenos Aires on October 2.

The PM arrived the following day at 5 pm and we met immediately at his suite. He informed me that he had asked many people to explain to him what was causing the financial crisis but no one was able to give him a satisfactory reply. He asked me whether I could explain to him what exactly was happening.

I asked him how much time he had, and he said two hours. I explained to him how the forex market works, about short positions and long positions, about hedging and how currencies are borrowed and

sold, the difference between "bid" and "offer" and how funds can be transferred from one country to another at the click of a button. I also explained how the equity market works and the relationship between the forex market and the equity market. Dr. Mahathir hardly said anything, asked one or two questions, and listened intently.

After two hours, he had to end the meeting to get ready to go for an official dinner. He asked me about my plans for the night and I said I had been invited for the same dinner. Dr. Mahathir said to me: You go back to your room and write down all that you have been telling me for the last two hours, and see me at 7 am tomorrow. I went back to my room, skipped dinner, and wrote it all down, finishing at about 6 am.

I saw him the next morning at 7 am and gave him the report. He asked me to take a rest and come back again at 2 pm.. When I returned, he told me that he had read the report and that he now understands what was happening in the financial markets. We started discussing various methods of overcoming the crisis, and our discussions continued when we returned to Malaysia. I met him almost daily for discussion, sometimes at his house and sometimes at his office. We tried a few mechanisms to overcome the crisis, some of which worked initially, but the hedge funds were so strong that it was difficult to proceed successfully with these mechanisms.

In early 1998, Dr. Mahathir Mohamad asked me to explore the idea of imposing an exchange control regime to overcome the crisis. I remember preparing voluminous notes on this subject. Dr. Mahathir went through the notes carefully, and kept asking for more and more details. We went through many rounds of discussion, until he was finally convinced both with the concept as well as the proposed mechanism. The rest, I guess, is history.

Dr. Mahathir also asked me to prepare a paper on how to put an end to Malaysian shares traded in CLOB (Central Limit Order Book) in Singapore. Dr. Mahathir was of the view that an important reason for the falling stock market was the short-selling of Malaysian stocks in CLOB. I prepared the report and Dr. Mahathir understood, for the first time, how exactly CLOB operates. The report, which was also implemented on September 1, 1998, put to an end the trading of Malaysian shares in CLOB.

I should add that the exchange control measures were crafted in such a way as to minimize the control aspects and maximize the outcome. The Prime Minister went through the proposed mechanism many times to make sure that the control elements were as few as possible, but adequate enough to ensure a positive outcome. There were no bureaucratic elements in these measures, such as requiring importers to obtain Bank Negara's permission to import. The Ringgit was also pegged at a level where it was not overvalued. In almost every other country, which imposes exchange control measures and pegs its currency, there would, almost by definition, be numerous bureaucratic controls, and the currency would also be pegged at an overvalued rate.

It is often assumed that the system of exchange control (including fixed exchange rate) that we implemented on September 1, 1998 saved the country. The measures of September 1, 1998 were undoubtedly a necessary condition, but it was not a sufficient condition to overcome the crisis. Malaysia was saved, not by exchange control measures per se, but by Dr. Mahathir Mohamad.

Let me explain. Any other developing country, facing a similar crisis, if it had introduced the measures that we introduced in September 1998, the measures would probably have failed. The fact that in Malaysia these measures succeeded is due to the ability and character of Dr. Mahathir Mohamad. The economy and the financial system, under Dr. Mahathir's leadership, was in a very healthy state-healthy enough for the exchange control measures to be implemented without negative consequences. Moreover, the Prime Minister's hands-on management style enabled quick and timely decisions to be made, which was vital under the new exchange control regime.

Dr. Mahathir, as Prime Minister, had ensured that the Malaysian economy was fundamentally strong. Ringgit was strong and stable. On the back of the currency stability (at RM2.50 against the US dollar) Malaysia was doing very well. At the end of 1996, real Gross Domestic Product (GDP) grew at almost 8.5 per cent and the growth was expected to continue for many more years. The government was enjoying a

fiscal surplus. The external debt was low, at 40 per cent of the Gross National Product (GNP). The current account of the balance of payments had narrowed from a deficit of 10 per cent to 5 per cent of GNP, and was expected to improve further. Inflation was at its lowest at 2.1 percent. We had steady growth of over 8 per cent for a major part of that period. And this fundamental strength of Malaysia was a critical factor that enabled the exchange control measures to succeed.

For a period of more than a year after the measures of September 1, 1998 were implemented, the Prime Minister met with a small group of us everyday - 6 days a week - for at least 2 hours to go through various economic data, including data on loan growth, exports, imports, property overhang etc. This enabled the Prime Minister to take quick actions, whenever required. I remember one morning when we were going through the property figures, he looked at me and directed that I should organize a property fair to clear the overhang of properties. I did, and property worth more than RM 3 billion was sold. Even after the crisis was over, Dr. Mahathir continued to meet with the group regularly, though no longer on a daily basis. And Dr. Mahathir continued to go through all the economic data with a sharp pencil.

No other Prime Minister in the world, either in developed or developing countries, employs such a hands-on approach in managing the economy. We can see, therefore, that it was not the exchange control measures per se that saved the country but the man - Dr. Mahathir Mohamad - himself.

The period 1997 - 1998 was, to paraphrase Charles Dickens, the worst of times, but it was also the best of times. The worst conditions brought out the best in Dr. Mahathir Mohamad. There is a saying that a good leader is like good tea - you only know the true quality when he is in hot water !

Throughout the crisis, the Prime Minister was focussed on resolving the crisis. Day and night, he thought of nothing else but the crisis. He read all he could on finance; he kept asking me to prepare notes on various technical issues. Sometimes he was sick with bad flu and cough, but he did not take time off to rest. He was convinced that he had to understand the issues before he could work out the solutions. His native intelligence and ability to focus on core issues were there throughout the crisis. He did not show any sign of fear even at the worst of time, only concern at the fast deteriorating state of the economy. He was, at all times, confident that he would prevail in the end.

I would like to add two additional points related to the financial crisis. The first is that, in implementing the measures of September 1, 1998, Dr. Mahathir not only saved Malaysia but the neighbouring countries as well. Let me explain. When Malaysia imposed its exchange control measures on September 1, 1998, the currency speculators realised that the other affected countries (Thailand, Indonesia and South Korea) could also impose similar controls, and they, therefore, stopped their activities in its track. The speculators backed off. They bought back the currencies that they had sold. This is resulted in the regional currencies appreciating. Moreover, the International Monetary Fund (IMF) was not happy with what Malaysia had done, particularly since, after implementing the measures, we did exactly the opposite of what the IMF wanted us to do, i.e. we lowered our interest rates and injected liquidity into the system. The IMF, therefore, started relaxing conditions in other countries and allowed them to lower their interest rates and allowed them to inject liquidity to stimulate their economies so that Malaysia would not outperform the IMF countries. Therefore, it is no exaggeration to say that Dr. Mahathir Mohamad not only saved Malaysia, but the other affected countries in the region as well - Thailand, Indonesia and South Korea.

My second point is regarding what would have happened if the exchange control measures were not implemented. If the measures were not implemented, many of corporations in Malaysia would have gone under, due to the high interest rates. When the corporations fall like dominos, banks would have faced severe liquidity and solvency problems due to the ballooning NPLs. The problems of the banks would have resulted in a credit squeeze, which would have led to another round of corporate failures. The Government's revenue would have fallen drastically as fewer firms would be paying corporate taxes, thereby reducing the Government's ability to stimulate the economy through fiscal policy measures. As a result of the problems faced by corporations and banks, unemployment would have increased substantially, leading to a second round of problems. This is the classic vicious cycle, which could have, in the end, destroyed the social and political stability of the country. This was a scenario that was waiting to happen. It did not happen because of the decisiveness and guts of Dr. Mahathir Mohamad, who

decided to take the path less travelled.

We owe Dr. Mahathir much gratitude for what he has done for Malaysia over the last 22 years. Solving the financial crisis of 1997 - 1998 was just one, albeit perhaps the most important, of Dr. Mahathir Mohamad's many contributions to the nation.

On a personal note, over the last 6 years, I have come to admire this great man for his abilities, his high moral values and, most of all, for his sincerity. Certainly, a man like Dr. Mahathir Mohamad is not born everyday.

Dear Tun

Your article is crucial reading at this time for our country. Together with the looming food crisis , we are looking at a VERY TERRIBLE DOUBLE WHAMMY. and with the weather changes and it could be a triple.

Could there be a possibility of some kind unity govt formed to ease the political turmoil and pick the best team from both sides to steer our country thru?

Just read the comment from sarang semut(sept19 10.35). Yes the races have to become friends first before we can talk of perpaduan.

Mesra, kawan and jiran are far more powerfull than hubungan antara kaum programs and policies.

Years ago Tun Mahathir has been warning the world about the rogue Wall Street traders who will cause global financial turmoil if left unregulated. As Tun used to say, they never create or generate economic activities except to make themselves richer through creative and innovative paper trading. Tun has been proven right. America and other western countries who believe in free market are doing what they have been strongly criticizing, BAILING out ailing financial institutions worth in the trillions.

Najib, the new Finance Minister should seek Tun Mahathir's advice on how to shield Malaysia from the global financial crisis. Tun may be in his 80's but his mind and thinking is very much ahead compared those so called financial experts in their 30's or fourties.

economy so that more ideas could be generated. Let's focus on safeguarding the economy and deterring threats.

In the mean time, also lets stop talking about politics, forget about Anwar and send the bugger to mental institution. I think he's really sick and suffers scizoprenia.

Dear Tun,

Your conventions defying ways of leading Malaysia out of economic crisis are simply brilliant.

So sad that the present government had not decide to appoint you as as a Senior Minister Post (i.e. Lee Kuan Yew of Singapore).

I do not mean to exaggerate your brilliance but your knowledge and wisdom should be utilized for the good of the nation.

If Pak Lah and Datuk Najib are reading this, please bring back Tun to come back as one of your Minister. Tun cannot ask you guys to take him in because he is on the outside right now.

In the amidst of Global Economic Turmoil, we must stay united and strong.

In the spririt of the month of Ramadhan, let us admit our mistakes and seek forgiveness from each other. Forgiveness does not meean mistakes should continue and repeated. There must be willingness to make things better from each of us.

Love. Peace. Empathy.

Wassalam.

Salam Tun,

Bottomline, Saya sokong Tun Dr.M dalam pentadbiran dan pengurusan negara tercinta Malaysia ini, Saya dibesarkan dalam zaman Tun dengan penuh keamanan, kesejahteraan dan kesederhanaan. Tun adalah yang terbaik dan bijak dan paling saya kagumi sebagai PM Malaysia...Harap Tun dapat cepat2 menyelamatkan Malaysia dari terus hancur. Bab ekonomi, Tun The Best!

Kalu Tun ada parti sendiri, pasti saya sokong parti Tun....memang sayang kan Umno tapi al maklumlah ia ni dah parah.....Tun selamatkanlah Umno dan Malaysia ini.

Hidup Tun!!!

Tun,

I always wonder why many are blinded by DSAI? Can't they see how selfish, self centered, greedy, impatient the man is!! Should just let him rot in prison!!

By zana on September 19, 2008 12:41 PM

assalamualaikum tun

semoga Tun cepat kembali ke UMNO dan dapat menyelamatkan parti ini.

Saya percaya ramai yang masih menyokong Tun.

2.Kepada Datuk seri Najib mintalah nasihat Tun bersama -sama pakar ekonomi yang lain untuk menyelamatkan ekonomi negara.

3.Kepada DSAI HENTIKAN TINDAKAN GILA ANDA kerana ia tidak membawa keuntungan kepada rakyat.Kebanyakan rakyat yang waras yang tidak termakan dengan lakonan 'D grade'anda.

4.Sesiapa yang masih terpesona dengan DSAI dan masih menyalahkan Tun,HENTIKAN.Kerana Tun lebih mengenali dan masak dengan DSAI daripada mereka yang baru kenal dari segi luaran dan terpesona dengan kata-katanya, tambahan DSAI tidak mempunyai 'track record' yang boleh dibanggakan semasa memegang jawatan menteri kewangan dulu.

5.Tun jangan perputus asa teruskan usaha murni Tun selagi ada kudrat yang dikurniakan Tuhan.

Terima kasih kerana mengingatkan kami tentang keadaan ekonomi sekarang.

Ini suatu realiti yang pahit terpaksa diharungi dengan bijak.

selamat berpuasa kepada Tun dankeluaraga.

Salam to all.

DSNTR will definitely do better than PM (his significant other will make sure that so she will get good rate sopping in ober c). I just hope that DSNTR is humble enough to take advise from real experts and from Tun himself. At same time, strong enough to execute tough actions. We had gone thru similar situation in 98. We should have good idea where to start. I strongly beleive we do have excellent people at Bank Negara/other local institutions. Whats needed just lot of will power and conviction to execute it. All the best DSNTR.

Good bless all of us.

To (whatever...) Art pillay,  
Potong steam la lu. People discussing about financial outlook, you still taksub with your so call "leader".

Tun,

Saya setuju dengan Tun. AAB cannot manage the economy and country. He should resign, the problem with him is.

1. Tidak mahu dengar pandangan rakyat. Mungkin orang sekeliling beliau JUST TO PLEASE HIM EVERYDAY AND HE NOT KNOW WHAT IS ACTUALLY GOING ON ATAU BUAT TAK TAHU SAJA.

2. What is the point you be PM and just want the position for what? Another hand, majority rakyat want you to step down.

3. Tun have to come in to picture in order to change this scenario, because he might be not listen to others.

4. One advise to AAB, you are in the dream because you not know what is rakyat wants? You only know to say " harga barang naik" DO YOU KNOW THE RAKYAT IS SUFFERING.

5. Harga minyak - Where is your promises, every 1st of the month will do review. What review you do, When minyak 2.70 what is USD perdrum, today is ?? USD perdrum. Please do something.

6. ABB cannot manage the country and economy and the fact is NOBODY WILL SUPPORT HIM. & the great things is, he make own assumption by saying economy still good and put the blame to DSAI is the reason of economy jatuh. See your self first.

7. The fact is RAKYAT MENDERITA - itu sebabnya masa merdeka, ask AAB tengok sendiri berapa kereta kibarkan bendera jalur gemilang yang kita sayangi.

Masa Tun dulu - sebut sahaja - semua orang beli dan sanggup keluarkan duit sendiri beli dan pasng kat kereta.

8. AAB - Please help the RAKYAT by you resign from the position and GIVE THE REST WITH CAPABLE TO CARE.

Tun must be in the picture and jadi penasihat in the goverment and UMNO. Please come back.

Please consider

Thanks Tun

Salam Tun Dr. M,

Terima kasih atas tulisan blog Tun. Sekarang saya dah sedar betapa kita akan mengalami kejatuhan ekonomi, tapi semasa Tun menjadi PM kita mampu menanganinya dgn cemerlang. Terima kasih Tun Dr. Mahathir, semoga Allah SWT memberi ganjaran pahala yg besar buat Tun. Tapi dalam situasi sekarang nampaknya DSAAB bukan sahaja tak mampu menangani masalah kemelut politik dalam negara tapi sudah cabut awal sebelum tsunami ekonomi pulak melanda. Sebagai ketua dia mestilah menjaga rakyat dan mengambil risiko demi rakyat. Kalau berjaya alhamdulillah dan kalau gagal kita terima sajalah, at least beliau cuba. Saya sebagai rakyat bawahan ni terasa sedikit terkilan kalaulah benar dia bagi tugas menjaga duit negara pada DSNTR kerana takut kemelesatan ekonomi. Tapi tiada salahnya beliau bagi kementerian kewangan pada DSNTR kalau alasannya DSNTR lebih pandai menguruskan kewangan, kerana memang kita patut bagi tanggungjawab kepada yang ahlinya.

Selamat maju jaya Tun dan saya doakan semoga Tun sentiasa sihat walafiat dan dapat lagi menyumbang kepada kemajuan negara Malaysia tercinta. Sesungguhnya Tun adalah negarawan terbilang yang patut dihormati sepanjang zaman.

Satu cara untuk membuang Dato Sri Najib dari jawatannya sekarang adalah dengan menjadikan beliau Menteri Kewangan bilamana financial turmoil di Amerika berlaku. Maka rakyatpun bermimpilah 2010 menjadi kenyataan.  
By Mob RulesAuthor Profile Page on September 19, 2008 12:52 PM

Dearest Tun,

What financial turmoil? As long BN is given the mandate to run this country, we are politically, financially and socially secured. So says the PM all the time (!??)

Inflation is nothing new to Malaysia. Besides, the Bursa shot back up 20 points today. To PM, this is a strong indication that Malaysia is independent from other equity markets. How naive, as usual.

The only thing they care about now is holding on to power and the UMNO elections. Nothing else matters. They will fight among themselves until the last one standing in UMNO.

Rakyat? What rakyat? What about them?

1. Your comments are indeed should to be read by all Malaysian. I do agree what you said.
2. We pray newly appointed finance minister Datuk Najib will able to handle current economic crisis which had been scratched by PM AAB.
3. Tun, PM AAB has removed your currency control previously, I acquire advise from you : IF WE REPEGGED OUR M'SIAN CURRENCY NOW, IS THAT ABLE TO LIGTHEN THE IMPACT OF CURRENT AMERICAN/US ECONOMIC TURMOIL???

Tun,

Dalam menghadapi cabaran ekonomi ini, kita perlukan beberapa perkara:

1. Kestabilan Politik

Mampukan kita mengakui bahawa kestabilan politik di Malaysia kini dalam keadaan terbaik? Dikalangan parti sendiri berantakan. Apatah lagi dengan parti adik beradik yang lain juga semakin dingin. Maka peluang bagi pihak yang menaguk di air yang keroh terbuka luas.

2. Asas ekonomi yang kukuh.

Sudah terlambat untuk mengukuhkan ekonomi pada waktu ini. Bak kata-kata yang masyur, senang sebelum susah sediakan payung sebelum hujan bukannya membuat payung semasa hujan.

3. Berani melawan arus, atau tidak lemas dibawa arus.

Sama ada kita ingin mengikut arus atau melawannya, pastikan kita tidak lemas akhirnya. Tun buktikan dahulu dikala tindakan Tun yang melawan arus, Tun berjaya untuk naik ke darat kembali. Tapi sekarang ..keyakinan untuk Pak Lah membawa kita ke darat tiada langsung.

Apapun TUN ,kembali kepada UMNO mungkin membantu TUN mendapat tempat ke atas. Namun saya juga menati tindakan disiplin yang bakal TUN hadapi dan terima nanti kerana UMNO tidak akan membenarkan TUN berkata-kata sebegini lagi.

SELAMAT BERJAYA...

Dear Tun,

The concurrence of global financial and economy crisis and our political turmoil will definitely bring our people into miserable living due to no or unstable income and stiff inflation rates! Anyway whatever happened the poor will get the impact first and not the rich and the superb level.

Our government should take up immediate steps to prevent this crisis becomes worst instead of everyone of them is still concentrating in the power struggle. We are confident that the poor and the lower group of all races are able to stay together harmoniously and peacefully in whatever condition but we don't want those superb politicians who might take this apportunity to play racial card again by provocating issues among races!

By anakkedah on September 19, 2008 1:07 PM

Salam YBhg Tun,

Selamat Berpuasa dan semoga setiap pekerjaan Tun diberkati Allah.

Mana pergi semua Menteri-Menteri kanan DSAAB yang lantang bersuara, mengkritik dan mengherdik TUN dan sesiapa yang mempertikai kewibawaan DSAAB. Mereka juga tidak layak menjadi menteri dan perlu meletakkan jawatan bersama-sama DSAAB.

Sepatutnya mereka ini menasihati DSAAB tentang kenaikan harga minyak. Tiada pun antara mereka yang meninjau kesusahan yang dihadapi rakyat hari ini.

Jika betul tindakan telah diambil kenapa harga barangan keperluan masih mahal sedangkan harga minyak mengalami penurunan.

Majoriti mereka adalah Menteri yang gagal dan tidak perlu berada dalam saf Jemaah Menteri MAIAYSIA!

The world economy is faltering and the aftermath will be felt by all the countries including Malaysia. Yet our politicians from both sides are at each others' throat trying to secure power and position. Call me a pessimist, but I don't see them doing so for the benefit of anyone other than themselves. To save Malaysia, there is only one hope. All the old guards with "excessive baggages" should leave to return hope and belief to the rakyat. The younger generation are much more capable in dealing with the current situation because they are well trained in economics and various critical sectors. The only weakness they have could be they are still greenhorns in nation building, but heck, what is there to lose judging by the current "competent" administrators we have.

By das on September 19, 2008 1:13 PM

Dearest Tun!

The current problems facing the world, AIA'S (or is it AIG), nevermind, has been started by the Americans. As you will appreciate, the financial institutions and if I may add the political, are controlled by the Jews, am I right? As I say this, please believe me I am not anti Jew, please give credit where it's due! In short, at their whims and fancy, at least at this point in time, they can change any "landscapes" including Malaysia's!!! Your advise, to God knows whom to dispose of their US currencies, is indeed unwise and worst still to have made it public!!! At least for the sake of the Malaysian people, keep your comments in check least they be used against your own people!!!

At least since the emergence of the Internet, we the general public, are exposed to news other than what is published in the mainstream media! In short, we read and hear news that shocking beyond our wildest dreams when it comes to politicians!

Please give these words some "food for thought"! Did it ever occur to you that the oil fields in the Middle East might just have a couple of Jews as stakeholders? It is high time we shred this image of catagorising people and treat them as one, the human race!!!! This is certainly the launching pad for the next positive step to better HUMAN relations!!!

Tun! For the man that you are, I have high regards for you as a human being but please don't throw it all away for a bunch of UMNO goons, who are, also least to say human beings themselves, living in another planet!!!

SALAM TUN

TERIMA KASIH ATAS PENJELASAN TUN. NAMPAKNYA PM KITA BUKAN SEBODOH YANG UMUM PIKIR.

By John S on September 19, 2008 1:25 PM

"Akta Hubungan Kaum" yang dibangkitkan oleh Hamid 51 tahun selepas Malaysia mencapai kemerdekaan dilihat sebagai suatu akta alternatif untuk melaksanakan kezaliman ISA. Dan seterusnya, mengukuhkan kedudukan Ahli politik UMNO yang makin lemah di masyarakat majmuk ini.

Apakah Akta Hukuman kaum (AHK) ini relevan di Malaysia? Saya berpendapat bahawa AHK tidak akan memperbaiki hubungan kaum tetapi akan disalahgunakan oleh pihak berkuasa untuk menzalimi Ahli politik pembangkang. Hubungan Kaum akan menjadi semakin tegang, bergurau tak boleh, takut kena AHK. Sikit-sikit AHK.

Tun, kejatuhan UMNO bukanlah salah Tun. Kejatuhan UMNO disebabkan keangguhan sebahagian ahli UMNO yang berpegang kuasa dan menyalahgunakan kuasa. Kejatuhan UMNO bukanlah Hari Kiamat,

LIFE still goes on.

Tun, saya kesian dengan situasi Muhyuddin yang berani buta. Tapi, sekali lagi, pelucutan atau demotion bukanlah hari kiamat, Life still goes on.

How are you? I've always admired your thoughts and views about life.

I was just wondering whether you could answer my question here. Say we're hit by an economy crisis again, how would the property market be affected? Do u think it's ok to buy a residential property now?

Hope to hear from u soon. Have a nice day Tun!

Dr M,

The move of Najib as the Finance Minister may be a trick by Abdullah as should there be trouble then he won't be blame.

As for his Islam Hadari what is the main point of having it when our youth are getting more worst, kalau Islam Hadari tu ada mengajak semua pemuda pemudi kita ke Mesjid & jalankan pelbagai aktiviti yg munasabah tak pe lah ni dok rempit sana sini, time org semua sembayang terawih. Makin ada KHIDMAT NEGARA makin hancur youth kita

By haaziq on September 19, 2008 1:36 PM

Dearest respected tun,

Allah has given you the gift of clarity and vision. A man with your gift will be an asset to the country. It is obvious that you cannot see eye to eye with the current Prime Minister. Nevertheless as a person who cares for this country, I think that the time has come for you to once again contribute your ideas to the current administration. I do understand that many may not share this view of mine but you have a proven record of saving this country from the 1997 financial crisis. The white man has always had this syndrome known as the "white man's burden". He tends to judge others by his standards. Today we see them going against their very own principles by injecting funds into a failed entity. If you have done it, then it is cronyism and an attempt to save your kids. They seem to forget the saying that "what is good for the goose, must be good for the gander". This is what precisely the Americans are. They live on an economy that in theory does not exist. They create funds that do not exist. Now that Najib has been given the finance portfolio and since he has tremendous respect for you, I do not foresee your advice finding the waste paper basket. He is taking a portfolio that is undergoing tremendous pressure. Any help and advice from a statesman like you would be welcome. At least that is my belief. Like I had mentioned once before, I totally agree with your views that the average man on the street is more concerned about the food that he places on the table. It all revolves on his bread and butter. He would have very little time to think of the rule of law and human rights which to him is purely an academical exercise. His first priority is his daily life. To be fair to the current P.M, the delivery system has tremendously improved. Departments like the Immigration, Courts, Income Tax, JPJ, National Registration department, are a testimony to this. To find fault is an easy task. It is my fervent hope that bygones remain bygones and a concerted effort is put in to once again save this beloved country we call home from any threats, financial or otherwise. Your contribution to such an exercise would be all important.

Wasallam and selamat berpuasa.

IN THIS PARTICULAR TIME, WE SHOULD NOT PEG THE CURRENCY TO USD AT ALL. THIS TIME USD GOING DOWN. LAST TIME SOROS WAS MAKING MONEY WHILE USD APPRCIATED.

WE SHOULD START THINKING OF BUYING A LOT OF USA PROPERTY, THEY ARE GOING CHEAPER. IMPORTING IS GOOD TIME NOW.

EXPORT TO USA SHOULD BE JUST MAINTAINED OR EVEN DECREASED. DOES NOT MAKE MONEY GOOD LIKE OLD DAYS.

REMAIN ISOLATED FROM THE US ECONOMY IS BETTER BE AT THE BACK OF OUR MINDS, IN WHATEVER MALAYSIA IS DOING.

PLEASE JUST DONT PEG WITH DOOMED US DOLLARS. TUN PEGGED USD THAT TIME TO AVOID MYR IN THE BLACK HOLE. THANK YOU FOR THAT NAJIB.

By Syed Akbar Ali on September 19, 2008 1:45 PM

Dear Tun Dr Mahathir,

The collapse of AIG, Lehman Brothers and recently Fannie Mae and Freddie Mac (the US 'national' mortgage corporations) is Stage 2 of the financial collapse that is occurring in the US after the sub-prime lending fiasco burst open.

The way I see it the problem is too much securitisation of financial assets. In brief too much speculation. US banks made speculative consumer loans (in this case housing loans). This was Stage 1. The rot could have been checked there.

But the banks then 'securitised' and sold their poor quality Housing Loans to other banks and financial players. Stage 2. Many of these secondary buyers themselves borrowed money from others (Stage 3) to purchase these poor quality housing loans from Stage 1 banks.

When these housing loans started going bad at Stage 1, everyone along the line got hit.

I think the collapse of AIG (an insurance company) is in Stage 2. I doubt if AIG has been bailed out 100%. Other than AIG's shareholders, its creditors (Stage 3 banks) will also bear some losses. So the American crisis is not over yet.

Where is the US Govt going to get USD500 Bil for all these bailouts? I think they have to borrow from the same Wall Street bankers. And I think they may have to pledge some of the gold bullion they keep at Fort Knox as collateral for these loans.

Two days ago the price of gold spiked by 11.6% to USD870 per ounce. This was the largest one day jump in the price of gold in a long time. I think the US Govt's USD500 Bil bailout of their banks has something to do with this gold price hike.

Our currency is also weakening because this year's Budget includes a Govt deficit in excess of RM50.0

Bil. Where is the Govt going to get this RM50.0 Billion? The oil price has also decreased to around USD80-90 per barrel, down from its high of USD147 per barrel. Govt revenue from Petronas will also be impacted. If the Govt seeks to borrow from the EPF and so forth it will impact on our liquidity, interest rates and so on.

By the way, since the world price of oil has come down, how come our pump prices have not responded accordingly?

I have also heard that some of the 'unmaterialised' investments or projects could be due to 'hot money' flows. People move 'hot money' from overseas to here, then move it out again quickly as legitimate funds transfer. This could be part of the reason why some 'huge' investments do not really materialise. Perhaps Bank Negara may know more about this.

Syed Akbar Ali.

biar ringgit dlm keadaan yg rendah...sbb dlm 10thn akan datang minyak akan mencecah

\$200pertong....rasanya banyak negara tak selamat dan stabil....secara perlahan2 negara dijajah oleh kuasa besar utk kelangsungan ekonomi mereka....

biar la ringgit terus rendah....

lagipun minyak dijual dlm dollar...

kalau ringgit terus mengukuh lepas kerajaan lepas ringgit luar pesisir(offshores).....

kita dapat beli minyak dgn harga yg sama walaupun minyak naik ke \$200pertong....sekitar RM3seliter sampai 2020....

kita dah 'KEBAL' dari kenaikan harga minyak....

dah ekonomi kita 'terselamat'.....

biar lah kita susah sekarang dari susah kemudian hari....

harap kita semua bersabar.....

4 tahun lebih kepimpinan Abdullah Ahmad Badawi:

Senarionya begini:

BN hilang majoriti 2/3

BN hilang 5 Negeri dan sebuah Wilayah (Wilayah Persekutuan)

Pertama kali dalam sejarah , Ketua-ketua BN GAGAL dalam PILIHANRAYA.

Senario EKONOMI:

Hutang negara semasa berjumlah RM 285 billion dari hanya RM 192 billion pada 2004

Inflasi 8.5 % tertinggi sejak 27 tahun

Kadar pengangguran meningkat

Bajet defisit terbesar dalam sejarah negara sebanyak RM 200 billion

Apa lagi yang menghalang Pak Lah berundur?

Undur LAH ...sesungguhnya 4-5 tahun kepimpinan anda seluruh sistem ekonomi dan struktur politik Malaysia terutamanya BN sudah kamu hancurkan.

I say man,

Ilmu apa yang you kata Pak Lah tak bersalah dalam hal ekonomi Malaysia sekarang dan Tun pulak yang patut dipersalahkan. Pak Lah sekarang PM, jadi sewajarnya dia buat kerja dia sebagai PM. Bukan tidur dan bagi komen yang entah apa apa. Saya sarankan I say Man ini cuba buka mata luas luas... siapa yang nak Pak Lah lagi sebagai Perdana Menteri. Dahlah sekarang pun hayat politik dia nyawa nyawa ikan. Saya juga sarankan I say Man cuba faham konsep belanja dan bagaimana pergerakan wang dapat menghidupkan sesebuah ekonomi. Jangan nak menunjuk pandai di sini dan memperkatakan tentang Tun yang telah membangunkan negara di samping cuba memberikan hujah serta fakta yang dangkal. Cuba baca komen komen di sini supaya saudara faham kenapa Pak Lah memang patut dipersalahkan tentang apa yang telah berlaku di Malaysia. Saudara mengatakan bahawa rasuah terlampau besar di zaman Tun. Ha.. saudara buat lawak ya . Cuba bandingkan di zaman Pak Lah. Kenapa tiba tiba saja kaum keluarga Pak Lah begitu kaya raya sekarang walau baru 5 tahun memerintah. Kenapa Khairi dikenali sebagai Khairi 10%. Jangan terlalu mudah di'spin' oleh Khairi dan Kalimullah.

Sekian

Dear TUN,

saya dulu study economic & finance, to ME sometime statistic bukan boleh pakai pon... especially economic, semua kena pakai common-sense, sebab if to define economic, economic = a study of human behaviour (science of making choices). banyak buku kat MPH about the use of economic in everyday life like FREAKONOMIC, the undercover economist (buku nie ade talk about affirmative action in competitive + efficient market.. siap ade sebut nobel prize winner for a affirmative action theory lagie) + economic naturalist...all are my favorite economics books && the Cheapest i can afford laaa.. =)). since im very badly effected by "minyak naik".. so less consumption for "luxury goods".. && more to "basic"

expenditure...

and on finance can read "... finding the next starbucks..." very good & CHEAP...

Well, all the books, suggest on using common sense to explain complicated economic & finance theory.. kesimpulannya tak kirala penoreh getah ke, penarik beca ke .. or even a finance minister can Master Economic...NO EXCUSE!!!!

Assalamualaikum

Saya berpendapat tindakan Pak Lah swap portfolio ini terang-terangan menunjukkan Pak Lah lemah dan tidak mampu mengurus ekonomi. Sekiranya Tun membantu menasihatkan Dato' Seri Najib mengurus MOF(Ministry of Finance) maka saya yakin najib mampu mengatasi masalah itu. (Itupun bergantung kepada tahap keseriusan kewangan negara) kalo kewangan dah kontang..tak dapat dibayangkan..

Saya berpendapat semua rakyat Malaysia perlu menghentikan perbalahan politik. Pemimpin-pemimpin kerajaan dan pembangkang sepatutnya perlu sama-sama berganding bahu menaikkan ekonomi jika mereka benar-benar ingin membantu rakyat jelata. Ini kerana mereka yang berbalah tetapi rakyat terbanyak yang menjadi mangsa. Perbalahan dalaman UMNO yang meruncing juga menyumbang ke arah ini.

Sepatutnya politik itu dapat memperjuangkan rakyat, bukan kepentingan mereka semata-mata.

Akhir kata Selamat Berpuasa dan berbuka kepada TUN dan keluarga serta Selamat Hari Raya Maaf Zahir Batin..

Maafkanlah saya kerana selalu mengutuk Tun suatu masa dulu...

Tun, coincidently my prefession is mixing with every level of society daily. So I can listen to their grievances, confusion doubtiness about our economy situation and pressure they feel to survive due to the rocketing goodstuff prices. This is a real problems at the grass roots. Eventhough our new finace minister has good track record in managing various agencies now and in the past, but I as a layman hoped Najib would not hesitate to seek your advise on how to handle this problem. As Malaysian I am very proud to have a brilliant leader like you that succeeded in saving Malaysia from the financial and economy crisis in 1997 together with Tan Sri No Mohamed Yakcop.

Dear Tun,

This is the effect of "cronism" or in better word, government funded subsidy/protection to favoured contractors to do the jobs. Perhaps AAB saw what Tun did during Tun era and decide to follow the same? Look at Masjid Kristal, and billions wasted to organise boat race Cup? These money are not spend wisely and "transparently" by the government to award contracts. And what is the criteria for selection?? Is it must be bumi, and even is bumi, is political interest within and is merit based? Can they do the job, with cheaper and cost efficient, without wasting large amount in corruption going thru so many hands? Tun, many others also afraid of Najib and is he capable or is he tainted politically also. Remember Anwar accused him of 500 million submarine deal and also his close advisor Razak in the Mongolian C4 case. We must be wary of Najib also, though he is the very "quiet" type maybe bidding his time.....and from history he also play racial politics. Tun, can you suggest WHO ELSE, possible to guide our Malaysia forwards? Who is the professional Malays who is capable and foresight to watch our country progress and not mirred in corruption, racial, and really to SERVE the people and not for personal glory??? Please Tun, suggest and recommend.

Assalamualaikum dan salam sejahtera..

sudah tiba masanya kita menggunakan dinar emas seperti yang diperkatakan Tun suatu masa dahulu bagi menggantikan penggunaan matawang dollar yang kini sudah di ambang kejatuhan.

Negara kita akan turut menjadi mangsa ekor dari kejatuhan ini dan lebih malang lagi rakyat yang berpendapatan rendah akan menjadi mangsa dan lebih menderita dari kesan inflasi yang teruk.

Dear Tun,

Abdullah is one smart fellow and also a cunning one. Now that US is going through a crisis, no doubt Malaysia will be affected sooner or later. How serious it is, we have no idea. As a PM he should work on strenghtening the economy. Instead, he's playing around with every Malaysian's future. Changing of portfolios with Najib midstream amid the uncertainty of the country's economy, is like pushing all the responsibilities to Najib. What if indeed another economic crisis hit Malaysia? Najib will become a scapegoat as he is the Finance Minister. It shows that Abdullah is an incapable PM. I don't think the present government has the ability to turn things around like what Tun has done in 1997. Day by day, Abdullah is losing his credibilities. Whatever he says nothing pleases us Rakyat anymore. Flip flopping is what he does best!

SALAM AYAHANDA RAKYAT TUN,  
IZINKAN,

PS

5. Whatever, the USD will continue to fall.

6. Malaysia would be wise to get rid of dollar holdings. This goes for Bank Negara too. It must have lost quite a bit because of the depreciation of the USD.

PARDON US, AYAHANDA,  
SINCE THE AAB HAD INCREASED OUR 'RESERVES' FROM THE FUEL PRICE HIKES AND OTHER SO-CALLED 'SAVINGS' PRACTICES , PERHAPS WE SHUD 'BUY' USD AT ITS LOWEST AND KEEP TO 'SELL' FOR THE FUTURE WHEN USD STRENGTHENED.  
'HEDGINGS'.. PERHAPS?

To borrow Ayahanda quote with some slight amendments.

4. I am not a financial expert but I see opportunities in the troubles coming our way.

Sorry, Ayahanda Tun 'TAK MARAH' kan?

LOVE AYAHANDA DAN BONDA TUN, ALWAYS.

AL FATIHAH, AMIN

Salam Tun,

Memang agak malang bagi BN di Sabah kehilangan sebuah parti yang berjiwa rakyat seperti SAPP. Sehingga hari ini DSAAB masih tidak mahu mengaku kelemahannya dan tidak sanggup menrendahkan keangkuhannya berpunca dari PR11.

Saya percaya dia ada baca semua kandungan & butiran surat dari SAPP tetapi penasihat dari tingkat 4 dan penasihat kaki bodek terlalu ramai.

Terima kasih atas posting Tun!

Assalamualaikum Ybhg Tun dan famili selamat menjalani ibadah puasa.

1. Penulisan Ybhg Tun umpama kayu pemimpin orkestra, jika kayu diangkat tinggi dan menuding kearah trompet, maka pemain trompet akan bangun dan meniupkan trompet mereka dan jika ditunjukkan kepada penggesek biola, maka pemain biola akan bangun menggesekkan biola mereka begitulah seterusnya perbagai bunyi dialun sehingga menjadi sebuah melodi mengikut citarasa Ybhg Tun.

2. Malangnya muzik/lagu tadi cuma dapat didengar oleh pendengar (pembaca blogger)di dalam dewan sahaja malahan pemain muzik tadi juga cuma bangun dan duduk sahaja, mereka tak bergerak pun di tempat mereka. Termasuk juga pemimpin orkestra (Ybhg Tun) masih berdiri di depan dan menerima tepukan oleh hadirin yg ada dlm dewan setiap kali habis lagu (artikel) dimainkan (dibaca).

3. Berita jam 8pm, pbrita tanya kpd menteri berkaitan mengenai kemasukan semula Ybhg Tun ke dalam UMNO, dia kata 'Kami tak boleh nak buat apa sebab tak terima borang lagi'.

4. Ybhg Tun rancak memimpin orkestra memainkan lagu perjuangan dan kesedaran tapi malangnya semua mcm 'syok sendiri' sahaja.

5. Saya pun mcm pembaca yg lain juga, mengharapkan Ybhg Tun dapat berbuat sesuatu yg mampu dilihat sebagai pemulihan/rawatan kepada sakit yg sedang dialami oleh negara kita sekarang (politik &

ekonomi).

6. Saya berpendapat 90% drp 6 juta pembaca blog ini mereka menyokong Ybhg Tun dan ingin lihat Ybhg Tun bertindak menyelamatkan keadaan.

7. Saya tersilap, ingatkan Ybhg Tun sudah 'checkmate' DSAAB, tetapi rupa-rupanya DSAI pula guna 'kuda' nak buat 'checkmate'.

Please for the sake of our future generation do something give them a concrete advice and The Sleeping Prime Minister you have tried but you cannot make it give up lah. Further more you got what you wanted.You have gone for Honeymoon the so called business trip. Tak puas lagi ke.

In Japan if you cannot make it they resign some even commit suicide. Of course you don't do that, you orang Islam. Just resign and say a sincere sorry to the nation.

Because of this man we are going to suffer. soon we will be like Indonesia. Ingat lah sikit don't be selfish, give up pleaseeee.

Salam perjuangan buat Tun.

Puasa dah nak sampai ke hujung. Dalam masa seminggu lebih saja lagi kita dah nak raya. Kalau dalam erti kata sebenar ibadah yang kita dah buat tu maknanya kita akan meraikan kejayaan.

Kejayaan selepas kita berjaya menahan diri dari seribu satu macam godaan yang datang dari nafsu serakah sendiri. Sebabnya dalam bulan ramadhan ni kalau nak salahkan setan tak boleh, sebab semuanya dah kena ikat.

So, kalau diri sendiri dah tak dapat menahan diri maknanya tergolonglah orang tu dalam geng-geng setan ni cuma tinggal lagi tak diikat je. Mintak maafah kalau terkasar bahasa sebab zaman sekarang ni cakap elok-elok, sopan santun dah tak laku.

Terlalu banyak orang yang tak berketrampilan, tamak haloba, hasad dengki, takbur, riak dan paling teruk gila kuasa, di kurnia kan kuasa. Pelik tapi benar. Ini mungkin suratan ataupun dugaan dari Allah s.w.t terhadap hambanya.

Yang dah dikurniakan kuasa tapi tidak berkemampuan melaksanakannya patutlah memberi peluang kepada yang lain untuk meneruskannya. Jangan jadi hamba kepada kuasa. Walau sekelumit kuasa tu nak juga. Yang dok paling atas akan buat apa saja untuk tak duduk di bawah, boleh tukar-tukar portfolio ikut suka mak dia. Yang letak jawatan pulak letak setengah-setengah je, jawatan senator nak pegang gak lagi, amende la diaorang ni.

'Apabila sesuatu perkara itu diuruskan oleh orang yang bukan dalam bidangnya, maka tunggulah saat kejatuhannya ...' Mengaku je la kalau kita tak boleh buat kerja tu, serahkan je lah tugas tu pada yang mampu. Kuasa ni puaka ... Nak lawan hantu kena la berani, kalau tidak nanti masuk hantu la pulak!!

Tepuk dada tanya selera.

Salam

Salam Ayahanda Tun, I think its true; the transition would happen much sooner than declared. As you can evidently gauge, phase one has kicked in already. Tan Sri Nor Mohamad has always been the Finance Minister; Datuk Seri Najib going there is just to signal investors and power brokers that phase one has been initiated. Still, I really do hope that Tun would consider posting up more on economic topics from now on, as most information's that we are getting from the government are just as blurred as they are.

By FAUDZI on September 19, 2008 3:52 PM

Akum TUN

Pak lah bertahan dengan 'swapping' dengan najib adalah cuma untuk meredakan keadaan sahaja. Matlamat beliau sekarang adalah untuk pastikan menantu (KJ) dia menang KP Pemuda UMNO.

Kalau menantu dah menang barulah mungkin dia akan letak jawatan cepat. (Kalau tak percaya kita tunggu dan lihat, setiap strategi AAB senang dibaca) kalau tidak, AAB akan bertahan macam "honeymoon" sehingga june 2010. AAB adalah beban kepada UMNO dan negara. (Beliau ibarat pohon dedalu yg makan tempat beliau menumpang).

Dear Tun,

I guess the whole world is facing kind of economy crisis due mainly due to US turmoil and uncertainty of oil price. The main different between Malaysia and others are we have one more uncertainty due to our political power struggle within government itself and opposition.

Sad to said that all of Malaysian can clearly see that all leaders (BN + PR) are not contributing much on economy and only concentrate on political issue for survival. With this, how can our nation economy can be better than our neighbors with such situation?

I guess one must be down in order to allow concentration back to economy. Question is which ship will down first? I guess all of you already made your own choice but the outcome in future may not be the one you prefer ;-) good luck!!!

Assalamualaikum AYahanda Tun,

Semoga Ayahanda Tun sihat walafiat dan anakanda berdoa supaya Ayahanda Tun beroleh kejayaan dalam merencana kehidupan seharian.

Anakanda teringat perihal matawang dan kewangan asia yang ayahanda bentangkan dahulu. Anahanda berpendapat kita patut buka semula konsep Dinar Emas 'Gold Dinar' itu semula. Kita akan berada ditahap kedudukan ekonomi yang mantap dan stabil sekiranya negara asean bersepakat melaksanakan sistem matawang tersebut. Ini disebabkan pasaran matawang emas akan berada lebih kukuh berbanding dengan matawang kertas. Lihatlah bagaiman keadaan matawang Eropah sekarang yang semakin kukuh dan bernilai berbanding dolar Amerika. Hakikatnya,kita perlu merujuk kepada sejarah Islam dan berbalik semula dengan sistam kewangan serta perundangan islam yang telah terbukti cemerlang sejak zaman khulafa Rashidin lagi. Di samping itu juga, kekuatan kebanyakan negara asean masih memiliki banyak simpanan emas mentah di dalam perut bumi mereka.

Anakanda yakin konsep ini akan menguntungkan kerajaan Malaysia dan negara-negara asean yang lain. Matawang Dinar wajar dipertengahan oleh Kerajaan Persekutuan Malaysia di rantau ini sejajar dengan perlaksanaan konsep Wawasan 2020 di seluruh negara asean seperti mana yang ayahanda sarankan dahulu.. Juga, Malaysia telah menjadi teladan di seluruh dunia sebagaimana kita menandangani krisis kewangan dahulu.

Anakanda berdoa semoga hasrat murni ini membuahkan hasil dan memberi menafaat kepada semua penduduk dunia. Amin

Salam Tun & rakan semua,

I don't see any reasons why both Badawi & Najib swapped their portfolios. Conversely I just can perceive that it's done ONLY for PM's political survival. This can't be a part of power transition...if the power transition applied means he should relinquish gradually all portfolios that he hold since become as PM...would be the best method is TO STEP DOWN NOW before Umno will be turned to "HARI INI DALAM SEJARAH" and BN will lose in PRU13...

Hope Tun would be a troubleshooter to heal any wound in Umno...Wassalam

Thank you Sherry for quoting me! I put forward a simple similitude to the Malaysian government: Dalam Islam berniaga cara Yahudi dengan ribanya haram. Yahudi create money when there is actually no "physical" money, creating a very dangerous game of multiple collapse (the bubble burst) if everything goes wrong.

The similitude is : why is the M'sian govt following the Yahudi way of doing business and the Yahudi banking system which is the dominant system in Malaysia now. If we are affected by the collapse of the US system, then our Govt should be blamed also for adapting their system in our economy and not the Islamic way of doing business which is 100% safe and just waiting to be deployed.

Dear YABhg Tun Mahathir,

You have set such a good example for all of us rakyat to follow. Despite your busy schedule you always made time to read and it shows through your leadership. You are wise, brought on not just by experience but because you read. Can't say the same about Mr Flip Flop ak Pak Lah. He is just not "informed" to make good judgement and decisions. I'm sure you had plenty of advisors during your time as Prime Minister but you knew when to heed them and when you not to. Your track record has proven that you saved us from the financial crisis in 1998 and the main reason was because you were informed through your extensive reading. You even went against the established school of thoughts. You epitomise the first class mentality and the modal insan.

Perhaps it is about time you were appointed special advisor to the government. We are in a mess and you will have to bail us out again. No one can do it except for you. To those politicians out there time to get real and get this country on its feet again. Stop thinking of yourselves and sincerely without disrespect, Pak Lah this is addressed to you. Time to realise that someone else can do the job better and please have to humility to admit it. If you want to gauge how we rakyat are feeling just read the blogs...

With Tun's wisdom and with the grace of God Malaysia akan berjaya.

By afraid! on September 19, 2008 4:28 PM

Dear Tun,

Just like everyone here I was never concerned nor worried about the coutry before when you were the PM as I knew that the rakyat were in good hands. But now I'm constantly worried about the decisions and the policies made by the government as they seem to always make matters worst and never better.

I feel so sad reading your article as I am very sure that the current government will not be able to handle the situation and as a result the RAKYAT are the ones who going to suffer. I really hope and pray that the government will open their eyes and their ears BIG to be aware with what's happening to the Country. Hopefully, they read your BLOG religiously to learn something here to SAVE ALL OF US.

Thank you for everything you have done for the country TUN but we still need you.

Assalamualaikum..Tun

Sudah 19 hari kita berpuasa...

Harap tidak terlambat untuk mengucapkan selamat menjalani ibadah puasa....

Saya suka pada artikel ini...

Saya rasa Pak Lah seperti tidak tahu atau buat2 tak tau yang sesuatu berlaku kepada kewangan

dunia...Setelah peralihan kuasa berlaku semalam, saya dapat membuat andaian bahawa Pak Lah tak dapat nak handle masalah kewangan negara, sebab tu dia cepat2 bagi kat Pak Najib jawatan Menteri Kewangan...So sekarang, Pak Najib la kena pikiaq masalah kewangan...Kesian jugak kat dia...

Pak Lah pulak amik alih Pertahanan negara...Agaknya dia takut rampasan kuasa oleh tentera dan jatuhkan dia. Kalau jadi Menteri Pertahanan, apa2 tindakan tentera, dia tau dulu...Sebab tu dia amik alih kuasa siap2, so dia akan mempunyai kuasa penuh atas tentera dan dalam masa yang sama, dapat sokongan tentera...Pas2 kalau ada kekacauan berlaku (sebab dia ketegaq takmo letak jawatan), dia dapat pertahankan diri dan keluarga siap-siap...Pandai...Pandai...

Kepada menteri kabinet semua, bersatulah dan buat keputusan yang bijak...Kita tak mau pemimpin yang penting diri...

Berkenaan kejatuhan mata wang Amerika, memang benar negara2 Asia perlu bertindak sekarang, dan mengambil langkah bijak menjana ekonomi negara masing2 termasuk Malaysia....

Saya nak tau apa langkah yang Pak Lah buat untuk Malaysia berkenaan isu ini...Saya amat yakin kalau di bawah kepimpinan Tun dulu, Tun pasti sudah melaksanakan pelbagai langkah bijak bagi mengatasi kemerosotan ekonomi sekarang dan memastikan ekonomi Malaysia tidak terjejas dengan teruk sekali...

Semasa kepimpinan Tun dulu, saya tak perlu terlalu risau seperti sekarang kerana saya tahu Tun pasti tahu apa yang perlu dilakukan untuk Malaysia. Seperti kejayaan Tun mengatasi kemelesetan ekonomi dunia 1997...Saya kagum...

Saya amat risau dengan situasi ekonomi sekarang...Pak Lah dengan hal tekanan 'Letak Jawatannya' dan 'Peralihan Kuasa'..Bila lagi Pak Lah nak pikir masalah ekonomi Malaysia..Entahlah... Jangan pula hanya pikir 'ekonomi keluarga sendiri' sehingga mengabaikan kepentingan negara...

Tun...Tolonglah negara Malaysia...Tun boleh jadi penasihat sulit Pak najib...Sebab dia dah pegang kewangan negara sekarang...Tak perlu siapa tahu di mana Pak Najib dapat buah fikiran yang bernas...Asal Tun menjadi tulang belakang kejayaan ekonomi Malaysia di masa akan datang...

Terima kasih sebab siarkan komen saya yang tak seberapa ini...K Bye...

TUN,  
Kami masih ingat bagaimana Tun berusaha keras menyelamatkan ekonomi Malaysia pada tahun 1977. Masih jelas bagaimana TPM ketika itu (yang hari ini nampak sudah tidak siuman lansung) membangkang tindakan TUN.  
Akhirnya tindakan TUN diakui benar oleh IMF dan dunia. Malaysia selamat dari kebangkrapan. Orang orang melayu yang semakin miskin dalam negaranya sendiri pada hari ini, masih berharap agar TUN dapat memberi nasihat dan panduan untuk menyelamatkan ekonomi negara dan mengelak sesuatu yang lebih buruk dari 1997 berlaku. TUN, walaupun Kerajaan AAB melayan TUN seperti sampah, yang benar dan tulen tetap terserlah. Rakyat tetap menghargai dan menyanjung tinggi.

Assalamualaikum TDM,

Terima kasih di atas keterangan yang diberi berkenaan situasi ekonomi negara kita. Ia merupakan 'pembuka mata' bagi semua yang inginkan kesejahteraan untuk rakyat jelata. Apa yang berlaku baru2 ini dan juga sekarang bukan saja menunjukkan kepada semua bahawa arena politik yang menerajui negara ini tidak prihatin dengan keluhan rakyat. Atau sengaja tidak mahu bersikap matang tentang semua permasalahan yang sedang kita hadapi sekarang. Ini bukan masanya untuk menuding jari kepada sesiapa tapi sepatutnya setiap orang yang dipertanggungjawabkan oleh rakyat, menggembeling tenaga untuk mencari jalan penyelesaian. Ini bukan masanya lagi untuk mencari kesalahan masing-masing atau memikirkan perkara yang remeh yang hanya akan merugikan dan menghancurkan ekonomi negara dan perpaduan rakyat. Ayuh bangunlah dan hentikan semua politik kotor yang sedang melanda negara kita...yang hanya menguntungkan segolongan manusia yang tamak dan rakus. Kita perlu progress dan menjadi contoh yang baik kepada generasi akan datang. Bagaimana kita sanggup laungkan MERDEKA yang ke 51 sedangkan minda dan attitude masih lagi sama seperti zaman dulukala. Jika kita asyik bertelingkah, apakah kita boleh harapkan generasi muda/akan datang akan lebih baik daripada kita, sedangkan teladan yang ada sekarang ini adalah amat memalukan! Oleh itu saya/kami berharap Kerajaan maupun sesiapa saja yang berkemampuan untuk membuat perubahan agar maju dan mulakan sebelum terlewat. Hentikanlah fitnah memfitnah. Hentikan sifat memperkayakan poket masing-masing kerana masih ada orang yang amat dhaif kehidupan mereka walaupun telah 51 tahun merdeka. Oleh itu sebagai bekas PM yang amat berpengalaman tentang selokbelok pemerintahan maupun bidang-bidang lain atau sesiapa saja yang berkemampuan mara ke hadapan, membantu menyelamatkan negara kita sebelum terlambat....hentikan semua gejala2 yang tidak sihat, hentikan kemelut politik yang melanda dan selamatkan ekonomi kita.....untuk kepentingan bersama dengan adilnya. Lakukanlah sebelum kemurkaan Allah diturunkan kepada kita semua.

Selamat berbuka puasa...maaf zahir batin saya pohonkan kepada TDM dan isteri semoga sihat dan dirahmati Allah selalu.

By Kitty on September 19, 2008 4:45 PM

Dear Dr M,

I must agree with you here. This has been in my mind for the last few months. The west always practise double standard when it comes to dealing others. I remember when you were helping failing companies in Malaysia and also imposing currency control, the messages from the west always condemn you for doing that but after the economy is back on track. They start admitting that you are doing the right thing to stop the economy from going down. Now, they are bailing out their own companies but no western country especially from the world bank, etc will criticise US for doing that. Even if they criticise, it will only be a small paragraph that is not mention anywhere.

Also, many Malaysian wants Anwar to be Prime Minister without thinking. Anwar openly saying he wanted to open up Malaysian economy. What this means is allowing foreign fund to buy more Malaysian company which would ultimately means job lost for more people as these foreign fund is only interested in making maximum profit with minimum investment. Even US does not allows foreign fund to buy strategic business in US. Why should we do that? Good luck to Malaysia if Anwar becomes PM.

YAB Tun,

Assalamualaikum and selamat mengerjakan ibadah puasa.

'CERTAINLY, A MAN LIKE DR MAHATHIR IS NOT BORN EVERYDAY'. That statement by gee, posted Sept 19, 2008, 1158 am says it all! Tun Dr Mahathir is not just a great man, he is a super special leader whom ALLAH SAW created for mankind.

For gee, thank you for reproducing that article on YAB Tun that was written on 23 Oct 2003 by the present 2nd Finance Minister.

When I read that article, emotion got the better of me. My admiration towards this great man became more and more.

This article should be in the mainstream media for the rakyat to know who Tun Dr Mahathir really is.

We have a genius in the form of our former PM. He has been hinting and pressing the present government to make use of his experience, knowledge and vision on how to administer the country. But alas, it seems that his views were either being brushed aside or he is perceived to be meddling with the running of the administration. We could see and feel how frustrated he is, watching the foundation he built when he was in office, is about to crumble right in front of his very own eyes.

Pleaselah, listen to this great person, whom I am sure could use his experience and wisdom to help Malaysia prepare for the oncoming economic tsunami.

P.S. Tan Sri Nor Mohd Yakcop, thank you for such a great article on a great leader. Hopefully Tan Sri has learnt from the great Tun. Tan Sri should know Tun better judging from the article that Tan Sri wrote and may be whisper to the present administrators how great Tun Dr Mahathir really is!.

Dear Tun

After reading this posting, I can't help but ponder on the current affairs of Mayban. The buying of BII seems ???

Well, I see that this particular CEO is fond of buying and selling companies instead of focusing on the its core business. Similarly while at TM, not much enhancement of product quality offered to subscribers instead he is busy doing just that.

By the way Tun, when you privatised Telekom what was the actual reason. I see that the utilities companies tends to improve its profitability by raising price e.g. Telekom, PLUS.....

By Mielman Merican on September 19, 2008 4:57 PM

Salam Tun,

The irony of it all...you have just hit the proverbial nail on bailouts and how the prescription that was practically forced down our throats by Uncle Sam during your reign is not suddenly not good enough for the failing US financial institutions. I must also share with all the reader here one interesting website <http://www.larouchepac.com> who, is written, predicted the financial collapse in the US quite a few years ago as well as the necessary steps to avoid the meltdown. Now he is saying "i told you so but no one was listening". Lyndon LaRouche will deliver an international webcast from Washington, D.C. on October 1, 2008, beginning at 1:00 p.m. EDT. It will be broadcast internationally with simultaneous translation in Spanish, German, Italian, French, and Russian. Do try to listen in...should be interesting.

Salam Tun,

Agreed with Mlkview regarding Najib. Considering all the accusations made upon him previously, we have to be cautious and perhaps worry about him. How he will handle the financial situation, is yet to be known...

Don't see anybody with the guts to take over from AAB..which is really worrying...perhaps Muhyiddin? and sorry to say TUN,...The only person who has the fighting spirit for the people at the moment is DSAI...(although we have yet to see him in action, bringing forward all his promises)...have we ever wonder why the present government really "scared" of him?...is he a true fighter??

For whatever it is, hope all of us will have a peaceful life ahead of us....May Allah bless all of us...Amin...

Have a nice weekend Tun!!

Dear Tun,

Pls help our nation..I hope u should be made the Mentor Minister/Advisor to our Malaysian cabinet to handle the financial crisis..im not sure whether Najib is experienced enough to deal with the situation..We need a person like u..Even though you are not a financial expert, at least u are a fast learner and able to understand our economy as well as the global situation.. U have the ability to diagnose the problem and find the cure.. Pak Lah is lacking of this...

Selamat berbuka kepada Tun dan isteri..

Assalamualaikum Tun,

pertama sekali saya doakan supaya Tun sentiasa sihat.

Saya berharap Tun segerakan menjadi ahli UMNO semula dan seterusnya berusaha memulihkan UMNO dan kerajaan Barisan Nasional.

Saya amat yakin dengan Tun untuk membawa kembali kegemilangan UMNO dan Melayu.

Sekian,terima kasih..

Banjaran- I think you failed to understand the issue.

When we were facing our financial crisis in the 1990's, outside countries told us to let us ride the problems. Follow the market, the market will balance and correct itself. And at the same time they supposedly wanted to help bail us out by lending us money from the IMF. (We would owe them forever)

Now that they're facing economic instability they're bailing out their huge firms. Who are they to tell us what we have to do to survive an economic recession? They don't have the right to preach total capitalism when they themselves aren't fully applying it.

The Tun was merely talking about how the Western countries preach capitalism when they themselves aren't following the true fundamental values of it. And you know what Banjaran? The Tun was right. He saved us big time during the financial crisis... to which we owe him so much.

Dear Tun and fellow readers,

Thanks for allowing me to share my view.

"Perdana Menteri Datuk Seri Abdullah Ahmad Badawi semalam berkata Anwar kini sudah menjadi ancaman kepada ekonomi dan keselamatan negara".

From the way I read the political situation, AAB wants to go to Defense Ministry to destroy Anwar via ISA and other new Race Law. When AAB's unpopularity is at its height, he will "transition" to Najib. Thus Anwar is out of the way and Najib can safely sit on the throne; killing two birds with one stone.

AAB is doing this in exchange of immunity from lawsuits and charges for all the money he accumulated during this time. He will become "Tun" AAB and get a good retirement in his big house in Australia.

Tun M! 10 years ago, Malaysia turned to Solomon, Smith and Barneys as our consultant. Their advice and your leadership plus your mental sharpness plus Malaysian think tankers kept us where we are now.

The USA have been playing with paper (currency) for a long time. It was just a matter of time, they would go bankrupt. I have known that this would happen. What is important now is how it would affect our economy and what is the best remedy before we are hit by this financial whirlpool?

Would you wait until Najib is sucked into the whirlpool too? I think Najib will turn either to you or to Tun Daim for help to avert a financial crisis. Najib wants to play the hero and AAB does not have the financial brains. You can run but you can never hide AAB. If you don't have the zest to fight, just resign and save yourself being forced to stepdown.

Salam Tun,

Absolutely no doubt Pak Lah is the burden to UMNO and to BN at large. I still regarded him as a very kind PM, he shown lots of concern but really short of skills in implementation. He has the vision but too short in distance. He really can be influenced by others easily. A good leader sometimes have to make a bad policy but to benefit everyone in long term. However, rakyat now is looking at the immediate benefits. He short of skills in doing this part. All the BN component parties are going thru' inhouse reforms now, but UMNO is still waiting and waiting. They forgot they are the eldest brother amongst all. Are they upholding the tradition not to malu the President or may be the 2nd man is that clean as well ? Are they pulling each other legs ? God knows. Anwar is the beneficiary behind all these. We want change for better to the country and for all races, and keep up with the globalised world. If BN can change the approach of doing things, I preferred to give BN a chance again, simply because the Pakatan Rakyat is an unknown factor, as I believed cakap senang buat bukan begitu senang. It is not easy to handle multi racial politics, like kasih dia sikit kerusi sini sana. On the ground, political events recently had became a nasi lemak session for me and my fellow colleges, including other races. We don't really like all these happenings. Don't tell us we can't differentiate a white cat and a black cat. One of these days we get fed-up, we know we can't do anything but to throw our votes to the Pakatan Rakyat. Then see what they can do for the Rakyat. Then goes back to BN if they can't performed. If they can perform, susah-lah BN next time or BN should do better. This is going to be the method of teaching today's government a lesson especially Rakyat who are not from the rich ones. They have nothing to loose. But frankly, I know Malaysia is not up to the level to change the government now and then. This is going to hurt the well being of Rakyat definitely. An old chinese saying, if you can lift up something, you can put it down also. Times up for Pak Lah to step down, not handing over in stages. I'll still give YAB Pak Lah a "Bapa Penyayang Malaysia" for doing so. I guess they realise now Pakatan Rakyat is really-really relevant on the ground. Some ministers in the cabinet who can't perform must go also. Some of them are still living in a blame culture within BN. I amired your vision Tun. A long journey must start now ...

By azzader on September 19, 2008 7:34 PM

Hi Uncle Tun,

Problem Malaysia sekarang bukan la siapa memerintah, tidak kira BN atau Pakatan tapi yang penting siapa yang dapat memulih ekonomi Malaysia, terkenang waktu Tun masih lagi PM, problem yang timbul satu persatu Tun clear sebab Tun memang dilahirkan sebagai seorang pemimpin yang ulung dan tegas. Kalau Malaysia PM ranking, Tun masih berada di tangga teratas di antara lima orang PM dan yang tercorot jauh Pak Lah. So harap Tun dapat menyumbang idea Tun untuk membantu orang2 yang Tun cakap masih Tidur, takut nanti langgar tiang pula.

Dearest Tun,

There are many ways to tackle a crisis. You tackled the Asian Financial Crisis affecting our country your way. I consider this the most brilliant move by you and your advisors. There are the moral hazard issues harped on by many. However, the country did come out of the crisis.

Tun can take comfort that many of the ways the US is employing now are not dissimilar to those Tun implemented 10 years ago. So much for the criticisms leveled at you for solving the problems your way.

Good day.

salam Tun,

skrg ni semua nak kira yang mudah-mudah

1. mudah sangat tukar portfolio. Macam tukar posisi dalam team bola.
2. Mudah sangat melatah. Orang acah nak ambil alih kerajaan dah gelabah tak tentu hala.
3. Mudah sangat tabur janji. lepas tu, cari jalan nak selamatkan diri.
4. Mudah sangat guna ISA ikut suka hati. pantang ada yang komplek, sumbat kedalam.
5. Mudah sangat biarkan orang lain buat sesuka hati. Sampaikan isu agama sendiri pun dijadikan intipati.
6. Mudah 'benor' naikan itu dan ini. sampaikan rakyat pun dah macam merempat dinegara sendiri.
7. Mudah sangat menyalahgunakan kuasa. Halang sini dan halang sana. Liputan media mesti yang best-best saja. yang buruk peduli apa. janji glamour.
8. Mudah 'giler' membuat kenyataan. Sampaikan parti-parti komponen dah tinggalkan medan. lepas SAPP sapa pulak punya giliran... Entah-entah GERAKAN.

Cuma satu je yang susah. Nak tulis surat perletakan jawatan. Konon masih lagi diperlukan. Dey, Pak Lah!! Boleh Jalan!!

Assalamualaikum Tun,

Terima kasih kerana atikel yang Tun tulis didalam Che Det.Com telah dibukukan untuk umum.

I could hardly wait to buy it for my grandchildren to read the thoughts of Tun Dr. Mahathir Mohamed the fourth Prime Minister of Malaysia, the most distinguished leader and of course a world class leader.

Thank you ALLAH for giving us Malaysians Tun Dr. Mahathir.

By suraya on September 19, 2008 9:20 PM

Salam Tun,

I am extremely glad that you still keep in touch with the "rakyat" through your blog. It is somewhat

comforting despite current situations in our country. In truth, your articles are great insights for us who are not as experienced as you are. For me personally, it's inspirational.

Ironically before i left, me and fellow members of my family had a discussion about the fall of the economy. As predicted, after the Beijing Olympics 2008 the economy took a dramatic downfall. I have to agree at one of the comments given by one of your readers, that with the current political drama and shenanigans, it's not helping us to tackle the actual issue facing by the country. So please spare us the ridiculous, nonsensical drama! I am now in the UK and it's embarrassing to be asked by the locals here about the political situation in Malaysia!!

btw,

I am intrigued by what you said about the Federal Reserve Bank loaning money to failing companies. As you said, where does the money actually come from?? This question has been playing with my mind ever since my aunty elaborate further on the actual history of this so called currency (she is actively giving talks on dinar). Maybe gold/silver is the solution??! oh well, easier said than done. Correct me if i am wrong but I remembered that you once encouraged us on that before, but you were shot down by several critics all over. I guess when a crisis befalls on us, then only we would think of ways to get back on our feet. Wish we all have crystal balls to predict the future huh?

It's true then, quoting Oprah Winfrey, being ignorant makes us pay more!

Anyway Tun, keep up the good work and may Allah bless us Malaysians and unite us all.

Salam Ayahanda Tun,

1) Now more than ever the government has to ensure that jobs at factories are filled by Malaysians and not immigrant workforce. We are going back to square one with the present set up of FDI that creates factories locally, but employs foreigners that creates massive RM outflows to their home countries. It's imperative to ensure all non-management level factory jobs are filled by locals in order to cushion any effects of this impending economic crisis. Send these immigrants home now before they begin losing their jobs and resorting to criminal means to sustain their livelihood here.

2) Tun what is your view on KLSE short selling activities? As usual, is our government being slow again at putting a halt to this? This doing by the Americans on their bourses was part of the mechanism that triggers the US economic crisis in America today. And It could very well deliver the same blow to us.

Thank you.

Permisi Tun,

Financial turmoil yang berlaku disyarikat kewangan dan insuran dunia saya rasa tidak ada kene mengena dengan mesia. Sebab bank kita tidak pegang atau membeli surat atau mempunyai saham 2 syarikat tersebut.

Kecuali lah syarikat kerajaan seperti epf, socso, glc, koperasi polis Itat dsb nya ada memegang saham 2 syarikat tersebut dan dicagar pulak dam mereka terlibat sama melabur dan mengalami kerugian oleh pasaran saham yang merudum sekarang.

Bank asing macam hsbc, oub, ocbc dsb nya mmg dah terkenek skit.

Yang takut adalah syarikat dana unit trust yang banyak macam cendawan tumbuh kat mesia ini dan telah sama terlibat memegang saham syarikat besar yang dah bangkrap tu. mmg lah sapa yang ada mencarum unit trust yang melabur luar negara mungkin terkenek. sebab mmg dasar kerajaan skarang memebenarkan unit trust co melabur di luar negara. termasuk lah syarikat insuran 2 di mesia good luck to them.

Padahal apa kurang nya syarikat di mesia ini. ada yang baik tetapi depa tak beli dan pegang saham tu konon, local x canggih.

Sepatut nya syarikat unit trust tu membeli saham syarikat mesia.

Saham di kaunter kedua dan mesdaq mmg tidak langsung dilanggan leh epf, Itat, khazanah, pnb dsbnya, mana silap nya.

Dear Tun,

Finally, the UMNO Supreme Council members got "balls". Now at least we are relieved to hear something positive about the transition of power. Pak Lah finally hears the wishes of the grassroots members LOUD AND CLEAR.

So the next course of action is for Pak Lah to resign gracefully. The most ideal time for him to step down is one week after Hari Raya.

Tun,

Saya hanya baca sedikit buku mengenai investment. Jika bila keadaan buruk atau saham turun, ia merupakan keadaan yang baik untuk membeli saham murah. Saya rasa AIG dapat tahan lagi setahun jika FED atau USA government meminjamkan mereka. Adakah dapatkan AIG meneruskan perjalanan yang lebih lama? Soalan ini hanya dapat dijawab dengan CEO mereka. Jika FED atau government tidak membantu, keadaan akan jadi buruk. Mereka mungkin bukan hilang USD\$80B tetapi berkali-kali ganda. Saya pun berharap TPM kita betul betul dapat menangani masalah ini. Saya rasa PM kita memang pandai dan tukar portfolio dengan TPM pada masa kritikal ini. Saya rasa kalau Tun menjadi Ministry Finance sekarang. Saya yakin terhadap Tun mesti dapat menyelesaikan masalah ini. Apa yang penting sekarang ialah pasaran saham di USA dan Malaysia harus bertenang sekarang....

Dear Tun,

The westerners are adopting more 'relax' attitudes in everything-especially when it comes to working-mostly ended early. The companies are focusing on profits for short term purposes rather than sustains it in the long term.

They not like the Asian-esp. China people who is very hardworking, willing to work 24/7 everyday. So that's why I think most of the major American companies are bankrupt!!

Yes, you can say M'sia is facing inflation situation and it does scared me once a while. Well, now it depends on Najib to help us-p/s he have Nazir, Bank Negara and who-so-ever to help him out. He is not smart enough if he didn't get your advice sir! ;p

Dear Tun,

Bagi semua rakyat Malaysia yang sedang memerhati pemain politik yang sedang bermain politik, mungkin sebahagiannya dapat merasakan hala tuju politik terkini Malaysia. Begitupun, harapan rakyat jelata masih sama dan tidak terkeliru dengan pemain politik. Oleh itu, elaklah beberapa perkara seperti berikut:

- 1- Penglibatan ahli keluarga rapat yang keterlaluan sama ada dalam bidang ekonomi dan bidang lain, seolah-olah Malaysia menjadi sebuah syarikat keluarga;
- 2- Peribadi pemimpin yang teruk seolah-olah rakyat jelata tidak nampak;
- 3- Tegas dengan pendapat atau keputusan yang sudah dibuat, jangan asyik nak minta ampun sahaja apabila digertak;
- 4- Cakap biarlah tegas atau keras, kadang2 suara pun tak jelas; seolah-olah tidak yakin dengan jawapan atau takut untuk bersuara;
- 5- Berilah pendapat yang bernas dan tajam terutama yang melibatkan isu perkauman supaya rakyat semua faham diatas tindakan kerajaan.

Pendapat ikhlas saya adalah untuk dijadikan renungan dan panduan buat semua.

Assalamualaikum ayahanda Tun,

I hope you and your family are in the best of health.....

Tun,

We need you now more than ever.... We need your leadership once again.... The leadership of the country needs your guidance....In this trying times, the looming economic gloom, eroding inter racial relations and potical turmoil caused by none other than Anwar 'I don't care what happens to the country as long I get to be PM' Ibrahim, the rakyat needs you most.... the Malays in particular need you to rebuild Umno so it can be relevant in helping the Malays....the BN needs your insight and thoughts to strategize on building back the rakyat's confidence in it.... Only you can out think,out talk, out strategize Anwar Ibrahim... thats the reason I guess he wants a Parlimentary session to be held on the 23rd of September as he wants to avoid facing UMNO with you in it.news are abound that you might be joining Umno before Hari Raya and I think this scares to bits the loud mouthed and arrogant Anwar Ibrahim.... Please Tun, rejoin UMNO.... UMNO leaders, please heed Tun's advice, take all his suggestions and opinions seriously when he finally rejoins UMNO... Tun, yuu did a great job during the 1997 crisis... I believe you can guide the next PM to do the same.....

Assalamualaikum Tun,

4. I am not a financial expert but I see trouble coming our way.....

Yes Tun I do agree with you. You are not a financial expert. BECAUSE THE TRUTH IS YOU ARE A FINANCIAL GENIUS YES TUN A GENIUS.

Look what happened during the financial crisis in 1997-1998. All the financial experts inside and outside the country said that Malaysia would surely be FINISHED just like Korea, Thailand and Indonesia. But they did not know that we have a FINANCIAL GENIUS and Tun smilingly said we are FINE.

You know Tun, when you went on air in 1998 to explain what actions you would take to overcome the financial crisis, I was so convinced with your step by step explanation that I just cried and said Alhamdulillah.

Thank you Tun for saving us from IMF in 1998.

Ya ALLAH, di bulan baik dan mulia ini, selamatkanlah Tun Dr.Mahathir dan panjangkan umurnya dalam kesihatan yang baik.

Ya, saya tidak akan tanya lagi Tun bila nak masuk UMNO semula walaupun itu yang saya harap-harapkan kerana saya tahu Tun tidak akan masuk sehingga Tun telah bersedia dan Insya Allah masanya akan tiba juga.

Kadang-kadang saya fikir-fikir sendiri adakah harapan rakyat biasa seperti saya ini dapat berbual seketika dengan pemimpin yang hebat ini. Ya Allah qabulkanlah permintaan ku ini. AMIN!

Kalau lah budak2 tingkat 4 tu sependai yang disangka kan oleh AAB dan kalau lah mereka ni bersemangat patriotik dan berkhidmat untuk negara bukannya untuk perut masing2, tentunya diaorang takkan menasihatkan Pak Lah lari dari Kementerian Kewangan. Tahun depan akan menjadi masa yang amat sukar bagi rakyat biasa kiranya krisis kewangan melanda negara kita.

Pak Lah masih tak mau mengaku yang dia tak dapat lagi mengurus negara. Apa yang dia buat sekarang adalah untuk menyelamatkan perniagaan anak dan menantunya melalui Kementerian Pertahanan.

Dear Tun,

If you have a chance, advise DSN to unofficially peg the Ringgit to the Euro and within five years bring the Ringgit value to RM2 to one Euro. The Malaysian economy will benefit tremendously just like economies of Poland and other new EU members as they get absorbed into the EU system. Your previous low cost low salary policy should now be changed to a high cost and high salary strategy. The Malaysia economy is now capable of managing a high cost and high salary strategy with previously weak sectors like rubber and palm oil earning decent incomes. Think of it, no developed country has low cost and low salary structure. Within ten years of hard work, the new strategy should get us to be a developed country as desired in Vision 2020. If we do not change, the financial structure will keep us to be a developing country

forever.

Selamat Hari Raya

Nampak gayanya Suasana Negara terkini memerlukan pemimpin yang boleh menenangkan semua pihak, baik UMNO,BN dan juga pembangkang,

Keterangan dan Keangkuhan nampaknya telah jauh melebihi sempadan dan bakal meranapkan terus hasil yang Tun bina selama ini.

Tenaga yang ada perlu disimpan untuk menghadapi suasana yang lebih getir yang bakal melanda.

Yang merasakan dia berkuasa sedarlah... undurlah, Yang merasakan ianya mendesak berehat sekejap...Kita tunggu wisel baru untuk bermula semula.

Biarkan pemimpin yang boleh kita terima walau sedikit terpaksa membentuk pasukan kepemimpinan yang baru.

Assalamualaikum Tun,

Hingga ke saat ini,saya masih meneliti kesemua maklumbalas dari perkara yang dibentangkan.Tapi malangnya pendapat saya yang saya kirimkan semalam (18/9/2008 jam +/- 11PM)masih tidak kelihatan.

Tun,

1.Saya berharap benar maklum balas dari Tun, sekiranya perkara yang saya ujkarkan tentang permainan politik AAB dan K., serta tindakan AAB kini ,(mungkin terlalu menyentuh perasaan),tapi demi kebenaran rasanya perlu diketengahkan.

2.Dari awal perantikan AAB sebagai PM,telah banyak keputusan dan arahan yang dibuat berlandaskan kepentingan peribadi atau keluarga bukannya kepentingan rakyat dan negara.

3.Tidak perlu untuk saya senarikan secara terperinci akan segala keputusan dan arahan tersebut kerana ianya akan menyemarakkan lagi api kemarahan rakyat kepada AAB...

4.Secara terang-terangan,rakyat telah dibohongi dengan alasan-alasan yang tidak munasabah demi menjaga kepentingan peribadi dan keluarga.Contohnya pertukaran kementerian....

5.Bagi pendapat saya,setiap tindakan AAB biarpun memberi 1001 alasan yang AAB fikirkan rakyat boleh terima tetapi sebenarnya ada perkara yang tersembunyi dibelakangnya.(tanpa pengetahuan umum)

6.Semenjak AAB menjadi Menteri Pelajaran hingga kini, dari pengamatan saya AAB hanya seorang yang boleh menjalankan arahan bukan seorang yang boleh menganalisa dan membuat keputusan yang baik untuk negara..

7.Inilah yang telah diterjemahkan oleh AAB dengan cogan kata "BERKERJA BERSAMA-SAMA SAYA" biarpun ramai yang mengatakan AAB mesra rakyat pada awalnya, tapi bagi saya AAB tidak mempunyai ketegasan dalam kepimpinan.AAB sentiasa berpuashati setiap keputusan yang diterima untuk orang lain , inilah kelemahan yang sepatutnya dibaiki terlebih dahulu sebelum menjadi PM

KEHEBATAN SESEORANG BUKAN KERANA KEJAYAANNYA TAPI MENGELAKAN KESILAPAN

YANG AKAN BERLAKU.

KESILAPAN RAKYAT MALAYSIA ADALAH MENYOKONG DAN MENGANGKAT AAB SEBAGAI PM....

1. I read chedet blog, there was terrifying news that he told, about the collapse of 10 big US banks. The situation also calls financial turmoil. In Malaysia, I am worried too. Many people predicted this kind of thing. It is something like 1998. As an ordinary people nothing we can do, just to live with difficulty and struggle to survive.

2. This kind of thing is weird; it is very clear there is something wrong with the economic design of this modern day. Unfortunately, whole world is never change for many decades. Of course, there is a better way to do business than currently we have right now. However, no one would change it. Why is this happen, because of many reasons?

Contoh pengiraan harga minyak(18/9/08)

1 barrel (tong) = 159 liter  
1 USD = RM 3.45 (semasa)

Harga minyak dulu =  $\text{USD}145 \times 3.3 \text{ (masa naik)} / 159 \text{ liter} = \text{RM}3 - (\text{Subsidi}) \text{ RM}0.30 = \text{RM}2.70$

Harga Minyak Semasa =  $\text{USD}92.7 \text{ per tong}$   
Nak senang kira =  $\text{USD}93 \times 3.45 \text{ (Rate semasa)} / 159 \text{ liter} = \text{RM}2 - \text{RM}0.30 \text{ (Subsidi)} = \text{RM}1.70$

Kita bayar =  $\text{RM}2.55/\text{liter}$   
Harga tanpa subsidi =  $\text{RM}2.00/\text{liter}$

Kita bayar? Tepuk dada tanya minda.....

He see it coming.. he see something is coming, he dont want to be like Thaksin. If he's really genuine and sincere to make way for najib, then why won't he move immediately? What he is waiting for? what's takes so long to make a move till 2010?

I'm more concern on his move, his motive. His move makes me worry. I'm worried that our country will be like our neighbouring country. He dont want to give up just yet... He had contingency plans ready.

By mzzainal on September 20, 2008 1:26 AM

It was reported in Bernama that Najib's appointment as the Finance Minister has received positive response from local and international investors.

I do not think so.

I believe investors would not care much who replaces PakLah as the Finance Minister. I believe they are more concerned about whether PakLah's administration would survive after Dec. They are more

interested to know when/whether democratic reforms would take place within Umno.

The business community do not see the effectiveness of PakLah's Govt. These are unstable times, thanks to not only US's recession, but also the awful truth that BN's Govt did very little and many actions were done too late to save the economy.

So where does it leave Najib?

People are anxious on Umno's stability more than Najib's appointment as the Finance Minister. Najib merely took over the mess that his boss has left behind in the ministry. And not to mention, PakLah would never release the Finance profile completely to Najib. I am sure PakLah would act as a secret advisor to enable his influence to run the economy his way. I would be surprise if PakLah kept his distance from decision-making for the minstry.

Najib wants the seat of power. He is eager to show to people that he is in a better position to run Malaysia. Najib tries his best to keep his distance from PakLah's mess.

Unfortunately for Najib, he will be destroying his own political career by agreeing to become a Minister of Finance. After all, does Najib truly have the proficiency, expertise and skills to un-do the mess that someone left behind?

Assalamualaikum YB Tun

Di sini ada beberapa persoalan yang ingin saya ajukan:

1)Sewaktu Tun memilih Pak Lah sebagai pengganti Tun dahulu, adakah Pak Lah tidak menunjukkan sifat2 negatif beliau, atau beliau hanya berlakon baik semata-mata hinggakan Tun sendiri yakin beliau dapat menyambung usaha Tun untuk terus memartabatkan bangsa Melayu, agama Islam dan negara Malaysia?

2)Adakah Tun secara ikhlasnya yakin dengan kebolehan Dato Seri Najib untuk memulihkan ekonomi Malaysia daripada terus berada dalam keadaan lembap dan menuju kehancuran?

3)Bagi pendapat Tun, adakah pembebasan Teresa Kok adalah satu lagi contoh ketakutan Pak Lah daripada dicop 'racist' walhal bagi saya, penahanan Teresa Kok adalah amat perlu kerana amat jelas Teresa dengan sombong dan beraniya mempersoalkan hak-hak agama Islam dan memperlekehkan sensitiviti bangsa Melayu dan mereka yang beragama Islam?

Akhir kata saya amat berharap Tun akan kembali ke pangkuan UMNO dan memperkasakan kembali UMNO sepertimana UMNO yang pernah Tun terajui dahulu.

Wassalam

By afraid! on September 19, 2008 4:28 PM

Dear Tun,

Just like everyone here I was never concerned nor worried about the country before when you were the PM as I knew that the rakyat were in good hands. But now I'm constantly worried about the decisions and the policies made by the government as they seem to always make matters worst and never better.

I feel so sad reading your article as I am very sure that the current government will not be able to handle the situation and as a result the RAKYAT are the ones who going to suffer. I really hope and pray that the government will open their eyes and their ears BIG to be aware with what's happening to the Country. Hopefully, they read your BLOG religiously to learn something here to SAVE ALL OF US.

Thank you for everything you have done for the country TUN but we still need you.

=====

I agree with 'afraid' on the issue that the country needs Tun. However I do not think it would help Malaysia if Tun was to re-join Umno. I see more problems erupting when Tun goes back. I believe Umno has failed in its duties and nearly all of the MT turned their backs to Tun. Why re-join a party which ill-treated Tun? They seek their own priorities rather than think of Malaysia.

Mind you, Tun is more effective in contributing towards Malaysians by avoiding Umno completely. After all, Umno is no longer what it was before. It is now a ship which belongs to PakLah and his crew.

Greetings from NYC!

The Malaysian government should focus on fixing the economy. It is so embarrassing that the Malays are being fooled by the non-Malays especially Chinese. Equality? Even in the US the American Indians have numerous privileges, the Blacks have privileges over the whites, and the list goes on. The Chinese will protect their own. The Malays should do the same.

The US FED (Federal Reserve) has 12 banks located at cities in the US. It has its own massive balance sheet. As of the beginning of the year, it had \$800 billion in asset in the form of securities which can easily be converted in cash on the open market.

The government did not bailout AIG. The deal was that the Fed loans \$85 billion to AIG. It was not a good deal because the government owns 80% of AIG's asset and AIG has to pay a very high interest for the loan.

The US \$ will not depreciate as bad as you think. The government will not allow this to happen.

This country is so blessed with natural resources. Only if we can manage our funds well, we will soon be on top of many countries in this world in many areas of our lives.

Dear Tun,

Najib will be having tough time to bring back our economy on the right track.

1. The investors' confidence on the political stability of this country must be restored. (a) BN failed to win 2/3 majority. Pak Lah must step down now. (b) ISA should be used long time ago to prevent undesired racial/religious tension caused by Hindraf, Bar Council, Ban Azan/Kuliah Suboh via loud speaker movement, the wheel-chaired guy who had insulted Sultan of Perak etc etc. (c) DSAI's sodomy trial to be speed-up. (d) UMNO must be reformed by having leaders that are sincere to help people/nation as soon as possible.
2. Our economy must rely less on US dollar. The central bank should encourage trading via other strong currencies such as Euro, Sing Dollar and Aussie dollar.
3. To consider the re-pegging of MYR against USD (and perhaps Japanese Yen as well as Japan's economy is heavily dependent on US's). Pegging brings stability to the economy.
4. Revisit all government funded projects and ensure timely projects implementation. Award tenders to local companies. Projects that will likely to be awarded to foreign contractors to be cancelled or stopped.
5. Ensure all government agencies and GLCs to buy national cars only (Proton, Perodua & Naza). We can still see some government agencies still using imported cars (eg Ministry of Interior using Nissan Xtrail, why? and biggest local telecommunication company using Renault Kangaroo, why?)
6. Stop purchasing weapons/military equipments from overseas to avoid outflow of cash. Apart from Navy frigets to safeguard our coast from pirates and helicopters, I do not see any urgent needs to purchase submarines, jet fighters, superior tanks, missiles etc.

Salam buat Tun dan semua yang membaca,

DSNTR dah jadi menteri kewangan. Harap2 dia dapat pulihkan ekonomi. Untuk impak segera, turunkanlah harga minyak..baru terserlah & tidak kelihatan tidur macam yang dulunya.

Akan tetapi terasa juga risaunya takut2 projek diberi kepada kroni2 dgn sewenang2nya macam yang selalu diamalkan.Mungkin bukan kroni DSNTR tapi kroni DSRM. Almaklum sajalah..pijak semut tak mati!

insyaallah.....

selepas kerajaan melepaskan ringgit luar pesisir(offshores)....

selepas angkat capital control.....

ekonomi akan naik....

malah boleh mencecah 10% malah lebih tinggi....insyaallah....

lebih tinggi dari KDNK zaman tun sendiri....

insyaallah

suburkan sifat sabar dlm diri dlm keadaan sukar ini....

keadaan susah ni berkesudahan tak lama lagi.....

semoga semua bersabar.....

Assalamua'laikum Tun,

I'm MGHazali, a son of an UMNO member in BP Johor. I already learned a lot about UMNO that make me sick of it.

Renung who built PLUS, isn't it under UMNO? So why can't UMNO review the agreement? Petrol, don't make me start my word. I'm not a kindergarten kid to be fooled.

As you had mentioned, it's weird that after knowing so much, my father n family are still UMNO.

May be because UMNO had done so much to the country, well actually that are govt responsibility not a contribution at all (am I wrong?).

My words here are, the rotting of UMNO is happened slowly from the 2nd generation (Tunku who succeed from Dato' Onn). But that's give nothing worse than your job Tun.

Yes, you contribute a lot of good things. I agreed that you did contribute to country, not only doing your responsibility.

The thing is, you are the one who choose the wrong person for the top most man. You even sacked a few people who really capable and trustworthy. You are responsible to what had happened now. I can see your effort to correct it but can you correct it?

I wanted Pak Lah to step down as he don't know how to hide his corruption, as he clearly show he wanted to start a monarchy, as he is so weak and sleepy, as he is just annoying. But honestly, I wanted you to do what it takes to correct things back.

Tell Malaysian about UMNO's wrong did and let this rotten party burried. Replaced it with new Malay party. But if you still have love in that party, just make Pak Lah step down. Do what it takes, before Malaysia become like Thailand. Do you want to see DAP in charge? They will if Anwar can topple the govt.

By icarus on September 20, 2008 3:33 AM

Salam Tun.

It's dejavu all over again (I've been around in the financial market since 1990).

The proposed solutions by the US government is a mirror image (short of currency control) of what you did about 10 years ago.

Pumping liquidity (we reduced SRR from 12% to 4%), reduced interest rate, ban short selling, stimulus package, etc.

What strike me the most is the RTC-type bail-out. You went few steps further; not only having Danaharta, you established Dahamodal and CDRC.

Well, I'd got nothing more to pen here except that I am privilege to having you around and witness all these during my lifetime.

Hi, Tun,

My comments is Najib really stupid and played by Abdullah Badawi, because he wants to run away from the trouble, and he is using his power ethics to order Najib to accept the position because he is prime minister, if Najib cannot save the Malaysia economic, Najib will be blamed and Abdullah will said Najib is not able to handle Malaysia economic, at that time he will take over and become Finance & Defense minister, everything is on his hand now, who dare to speak, he will shoot who.

Cheers.

Tun, really appreciate your blogging for us all to read. Have gain so much knowledge and insight from you. I remember during the financial crisis they were calling you the odd man out, but you kept to what you believe was right and you proved them wrong. Really enjoy reading your blog and we all learn alot from it. Hope you will write a few small books now and then too about your vision. Have read many of your books. I like it especially when you write about your vision and how we can make it better. If you are able to sometimes it would be good if you could do a video blog once in a while also but only if convenient. Wish you and all the readers a great weekend. Stay positive and remember to weather the storm we must all stick together. The economy is not so good but Malaysia is much more than that. Keep the visions Mahathir started and work hard to make it come true.

See how the Americans can fix the stock market in a day. Your predictions are irrelevant because you do not have the acumen. We have to be good with the Americans to survive. Even with all the good fundamentals our stock market is not doing well. We will be kept poor. we cannot depend on the Arabs because soon we will be using water as fuel and the Arabs will become poorer than us. At least the Arabs have realised and they are using the oil money to invest in the west. They have to come here because we have water; the fuel of the future. Abdullah is with the Americans but Annuar is even better as he had been with them even longer. What did you do? You criticised them and today we are suffering. Even Obama will not look favourably at us because he knows Indonesia well. When leaders become obsessed with western bashing, the country suffers. Mugabe is another one. The American can fix the world and so we have to learn from them.

dear tun  
good morning..

1)first and foremost i do believe 'creative accounting' does exist.

2)we may not be an expert in accounting but we know by the logic.

2)Prudent is never in the picture anymore, only glamour and paper profit only and paper cash only to 'enhance' ones credibility kononnya. they are the so called 'aggressive transformers' indeed. semuanya mcm mirage.

3)figures can be manipulated . it may not be wrong to treat say 'money paid in advance for future projects' as cashflow for the time being. and if possible all charges are differed to future years... .this 'cashflow' are not from their real sweat and blood.. just a matter of accounting entries.

4)operating expenses can also be 'treated' as capital expenditure or work in progress just to show better profit in the curent years. so everything is differed..bahaya and risky ...

5) the above can be ok if times are good and companies business activities are tip top i.e u can still play with figures, reverse and allocate here and there...but what if a sudden change of say turmoil situation.

6) in short term bolehlah happy dgn kononnya byk profit, stable cashflow, cash riched, overseas trip alias training abroad, blah blah...

7)when times change suddenly from good to bad, mana nak reverse all the 'entries' to. mana boleh sorok figures. masa tu byk lah yg cabut and kalau boleh resign gracefully sebelum kena soal jawab. mereka kononnya selamatlah tapi yg tinggal dan susah ialah pekerja/rakyat.

8)kalau existlah situasi begini, mereka memang pentingkan diri sendiri...they never commit or love the entity/country...janji poket penuh...grap opportunities for oneself only..nauzubillah

9)tun...

mungkin kita boleh adopt 'sukahati accounting'....haha

Assalamualaikum Ayahanda Tun yg dikasihi...

Hari ini bila bahang kegawatan ekonomi dunia kian menghampiri bumi tanah melayu ini orang-orang bisnes dah mula panas punggung.. Mereka takut apa yang telah mereka usahakan selama bertahun-tahun ranap sekelip mata.. Mereka terigau-igaukan kenangan 10 tahun dahulu apabila banyak syarikat-syarikat besar yang lumpuh hingga mengakibatkan kebangkrapan..

Bila baca balik komen-komen dalam blog Tun ini saya ketawa terbahak-bahak dan berdekah-dekah yang amat sangat.. Geli hati saya mengenangkan mereka-mereka yang menggelarkan Tun RACIST dalam blog ini sedang terketar-ketar ketakutan memikirkan siapakah yang dapat menyelamatkan perniagaan-perniagaan mereka apabila kegawatan telah tiba dihadapan pintu-pintu rumah mereka nanti..

Ketika inilah mereka sedar bahawa mereka terpaksa bergantung harapan pada seorang yang bukan dari kalangan bangsa mereka yang mereka gelarkan RACIST untuk menyelamatkan mereka.. Apakah cukup dengan segala wang ringgit yang telah mereka usaha dan kumpulkan untuk menggajikan seorang pakar ekonomi untuk selamatkan perniagaan bangsa mereka itu..

Pada kali ini Tun dah pun bersara.. Berehatlah dengan secukupnya.. Biarlah ekonomi Malaysia kita ini ditadbir oleh Malaysian yang bijak pandai lagi kaya raya.. Mereka telah mengecam Tun tanpa memahami apa-apa dan tidak pula berterima kasih atas segala susah payah Tun demi memastikan Tanah Melayu tidak tergadai pada IMF satu ketika dahulu.. Mungkin mereka ingin balik kepada asal dimana satu ketika dulu nenek moyang mereka melombong/mendulang bijih, menoreh getah dan menjadi kuli bawahan..

Dari KULI bawaan(ntah dari mana) paling bawahan kini anak cucu mereka telah berjaya menjadi MAJORITI manusia terkaya di Malaysia hasih toleransi dari kaum yang mereka gelar RACIST.. Sesungguhnya bukan saja MELAYU MUDAH LUPA tapi mereka-mereka itu lebih teruk buruk lagi.. MEREKA ITU SANGAT PANDAI BERMUKA-MUKA DAN SUNGGUH TAK SEDAR DIRI..

MEREKA ITU TETAPLAH MEMBAWA DARAH HAI-SAN DAN GHEE HIN MEREKA.. MEREKA LAGILAH MUDAH LUPA ATAUPUN BUAT-BUAT LUPA PADA SEJARAH..  
HIDUP TONG-SAN...

The irony of it all...you have just hit the proverbial nail on bailouts and how the prescription that was practically forced down our throats by Uncle Sam during your reign is not suddenly not good enough for the failing US financial institutions. I must also share with all the reader here one interesting website <http://www.larouchepac.com> who, is written, predicted the financial collapse in the US quite a few years ago as well as the necessary steps to avoid the meltdown. Now he is saying "i told you so but no one was listening". Lyndon LaRouche will deliver an international webcast from Washington, D.C. on October 1, 2008, beginning at 1:00 p.m. EDT. It will be broadcast internationally with simultaneous translation in Spanish, German, Italian, French, and Russian.

Apakah kembalinya Tun ke UMNO satu realiti atau satu sandiwara akan menjadi tanda tanya kpd semua yg mahukan kesejahteraan hidup di bumi Malaysia yg tercinta ini.

Sementara menanti waktu itu, diharap dpt Tun lakukan sesuatu dgn segera demi kebaikan dan keamanan utk semua yg mana saya percaya Tun juga inginkan. Bimbinglah Dato Najib utk memulihkan ekonomi negara. Berkorbanlah waktu Tun sebagaimana Tun lakukan pada tahun 97/98 dulu. Bertemulah dgn Dato Najib setiap hari jika perlu. Saya percaya beliau akan bertemu Tun di mana sahaja. When America or American companies are in trouble, they don't go around blaming everyone else except themselves. They don't blame the Jews, Jewish conspiracies, George Soros. They take the bitter pills. They let some companies go bust, bought over by others. Those that are too big to fail are bailed out. If they failed, the whole world's economy and financial system will be adversely affected. Those who think AIG, Freddie Mac and Fannie Mae should not be bailed out should think again - who will be hurt more? The US Dollar is the world currency and the US can print more of it without suffering the consequences.

The rest of the world holding the Greenback will suffer.  
By Skill on September 20, 2008 10:11 AM

Dear Tun,

Today I see the financial turmoil that is hitting the global market with much trepidation and amusement. Trepidation because of the potential effects it may bring to our economy.

And amusement because the bail-outs of banks and financial institutions, the ban on short-selling are all measures that Tun was severely criticized for by the West during the Asian economic crisis. Let market forces determine the outcome, they say.

I admire your logic in dealing with these issues and hope you will continue to contribute and at some point in the future, remedy the malady that had fallen on our beloved nation.

I was just wondering if you were still a baby in 1997-1998 when we were hit by the Asian Financial Crises. It makes my heart bleed reading your comments.

1. Do you know that Anwar wanted to take up the IMF prescription during that time?
2. Do you know what the prescription is like?
3. Do you know that we did exactly the opposite and recovered faster than the rest? (THANKS TO TUN M)  
We also don't have riots on the streets and people killing each other due to economic pressure. Do you know that?
4. Do you know what will happen to our country if we had taken the prescription? Do you know which ethnic will suffer the most?
5. Do you know what Anwar will get if he agree to take up the IMF prescription?

Please do your homework, and keep your mind open. It is good to learn something good from others, but there are certain limitations as to how much should we follow others. What is good to others may be harmful to us. And certainly, what is good for one country, may not be applicable in our country because of its uniqueness in terms of multi-ethnicity. Please think my dear fellow countryman. Please also do some research on FTAs...like why are there so many rounds of negotiation held but agreement has not been reached. Then you'll understand how cunning the US can be.  
Please read.

Assalam Tun,

It's a shame that we have AAB as Malaysia's PM now. Not only he comes out top in demonstrating

IGNORANCE but also lack of GUTS that is left to be desired by many Malaysians.

His recent antic of swapping roles with Najib was a classic one. The mess that he created in Finance Ministry is now the burden of Najib when in fact , he should have stayed within and focus on try to improve our economic position. Instead , he CHICKENS OUT and sits PRETTY in Defence Ministry, a place where is taking shape nicely arising from years of hardwork by Najib (minus other speculations) till this date.

While I respect him as a fellow Muslim, very little can be spoken out my respect to him as the PM.

I am beginning to form this opinion that the PM is far more DANGEROUS than Anwar Ibrahim. Simply because AAB can do far more DAMAGE AND BLUNDERS to this country due to his LACK OF EVERY SENSE OF FORESIGHT AND DRIVE in ensuring Malaysia remains relevant to the world.

Instead of sweating the small stuff, he should be out of teh country making efforts to attract more FDIs just as how you have done in the past that makes a small country feels BIG....!!

Maybe it is about time that someone trigger that ALARM ....that AAB is a NATIONAL THREAT and should be earmarked as ISA potential!!!! hehehehe...

Do you remember the story about a man who puts on green glasses to his cows so that the herd will eat the grass?? Well, AAB's version is he wears this highly powered reading glasses, stands in front the mirror and says to himself..""GOD...I am so so BIG...everything about me is so.. so ...BIG"".

My DOA to Allah for you and family. I love you.

Dear Tun,

Ref: statement on Bail outs and Spinning.

During the last financial crisis in the late 1990's, Malaysia, and specifically Tun was demonised by the West because the Government assisted major financial institutions.

Accusations of nepotism and cronyism were rampant and Malaysia was accused of "Government Bail Outs"

Although I don't agree with "spinning", it's the unfortunate norm in the current political world. Using it in a positive light may be a necessity.

It is necessary for us as a developing nation to HIGHLIGHT, EMPHASISE, and continuously bombard the media from all angles on the double standard world we live in where the West can pump Billions of dollars into failing institutions and call it "Financial Assistance".

Tun pointed this out in the 90s and once again you highlight here.

More effort must be made however by all who have access to the media; The Government, local Institutions, Corporations to emphatically highlight this to the world.

People must wake up and "SMELL the KOPI". The West is the master of "Bail Outs"

Salam Tun & fellow bloggers,

1. Antara punca pengharaman Riba' ialah terdapat unsur-unsur penindasan. Kadar bunga yg dikenakan menekan peminjam/pelabur yg akan memindahkan kos kepada pengguna, seterusnya harga meningkat  
2. Ia semakin bercelaru bila ditambah dga 'paper economy' spt pasaran hadapan, derivative, re-insurance, komoditi hadapan dll yg terang-terang melanggar hukum spt adanya akad dlm jual-beli (persetujuan secara fizikal)  
3. Kontrak dibuat tanpa mengira kos sebenar pada masa hadapan. Harga yg dipersetujui akan dibayar walaupun terpaksa mengalami kerugian  
4. Dalam Islam pengambilan untung secara berlebihan juga adalah salah. Lihatlah saja kenaikan mendadak harga petroleum disebabkan spekulator, hedge fund, kapitalis

Good Morning Tun.

I am a loyal reader of your blog from the beginning and this is the 1st time im posting my comment here.

Seriously, AAB should step down knowing his own limited capabilities to handle the country. Now he has passed the Finance Minister post to our Deputy PM as the economy situation is getting worse. He is not doing anything. I dont mean to be rude here but i seriously cannot "tahan" him anymore. He is getting all of us into trouble, politically and economically. We dont know what will happen to our country tomorrow. We are living in fear. My parents are stocking up food at home, 1st they were afraid of 916....then 2nd came about the racism. I know it sounds a bit funny but we really dunno what is going to happen to our country tomorrow. I have lost confident with our PM. He only knows how to take ppl for granted and back up himself from everything gonna happen.

Pray hard that our Deputy will be able to handle our economy status and manage to prevent our economy from getting worse. If not, AAB will take it as an excuse and not to step down forever.

Asalamualaikum ayahanda Tun. Baru baru dalam buletin TV3 apabila soalan diajukan tentang kemasukan Tun, dengan segera dijawab tidak ada agenda mengenainya. Berat sangat ke mereka untuk menerima Tun kembali. Apakah Tun buat road show sekurang kurangnya orang yg tak memiliki kemudahan internet dapat juga dengar rintihan Tun dalam blog Tun. Pandangan saya ada 2 sasaran golongan yang Tun perlu dekati pertama ..... ANAK MUDA kedua ..... AHLI AGAMA . Dekatilah cara berkhimyah kerana kita boleh bentuk gelombang baru . TIDAK SEMESTINYA YANG KITA TIDAK SUKA ITU TIDAK ELOK UNTUK KITA.

Salam Ayahanda Tun. Being the Minister of Finance at this point is no easy way for Najib to prove his mettle to us. More things could go wrong than right that is looking him squarely in the face. He should openly establish advisory link with Tun. The severity of the US economic crisis is best summed up when President Bush laid out a radical bailout plan with a massive tag of at least a half-trillion dollar to absorb the worthless mortgages and other bad debt held by the failing financial institutions. Where would he get the half-trillion from? Probably like what you said Tun, by creating phantom entries into accounts and letting market absorb the scam or maybe he would even print more money. Who ever becomes the next US President, be it Democrat or Republicans- Iraq would most likely be their watering hole for good and Iran maybe next on the card. Bush would rather create a situation and dances along to it with the others rather to let someone else creates the situation and he dances off-beat to it; he would definitely consider doing Iran what it did Iraq. The world can crash so be it, but there's no way the US would go at it alone and broke, at least the US have all the Arabs oil fields to call the cards in the dark tunnels before light again.

Salam Tun,

Saya masih menunggu pendapat yang saya tulis semalam...masih belum keluar lagi ! Selamatkanlah negara Malaysia daripada semua aspek masalah : ekonomi, politik, kepimpinan, sosial dsbnya. Saya amat berharap coretan saya disiarkan.

Terima kasih,

Selamat Eidul Fitri kepada Tun sekeluarga....Maaf zahir Batin.

Wassalam.

Assalamualaikum TUN

Saya pun dapat rasakan bahawa Amerika Syarikat sedang "menikmati" economic turmoil. Kalau dulu mereka hanya tersenyum dan bersilang tangan melihat byk negara Asia gawat sampai byk minta bantuan IMF, tapi Alhamdulillah, kepimpinan Tun berani mencuba preskripsi sendiri yg akhirnya terpaksa diakui mujarab oleh para economic "expert".

Ironinya, bukanke dulu american economic memperlekehkan tindakan TUN dan kerajaan menyelamatkan (bailout) syarikat2 yang mempunyai nilai strategik kepada negara, sampai kan kuda kayu diorang a.k.a. Anwar Ibrahim terus mempromosi slogan kronisme, nepotisme dan ntah macam2 jargon2 yg menyedapkan hati economist barat. dengan slogan kronisme & nepotisme berjayalah Anwar mengelentong rakyat2 yang kurang faham ekonomi dan mengapa tindakan2 strategik yg perlu diambil untuk mengukuhkan ekonomi perlu diambil.

Dari situ saya dapat kesan, strategi Anwar bermain isu dengan memperbodohkan rakyat yg kurang faham, atau rakyat yg tidak maklum. Atas mereka inilah beliau ambil kesempatan.

Nah sekarang US sendiri terpaksa mengaku perlu bailout syarikat kewangan & insuran yg bernilai strategik pada mereka, pada kos yg sgt melampau 1/2trillion USD?? if i'm not mistaken.

bahkan US juga sedang mengharamkan "shortselling" trading yg diorg sendiri buat.

Inilah kuasa Allah SWT, Tun, yang akan membalas kembali perbuatan mereka sendiri.

Assalamualaikum Tun sekeluarga,  
Moga moga dalam sihat dan keberkatan Allah sentiasa

Izinkan saya menyampaikan pendapat saya tentang komen yang dibuat oleh saudara "KHAIRI" mengenai artikel ini pada jam 10.55 19 Sept.

Saudara Khairi menyatakan bahawa sistem zakat, jika diimplementasi di Malaysia akan dapat mengelakkan huru hara ekonomi yang berlaku pada hari ini. Saudara Khairi juga menyatakan bahawa beliau telah mengutarakan formula ini kepada sesaorang yang berpendidikan tinggi tetapi beliau mengatakan sistem itu terlalu ideal.

Saya harap saudara Khairi dapat detailkan formula sistem tersebut dengan terperinci untuk bacaan semua sebab ianya dikatakan mampu menangkis huru hara dalam sistem ekonomi sekarang yang serba kompleks, lebih lebih lagi kita harus bersaing dan berniaga secara global dengan menggunakan instrumen instrumen kewangan yang betmacam macam yang digunakan oleh negara negara lain.

Assalamuailaikum Ayahnda Tun..

Kejatuhan Syarikat-Syarikat ini ( Lehman Brothers, Merrill Lynce, AIG) kerana kelemahan pemimpin untuk menguruskan dan mentadbir syarikat yang hampir berumur 150 tahun. Pemimipin yang lemah dan flip-flop boleh menjatuhkan sebuah Negara juga seperti negara kita. Akhirnya rakyat terpaksa membayar dan menanggung kerugian besar ekonomi dan social.

....'Menunggu saat dan ketika saja Negara akan di bailout oleh negara jiran..fikir-fikirkan sahaja..

1. Im not economic expert too. But what happen in US is indeed will blow our Malaysia economy too. The nature disaster that hit the southern states of US worsen the downfall too.  
2. So from my humble request, could you make an entry on how u suggest Malaysian to prepare this unpredictable blow to our economy? for example: dont take mortgage, stock up foods and bla bla bla. these are just examples.  
3. Thanks in advance.

Tun,

Cant wait for Tun to rejoin UMNO as member. Since Najib is the Finance Minister, why Tun dont offer service as Economic Consultant under EPU Department? I think it is a wise shot to think of. With Tun experience handling the 1997 economic crisis, is indeed useful now. Throw away the political issue surrounding BN, let save the nation as a whole. If the world economy deteriorate longer, Malaysia may not able to subtain the deficit any longer. I would not like to see Malaysia to get fund from IMF.....

Malaysia Boleh! Tun Boleh!!!!!!

Dear Tun..

It's global economic crisis right now.. It happens in everywhere, and I guess noone will be perfect, and every PM in every country is trying to do their best for their country..

You are right, it's quite upset to know our PM choose to swap his Financial minister roles with Najib at this critical point. It shows his inability in leading our country. However, it's not the time for criticizing but revise our current leadership training system.

I suggest - To keep talent in our country is the main objective.

In our parliment, our PM selection criteria should be reviewed and improved. For those potential future PM candidate, they all should go through a training/course/test, such as behaviour course, Intelligence test, Emotional test, education level, english speaking etc....Set very clear the criteria, what sort quality A PM should have. For those quality candidates (i.e. 20 ppl), give training..

Remember.. A true leader can't really happened overnight... it needs 10, 20 years to train,nurtur and develop ..or eventually, you may just find 1 or 2, or even none..but..this is the process we need to enhance...Eventually, there will be only 1 PM been elected, but we still got 19 quality talent advisers standby to uptake the role at anytime...

By saying this, I presume, our country education/social system should be revised as well.. Academically, we are very successful as other overseas country; However, interm of social working wise, it's very lack of personal/career development such as behaviour, exploration, attitude is not widely been encouraged in our country. Lots of talent pulled to other country, maybe by a higher pay status or better life style or environment in other country..

If we can keep all these talent in our country, and realise these Talent are our only ASSET in our country. We will be worry free to to choose our PM. We will choose the BEST out of the best for our country... Our world, economic is getting very unpredictable. And we truly a True Leader, who can really bring Malaysia out of the financial turmoil, save Malaysia in whatever circumstance at whatever century....

We need to keep the true asset, then will come a true leader.!!!

Then... "Malaysia Boleh" speak!!!

Cheers

Irene

Hey Dr M,

You are correct, it is very wise to get rid of US dollars right now. The government unofficially is in debt by 56 trillion USD (officially 9 tril), and is spending more money that they don't have bailing out companies that have committed essentially fraud by letting people have credit they shouldn't have had in the first

place.

Furthermore, there is further economic stimulus plans to pump more money into the system, and then further bolstering the banks cash flow by a huge injection of cash to buy up the toxic mortgage.

Again, this is all fine if they were creating jobs and stimulating the economy, but the fact is that more jobs are still being shipped overseas in USA, the money is being pocketed by the rich who aren't trickling it back down to the system in a timely manner.

Amazingly, with all that is going on, the inflation rate is only a minuscule 2% (CPI) because of internal government manipulations on accounting figures, and the result is that they argue the economy is fine, and that they can keep pumping more money into the system without harming it.

Sean.

SALAM HORMAT BUAT TUN DAN ISTERI,

Ini kali pertama saya menulis.

Saya banyak belajar dari blog Tun ini, terima kasih Tun.

Tahun ini saya masuk 40 tahun...kata orang "life begin at 40...".

Saya ada putera-puteri 10 tahun, 9 tahun, 2 tahun & 9 bulan dan sorang isteri je.

Melihatkan keadaan ekonomi dunia dan lebih-lebih lagi Malaysia yang saya kira dah pun on the way to "ICU room"...Saya bertanya pada diri ini untuk apa saya kerja "kuat" sekarang ini kalau apa yang kita "ada & perolehi" sekarang ini tidak dapat dimanfaatkan oleh putera-puteri saya kelak....Kalaupun saya boleh berikan baki umur saya yang tinggal tak seberapa lagi ini...saya ingin berikan pada Tun & Isteri Tun....supaya Tun sentiasa sihat sejahtera, kuat dan ada "ample time" to "ACT".....terutamanya untuk masa depan yang sejahtera bagi putera-puteri saya.

Salam Aidilfitri buat Tun berdua dan sekeluarga. Semuga ALLAH SWT sentiasa memberi Tun berdua kekuatan dan kesejahteraan minda serta fizikal.

Honourable TDM,

As ordinary citizen doing own business, I have felt the pinch of economic slow down since the economic crisis in 1997/98. It recovered a bit for about a year and half then everseen Pak Lah took the leadership of the country, Malaysia economy keep sliding down and now the worst is coming from the aftermath of financial tsunami in United State started from the Sub-Prime Mortgage problem.

In Malaysia, our leaders either very ignorant about the whole economic situation or they just bluffing the Rakyat by telling us that Malaysian economy is still strong and inflation rate is very much under control. But to the ordinary people, we felt the pinch as cost getting higher, doing business getting tougher and profit getting smaller. Our Political leaders are continuing making announcement after announcement that Malaysia economy remain strong and not affected at all by the either sub-prime mortgage ripples or the recent financial crisis that hit America that lead to US\$1.0 Trillion bail out by USA Government. Now, DSAAB running away from MOF, as he is trying to escape from being blame for not competent in handling Malaysian economy and give to DS Najib to handle the economic tsunami that coming our way soon. As an ordinary citizen of Malaysia who doesn't have million of ringgit saving in the bank like many politically connected Malaysian, we reckoned, life will become from bad to worst....thank you to Pak Lah and BN.

By mzzainal on September 20, 2008 10:03 PM

Even a blind man is able to see that our economy is ruined. There is no way at present that we can escape the country's debts. The reality is Malaysia is kept economically hostage. That's the price we are paying for having PakLah as the PM.

By sha68 on September 21, 2008 12:30 AM

Salam Tun,

AAB dah nampak yang ekonomi kita akan merudum bila-bila masa, sebab tu lah dia pass over kat Najib. Harap sangat yg Najib dapat buat sesuatu sebelum terlambat. Harap jugak yang Tun dapat menolong untuk membangunkan ekonomi negara kita bersama sebab Tun memang bijak melaksanakannya.

Sekarang pun rakyat dah tak tahan lagi dengan harga brg yg meningkat naik, kalau ianya masih berterusan maka kita kena start makan ubikayu dgn pucuk untuk nak survive.

Selamat berpuasa tun sekeluarga.....

Assalamualaikum Tun dan para commentar semua. Maaf sekiranya coretan ini terlewat. But I have to make this comment as it is a topic that I hold dearly close to my heart.

It looks like the current economy policy in Malaysia is being run on a textbook called Economics 101 written by Adam Smith in 1980s. Or whatever they teach in Oxford. I am neither an economist nor am I aspire to be one. But reading opens the mind to other possibilities.

I for one, find no solace in the appointment of the DPM as the CFO of Malaysia.

Somebody has to tell them that the fiscal policies is not about reducing the fiscal debt alone. It is not about subscribing to only one recipe created by the IMF and the World Bank. If even the American government turns away from the Washington Consensus and of liberalizing the financial sector, why must we subscribe to it?

Saving AIG, Lehman Bros, Francie May and Freddie Mac is the final nail in the coffin for the WTO and it should be made very public. Unfortunately we as a nation pay little attention to what happens in world financial news. We are detached from the acceptance that what ever happens in Wall Street will trickle down to Bukit Kewangan.

We can not and must not be made an economic hostage just for the sake of FDIs. We take pride in being unorthodox in the managing of our economic policies. We must not decide based on knee-jerk perceptions. I believe the promise lies in working hand in hand with our willing ASEAN neighbours and foreign freinds. We must also look internally at what we have and what we can offer to alleviate the economic pains of others.

Dimana perginya pakar ekonomi yang mengkritik dasar menyelamatkan syarikat milik kerajaan atau yang berkepentingan negara?

Ternyata sekarang pakar ekonomi dan ahli perniagaan hebat terpaksa mengakui pelaksanaan menyelamatkan sesetengah syarikat sedang berlaku di US si kuasa besar ekonomi itu.

Siapa yang akan percaya lagi pada institusi bank, syarikat insuran, kompeni gergasi mahupun Perbendaharaan kerajaan AS lagi. Sistem dan dasar ekonomi itu sendiri telah dipersoalkan sekarang ni. The Dollar will soon be finished as a base currency, this is because the free trade system creates severe

trade deficits and America is forced to scupper the value of its currency to prevent imported inflation. This makes investors flock into commodities and pushes up the price of fuel. The fiat money system is caught in contradiction between higher lending rates to support the currency and keep inflation at bay, or lower rates leading to a move away from holding the Dollar and flight into commodities with higher energy costs as a result. America cannot walk a safe tightrope between the two positions. This creates uncertainty and will eventually leave the Euro as the natural base currency.

Tun,

Negara kita amat kaya dengan sumber alam semula jadi maupun sumber insan yang pelbagai rumpun. Namun kita tidak boleh menjayakannya sekiranya kerajaan tidak memberikan dasar yang cukup jelas dalam mengerakkan segala sumber tersebut.

Contohnya tentang pertanian. Saya sendiri duduk dalam kawasan kebun di Kuang. Pernah beberapa kali saya pergi ke Pejabat Pertanian, memang ada ruang untuk meminta bantuan dari segi tunjuk ajar dan benih untuk telur ayam kampung dan sebagainya. Tetapi pentadbirannya amat lemah sehingga benih tidak kesampaian dan tidak menurut jadual yang ditetapkan. Akhirnya saya hilang minat pertanian dan kembali kepada usaha ICT saya.

Saya rasa pentadbiran kerajaan perlu ada reformasi. Bukan mahu salahkan kakitangan kerajaan kerana apa mau buat sekiranya dah tak boleh buat apa-apa? Asyik mengkritik tidak akan menghasilkan apa-apa.

Yang perlu hendaklah ada dasar yang dinamik dan senantiasa terkini keberkesananannya. Kerajaan harus amat terbuka dan menerima ide dari bawah dan dari luar partai politik.

Macam Prof Dr Hoo Kay Khim menyarakan baru-baru ini. Pilihlah orang dari luar partai dan NGO. Ide itu turut patut digunakan dalam peringkat lain kerana pentadbiran negara kita sudah terlalu dipolitikkan.

Salam Tun,

harap Tun sihat dalam hujung minggu ini,

teringat masa jumpa Tun minggu lepas, Tun kata hanya blogging bila sempat sahaja, kalau ada masa, terima kasih Tun kerana meluangkan masa.

pasal ekonomi memang saya tak mahir, lagi pun belajar tak tinggi memang susah lah lagi,

tapi untuk tambatan ringgit buat masa ini, rasa tidak akan berlaku perhabs, pasal kalau ringgit deppreciate, nanti nak shopping kat luar negara mahal,

cuba bayangkan kalau anak seorang ni, study kat London pastu mak ayahnya bagi duit poket kalau sekarang RM 700 baru sama dgn Pound 100

kalau ringgit naik value so akan lebih nilai duit luar yang ingin kita tukar dari nilai sekarang.

cuba bayangkan kalau si mak bapak bagi RM 700 hanya boleh makan seminggu sahaja, mungkin apabila matawang ringgit semakin meningkat nilai nya si anak boleh membeli satu gerabak monorel dengan hanya belanja makan seminggu,

bayangkan kalau si bapak beri RM 1 billion, mungkin si anak boleh membeli satu kilang monorel,

kalau RM 100 billion, boleh beli negara yang mengeluarkan monorel itu,

tapi kepada penanam sayur, pesawah, penternak kambing, dan juga penternak ikan dalam sangkar.....nilai barangan mereka semakin tinggi, menjadikan kurang kompetitif dalam negara mengundur reverse undur ke keadaan zaman Tok nenek kita, menanam ubi keledek dan bela ayam kampung,

semua bekalan itu tidak boleh di jadikan eksport kerana semakin mahal berbanding barang dari negara China dan India atau negara lain yang lebih kompetitif....mungkin dalam pasaran negara juga, rakyat terpaksa memilih barang dari luar kerana barangan keluaran negara semakin mahal selari dengan nilai ringgit yang menokok..

jadi siapa yang pandai tentang ekonomi, Tun ka? orang lain?

Tun memang bijak menjaga poket negara, tapi ada orang lain yang lebih bijak dari Tun dalam menguruskan poket keluarga...

p/s: finally someone raised our concern about the this tiny problem rather than 'freedom of speech', 'ISA', 'Da Great Coffeed boy', 'Pelamin anganku musnah pada 16/9', 'dan bermacam-macam lagi telenovela yang selalu keluar berita dan paper...

Rosyam Nor bila hang nak wat filem 'KL Menjerit tak tentu hala'.....??Rindu rancangan Samarinda perebutan kuasa hanya akan memusnakan keluarga, sebaliknya cinta abadi pada Yang Esa akan membawa kita ke jalan yang benar...Amin

Salam Tun

Kami orang kampung agak takut bila baca tentang ekonomi yg Tun terangkan.Kami dikampung agak sukar sekarang kerana baja, racun serta minyak petrol melambung tinggi sedangkan tanaman sayur yang kami pungut tak dapat nak cover cost membajak, baja & Racun. Itu belum kira penat lelah kami lagi. Pagi2 lagi dah masuk kebun sayur tapi pendapatan tak lepas upah membajak. Apalah sudah jadi dengan pemimpin kita, hari2 cakap berdegat2 tapi kami makin hari makin susah. Baju anak2 nak raya belum beli lagi.

Harap dapat Tun buat sesuatu seperti tahun 1997/98.

Dear Tun Dr.M,

Would also like to highlight some other points from your findings.

1. The Americans are fraudsters technically by creating something that won't last long and for those unaware or first time investors would be caught.

2. Those investment bankers actually team up to hype the market so to get more people involved. In the early 90's, retail investors in US suffer huge losses due to those institutional players and the bankers even quoted in black in white that they couldn't care less about those minority group. Even early this year the same statement was issued. Question is why they still need small fishes in the market? Well...is to feed the big sharks.

3. When they want to make and take money out of their investment, all positive and encouraging things would be said on those portfolios, country economy, politics etc but when they have achieved their goal, they will have another team player to downgrade the situation. How? Start to issue risk statements and talk about uncertainties. Do remember this...it was GO GO GO before.

4. Dot.com bubble issue that rocked the world market before, oil problem early this year, subprime and other credit related matters, all this are made in AMERICA. Looks like they created lots of mini pyramids as in strategy...bottomline Fraud.

5. Subprime, how real is that? Are Americans bad paymasters or are they broke? Since the world financial crisis started with this subprime thing...i really don't buy those reasons blaming on it. Those investment bankers actually blow up their own funds- btw is investors' money, by splashing in millions into advertising and sponsorship and bet on other nations' economy...isn't that what those people are doing?

6. The world glorifies the Americans too much...is time to wake up and source for other options and pick up some lessons from a nation being heavily speculated. .

By Joe Burns on September 21, 2008 12:22 PM

Ayahanda Tun,

Your writing on financial world scares me. Every line sheds the whole truth of current economic turmoil that can only be handled by person(s) of high courage. I am sorry that we lack such individuals now. Our economists tend to provide half truth of the situation we are facing now.

The response from friends following your writing proved beyond doubts that they are doubting the ability of our government to handle the situation well. The world financial turmoil could cause serious problems to us in Malaysia should our leaders be incapable of handling other relevant issues as well, in particular the security issue.

The application of ISA, should it be for security reasons, must not be backed down on mere pressure from certain quarters. The minister in charge must be brave enough to provide WHOLE information on reasons (forget about NEED TO KNOW BASIS) things! Tell the rakyat that so and so has committed this offence that posed a security threat to the country and thereby be arrested. The games played by the government lamenting on small demands will drag the authority into more sophisticated problems. BE firm and follow what TUN did when he was in power. Remember that you will rule once and when the power slipped, it will not be yours again even you shed the tears of blood.

Setuju dgn tun,

Sepatutnya nilai RM bertambah baik berbanding USD apabila usd tgh lemah tetapi sebaliknya.. ada 2 faktor yg sebab pelabur tak yakin kat malaysia ni rasanya:

1. Sebab DSAI yg pentung diri dan rosakkan nama negara
2. Kedegilan AAB untuk step down (AAB jgn dok salahkan DSAI sahaja tau)

Apa-apa pun mari kita sama2 berdoa semoga negara kita selamat daripada ancaman 2nd wave krisis kewangan kali ni and kumpulan2 flip-flop ini mampu mengatasinya. Amin

2)Datuk Seri Najib, You have done well job as a Education Minister before. Teachers happy with your leadership.

Then recently, The Army praised you of your dedication as Defence Minister.

3) Datuk Seri Najib, Ignore the rumours and grouses that intentionally dragged you down i.e. Attantuya seditious allegation.

"" Better Datuk Seri Anwar fighting for the hundreds thousands of innocent women being killed in Iraq and palestine by Bush and Zionist respectively, Rather than he so cowards to fight one woman prostitute Attantuya murderer causing to destroy the leader and this country stability????""

Food for thought during this current financial turmoil

-BALANCE SHEET OF LIFE-

I received this email and I thought it may be good to share. During a crisis its good to reflect on oneself. As individuals, we jointly make up a nation.

Essentially therefore the character of the nation is the collective attitude of individuals;

Our Birth is our Opening Balance!

Our Death is our Closing Balance!

Our Prejudiced Views are our Liabilities

Our Creative Ideas are our Assets

Heart is our Current Asset

Soul is our Fixed Asset  
Brain is our Fixed Deposit  
Thinking is our Current Account  
Achievements are our Capital  
Character & Morals are our Stock-in-Trade  
Friends are our General Reserves  
Values & Behaviour are our Goodwill  
Patience is our Interest Earned  
Love is our Dividend  
Children are our Bonus Issues  
Education is Brands Patents  
Knowledge is our Investment  
Experience is our Premium Account

The Aim is to Tally the Balance Sheet as accurately as possible.

The most destructive habit; Worry  
The greatest Joy; Giving  
The greatest loss; Loss of self-respect  
The most satisfying work; Helping others  
The ugliest personality trait; Selfishness  
The most endangered species; Dedicated leaders  
Our greatest natural resource; Our youth  
The greatest 'shot in the arm; Encouragement  
The greatest problem to overcome; Fear  
The most effective sleeping pill; Peace of mind  
The most crippling failure disease; Excuses  
The most powerful force in life; Love  
The most dangerous act; gossip  
The world's most incredible computer; The brain  
The worst thing to be without; Hope  
The deadliest weapon; The tongue  
The two most power-filled words; 'I Can'  
The greatest asset; Faith  
The most worthless emotion; Self- pity  
The most beautiful attire; Smile  
The most prized possession; Integrity  
The most powerful channel of communication; Prayer  
The most contagious spirit; Enthusiasm  
Life ends; when you stop dreaming  
Hope ends; when you stop believing  
Love ends; when you stop Caring  
And Friendship ends; when you stop Sharing

No intention to preach, but we sometimes need to look inward to make the maximum outward impact.

Kejatuhan pasaran dunia perlu ditangani oleh pemimpin negara dengan bijaksana dan berhati-hati. Dato' Seri Abdullah Ahmad Badawi perlu serius tentang kegawatan yang bakal menjelma. Pertukaran 'suka sama suka' potfolio dari ekonomi ke pertahanan menampakkan ketidakupayaan atau sambil lewa Abdullah Badawi dalam menangani ekonomi negara.

Jika dulu dia kata masih banyak kerja perlu dilakukan dalam RMK9 jadi sebab untuk teruskan jawatan PM, tetapi kali ini dia bukan sahaja lari dari monitor secara serius jayanya RMK9 yang banyak melibatkan Kem. Kewangan, tetapi dia lari semasa krisis ekonomi baru hendak bermula. Jadi apa rasional dia terus kekal sebagai PM? Nak buat apa kat Pertahanan? Nak berkawat!

Dato' Abdullah perlu letak jawatan segera, lagi lama dia kekal (walau seharipun) maka banyak masalah negara seluruhnya tak dapat diselesaikan malah bertambah-tambah lagi. Masalah negara, masalah rakyat, masalah ekonomi, masalah politik, partinya, masalah dirinya dan lawannya lagi. Sehingga dia sendiri terbelit-belit dengan dolak dalih dan alasannya sendiri supaya agenda boleh terus kekal dapat dipertahankan.

Ini bukan tempat dan masanya untuk menguji pengganti lagi sebab kegawatan ekonomi bukan boleh dibuat main. Ini soal negara dan melibatkan saya sebagai rakyat (ini bukan 'cobaan', ini memang benar-benar berlakulah bodoh) Jika nak serah, serah terus! sekarang..

Lebih lama dia bertahan lebih kuat rakyat akan mendesak terus. Atau kita mahukan rakyat sudah yang terbiasa dengan demontrasi mendesak PMnya letak jawatan, seperti di Indonesia, seperti di Thailand! Asal ada PM baru sahaja, tanpa sebab tak ada kerja lain nak suruh PM letak jawatan. Itulah kerja rakyat akan datang bila Badawi melengah-lengahkan masa lepaskan jawatan pada 2010. Sebab rakyat dah takde respect jawatan Perdana Menteri lagi. Dato Najib bila naik 2010 pun akan menerima desakan sama. Sehingga lah kita bakal mendapat PM yang ke-29 pada tahun 2020 nak lawan Thailand. Jangan biar budaya ini menular.

PM tak boleh hilang kawalan terhadap rakyat, orang bawahan maupun lawan. Jika dia rasa tiada keupayaan untuk teruskan, tak perlu tunggu sampai 2010, sekarang pun boleh. Ahli MT begitu juga, kalau rasa ketua kita dah TAK LAYAK untuk apa kita pertahankan lagi, ia dah jadi liabiliti kepada semua. Memberi masa untuk transisi kepada Najib hanyalah alasan lemah dan dangkal. Dan tak best langsung!

Apa tanggungjawab kita sebagai rakyat apabila kita melihat orang tua kita dah terlalu lemah, nak biarkan ke? atau kita nak dengar cakap orang tua tu?

Woi!!! Hantarlah ke Hospital cepat-cepat! Alah.. macam P Ramlee buat pada ayahndanya dalam filem 3Abdul, bukan macam 2 ekor lembu tuh..

Kejatuhan pasaran dunia perlu ditangani oleh pemimpin negara dengan bijaksana dan berhati-hati. Dato' Seri Abdullah Ahmad Badawi perlu serius tentang kegawatan yang bakal menjelma. Pertukaran 'suka sama suka' potfolio dari ekonomi ke pertahanan menampakkan ketidakupayaan atau sambil lewa Abdullah Badawi dalam menangani ekonomi negara.

Jika dulu dia kata masih banyak kerja perlu dilakukan dalam RMK9 jadi sebab untuk teruskan jawatan PM, tetapi kali ini dia bukan sahaja lari dari monitor secara serius jayanya RMK9 yang banyak melibatkan Kem. Salam Tun,

Media massa di negara kita tak ada cerita mengenai kejatuhan AIG dan apa yg kerajaan US lakukan. Sebelum ini, ketika Fennie Mae dan Freddie Mac di'bail-out' oleh krjn US, harga saham Fennie dan Freddie naik sementara shj kemudian merudum semula ... skrng mereka bail out AIG pula ..

Kejatuhan ekonomi US ini bakal sampai ke sebelah Asia tapi sayangnya media massa kita masih lagi bercerita mengenai hal-hal politik yg menjemukan dan memualkan di muka hadapan. Nak tunggu KLSE 'crash' dulu kot baru nak cerita hal ekonomi pula ...

Salah satu definisi 'Fiat money' yg saya belajar - money value backed by government trust .. selagi orang ramai percayakan sesebuah krjn, nilainya akan kukuh ... agak-agaknya la ... boleh tak kita kaitkan ini dengan situasi semasa RM vs USD ? Mungkin kita dapat jawapan yg dicari jika kita perhatikan betul-betul mengapa RM yg sepatutnya mengukuh berbanding USD menjadi sebaliknya berdasarkan definisi tersebut.

Setakat ini dulu, Selamat Berpuasa & Selamat Hari Raya kepada Tun sekeluarga dan para pembaca blog ... 9 hari shj lagi (termasuk hari ini) tapi raya tahun ini mungkin tak semeriah tahun-tahun sebelumnya ....

Kepada Tun, dan para pembaca blog, maaf dipinta sekiranya ada terkasar bahasa ketika saya memberikan komen. (Saya mungkin tak dapat melawat laman ini sehingga selepas Hari Raya)

Jez wonder why the IMF and World Bank leaders do not condemn US Govt for bailing out their ailing companies??? Why it is ok for them to do something and not okay for us to implement it . And yet they say Malaysia is practising double standard .

Good morning Honorable Tun,

God bless Tun & Family with good health & happiness.

Truly sad enough to see what is going on now. Yet, our Government is not doing something significantly to reduce or minimise the turmoil, the inflation rate, daily impact pricing.

For instance oil crude has dropped below USD 110 and at some points it were below USD100, yet, our Government still not doing anything??

Sad sad...what happened to the representatives elected by the Rakyat, aren't they supposed to voice out about the current issues either from the BN or the Pakatan Rakyat. Syabas to the PAS Pemuda urging Government to reduce the petrol price. At least they do something for the Rakyat.

Sad sad...still our Government still not doing anything importantly to curve the situation.

Still our Government is not doing anything...everyday asyik cakap cakap cakap saja....really me make feel like a fool, still thinking hoping the Government to manage the country well...Hope to have hope???  
How???

Thank you & regards,

Chuck68

Dear All Malaysian,

Please act fast before its too late, our southern neighbour is just watching the fun we are creating. They are making the economic gap bigger and moving further leaving us far far behind -- (HENDAK TIDOK LAGI KE - WAKE UP PLEASE). During Tun's day we have their respect, sekarang habok PON tak ada. Leaders dont be selfist be united. Give support and encouragement to those who can perform those who think they can't cope with the pace just give up.

Dear Tun and all

Again, i subscribe your wise recommendation to repeg our ringgit, in order to ensure stability and to face the effects of potential economic turmoils around the globe.

I hope Y.A.Bhg Tun will keep on stress it out on the media so that the executive will listen, if they don't, it is bad to our country... keep on Tun , our voice is so slow to 'em

Assalamualaikum wbt Tun and all of us here,

YABhg. Tun, i agree with Mzzainal on his statement "...Mind you, Tun is more effective in contributing towards Malaysians by avoiding Umno completely. After all, Umno is no longer what it was before. It is now a ship which belongs to PakLah and his crew."

It is bcuz, i feel that if TUN rejoin UMNO in this short period it just increase AAB's political mileage and for sure, indirectly, AAB & his family & the gang will gain some credits, not Muhyiddin nor Ku Li.

It just my feelings, but still up to you sir. I love UMNO too, but for this group of bands i would rather disassociate from them, even it is sad but true..... even i'm so sad to disassociate myself from the party that i love, as long as that wicked is still there, i have too.

Dear TUN

I feel so pity onto the article written by a person named isahbiazhar on Sept. 20, 6.20a.m. below. It is so sad to know that is still people who are so inferiority complex especially to the US economists which they perceive as very clever, very good, very correct-in-forecasting, etcetera, etcetera...

To isahbiazhar, it seems you are so amazed and kagum sangat<sup>2</sup> with the US, i think you have to read more books and journals.study more, even George Soros has to seek forgiveness from Tun for what he has done.

See how the Americans can fix the stock market in a day.Your predictions are irrelevant because you do not have the acumen.We have to be good with the Americans to survive.Even with all the good fundamentals our stock market is not doing well.We will be kept poor.we cannot depend on the Arabs because soon we will be using water as fuel and the Arabs will become poorer than us.At least the Arabs have realised and they are using the oil money to invest in the west.They have to come here because we have water; the fuel of the future.Abdullah is with the Americans but Annuar is even better as he had been with them even longer.What did you do? You criticised them and today we are suffering.Even Obama will not look favourably at us because he knows Indonesia well.When leaders become obsessed with western bashing , the country suffers.Mugabe is another one.The American can fix the world and so we have to learn from them.

Salam Doc,

As usual I found your commentary clear, incisive if not explanatory to simple minded people like me. Today you suggested the pegging of the ringgit to the dollar and I think it's simply a wonderful idea. In fact I would suggest that it should be across the board against all the currencies of the world. And likewise all the countries of the world should do the same thing.

The Money traders and speculators may cry foul but simply put there has been too much destruction caused by speculation. Not to mention the consistent inequities in the distribution of global wealth. The subjugation of the poorer economies who are mainly the producers. Money instead of being used to facilitate trade becomes a commodity of trade in the hands of speculators of the richer economies without even have to lift a finger to produce those goods.

The financial turmoil is caused by people with the same speculative traits who have gone a step further in creating so called financial instruments in the name of innovation. They are created out of nothing. Now of course it backfires resulting in losses to hard earned savings of ordinary folks and repercussions worldwide.

Malaysia is best not to have these instruments and the like in the marketplace. In fact the country should endeavour to come up with a better economic model unlike that of the West. I'm talking about a speculative and interest-free economy. An economy that promotes fair and equitable distribution of wealth,justice, mercy and well being of it's populants. Isn't that what peace[Islam] is all about? Isn't that what has been advocated in the Qur'an by the Almighty who knows what's best for us, his creation?

Brothers and Sisters

GOLD DINAR & SILVER DIRHAM !!!

As Tun Mahatir said there is not 1000 solutions,

Gold and Silver based currency only can have an intrinsic value and will not allow any individual or entity to just print/generate money out of nothing, it will be either you work hard or sell something or you don't get money.

Derivatives, securities, forex and all this circus of Financial tools are all but a scam to somehow justify the fact that money can be made out of nothing, and keep the masses poor and slaves.

Tun i came to Malaysia when i heard you speaking of creating an Islamic Trading Union and place Malaysia as the first country to restore the lost Shari'ah complying currency mentioned in Qur'an the and used by the Sahaba of our Prophet (peace be upon him)

We are working hard to bring back the values of Muamalat of Ahli Al Madina into the Arena of economics and social justice.

An open market system for everybody, and open network of distribution instead of monopolized chains (Carrefour, Tesco etc....), open production facilities.... and a currency than gives freedom to the people and that guarantees the assets of each one of us. (against inflation, riba...)

This is very simple to achieve, only needs our minds to open and see how we are/were living in the MATRIX

<http://www.muamalahcouncil.com> a humble initiative that needs the help of each one of you

Salam My Beloved Tun & Madam Tun,

First of all sorry if my previous posting have an inappropriate content thus its not being published. I'm ok as long as u have read it & u get my msg. It might be for my own good also that its not published right. Don't worry I have faith in u.

But your posting on this subject here had left an impressive impact. It clearly shows that economic & our country financial well being is not a topic just for the professor or the minister only.

Many malaysians from students to kampung folks are more open, concern & well informed of this issue nowadays especially since the previous financial crisis. And they had obviously felt the effect already. From those in the stock & bourse market to the agri sector; majority had voices their concern.

We even hv fellow usahawantani post his comment here about the already bad condition of the Malaysian market & the increase of cost of operation of his business.

So for Pak Lah to ask his 'Mr Twister' Kalimullah & his gang to 'hide' the true economic condition of m'sia & the financial turmoil in whole world is totally wrong & is a true act of a thieves & a violation of basic human right!!!

U have stolen & deny your own peoples' right. The right to know the truth. The people who have put trust in you. U should know apa hukum orang yang TIDAK AMANAH bukan???

Salam My Beloved Tun & Madam Tun,

I would like to put my humble thought regarding "The Effect of Financial Turmoil to the BN in particular MCA & Gerakan"

1. From my general observation, the chinese community is the majority shareholder in business enterprises in m'sia. I'm referring to the medium to small size businesses. Or perhaps even for the bigger corporations.
2. And the malays are being majority as the consumers. Thats explain why some chinese towkays reaping more business during malay festivities like Hari raya, wedding etc. etc. than from their own festival like CNY.
3. So with the world financial crisis that will hitting our shores soon, the chinese businessmen being the majority entrepreneur here will surely being affected. Especially the medium to small enterprises.
4. And when this happen, they will not happy. They will push their 'representative' in govt. which is the MCA & Gerakan to take necessary measures.
5. So the question is, even if MCA & Gerakan wanted some measures taken to help the Chinese businessman during this crisis can Pak Lah tackle it? The previous 5 years' record during Pak Lah admin. should give the answer!
6. If immediate action is taken & the affect is minimal & their buss. not badly hurt, the Chinese community will give undivided support. Thats what Tun experienced previously during 97/98 crisis.
7. But if nothing happen, they will support the opposition; same way as they support Tun before.
8. And like a 'sleepy person being given a pillow' the opposition voices will be stronger than ever when receiving this support. But obviously their strength is merely an illusion. Its very fragile.
9. So the opposition might win the nx election due to this support. Thats mean the MCA & Gerakan will also falls.
10. And if the opposition win & in power with majority support from non-malay, high chances a lot of govt. action will be in favour of them. The malays will surely angry & rebel. Racial harmony will be in jeopardy.
11. At the end the business will be affected also as the business environment is not healthy & malays; who is the main consumer is not happy with the chinese towkay & not buying from them anymore. So the problem is not solved.
12. So should the Chinese vote for opposition when the MCA & Gerakan fails to do anything in the govt., can we blame the Chinese for this? Obviously no. They do what they have to do. The malays did this too. They also vote for opposition when they dislike Pak Lah & last time when Tun sack Anwar .
13. So does MCA & Gerakan's silent move in the BN now helps? Are their action of letting Pak Lah continue with his flip-flop management in the govt. will not harm them? Is the chaos in UMNO as the main party in BN benefitting them? I think if MCA & Gerakan wise enough, they should know that the answer

for all these is NO!

14. If MCA & Gerakan dissatisfied with Pak Lah administration and wanted him to step down, they should voice it out without fear. In Malay, silent means agree.

15. Its your right as part of BN coalition that wanted the best govt., at least for your people. This is not racial issue. Whats the reaction will be like by other parties in BN, is another matter to handle.

16. And with current sentiment everywhere in Malaysia, I think MCA & Gerakan should not worry about this. They even will be getting support from the Malays itself, even from UMNO Malay!!

Doc,

I feel I need to expand on my comments earlier. About having a speculative-free and interest-free economy, that it's to our advantage such a mechanisms be found and put in place accordingly and as soon as we can. To shield us from any vagaries in the global financial markets the environment of which is monopolistic and uncertain. We have nobody but ourselves to blame if we suffer as a result because we continue to subscribe to such system.

The speculative-free and interest-free economy has a universal appeal to it and in the long term nations would be able to see it's beauty. I draw an example in an interest-free economy banks no longer pay out interest to savers. Savers instead has to pay a certain fee to banks for keeping the money secure. Banks now only to act as custodian of funds amongst other things. Say someone who has RM100 in the bank in the beginning will get back RM95 at the end of it. The RM5 goes to the bank for looking after the money. Can you imagine what will happened if this took place?

Yes, nobody will want to put their money in the bank if they can help it. There will be no incentive for them to do so. Instead people will always seek ways and means to find better use of their money. As a result money will always be in the system. People will be receptive to business ideas, doing the business themselves or in joint ventures etc. New businesses will thrive as a result and existing businesses prosper. People's lives will improve their productivity increased. The economy strengthening and flourishing. This is what is termed as 'velocity of money' which Economists have been trying very hard to find an answer on how to achieve it. Of course it's impossible in an interest bearing climate.

There are other mechanisms as well. It's my fervent hope that you can pursue it in your consultations with the country's leaders.

Dr. M,

Not a financial expert?!? Weren't you like, Finance Minister once? I don't know which is scarier -- that you really are not an expert, or that you only pretend to be an expert (and a modest one, at that!).

I read in yesterday's news your comment on the proposed US bailout. Reportedly, you said that the US government was willing to spend 700 billion USD for this bailout. "Willing" was the word used.

Well, I've been following this bailout thing, and even watched the congressional hearings on CNBC. And I can tell you, that the US govt is far from "willing" to spend this money.

Members of congress have been grilling Hank Paulson and Ben Bernanke with so many questions and not getting satisfactory answers.

Not only that, but there are many groups of people -- economists and financial experts, Americans -- who do not agree with the proposed bailout. Most significant, of course, is that the very people who will approve or disapprove of the bailout, do not quite agree. Or "willing".

Tun, please get your facts straight.

I've noticed that you have the habit of sensationalising issues, probably banking on the fact that most people don't know what's really happening. You state only half truths or give your own particular twist to an issue.

Like for example, comparing the proposed US bailout with what the IMF said to you a decade ago. How can this comparison be fair? First of all, the IMF is the IMF, and it's not the US. Secondly, Malaysia's economy is not the same as the US economy. (Does Malaysia owe over one trillion USD in foreign debt? Is the Malaysian Ringgit the accepted worldwide standard currency of trade and commerce?) Thirdly, as I've mentioned, not everyone in the US -- including members of Congress -- agrees with the proposed bailout (although some form of bailout will probably happen anyway).

Tun, please give fair treatment to issues.  
By RadzianAuthor Profile Page on September 24, 2008 10:16 PM

Salam Tun and other readers, below is my current thots regarding the financial turmoil, feedback and comments appreciated..

Baru-baru ini, seluruh dunia dikejutkan oleh krisis kewangan yang diakibatkan oleh pinjaman sub-prima di Amerika Syarikat. Natijahnya, Amerika Syarikat akan menghadapi tekanan dari segi menyediakan dana yang besar untuk menyelamatkan syarikat-syarikat kewangan. Jumlahnya USD 700 billion. Hanya Tuhan sahaja yang akan mengetahui jangka masa krisis ini akan dipulihkan sepenuhnya.

Krisis ini mendapat perhatian seluruh dunia. Perdana Menteri Jepun yang baru, En. Taro Aso menyatakan harapan beliau agar situasi ekonomi Amerika tidak menjatuhkan ekonomi Jepun bersama.

President Perancis, Nicholas Sarkozy yang pada masa ini mengepalai "European Union" pula berpendapat bahawa Amerika secara bersendirian tidak dapat menyelesaikan masalah ini, justeru itu perbincangan yang lebih meluas diperlukan seperti perbincangan negara G-8 untuk menangani masalah ini. Tanda-tanda adalah jelas bahawa krisis sub-prima yang bermula di Amerika mungkin menular ke Eropah atau pun negara-negara maju yang lain kerana syarikat kewangan di Amerika mempunyai hubung-kait dengan syarikat kewangan di Eropah atau Jepun berdasarkan kepada hubung-kait anak syarikat atau pun perjanjian.

Langkah berjaga-jaga yang diambil oleh kerajaan Jepun di dalam menggantung perniagaan Lehman Brothers di Jepun untuk memastikan bahawa syarikat tersebut tidak membawa bersama kemudaratan syarikat induknya di Amerika jelas menunjukkan keperihatinan Kerajaan Jepun ke atas kesan akibat ekonomi sub-prima Amerika ke atas ekonomi di Jepun.

Saya berasa bimbang apabila mendapati terdapat sikap ambil lewa oleh sebahagian ahli ekonomi mahu pun politik yang menyatakan pendedahan ke atas Malaysia berdasarkan kepada krisis kewangan Amerika Syarikat ini adalah sebanyak 20% sahaja kerana eksport Malaysia ke Amerika adalah sebanyak 20%. Sepakar mana pun ahli ekonomi, apabila menyatakan ungkapan seperti itu menunjukkan sikap ambil lewa. Sikap ambil lewa boleh membawa kepada padah sekiranya perhitungan terperinci tidak dilaksanakan. Sesiapa pun tidak boleh membuat keputusan berdasarkan kepada satu basis iaitu eksport ke sebuah negara. Krisis domestik Amerika Syarikat ini pada bila-bila masa sahaja boleh bertukar menjadi krisis dunia.

Tanda-tanda ia boleh menjadi sebuah krisis adalah jelas sekiranya perubahan situasi berlaku dengan terlalu pantas. Kronologi peristiwa beberapa bulan lepas telah menyaksikan bahawa harga minyak tertinggi telah direkodkan pada bulan Julai dengan harga USD 145 dollar satu tong. Tindakan kerajaan yang agak tergesa-gesa adalah menaikkan harga minyak dari RM 1.92 selitik kepada RM 2.70 seliter dengan sekelip mata. Tindakan ini secara dasarnya telah membantutkan keupayaan rakyat untuk berbelanja secara positif. Contohnya, saya telah membaca keluhan seorang penuntut universiti berbangsa Melayu yang terpaksa menangguhkan pembelajaran nya kerana kekurangan kewangan untuk menampung keluarganya yang muda dan berulang-alik ke Universiti. Rakyat berbangsa Cina juga mengeluh kerana secara hakikatnya mereka juga terhimpit dengan kos yang tinggi kerana rata-rata mereka tinggal di bandar. Telah wujud satu perasaan dan sentimen di kalangan rakyat untuk tidak berbelanja kerana risaukan masa hadapan yang belum kelihatan sinar cahayanya.

Kesannya, adalah pusingan wang yang lebih lembab di negara ini. Pada kos yang amat tinggi, pusingan wang (cashflow) yang lembab akan membawa kepada kemerosotan perniagaan di Malaysia. Sudah tentu ini tidak akan berlaku di dalam sekelip mata, tetapi berlaku di antara sekarang hingga 6 bulan yang akan datang. Pada hari ini, peniaga yang mempunyai lebihan tunai yang tinggi sahaja yang boleh memastikan perniagaan mereka bertahan untuk tempoh yang lebih panjang.

Pada kemuncak inflasi yang lepas, saya telah mencadangkan agar nilai matawang ringgit dinilai semula ke nilai yang lebih tinggi dan ditambat. Hakikatnya, cadangan ini bukanlah satu cadangan yang dibuat semberono. Sekiranya kita melihat dan mengkaji matawang Eropah iaitu Euro, kita akan dapati bahawa Euro memang telah meningkat dengan lebih tinggi semasa keadaan inflasi memuncak di bulan Julai. Secara sengaja atau pun tidak, rakyat Eropah telah dilindungi daripada inflasi yang tinggi dengan menaikkan nilai Euro. Eropah secara bersama mengawal matawang mereka tanpa perlu dipengaruhi oleh matawang luar.

Sistem matawang Malaysia sekarang adalah berdasarkan kepada sebakul nilai-nilai matawang terpilih. Ini bermakna turun atau pun naiknya matawang negara tidak ditentukan oleh nilai-nilai instrinsik kewangan dan ekonomi negara tetapi ditentukan oleh pergerakan matawang di negara lain. Sekiranya keadaan ekonomi tidak mencemaskan seperti adanya masalah inflasi tersebut, saya rasakan perkara ini tidak perlu menjadi satu perhatian serius. Tetapi apabila terdapat situasi yang mencemaskan, butir-butir mekanisma perlu dilihat dengan lebih mendalam.

Secara tegas saya berpendapat bahawa perubahan matawang negara sewajarnya ditentukan oleh

nilai-nilai instrinsik negara itu sendiri, terutama apabila keadaan menjadi buruk. Adalah tidak wajar sekiranya kita membiarkan, matawang ini dipengaruhi oleh sebakul matawang asing, kerana matawang asing ini tidak mempunyai pengetahuan yang mendalam mengenai kekuatan, kelemahan dan juga ancaman yang dihadapi oleh negara semasa situasi menjadi buruk.

Natijahnya, akibat daripada kelewatan di dalam mengkaji semula sistem matawang negara untuk disesuaikan dengan nilai-nilai instrinsik negara, maka Malaysia telah merekodkan kadar inflasi tertinggi di dalam sejarah sejak dari tahun 1985. Tambahan pula, ini telah menyebabkan bajet defisit negara bertambah ke 4.6%.

Inflasi yang tinggi ini berlaku di seluruh dunia. Tetapi sewajarnya kita melihat kepada kebijaksanaan Eropah di dalam cara mereka menangani masalah tersebut.

Kesan daripada kenaikan harga komoditi telah menyebabkan masyarakat Amerika tidak dapat membayar hutang-hutang pinjaman perumahan mereka. Ini telah melumpuhkan sistem kewangan di Amerika Syarikat. Kini kita melihat satu putaran kejatuhan harga komoditi telah bermula. Sekiranya pada bulan Julai, harga minyak adalah USD 145/ tong. Pada kemuncak kebangkrapan Lehman Brothers tempoh hari, harga ini telah jatuh kepada USD 95/tong. Kejatuhan mendadak sebanyak 40%. Harga kelapa sawit telah jatuh dari RM 4,500 setan metric ke RM 2,100 setan metric.

Manakala permainan turun naik harga komoditi pada hari ini adalah diasaskan kepada kepercayaan dan anggapan masyarakat pelabur mengenai keupayaan Amerika Syarikat untuk memulihkan ekonomi mereka, hakikatnya Amerika berada di dalam situasi yang amat sukar.

Adalah amat menyedihkan apabila melihat peladang-peladang di luar bandar kini mendapat hasil yang amat kurang disebabkan oleh krisis ekonomi dunia tetapi pada masa yang sama harga barang-barang masih lagi tinggi akibat kesan inflasi pada bulan Julai yang lepas.

Sesungguhnya, masa hadapan dan juga kebahagiaan hidup rakyat tidak boleh ditentukan dengan manusia yang menyatakan bahawa pendedahan Malaysia kepada krisis Amerika amat kurang kerana pendedahan eksport sebanyak 20% sahaja. Tetapi masa hadapan negara dan kebahagiaan hidup rakyat perlu ditentukan oleh insan yang peka kepada segenap perubahan ekonomi dunia, dengan cara ini barulah kebahagiaan rakyat dapat diperolehi secara kadar terus kepada kekuatan instrinsik ekonomi dan kewangan negara dan juga berdasarkan kepada ancaman situasi ekonomi dunia yang bersifat luaran.  
By ikhwan on September 24, 2008 10:16 PM

Salam Tun,

I am not an economist neither, but common sense tell me that we should peg our Ringgit to Euro instead of Dollar as it is more stabil and sought after by the European Countries.

Just a thought though

Selamat Berpuasa Tun. Semoga panjang umur di samping isteri Tun yg sangat saya hormati.

Dear Yippee

I too saw Bloomberg's live coverage of the congressional hearing. There is no doubt that the American government will release a huge sum of money from the tax paying public. The question was how was it to be done; in tranches or lump sum. Paulson wanted a lump sum of USD 700bil now. He said mainly to restore market confidence. While some wanted the bailout program to be comprehensive. But the American taxpayers in his own words 'are on the hook'. And they have no say in this. The beauty of the American financial system is that the bad guys go scott free. See also Enron. Or they could find a job in the US government working for the IMF.

Whoa dude, IMF and the World Bank are run by the US or if you prefer neo conservatives. Well at least their policies are dictated by the US. You'd think if it was about real economics they would have a Chinese as the chairman. They had dictated the usage of generalised rules of liberalization of financial institutions, opening up markets, freeing capital flow and increasing the interest rate. What happened? Capital flow went out, markets crashed, debts increased. That's the Washington Consensus for you.

Frankly they have no choice, other than sell out to a sovereign investment arm who has that amount of money, like they had to consider during the first credit crunch. In fact if AIG was split into various small bits and pieces, they could end up with a tidy sum. It could happen but not to a sizeable market capitalization the size of AIG has. Nooo that would never happen.

The congressional hearing is just politics. Just like the Iraq war. If the Democrats really wanted out of Iraq, they could do it now. Coz they hold the majority in Congress. But why are they not? Same thing here. The view is to maximise the view of disarray and mishandling of the financial institutions so that they can capitalize at the polls. See how the Democrats are underlining empathy towards the taxpayers? Politics on an Election year!

They dug their own grave and brought the whole world with them. Liberalizing and letting the market dictate was a recipe for disaster. The Americans used this as a door opener to get their high cost value added stuff down developing countries throat while the developing countries had to compete against American subsidised agriculture products. Free Trade is not Fair Trade.

Salam Tun,

I am not an economist neither, but common sense tell me that we should peg our Ringgit to Euro instead of Dollar as it is more stabil and sought after by the European Countries.

Just a thought though

Selamat Berpuasa Tun. Semoga panjang umur di samping isteri Tun yg sangat saya hormati.

abolish je 'isa', put on 'patriots' act. senang sumbat mereka kat places worst than 'guantanamo bay'... korang suka 'ala amerika'.. check kat jew watch je dah tahu siapa control siapa. we should have more people like 'mao tze tong' and 'adolf hitler'. siapa cakap banyak kasi tembak je.. 'cominism' and 'facism' seems to fit well lately...' tak perlu layan anjing2 ni semua.. ini negara kita punya, kita buat apa saja kita suka.. we don't need these 'contaminated' and 'rotten' people... we are able to survive better without them....

Salam Tun Dr.Mahatir

Mengikut laporan yang terkini Negara Jepun mencatat DEFISIT

PERDAGANGAN sebanyak US 6 Billion sejak tahun 1963, akibat

kenaikan harga minyak mental .Ekspot JEPUN ke US merosot sementara

Ekpot ke Timur Tengah dan Russia meningkat. Berdasarkan kepada

perubahan (trend) ini.

Apakah langkah langkah yang mesti diambil oleh Pihak berkenaan bagi

menggunakan advantages yang Malaysia ada untuk mengatasi Krisis

Ekonomi yang berlaku pada masa kini. Tumpuan yang lebih mesti diberikan kepada kerja untuk mengatasi masalah ekonomi daripada

USAHA UNTUK RAMPAS KUASA atau REBUTAN KUASA.

Salam Ayahanda Tun dan pembaca blogger yang budiman.

Secara umumnya, perbincangan hal ini telah membantu minda anakanda tentang ekonomi dan kewangan. Ada kala baiknya, kita harus mencari penyelesaian bersama bagaimana caranya mengatasi masalah ekonomi yang melanda US sekarang. Setidak-tidaknya kita juga telah membantu dunia mengubah polisi dan melaksanakan dasar terbaik supaya urusan dan perihal kewangan ditakbir dengan sewajarnya. Contoh terbaik telah dibuktikan oleh ayahanda Tun serta pakar ekonomi negara semasa krisis kewangan negara 1997. Faedahnya, kerajaan US dapat mengambil langkah berjaga-jaga dan mengambil teladan bagi mengatasi masalah ekonomi mereka. Juga, ianya telah meletakkan Teori Tun boleh digunapakai dan Malaysia telah dikenali di mata dunia sebagai . Kita berharap DSAAB tidak berkelakuan seperti "Jangan hanya pandai menuding jari sahaja apabila gagal mentadbir dan memimpin" Malaysia dengan bijak.

Sekian dan Selamat Hari Raya Eid Fitri kepada Ayahanda Tun sekeluarga dan semua pembaca.

Wassalam.

impian Malaysia..

your statement .. LIFE SUCKS IN SINGAPORE..

Well if you have not been here..how wld you know..oh oh .. impian!!  
If you been here..then you MUST be the LOSER!!

And we don't need losers..but we accept people who get up after being down.And we will not leave anyone behind... opps..sensitive word this..behind??? ;)

We Malaysian are still dreaming, the nightmare in the global economy are in the horror stage. If we still pretends that the economy is doing fine, than we are entering dooms day. This is more than 1998, the impact is even worst. We may end up holding useless toilet papers, the least we can do is to invest in actual properties or something solid. Those who owned pieces of land with paid up capital are in secure position, those who don't, your nightmare will begun sooner. Remember ! Do not

not hold cash (especially USD), they are down the drain faster than you could think of.

Doc,

At times like this, I wish you were there at the helm. The country sorely missed your leadership. Your ingenuity, boldness and forthrightness. In your time I remember you tried very hard to instill in us the belief in our capabilities; of our capacity that we ought to know that it surpassed anything else. What others can do we can if not better. Some picked it up others don't. Even misunderstood. My Raya wish would be to see you there again perhaps as Senior Minister or Minister Mentor. There is still much to do. You understand better. Now more than ever. I like to produce here the poem which I've published before in dedication to you and everybody here..

Maybe it is now time to have an independent economic council, comprising of professors in our local university, academics in other countries and professional economics. This independent economic council would issue reports and recommendations every quarter, without fail.

At least that way, it is HARDER for politicians/government to manipulate the economy and fool the people. Right now, there is not much "informative" debate on the economy. This is because on the government side, we have Bank Negara and other government-funded institutes issuing statements in support of the government policy while parties holding opposite views usually could not articulate or back-up their proposed solutions.

Salam Tun..

I think AAB should be arrested under ISA for committing a crime in our country. This man is destroying our country for his personal interest. This old man is very greedy. Please stop this man !! If any politician cannot speak for the country....then don't be a politician.

We need you....stay healthy Tun

ANWAR CAKAP D PARLEMEN - 5 jam!!!

He is a good at "Grumal" and sesensational speaker

It took 5 hours and more is coming  
Just to view What Tun Concerned and said since September!!!  
It is good that he reads Tun Blog too!!!!

Anwar denies that he recommended loan of IMF which (now every one know) fails  
in Indonesia  
He (and the West and US) opposed Tun Strategy of Government Intervention which has save Malaysia  
from financial disaster!!!  
Now even George Bush is trying "Tun Strategy of Government Intervention" by giving US 700billion bail out  
to financial market!
