

THE INTERNATIONAL CRIMINAL COURT
Chedet.co.cc
March 16, 2009
By Dr. Mahathir Mohamad

1. The International Criminal Court has issued a warrant of arrest for Omar Hassan Ahmad Al-Bashir, the sitting President of Sudan.

2. The ICC admits that this is the first warrant of arrest ever issued for a sitting Head of State of the ICC.

3. The alleged crime of President Al-Bashir is that he is "suspected" of having co-ordinated the design and implementation of the counter-insurgency campaign or alternatively it is also found that there are reasonable grounds to believe that he was in control of all branches of the "apparatus" of the State of Sudan and use such control to secure the implementation of the counter-insurgency campaign.

4. It is also alleged that he was responsible for;

- Five counts of crimes against humanity : murder - article 7(1) (a); extermination - article 7 (1) (b); forcible transfer - article 7 (1) (f) and rape - article 7 (1) (g); (the fifth is not stated)

- Two counts of war crimes; intentionally directing attacks against a civilian population as such or against individual civilians not

- taking direct part hostilities - article (2) (e) (i); and pillaging - article 8 (2) (e) (v) (the second crime is not given)

5. Apparently it was found that the President did not commit genocide and this charge could not be brought against him.

6. The world is aware of the hatred of the United States for President Bashir and clearly the US would like to see a regime change. Maybe the fact that Sudan has fairly large oil reserves has nothing to do with wanting to remove a recalcitrant Head of State. But maybe it has. Seems that those who have oil who are not compliant will get into trouble with the United States.

7. But the grounds for arrest can also be easily applied to (former President) George W. Bush and (former Prime Minister) Tony Blair. The two are both guilty (proven) of more killings, extermination, forcible transfer and rape by virtue of their having, as Heads of Government, actually co-ordinated the design and implementation of the illegal wars against the Afghanistan and Iraq - countries which cannot be proven to have attacked the US the way the insurgents attacked the Government of Sudan.

8. As Heads of State faced with insurgency the President of Sudan has a duty to act against the insurgents. Of course he must be control. He wouldn't be a responsible Head of State if he left the counter-insurgency measures to others. Since when has it been considered wrong to fight against insurgents? Are Sri Lanka, the Philippines and others also guilty?

9. We are not told what weapons were used by Bashir but Bush and Blair directed the sanctions which killed 500,000 Iraqi children, use of depleted uranium in bombs and shells, instigated a war between Sunni and Shiah Iraqis, killed more than 100,000 "civilian not taking direct part in hostilities," detaining and torturing prisoners outside the law and a host of other crimes against humanity which deserves to get the attention of the ICC; which the ICC should issue warrants of arrest.

10. If President Bashir is considered culpable, then Bush and Blair must be considered even more culpable. Many other Heads of Governments must also be issued warrants of arrests.

11. But the ICC is obviously applying double standards, picking on President Bashir but ignoring the

perpetrators of the same crimes by other Heads of Governments. It is the essence of justice that it applies to everyone equally. How can we respect the ICC if it is so obviously biased and openly discriminates between different people?

12. I would warn the Heads of State of other weak countries that they are likely to suffer the same fate as the President of Sudan. It is not necessary that you have done something wrong. If you are a recalcitrant, trumped up charges can be made against you and warrants of arrest issued. You are aware that the United States is bent on effecting regime change everywhere. The ICC will be a good apparatus for this. It will be cheaper than shock and awe invasions.

13. The world must condemn the ICC action because it represents a travesty of justice. If this is allowed to go through, the ICC will become another apparatus of resurgent imperialism of the powerful countries.

14. We are already living in an unjust world. There will be more injustice with the setting up of ICC.

Tun,

The way you described the inability to prosecute or take further action against former President of USA and the former Prime Minister of Great Britain suddenly reminded me of what's happening in the Malaysian political scenario.

Whenever there's anything against the Oposition in Malaysia, the Police, ACA/MACC, FRU, DG, etc... all acted swiftly and most of the time will be charged and convicted. If not, ISA will be considered.

And when there's any cases or reports against any GOVERNMENT members, NOTHING is heard or being done, NOTHING! Even you recently pointed out with regards to the reports on money politics in the UMNO election, everyone seems to be so busy and do nothing.

Not sure if this legacy was a precedence of your era, I would suggest you with your influence to look at what's happening back in MALAYSIA rather than start pin pointing on other countries which has nothing to do with the Malaysians....

Salam kasih dan hormat Ayahanda Tun. Well, I believe that Sudan is at a point where in a couple of years, it too would be dining on the same table with The New Seven Sisters. And OPEC has already given them due recognition. First it was the IAEA, and then came IEA and now they've cooked up ICC. Gold Tun, Black Gold along with Hydro-Carbons and all. The poor President; they would take him down with any kind of charges they could think of, he could even be found guilty for swatting a fly – they would say it's a rare and nearly extinct Sudanese species (and the UN would back them) :)

Salam Dr. M...

War isn't a criminal act, as far as ICC is concerned...although they called it as the "war against terrorism", all we could see is a total invasion and occupation...what is war for ICC actually?..

Have the masterminds behind the massacre of the people of Jenin, Sabra and Shatila, and among many other atrocities been charged by ICC?...if my memory served me right, they were enjoying the moment of their life as Prime Miniter instead of facing the ICC's 'justice'...

Agreed with item 9, we should force ICC to issue warrant of arrest to them because they failed to provide concrete evindence the existence of WMD. The world communities should wake up and uphold thier rights.

Israel should also be included for crimes against humanity. They stole land from the Palestinians and now they are killing the unarmed civilians.

They engage in state sponsored terrorism. Even their army personnel are troubled by their conscience at the disproportionate scale of "self defence".

Seriously, does anyone really think that the USA will really change its way with the new president on board? The American Dream is about getting richer and bigger - the triumph of survival of the fittest. Obama slogan for change - will mean a change of tactic. But the ultimate aim is till the same. The power corridors of Washington and Pentagon still of the same people. The lobbyist (checkout the link on my name) is still the same people and as powerful as ever. The wise old man used to say 'Musang berbulu ayam'.

Tun, may God bless you and family and give you peace here and after. Amin.

Assalamualaikum Tun,

I believe that the US deliberately conjured up charges against President Bashir to cover up for their own ugly misdeeds. There has been call for Bush and Blair to be put on trial but these dudes will not allow it so they go on picking on someone of not their own size to bully. ICC was just merely following the "orders".

The US have nothing except size and the control over media yet they control the whole world and bend rules to its whims and fancies. Britain realises this hence don't mind being used as US's doormat.

Malaysia might someday be pierced with the eagle's talons if we're not careful. We have oil and we're Muslim dominated country. If they (US) won't bully us, maybe they can go through Singapore to do the dirty job for them. Touchwood...

Dear Tun Dr M,

It is very true to say that we are living in an unjust world today. However, if you ask each and every citizen of the world, he will also say the same. If that is the case, then who is actually unjust ? It is my opinion that, everybody in the world is selfish, greedy, egoistic, racial and self centered where the level of magnitude differ from one and another.

I would also suggest that the History subject taught in the schools should be on a bird's eye view level and not any deeper. The deeper we study History the more we learn about our forefathers and their evolution and predicament. I feel history is one of the major factors that boosts and nurture racial, religious & territorial hatred sentiments.

The International Criminal Court, of course has some influence of the USA and is seem to interpret law on the Caucasian way of thinking. If Omar Hassan Ahmad Al-Bashir , The President of Sudan, is issued a warrant of arrest by the International Criminal Court then George Bush (US), Mahinda Rajapaksa (President of Sri Lanka) and the Prime Minister of Israel too should be assumed as war criminals and should be tried in the International Criminal Court.

Dear Tun

It is most unfortunate that the world has becoming unsafe to live even when you have done no wrongs! Even worst the main culprits or criminals are not prosecuted for the their misdeeds! One day we will face similar fates because we do not kow-tow to their demands!

As we see today in Malaysia the government has gone soft when dealing with organizers of illegal demonstrations. If one day these politicians rule the country they and their supporters will show no mercy because they are full of hatred and revengeful of the ruling government.

You see certain leaders today are not only corrupt but have low morals and hypocrites. I hope the new PM can undertake challenges with more wisdom and authority. And to ensure our citizens are consistently protected and the criminals are rightfully punished.

By amin tanAuthor Profile Page on March 17, 2009 12:57 AM

Dear Tun,

I am surprised that ICC issued warrant of arrest for president Basir of Sudan. You implied that the US is involved by implication the US president Barack Obama is involved. My instinct tells me that it is highly unlikely that Obama is involved knowingly gloating the oil in Sudan. I trust Barack Obama for a number of reasons.

1. first day of presidency he ordered closure of Guantanamo prison.

2. he ordered US troops withdrawal from Iraq

3. in his inaugural speech he offered his hand to the Muslim countries to unclench their fists.

However, in the case of US invasion of Iraq, Bush and Blair were not wholly to be blamed. The US Congress and British Parliament approved the invasion with big majority and on bipartisan basis. This means the Western enmity towards Muslim countries persists. We can compare the Western countries of today to the Mushrikin of Mecca during the era of Prophet Muhammad. While fighting the Mushrikin Prophet Muhammad did that their leaders convert to Islam. As a result Omar, Khalid al Walid, Abu Sufian converted to Islam. Those who opposed the prophet fiercely like Abu Lahab and Abu Jahal were promised Hell by the Quran. Those early pious converts were promised Heaven like the ten blessed companions of the Prophet Asharatu'l Mubashira. I am hopeful Barack Obama would be the equivalent of one of the Asharatu'l Mubashira. Let us pray Barack Obama represent a new dawn of hope, peace and prosperity to the world. The Muslims must follow the Sunnah of the Prophet and pray the great enemies of Islam especially of the Western world receive enlightenment (Hidayah) and convert to Islam. Bush and Blair can still repent and convert to Islam like Hind and Washi who spared Saidina Hamzah to death.

Dear Tun,

Yes, absolutely double standard. ICC deserves to be called Idiotic Criminal Court with zero ground credibility. The judges are all idiots of the first order. They don't deserve to be called judges in the first place. They are all pariah judges. Make no mistake about it.

By mikeadyla Author Profile Page on March 17, 2009 1:50 AM

I had the honour of interning with the International Criminal Court and to witness our first trial, and for the purpose of this topic, the first time ICC has issued an arrest warrant against a Head of State.

I also had the honour of growing up reading about your thoughts, and I have the highest regards of what you have brought to Malaysia, albeit your flaws.

In a way, you, sir, and the ICC have a lot in common. Flawed, as all creation must be, but at the end, bringing nothing but greatness and growth (you for Malaysia, international law for the ICC) towards the world.

Granted, my research was based on the flaws of ICC, but having been in the system, I have to say that albeit our flaws (I'd attribute it to being a young court), to say that our process of selecting, analysing and investigating and issuing an arrest warrant to be biased is a dismissive onto all which what the court has tried to be - an international court.

The court works on jurisdiction - the flaw of the system is that countries refuse to ratify the Rome Statute (not just the US, but also Malaysia).

To clarify on what the ICC investigates and what we analyse, we can take a look here :
http://en.wikipedia.org/wiki/Complaints_to_the_International_Criminal_Court

The reason Darfur was specifically brought to be investigated, is in respect of the Security Council referral of Darfur to the ICC. Because of this, the ICC acts. It is not because we have some insidious agenda against President Al-Bashir. We also issued arrest warrants against 2 other Darfur rebels.

Afghanistan, is already subject to intensive analysis by the ICC. We are, investigating Afghanistan, why? Because the ICC receives complaints, and Afghanistan ratified the Rome Statute in support of the court.

Complaints on Iraq has been dismissed. Why? For reasons of jurisdiction. ICC, simply to say, has no jurisdiction on Iraq, because Iraq is not state party to the Rome Statute. It is dismissed after analysis on our jurisdiction. It is unfortunate that the ICC is unable to investigate Iraq, but the power of ICC only extends so much.

The ICC's focus and commitment towards peace, is not a matter of appeasing any political actors or parties. If anything, our recent attitude towards world peace is the step in the right direction. Unfortunately, we are unable to work against those who refuse to sign the Rome Statute (for example Malaysia and the United States), but take out those who did not sign, and you will see how every countries which have signed the Rome Statute have begin to align the way the conduct war in accordance with the Rome Statute. That is, as I see it, initiative towards justice at its best.

The best thing about the ICC, is of course, if you look at our recent initiative:

<http://www.latimes.com/news/nationworld/world/la-fg-court-palestinians5-2009feb05,0,6059347.story>

The only reason ICC can even consider analysing the Gaza strip, is because the Palestinian Authority accepted the jurisdiction of the court.

Thus, with all due respect, I have full understanding on your view on this matter, unfortunately enough, we work within the lines of international law, which dictates we respect sovereignty of nations and cannot impose a court onto those who does not agree to it in the first place.

The good news is, of course, that war crimes could happen right here in Malaysia and the ICC would also not have jurisdiction. :).

RM10 Billion For Cleaning Up Sungai Klang

SHAH ALAM, March 16 (Bernama) -- The Selangor state government has allocated RM10bil to clean and rehabilitate Sungai Klang aimed at spurring economic growth via housing and tourism projects.

Menteri Besar Tan Sri Abdul Khalid Ibrahim said Sungai Klang would be developed as an alternative public transportation system.

He said the project cost allocated under the state's economic stimulus package involves the removal of toxic waste and sediments from the river bed stretching some 120km.

"First to be implemented are projects at the estuary and upstream, slated for completion in two years. When fully completed, the river's reserve areas are expected to attract investments of RM5bil," he told reporters at the state assembly lobby here Monday.

Sungai Klang which has its source at the Titiwangsa mountain range traverse across Klang Gate dam, Batu dam and Ampang, bordering Pahang.

It is one of the largest rivers in Selangor while its basin is fourth largest after Sungai Langat, Sungai Selangor and Sungai Bernam.

Khalid said the state government also plans to extend the Light Rail Transit (LRT) system to Klang, Kajang and Rawang.

"Some investors from Germany are interested to brief us on the LRT system. I will be meeting them next week," he said.

comment:

Menteri Besar Selangor is a real Pak Pandir. He is talking pure rubbish. Tonggong !! The question is how is he going to get that huge some of money to fund all those projects. I can bet nothing will materialise at all.. Dia cakap macam di kedai kopi simpang lima semasa just to impress that he has got fantastic ideas. Podaaah !!

A'kum Ayahanda Tun,

1. Memanglah benar kalau kita mengandaikan ketidakadilan berlaku dimana-mana. Jika kita bercerita tentang ketidakadilan global bagi saya sesuatu yang diluar kemampuan kita tetapi wajar untuk ambil tahu.

2. Apa yang membimbangkan saya ialah ketidakadilan yang berlaku di Malaysia dan UMNO. Malaysia sebagai negara yang demokrasi berparlimen mempunyai rakyat pelbagai kaum dan agama hidup dalam suasana aman dan damai sejak sekian lama. Malangnya sejak akhir-akhir ini terdapat segelintir manusia yang tidak bertanggungjawab mengambil kesempatan diatas kelemahan pentadbiran kerajaan sekarang. Mereka mencemarkan sistem demokrasi itu sendiri dengan pelbagai cara yang sesuai pada citarasa mereka dan mengelarkannya KEADILAN untuk rakyat. Kerajaan sekarang pulak yang semakin lemah tidak berbuat apa disebabkan takut kehilangan kuasa dan pengaruh sebaliknya memberikan mereka ruang untuk meneruskan agenda mereka sehingga menakutkan rakyat.

3. Didalam UMNO pula terdapat begitu ramai pemimpin-pemimpin yang tidak minat berpolitik akan tetapi diberi tempat untuk memegang jawatan. Mereka menggunakan pengaruh wang untuk mendapat tempat, tidak hairanlah kalau ada dikalangan mereka yang tidak tau langsung isi kandungan Perlembagaan UMNO. Apabila kesalahan mereka ini dilapor ianya sekadar menjadi laporan biasa yang akhirnya akan lenyap tanpa sebarang tindakan. Ini yang memualkan rakyat sehingga rakyat menolak BN pada PRU yang lalu, pemimpin tertinggi UMNO lupa bahawa ahli-ahli UMNO juga adalah rakyat yang akan mengundi dalam Pilihanraya Umum. Mereka yang benar-benar ingin berjuang disingkirkan kerana tidak menepati citarasa pemimpin atasan sebaliknya mereka yang hanya ingin mengambil kesempatan mendapat tempat.

4. Perlembagaan Malaysia di pertikaikan dan Perlembagaan UMNO dipinggirkan, apa lagi yang kita harapkan hanya dengan melaungkan slogan KEADILAN???

Despite your impeccable knowledge on world affairs, let's pause for a moment and see what's happening in Malaysia right now....!

It's indeed pathetic to see in which direction Malaysia is heading now, politically speaking of course!!!

A PM in-waiting (Najib), who has not gone through the proper electoral procedures, is going to be the next Prime Minister of Malaysia?!!!! Is Malaysia practising "colourful" communism? Is a population of 27 million beholden to the whims and fancy of UMNO's supreme council?!!!! God help Malaysia!!!

I have only mentioned the above though I believe there will certainly be more "skeletons" falling off the cupboard in the coming days which will ultimately embaress Najib, and not to mention UMNO, leading to UMNOs total extinction! Tun! Please step in, in whatever honourable way you can, before my words become action!

As it is, there are too many unanswered questions, pertaining not only to Najib but several UMNO/BN politicians and if unchecked, will see the demise of this beloved party which you once headed, go to the "dogs" (please pardon my lingo) sooner rather than later!!!

Whilst I appreciate your eye opening article on the ICC, one should look and clean our own backyard before commenting on world affairs! No offences meant, Tun! I still appreciate your views!

Appreciatively,

Das

Dear sir,

I am absolutely agreeable with all of your comments. You are indeed a real honest statesmen.

My US government is really a state run by barbarians. We don't have much hope of Pres. Obama too.

My question is, any effective way of eradicating the function of ICC? How could we make that happen

quickly for the sake of the better world?

My best wishes and regards.

Florida.

16hb Mac 2009.

Saya merujuk kepada kenyataan YAB Lim Guan Eng (New Straits Times, 14 Mac 2009-Hadi must clarify remark) yang menuntut supaya YB Dato Seri Tn Hj Abdul Hadi Awang menjelaskan kepadanya apa yang dimaksudkan oleh Tn Haji Hadi mengenai cadangan untuk menubuhkan sebuah kerajaan campuran bersama Barisan Nasional. Kenyataan YAB Lim Guan Eng menampakkan beliau tidak mempunyai keyakinan langsung terhadap pentadbiran yang berasaskan stabiliti dan perpaduan. Kenyataan Ketua Menteri Pulau Pinang ini jelas bermaksud bahawa beliau ingin memecahbelahkan rakyat melalui mainan politik sedangkan rakyat sedang menuntut agar pemimpin beri tumpuan pada pembangunan ekonomi dan hentikan politik perpecahan. YAB Lim Guan Eng sekali lagi menonjolkan sifat kurang ajarnya apabila cuba mengagalkan cadangan agar Melayu menyatukan kuasa politiknya di negara ini. DYMM Tuanku Sultan Selangor, DYAM Raja Muda Perak dan DYAM Raja Muda Perlis telah menyarankan sebelum ini agar Melayu bersatu serta memberi amaran supaya pihak-pihak tertentu jangan cuba memecahbelahkan perpaduan di kalangan rakyat. Saya sendiri telah mencadangkan agar PAS kembali kepangkuan BN supaya dapat kita bersama mentadbir negara dengan aman dan baik. Soalnya kini, kenapa DAP mempertikaikan penyatuan Melayu? Kenapakah DAP lebih suka Melayu berpecah seperti yang berlaku di Perak dan Pulau Pinang? Saya melihat YAB Lim Guan Eng lebih mementingkan kuasa politik partinya daripada memastikan kestabilan negara pada masa yang penuh mencabar ini. Ini adalah bukti pemikiran kepimpinan DAP yang cetek, dan YAB Lim Guan Eng lagi sekali menunjukkan sifat perkauman dan chauvinis parti DAP. Yang paling penting pada waktu ini, adalah perpaduan rakyat, dan bukan kepentingan satu bangsa sahaja. Saya benar-benar berharap pihak PAS dapat menerima baik saranan YB Tan Seri Muhyiddin agar satu cadangan untuk perpaduan yang bertulis dapat dikemukakan kepada Barisan Nasional untuk dipertimbangkan sebaik mungkin. Pada masa yang sama, saya di sini MEMBERI AMARAN kepada Dato Seri Anwar Ibrahim supaya jangan terus jadi dalang dalam memecahbelahkan bangsa Melayu dan rakyat Malaysia.

Sekian.

YB Dato Mukhriz Mahathir.

Assalamualaikum.

1. Being justice is difficult.
2. No standard definition of being justice.
3. Even we view it as justice, some will view it as injustice.
4. More difficult when it comes to our own family. ICC is a family of America/rich countries or America is a family of ICC. Sudan and poor countries is not even a relative!

Thank you Yang Amat Berbahagia Tun for posting this ICC issue and I wonder how many learned citizen of the world who are surfing the internet realise the so-called democratic nations such as US will make use of international bodies that are set up by them such as UN, ICC etc to act on their behalf.

I am worried with our own Malaysian citizen ourselves because many of our learned citizen who have been spending much of their prime life living in these so-called democratic communities while they studied in these countries will support their agenda. They might not be able to rationalise your argument well.

YAB Tun, the perception of blaming others but not ourselves have always been the agenda of these so-called democratic nations.

A judge has to be fair and impartial in making judgement based on facts presented. However, if the facts planted were in favour of the so-called democratic nations, I cannot fathom what kind of world we are creating.

No wonder Allah has a special place in Neraka for judges.

The findings made by ICC were merely concluded on the grounds of 'a reasonable grounds to believe' the same method used by The Royal Commission in Lingams video case which implicated Tun as part of the conspirator. ICC 'prima facie' evidently is a tool of America to surpese the muslim world.

By EmetjaisAuthor Profile Page on March 17, 2009 9:05 AM

Salam Tun.

Justice is a matter of perception. For the powerful like US, Europe & Israel, they are the untouchable. For the weak like Sudan, Palestine & other muslim countries, they are all vulnerable. China, once humiliated by the European & Japan, has succeeded in making itself powerful by going nuclear. The world has progressed tremendously but the principle remains same ie Might is Right. Thus, please lobby to make Malaysia a nuclear nation.

Dear Tun & all,

This is all so called the redneck agenda to invade all the oil rich country and to remove all the muslim in this world.

I hope one day we can teach all this morons and uncivilized peoples how to respect others and think first before doing or decide something.

Obviously, this is nonsense and we should protest whatever ICC try to do until they bring that western monkeys, Bush & Blair, to the judgement.

Peace Malaysia!

Salam Tun..

Smoga sihat selalu hendakNya..

Apa yang diutarakan oleh Tun di sokong 100%.. Memang benar, dunia sebenarnya di tipu oleh zionis dan ejennya.. Penubuhan badan dunia sebenarnya untuk menguasai dunia secara tersirat..

Contohnya :

i- Liga Bangsa/United Nation - Bagi Mandat tubuh negara Israel. Secara tersurat, ada bantuan kemanusiaan. Secara tersirat UN adalah platform untuk ejen zionis menghalalkan cara. Cth. guna mandat UN untuk serang Iraq pada 1990, condemn negara tertentu tapi negara Israel tak boleh di condemn.

ii- IMF - KONONNYA bagi pinjaman untuk bantu negara miskin, tapi dengan kadar bunga yang tinggi, negara itu akan terus dibebani hutang yang tinggi dan terus dibawah cengkaman IMF-dibelakang IMF adalah ejen zionis

iii. ICC - Ditubuhkan untuk jadi pengadil untuk selesai isu2 dunia. terbaru keluarkan waran untuk tangkap Omar Al-Basyer KONONNYA menyokong pembunuhan beramai2.. pemimpin negara dunia lain yang secara terang2 membunuh tidak pula didakwa..

Jadi, negara Islam seharusnya berhati2 dengan maksud tersirat disebalik penubuhan Organisasi Dunia yang ingin menguasai negara Islam...Wasalam

Dear Tun,

1. Terima kasih di atas maklumat. Sebenarnya ini adalah kali pertama saya mengetahui perkara begini berkaitan ICC. ICC ini masih dikuasai oleh kuasa-kuasa dunia.

2. Nampaknya, negara kita yang kecil ini mungkin juga akan menerima nasib yang sama jika berlaku

senario sedemikian.

3. Semoga keamanan sentiasa wujud di Malaysia. Peace No War.wassalam

Tun,

While we lump this latest action by the 'west' backed ICC against rightful 'recalcitrants' as a crime in itself, we must accept that it is a 'Court of Justice' at the international level. After all, there will be a trial, and there will be representation for the arrested Head of State.

Same here in our beloved country. We have head of states or statesmen detained and put to trial. It may be courts of seeming legitimacy or that final court of democracy. But nevertheless justice is mete out as best as we can see, albeit by force if necessary. At times we are perplexed at what this letter of law is, and at times we totally forsaken even our tongues to read it. Law is after all man-made and humans do err, as the saying goes.

You must agree that when a standing Speaker of the House cannot even have his own decent fundamental representation, then no trial can even begin. What is happening in Perak can potray a drama of human conflict as creative as it was on the map of colonisable Africa.

As Abaraham Lincoln once stood in the face of seemingly irreconcilable domestic human conflict, has to proclaim that governance is an act 'by the people, for the people' rather than by any letter of force.

Tun,

You have spoke well on the Gettysburg of the world, proclaiming for the voice of the downtrodden people everywhere to be heard. This time many have reawoken to clearer reason and compassion.

Allah Bless us all,

the same scenario is happening in Malaysia, in which any corruption, crime, murder case are investigated in some unlogic manner if it involves certain party ... exactly what happened as Tun mention in Sudan case ...

Why Tun did not comment for same things that happened in Malaysia, but more care of Sudan which is so far away?

Sometime ppl call it as memimpin mengikut teladan ... we can always comment and critic anyone, but we must ensure that we do not implement things that we critic on others ...

Salam Tun,

To ah heng on March 16 2009 7 : 56PM

You are saying something that you are not sure of. Ignoring what have been said by Tun about the weaknesses of the present government tantamount to not acknowledging it! How can you say that only the bad legacy has been created by Tun. What about the good legacy? The majority of Malaysians now have been made aware of what is happening around them. I must say, it is the result of his contribution that Malaysians have learnt to identify and differentiate between the good and the bad leaders of the world!

Why must we allow ourselves to be hypocrites and accept people like Bush, Blair and Sharon? They are

not innocent people and they have committed crimes against humanity in Afghanistan, Iraq and Lebanon. They are proven guilty of their killings of the innocent people as deliberately shown on televisions, designed to implant fear the world over! If this is so, television companies can also be seen as having a hand to intimidate the world! But, exposing the heinous crimes carried out by these rogue leaders can be tolerated.

How can the ICC ignore this? If the ICC continues to ignore the crimes of these rogue leaders, it will only lead us to believe that they are in cahoots with them, and they have to be incriminated too!

By BaharuddinAuthor Profile Page on March 17, 2009 10:26 AM

Salam Tun,

It seems the law in the world belongs to the western people. The alleged killings committed by Hitler's regime seems like a dwarf if compared to the one committed by Bush and Blair.

Muslim world are given the greatest gift from god, i.e abundance of black gold. The 'gift' can control the world economy but we can see what had happen to the muslim world. In-fighting, back-stabbing to name a few and who gain the most? It doesn't need an intellectual to answer the question.

Double standard is a norm in M'sia even during your days as the PM, so it's nothing new to what's going on in the M'sian political world.

I guess there is a good reason for the double standard but it seems unfair to the "small fry" like me. I have to pay summon for speeding but someone with 'good cable' need not pay a single sen whereby this someone is many2 times better-off than me.(Just one example)

I suggest Tun to be the Head of MACC. If DSN is smart, brave and sincere enough, DSN should and must appoint Tun as the Head of MACC. Maybe then the rakyat will have more confidence in the coming gov. And I hope Tun will walk the talk in the crusade of money politics.

Wassalam.

tindakan anda yang ingin mempersalahkan tindakan TUN semasa pemerintahannya hanyalah menyiram minyak ke dalam api. Harus di ingat...PM Britain dan President US sememangnya perlu di bawa ke ICC. Dan jangan cuba menegakkan benang yang basah dan cuba mengapi-apikan masyarakat Malaysia dan terutamanya masyarakat melayu. Tindakan anda hanyalah untuk memecah belahkan kaum melayu yang ingin bersatu melalui suara TUN..

By cyberdroxxxAuthor Profile Page on March 17, 2009 10:37 AM

Tun yang sangat dihormati,

Saya memang benar-benar bersetuju bahawa Bush dan Blair yang sepatutnya didakwa oleh ICC dan dihukum kerana telah menyebabkan ramai rakyat Iraq terbunuh. Hukuman terhadap Bush dan juga Olmert sepatutnya ditambahkan kerana menyebabkan ramai rakyat Gaza terbunuh dan kemusnahan kepada Gaza dengan sewenang-wenangnya. Bukti jelas mendapati bahawa kekerasan yang mereka lakukan terhadap mangsa yang tidak berupaya dan mempunyai peralatan pertahanan yang setanding dengan serangan mereka.

Obama boleh mengeluarkan perintah untuk menghadapkan Bush ke ICC supaya dunia dapat melihat keadilan ICC dimasa akan datang. Dunia juga harus memberi tekanan kepada Obama untuk mengambil tindakan terhadap Bush.

Semoga berpanjangan umur Tun berdua suami isteri.

Dear Tun,

Pak lah said "It is our intention to have adopted Islam Hadhari as a comprehensive approach to the development of mankind, society and the country.

"We feel that everyone can be comfortable with Islam Hadhari because it embodies principles which are universally familiar and accepted," he said.

comment:

Islam is Islam. There is no such term as "Islam Hadhari" as if it is another sect or branch of Islam. So this Islam Hadhari is all nonsense. Just a political gimmick and a slogan created by Pak Lah.

I would suggest to Najib not to create another Islamic slogan like "Islam Sadari" to replace Islam Hadhari and forget promoting this Islam Hadhari. It makes the Muslims confused.

By AZIFAuthor Profile Page on March 17, 2009 10:44 AM

Tun,

This is the truth, the whole truth, and nothing but the truth.

Obama is now blaming the Arabs for the trouble in Gaza.

Isreal is preparing to attack Iran? America decide for what will

benefit them. Hamas is considered a Terrorist. Sudan will be rule

by those in favour of US Ideology. George Bush , Tony Blair, John

Howard, Olmert must be trial in the International Tribunal for

their previous acts as well if the world want justice.

Tun, Sudan has tremendous reserved of oil and gas, and with this US

will dictates how this wealth will be distributed in their favours,

especially now when the world economy is bad.US & Isreal would not

mind declaring war on any countries now.

Muslim all over the world must be united, and Tun is the voiced

speaking for all the wrong doings of those in power bullying others.

Salam Hormat TDMM & TDSH,

With power people can do anything! 'Haram' become 'Halal' just because of power. Chaos in Sudan obviously ignited by the western to the maybe minor opposition then but when the idea of opposing the opponent has been inculcate over year the minor opposition has become major.

Having landed in Khartoum for many times I was amazed with the exhibition of the development. Maybe this is one of the factor that the western refuse to see. They don't agree the positive progress of the development and civilization of Sudan. To them this has to be stopped. Can they do that?!!

The western has not realize that many of the third world population travel so far and obtain education from them with INTEGRITY and that is the reason all these poor country are developing.

In addition the world is getting old and the superpower in becoming insane.

THANK YOU SIR!!!

Greetings dear Tun,

While I may subscribe to Tun`s views on the so-called double standard and selective persecution by the ICC over Sudan`s current President, I am also inclined to agree with some of the readers` comments that these things are being blatantly displayed and practised in our own backyards, in power-play modes, without any concern to their ramifications at all.

Still, the ICC`s verdict is only good on paper as it does not have the power or means to implement the warrant of arrest. It only hopes to gardner world opinion against Sudan`s President for his part in war crimes as pronounced.

Always stay well, Tun.

Salam kasih dan hormat Ayahanda Tun.

President Bashir is facing five phony charges by the ICC. And the ICC has said that if Sudan fails to comply with their request, then the matter would be forwarded to the UN for further actions, possibly a sanction. Khartoum has every right to reject the ICC rulings on Bashir. Its not even worth the ink and paper it's printed on. But we see here, a concerted global effort by the very same people who controls UN, IAEA, and IEA to break into the politics of oil producing nations of the world. Louis Moreno Ocampo is nothing more than just a dim witted string-puppet for the US and the Zionist. The ICC has no powers to enforce its own warrants (that already shows the kind of lame duck stooge it actually is), but any "suspects" can be arrested on the territory of states that have signed up to the court's founding Rome Statute. Now they are pushing for an "international house arrest" case against a legally elected head of government. Something must be done here to send the message squarely back to Capitol Hill, Downing Street and Rehavia Jerusalem, that the US and Brits should just stop playing stooges for the Israelis already. Now we can see them making a play for Iran. Biggest oil producers that's not in their stable yet. Chavez had been under tremendous attack by them all the while already. Now, the ICC should drag Bush and Blair to trials for horrendous genocide committed by the two in Iraq. Show the eager world they can

do this, and I am sure Bashir would gladly walk up to their door steps whistling. If the ICC wants credibility, they should first get those two (Bush and Blair), the principal war criminals in modern human history.

Petrodollar scam – the fall of US dollar.

People do not realize the real reason for the Iraq war and the current war threat against Iran by USA.

It's not the nuke, it's not the terrorism and it's not the oil.

It's all about the protection and the propping up of the greatest con-job in recent history, The US Petrodollar Scam.

- Back in 1971, the USA printed and spent far more paper money than it could cover by gold.
- Few years later, the French demanded redemption of its paper-dollar holdings in gold. But the US rejected as it actually didn't have enough gold for the dollars it had already printed and spent all over the world, thus committing an act of bankruptcy.
- So the US went to the Saudis and cut a deal – OPEC denominate all sale of oil in US dollars.
- From that point, every nation that needed to buy oil had to firstly hold US dollars, which meant that they exchange their goods and services for dollars, which the Americans just printed.
- The Americans bought their oil literally for free by printing those dollars. The ultimate free lunch for the Americans at the expense of the rest of the world.
- However, the scam began to unravel when Saddam Hussain started selling Iraq's oil directly for Euro, abrogating the cozy arrangements the Americans had with OPEC. Thus Saddam had to be stopped. How?
- USA concocted up a pretext to wage war (drama of twin tower blast) and invade Iraq and the first thing the American did was to revert sales back to dollar. The currency crisis war averted for the moment.
- But Hugo Chavez (Venezuelan President) also started selling Venezuelan oil for currencies other than dollar, so there we a number of attempts on his life and "regime change", traceable right back to the CIA. The petrodollar cat was out of the bag.
- The Iranian president (Ahmedinejad), watching all of this, decided to kick the great satan in the goolies and do the same thing – sell oil for every currency except US dollar.
- The shell game is coming to an end for the Americans. As the nations of the world find that they can buy oil with their own currencies instead of holding paper US dollars, more OPEC nations will abandon the US dollar.
- The worst thing for the Americans is that eventually, they will also have to buy their oil with euro or rubles instead of just printing paper money to get it.
- That will be the end of the American empire, the end of funding for the US military and the destruction of the US economy.
- The great scam is coming to an end and there's not a lot that the US can do about it, except start another world war!!!

• Wait and Watch!
