

## **CRIMINALISING WAR**

**chedet.co.cc**

**November 2, 2009**

**By Dr. Mahathir Mohamad**

1. The conference on criminalizing war (making war a crime) was held for two days (28 - 29 Oct) at the PWTC and was followed by a sitting of the Kuala Lumpur Commission on War Crimes and the Tribunal's sitting on 31st October to decide on whether it was competent to hear the complaints of the victims of Guantanamo and other places of detention as well as to decide on whether Heads of State and Heads of Government are liable for war crimes committed under their rule.

2. Many have asked what can this conference and the hearings by the commission and tribunal do.

3. If I may be allowed to explain there are many things which were common, normal and accepted in the past which the whole world rejects now. The rejection was achieved actually by the people gradually realizing that these practices were wrong and unacceptable.

4. Thus slavery was common and proper in the past but is totally rejected now. Black people were regarded as subhuman almost but today blacks may even become president of the most powerful white nation. Women too were regarded as inferior and not as capable as men but now they have equal status with men.

5. Torture was acceptable in the past but is now considered illegal and criminal. Human rights were unknown before but now the world accepts that every man or woman has a right to be treated well. And many more.

6. All those changes in human perceptions and values have been brought about mostly by people agitating against these practices, forcing their Governments to pass laws to abolish them.

7. But war is still accepted today although certain acts are regarded as criminal even in war. If war itself is made a crime than automatically war crimes cannot be committed.

8. To make war a crime, the people must condemn it as unacceptable, just like they did with slavery etc. Why should war be condemned now when it has always been a common means of settling disputes between nations?

9. War is basically about killing people. Everyone regards killing people a crime. How can we consider killing a person a crime but killing thousands of people not to be criminal. In the past the capacity to kill and damage was limited because of the weapons being less lethal.

10. But today the weapons can actually wipe out the population of the world and destroy it physically. Even the use of depleted uranium has been shown to cause cancer and diabetes. The nano-particles carried by dust storms, wind and stratospheric air currents can affect lives and carry the diseases hundreds of miles away. Therefore wars also endanger neighbouring and distant countries not involved in the war.

11. Now the big powers have developed nuclear bombs and missiles many times more powerful than the Hiroshima bomb. Even if they explode deep in the ground the dust blown up would still be carried far and wide. The inclusion of small amounts of nuclear material in conventional bombs would also spread the effect to distant places.

12. Conventional weapons have also increased in power. The 15 megaton bombs can cause the same damage and deaths as the Hiroshima bomb. Guided missiles and unmanned aerial vehicles have also increased the range and effectiveness of aerial weapons.

13. Where before wars were fought by soldiers on battlefield, today's wars kill more non-combatants than combatants. The whole country would become the battlefield. Casualties would number in their hundreds of thousands and the whole country would be devastated. Neighbouring countries and even distant countries which are not involved would also be affected by radiation fallouts and people would be attacked by diseases which are fatal.

14. War today is massive, widespread and lethal to whole populations. No one would be spared, belligerent or non-belligerent.

15. War is now no longer limited to the adversaries. Nor are they controllable.

16. That is why war must be of concern to everyone. The 1st and 2nd World Wars were supposed to end all wars. Obviously they haven't. The only way to stop wars is to make them a crime - to make those who resort to war guilty of a serious crime, to punish them.

17. Only Governments can put a stop to wars. But Governments will not stop wars until the people pressure the Governments to do so. If they do and they sustain the pressure, it is likely that war can be made a crime just as slavery has been made a crime.

18. That is why we have initiated a campaign to make war a crime. We are doing this on a worldwide scale.

Assalamu'alaikum Tun,

mohon izin menjawab S.Tan yg suka memusing fakta, ibarat musang berbulu ayam dgn kesungguhan yg lengkap sempurna tapi dgn samaran yg amat bodoh. pemangsa mengadu menjadi mangsa. Encik S.Tan, apakah agaknya kesukaran anda untuk mengaku dan menerima kedudukan anda sebagai orang asing di bumi Melayu, lantas menjadikan anda begitu kreatif mencipta logika-logika yg tak logik?

adakah anda teruja dgn kejayaan LKY di s'pura? anda kelihatan begitu bersemangat, berkobar-kobar hendak mengaku diri anda sebagai "anak malaysia". cubalah laungkan cogan kata "Malaysians' Malaysia". tapi jangan harap orang melayu akan percaya atau tertipu lagi. helah begitu dah tak laku sebab orang melayu dah tahu apa akan jadi jika percaya pada janji orang kafir lagi tamak. habis semua nya diambil seratus-peratus, sikit pun tak tinggal.

tapi Encik S.Tan, saya secara peribadi menginginkan orang seperti anda, yg pintar memusing fakta dan tekun mengasak-masuk pemikiran-pemikiran tak logik anda menjadi alasan yg akademik lagi ilmiah, sehingga anda sendiri akhirnya percaya pada pendapat anda walhal pada mulanya anda tahu dgn jelas yg anda cuma lah merapek menuntut hak orang...saya secara peribadi inginkan anda sebagai orang melayu. kalau ada orang melayu yg pintar memusing fakta

seperti anda,tak payahlah pemimpin-pemimpin Umno bersusah-payah membukak buku sejarah untuk mengingatkan orang-orang asing lagi degil ini akan asal-usul dan sebab-musabab mereka boleh berada disini.

Tun,kenapa komen-komen biadab yg mencerca zaman pemerintahan Tun turut disiarkan? demokrasi atau kebebasan bersuara hendaklah ada batas nya.orang melayu seperti saya amat marah jika pemimpin kami dipersendakan secara biadab oleh orang-orang asing.tak boleh kah kerajaan bertindak meng-ISA-kan orang-orang biadab ini dan menarik balik kerakyatan mereka?

sekian,terimakasih Tun.

Salam Hormat Tun,

Mohon diberi izin untuk menjawab pemusingan fakta lagi.

S..Tan.

1. you are the ones teasing the babas & the nyonyas, & now you're trying to turn it back on other people?

2. matrikulasi - you read back what You wrote/SUGGESTED/"implied". AGAIN, desperately trying to twist. You should ask your dap's s'pore if that is not racist, what is?

3. Your dap's stance is EXACTLY the same as the "OLD" RACIST mission of it's "papa", pap back in the '60s. AGAIN, trying hard to twist what is SO OBVIOUS!... Guess you are the one who need to crawl out of your thick & very moldy shell.

4. With the valid examples of the majority jus-solied grandchildren of the pendatangs (**jus-soli, ie. FREE Citizenships WITHOUT having to Earn them!...**), majority of you take this country and its humble people, for granted.

Since you cannot 'defend' what I wrote, you AGAIN & AGAIN tried to twist saying that it is 'individual' or 'economic' "issue".

The FACT OF THE MATTER IS, my examples are very Clear & Very straight-forward as to you people who migrated elsewhere, **you actually can SIMPLY, & willingly at that, drop whatever "chinese" you have in you..** &, as much as possible, *like IMMEDIATELY*, learn to speak with the "new" country's accent/slang just to be IN/accepted.

Yes, **all because the Need to EARN your Citizenships over there.** Thus, your "sincerity" there is very impressive.... **PLUS, you don't even care if your kids do not learn their school subjects in your Grandma's Language at all!...**

So, AGAIN, please JUST STOP YOUR BLATANT HYPOCRISYlah, S..T.

Cermin diri anda & majority anda2 tu dulu (*as per Michael Jackson's "Man in the mirror"*!), kalau anda bertamaddun & IKHLAS mahu jadi rakyat Negara FREE anda ini.

**Bila tidak ada double-standard & tahu to be humble, barulah majority orang2 asal/'native' boleh appreciate & rasa selesa; sebab boleh nampak keikhlasan &/or dapat rasa "niat" anda2 itu.**

Terima kasih, TUN... Wassalam.

The Conference on Criminalising War is nothing but an attempt to glorify certain individuals. You can't achieve anything without the sanction of the international community. Tun M, you are simply wasting our limited resources, energy and precious time. It's all "full of sound and fury" signifying nothing! Your time would be better spent on some practicable and crucial matters.

.....FUNNY PEOPLE

You don't extend any help to them (baba nyonya) for assimilating, but you relish mocking at them for turning back. What does that make you?

.....INDIVIDUAL NOT RACE

So you agree there are bad apples (sincerity to country) in every race not just 'pendatang' (your definition, non Malay citizens is my definition). The issue is individual or economic not race!

.....DEMANDS OR FAIRNESS

On matrikulasi, I never asked for a guarantee. You are putting words into people's mouth. Typical of racially slanted arguments?

You are barking up the wrong tree with me. Read my comments on NEP then argue, not spew what is in your boggling mind onto my table. I don't deny anyone's native status, majority stake or enshrined rights. I question the interpretation and implementation.

As to matrikulasi domination by Malays, are you saying this is how non Malays should pay for the suffering of Malays in S'pore!! Are you serious? If this is not racist what is?

.....SOCIAL OR RACIAL

On assimilation, you cannot accept humans behave differently in different grouping sizes. You believe 10 minorities among 1000 majority behave exactly like 10 minorities among 20 majority?

You may distrust the minorities of 1965, it is now 2009. I don't believe the minorities now share the same character and behaviour. You have not changed does not mean others haven't!

Crawl out of your shell, then you can shout at others to do the same! Shouting in your own shell can only be heard by you. The echo you hear over a long time becomes other voices to you?

The rest of your reply is full of generalised accusations.

Dear Tun, salam mesra harap sihat sejahtera. Minta izin menjawab seorang pengirim di sini.....

Menjawab sdr 'Zulkiflee Bin Arip' on November 10, 2009 9:59 AM

.....MINTA MELEBIH (BABA NYONYA)

Tulisan saya menyangkal tulisan seorang pengirim. Ia perlu dipandang dari sudut menjawab persoalan yg ditimbulkan pengirim tersebut.

Sdr melebarkan dan menukarnya menjadi menuntut benda lain. Saya cuma menunjukkan ceteknya hujah pengirim itu dgn persoalan untuk pendapat dia. Persoalan itu tak timbul untuk orang tak berpendapat mcm pengirim ini.

Siapa yg melebihi?

.....MENYALIN BUDAYA

Betulkah orang Melayu yg sudah berhijrah ke Negara barat tinggalkan bahasa dan budaya mrk di KLIA bila naik kapalterbang? Mrk tidak cuba belajar atau bertutur bahasa atau amal budaya Melayu di sana?

Bolehkah ditanggalkan bahasa dan budaya dari seorang bila naik kapal atau kapalterbang ke negara lain? Harimau boleh diajar mengaum mcm kucing, tapi bulunya tetap berbelang.

Minta kaum lain buat, pastikan sendiri boleh patuh juga. Jgn jadi ketam mengajar anak berjalan lurus!

.....BANTAH DEB

Hanya berapa aspek DEB (bukan menyeluruh) yg saya persoalkan dan pernah saya jelaskan dlm kiriman lain. Nak bantah atau menuduh baca baru lawan. Kalau tidak sdr menerkam dalam gelap.

.....TAAT SETIA

Sdr mcm mengata kaum lain tiada hak soal bila Melayu tidak pahir taat setia krn itu urusan Melayu? Taat setia pada negara urusan bangsa, bukan urusan negara? Warganegara bangsa lain tidak taat urusan kamu, kalau bangsa Melayu orang lain tiada hak soal? Ini satu lagi hak istimewa?

Siapa yg racist dan tamak hak?

.....CRITICISM AND HATE

Membidas bukan mengeji atau membenci. Mcm ini Tun bidas Pak Lah krn benci? Saya cuma menunjukkan kalau buka pekung orang, bersedia pekung sendiri terdedah.

Saya minta hak sebagai rakyat, kalau itu tamak apo nak dikato? Orang yg meminta hak adil dikira tamak, orang yg membolot hak dan keistimewaan dikira murah hati?

.....DE FACTO APARTHEID

Nada satu perenggan tulisan sdr menganggap rakyat bangsa lain sebagai kelas rendah dibawah satu tuan.

Tulisan sdr bahagikan insan antara Islam dan kafir, Melayu dan bukan Melayu, nusantara dan asing. Saya hanya benci pada perbuatan dan pendapat bukan pada bangsa, negara atau perseorangan.

Saya bergelut dgn pengirim mengutuk kaum lain, kadang kadang terpaksa guna hujah seiring melawan mrk. Tulisan saya perlu dipandang dari sudut menjawab pengutuk ini. Kalau duduk dalam rumah kaca, jgn membaling batu!

Pandang pada sikap dan hujah, lihat siapa racist dulu?

To those who wants equality, I have something in store for all of you;

This is specially for PAS members, and PKR,

If, the rights is by any means removed. Guess what happens to the Syariah Law as well?

Do no be hypocrites, let us all be honest to ourselves. Want equal right? It is fine with me, I do not live with this anyway.

But, but?

Look at this, what made you who you are now?

If, this is amended, what would happens to the Syariah Law? want it to stay? but at the same time give equal rights? is this some kind of Malaysian joke?

I know most of you has the brain to think what I mean.

Salam,

I agree with Tun 100% that war should be criminalized. Begitu jugak memfitnah sehingga bolih membunuh sesorang atau menyempitkan hidup sesorang. Ini juga jenis serangan yang di

panggil serang hendap atau serang senyap. Should this type of war be criminalized? A question to you dear Tun.

Tun, perang bukanlah satu jenayah jika ianya di applykan pada masa yang betul.

apakah peperangan tidak diperlukan untuk mempertahankan maruah agama? Islam memang bencikan peperangan, tetapi untuk menjaga kehormatan agama, maka perang perlu dilancarkan.

Salam Tun yang dihormati, di harap dapat diberi izin...:

S..Tan.

1. **Baba Nyonya** - do you realize that Baba Nyonya is like some "endangered species" nowadays?? They're "scared" of the cucu2 jus-solied Pendatangs who have been hurling NOT chinese, cannot speak chinese, mocking them for living just like the Orang2 Melayu; that many of them KENA TUNJUK that they HAVE "masuk cina" balik - **funny**.

2. **Sincerity? You don't have to compare the Malays** with cucu2 jus-soli. So what if they got their NEP & decided to migrate?? Just look at those Chinese in China who migrated elsewhere - it is simply C'est La Vie.

**So what if the Bumiputeras have become "rich" along the way, they STILL have their right here in their datok-moyang's land** - again, Just look at those Indians in India who also have migrated elsewhere, too!

3. **Matrikulasi** - WHY MUST THERE BE A "guarantee" FOR CUCU2 JUS-SOLI with them STILL wanting to be ARROGANT.. EVEN AFTER >50 years, STILL DEMANDING to ONLY WANT TO LEARN in their GRANDMA's LANGUAGE?? **Where's the LOGIC, S..T??**

**Who's the Pribumi here?? Who's original land is this?? And You CAN START THINKING:** "Wah... this is 1 'racist' fella", &, **you can even say:** "Orang Asli"; BUT, don't be SO shallow on that that you don't realize that, WORLDWIDE, countries DO HAVE Orang Aslis/Aborigines (like in Japan, China, India, Australia, Taiwan).

In essence, as Civilized, Educated humans, we know that Orang Aslis are those who live in remote areas/jungles, AWAY FROM Civilizations - they're not aware of the goings on like invasions, worldwars 1&2, British, Merdeka, etc..

BUT, TELL ME, **OBJECTIVELY SPEAKING/ THINKING**, WHY IS IT IN CHINA or INDIA, they can have "special" RIGHTS for the Chinese & not the Uighurs/minorities?? Or, in India special rights/treatment for their "better Indians" & NOT for the Tamil Pariahs, in cities??

**My point is simply this : in ANY country in the world, the MAIN "original" people there, the Majority; it is OKAY for them to have Their Rights/HAK.... BUT no, no, noT, in MALAYSia... CANNOT!!! The MALAYS who are the MAIN "orginal" people here, the Majority; are being "Questioned" & no less ATTACKED, left-right-and-center!!! WHY???**

**Tell me**, do you know WHY in MALAYSIA's Constitution, we HAD TO "define" the MALAYS' HAK??? In China, India, (bekas British) takde. **The Underlying Fact of the matter is**, The Malays are gentle, soft-hearted people. We're very Generous, & will share almost everything; Just So the Visitors/Pendatangs (invited or Otherwise), would feel comfortable!... MANY Peribahasas are available to describe the Malays' PERADABAN/Adab & Adat, their "Soft" Nature, & are Very Principled; such as, "Berok di hutan disusukan, anak di rumah kelaparan".

The Bitish realized this soft nature of the Malay people & included OUR HAK-HAK (ie. the Majority Main "original" people here), in the Constitution -- from Our AGAMA, to Our BANGSA, to Our TANAHAIR.

**The Chinese' HAK in China or the Indians' HAK in India didn't have to be outlined/included in THEIR respective Constitution** because they are NOT Overly-friendly to people, & are ALREADY Stern/RIGID/Rough "whenever it comes to their RACE's HAK"!... & **that, No "pendatangs" to the "Chinese'/Indians' LAND" in China/India, dared to "Claim", WHAT MORE "DEMAND", anything in That Land of theirs!...**

SO, Just remove that old-fashioned ALL-Chinese RACIST GROUP dong ki zhong or, whatever their name is, ALREADY. I believe that the NEW Chinese/Younger generation DON'T REALLY CARE about that OLD Narrow-Minded SELFISH, UNMALAYSIAN, "RACIST group/s"; & that they want to be MALAYSIANS FIRST!

**-- it is ONLY people like you, limkitsiang, his son, and his dap hard-core OLD-FASHIONED chinese extremists groups who STILL want that CHINA COUNTRY "feel" &, Continuous DEMEANING of & ROBBING from the Malays.** FACTS are FACTS, that ini MEMANG TANAH MELAYU... -- So, too bad if you still arrogantly (Bodoh-Sombong) want to insist to make this "China"! **This ain't no "China" if you PEOPLE STILL HAVEN'T REALIZED it, even after More Than 50 YEARS of MERDEKA NOW!...** Read on for more points/information on this.

4. You said, "Someone said matrikulasi is not exclusively for Malays? **Well it can be exclusive by action and design if not by policy.**" -- WELL YES. This is EXACTLY how it is done in Spore, your dap's "mastermind"; to the Malays there!

**5. One can be SINCERE to MALAYSIA if he/she Had To EARN for his/her CITIZENSHIP!**

**- IE. Just like every immigrant out there in this WORLD!... & Also,**

**- JUST LIKE** those Malaysians who freely migrated to other countries -, & they CAN IMMEDIATELY Learn & Talk just like the "natives/peribumis" of their 'new' country. Very impressive!

**Their drive in DESPERATELY wanting to "BLEND-IN" TOGETHER, Clearly shows Their "Sincerity" THERE!!!**

- and they **DID NOT** even **MIND AT ALL**, schooling together with the OTHER 'citizens' in NON-Chinese schools"!!..

**&, that's how & why the natives of the "new" country can Accept & Acknowledge you guys who HAD PROVEN your Sincerity & RESPECT, to their country.**

HAHA enough of the HYPOCRISY-lah.

**The FACT** of the mother POINT is, **ONE's INSINCERITY SPEAKS VERY LOUDLY** when one Keeps On CONTINUE with the Same OLD 1960s "agenda" of some Extremely Kiasu racist-extremist double standard hypocrites that **had been kicked out of this Peaceful, Civilized &, MODERATE country** back in 1965.

**Wallahu'alam.**

Terima kasih, YABhg Tun Dr. Mahathir bin Mohamad.

I personally and 100% certain that u should be awarded with the nobel peace prize.

what Al-Gore did was just producing one film and he got a noble prize.

I cant even imagine how wonderful the world would be if we live in a world free of war.

Maybe Tun u should publicize your peace movement by producing a documentary as well.

Or the noble people of the noble prize dons not share the same understanding with u regarding WAR???

Assalamu'alaikum Tun,

mohon izin menjawab komen S.tan.tulisan anda,sekali baca,agak lucu juga.ibarat orang gemuk berlagak bodoh hendak merampas hidangan yg ditangan orang.tapi dua kali baca,komen anda sebenar nya amat mengerikan.sebab anda ini sebenar nya orang bijak dan racist lagi tamak yg

dgn bersahaja boleh memusingkan tuduhan konon nya orang lain pula yg bersifat perkauman begitu.

1)anda bercakap tentang baba-nyonya yg tidak lagi mengamalkan budaya bangsa mereka dan cuma berbahasa melayu saja dan anda mempersoalkan apa yg mereka dapat dan apa yg kerajaan beri atas pengorbanan mereka menanggalkan kulit(bahasa-budaya)...seolah-olah kami yg merayu anda semua datang ke ke bumi melayu ini.hanya kerana mereka fasih berbahasa melayu,apakah kita patut menyerahkan perbendaharaan negara kpd mereka? bahasa dan budaya sepatut nya ditinggalkan dipantai sendiri sebelum anda naik kapal belayar ke negeri orang.itu adat yg dipakai orang melayu.masuk kandang kambing,mengembik...tapi adakah orang melayu menjadikan ia isu besar?kita juga inginkan hidup berbaik-baik dgn anda,tapi mesti lah atas dasar menghormati hak kami sebagai bumiputra,bukan mempersoalkan DEB.

2)tentang kritikkan anda terhadap bumiputra yg kayaraya berpindah keluar negara,itu bukan urusan anda jadi biarlah kami yg merisaukan tentangnya.tak perlu anda ambil kesempatan menjadikan nya satu lagi isu besar konon nya melayu tidak taat kpd negara.

segala komen anda di ruang Tun ini hanya menjurus ke satu arah saja iaitu tamak.andasengaja melupakan sejarah dan asal-usul anda sebab anda melihat ruang terbuka untuk anda mencuba nasib merebut sesuatu yg bukan hak anda.pantang ada pemimpin baru,andamula melonjak memintak.herdik dan tengking hanya membuat anda senyap sekejap,kemudian tanpa ada perasaan malu,andamula bersuara lagi.

tidakkah pernah terlintas di otak cerdas anda bahwa anda hidup aman-makmur atau kaya-raya di seluruh nusantara adalah kerana kebaikan hati bangsa melayu yg tidak kisah berapa banyak duit yg anda ceduk dari sungai dan laut kami dan berapa banyak harta yg anda petik dari pokok dan hutan kami? tidakkah anda ada perasaan bersalah tatkala mata-jahat anda menjatuhkan lirikkan pada tampuk kuasa kami?

kurangkan lah komen-komen bernada benci anda.kritik yg membina akan dihargai.

Salam,

I was wondering whether student activism, particularly university students, can play a role in criminilazing wars? Having studied abroad for my undergraduate & graduate degrees (Canada &

the UK), I've witnessed and became a part of student societies & clubs that promote peace, justice, equality, tolerance, and the whole shebangs.

So, the question here is whether universities in Malaysia will allow such activities to occur? Even if they require non-political affiliations, there are groups from where I studied that promote such without involving political agendas. Will it be possible then? Will Make War a Crime be able to be built into student societies in universities in Malaysia? I am of the opinion that it should because at the stage of university, students must be able to be vocal - although they should do this since primary and not tertiary education.

What are your two-cents on this?

Dear Tun, salam bahagia harap sihat sentiasa. Minta izin mengulas dua buah komen di sini...

.....ADAPT AND ADOPT

There is one group who have followed your instruction to adapt their culture and also adopt the national language.

The baba nyonya have adapted (non Chinese culture), speak Malay (mother tongue), go to national schools (some cannot speak Chinese). What have you got for them having followed your instruction? There is no economic benefit for them compared to other non Malays. In fact they are sometimes sidelined by both sides due to their cross over identity.

Language is an economic issue in M'sia due to NEP. Be constructive and propose something instead of howling racism against non Malays when they place economics and survival (due to NEP) above mastery of a language for its sake.

.....SINCERITY

How do you measure the Chinese sincerity? Criticising or unhappiness with country's policies unpatriotic? I measure a citizen's sincerity by his act of keeping his contribution, his wealth and dominion in this country.

Please note there are many Malays who gained from NEP, but are resident overseas (read The doctors). Many have even migrated. There are many in this race who hide their NEP wealth overseas. But it is the Chinese who learn a language for their economic survival (so they don't become dependent on welfare)and who are too poor to migrate that is more menacing?

I am certain there are many in the privileged majority race who will run overseas (the rich ones, who are plenty nowadays) on risk of getting bombed, while the poor will be left behind to defend the land. The poor who will die for this land includes many poor non Malays. Who is insincere?

These rich bumiputeras will flood back when calm returns to claim their supremacist rights!

.....BOYCOTT OR SEGREGATED

On non Malays not in matrikulasi, if non Malays are guaranteed the same tertiary entrance privileges as Malays there, I am sure it will be flooded with non Malays in no time. Someone said matrikulasi is not exclusively for Malays? Well it can be exclusive by action and design if not by policy.

.....COLD WAR

This writer is on an endeavour to divide this world into Islam and kafirs who must be treated as enemies. War and killing them is justified. Just like Bush he believes you are with us or against us.

With this paranoia, he feels he has God's blessing to advocate a jihad annihilation of kafirs? The cold war has not ended, it evolved in this writers mind.

Diversity, humanity, goodwill and harmony does not exist in his 'bible' on kafirs.

[By adik adik](#)  [on](#) November 8, 2009 10:02 PM

I am confused.

Why the Islamic groups like JI, Tallibans, Hisbollah and others are terms as terrorists. Is it because US term them so, that the Islamic World must acknowledge and listen to their lies out of fear.

Why term the US army as militants as if they are consented to kill.

Why not term the US military as terrorists also.

Does US weapons is advance enough to identify the innocents.

Assalamualaikum,

Yang Berbahagia Tun Dr. Mahathir,

Para blogger yang dihormati,

I attended this "Criminalising War Conference" with great interest despite the fact that I was going for a major surgery on my feet on Friday and needed time to tidy up my work, since I will be going on a long medical leave. I regret not being able to attend the full session neither have the time to visit the exhibition. I went with my 3 students, a Chinese, an Indian and a Persian. Unfortunately, I could not persuade any of my Malay students to come along. Somehow they were not interested; I am not sure the real reason for this, may be they were too busy, unconcerned, frighten, shy or complacence and peaceful or a mixture of these.

Dear Tun, I congratulate you and the Perdana Global Peace organization for this noble cause to punish **the real criminals of wars**. Hopefully justice will prevail at last and most importantly

this serves to prevent others like them to perpetrate future wars. It was strange indeed that Blair had visited this country (in Sabah) recently and even received honor from the University of Malaya, an event which according to my UM friends was a quiet reception and unknown to most UM staffs. Even though afterward there was a protest on their mailing list, but this was not prolonged and extinguished quickly, which goes to show, Malaysians in general are really peaceful people. Our anger is not easily translated to violence or terror. This general behavior (docile and peaceful nature) was even noted by the invited panel speakers during this conference when at the closing a number of them promoted Malaysia to be the peace capital of the world.

To me this is indeed an honor and an achievement for all Malaysians, the majority of whom are moderate, tolerance and peaceful. Not only, Malaysians reject war, oppose violent behavior but are also inclusive, accepting and welcoming foreigners who ever they are. Our unique hospitality is our pride and our value. In the Malay proverb, we have even the saying *keru di hutan diberi makan, anak di rumah mati kelaparan*; the Malay hospitality extend much helps to others at the expense of its own kinship. But of course, the Malays' kindness, tolerance, and docile nature should not be taken too much for granted, otherwise induce them to spontaneous uncontrollable rage **mengamok**.

The topics concentrated on the recent wars in Iraq, Afghanistan and Gaza, implying conflicts between Muslims and non-Muslims, but in actual fact the conference is race/religion neutral. The speakers were a mixed bag of people from different races and religions and they come from all over the world. Contrary to what the world media want us to believe, these wars were not religious wars. These are wars caused by bad people against nations and innocent people, and their motive is purely Greed. In the case of Iraq and Afghanistan, these bad people want to control the resources from these lands, while of Gaza the motive is too obvious. However, these bad people make use of religious masks to confuse the world. It is to their great advantage that these wars were seen to be based on religions. I was glad that the conference made this important point clear.

These wars are not religious in nature. These bad people are also not just those leaders of greedy western countries for wanting to support their declining economies, but also bad people from their seemingly opponents, i.e. the bad Muslims themselves.

For example, after the Iraq war, the country is unable to built itself despite so many billions dollars set aside because there are many bad Iraqis in leading positions who steal these money away. These bad Iraqis are thieves and criminals themselves stealing and depriving their own people. Hence you can see, when the conflicts are smeared with religious issues as call for jihads and so on will only confuse the minds, these bad people from both sides will capitalized further. They want wars for their gains. "Meneguk di air yang keroh".

In my opinion these speakers talked a lot of sense into me and my students.

I was impressed by one of them in particular, i.e, Muhammad Umar, a young speaker from UK, the chairman of the Ramadan Foundation. His message of tolerance and peaceful coexistence between races and religions suits me very well, as he defines what Rasullullah said about his ummah which refers to the whole humanity. Islam is inclusive and not exclusive. I wish more people would listen to his speech, since I am not able to reproduce here his eloquence on the subject, MasyaAllah.

One of the other speakers (not sure which one) even made a stand for the group that they are not anti-semitic. No one condemned the Jews. Their purpose was only to expose those bad people and their plot against the whole world by confusing them. It so happened a few of these bad people are Jewish, mostly not even religious i.e. do not believe in Judaism, and it so happened their activities were linked somewhat to the formation of the state of Israel, a very confusing subject to me.

Therefore as for the war in Gaza, this is not a religious war between Muslim and Jews. It is a war over a piece of land between two different cousins, the Arabs and Jews. They were both originally the semites. The Arabs made it look like a religious war, since they can draw the sympathy of the rest of the Muslim worlds to be on their side. Likewise for the Israelis, they too gain sympathy from the non-Muslim world by making this war a religious one.

Only a clear thinking person can see the ploy on both extreme sides. Only the power of the moderates can break the biased spells of these two groups deeply encroached in enmity may be for over a thousand years.

In my humble and ignorant opinion, the Palestinian and Israel conflict is not a religious war. Making it a religious war will prolong the conflict and made more ordinary Palestinians suffer. Only the power of the moderate from both sides will change the fate of these Palestinians.

May be our friendly Israeli Hanan's opinion to make friend with the enemy is not too unreasonable. As he noted the conference lack those people who were the **enemies**, but the enemies like Bush and Blair would certainly refused to come even when invited. However, as the conference speakers said, enemy informants were abundant in the Merdeka hall.

Dear Hanan (Shalom Aliechem), when you set up the website **friendship prior peace** (as you quoted quite sometime ago), let me know, I will subscribe to it. I am ready to talk and make friend with you my "enemy".

This idea of "talking to the enemy" or "making friend with the enemy" is not quite new, although Hanan may have discovered it independently. At this conference, I purchased a set of 13 hours CDs on *the Science and Politics of 9/11* and found one Kevin Barrat the author of Truth Jihad has proposed the same idea. He promotes the notion of having a friendly dialogs continuously even on the most bitter subject. He calls for the coming together of the three faiths, Islam, Christianity and Judaism against their common enemy, i.e. the bad people, who exploits the differences, to make the science of enmity amongst these three groups. I agree with him 100%. We must reverse this process inherited enmity. We must find the antidote and create the science of friendship instead.

Therefore, I am ready Hanan to join you because this is the kind of jihad that I promote and subscribe to. I am "a peace jihadist".

During this conference, all the speakers were highly qualified, arguing their subjects most engagingly with proofs and evidences beyond doubt. Over many times, I noted all my young students applauded spontaneously together with the rest of the crowd in consent of the points and issues raised. Even though they are young, they really and thoroughly understood the case before them. They had truly learnt from the conference the ugly reality.

I asked the Iranian student to get your signature for your book on terrorism which I had purchased earlier. (My feet hurt to come to see you myself). She told me, you had asked her to pay ten sen for the signature. She was elated when my Chinese student helped to take her picture with you and will sent it to her family in Iran.

At the end of the conference, the four of us went to Mawar Café, and we deliberated further on the discussion in the hall. My Indian student, who is more matured and more philosophical, said something very clever. He said,  
***to make friend with the enemy require two important criteria, firstly both sides must be equally intelligent, and secondly both sides must be have a great capacity to forgive.***

How very true.

Wassalam, Tun and Para Blogger.

Dear Tun

To my small mind, stopping the war paradigm dead on its track is simply and surely one mission impossible. After 7,000 years of almost non-stop war-mongering, the momentum itself would carry it further another few hundred years, if not a thousand or two into the future. But that is no reason not to try.

However, its definitely my wish to see in my lifetime a few of those aggressive war-mongers, starting with Bush and Blair, tried for their crime and sentenced to one life imprisonment for each non-combatant murdered/collateral-damaged in the course of the wars they started. That will be at least a few hundred thousand lives in prison each for those rogue leaders.

All the best Tun, at least you have started the snowball rolling down the mountain, hopefully transforming itself into an avalanche soon enough!

Assalamualaikum Tun,

War is inhumane. War has no right of choice. War simply destroys anything in its way. War not only creates destruction to the environment and all living creatures but also create a generation of people with immense hate to the destroyers. It is a never ending story. The world will be filled with "hate people" and anyone they dislike war is their solution. So where do the "non-hate people" fit in? Don't these people have their rights too to live in harmony and peacefully? I want my rights Tun, to leave my children and my children's children in a state of peace of mind. I don't want to leave them in a world of wars. I don't want them to inherit a world full of hates and wars.

Tun, I put myself in the pain of those whose minds and bodies have been destroyed by wars, and yes I feel hate, hate to those who so love war. If to them love is not war then why do they go to war? What is wrong with them Tun? Don't they learn from young that war is wrong. Any act of

violence is wrong. So you see what I mean Tun. What war will do to you. I've never experienced in a battle of war but it has already implant hate inside me. But I still can control myself with the believe that love is great, love can conquer all. I believe that if the people in power who love to settle his dislike to another thru war, is to one day die away and in comes the new "no war but peace people" then the world is like heaven, safe and beautiful. Is this just a fantasy Tun? With people like you Tun who knows what is once impossible and a fantasy will one day be true. A true courageous strong voice is what the world needs to make these war hunger persons as minute as a germ so no one can see and hear them. Let the voices of peace be stronger and louder until can drown those war slayers. Tun you are the Peace Keeper of the world. Let no one and nothing stop you from your noble mission.

May Allah bless you and family always.

Hey Tun,..

You r a racist and admit it. You said chinese parent don't want their children to mix with malay and indian. What a joke from you. Then what about the matrikulasi school which only allow for BUMIPUTERA!! Pls, you are old. don't simply talk nonsense. Enjoy your life and don't disturb the world.

Answer;

Racist? Ha Ha Ha, LMAO.

IMHO, If you do not want to mix with the kids since the beginning, then why bother to insist on going to the mix school anyway?

AFAIK, If this man is racist, you think how much he has sacrificed, how much we, has sacrificed to help each other?

Matrikulasi does not allow Chinese? that is new, and rare. Matrikulasi is for all, and there are many non-Malays who has been accepted, why did you get mad? or because your kids failed to get in due to bad results? and you started go blaming everyone?

By ifanonline  on November 6, 2009 5:26 PM

YBhg. Tun,

The intention of criminalizing war is an excellent way forward, but the reality in the world today is that most of the powerful nation in the world are weapon producers i.e. USA, Russia, China, Germany, UK, etc. As a small nation, Malaysia can only bark loudly at the international arena, as we use to do for 50 years. Who are we (Malaysia) to criminalize war? We can get a bunch of countries to be with us but are these country strong enough to voice their opinion in UN or the international arena?

Like the OIC, it is currently a talk shop for muslim countries and most of the countries in OIC are dogs to the the US or the European countries. Abiding by their masters wishes, muslim countries such as Saudi Arabia, Kuwait, Jordan, Qatar are just puppets in the OIC, and we aspect them to criminalize war? This Arab countries are the biggest purchaser of arms in the world.

Weapon producing countries do not care about war, they care about who is going to buy their weapon. Like the Malaysian government protecting PROTON from foreign competition, weapon producing nation are also protecting their interest. More war, more weapon, more money. Its as simple as that.

So dear Tun, you are going to have a tough time pursuing this idea and trying to convince westerners how war is a crime. I bid good luck to you.

slm..

the only one thing can avoid war is.... 1Religion, 1World Leader, 1Race, 1World Government,.. and the religion of peace must be Islam because the name tells everything.. Islam means peace, surrender, and total submission of oneself to God which is Allah.

lol its like new world order theory..... but, Islamic version XD

Salam kasih dan salam hormat Ayahanda Tun. Dengan izin:

Well done Datin Seri Rosmah. The money is put to good use. But please do further monitor on the Persatuan Isteri Wakil Rakyat BN. No puns intended, just speaking honestly.

The last time I myself found something on a vacation, I handed it back to the owner and I ended up mugged with a flare gun pointed to my face. That was good America. It's always a war zone there.

Anyway, DSN must send DSR on more vacations. He should stay and worry about subsidies and NAP with us, but we don't mind DSR going. Seriously, the money would benefit many I am sure. Well done is in order.

Tun, I am sounding like S.Tan and that is a worry.

Kerabat Arab beri RM7 juta harga kejujuran Rosmah

PUTRAJAYA: Semasa bercuti dengan keluarga di selatan Perancis pada Ogos lalu, Datin Seri Rosmah Mansor terjumpa sebuah kotak milik Putera Saud Al-Saud dari Arab Saudi dalam sebuah bot dan memulangkannya kepada kerabat diraja itu.

Sebagai balasan kerana kejujurannya itu, isteri Perdana Menteri diberikan AS\$2 juta untuk rakyat Malaysia yang memerlukan.

Hari ini, Rosmah mengagihkan sebahagian wang itu berjumlah RM20,000 setiap satu kepada 13 persatuan amal termasuk Persatuan Bekas Tentera Malaysia, Persatuan Pandu Puteri Malaysia, Majlis AIDS Malaysia, Yayasan Harapan Kanak-kanak Malaysia, Persatuan Orang Cacat Anggota Malaysia dan Persatuan isteri wakil rakyat Barisan Nasional di setiap negeri.

Beliau berkata, AS\$1 juta lagi akan diserahkan kepada Universiti Kebangsaan Malaysia yang menguruskan Sekolah Permata Pintar bagi menampung pembelian keperluan sekolah manakala

baki RM2.98 juta akan disimpan dalam tabung khas Bakti bagi membiayai kos rawatan kanak-kanak dan wanita yang berpenyakit kronik yang tidak berkemampuan.

Ketika menceritakan pertemuan kotak itu kepada pemberita, Rosmah berkata beliau sekeluarga sedang bercuti atas jemputan putera diraja Kuwait yang berkawan dengan anaknya, Riza Shahriz.

"Semasa sedang berkemas ketika hendak balik, saya terjumpa kotak itu dan berikannya kepada pengurus bot dan beritahunya supaya pulangkan barang berharga ini kepada tuan punya. Saya kata jangan usik, jangan buat apa-apa. Pastikan ia dalam keadaan baik dan beri kepada Putera Saud Al-Saud," katanya.

Menurutnya, dua minggu selepas itu baginda mengucapkan terima kasih kepada beliau kerana memulangkan kotak itu yang tercicir semasa sedang bercuti dalam bot yang sama.

"Putera itu kata nak berikan hadiah dan saya kata hadiah terbaik adalah untuk kesejahteraan rakyat Malaysia," kata Rosmah.

Selepas menerima cek ganjaran itu, beliau berbincang dengan Datuk Seri Najib Razak yang meminta beliau menguruskan wang itu secepat mungkin dan diagihkan kepada pihak yang memerlukan.

"Saya juga meminta pegawai dari Pejabat Perdana Menteri untuk ke Pejabat Suruhanjaya Pencegahan Rasuah Malaysia supaya sumbangan ini bersih dan tiada pihak yang memutarbelitkan fakta," katanya.

Kotak yang ditemui itu dipercayai mengandungi beberapa keping cek. - Bernama

Assalamu'alaikum Tun,

Perang adalah perkara besar.saya terpegun dgn ayat al-Quran yg bermaksud;

"Ingat lah ketika Tuhan mu berfirman kpd malaikat 'Sesungguhnya nya Aku akan menjadikan Khalifah di muka bumi'.Para malaikat lalu bertanya 'apakah akan Engkau jadikan makhluk yg akan menimbulkan kerosakkan dan menumpahkan darah di muka bumi sedang kami sentiasa bertasbih memuji dan mensucikan Mu?' Allah berfirman 'Sesungguhnya nya Aku mengetahui apa yg tidak kamu ketahui"

(surah al-Baqarah ayat30)

memang tepat anggapan para malaikat bahwa penciptaan manusia akan membawa kpd timbul nya kerosakkan dan pertumpahan darah.Allah swt sendiri pun tidak menafikan nya di ayat ini.tapi untuk maslahat atau manfaat yg lebih besar,maka kerosakkan dan pertumpahan darah yg pasti terjadi itu menjadi harga kecil saja berbanding manfaat nya.

hari ini kita hidup dikelilingi kekafiran yg merajalela.ketamakkan orang-orang kafir sehingga menerobos masuk ke daerah-daerah Islam,sama ada dgn jalan penaklukkan atau dgn penipuan atau propaganda yg konon nya akademik,umat Islam semakin terperosok jauh sehinggakan sebahagian besar kita mula menerima dan berfikir menurut acuan orang-orang kafir.konon nya perang itu ganas dan keganasan patut di hapuskan.di hapuskan dgn apa? drone-drone kawalan jauh? tidak kah itu keganasan juga? apakah umat Islam hendak di ajak menjadi

seperti Gandhi? saya menghormati Gandhi kerana memerdekakan negara nya.tapi sebagai umat Islam,cara aman yg di pilih Gandhi tidak lah sesuai untuk kita.kita ada hukum yg jelas tentang kewajipan berperang bilamana di serang,kita ada hukum yg jelas tentang sifat dayus,pengecut dan orang-orang yg lari dari medan perang.dan ada pula hukum-hukum jelas tentang adab berperang...perigi tak boleh diracun,pokok berbuah tak boleh di tebang,kanak-kanak,wanita dan orang tua tak boleh di bunuh dan berbagai lagi.

perang yg di izinkan menurut Islam tidaklah boleh di setarakan dgn perang yg diguna-pakai oleh orang kafir.sehingga ke akhir zaman,Islam dan kafir akan sentiasa berperang.kita akan sentiasa terpaksa berjuang mempertahankan hak kita sepertimana mereka juga akan terus terpaksa mempertingkat tahap ketamakkan mereka.kita inginkan mereka menjadi saudara sesama Islam kita dan kita melakukan dakwah dgn hati-hati dan passive takut menyinggung perasaan mereka,mereka pula akan sentiasa berusaha menjadikan kita sama kafirnya seperti mereka dan mereka melakukannya dalam bentuk perang psychology yg agresive.ini lah hakikat kehidupan yg perlu kita akui.perang tidak akan dapat dihapuskan.tapi saya berpendapat usaha Tun untuk menjenayahkan perang akan mendapat dukungan banyak pihak seperti PBB dan anggota jawatan kuasa pemilihan ANUGERAH NOBEL.hanya Pentagon dan kawan-kawan sealiran nya akan menentang berpura-pura bertegang-urat menuntut kawalan senjata WMD diperketat sambil menyembunyikan senyuman,sebab kita membantu mengekalkan kemenangan mereka.

perdamaian lebih bererti jika ada keadilan.Sayyid Jamaluddin al-Afghani pernah mengatakan;keadilan hanya ada apabila kekuatan sudah se-imbang.dgn keadaan umat Islam hari ini,kita belum layak untuk menuntut atau menawarkan perdamaian.umat Islam perlu diperkuat terlebih dahulu.hari ini belum ada satupun negara Islam yg lebih kuat dari negara jiran nya yg bukan Islam,sama ada dari segi pertahanan,ekonomi atau pencapaian teknologi.ini perlu kita ubah.apakata Tun lancarkan Wawasan 2030 untuk semua negara OIC?

Now another big lies of US presence in Iraq to stabilize Iraq.

They are up to no good, to day light robbery and brutality.

I call upon the OIC,the UN to take over US presence in Iraq to stabilize Iraq.US presence proven makes things worse.

The OIC,UN will have peace talks with the groups in Iraq.

THIS is what the Iraqi wants.We will have difficulties and may not restore peace overnight but we will minimize casualties with talks.

And this is what the Iraqs wants.

SO US,if you meant what you meant ,get out of Iraq.

Spent your money wisely to help your own people.

You may gain in some areas but will loose in many areas.

SO GOD BLASTS YOU.THE EVIL ONE

It is because

Iraq DO not have weapons of mass destruction

It is NOT because Iraq has weapons of mass destruction

That US dares to invade Iraq.Common sense tells.

Do you think that if Iraq has weapons of mass destruction US

would want to attack Iraq.UN knows it,the US Intelligence knows it,

they lied to their people and to the whole world.

World watch this brutal doings helplessly at the expense of the innocent Iraqi.I felt animals are more dignify than us.

North Korea repeatedly shows the world in TV that they have weapons of mass destruction.Till today US has not guts to take the moves.

They prey on the helpless,the weak and they call themselves

superpower.North Korea must not lay down their weapons.If not they will suffer,and US will

take a ride when you are weak.Perhaps North Korea should take a preemptive war against US.

US will lie to world again about North Korea,South Korea and Japan will be their scapegoat.

IT IS IRAQ DO NOT HAVE WEAPONS OF MASS DESTRUCTION THAT US DARES  
INVADE IRAQ. COMMON SENSE TELLS.

AND THE WORLD JUST LOOK AT IT HELPLESSLY.

I agree with Tun that the chinese don't want to mix with the Malays at school (& HELLO! **please don't drag the indians along with your RACIST-EXTREMIST "spirit"!! As a start, WE can see that they can speak MALAY, this country's National Language, pretty well**) as one does not have to look high & low to see if the chinese who send their children to "their RACE's schools" are sincere to this country or not!

Matrikulasi?? It's one of the extensions of the standard national schools. **You think your selfish chinese themselves who DEMANDED & INSISTED TO ONLY learn IN their SEGREGATED SELFISH cHINESE SCHOOLS ONLY from young, want to go to the "local people's" sekolah matrikulasi???**

LASTLY, in your own perasan/arrogant & egoistic sentences in quotes below but with additional facts (in CAPS, capital letters!) included:

**"What a joke from you. don't simply talk nonsense, HULA. Enjoy your LITTLE life and don't disturb the world WITH CIVILIZED CITIZENS WHO KNOW HOW TO RESPECT THEIR COUNTRIES BY WILLINGLY ABIDE BY ITS CONSTITUTION, FREELY ADAPTING & WANTING TO LEARN & TALK THEIR COUNTRY'S LANGUAGE; AND ARE PROUD TO LEARN TOGETHER WITH THEIR FELLOW CITIZENS IN UNITY, AS SINGLE PROUD CITIZENS OF THEIR NATION"!!!!**

Selamat jalan.

Thank you, Tun. Wassalam.

no need to be confused.Tun is a doer not a talker.This beginning is already good enough!

At least Tun is initiating steps make the world aware of the needs and convince the world to accept the noble idea to criminalise war.Once the idea is accepted (which admittedly could be later rather than sooner) then all the past war crimes including which you mentioned can be investigated,right?

This action alone qualifies Tun to be nominated for The Nobel Peace Prize, don't you agree? Of course the powers that be (responsible for awarding the prize) will give countless excuses not to as they will be bound to try and protect the superpowers interests. But that will only expose and confirm their double standards. We wait and see.

Regarding the project to send a shipment of food and medicine to Palestine, I can't help but to share my opinion. It's high time for us to realise that a PEACEKEEPING ARMY should be sent to Palestine to protect the civilians there. The barbaric Zionist regime are trying to destroy the Al-Aqsa mosque, denying food and medicine supplies to enter Gaza, increasing their illegal settlements and now, cutting off water supplies to Palestinians. How long can we wait and see all these without doing anything? We urgently need to send military forces there as soon as possible.

Salam kasih dan salam hormat Ayahnda Tun. Kami minta ikhsan ayahanda untuk sedikit ruang disini. Terima kasih Tun.

Kami agak terkilan dengan beberapa "press release" PM baru-baru serta kebelakangan ini.

Budaya mengurangkan subsidi: Jika dengan subsidi ini kita masih lagi tidak mempunyai "economic scale" janaan tempatan, macam mana pula jika tidak ada lagi subsidi? Kos tenaga, bahan mentah dan sepeertinya semua adalah tinggi. PM berkata budaya mengharap subsidi adalah tidak sihat.

Beliau membuat ucapan "budaya mengharap subsidi" ini di "Bankers Club Luncheon".

Berita di dengar oleh para pekerja yang hanya ada RM20 dalam poket yang sedang makan di warung tepi jalan. Makan nasi, sayur dengan kuah kari, air kosong = RM3. Balik nanti kena beli beras sedikit = RM5, Susu anak = RM7 dan juga telur = RM3.

Anak nak kesekolah berjalan kaki 3KM. 3KM! Letrik hutang dah RM60. Air dah 2 bulan tertunggak. Bayar kereta Kancil sebulan RM400. Sewa rumah murah yang saya pasti PM pun tak sanggup duduk = RM500 sebulan.

Tuan PM, jangan lah buat statement macam ni lagi. Siapa hidup atas subsidi hari ini? Melayu atau UMNO post Badawi? Siapa telan subsidi lagi besar? Subsidi airmata? Subsidi sumpahan maki hamun? Kita hidup kena sentiasa beri memberi, subsidi mensubsidi sesama kita. Jika tidak siapa lagi? Tuan laungkan slogan, kami pangkah. Itu pun dah subsidi besar. Saya cukup terkilan dengan kenyataan sebegitu daripada pemimpin nombor satu negara kita. Jangan ungkit pasal subsidi Tuan, sebab Melayu hari ini sudah nekad boleh terus hidup tanpa zaman silam kami lagi. Tuan-tuan semua boleh? Oleh itu, jangan lagi buat cerita subsidi di Bankers Club. Elaun pemandu isteri menteri, elaun pembantu rumah, Pegawai Khas isteri VVIP, Elaun letrik, telefon, internet, air VIP Menteri, Elaun credit card menteri, minyak dan kos penyelenggaraan A319,

BBJ 800 (Global Express 5000 dah cukup dulu kan?), serta 1001 lagi elaun yang rakyat "subsidi" pada anda semua. Maaf kalau saya terkasar cakap. Tapi saya (dan juga ramai lagi yang rapat dengan pertubuhan-pertubuhan NGO membantu kelompok miskin tegar bandar dan desa) terasa amat terkilan dengan statement PM yang kita hormati ini. Hidup perlu subsidi mensubsidi, tambahan pula kalau di Malaysia sesama rakyat dan menteri.

Answer;

BRAVO! very nice.

Najib made us all looks like a fool who is begging for 'subsidy'.

He forgot, this was not about subsidy, this is about the current economy, who are mostly the victims? Ask each of us, who are the BIGGEST victims ?

He can talk about this subsidy, as if the Malay now is so depending on it, talk as he pleases, - sampai masa nak pangkah, tahu nak letak apa.

Salam Tun

When I saw a short clip on TV3 News about your Criminalising War foundation event and the Iraqi guy who went up to the podium to tell about his experience being tortured by the US soldiers in Guantanamo Bay camp (related to us by his translator), I thought that your Criminalising War foundation was doing the best thing possible to bring realisation to Malaysians about what had been done by the US and UK in Iraq during the US occupation.

I really, strongly, strongly feel that TV3 and any TV station (whether RTM or Astro, etc) should air this prisoner's experience and confessions on TV to Malaysians. I will be the first person to make myself free to watch this program on TV!

From I heard, the US Army actually employed a psychologist to find out what is the worse method to torture each terrorist suspect based on their personality. I cannot think what is being done in Guantanamo and I think President Bush should be hanged.

Saya setuju 1000% pendapat saudara. Walaupun saya pendokong Umno/Bn tetapi tidak semua pendapat pemimpin perlu kita angguk. Tiada salahnya jika pandangan rakyat dapat memberi kebaikan untuk semua. Pemimpin perlu ingat rakyat telah memberi subsidi yang amat besar kepada mereka semasa pilihanraya iaitu UNDI. Kalau subsidi ini dikurangkan siapalah pemimpin Umno/Bn ini.

Saya ini bukannya orang kaya tetapi tidak termasuk di dalam kategori orang miskin. Kalau kerajaan tak bagi subsidi kepada golongan seperti saya tiada masalah tapi jengok2lah orang miskin dikampung2. Hasil pemantauan yang dibuat di kawasan saya didapati pengundi jadi serba salah. Beri undi kpd PKR calonnya buat hal sendiri. Tiada apa pun yg dibuatnya. Masa ada MP dari Umno/Bn ada pula pemimpin/Ajk bahagian yang sentiasa membakar ahli di cawangan2 supaya tidak berpuashati dgn MPnya. Akibatnya MP ini kalah semasa PRU Susah la mcm ni.

Walaupun tak pernah menjadi ahli Umno tetapi saya tetap Dulu, Kini dan Selamanya, bukan mcm pemimpin dan segelintir Ajk bahagian yang hanya menyokong proxynya sahaja. Sampai bila2 pun Umno tak akan dapat menawan kembali negeri Kelantan jika terdapat pemimpin Umno tempatan yang bersikap sedemikian.

Good morning Ayahanda Tun,

//By donplaypuks on November 3, 2009 9:38 PM//

Dear donplaypuks,

Yes we are 1 Race, but the world is 1 Race in "Dream Works" which can be created, eg:- the story of Alice in Wonderland, Peter Pan, The Monkey God, Beauty & The Beast and even Harry Porter!!

Now, the Government under PM Najib wanted 1 Klinik (1 Clinic, or whatever he likes) to be implemented from 1.1 2010. At the same time, he asked for different school to go against TS Myuhiddin's voice for One Single School Policy (all grass root of Chinese dislike him, I do not know whether Myuhiddin aware of not, and his Deputy Wee Ka Siong is a Hipocrite!!).

DAP's MP Tony Pua (Wangsa Maju) supports this Single School system voiced by historian TS Khoo Kim Khay. Strangely, PKR TS Khalid Ibrahim had support different school systems silently by attending DS Rosmah's education launching, because of his debt owed to Guthrie??

Malaysians, majority of them are "BLIND" and "Suka Gossip" just like a piece of news reported in page W38 in yeterday's The Star paper saying that the Chinese in China prefer to learn more about the gossip story of the Mafia God Mother's 14 lovers, which is not true, age 46 years old who will be sentenced for 18 years jail due to underworld's conspiracies with the police force in Chonqing. It looks like Malaysia is in the process of "gearing" backward by the dirty politicians and our famous The Star paper without liberty and justice to voo young voters like Mr Donky by kong kali kong!!!

Before you, Mr Donky point your finger at others, use your brain, and obviously, I don't think you have one, just like what the DAP's Foong Poh Kuan said in Dewan Rakyat, you are the men .. without that "thing". I don't think Ong KaTing has that thing too.

Now, MCA's President Ong TK has fired the Deputy Finance Minister YB Chor and 3 others, it shown that Malaysia's internal "war of race supremacy" is on!!! Why push the balme to Tun Dr Mahathir???

Why 1 Klinik, Different School Policy?? Rakyat tahu anda semua ini membenarkan duit "judi untuk memanipulasikan sistem sekolah kita. I am just wondering is our BN legalising "wars of races locally" through share market manipulation through our education and rakyat's assets??

Well, Mr Donky, this is what war is about!!!

Good day Ayahanda Tun.

War doesn't determine who is right, war determines who is left.

To Hanan,

Using the analogy of 4 PUPILS to WAR CRIME LEADERS was really REALLY REALLY NOT RIGHT. Pls think about what u wrote again, minus the anger and hostility.

By [tunnusantara on](#) November 5, 2009 6:46 AM

Salam Tun, How're you, Sir? Hope you are in the VERY BEST of Health... Amiin.

Dengan izin: Hanan,

Using your own sentence but with slight modification (in caps) ***"The approach of declaring war as NOT a crime main agenda is to KILL whom you hate."*** - Simple! Got it??

2. You don't need to twist & turn your words with "love this", "friendship that", WITHOUT YOU YOURSELF & your TERRORIST ROB-OTHER-PEOPLE's LAND israel, PROVE THAT FIRST with THE PALESTINIANS and THEIR RIGHTFUL-LAND, PALESTINE. Just refrain from Talking COCK here, lah!... Please just STOP TALKING COCK & BULL that is clearly with points/justifications that is so typical of those jewish hollywood dramas (**full of FLUFF & BLUFF!**) with just air/emptiness & a lot of noise talking.

Do you really think that people worldwide don't know what israel is or who yahudi is, and what you people are capable of doing to this little planet of ours, its inhabitants & all that's in it (humans, as well as plants, trees, animals, ocean, water, mountains, rivers, glaciers, corals, etc.) ALREADY??

We are talking about your control-FREAK "israel"-terrorists (frankly, I don't like to use "israel" AS THERE IS NO LEGAL "israel" state!) who're SO DESPERATE in wanting to control the entire world, **this small planet of ours**, like you people are not gonna die tomorrow (well, you are followers of Prophet Moses AS' Taurah...)?? - **You people are just soooo passé, with OLD 20th century worldwar 1&2 type of GREED, KILL & CONQUER mentality. Simply so UNBELIEVABLY GREEDY!**

3. If your so-called "israel" is NOT greedy, why do you people keep on bull-doing your sick jealous greedy hearts into other people's LAND and NOT FOLLOW the borders defined after the 1967 WAR which is **ALREADY MUCH BIGGER than the very 1st ones AGREED in 1948???**

Where's your so-called "hollywood" HEART?? Where's the "dramatic" LOVE? Where's your "sit-com" FRIENDSHIP???

4. We are now in the 21st Century, **if you are TRULY the followers of the REAL TAURAH holy book brought by Prophet Moses AS, you'd IMMEDIATELY REPENT, as you yourself said that all religions want peace.** AND, you know that there's Life after Death, & there's Heaven and Hell.

So, go eat your own wordslah, hanan.

LASTLY, 5. please don't use Muslim's "Assalamualaikum" as that is STRICTLY for Muslims to greet amongst us -- UNLESS, if you're a Muslim yourself, then it's OK. **If not, as "fellow" Holy Book followers, we know that you are just "ridiculing" us.**

Sayonara!

Terima kasih, Tun. Wassalam.

Salam kasih dan salam hormat Ayahnda Tun. Kami minta ikhsan ayahanda untuk sedikit ruang disini. Terima kasih Tun.

Kami agak terkilan dengan beberapa "press release" PM baru-baru serta kebelakangan ini.

Budaya mengurangkan subsidi: Jika dengan subsidi ini kita masih lagi tidak mempunyai "economic scale" janaan tempatan, macam mana pula jika tidak ada lagi subsidi? Kos tenaga, bahan mentah dan sepertinya semua adalah tinggi. PM berkata budaya mengharap subsidi adalah tidak sihat.

Beliau membuat ucapan "budaya mengharap subsidi" ini di "Bankers Club Luncheon".

Berita di dengar oleh para pekerja yang hanya ada RM20 dalam poket yang sedang makan di warung tepi jalan. Makan nasi, sayur dengan kuah kari, air kosong = RM3. Balik nanti kena beli beras sedikit = RM5, Susu anak= RM7 dan juga telur=RM3.

Anak nak kesekolah berjalan kaki 3KM. 3KM! Letrik hutang dah RM60. Air dah 2 bulan tertunggak. Bayar kereta Kancil sebulan RM400. Sewa rumah murah yang saya pasti PM pun tak sanggup duduk=RM500 sebulan.

Tuan PM, jangan lah buat statement macam ni lagi. Siapa hidup atas subsidi hari ini? Melayu atau UMNO post Badawi? Siapa telan subsidi lagi besar? Subsidi airmata? Subsidi sumpahan maki hamun? Kita hidup kena sentiasa beri memberi, subsidi mensubsidi sesama kita. Jika tidak siapa lagi? Tuan laungkan slogan, kami pangkah. Itu pun dah subsidi besar. Saya cukup terkilan dengan kenyataan sebegitu daripada pemimpin nombor satu negara kita. Jangan ungkit pasal subsidi Tuan, sebab Melayu hari ini sudah nekad boleh terus hidup tanpa zaman silam kami lagi. Tuan-tuan semua boleh? Oleh itu, jangan lagi buat cerita subsidi di Bankers Club. Elaun pemandu isteri menteri, elaun pembantu rumah, Pegawai Khas isteri VVIP, Elaun letrik, telefon,

internet, air VIP Menteri, Elaun credit card menteri, minyak dan kos penyelenggaraan A319, BBJ 800 (Global Express 5000 dah cukup dulu kan?), serta 1001 lagi elaun yang rakyat "subsidikan" pada anda semua. Maaf kalau saya terkasar cakap. Tapi saya (dan juga ramai lagi yang rapat dengan pertubuhan-pertubuhan NGO membantu kelompok miskin tegar bandar dan desa) terasa amat terkilan dengan statement PM yang kita hormati ini.

Hidup perlu subsidi mensubsidi, tambahan pula kalau di Malaysia sesama rakyat dan menteri.

Dear Tun!

Simple as ABC....Malaysia is in a mess....politically speaking

What are the guys in the airconditioned offices in Putrajaya doing?! Busy preparing for the next Sodomy charge against Anwar?! Perak is in a mess and do I need to mention about the state of affairs in the other states?!

NOW YOU ARE TALKING ABOUT CRIMINALISING WAR CRIMES?!!!! What about the CRIMES being committed in Malaysia?! Sodomy seems to be the "in thing" in Malaysia today.....what a shame and that too in a Muslim majority country!!!!!! You have a ex-Health Minister who has yet to be let off-the-hook on a "screwing" charge!!!! Numerous and so called dignified personalities from UMNO/BN who have been accused of corruption but till todate, nothing has happened.....are the Judiciary in Malaysia too busy over nothing or simply waiting for instruction from Putrajaya to proceed with "lighting speed" for selective cases?

Many more questions abound Tun but in reality, Malaysia is indeed in a mess and no thanks to you! Pay back time is just round the corner for those who have created this mess....no two ways about it!

My parting shot, Dearest Tun!.....PRACTISE WHAT YOU PREACH!!!!!! The Almighty is certainly watching!!!!!!

Assalamualaikum w.b.t Tun Dr. Mahathir.

Allow me to rebut on a few points raised by Hanan.

“Dear Tun, Do you think that by declaring war as a crime you make people to become closer to each other? Do you think that declaring war as a crime can create friendship between foes?”

Hanan, the idea of criminalizing war is mainly to shut it off as one of the way to resolve dispute. In fact, it should not be accepted as a dispute settlement mechanism at all. People may not become closer, foes may not become friends. But at least there will be no bloodshed, no damage to properties and/or degradation of infrastructure and basic services brought on by war, no spread of diseases, no environmental destructions and/or ecological disturbances, no chemical and biological agents in warfare involved, nobody has to lose their family members and the list goes on and on being the common results of war.

“May I ask why isn't terror and those who are supporting it not declared as crime/criminals?”

What is terrorism? Who are the terrorist? The West defined it as “anybody who against the idealism and mind-conditioning brought by us, wears turban or any other Islamic look-a-like outfit with some beard and some Arabic or sound like Arabic names or even Korean or sound like Korean names, and opposing to the illegal land grab activities conducted by the Zionist is deemed to be terrorist”.

Stop talking nonsense here Hanan. By the name of combating terror, the U.S invaded Iraq and Afghanistan, the Israel regime launched thousands of missiles and other kind of heavy ammunition to kill or simply speaking, to wipe out the Palestinians. U.S.A + U.K + a country so-called ‘Israel’ = root of evil and terrorism.

“The problem of humanity is their ignorance of each other.”

Go and teach that to your ignorant leaders!

“By creating the mood of friendship prior peace you simply diminish the possibilities of wars and then it will not be required to declare them as crime (since it is well known) and conflicts can be dealt friendly and peacefully.”

I really feel so disgusting to hear this comes from you Hanan. Countless peace / ceasefire negotiations / agreements initiated by Palestine and urged by the United Nations were turned down and/or breached by the Israel regime. Whenever there is a proposal during the General Assembly to pass any resolution to condemn the attack by Israel and the construction of illegal settlement for the Israelis it will simply be vetoed by the U.S.

Hanan, mere declaration doesn't mean legalizing it. By merely declaring yourself as a ‘citizen’ of ‘Israel’ does not make you automatically a ‘citizen’ until and unless you are ‘registered’ isn't it?

Conflicts can be dealt friendly and peacefully? Urghh please stop this hypocrisy Hanan!

“A true friendship must not be backed with a peace treaty since it is inherited generation after generation.”

Even when there is a treaty the Zionist just treat it as a piece of rubbish paper, what more without having it? Up till now why U.S and Israel has not yet become the signatory to the nuclear convention though it is well-known that they are amongst the nuclear power in the world?

What do you know about true friendship Hanan? You and your race don't even know how to count your bless and be thankful to the kindness of the Palestinians in accepting the Jews to settled on their land. The heritage that has been passed on generation after generation amongst the Palestinians is hatred, discrimination and vengeance and amongst Israelis is kill, kill, kill and take their land!

“I would challenge you to choose my way.”

Tun, don't waste your precious time and energy entertaining this guy named Hanan. He challenged you to choose his way because he knows, his way is doomed to fail.

Keep fighting Tun. We are all behind you!!!!

Teruskan perjuangan!

Assalamualaikum Tun,

PERANG..PERANG..PERANG..

Sampai ke akhir zaman perang akan berterusan. Pelbagai sebab untuk manusia berperang. Perang diantara negara mahupun perang didalam negara. Perang diantara kaum mahupun perang sesama kaum. Perang diantara agama mahupun perang sesama agama. Tidak mustahil disatu masa akan datang, peperangan terscetus diantara lelaki dan wanita..

Apapun yang telah diusahakan pada konferens tersebut, syabas diucapkan. Sekurang-kurangnya ada manusia yang mengambil inisiatif untuk bertindak menentang perang.

Pada pandangan saya, kekalutan politik dinegara kita pada hari ini juga kerisauannya bagaikan negara sedang berperang secara domestik. Selagi terdapat manusia yang tamak, maka akan wujud kekacauan didunia ini.

Bagaimana kaedahnya untuk mengeneipkan manusia yang tamak dari kancah politik? BN hampir kecundang kerana terdapat pemimpin yang tamak. Untuk mengenali pemimpin jenis ini sangat mudah. Mereka aktif berpolitik untuk memegang jawatan. Ringkasnya, mereka berpolitik untuk mencari kekayaan.

Zaman dahulu, mereka berjuang untuk membebaskan negara dari genggaman penjajah. Lihatlah pejuang masa tersebut. Hanya yang berani mempertaruhkan nyawa sahaja yang sanggup berjuang. Mereka berjuang untuk kedaulatan negara. Tidak melibatkan kepentingan peribadi langsung.

Bagaimana mencari pemimpin dizaman yang mempunyai tanggungjawab seperti pejuang zaman dahulu?

Zaman ini tak perlu mempertaruhkan nyawa untuk berjuang. Tetapi perlu mempertaruhkan kekayaan. Kita sedang mencari mereka yang sudah sedia ada kaya untuk menjadi pemimpin dan kekayaannya itu digunakan untuk berjuang sehingga mereka menjadi miskin.

Jika konsep ini menjadi prinsip saya percaya sukar sekali untuk mencari pemimpin sedemikian di zaman ini. Tetapi inilah kenyataannya. Inilah yang diingini oleh rakyat.

Negara kita sangat aman sebenarnya. Apakah kita hendak menunggu sehingga peperangan bersenjata berlaku dinegara kita baru kita hendak bertindak untuk bersatu?

Kepada para pemimpin yang diamanahkan oleh rakyat, berjuanglah untuk rakyat. Duduklah dikawasan anda. Keluarkanlah duit poket anda untuk pembangunan setempat dan bukannya menghimpun kekayaan. Janganlah mengharapkan bantuan kerajaan semata-mata. Bersatulah bersama penduduk setempat untuk mencari pendapatan. Galakkan mereka mencari sumber pendapatan sendiri. Sedih apabila mendengar ada pemimpin yang merayu pucuk pimpinan untuk menambah peruntukan bahagian. Pemimpin sebegini haruslah meletakkan jawatan dan melantik orang yang benar-benar berkeupayaan untuk mencari sumber pendapatan sendiri. Nescaya negara akan bahagia.

Ikhlas,

Salam Tun;

Congratulations and "syabas" for initiating such an important issue of criminalizing war at PWTC KL. The conference last week was successful.

Tun; I agreed with u. Make war as a crime, especially on yr statement no 9,(war is basically about killing people. Everyone regards killing people a crime. How can we consider killing a person a crime but killing thousands of people not to be criminal)?.

(This is unfair & double standard.).

War is killing many innocent people than combatants, so we declared; mostly by the people agitating against these practices, as a criminal offence; becoz they are no different from any other terrorists.

Tun; I am certain that yr initiatives will have an impact, its a metter of time... May the Almighty God guide u in yr esteem endeavors to fight for the oppressed. I believe; on this issue alone; U would be rememberd in history as one of the greatest men among the Malaysian.

Salam Tun

I have given my comment the subject of Criminalise War but somehow it didn't get posted yet.

It is ok but I would like to get your urgent attention to the recent "arrest" of Dr Asri former Mufti of Perlis by JAIS that has caused public outcry and give rise to many questions.

It is out of the topic but I believe it is important that this matter be discussed in the open forum and your blog is the most appropriate. It is crucial for the unity of Muslims in Malaysia. We, the ordinary people are getting confused. Something is amiss here. Muslims all over the world are already divided and willing to kill each other. We in Malaysia also has further divided on Islam by states ( different laws ), political parties ( UMNO & PAS ) and the "ulamaks".

By [akee](#) on November 4, 2009 9:44 PM

whatever. the seed of criminalizing war has been sowed. if the Truth is that Humanity need this, then this little new thing (Tun's baby) will eventually grow mature, get strong & become a new

system (maybe in the near future, not necessary today). if you groom it nicely it will become a monster one day. if they get to reach that stage, it won't be easy reverse it back then.

Tun Dr Mahatir yang amat mulia lagi terhormat

There is one way to stop all current and future wars in this world, once and for all.

Any decision-maker, whether he is a king, queen, prime minister or president of a country, who makes the decision that his country will attack another country to cause a war, put that decision-maker in the front line of his army, navy or air-force.

Just to say, 'Go to War', while the decision-maker sits in a posh office, shaking his two legs and watching people from both sides killed is totally barbaric and unjustifiable.

If you are a hero to say 'Go to War', then be a hero to face the enemies yourself – only then, we shall see whether the decision comes, every so often.

Thank you.

Tun,

A more peaceful earth would be a good thing for our future generations. Too many wars have brought about evidence of human cruelty and human nature at its worst. WW2, Bosnia and many other wars have shown us the need to criminalize war itself.

US invasion on Iraq is not because

Iraq has weapons of mass destruction,

IT is because Iraq has NO weapons of mass destruction.

UN knows, the US Intelligence knows it.

Do you think if Iraq has the weapons of mass destruction,

US would want to invade Iraq. Proven

North Korea repeatedly show the world that they have weapons,

but till today US have NO GUTS to attack.

US will prey on the weak. They are no hero.

They will lie to the world again of the threat to Japan, South Korea.

But IT is a threat to US that was not mentioned. Japan, South Korea is just a scapegoat.

North Korea should not tear down their weapons unless US do so.

Once North Korea are weak US will take the ride.

Dear Tun Dr.M

May I comment 'LadyGAuthor Profile Page on November 3, 2009 9:08 AM'

I am a Malay, & I was borne into a Muslim family. For that I am grateful. If I had came to life, say 500yrs ago, I might be a Hindu. Tun Dr.M has previously stated that, the war in Palestine is not about religion; its about 'land', and I agree. Therefore, please leave religion out of this conflict. If not, 'Criminalising War' will be very difficult, as it is.

Surely the Jews must come from somewhere. From history, when the Arabs were mighty, the hard-line Jews, surely must migrate away from retribution, leaving the moderates behind.

Therefore, the Jews who migrate then, are very resilient. If not for Hitler, the Jews might not be too desperate to return and recreate their 'homeland'. (That is why, to show that we are very Islamic, we should not be proud of Hitler). While the Arabs then, due to the squabbles between them, might have not foreseen, the need to safeguard their neighbourhood.

As a Malay we should not harbour any grudge against Jews. As a Muslim I am not sure. I am not against all Jews, but I despise the act of extremist Jews, bullying & killing the innocent, by the thousand. Surely, not all Jews are extremist or anti-Islam, and I think, from his previous writing in this blog, Hanan is one of them. Therefore we should make friends with people like him. After all, apart from Christianity, Judaism is closer to Islam than any other religion. That is why Tun, I agree with Hanan, that we should have invited, of-course, moderate Jews and Palestinians, to the conference. As we all know, extremist exist in all races & unfortunately, all religion.

By the the way, Hanan, you should not use the word 'terror organisation' if you are negotiating peace. Tun Dr.M, have clearly explained the term 'terrorist' in his previous posting.

Back home Tun.

Whats your comment on the arrest of Dr.Maza, by JAIS?

Sure! making friends with enemy and listen to what they have to say is good. I like that idea. but do the government of Israel and America will have open arms to do that. The teaching to be a Muslim is to make peace with everyone including your enemy. but this doesnt mean joining forces with your enemy to fight someone else. Your idea will only work both ways. It is not our side that you should be preaching this, Its your side of the world!. Good luck to you Hanan.

It is time the wider world is aware of Israel's nuclear weapons arsenal which until today has been discreetly kept out of the wider world's awareness.

Israel should be subjected to similar nuclear arms disarmament pressure as what Iran and North Korea are put through.

Asingkanlah kesengsaraan yang besar dengan yang dibesar-besarkan!

Kenapa ada yang seperti mengejek pula, ajak kita fikir dulu tentang hal dalam negara pula?

Iya ke, di Malaysia ini kita hidup sentiasa dalam ketakutan dek gaya pemerintahan kuku besi pemimpin? Iya ke? Anak tak kesekolah, tidak ada pekerjaan, manusia hidup merempat di jalan raya, makanan tidak cukup, hospital tidak cukup ubat, doktor, jururawat, prasarana

haprak....atau mungkinkah rak beer di kedai serbaguna atau serba apa-apa ke, rumah urut, tukang urut, masih tidak mencukupi? Fikirlah, hanya sebab jika kamu zahirkan ketidakpuashati kamu di jalanan, maka kamu sudah yakin yang sebahagian besar yang lain juga setuju dengan kamu?

Iya ke ada yang kena tangkap bila berceramah politik disurau. Iya lah katanya politik tu kan lebih menarik daripada menceramahkan hal agama. Kesengsaraan kawan serumpun dijadikan bahan politik yang mana sepatutnya jadi ikhtibar pada yang hidup supaya ingat yang kita akhirnya akan ketemui Nya juga, siap mendoakan ia terjadi di tanahair dengan mengambarkan jari 1 Malaysia keluar dari bumi...malah sampai satu tahap tak segan silu mengaku kepada hadirin yang kalau nak ceramah pasal agama, adalah lebih menarik kalau pilih topik haid dan nifas dan tentang kepelbagaian warnanya sahaja. Jijik? Jenaka? Atau memang puaka?

Menebeng dengan cerita dalaman untuk memperkecilkan usaha yang lebih besar, cuma memperlihatkan betapa CIPUTnya pemikiran sebahagian kita. Kalau rasa yakin, hebat dan bertapak kepada kebenaran – buat blog sendiri, jangan ambil jalan mudah dengan menebeng pada hal-hal yang Tun bawa sahaja, mengajak orang teroka hal lain yang merimaskan, sebahagian kita kena baca juga, sebab Tun bagi muka. Buatlah blog sendiri, mudah-mudahan dapat jadi ‘famous blogger’ macam Tun! Sebelum tu, berterimakasihlah pada Tun sebab bagi ruang walaupun untuk menghentam Tun. For that Tun,.. Tun memang a gentleman, yang jantanman tu, KAU harus be thankful.

Asingkanlah kesengsaraan yang besar dengan yang dibesar-besarkan!

Sebagai seorang ketua keluarga, saya sentiasa inginkan keselamatan dan kebahagiaan kepada keluarga saya. Kami ini biasa-biasa sahaja, justeru tidak dapat luangkan masa untuk lain dari perihal keluarga dahulu. Kami sekeluarga berdoa semoga usaha menjenayahkan perang ini dapat perhatian yang sepatutnya dari masyarakat dunia - untuk kita semua juga.

Assalamualaikum Tun dan Tun Siti. Semuga usaha Tun berdua diberkati Allah. Kami sentiasa mendoakan Tun berdua berada pada tahap kesihatan yang memuaskan dan bahagia sentiasa disamping keluarga tersayang. Amin.

Assalamualaikum!

Ybhg Tun, semoga di berikan perlindungan oleh Allah dan sentiasa sehat walafiat demikian juga kepada saya dan keluarga.

Tun, di ucapkan tahniah kerana berjaya membawa conference criminal dengan jayanya. Saya tidak berkesempatan menyaksikan conference itu tetapi apa yang di perkatakan oleh mereka-mereka yang menjadi mangsa dalam kem tahanan Guantanamo memang sangat menyayat hati dan teramat kesihan. Perbuatan mereka yang tidak berperikemanusiaan itu lebih kepada sifat syaitan dan iblis laknatullah.

Apakah hasil conference ini akan memberikan impak dan kesan kepada pemimpin-pemimpin kuasa besar. Di peringkat awal tidak kerana mereka akan memberikan pelbagai alasan kenapa mereka bertindak demikian. Namun demikian apa yang kita harapkan ialah rakyat negara-negara kuasa besar ini akan bangkit dan bangun untuk menyedarkan pemimpin mereka. Kekalahan Bush, Blair dan president Francis dulu menunjukkan mereka tidak suka perbuatan pemimpin mereka. Gesaan rakyat negara-negara ini akan berterusan selagi para pemimpin mereka bertindak seperti syaitan dan iblis.

Tun yang baik hati, usaha untuk membawa bush, blair dan lain-lain pemimpin termasuk pemimpin-pemimpin negara Islam yang bersekongkol dengan pemimpin2 kuasa besar ini kemuka pengadilan perlu di teruskan. Kalaupun tidak kesampaian sekurang-kurangnya nama-nama pemimpin ini terpahat dalam sejarah sebagai pemimpin-pemimpin yang jahat dan kejam. Penerimaan segelintir rakyat Sabah terharap lawatan Blair ke sana baru-baru ini memang amat menyedikan, tetapi saya yakin ia tidak bermaksud yang rakyat Sabah sukakan blair, lebih ramai bencikan dia, Sabah mempunyai lebih 60% penduduk beragama Islam. Biasalah Tun manusia-manusia macam blair dan bush ini ada juga penyokongnya di sana sini walaupun sedikit bilangannya. Dikalangan lebih 20 juta penduduk Malaysia tentu ada juga yang menyokong mereka. Sebab itulah Allah telah memperingati orang Islam dalam ayat yang lebih kurang maksudnya ".....syaitan dan iblis itu adalah musuh kamu yang nyata". Sifat-sifat iblis dan syaitan ini ada juga pada manusia. Orang Islam kena sentiasa awas dan waspada, jika kita leka tanpa kita sedari kita berikan kekuatan kepada musuh-musuh kita ini untuk menghambat kita balik. Syaitan dan iblis surung wang, perempuan, arak, kebongkakan, kerakusan, ketamakan dan macam-macam lagi untuk menjadikan kita lemah dan di buai mimpi yang akhirnya kita di gunakan oleh proksi-proksi syaitan dan iblis ini untuk menghancurkan orang kita balik.

Tun, bila kita ambil iktibar kepada kekejam yang berlaku di kem tahanan guantanamo, di Iraq dan negara-negara lain yang secara kebetulan kebanyakannya negara-negara Islam teringat saya satu ucapan yang saya tak ingat siapa yang berucap tetapi katanya negara-negara Islam kena menguasai ekonomi untuk mengelakan mereka terus di perlekehkan oleh kuasa-kuasa barat.

Tun yang budiman, teruskan usaha dan mohon kepada Allah semoga apa yang Tun lakukan juga jihad kerana jihad bukan hanya pergi berperang tetapi jihad juga boleh di lakukan dari sudut yang lain.

Terima kasih.

As the self, takes time to observe around, the more and more it brought me to UMNO.

Nevertheless, the current UMNO is still too far from what it should be, takes the time to find out who is behind the tarian pendet fiasco if you may.

Let us uncoil the hand behind it, very amusing.

Better be safe, than sorry.

Letupan menjadi bukti.....

Hiroshima dan Nagasaki menjadi saksi....

Bandar, kota dan rakyat jelata menjadi mangsa .....

Antara yang mati segera atau membawa sengsara sepanjang usia...

Kebanyakannya adalah rakyat cuma.....

God teaches that murdering is wrong. In fact, God has always been in existence and His teaching has always been around. So why does not this teaching stick in the minds of human beings who are created later ? Why is it that there is a need to fight and show off whatever greatness there is ? Only God knows. If this teaching is innate in human beings, surely humans will not have that nature to want to fight. But humans still want to fight not just with weapons, but with words, with whatever means there is to provoke the other person and with the use of the mind as in psychological warfare. People do not just pick up any weapon and aim at their enemies. There has to be a trigger for example hidden motives, small lies, big exaggerations, physical provocation and in the end, enough to convince others in their quest for greatness or whatever sugar coated words they want to use. People do not learn from history and history repeats itself. The internet tells of the first record of a war and strangely it was between Sumer in Iraq and Elam in Iran. Do the people there learn not to fight ? No because we are witnessing a modern day fighting in these two lands. Iraq with her weapons of mass destruction which nobody actually knows where they are kept. Iran with her nuclear bomb capability, a threat to many nations. If wars are crimes, then shouldn't the leaders of these two countries be brought before the International Criminal Court ? But no. They remain free. And what about the other leaders who support them or who do not support them ? Imagine having these leaders actually punching each other out physically instead of sending out soldiers to fight for them. With all these fightings going on, we wonder if God gets angry with them. It is very easy for God to just snap His fingers and the world will end, together with all the fightings and Earth will just cease to live. He can then create another new Earth and another new group of human beings and start life all over again. Strangely again, God remains quiet. His teaching is that of peace, love, forgiveness and revenge is up to Him. This is for those who believe there is God. But again, who are we to speak on behalf of God ? For those who do not believe in God or something out there, they still know that they have to survive and how can they survive if there is fighting everyday ?

This may not be the appropriate phrases nor words, but I shall say it nevertheless;

Truth, the bitter truth for us all, is that we never have gained any independence. In reality we all know what we are, what this country is based of, It is either we have forgotten about these, or we live in pretense, yes, pretending we know not a single bit about them.

We shall never be freed, not in any near time, The British has successfully injected their penicillin into the roots of society, and it does lasted for such a time, and even now.

It was with intent that they ( The British ), apportioned us, and place the Malay in the village, whilst the other in the city with help and support for business.

In spite of these, both sides of the coins shall be, in anyway end up either in favor of the old ways of the colonial Briton, or the capitalist power -- the U.S.

Who knows, what not, probably it is merely inevitable, we fought our own kin, we are akin to the murderers who murdered their own brothers for temporal glory.

What is the end to this? Is it pretentious for us now?

Tun

I am a bit confused.

Without getting into the semantics of it, unjust wars have never been legal. It's always been a question of whether anyone was powerful and determined enough to bring the perpetrators to book for their unwarranted atrocities.

The Nuremberg Trials and the currently ongoing War Crimes Tribunal proceedings at the Hague against Radovan Karadic for genocide against Muslims, are testimony to this.

You also ignore the fact that there might be just wars and related actions such as India's 1971 intervention in East Pakistan (now Bangladesh) when the Pakistan Army embarked on a genocide mission against the democratically elected majority Govt of Sheikh Mujibur Rahman. There was also the 1990/91 USA led Ops Desert Storm rescue of Kuwait from Saddam Hussein and Iraq. Ex-President Clinton was yesterday honoured with the erection of a statue of him in Kosovo for his airstrike against Serbia in 1999 that saved hundreds of thousands of Kosovan Albanians!

Wars have taken place since the dawn of time and will continue to do so, as long as humans are ruled by their egos and notions of race, religious or national superiority.

So, what exactly does your movement hope to achieve when we already have the UN? Or will your movement only target western perpetrators and Muslim victims and its mission deemed completed, if you succeed in getting Bush and Blair to answer charges before an international tribunal? Will you look at atrocities in Africa, Cambodia, South America etc.?

Why re-invent the wheel?

But in the final analysis, as Edwin Starr famously sang, I agree:

"What is war good for? Absolutely nothing!"

But we are a far cry away from Utopia!

We are all of 1 race, the Human Race

No religion teach to kill mankind.All religion teaches good.

One fights because They feel they have means to fight

The other feel rights to fight.Regardless of conflicts

it will never be an ending solution to fight.Then sometimes it needs a third party to cool off.

Scientists, nation who develops weapons must be a shame of themselves,their talents should be put to good use.

To demilitarize nation for the sake of mankind,

every nation will agree but yet again most nation will sharpen

their knives behind their backyard.Nations wants security.

Building weapons is evil,building a better weapons to be more secure, is more evils.It is a never ending disaster.

The world needs a strong,recognized,able body,a body of its own,

to illegalise war, to name war NO solution to all, able to punish, regardless of reasons. Perhaps to those who are addicted to war, let the world give them a war zone, get the leader and their family involved in the war not just by instructing others, and at the expense of others, let them kill each other so as the innocent won't be a victim. It is like those who enjoy speeding on public roads, allow them to speed or race at the designated race track so as not to harm others. Let them die at the right place so as not to affect others who value life. It will be easier to dispose these junks.  
Life is short, let's value it.

May I give my opinion that, criminalized war will lead to other problems as well, but, I agree, to criminalize the war, because, war nowadays involves weapons of massive destruction and much more into killing innocents, little kids, women... this is not war.. this is truly crime, the source of all terror.. and we need to declare war with these real terrorists.. hopefully with the blessing of Allah, surely we will win. And I respect your effort and your ways of 'war' on this matter.

Salam Sejahtera Ybhg Tun,

I still remember during my college time when an economic professor showed our class of the American economic patterns since the early 20th century. The graph showed that the American economy was at its lowest point in 1939 which was during the Great Depression period. Later it jumped to the highest points during the period of WW2. It declined again after the WW2. Korean War 1953 was the savior to the economic growths as it went back to the higher points again. The economic growths maintained at its higher levels during the Vietnam War starting in 1966 to 1976.

The Iran- Iraq war which was prolonged for 8 years 1980 to 1989 was a big bonus. Handsome Kol. North was tried and "demoted" for his achievements in selling weapons to enemy Iran. At the same time friend Iraq bought weapons from the same sources.

The same thing happened to the US Ambassadors to Kuwait during the Saddam invasion to Kuwait. She was called back home and tried for persuading Saddam to invade Kuwait during a so called cocktail party. Her punishment was to demote her back to her old profession as a professor in a local university ( I read this in NST). Invasion to Iraq later brought huge fortunes.

Mr. Hanan did ask Ybhg Tun in blog chedet - (Financial Crisis) whether the current global financial crisis can lead to another world war.

My opinion indicates it is possible as looking through the history of world economic trends as compared to the event of wars.

Hanan seemed opposed to the idea of criminalizing war.

Salam Tun,

I wholeheartedly support your movement to criminalize war. I would however go further and criminalize acts of Government that causes violence to its own people or those within its jurisdiction.

I humbly submit that the use of capital and corporal punishment are no longer relevant in today's world and that if they are abolished the movement to criminalize war will gain greater impetus as a solution for all of humanity.

We also need to remember that war can be called by many other names although the effects are the same. In the US, the whites called it "settlement" although the red indians were there long before. In South America, the Europeans called it "discovery" of the new world although there were also natives there long before them. In some cases it was not only war but genocide that was committed.

I am sorry that the powers that be in Malaysia are not helping the cause to criminalize war by example. We want to cane a mother for drinking, arrest a former Mufti for talking, let people die in custody, give datukships to criminals and continue with corruption. We the people are fed up with it all.

Irrespective of the comedy perpetrated by the powers that be, I assure you, Tun, that you have the full support of the people in Malaysia in your noble efforts to criminalize war.

My best wishes to you and your family.

Wassalam

We must be vigilant, there are too many foreigners who has dubious desires to interfere in the affairs of the country. They are likely to have hidden agendas behind their actions, shadowing their acts into an elusive form of friendship.

The strength of the country depends on the extent to which we are able to survive mentally and physically, to forge name for change and towards good.

Fight we not, but defend we must, need no killing to justify another killing. In that spirit, let us support 'Criminalise War' endeavor by Tun.

Before we can criminalize war, the killings of civilians and innocent people should be stopped. How can we stop the war if the Americans and the Israelis keep producing the sophisticated weapons for destruction?

Dear Hanan,

I have to disagree with your view, if war is allowed it would create more trouble than solving problem. I do not see any logical reasons on why war should be allowed, this is not about creating relationship between friend or foe, this is about preventing million death in war.

War has created too much sufferings, why is there even a need to kill another human?

I do not see the reason behind it, was it that each of us human wish to take the lead of the world and dictate their way on the others?

What has those innocents Iraqian, Palestinian, Afghanistan done to deserve their fate? was it power-hungry politicians?

Among them are the innocent children, woman, teenagers who knows nothing of the conflict. When war is waged, regardless of who they are, they were dragged into the conflict.

If one of your siblings are weak, should you kill him or kick him? or should you educate him so that he would get better?

[By capello08](#)  [on](#) November 3, 2009 1:19 PM

Dear Tun,

The idea is right and what it should be.

You should win the Noble prize for this (parri passu with quantum physics, nuclear technology, etc) if the law materialises and executed. Seriously.

The quest seems to be impossible because:

The world is dominated by the United States and certain countries from Europe like Britain who will definitely oppose this. They want the world to be shaped like what they want it to be, they want people to follow their system, 'religion and beliefs', culture, etc.

They will only want to criminalise war to head of countries who are against them but not their followers or they themselves.

They also have conflict of interest because they have monetary interest in the form of profits from sale of weapons, conquering other countries' wealth through force (i.e. war) and monetary policies.

Human nature is to destroy each other although this is an irrational actions. Even in Islam where cruelty and kiliings amongst mankind are the biggest sins, there exist many bad people whose religion is Islam (so are people from other religions as well).

Whilst we are proud and inspired to have people like you fighting for this nobel cause, religiously we also belief that the God is fair hence punish mercilessly those people who kill another human being especially children in war(s) in Hereafter, insyAllah. Live in this tiny world is short as compared to infinite years in the Dayafter.

Thank you for doing this. I fully support criminalising war and will spread the message. May God grant you all the strength, patience and tenacity you need to continue this work. Even if people think this effort is a step the size of the tiniest organism, it is a step nonetheless. A step towards a more peaceful and just world. Better this tiniest step than to do nothing at all.

[By checker](#)  [on](#) November 3, 2009 12:01 PM

Salam Tun dan chedet bloggers,

I attended the conference but for other urgent commitment I would like to but couldn't attend the tribunal.

My view is that this campaign should continue as you have clearly outlined the rationale of the needs of such effort from the peaceful people of the world. We have no other options but to build and use PEOPLE POWER to topple the grand idea of war by the powerful nations who make their own rules to justify their criminal actions.

Suggestion by Hannan appear to be another additional option but too far fetched to be believed that it will work finally. Forget about it. History has proven otherwise, Even as we talk about the need for peace, this same self-appointed sheriff of the world ( I would NOT call them LEADERS as I do not think they deserve that but a BULLY is more appropriate term ) is saying that they will still keep war option on the table, if their target people or nations do not comply or bow to their demands and worst still corrupt other leaders to support their actions. Of course, they will first make their "enemies" suffer through economic sanctions etc before they strike at the weak "enemies". Excellent war strategy for the war mongers but it is clearly a cowardice act, the same has been said about the "terrorists" acts of killing the innocent civilians as act of cowardice. The collateral target has been conveniently said and accepted whereas it does the same thing of killing the innocents. Killing is ok to promote democracy but when people make their choice through same rule they apply, suddenly or conveniently they dismissed them just because they don't like these people who is not in line with their evil agenda. They adopt and apply the doctrine " you must accept or support us - no other choice because we are good and the alternative is evil "

You are right to call for the people power to pressure their respective governments to ignore these self appointed sheriffs of the world.

People can play with many words to justify their actions but to me I come to the conclusion that there is only one culprit that would like to destabilise the world for their benefit to a super race, controlling the world - ZIONISM

I rest my case

Good afternoon Ayahanda Tun,

Is Phang a war criminal by "threatening" Chew and Wee just because they asked Ong TK to resign as MCA President? Another S..Tan who think that they have the damned right to label others as traitors. Who are the traitors? Cakap tak serupa bikin, ignorant and typical China men, and Chinese believe that they will be punished by "Langit" (god) one day.

These men believe that they can be richer by making others poorer. They think that the Chinese are morons and stupid. Majority of the chinese prefer not to vote MCA now because of these crooked politicians.

If MCA wants rakyat cina votes, get these bad apples out from the party lah. No way! Chinese will never allow these cooked chinese politicians to manipulate and controlled our future generation with their dirty money.

Phang challenges Wee and Chew to resign from party

KUALA LUMPUR: Community leader Tan Sri Robert Phang has challenged MCA Youth chief Datuk Dr Wee Ka Siong and Wanita chief Datin Paduka Chew Mei Fun to resign if they wished to continue condemning the party president.

The Social Care Foundation chairman said both Dr Wee and Chew should not criticise Datuk Seri Ong Tee Keat while they were still in the party.

"If they do not agree with the president, the right thing for them to do is to resign so that they can continue to criticise (the party and the president)," he told a press conference here yesterday.

Phang said various leaders from the Chinese community were interested to hold a dialogue with Dr Wee to find out why he and certain quarters were against the greater unity plan as announced by Ong.

"Dr Wee and Chew should open a forum to clarify their status as 'traitors in the party' and why they are against the plan when there is a possibility that the party will be united under the proposal," he said.

He said deputy president Datuk Seri Liow Tiong Lai should also come forward and make his stand clear if he was in the same team with Dr Wee and Chew.

On the greater unity plan, he said it should be given time to be implemented as suggested by former deputy president Datuk Seri Dr Chua Soi Lek.

"If it does not work out, the party should call for a fresh election," he said.

Phang said Dr Chua, who was elected at the party election last year, represented 49% of the central delegates and his "strong voice" should not be ignored.//

Good day Ayahanda Tun.

Assalamualaikum Tun Dr MM,salam sejatra dan semoga terus di berikan kekuatan.

YBhg Tun, Tahnia di ucapkan kepada Tun dan rakan-rakan kerana berjaya menganjurkan satu conference yang belum pernah di adakan di negara ini. Walaupun kesannya tidak akan kemana di peringkat awal tetapi ia tetap akan membuka mata segelintir rakyat bukan sahaja di Malaysia

tetapi negara-negara lain di dunia ini. Apakah tindakan akan di ambil ke atas mereka-mereka yang terlibat menghancurkan Iraq, jawapanya mungkin tidak kerana mereka2 ini adalah para pemimpin negara-negara kuasa besar. Tetapi kesan konference ini akan membuka mata pemimpin negara-negara kuasa barat yang ada sekarang dan rakyatnya untuk berfikir se juta kali sebelum memerangi negara lain yang lemah.

Iktibar yang negara Islam boleh ambil daripada sini ialah sentiasa ingat kepada ayat koran yang kurang lebih maksudnya begini " ....syaitan dan iblis itu adalah musuh kamu yang nyata". Kita semua tahu, sifat iblis dan syaitan boleh masuk kepada manusia. Jadi negara-negara yang para pemimpin ada ciri-ciri iblis dan syaitan, usah di ikut saja telunjuknya.

Teruskan usaha Ybg Tun, kalau dapat konference ini juga di adakan di negara-negera lain yang menentang peperangan. Contoh mungkin boleh di adakan di Cuba, Venezuwala, Brazil dan sebagainya.

Jika konference ini kerap di adakan saya yakin kesanya akan cepat lahir.

**By the same virtue..The very people that needed to identify and rectify this problem and menace have truly have their hands tied behind their back for various commitment that leaves this much to be desired..**

[[As I understand, the conference last week was successful. Who were the participants, may I ask? I may assume that you didn't have any arguments about war declaration as crime. Can you convince those who you are claiming that they are war criminals as criminals? Was there any representative of those invited? Did you invite a single Israeli Zionist to attend in that conference? Did you invite a single person from a terror organization and listen to him?]]

**Again Hanan..What you proposed needs stronger will power and stronger resources..Can we starts and agree first on this initial steps..:)**

[[Dear Tun, if I would be in your position (I'm sorry for that since my shoulders are narrow) I would initiate a different approach that deals directly with the healing of the root cause of war and would look after the preventive medicine. I would look after keeping life clean and tidy instead using penicillin because of dirt. I would create friendship between people, even prior peace. The problem of humanity is their ignorance of each other. The problem of humanity is that they are teachings about the opponent as a monster, as a beast. This is the root cause of wars. Assume you declare war as a crime and you sentence the criminals for the deserved punishment, will it avoid other criminals to raise later on? Will it avoid the ignorance?]]

**Dear Hanan..you seriously overlook at your own predicament.You yourselves will not be able to make friends with existing Palestinian.Too much blood have been shed so to much animosity,hatred and suspicion between two engaged parties..Let's time heals all wound provided new one not be attempted.Your grandson and grandson succeeding him will bore fruits of your labour...:)**

[[I would challenge you to choose my way. It may even look very much harder and the path is mined all along it, but if we can pass it, this will be the real salvation to humanity. Confucius said: "a journey of thousand miles begins with the first step". May I add to that a quote of a good friend of mine: "Life is a network of mistakes and errors we must knit the holes by learning".]]

By Hanan on November 2, 2009 6:00 PM

//Dear Tun, if I would be in your position (I'm sorry for that since my shoulders are narrow) I would initiate a different approach that deals directly with the healing of the root cause of war and would look after the preventive medicine. I would look after keeping life clean and tidy instead using penicillin because of dirt. I would create friendship between people, even prior peace. The problem of humanity is their ignorance of each other. The problem of humanity is that they are teachings about the opponent as a monster, as a beast. This is the root cause of wars. Assume you declare war as a crime and you sentence the criminals for the deserved punishment, will it avoid other criminals to raise later on? Will it avoid the ignorance?//

Dear Hanan,

Well said, you are right, humanity is ignorance because they have not gone through war sufferings, hence education and time factor are the most effective ways proven in the world to educate humanity to be less animal and less ignorance. Education could be obtained from schools, colleges, universities, religions, readings, internet, corporate world, and entertainment industry (eg: TV drama, Movies, YouTube, MTV, Albums, etc...)

I agreed with you if we declare war as a crime and send them for the deserved punishment, it can never avoid other criminal raise later on nor it can avoid ignorance because we are Human Beings. However, Malaysia is a religious country, I guess Israel/Palestine is one these countries too. We are a multi-society country, thus tolerances among races are very important to avoid teachings for revenge which will create a different species of monster or alien (remarks: I do not name monsters as beasts because in Confucius teaching, this label or name may cause "war of mouths (minor) or of weapons (major) due to our ignorant and arrogant without putting ourselves into their shoes, one of the important criteria to minimize unnecessary disasters, social illnesses or wars due to forced oppression without fair trials).

Good day and "May God Be with Always".

Good day Ayahanda Tun,

P/S: Kamal Ahmad, invite me to join you too, and Tun Dr Mahathir has my phone number. I was thinking may be we should meet up one day at my friend's Restoran TK Chua - Singapore Hainan Kai Fan, and it's halal in KL, k.

Tun Dr Mahatir yang mulia lagi paling disayangi

Two people who cannot settle a dispute or misunderstanding over a cup of coffee and start to fight, trying to kill each other is considered barbaric. A crime has been committed. Only barbarians kill people, whether the victims are innocent or not is another matter, altogether. Unfortunately, the rich and powerful have got a different set of rules to satisfy only themselves.

Talking about people changing the mind of the governments is a tall order. How many politicians actually will listen to the voters' view and opinion, once these greedy and self-centred politicians have been voted in and hold office?

It can be concluded, people with brain will detest any form of harm inflicted on another fellow human-being and to kill is definitely a crime, in any language. Ironically, to kill one is a crime but to kill thousands with a single blow is looked upon by some barbarians as an act of God.

Thank you.

Hanan,

what is there to invite a representative like you a jewish to the conference??? What for??? It has been donkeys years since the Palestinians and Israel had met MANY MANY times to end the war and it will continue with the Israel building more and more settlements on palestinian land and there will no end to it.(UNFORTUNATELY the Muslims still believe that the Israel Regime is honest in the STUPID Peace Talks).

Do you expect us to just keep our mouth shut and forget about the war just because YOU... a Jewish who comes from the regime of Israel which rob and kill the innocent people of Palestinians of their land said so?????????

What friendship are you talking about? New Settlement after new settlement have been developed and people have been killed and raped by YOUR HEARTLESS and CRUEL Regime and you want us to forget about doing what we are doing now?

The Muslims have learned that NEVER EVER let the Jews to their land because HISTORY shows that they will eventually grow and rob your land from you. Read the History whereby it was the British who was behind the idea on the settlement of the Jews who had never had their own land and gave the Palestinian land to the Jews. REMEMBER AL-NAKBA the Blackest Day for Palestinian 15th. May 1948.

60 Years ago. Kindly ask London or Washington from Britain and the US to make your new settlement so that you can breed at better cities than the Palestine..... get out of the Palestinian land because it is never your land but it was HERBERT SAMO'YEL's idea.

Shame on the Israel Regime.

Salam Tun and fellow bloggers,

1. First and foremost I would like to say thank you for initiating this movement. Not many people in this world are interested to do what you and others are doing to criminalize war.
2. You were also responsible in saving the lives of many Bosnian muslims when you interfered in the ethnic cleansing wars.
3. These acts are so consistent of you, dulu, kini dan selamanya...you are always concerned when violence occurs.
4. I am certain your initiativeness will have an impact, its a metter of time. Try to reach the students in developed countries. When I was in the states during the gulf war, most univ students knew the real reasons for america to go to war and the students were against the war, whereas americans at large were supporting the war due to the effectiveness of government propaganda. So how to reach the students? Even some Israelis are against the war.
5. When all these things are taking place, I wonder why dollah the dungu doesnt do anything? Is it becos he's dumb, not so consistent? not having any principle? knowing there's no money involved to make him, son, sil, rich? whatever it is...he's not fit even to be a grandson of an ulamak. This man will do anything when there's profits for him and his closed ones.

as-Salam alaykum dan salam sejahtera,

Terlalu banyak yang boleh diperkatakan berkenaan International Conference & Exhibition; Criminalise War minggu lalu. Taip sahaja di internet dan anda akan mendapati liputan media tempatan dan antarabangsa berkenaan usaha ini. Pelbagai emosi dan perasaan bermain sepanjang saya mengikuti program selama empat hari ini. Sedih, simpati, ngeri, bimbang, syukur, gembira, kagum, besar hati, rendah diri, benci, dan semangat menyelubungi di samping pengetahuan-

pengetahuan baru berkaitan undang-undang antarabangsa. Walau bagaimanapun, pameran yang mengiringi konferens kurang memuaskan kerana terlalu sedikit yang dipaparkan. Bentuk-bentuk penyiksaan yang dipaparkan memang mengerikan dan tidak berperikemanusiaan. Menurut seorang bekas tahanan Guantanamo Bay dalam bicaranya, ia hanyalah « tip of the iceberg ».

Setiap pemimpin ada kekuatan dan kelemahannya. Namun sesuatu yang harus dicemburui ialah perhatian penuh konsisten oleh Tun Dr. Mahathir dan isteri terhadap semua sesi pembentangan, sidang suruhanjaya jenayah perang hari ketiga dan Tribunal Jenayah Perang Kuala Lumpur hari keempat, pada tahap usia sedemikian dan berkaitan isu yang serius begini. Jadual aturcara boleh dilihat di [perdana4peace](#). Semua aturcara berjalan dengan baik kecuali pembentangan oleh Dato Seri Rais Yatim yang digantikan oleh Datuk A. Kadir Jasin. Persidangan ini turut disertakan dengan persembahan oleh anak-anak warga Iraq yang menyentuh emosi dan puisi oleh seorang anak kecil Malaysia, selain lagu dalam pembentangan Cynthia McKinney, bekas anggota wanita Kongres Amerika Syarikat yang melemparkan soalan kepada Zionis; So Who Is Your God?

Pada pendapat saya, latar falsafah penjenayahan perang ini belum diperbahaskan secara menyeluruh. Buktinya, isu perang balas atau perang pertahanan dibangkitkan beberapa kali secara tidak langsung dalam sesi soal jawab sepanjang persidangan. Begitu juga, soal perang pembukaan atau perang pembebasan yang tidak dibahaskan kerana barangkali berlawanan dengan arus persidangan. Antara yang harus diperhatikan juga ialah perang masa lalu yang berbeza dengan perang masa kini. Demikian juga perang yang melangkaui golongan tentera sehingga membabitkan orang awam. Semua ini harus jelas sebelum pemikiran penjenayahan perang itu dapat diterima dengan baik.

Dalam Islam, persoalan jihad (perjuangan), qital (peperangan) dan al-qatl (pembunuhan) adalah jelas dan mempunyai perbezaan-perbezaan yang sudah digariskan. Hari ini ia diputarakan oleh kuasa besar dan media yang menyebabkan kekeliruan di kalangan non muslim dan menyamakan kesemuanya sekali dalam propaganda keganasan. Penjelasan perkara-perkara tersebut sebenarnya telah dinyatakan oleh sekian ramai ilmuwan Islam.

Bagi umat Islam, baginda Nabi Muhammad adalah insan yang diutuskan Allah membawa rahmat untuk seluruh alam universal ini. Umat Islam percaya bahawa baginda adalah rahmat anugerah dan Islam adalah agama as-Salam (kesejahteraan). Para ilmuwan dan sarjana Islam telah memelihara segala warisan baginda dan menyelidik setiap sudut berkaitan warisan tersebut sehingga terhasilnya khazanah penyelidikan yang sangat dahsyat berkenaannya. Ia dinamakan sebagai ilmu hadis dan penyelidikan warisan baginda Nabi Muhammad. Segala tutur bicara baginda berkaitan perjuangan, peperangan dan pertahanan pula telah direkodkan oleh generasi kemudian berdasarkan metodologi yang kukuh. Segala yang berkaitan dengan peribadi dan warisan baginda tidak diperkatakan sesuka hati tanpa bukti dan rujukan yang tepat.

Hasilnya, umat Islam semakin meyakini bahawa baginda meninggalkan warisan yang membina peradaban rahmat, kesejahteraan dan keamanan. Umat Islam tetap positif bahawa usaha keamanan dan kedamaian harus dilakukan dan mesti diteruskan walau berhadapan apa jua keadaan jenayah yang berlaku di dunia ini.

Indahnya, mangsa-mangsa perang dan tahanan yang menjadi saksi kepada Kuala Lumpur War Crimes Commission (semuanya muslim) menyebut dengan jelas bahawa aduan mereka bukanlah

bermotifkan dendam tetapi untuk memperjuangkan keamanan dan keadilan serta luahan kepada dunia tentang pelanggaran hak asasi dan undang-undang antarabangsa.

Islam agama kesejahteraan dan ia tidak pernah mendorong kezaliman atau jenayah.

In addition, I would like expressed my despondency upon seeing many of Malaysian brothers and sisters who are being narcissistic which oversee the importance of global peace and equal human right as a whole.

Many of them who I have read their comments, they argued regarding Malaysian imperfect law and justice system which can't even punish certain crime in Malaysia. This is not a concrete reason for us Malaysian to just abandon the suffering of others in other part of the planet.

idea of criminalizing war is good provided the world need to also start world population control. earth resources especially food is limited & getting worst.

war sparks arm race especially favoring the most disasterous creation, which is clearly so bad. human should be racing to explore the space with what they know today rather than racing to kill the Earth & humanity altogether. Human of course cant stop the end of the world as said in the holy books but human alltogether can actually slow down the end of the world process.

our universe is infinity, resources are also infinity, planet that same like earth should also be infinity too, but it it way too far distance for human to reach (other world like earth is out there) with the technology today. so scientist should race that. let us be alien to other world rather than they be alien to us. the universe is so infinity huge, i dont believe that there is no other world out there somewhere far far away. if human found new planet to live on out there it might save humanity from end of this world.

Apa khabar Tok Det.....semoga sihat selalu..mudah-mudahan

Pada pandangan saya apa yang Tok det perjuangkan sungguh mulia ialah peperangan dianggap satu jenayah . Orang yang melakukannya dianggap bersalah dan perlu dihukum . Cuma saya terfikir ayat yang terdapat didalam Al Quran ,

Dan ketika Tuhanmu berfirman kepada Malaikat; “Sesungguhnya Aku hendak menjadikan seorang khalifah di bumi”. Mereka bertanya “Adakah Engkau hendak menjadikan di bumi itu orang yang akan membuat bencana dan menumpahkan darah padahal kami sentiasa bertasbih dengan memujiMu dan mensucikanMu?”. Tuhan berfirman: “Sesungguhnya Aku mengetahui akan apa yang kamu tidak mengetahuinya”.

Mungkin inilah jawabannya , manusia sebenarnya boleh merubah apa yang dilakukan oleh tangannya sendiri walaupun manusia itu mempunyai sifat-sifat yang suka membinasakan kehidupan mereka sendiri , Allah itu ingin melihat siapa diantara kamu yang paling baik pekerjaannya dimuka bumi ini dan Allah suka kepada orang-orang yang memperbaiki amalannya .

Mudah-mudahan usaha Tok det diberkati oleh tuhan yang esa .

Sebagai seorang manusia , Saya sentiasa menyokong usaha yang murni demi kebaikan manusia sejagat , kalau negara saya diserang , saya sanggup mati demi negara , bangsa dan agama .

We must make a stand to condemn wars that are too often waged in the name of liberaty, justice and progress, and then see the so-called victors rob the vanquished exactly of that very freedom, fair-play and economic advancement. We can't allow the undemocratic Security Council to dictate terms to the feeble UN and permit balatant and hypocritical injustice to be practiced in the affairs of international relations, as they are happening to-day. If KL is a lone, feeble voice, let it be the start of a world-wide movement to call those propagating warfare to account. Fighting for peace equals raping for virginity ! An insane contradiction of terms.

Salaam Tun,

Imho, to stop and end wars via the conference table will simply not work, as its just a whitewash for the super powers to be seen as making efforts towards peace and then get recognition by some award-giving farcical organizations like Nobel. Obama is a laureate, and Clinton is deified by Albanian morons in Kosovo.

The economic system is a war based system, and that say so much for all the wars on Earth, and the idea is always to perpetuate it and not end it. The US economy is WW2 based, and the only business which is still thriving over there is that of the *Military Industrial Complex (MIC)*

It is truly said of mankind on Earth, if something doesn't work, they just seem to do more of it. So...more wars, more conferences.

My 2 cents worth is that humanity needs a new paradigm, one which transcends the current evil and conniving ways, and must stop believing in Tolstoy's *War and Peace rubbish*.

Peace

Salam Tun

There's robbery took place at Cheras Pandan Mewah.

You can watch this video: <http://www.youtube.com/watch?v=-kxMqEipuDU>

Does Malaysia's law allow the rights for the public to take action into their own hand? Astonishing, the Police were there too. Are there any judgments before trials? Uncivilized groups as well as uniform groups were at the scene. It's shameful damaged to the nation. What's happen if this so called robber is innocent driver?

Before we talk about going to the coming conference on criminalizing war at the PWTC, it's time we looked after our own backyard. We are a human being. We have rights inherent in that reality. We have dignity and worth that exist prior to law. From the beginning of our history the country has been afflicted with compromise. It is by compromise that human rights have been abandoned.

Hopefully Tun should realize what is happening out there.

Maaf Tun

By cleffairy  on November 2, 2009 9:06 PM

I had the invites to go to PWTC for the exhibition, but I couldn't make it. It's such a waste. I as really hoping to see the exhibition.

Anyway, on criminalizing war...war has always been about powerful nation attacking the weak, and just because the powerful nation is powerful enough to wipe out the civilization of other country- the weaker country must bow to the more powerful country. That's the way it always have been. The powerful ones will be on top and stepping on the weak.

I doubt that if the weaker nations spoke against war will work in making war a crime. In order to stop war, I think the most effective way is to paralyze the powerful nation by infiltrating their economy and stopping them from accessing technology?

i think all people in this world knows that war is a crime but to some people, they tend to ignore that fact. it's ok to kill other people as long as they are not related to them. it's ok if other people get hurt as long as it's not them.

people r afraid to get hurt, afraid to fail and bcoz of these things, wars happened..

government r busy educating their people about war. but they forgot to educate their leader..bcoz d decision to start a war is always made by the leader. i think they should emphasize on educating their leader more.. so that the leader will never, ever, ever thinking about starting a war..

**Assalamualikum dear Tun Dr. Mahathir,**

I read your speech on the "Criminalizing War" website and submitted my comment there. For some reason, probably unintentionally it was not posted yet there.

Thus, I'll use this blog platform to submit my comment here.

May I say that your approach and initiative is good, but it could be a better one. There is always room for improvement. As well every good thing hides something "wrong" which we need to take in account when we propose it.

Here is my comment which is missing from the "Criminalize War" website:

---

*Assalamualaikum dear Tun Dr. Mahathir.*

*Of course war is a crime. Declaring war as a crime is not something new. War is forbidden under any religion and a crime in any civilized society. War may solve problems but creates other problems, even greater problems.*

*Dear Tun, Do you think that by declaring war as a crime you make people to become closer to each other? Do you think that declaring war as a crime can create friendship between foes? Making a school analogy, assume that in the class of 30 pupils, 4 who are weak and disturbing the whole class from learning. Should the teacher throw those 4 pupils out of the class, or maybe invest in them more time to educate them better. By daily punishing will the teacher achieve any result? By saying that they are "criminals" will he solve the problem? Maybe the teacher needs to show them some more attention and a "hugging" environment so they can feel "important". Maybe by doing that they'll invest more effort and improve without disturbing the other pupils?*

*May I ask why isn't terror and those who are supporting it not declared as a crime/criminals? Isn't terror killing the masses? Many activities prior war are also big scale crimes which lead finally to wars. Both are not "fair play" and crimes in the same scale. By declaring war as a crime you are not pointing to the wars suffering root cause of the human race.*

*When you declare war as a crime you once again divide the humans into two groups which are thinking differently while each side thinks to be the right one. They can never "compete" in trial or tribunal, but God's judgment.*

*As I understand, the conference last week was successful. Who were the participants, may I ask? I may assume that you didn't have any arguments about war declaration as crime. Can you convince those who you are claiming that they are war criminals as criminals? Was there any representative of those invited? Did you invite a single Israeli Zionist to attend in that conference? Did you invite a single person from a terror organization and listen to him?*

*Dear Tun, if I would be in your position (I'm sorry for that since my shoulders are narrow) I would initiate a different approach that deals directly with the healing of the root cause of war and would look after the preventive medicine. I would look after keeping life clean and tidy instead using penicillin because of dirt. I would create friendship between people, even prior peace. The problem of humanity is their ignorance of each other. The problem of humanity is that they are teachings about the opponent as a monster, as a beast. This is the root cause of wars. Assume you declare war as a crime and you sentence the criminals for the deserved punishment, will it avoid other criminals to raise later on? Will it avoid the ignorance?*

*By creating the mood of friendship prior peace you simply diminish the possibilities of wars and then it will not be required to declare them as crime (since it is well known) and conflicts can be dealt friendly and peacefully.*

*The approach of declaring war as a crime main agenda is to defeat whom you hate. By creating friendship prior peace you are doing the opposite, you are making friends with your enemy. You learn what your enemy has to say and your enemy learns what you have to say. You replace your bitterness with love. There is no peace agreement that will be worth the paper and ink that was signed if it is not backed with a true friendship. A true friendship must not be backed with a peace treaty since it is inherited generation after generation. This is the big difference.*

*I would challenge you to choose my way. It may even look very much harder and the path is mined all along it, but if we can pass it, this will be the real salvation to humanity. Confucius said: "a journey of thousand miles begins with the first step". May I add to that a quote of a good friend of mine: "Life is a network of mistakes and errors we must knit the holes by*

*learning".*

Dear Tun Dr M,

I do agree with you that war should be criminalized. This is due to the fact that in a war (Even with sophisticated ammunition and gadgets) there are more civilian (Mainly the old, women and children) casualties. What crime they did to get punished by the warring countries.

Many citizens suffer injury, malnutrition, dislocation and premature (unnatural) death just because of the ego of a few community and national leaders.

It is a pity the these so called 'leaders' are not front runners of a war but they hide within the wall of the rest. No doubt they could be very vocal and forceful because they know pretty well that they will be the last to be attacked.

However, war against evil nations and protection against attack from another nation should be allowed. The term 'evil nation' should be acknowledged and accepted by the majority of the countries in the United Nation (Veto power should be ignored). However, civilian casualties should be kept at its minimum.
