

THE CENTURY OF THE WORLD

Chedet.co.cc

June 28, 2011

By Dr. Mahathir Mohamad

**** This article was written for a talk I was to give to a forum. I could not deliver it as I was sick. Maybe it would be of interest to some people.****

1. I do not know whether the 21st Century would be an Asian Century or not. But what is certain is that Asia would play a greater role in the political, economic and socio-cultural affairs of the world during the century.

2. The world has been Eurocentric almost as soon as the Europeans reached Asia via the Cape of Good Hope. This happened because of the aggressiveness of their culture, which ensured the supply of trade goods through force and conquest.

3. The conquered territories were ruled largely through the European system of Government. It became clear that their system was superior, so that the countries that remained free such as Japan, China, and Thailand adopted the system gradually.

4. The acceptance of the European system extended to the ideologies and culture so that Europeanisation became almost total.

5. Of the Asian countries that Westernised, Japan was the most extensive. It was able to industrialise and to build up its military forces.

6. However, it was only after World War II that the European-style industrialisation took hold and spread to Taiwan, Korea, China and the countries of Southeast Asia.

7. Japan demonstrated an ability to outshine the European and shortly after came Korea and Taiwan. Now India has followed suit.

8. It became clear that the Asian countries of the East are capable of outstripping Europe. Such is their ability to compete in the manufacture of goods that Western products were swept off the world market.

9. Basically the Western countries gave up on manufacturing, except for certain niches, and switched to the financial market. Inventing numerous intangible products, the West seems to continue to grow. But in reality there was no growth as the financial products did not give rise to real business.

10. While the GDP and Per Capita Income figure seems to indicate continued growth and wealth creation, actually the West was in decline. Much of the skills in management and in productions have disappeared.

11. What is clear is that not only is Asia, East Asia in particular growing but the West is actually declining. Eventually the bubble bursts and despite all the efforts put in, the West cannot regain its old capacity to compete with the East, with Asia.

12. It would be wrong however to assume that the world will become Asia centric. Despite the decline of the West, the Europeans are not about to lose all their influence. They would still have a role to play in the affairs of the world.

13. The Asian countries will not be exclusively Asian. It would be shared with the Europeans. But the European will not be as aggressive as they used to be. Recognising the economic power of Asia with its mastery of technology and production capacity, the West will gradually reject any form of military confrontation because this strategy will no longer work. Indeed it can pose great danger to the West.

14. For its part, Asia would do well to realise the futility of open confrontations and war. Asia will not try to emulate the US during its heyday when the threat of force figures much in its policies.

15. The result may be greater respect of the multilateral organisation like the United Nations. China as one of the permanent five will be less likely, to disregard the moral pressure of the United Nations. It is even likely that the United Nations would not be forced through the manipulations of the permanent five. Certainly the United States would not be able to continue dominating or ignoring the United Nations.

16. When the power of Asia balances the power of the west, there would be less tension affecting the world. There could be a period of calm and prosperity for the world.

17. The diplomats of the East and West will have to try to maintain this period of peace and prosperity for as long as possible.

18. This is what the 21st Century will be about. It will be neither an Asian century nor a European century. It is more likely to be the century of the world.

It still remains to be seen if this is a century of the world when the United Nations still have the Great 5 powers with veto rights. An issue can still be vetoed whenever there is a disagreement on policies by these 5 watch dogs. However, the Global economy has given other nations a chance to share in the wealth but that does not mean equal say in the world's affairs. A rich nation like Japan has to conform to world politics or it will be treated like a pariah nation like Iran or Cuba. A run down country like Russia has more say than Japan or Singapore even though they have turned things around into a first world nation.

China with all its current economic might is still a cheap mass producing country and do not have high tech manufacturing like Taiwan and S. Korea.

Yes, we all want to keep the status quo on the peace and prosperity but the world can only produce so much food and absorb so much punishment before humans start to destroy the world and themselves. The population of the world has more than doubled since WW2.

Tun..harap sudi membenarkan saya menggunakan kepala otak saya sendiri untuk menafsir pendapat oopss I mean kenyataan Tun ini.

Pertama saya musuh PAS.Kerana PAS musuh Islam.Itu pendapat saya yang saya sanggup mengeluarkan hujjah-hujjah mengikut kemampuan dan tahap kepala otak saya sendiri.Oleh kerana saya ini angkuh dan sombong di dunia maka di akhirat saya mesti berani memikul apa akibatnya..!!

Di dalam kenyataan Tun ini Tun memang hanya menggunakan akal sendiri.Jika Tun semak dengan teliti Ayat-Ayat Al Quran perkara 17 ini tidak akan berlaku kerana ianya bertentangan dengan sunnah.Cuba kita lihat dan kaji Ihya Ulumiddin.Kita akan dapati perkara yang sama.Banyak hadith juga menerangkan perkara yang sama,untuk memperincikan

kesemuanya yang berusia ribuan tahun di dalam blog terhad ini adalah mustahil.

Jadi kita ambil inpatinya sahaja dari pakar terulung Hujjatul Islam Imam Al Ghazali dari Ihya Ulumiddin jilid 1 hingga 8.

Tun..Tun telah menyakiti seorang mukmin yang berjuang mempertahankan Tun di dalam banyak isu.Tuan Haji Amin Tan tidak perlu berasa sensitif kerana di dalam gelanggang silat,sepak terjang itu adalah perlu.Tetapi..

A blow that have been administered could have been a shove instead of a punch..

A kick that have been delivered could have been cushion by a simple tap..

Only silat master is capable of doing this..But Tun..you of all people which could applied a moderated stroke have gone full length blow for people that cares for you that is Tuan Haji Amin Tan..

Feels free of ignoring us..Or Feels free of taking back this reflection..for I am giving you back the tastes of your own medicine..

Tun..I respect you and be utmost grateful for your contribution to Islam.But I think you a harsh grandmaster and let's see if you can truly takes a blow for a blow where Islam is concerns..

Dan janganlah engkau mengikut apa yang engkau tidak mempunyai pengetahuan mengenainya; sesungguhnya pendengaran dan penglihatan serta hati, semua anggota-anggota itu tetap akan ditanya tentang apa yang dilakukannya. (Al-Israa' 17:36)

Di pertanggungjawabkan..

Blog ini Tun punya.Tuan rumah.Tetapi mengikut ajaran Islam yang tulin dan sejati..Kesemua ini milik Allah.Oleh itu Tuan Rumah juga perlu di peringatkan bila telah tidak lagi mengikut "Standard Of Basic Muslim Practice And Perceptions"..

Tun telah menyakiti Tuan Haji Amin Tan.Sebagai saudara saya suka mengingatkan Tun.

Jika sesiapa menyangka saya menyakiti Tun..maka marilah tikam dada saya..

Saya tidak pernah membilang lawan..

Mari tikam dada saya..

Tetapi anda perlu ingat..

Tidak ada kezaliman yang paling dasyat melainkan kejahilan..

Dan penyokong kepada kejahilan..

ADALAH LEBIH ZALIM LAGI..

Ribuan terima kasih Tun.

Ampun dan maaf jika terkasar bahasa..

Tetapi di dalam gelanggang silat..

Dear Tun,

I am sure Tun had done an in-depth analysis and studied the fact thoroughly before coming to this conclusions. It is entirely possible though.

However, this “prediction” will require a book to debate its possibility and assumptions.

Personally, I believe it can be and hopefully it will be for the betterment of the world.

And Malaysia can partake in this shift.

Assalamualaikum,

Dear Tun Mahathir,

I DISAGREE with you. You are too optimistic ! The West is still far ahead in Nanotechnology, Materials Science and Biotechnology. They are still far ahead in Space Technology and so on. The West still leads in Science & Technology.

It will take another 50 – 100 years before China and India can catch up with the West. In the meantime – I foresee a COLD WAR between the Western, Chinese and Islamic Civilizations.

Tun – there are only limited petroleum and other resources in this world. Certainly there will be an inter-civilizational Cold War to expand spheres of influence in order to access such resources.

Dear Tun,

I am concerned and worried for the well being of our beloved country, Malaysia. In the newspapers there are reports that opposition parties are planning to hold street demonstrations with the intention finally to bring down the elected government of the day, not by democratic ballot boxes but by riots and bloodshed and anarchy in the streets.

The opposition has taken this bold step simply because may be we have too much peace and they seek some fun to hurl abusive language at the street police by calling the police derogatory names like 'dogs, pigs, stupid and other provocative taunting' until the police react physically so that they can say police state or police brutality.

A smart government should not allow any political street demonstration at all. Prevention is better than cure. Street rally can deteriorate into something like in Libya or Egypt. The police intelligence should know the masterminds of such demonstration or its political sponsors and nap them from day one without having to do running battle in the streets of Kuala Lumpur.

I am surprised that the illegal political demonstrations get advertised for free in the mass media.

The government is responsible in maintaining peace and harmony in the country. First and foremost, police intelligence should identify, the organizers and political sponsors of illegal political demonstrations and arrest them and charge them under sedition act or treason. These are serious crimes and the government must take serious views of it.

Secondly, if the demonstrations would still be held, extensive road blocks be erected to disallow demonstrators to congregate at the venues. If the police find evidence of demonstration like hailer, banners, pamphlets, weapons, the police should immediately arrest them and lock them up in police lockups, remand for one week then charge them under sedition act.

Finally, if the demonstration truly takes place, the police must be proactive and seize the initiative in the deadly duel with the demonstrators. Attack is the best line of defense. Like a nation fighting for survival, army, navy, air force, utk, COMMANDO, police dog unit, FRU all must be deployed efficiently, ruthlessly and fast. Corner these illegal criminals and thugs and baton charge them. Put pain and fear into them so that they would not come back again the next day to harass the peace and harmony in our beloved motherland, Malaysia.

Salam Tun, moga-moga sihat wa'alfiat,

Tun, if your observations are correct that due to the fast growing of some of the Asian economies, there will be a balance of power between the west and the east, it will be a good news to the world as the west cannot simply enforce their wish to other countries, especially the weak countries and Muslim countries, as what happening presently.

What worrying me is what will happen to the Muslim countries, including our country. As we can see very clearly, most of the Muslim countries' are still far behind although their countries are blessed by the God with abundance of natural and human resources. Their peoples endlessly keep fighting among themselves and the leaders are day dreaming, mostly corrupt and selfish.

The above phenomena is also happening in our country. Instead of fully utilizing our resources for betterment of our country but a lot of resources are wasted on unproductive activities. I am of the opinion that our leaders, irrespective of the government or opposition, spent too much time on politics resulting in waste of time and resources which are supposed to be used to develop our country and enhance our economy.

I believed that in order to achieve our Vision 2020, the keyword is 'unity'. The leaders and the peoples must be united and focused. The leaders must lead their supporters to a common goal. Otherwise, we will be left behind, still talking about who is right and who is wrong, while the other countries have gone too far leaving us behind.

I really hope that our leaders will quickly realize and look around what happening in other countries around us and think for themselves whether our country is still in the race or already left far behind.

Wassalam and may Allah bless you and your family.

RMR, Putrajaya.

Whether it is an Asian century or a European century, one thing is for sure, it won't be a Malaysian century. After all, our focus is on what is called wealth distribution, rather than economic growth. Like a tycoon family fighting over inheritance, we quarrel everyday over wealth distribution but no one ever quarrel over economic growth in Malaysia. And by the looks of it, it would soon be poverty distribution. Maybe at that time, we will begin to give a premium to wealth creation and economic growth. Until then, we will continue to quarrel over who gets what.

Salam Tun.

The ruthless & inhumane manner that successfully made those westerners colonise the weak & hapless just to satisfy their greed & lust were way beyond the boundaries which they claimed themselves to be very civilised. They certainly enjoyed the fruits of their brutality to present day, and were very proud of their bludgeoning ways!

Unlike the Red Indians of the US & Canada, the Aborigines of Australia and the Maoris of NZealand, we are very fortunate that we are still running our own country.

If guns and explosives were pivotal to the Europeans quest for supremacy there, kuaneyew & PAP used economic strangulation and importing Chinese immigrants to completely neutralise any possible threat by the Singapura Malays of any dreams/rights to govern OUR ancestral land.

The less than 10% population of British descendants grabbed 95% of all fertile land in then Rhodesia (now Zimbabwe), and when Mugabe was 'forced to repossess' these land for the survival of his countryman, they used all available 'powers of influence' to condemn Mugabe. Even Nazri Aziz supported those mat sallehs!

When Dr. M's dawn raid at the London Stock exchange rightly transacted Guthrie ownership to be Malaysia's, the British cried foul and really showed their stupidity! They then started to badmouth Dr. M to all of their western world allies.

Later this Anwar maniac (the most corrupted Malaysian ever before Pak Dol's kurang _jar s.i.l. took the title) put schoolteacher Khalid 'stutter' as head of PNB, and this Khalid has the cheek to buy Guthrie to be own!!!

Guthrie, the jewel of PNB where Bumiputra's life savings and dreams for a better future depend, and Khalid wanted to buy it!!

How in the world he got the money!!

Exactly right. Not just the Europeans. The Americans and the Europeans are controlling most of the multi-lateral, multi-national agencies. Only the UN Chief's position is rotated among the continents.

The World Bank Head position is meant only for the Americans. Likewise, the IMF Head position is meant only for the Europeans. This despite the fact that the biggest banks in the world are now largely from Asia. The countries with the biggest foreign reserves are largely from Asia.

Assalamualaikum,

Dear Tun Mahathir,

I would like to add on to my previous posting. The way forward for Muslim countries – especially Malaysia – lies in Science & Technology. The state of Science Education in Malaysia is pitiable. Far from good ! Until Malaysia can stand on its own feet and produce competitive indigenous technologies – Malaysia will continue to remain under threat of foreign domination. But the Malaysian Malay-Muslims are NOT motivated to excel in Science. They want an Islamic State which is not even possible to erect via the Constitutional process. This Islamic State issue is the CURSE of the Muslim world. It takes minds away from Science.

If Muslims put an equal amount of effort towards Science – as they do towards Islam – then they would be much better off. Sometimes I think that Muslims are too concerned about the Afterlife – to the point of forgetting that they cannot get to the Afterlife without the present life on Earth !

The Islamic religion is good – but Malaysian Malay-Muslims cannot afford to neglect Science which is what they are doing now. Its very obvious that Malaysian Malays are NOT motivated to do Science but prefer instead – to focus on Islamic studies.

Tun – is that good or bad ?

Wassalam

Good to hear, Mr. Mahathir had agreed and acknowledge great powers of China/Korea/Japanese which will lead Asian's voice.

Honestly, we need to be in-lined as per China policy, in order to be great and strong:

Dont care whether it is Black Cats or White Cats, the cats that can catch the rats are the Good Cats.

NO body is superior without sacrifices and hardwork, fortunes does not comes from the sky. But in Malaysia occasionally yes, since some are pre-determined contract.

So we need to be clean/efficient/equal, to avoid decadence & dependant attitude.

Assalamu]alaikum Tun,

Semuga rahmat dan lindungan Allah Subhanaullahu Ta'ala sentiasa tercurah keatas Tun sekeluarga.

Saya berpeluang menyaksikan peristiwa bersejarah yg menyayat hati di stesyen Keretapi Tanah Melayu Tanjung Pagar Singapura.tujuh buah keretapi Sinaran Timur berlepas dari stesyen Tanjung Pagar buat kali terakhir,mengakhiri perjalanan 80 tahun sejak perasmian nya oleh Sultan Johor.

dan kini Sultan Johor juga lah yg memandu sendiri keretapi ketujuh,yg terakhir meninggalkan bumi yg sepatut nya sebahagian dari milik kita,Singapura...sebagai simbolik kekalahan percaturan politik Melayu yg amat memalukan.

kita bagaikan dihalau keluar dari Singapura,keluar membawa bersama keretapi yg dipandu sendiri oleh Sultan kita.alangkah besar nya malu yg di timpakan keatas kita oleh kaum pendatang ini...

kita gagal menangani mereka hingga menjadikan mereka sebuah kuasa ekonomi dan politik yg mengoyak-ngoyak martabat kita sebagai sebuah bangsa berdaulat.

Tun,orang jenis apakah yg kita pilih menghuni Putrajaya? langsung tak peduli pada penakatan kita di bumi kita sendiri.tak kenal musuh,tak kenal kawan.buat perjanjian yg bukan saja merugikan bahkan merugikan untuk jangka masa yg amat panjang.

ketika masih dijajah,kita gagal memprotes kemasukkan kuli-kuli British ini.ketika merdeka,kita terima mereka sebagai warganegara.kita beri kerakyatan dan hak samarata dgn kita,satu orang-satu undi.kita begitu bermurah hati membiarkan mereka mengerok kekayaan Negara dan hasil bumi kita dgn jalan terang dan gelap.

kita membiarkan diri kita di tipu dan dirasuah dalam jumlah yg sedikit sedang mereka mengaut keuntungan yg banyak dari hak milik kita.dan bila mereka telah jadi terlalu kaya dan kuat,mereka mengambil jalan permusuhan dgn menghasut kaum abdi yg satu lagi untuk turut memusuhi kita.kaum asli,terutama di Sabah-Sarawak turut juga diracuni dgn idea kononnya Umno dan Melayu itu bersikap menindas hak bumiputra lain.

Tun, cakap mudah nya kita adalah mangsa pertama kebangkitan kuasa China. kebangkitan Negara China sebagai kuasa besar dunia akan mendorong 20juta askar 'sleeper' nya yg berkerakyatan Nusantara berusaha lebih agresif menjadikan 300juta Melayu sebagai bangsa pelarian. dan pemimpin-pemimpin kita, baik di Putrajaya, Jakarta mahupun Nurul Iman, sentiasa bersedia mempercepat proses itu.

semuga Allah Subhaullahu Ta'ala memanjangkan umur Tun untuk membetulkan keadaan.

Tun,

History is seen in the 'eyes of the beholder', it is skewed to one's belief. The notion of a Eurocentric aggressive culture can equally be labeled on Islams' early conquests.

Parameswara 2 espouses Islams gift to the Renaissance, none given to the likes of Galileo, Michelangelo, Leonardo Da Vinci, Copernicus etc. I suppose that it was Islam and not the Catholic Church that sponsored these great people to begin with. I'm all for giving recognition where recognition is deserved. I am wholeheartedly grateful for the contribution of Arabic Aljeebra to Modern Science.

If I wanted to skew history against Islam I would claim that Aljeebra was a gift to Islam from the Greeks (Trigonometry) and Indians (Functions).

By the way, your (Parameswara 2) suggestion 'The Qur'an, The Bible and Modern Science' as good reading is well taken. I'll pick one up as soon as i finish reading the current book i'm on. Since you are so fascinated with the Chatolic Church. I've been told that Michael Corens' book 'Why Chatolics are right' is a good book from a Chatolic's Apologist point of view. I was going to buy that next but I will divert my

resources to your suggestion.

Amin was honest enough to discuss Othman's role in-regards to the Quranic manuscripts. Amin mentioned

'Othman wanted to make sure only the original al Quran spoken in the language of the prophet be adhered so he instructed all the versions in the other dialects to be destroyed. This was done in the full knowledge and help of the hafiz, the memorizers of the Quran so the authenticity is not in question.'

Amin's main contention is that the Bible has been written in Greek and not in Aramaic i suppose. My contention is that the Othmani Quran itself is re-written into a standardized version that is dissimilar from the original Quraysh dialect. Therein lies my delima. The Bible is now held to some superfluous standard that cannot be attained whereas the Hafiz were perfect while early Christian Greek transcribers are not. That is where textual criticism becomes a powerful tool.

Case in point, i am able to get a copy of the Codex Vaticanus the earliest Holy Scripture manuscript to critique and compare for myself. No questions asked. The earliest Quranic manuscript that i am aware off that pre-dates the Othmani standardization is the Sa' naa Manuscripts in Yemen. These manuscripts are the earliest version in existence dated 70 years after the death of the 'Prophet'. Those manuscripts are however under 'lock and key'. According to scholars this copy was an Ibn Masu'd transcribed version. Amin should read the hadith and find out why Ibn Masu'd refused to release his copy.

Parameswara 2 mentioned that 'if you sincerely believe that Christianity is the truth and Islam is false there is nothing I can do'.

I will follow truth wherever it leads me. However, if truth is locked up and or sealed in a Mosque. It is not possible for others to preview or compare or peer

review; than the road to the truth of the Quran is not attainable. With due respect.
I think Muslim Apologists should do some house cleaning before questioning the Bible's authenticity.

Peace be with you in Jesus Name

Dearest Tun

1-The time is ripe for a major change in the leadership of the present civilizations.I do concur with your observation.When we think logically things may not be quite possible as yet, yes maybe another 50 or 100 years, but when we look back into history and study the patterns in the rise of fall of civilizations we will recognize that there is a superior power that actually governs it all.There is such a thing as a sudden collapse.

2-The Egyptian had an awesome civilization that was ended suddenly by the insignificant enslaved and oppressed Jews under the leadership of Moses.The mighty Roman Empire was ended by the insignificant once Pagan desert people of the Arabian Peninsular.This mighty Muslim empire that delivered the Golden age of Islam with all its mighty technology was eventually and suddenly taken over by the insignificant European of the Dark Ages.After almost 400 years of this European domination the signs of an imminent collapse is beginning to show.

5-The advent of the Global village however will also change a lot of things.Mankind I trust would soon be ready to enter a new phase of human civilization,where we would have only one almost common global civilization.It would be less nation-centric and more people centric.

6-The possibilities of any one nation to dominate popular opinion may be gone.I believe this new world order would be dominated by the nations with the most voices ,the biggest domestic markets and the biggest and most prominent diasporas around the world,yes sir,China and India.Through their hardened survival people these two nations will eventually return to be the most dominant nations of the world again.This rise of this new phenomena 'Chindia' I believe would be unstoppable.

7-There would eventually be check and balances in the United Nations.There would be a period of peace in this world and we'd better believe it.

8-Malaysia,though a very insignificant nation at the moment,actually have all that it takes to play a prominent leadership role of the advent of this new world order to come.

9-We are strategically in the heart of Asia,equidistant to China India and Australia.We

have all the human materials to be at home with the top three largest Asian nations China, India and Indonesia. We are already recognized a microcosm of a Global world. No other nation have the experience and expertise to run a global village comprising enterprising Chinese and Indians better than Malaysia.

10-All that it takes for Malaysia to 'fly' is that we should start appreciating all the inputs God have blessed us and proact to make it happen. We must remember that all these inputs, esp the human resources whether we like it or not is afforded us by God. Should we be grateful to God and receive more of His blessings or should we be ungrateful?

Thanks Tun.

Dearest Tun

1-The time is ripe for a major change in the leadership of the present civilizations. I do concur with your observation. When we think logically things may not be quite possible as yet, yes maybe another 50 or 100 years, but when we look back into history and study the patterns in the rise of fall of civilizations we will recognize that there is a superior power that actually governs it all. There is such a thing as a sudden collapse.

2-The Egyptian had an awesome civilization that was ended suddenly by the insignificant enslaved and oppressed Jews under the leadership of Moses. The mighty Roman Empire was suddenly ended by the insignificant once Pagan desert people of the Arabian Peninsular. This mighty Muslim empire that delivered the Golden age of Islam with all its mighty technology was eventually and suddenly taken over by the insignificant European of the Dark Ages. After almost 400 years of this European domination the signs of an imminent collapse is beginning to show.

5-The advent of the Global village however will also change a lot of things. Mankind I trust would soon be ready to enter a new phase of human civilization, where we would have only one almost common global civilization. It would be less nation-centric and more people centric.

6-The possibilities of any one nation to dominate popular opinion may be gone. I believe this new world order would be dominated by the nations with the most voices, the biggest domestic markets and the biggest and most prominent diasporas around the world, yes sir, China and India. Through their hardened survival people these two nations will eventually return to be the most dominant nations of the world again. This rise of this new phenomena 'Chindia' I believe would be unstoppable.

7-There would eventually be check and balances in the United Nations. There would be a period of peace in this world and we'd better believe it.

8-Malaysia, though a very insignificant nation at the moment, actually have all that it takes

to play a prominent leadership role of the advent of this new world order to come.

9-We are strategically in the heart of Asia, equidistant to China, India. We have all the human materials to be at home with the top three largest Asian nations: China, India, and Indonesia. We are already recognized a microcosm of a Global world. No other nation has the experience and expertise to run a global village comprising enterprising Chinese and Indians better than Malaysia.

10-All that it takes for Malaysia to 'fly' is that we should start appreciating all the inputs God has blessed us and proact to make it happen. We must remember that all these inputs, esp the human resources whether we like it or not, is afforded us by God. Should we be grateful to God and receive more of His blessings or should we be ungrateful?

Thanks Tun.

Salam Tun,

I think for next decade or two there will be a balance of power. After that China will be the world's greatest nation the world has yet witnessed. I am not sure if that is good or not though.

Dear Tun,

Well it's most likely that the pioneers in European nations are somehow declining their economy as the result of uncontrolled, likewise unfathomable equipment (esp nuclear reactors) to aid in order to sustain a great life. Then again these equipments are not handled swiftly which will eventually lead to a halt of any kind of economic growth programme.

“THE CENTURY OF THE WORLD”... WAR

Dear YAB Tun Dr. Mahathir,

Many greetings to you and beautiful Malaysia as I truly miss its peaceful and harmonious people and culture. I would love to have contributed more to your Blog, but I am not sure if you realize, that some countries have your Blog censored and blocked intermittently.

As usual, your points are always on target and ahead of their time. But I must admit I find it hard to be as optimistic as you are about the future.

Last December I posted on your Blog the following predictions and comments

“...The reason for that is WAR and Inflation! Unfortunately, War in the Middle East and Inflation Globally! Allow me to elaborate further. Every single research paper or white paper written by every single respectable think tank and specialized publications, that I have read regarding the likely potential of War in the Middle east unequivocally agree on one single point. It is going to be a Grand Mess of a conflict. Experts might be able to predict the starting point of the conflict, but not even the most experienced of Generals, Politicians or Economists could fully analyze how big of a mess it could get. This is going to be a real Grand Mess of monstrous proportions. “, “Any of these scenarios could send Oil, Gold, Silver, Wheat, Sugar, Corn, Beef, CPO and Coffee prices through the roof, creating a spike in the prices of food. All these could create a nightmare scenario in the short term (18-36 months)”

It has been six months since I posted these comments, and I now I think I was too conservative and optimistic in my outlook. I have spent the last six months traveling around many parts of the world and the news are much worse than anything relayed by the mass media.

All indications (Economic and Political) point to the fact that this will be THE CENTURY OF WORLD WAR!

The giant global military industrial complex has grown and mutated into a demonic Hydra that is completely filled with hubris and arrogance. Powered by technological advancements, led by a group eugenic elites, and backed by the greatest propaganda and mind control media machine the world has ever seen.

This beast systemically feasts on other countries' wealth and treasure enslaving them using; financial weapons of mass destructions (Greece, Portugal, Iceland, Ireland, ... etc); or brute military force (Libya, Iraq, Afghanistan, Somalia, ... etc) and if all fails, resort to the tried and tested method of divide and conquer (Yemen, Sudan, Lebanon, ... etc).

In any case, money is made, off of other people's suffering and the house always wins.

Such a war machine cannot be just turned off or changed. It will neither stop nor change its ways. On the contrary, it will get more vicious as it gets weaker, for it is frightened of finally losing its grip on power.

I wish I could share your optimism Tun, I truly do. But I can't. I guess that is why you are such a strong leader, for you somehow are able to cope with these global calamities with cool head and wise vision. But, us mere mortals, tend to get discouraged when a solution does not appear in sight.

I have seen too much to believe this story ends well.

This story will have no happy ending and the worst chapters are yet to be written. It is sad, tragic and depressing, but it is reality. I pray that my children would grow in the world you describe and not the world I see.

Tun you are the rarest of leaders and the greatest of persons and please never ever change and please don't stop writing.

God Bless Tun & Family

God Bless Beautiful Malaysia

And May God help us all Spread peace around the world.

Agree China's rise and influence basis for more peaceful world, although the West will continue to be aggressive and interventionist subtly and not so subtly, as evident in Libya and Malaysia

Any thoughts on whether inequity or ecological issues will dominate the century or how they are intertwined?

China in my view seems to be solving these twin problems simultaneously and displays a better understanding of the dynamics and interdependence that will escape most governments.

JEWS:

They invented and successfully promoted Socialism, Communism, human rights and democracy so that persecuting them would appear to be wrong, so they may enjoy equal rights with others. With these they have now gained control of the most powerful countries and they, this tiny community, have become a world power.

Assalamualaikum Tun,

1. A Nobel worthy thought.

2. Since the Canadians have discovered an effective way to squeeze the tar out of their sands, the tar sands development have helped a bit in reducing the stress to control the Middle East and the arctic region wells (Yet capitalism still wins, the price is still ever rising).

3. I do think this may be one of the good reasons why the States is cooling down their aggressive policies. And, it is also a good thing for the world.

4. As Tun said, the shifting or the distribution of economic capacities to the East has been crucial in reducing the tension between the regions. The more the dependencies of countries to each other economically, the less the probability of military conflicts to erupt. As examples, would you attack a country where your ipads or cars are manufactured? Or will you sabotage your food sources or where your shares hold? Etc.

5. It is evident that the 'on the verge of Bankruptcy' Greece situation shows the deadly curse of intangible economy.

6. A civilisation might be superior to others, but their attributes might not fit best for the people of the others. As if the century of the world is realised, it should give a chance for other civilisations to show their potentials and their good qualities.

7. On the other hand, I would say, one of the keys in realising a peaceful century of the world is to ensure that the Palestinians rights are restored.

8. How long it would last is another question, because there are always intolerant, greedy, selfish, twisted, and morally corrupt people everywhere. It is how the world manage these people that will determine the length of the peaceful century. And better not these people take charge of any country or organisation; as if so, the century might not even be possible to begin with.

9. Keep healthy Tun :)

Salam Tun and Bloggers,

Its nice to have saudara Amin Tan back in the forum. To Wajarperak, you can add 'at yahoo dot com' after my name as email address. It is my pleasure exchanging ideas and knowledge with anyone from the networking.

Tun's writing this time gives a lot of hope to us for a better life though I did share some concern with Objective Q especially on the stability at the Middle East. But with appropriate 'balance of power' in the UN, the domination of the West might be mitigated. If this happens,

maybe something can be achieved for the Palestiniene.

I just wanna say that I hope you are right. May you're blessed with good health. Thank you.

Salam,

Mohon izn beri pandangan terhadap isu diatas dan juga berkaitan politik semasa iaitu BERSIH.

****1. Siapa kuasabesar dunia(superpower) dalam masa 20 tahun?****

++++
+++

Mukadimmah:

Nak bergurau sikit====ramai tak tahu bahawa arah kutub Utara magnet dah bergerak dari Alaska ke Siberia, jika terus bergerak hala kat China, petanda tak baik lah. Harap2 dunia tak kiamat lagi!!!

Kerajaan Malaysia tak berminat nak tarik orang Jepun yang hebat2 jadi warga negara Malaysia? Depa tak seronok asyik kena gempa bumi? Nak buat apa panggil balik orang Malaysia luar negara, kalau depa minat tak payah jemput pun depa balik. Buat habis beras aje.

++++
+

Jadi siapakah kuasa besar no.1 dunia dalam masa 20 tahun?

Pada pendapat saya, negara kuasabesar mestilah sebuah negara yang mempunyai pengaruh terhadap kebanyakan negara lain didunia terutamanya di Perhimpunan Bangsa2 Bersatu. Pengaruh kuasa besar boleh dicapai sekiranya negara berkenaan mempunyai kekuatan ekonomi dan ketenteraan. Sejarah dunia menunjukkan bahawa kekuatan ketenteraan dan ekonomi mudah dicapai jika rakyatnya mempunyai sifat berdaya saing dan bersatu padu.

Kelemahan China ialah

perpaduan rakyat

Amerika hanya perlu cucuk sikit Wilayah2 Barat China yang majoritinya Muslim supaya berlaku kacau bilau. Jangan lupa Amerika pernah buat kat Rusia dan negara sekutu Eropah Timur.

****budaya diktator perlu dikekalkan di China****

jiwa kaum China jiwa suka memberontak. China tak boleh amalkan pilihanraya demokrasi berparlimen kerana nanti asyik tukar kerajaan sehingga negara tak stabil. Jadi amalan diktator mungkin sesuai di China demi kententeraman awam. Amerika sebagai jaguh propaganda no. 1 didunia boleh mainkan isu ini sehingga menghilangkan kepercayaan terhadap China. Untuk makluman negara China ada pelbagai kaum, jangan terkejut ramai juga orang di negara China sana yang bersopan santun, bertimbang rasa dan berbudi bahasa. Yang kat Malaysia , mungkin cuaca panas sikit, maka sentiasa tak tahan berpeluh2 kot!!!

*****rasuah bermaharajalela*****

ini budaya zaman purba yang sukar di bendung sampai sekarang di China Penduduk dah teramat padat. Di Malaysia dah tahu edar dadah boleh hukuman gantung, ada juga berdegil nak buat. Di China pula, terima rasuah kena hukum tembak, pun ramai dah sebati nak berasuah juga.

India pula tak nampak peluang kerana penduduk ramai, rasuah bermaharajalela. Kadar jenayah tinggi, tahap kebersihan rendah, dan banyak lagi masalah perlu diselesaikan terlebih dahulu.

Tekaan saya ialah dalam masa 20 tahun lagi superpower no.1 didunia ialah Kesatuan Eropah. Kesatuan Eropah dah hampir menepati semua keperluan untuk jadi kuasa besdar no.1 di dunia. Sesiapa kerja dalam bidang teknologi mesti sedar bahawa satu persatu standard sekarang dah mulai ikut standard Eropah. Amerika lebih redha Eropah jadi superpower no.1 kerana depa satu kelompok keturunan yang sama. Racist la tu. Sementara Eropah no.1, Amerika akan mengambil peluang memulih kecergasannya semula. Saya sentiasa berkefahaman bahawa US dan Eropah ialah sebenarnya Yakjuj dan Makjuj.

*****2. BERSIH kan PAS dari Pakatan Rakyat*******

PAS oh PAS! Asyik nak buat kerja amal untuk PKR dan DAP!!!

Kalau Pakatan Rakyat nak membersihkan diri, maka secara jantan-man, kosongkan semua kerusi ADUN dan Parlimen yang dimenangi PRU lepas, bagi kat BN semua sekali.

Yang Dato Ambiga ini tak ada kerja lain ke mahu bantu rakyat? Apa sumbangan dia semasa Majlis Peguam dahulu kepada rakyat Malaysia. Tumpukan kepada kerja profesion peguam la. Ramai rakyat kena tipu pemaju perumahan. Apa Majlis Peguam ada buat? Ada tunjuk perasan ke? Tiap-tiap tahun, majlis peguam ada beri senarai nama lawyer yang disenaraihitam dan jenis kesalahan mereka kepada akhbar ke? Majlis Peguam ada usaha turunan kadar yuran peguam? Majlis Peguam ada beri bantuan sumbangan kepada PIBG sekolah, anak yatim, orang2 susah. Majlis Peguam ada senarai siapa peguam2 yang paling kaya dalam

Malaysia? Majlis Peguam ada senarai peguam2 yang ada dua kerja fulltime iaitu peguam dan juga ahli politik. eguam2 banyak kaya la. Banyak lagi Dato Ambiga boleh tolong rakyat Malaysia. Kenapa piliharaya yang bukan bidang Dato Ambiga berminat? Dulu kacau isu agama. Asyik kacau orang saja.

Tapi sekali ini Dato Ambiga dapat restu pemimpin PAS.

Aiyo!Sangat Baik ! جيد جدا (Tamil:நல்ல மிகவும்)

Itulah dia BERSIH, hidup perasan diri sendiri BERSIH. walau dinafikan, semua orang tahu BERSIH ini adalah kerja2 pembangkang. PKR dan PAS dah nak lingkup. kalau dah nak lingkup, inilah saja peluang nak membina kekuatan. Minta sedekah simpati rakyat. Sambil berarak saya cadangkan ahli politik Pakatan Rakyat yang perasan BERSIH nyanyikan lagu macam P .Ramlee “Tolong kami bantu kami semasa PRU akan datang ini”

Kalau saya Dato Najib saya minta semua orang UMNO menyertai BERSIH sehingga lebih UMNO dari Pakatan. Biar ramai orang UMNO juga jadi ahli jawatankuasa BERSIH supaya BERSIH tidak memihak kepada pembangkang saja. Kalau tidak selagi Pakatan tak dapat PutraJaya selagi itulah tiap2 tahun akan ada BERSIH, dari generasi ke generasi dari Datuk Seri Anwar Ibrahim, Datuk Hadi Awang, YB Lim Kit Siang pass kepada anak2 , pass kepada cucut cicit.

Yang dah tua2 tu, mungkin nak ambil peluang BERSIH untuk senaman berjalan untuk kesihatan sementara yang muda2 tu senaman menajam penglihatan kot! Briged AMAL PAS tolong jadi mata2 , jangan bagi peluang untuk yang TUA2 KELADI MAKIN TUA MAKIN MENJADI mencuci mata sambil menjaja keBERSIHan.

Good morning Ayahanda Tun,

375. Bersih 2.0 is similar to the 64th movement that will be able to open the mind set of Malaysia and will assist PM and his Cabinet to transform Malaysia.

376. ISA has been used twice and BN is loosing more genuine votes.

377. Those politicians aka ministers who always put raja and rakyat in their mouths cannot govern the people because they are only interested to be the syok diri warriors sekejap saja.

378. BN is famous for vote buying.

379. FM won't be able to spend on vote buying when GE is around the corner due to stagflation.

Good day Ayahanda Tun.
