

ELECTION IN AMERICA

Chedet.co.cc

August 13, 2012

By Tun Dr. Mahathir Mohamad

1. I wonder whether people notice it or not, but Presidential candidates of the United States of America, the sole superpower, have all to seek approval from Israel.
2. Mitt Romney, Republican candidate for President has just made the pilgrimage. And he has made a public pledge that he will be even tougher against the Palestinians and Iran than Obama.
3. Soon I am sure Obama will make this pilgrimage and will make more promises to fight for Israel.
4. I think this is odd. What if Malaysian candidates for elections have to visit a neighbouring country to pledge our friendship or support for it? We Malaysians would not think this proper. Our elections are about gaining the support of Malaysians for the party that will form the Government. What other countries think of our Government's policies is irrelevant.
5. Apparently it is not the case with America. All candidates must literally pledge loyalty to Israel or risk losing the elections. It is not about what is good for the United States which counts.
6. One can imagine the policies that will be adopted by whichever Government or President wins. If accusation is made that Israel rules the world by proxy, it would appear that there is substance to that allegation. Clearly the United States cannot ignore Israel's views when reacting to anything of concern by Israel.

Looks like the tail is wagging the dog.

tapi,saya tidak bercadang untuk mengundi sesiapa pun..memang benar pembangkang akan mengurangkan kos hidup rakyat seperti yang dijanjikan.

tetapi bagaimana dengan peluang pekerjaan sedangkan policy baru mengurang keuntungan orang kaya ini? rumah memang murah..

kerajaan sekarang pula,lemah..polisi ekonomi juga berdasarkan 'rolling' tetapi bukan dengan 'real cash'..seperti jangka masa bom la..negara akan ada risiko akan bankrup dengannya.

walaupun menutup maklumat akhbar..tetapi internet facebook,youtube tidak ditapis..

Salam Tun, Selamat Hari Raya,

Very relevant information – relevant because evidently anwar the devil is doing the same thing... worshipping the jews, trying to get their blessings to become PM of Malaysia.

anwar uses his knowledge about the jews through his religion, Islam, but to his advantages. Look at all his antics, clearly the actions of an obedient servant to the jews.

Hey you MiddleAges – Tun, can I comment (a little bit) MiddleAges? Can la...”I am guessing MiddleAges;

- a. trying to get our attention
- b. BN hater
- c. PR lover
- d. opportunist (always trying to relate BN to all weaknesses)
- e. an ignoramus
- f. all of the above

The right answer is (e), kehkeh....

Tun, let us look from the other perspective – why not ‘copy-cat’ the jews but only on those morally good actions? There are plenty right?

3. Soon I am sure Obama will make this pilgrimage and will make more promises to fight for Israel.

Interesting will be the promises made and delivered to Israel and Palestine, wouldn't it, CHEDET?

For sure the Makkah OIC Summit is taking the easiest way out of a Middle-East crisis leaving much room for a really concern member nation with the developed nation aptitude to implement a pragmatic solution that will naturally enhance Halal Trade and trust along with respect from the other OIC members and the NAM members. Of course, having China and Russia sympathetic to the idea is a real plus. The challenge would be fitting to test the nation's developed nation aptitude. Dr Murad should understand this well.

Let us try to influence the outcome of the Obama-Romney race with saying that Obama can deliver a better deal to Israel than Romney could ever dare even to think about it:

Syria is Liberated by the US and therefore some military advisors and private contractors will be stationed in Syria at the service of the new democratically elected Syrian government.

Actually, point 3 is funny, CHEDET; and the ucapan:

Salam,
Tun yang Dihormati,

1. We can see it from several point of view.
2. Firstly, we are too deep involved in system created by Jew & freemanson people. By now we are ought to realize that material system i.e. hunt for more money, more big house and big cars, go for brands, need to be faster, faster hp faster communications, etc all are pioneer mostly from them.
3. Actually we Muslim can leave in peace life with just an ordinary life. But we can't because we need to stay competitive. Also , Allah swt wants to test us. And once we know what is going on as stated in al-Quran and as-Sunnah... we must not be demoralised.
4. For the point of view in Islam, Hazrat Mahdi will be the one that unites us all (Allahualam) . Only him will

unites us all.

5. For the time being, we just stay faithful to our beliefs and pray for the best.

6. Tun's courageous statement gains respect from us. Because we have nothing to lose when we speak the truth. We have Allah SWT.

Another fascinating comment and observation by you on a very complicated subject which is not easily resolved.

If as you say, the United States of America is the sole super-power. Then, it is in her own best national interest in the exercising of her security and peace for her hinterland that her representatives are fully cognisant of her world hegemony which includes not only all the countries which have diplomatic relations with her, but also important and strategic digests like Israel, Taiwan, South Korea and some Singaporeans hope, Singapore too.

The United States relationships in the Middle East were complicated enough before 9/11. The geo-politics of the post-Cold War period brought a brief respite.

But this was only the tip of a history of the Jews which went back a very long way back for 2,000 years. From then on, the Jews made themselves generally useful and beneficial to the leaders of the lands in which they settled in.

It was morally wrong for the British who at a moment of weakness just gave up their Mandate on Palestine since the end of the World War 1 with the knowledge of the Balfour Declaration of 1922. vide. Wikipedia. With the vacuum of power so created, powerful Jewish forces moved in to fill the gap and the Palestinians were dispossessed. This was after the horrific World War 2. Then, not much thought was given to the options which might arise in the future e.g. geo-politics, oil, the Cold War, human rights, globalization etc. There were no 'think-tanks' then.

By the time of the emergence of Israel as a full fledged independent state sponsored by the United States in 1948, the West was fully indebted to the Jews who were of service to them during the 2 World Wars. With colonial-mindedness, the Arabs were just treated like how it was before – not seriously. The word 'oil' was not an important word in the vocabulary yet because colonialism was still riding high in the late 1940s.

The British (they had some anxious moments) would have bungled in Malaya as well if not for the magnanimity, humanity and multi-culturalism attitudes of the Royal Sultans, UMNO and Dato Onn Jaafar and others towards the non-Malays who in turn were understanding of their wherewithal. No Bersih-bersih for us, Malaysians !

We, Malaysians, would have ended up worse.

Hence, I always say we vote for BN and any mistakes could be corrected humanly and humanely !

The United States having brought to life this baby, Israel, must then continue to see it thrive in her own interests during the Cold War and her oil interests further afield. What a mix – the Cold War, the Jews, the Arabs, the oil etc.

As the United States moved towards the present day and with the new countries of the Arab Spring in place, she has a new headache of how to appease the Jews and help the Arabs and Palestinians – because these groups are not fighting for money but how to reel back history and both sides will not give way. The Jews have a leading edge because they are well-established amongst the elite in the West. But in time the Arabs too will emerge as a powerful lobby there. This will lead to further complications in Western politics.

A history fellow of Jesus College, Cambridge University, once told me that if we see more and more foreigners

becoming inhabitants of a place, it is only a matter of time before its downfall. (Western Civilisation ?)

As for Mitt Romney and President Obama, you have rightly pointed out that this shows who has the tail which wags the dog.

And as for Malaysia, we will do very well with our existing foreign policy within the framework and not forgetting of our sovereignty, national interest and self-esteem.

Vote BN always !

The West mis-judged the Jews as they did with the Arabs. Both groups have their pride and self-esteem.

Dear Tun,

In capitalism, the person with lots of money is king. In Capitalist USA, the Jews collectively have got more money than everybody else. They have bought everything strategic – the press, media, Hollywood, banks, universities, and the Congress. Are the American people aware of this? No, they aren't. It's the psychology of exposure and inhibition. The American people are permanently exposed to pro-Israel interests, and inhibited from ever liking anything that's Arabic, Islamic or against Jewish interest. This is done daily via the media they own, movies they make, books they write and distribute, and of course even the Facebook is Jewish owned.

Just like the Jews of Vienna era-Hitler, they are repeating the history, almost the same modus operandi.

They are even very proud to admit they killed Jesus Christ and are very proud of it.

Hitler said he could have killed all the Jews, but he left some behind so that other people can judge for themselves the kind of people they are.

And now the Jews own America.

Salam Tun,

1. I am of the opinion what goes on in America has little or no direct bearing on what goes on here. It is only

politically advantageous for politicians to talk.

2. For us ordinary folks, most of whom have never even met a Jew, it is not going to have any effect on their life or livelihood.

3. Ideologists and Islamists like to use Jews and Israel as talking points. Yes, it is nice to have a race to religiously condemn.

4. But i am more intesreted on how our own democracy is working, and how we can contriute to a better world, a better life here.

5. We do not have the privilege of choosing the Presidents of our own country. We even have problems choosing our own leaders, let alone worry about other nations.

6. This sort of article serves only to sway our attention away from the real issues at hand. The issue is how to migrate BN into retirement, because the leader has retired, but the body has not.

Tun,

Is it moral for American Jews to influence the US to support Israel? For that matter, is it moral for American Muslims to put Islam or the Ummah or Homelands left-behind before America? Is it moral for Saudi to lobby the US government and educational institutions?

Is it moral that Jews compromised their morals in-order to escape the Nazis during Hitler's reign. Was it moral for them to fake their identities, bribe officials and/or were forced to compromise their values in-order to escape?

Is it moral for a terrorist to commit suicide indiscriminately murdering others?

Is it moral that the Jews were persecuted or hunted down by Romans, Crusaders, Inquisitors, Mohammadens etc ?

and When Yeshua said, 'but let the one who has never sinned

It goes to show that CHEDET is smarter than the Jews; but as there are no Malay lobby in Washington DC even OIC forgets him.

What are your thoughts on Malaysia as OIC highly respected peacekeepers? Unless you can answer that; every American knows that the Jews are even willing to kill their prophets to have a taste of Paradise on Earth.

What happens when you are no more, CHEDET?
Still the Jews marches on with their illegal settlements and Syria gets torn up into little autonomous regions.

Selamat Berpuasa Tun!

Sedar tak sedar sudah minggu terakhir Ramadhan dengan aman harmoni, tiada pembersihan etnik seperti di Rohingya, tiada perang saudara seperti di Syria dan tiada keganasan yahudi seperti di Palestine, juga tiada kemiskinan ekonomi seperti di USA akibat hutang yang banyak. Jika difikirkan banyak yang perlu disyukuri, mungkin patut disertakan sujud syukur di seluruh negara sempena menyambut Syawal nanti.

Saya dapati suasana hari raya sudah dapat dirasai di pusat2 beli belah di ibu kota. Berbeza dengan tahun sebelumnya, tahun ini lebih meriah dengan dekorasi yang lebih cantik. Jika sebelum kita lihat kebanyakan pusat beli belah ini kurang memberi sambutan untuk hari raya, tetapi tahun ini agak memuaskan. Saya rasa inilah antara

initiative kecil yang boleh dilakukan untuk menggalakkan perpaduan. Janganlah kerana orang Melayu kurang bershopping di KLCC, maka sambutan dikurangkan (pada saya ini adalah tersangat racist!)

Saya ingin mengucapkan “Selamat Hari Raya” in advance. Kalau berkesempatan bolehlah berkunjung ke open house Tun, tapi selalunya tak tahu how to introduce myself... =D

itu saja...

Askm Tun & other Muslims and salam sejahtera kpd non-Muslims.

It cannot be more clearer than what you have said but of course to those who still have capability to think and always look for the truth.

But then because with the power of USA/Israel that can dictate the world as you have highlighted, some of our politicians/ opposition have a strong tendency, as proven in a few occasion, and will try to get USA influence and support to topple the present government by various issues/means with the aim to discredit the latter. Issues such as:

1) Democracy (Telling the world that Malaysia is not democratic, on what basis because it has rule since independence? and their frustration they are not able to topple the government? There is also a report spreading through emails, by a “reporter” to claim that Malaysia is practising apartheid by highlighting that the minority non-Bumiputra are being suppressed by the majority Bumiputra. It is really a joke because he can’t even understand the definition of “apartheid”. Maybe this “reporter” know nothing about Malaysia and probably has never set foot in Malaysia),

2) Corruption (as if no other countries is worst than Malaysia, in this respect. Even USA is practising corruption. In USA political contribution is legal but then there is no such thing as free lunch, is it? The fact remains that corruption is next to prostitution that have existed since the beginning of the world and will not be easy to eradicate).

3) Freedom of speech & dissent, (We allow but it must be with social responsibility. What kind of freedom they have in mind? law of the jungle?).

4) Environment (The favourites of the western government & NGOs to condemn the developing countries).

5) Religion (Majority Muslim suppress the practising of other religions.)

and many more other issues, even trivial ones that the opposition politicians being opportunists, can use them to spread the lies.

Only for those who have no capacity or capability to think rationally, will believe that what all those existing EVILS as they have highlighted will be resolved when the opposition take over the current government. As easy as ABC?

May Allah forbid that this will not take place as again & again before. They are all haunted by the greed for power and will do anything, even to sell their soul to devil.

Money & politic go hand-in-hand. The people who have the money would want the power so as to safeguard their money & assets. These people are very good at manipulating the masses, who are in turn too busy with their daily lives to upset their source of income. Although time & again we see some form of protests, most people prefer to keep their daily routines.

Among politicians considered unfriendly to Israel who AIPAC has helped defeat include Cynthia McKinney, Paul Findley, Earl F. Hilliard, Pete McCloskey, Senators William Fulbright and Roger Jepsen, and Adlai Stevenson III in his campaign for governor of Illinois in 1982.[41] The defeat of Charles H. Percy, Senator for Illinois until 1985, has been attributed to AIPAC-co-ordinated donations to his opponent after he supported the sale of AWACS planes to Saudi Arabia. Donations included \$1.1 million on anti-Percy advertising by Michael Goland, who was also a major contributor to AIPAC.[41] Former executive director of AIPAC, Tom Dine, was quoted as saying, "All the Jews in America, from coast to coast, gathered to oust Percy. I 'copy and paste' the following facts from a Sri Lankan's website :-

Why are Jews so powerful?

There are only 14 million Jews in the world seven million in the Americas, five million in Asia, two million in Europe and 100,000 in Africa.

Jesus of Nazareth was Jewish. Albert Einstein, the most influential scientist of all time and TIME magazine's 'Person of the Century', was a Jew. Sigmund Freud — id, ego, superego — the father of psychoanalysis was a Jew. So were Karl Marx, Paul Samuelson and Milton Friedman.

Here are a few other Jews whose intellectual output has enriched the whole humanity:

Benjamin Rubin gave humanity the vaccinating needle.

Jonas Salk developed the first polio vaccine.

Albert Sabin developed the improved live polio vaccine.

Gertrude Elion gave us a leukemia fighting drug.

Baruch Blumberg developed the vaccination for Hepatitis B.

Paul Ehrlich discovered a treatment for syphilis (a sexually transmitted disease).

Elie Metchnikoff won a Nobel Prize in infectious diseases.

Bernard Katz won a Nobel Prize in neuromuscular transmission.

Andrew Schally won a Nobel in endocrinology (disorders of the endocrine system diabetes, hyperthyroidism) .

Aaron Beck founded Cognitive Therapy (psychotherapy to treat mental disorders, depression and phobias).

Gregory Pincus developed the first oral contraceptive pill.

George Wald won a Nobel for furthering our understanding of the human eye.

Stanley Cohen won a Nobel in embryology (study of embryos and their development) .

Willem Kolff came up with the kidney dialysis machine.

Over the past 105 years, 14 million Jews have won 15-dozen Nobel Prizes.

Why are Jews so powerful?

Stanley Mezor invented the first micro-processing chip.

Leo Szilard developed the first nuclear chain reactor

Peter Schultz, optical fibre cable

Charles Adler, traffic lights

Benno Strauss, Stainless steel

Isador Kisee, sound movies

Emile Berliner, telephone microphone

Charles Ginsburg, videotape recorder.

Can you name the most beneficent philanthropist in the history of the world? The name is George Soros, a Jew, who has so far donated a colossal \$4 billion most of which has gone as aid to scientists and universities around the world. Second to George Soros is Walter Annenberg, another Jew, who has built a hundred libraries by donating an estimated \$2 billion.

To be certain, Washington is the capital that matters and in Washington the lobby that matters is The American Israel Public Affairs Committee, or AIPAC. Washington knows that if PM Ehud Olmert were to discover that the earth is flat, AIPAC will make the 109th Congress pass a resolution congratulating Olmert on his discovery.

William James Sidis, with an IQ of 250-300, is the brightest human who ever existed. Guess what faith did he belong to?

So, why are Jews so powerful?

Answer: Education.

And, the future belongs to knowledge-based societies.

Israel.

The axis of all evil.

And they are very afraid to die.

Thats why israel to control america.

At least american who dies. Not the israelis when war.

The best way to confront israel is to declare war with them.

More israelis you can kill the faster the war end.

We need to congratulate hitler because has reducing the the israelis in this world eventhough the 6 million figure, for me, is just the propaganda.

However, at the end of the world, we have another chance to kill them again. I am glad if i still alive at that time.

Salaam Tun,

You are right that every American Presidential candidate go over each other to please the Jews and Israel. This thing is more evident in the last fifty years or so. With the daily quarrels between the Palestinians and the Israelis which are shown on the media in America, the people of that country start to view the Arabs in the more negative ways.

The Jews took advantage of this and exert more pressure on the American Government with their media influences and money. The Jews was successful in making the Americans believe that they are the bastion of stability in the Middle East and a trusted ally who can help America whenever they need. While no Arab countries could offer the same including Saudi Arabia. Also the conservatives in America view Israel as a God-Given real estate, and they are very strong groups that the candidates need to be on their side.

We should not forget that Barack Obama was strongly supported by the Jewish money in the last election of which he won. Traditionally the Jews in America vote Democratic and this time I think that Obama will win again. Obama as President is surrounded with Jewish advisers and his first political appointee when becoming President was a Jew and his chief campaign manager is also a Jew.

But I believe in the future the Americans will come to their senses and will not be afraid to say no to Israel. Now we are beginning to hear some voices that condemn Israel among the politicians in that country.

Thank you Tun

It is not that the Jews are strong but that the Arabs are weak and do not take advantage of their numbers and economical and geographical strength.

“Clearly the United States cannot ignore Israel’s views when reacting to anything of concern by Israel”.

The above is indisputably right, dear Tun! The United States have a vast number of Jewish voters. But does this automatically mean that the United States need approval from Israel for any Government the people of the U.S. want to elect or will have elected and that the “tail is wagging the dog” as you advocate here? I wouldn’t think so, dear Tun, and I think you also know better that that.

It would seem to me that your appeal here is more addressing the Malaysian Electorate now, telling them how great the Malaysian people are in their considerations when it comes to their own elections which are due soon now, something that is of course totally right and also fair to comment on, but it could be done something less pathetic, couldn’t it?

Malaysians are a mature people and the voters know the strength and weaknesses of their politicians and their system – no need to confront or confuse them with equations that are really neither here nor there to them.

Malaysians really couldn’t care less whether the U.S. needs approval from Israel even if this were so which I will advocate that it isn’t. Israel has strong ties with the U.S., their common goal is to further Peace in the region which someone will hopefully soon be able to achieve, for at the rate they are currently all going soon there will be no-one left to discuss peace with anymore for they will have destroyed themselves mutually.

How pathetic it is that Mankind will never learn from all the wars they have fought in the past – learn that dialog is always preferable to armed confrontation. Not even Golda Meir, their former Woman-Prime-Minister, was able to have this accepted in that region.

Goes to show and demonstrate the real value of Mahatma Gandhi’s work in India at the time.

Good Health, dear Tun, and hopefully I can see you when I come to Malaysia next which is not far off now.

Salam!

Assalamualaikum Tun dan semua,

Tun is observing the world political scenario as the true world leader. There no one in this world at the moment can say that to US Politic and Israel influence over it.

Not many Americans are aware of it. They are being manipulated by the political game just like any body in third world country.

We are all in the same boat...

Selamat terbuka.

Yes. I noticed this for quite some time. But I wonder how did they manage to control the result of the general elections of the United States of America or the President himself...
