By Tun Dr. Mahathir Mohamad

1. I have been watching Al Jazeera T.V report on Syria entitled the War Within.
2. I feel extremely sad and depressed. There is a war in Syria and Syrians are killing Syrians in the most terrible way.
3. If the reports are to be believed the Government of Syria headed by Bashar Asaad is killing Syrians in order to remain in power.
4. On T.V. you hear the scream of shells and then the sight and sound of explosions. It is to be assumed that the shells are being fired by Government forces and the explosion is in the places where innocent Syrians live. Who was firing the guns and rockets is not shown.
5. Then there are pictures of bloodied dead bodies of children and adults. Then there are funerals. One must assume that these are the victims of Government attacks.
6. A T.V station was bombed and seven people died. We are told that this is a pro-Bashar T.V. and the bombers are from those opposed to Bashar.
7. But we are also told that it is possible the Government forces bombed this pro-Government T.V. together with its supporters so as to blame the opposition. Who are we to believe?
8. What is obvious is that the rebels are well-armed. They are getting the arms from somewhere. The people who supplied or sold them arms must be keen to see Bashar overthrown.
9. Who are they?
10. I think Israel and its allies would like to see Bashar overthrown. Is it unthinkable that Israel and allies are behind the rebels? After all Israel is still occupying Golan Heights.
11. If the Syrian Government must disarm, shouldn't the rebels also disarm? Reminds me of the NATO approach to solving genocide or ethnic cleansing by Serbs in Bosnia. Don't give arms to the Bosnians. That way less people would be killed. Only Bosniacs (Muslims) would be killed. That is okay. Why add Serb deaths to the numbers killed.
12. I have no doubt that should Bashar be defeated, they would kill him (in the heat of battle) of course.
13. So what do we do? The United Nations should disarm both sides and have a general election conducted and supervised by neutral parties.
14. Let Syrians solve their problem. No outside interference from the West or the East.
15. No revenge killings after the settlement.

For Syria Peace Process
Syrian Opposition can ask for Democracy through Election
Though the culture of Syria Govt system change
They cannot ask to oust Assad just like that
As the Opposition visit Moscow now
Same as America has no right to decide for the future of Syria
It must be the Syrian itself without interference of outside world.it,s Syrian decision
Upon election Assad, Opposition leader or any eligible Syria eligible layman can sit for the election
And the results is to be honoured by all
None outside interference can be allowed

Tun,

I am continually amazed at how your followers perception of the world is viewed from the perspective of the 'Ummah' irrespective of the situation on the ground.

If Muslims murder Muslims. It is because of a Jewish or Western Conspiracy. Syrians, Sudanese, Iraqi's, Kurds etc

They don't want the West to interfere with Jihadist Nations. They hum and haw that 9/11 is a Western Conspiracy. Whilst ignoring the facts even from your own sources. Why don't you watch Al-Jazeera's 'I knew Bin Laden'. Overwhelming evidence even on video. The USS Cole, 9/11, Yemen, Sudan, Afghanistan etc. His lieutenant, Mohammed Atta his lead terrorist of 9/11 is mentioned. He even attends Atta's daughters wedding.

They love to use moral comparisons between WWII and Islamists murders. Lets address their sense of moral relativity. It is well known that the Axis and the West were in a technological race to harness an atomic weapon. There can be no argument had Germans and Japanese attained these technologies early. They would have used them first. The Americans calculated the lost of numbers of soldiers had they invaded mainland Japan. In Okinawa alone, American deaths, a staggering number of dead and wounded US Soldiers. Truman warned the Japanese to Surrender or face ultimate destruction. Remember, the Americans did not make a treaty the likes of Hodaybiyah. The Japanese chose of their own free will to launch a surprise attack on Pearl Harbour. So they dropped nuclear bombs on Japan. They also assisted the Japanese in rebuilding their nation. They did not subjugate Japan into accepting Christianity unlike what your Brethren did in Lebanon, Middle-east, etc. Japan is still largely a secular society and independent. I am glad that your followers needed to bring this issue out in the open.

Since we are on a moral relative comparison. One of your followers mentioned that the West is responsible for 70 million deaths. My sources reveal that Islamic conflict is responsible for 240 million deaths. Does that make

the Islamists 3X more Evil than the West ?

Again, as you've said Tun 'Pots shouldn't sneer at the Blackness of Kettles'.

What is the agenda here
What is the importance here
What is the true intention to stalled peace procees in Syria

1. America refusal to get Iran assistance for Syria Peace efforts
Is an indication misleads of intentions. America prefers more killings than letting Iran to involves for peace
2. America support of opposition with instigations,weapons
Is an indication America meant no peace in Syria
3. America refusal of wikki leads truth is a proof to all america intention,they prefer dstuction in Syria
4. America slams of Soviet and China of sanction against Assad,the use of military force is physical facts
America meant no peace in Syria,much more they are into Syria Destruction

What America want is the destruction of Middle East as such weak Govt will obey the mighty America
America very own backyard is full of rubbish

Bayangkan jika kita berpecah belah
Berperang saudara
Ada kalangan kita,keluarga kita,saudara kita
Jadi pelarian, naik kapal tongkang yg tidak ada keselamatannya
Dengan muatan yg penuh
Mengemis di tanah orang
Anak,isteri kita
Hidup tidak tentu haluan,masa depan
Makanan dan minuman
Maka kini harus kita bersama membentaras
Himpunan haram seperti Bersih 3
Yg tanpa kita sedar, ikut perasaan akan mencetus perang saudara
Yg mengakibatkan porak peranda negara,saudara dan keluarga
kita
Pengasasnya Amiga, Anwar, pemimpin DAP
Sudah tentu ada tempat perlindungan

Mana pula haluan anak cucu,saudara kita
Janganlah kita di perkakaskan untuk kepentingan mereka

Sesungguhnya harus kita bersatu menjaga ukwah kita
Menentang DAP yg ingin kita berpecah belah

Syria cannot be solved under United States influence in United Nations

1. Hillary Clinton comment of Soviet and China stalling peace process in Syria is not true and saying Soviet and China must pay for stalling peace in Syria

It is not Soviet nor China that is stalling peace process in Syria

It is United States that is stalling peace process in Syria

2. United States refuse to get Iran to be active role in Syria peace process despite Kofi Ananand United Nations stands

It is vital for Iran to play the role but out of America interest they protest

So what is the agenda to stall peace process or for America interest is more important

3. Instigating the opposition to rule rather than Assad rule

Which Assad has proven years of progress in Libya

Providing and instigating weapons for the opposition is very wrong of United States, it is Every Syrians rights of their future Not of America Interest

4. Rejecting Wikke Leads , Julian Assan revealing the truth

Promoting media lies by western media, obstructing the Thruth

Is very wrong of United States stand

World should be thankful to Soviets and to China, even to North Korea, without them Our World will be Destroyed

under United States self importance at the expense of the weak the innocents and

At the expense of human lifes

America is no 1 of the World manufacturer, seller of

mass weapons of destructions

These are the axists of the our world destructions

End Say

Syria peace process will not be a success

Any peace process will not be a success

If it involves with personal agenda

Personal interest, personal importance out of others casualties

Sincerity of individuals is the key answer

The key to install success

Salam Tun,

Some people here talk of animosity and wars as if it is their hobby, as if they really wish for one, as if it is a desirable occupation.

I note they talk about our neighbours Singapore and of other nations, as if these are the enemy nations, as if we should be warring with them immediately. Who are these people Tun ?

Are they so bent on war and look forward to enjoying the "spoils of war" ? Then we should send them on their way immediately. Syria could use their desire for violence.

I am a world wide traveler, malu lah Tun, when my country men talk like uncivilised people, sometimes people ask me ramai lagi ke yang "gila perang". I have to admit there are quite some people, luckily they are not so well off. Otherwise we would have a major world crisis in our hands.

I have been in several riots and wars, and for those who talk of wars and violence, i suggest they watch some

good documentary on the many wars we humans have.

Because when they speak, the tone i hear is one of ignorance, one of simply not knowing at all the sheer pain and misery of wartime. When they issue a war cry, honestly Tun, i feel like dropping a bomb on them, just to see their reaction.

Because these people do not understand, and they think their call for war is a macho thing to do. Come real war, i doubt they will say a word.

Your call for Malaysians to be educated on war i agree 100%. The government however has not responded at all to this call. They simply do not know what to do Tun, or perhaps they found the timing of your call for war education a bit pressing given that election is near.

But i stand behind you in this call, i think the government is not aware of the dangers and hence the importance of war education. Still, i think it is something necessary, given the world situation.

I hope the government pays attention. Nak cerita banyak2 pun tak boleh Tun, nanti Amin Tan marah pulak.

Terima Kasih Tun

They will fail because that is not the very
Intentions of United States nor United Nations
Their intentions is to Die Stabilze Middle East
To reap the benefits of it
Proven in Palestin till today
They are just playing dramas

Assalamu'alaikum Tun

permusuhan yg dilancarkan oleh orang-orang kafir terhadap Umat Islam adalah jelas dan tidak perlu dipertikaikan lagi.dan ia bukan cuma bermula di Bosnia saja.malang nya kita enggan menyedari nya.

kita enggan menyedari bahwa permusuhan ini akan kekal berpanjangan selagi kita masih lemah.tanpa kekuatan,kita tidak akan mampu menangani tipu-helah orang-orang kafir ini.

dalam kekafiran,Yahudi memang berada di tangga teratas.namun kita lupa bahwa setiap orang kafir adalah sama dalam kebencian mereka terhadap Islam.Yahudi Timur seperti d.tan juga berperanan besar dalam kemelut Syria.

dia bertugas memberi legitimasi bagi Perikatan Barat menjadikan Syria sebagai satu lagi Afghanistan.atau Iraq.atau Libya atau sekurang-kurang seperti Pakistan.

sebab itu orang seperti d.tan ini atau drebar taxi bangsa nya atau sesiapa saja dikalangan mereka seperti andrewtay dan HBT begitu giat mempertahankan kezaliman Perikatan Barat dan Yahudi terhadap Umat Islam.

di mana saja ada kesempatan,mereka bekerja keras mempromosikan versi zionist dalam apa pun kezaliman yg tertimpa ke atas Umat Islam,baik 911 atau Afghanistan atau Iraq atau Syria.

namun kekafiran tidak terbatas dikalangan orang yg mengakui kekafiran nya saja.kita ada juga golongan kafir yg berselindung di sebalik nama Islam seperti golongan anti-hadis yg memberi justifikasi terhadap Umat Islam yg sedang tertimpa bencana.

orang-orang yg darah mereka sudah kita halalkan seperti abdulazizomar atau iskandarshah beranggapan bencana yg menimpa Umat Islam adalah sebab kita tidak mengikut ajaran nabi besar mereka Rashad Khalifa,

ini satu lagi bentuk kejahatan kekafiran yg sedang menimpa kita untuk membuat kita bertolak-ansur dan melepaskan ajaran Islam sedikit demi sedikit.

demokrasi dan tolak ansur yg berlebihan telah melemahkan kita.kelemahan ini lah yg mesti kita perbaiki dulu demi untuk memberi keadilan terhadap diri kita sendiri.

kita harus berhenti mengharap keadilan dari orang-orang kafir.tindakan zalim Amerika,Perikatan Barat atau Yahudi adalah sesuai dgn naluri kekafiran mereka.mengharap kebaikan atau keadilan dari orang kafir adalah kesalahan besar.

Syria,Afghanistan,Iraq,Libya mahupun Bosnia ibarat saudara kita yg terjatuh ke lubang buaya.adalah salah untuk mengharap buaya-buaya kafir yg sedang lapar akan melayan saudara kita yg terjatuh itu dgn baik dan adil.

yg terbaik boleh kita lakukan ialah menjaga diri kita jgn sampai terjatuh di lubang yg sama.di samping memperkuat diri kita untuk menyelamatkan diri kita sendiri dan saudara-saudara kita yg lain dari menjadi mangsa,buaya atau orang kafir.

Tun,kita perlu ada revolusi-fikiran.bahwa Agama dan Umat Islam dalam kedudukan yg amat bahaya.kita sedang di serang dari segala penjuru.peluru betul dan peluru propaganda bersimpang-siur membunuh dan menyesatkan kita.

sama ada Umno atau Pas,Pemimpin atau Rakyat,Ahli Perniagaan atau Pekerja biasa,atau Ustad atau Mat Rempit,setiap golongan Umat Islam di Negara ini mesti selalu di ingatkan tentang perlu nya kita berwaspada menghadapi bahaya yg mungkin menimpa kita.

terimakasih Tun

The modus of operandi is the same for what has happened in Iraq, and Libya. Only Ghadafi and Saddam governed their people well as they know their own people, divided into many fractions. They have made their country wealthy and the people lead their lives in a way they want. In short, only they know how to manage their own people. That's why the Israel and US is envy and they created a new modus to destroy the Arab countries or Muslim Countries in the manner they are doing now to Syria and even Egypt. The Arab Muslim countries is gone, ruined and will never be able to come back like before any more. Saudi thought they are safe and became allies to US and Israel. But eventually they will be destroyed also. Muslim should not wait for any more resurgence. Don't dream of magic and Imam Mahdi coming. These are fakes. The world is ending. The Arab countries is finished. Only left is Malaysia. Don't buy freehold properties. Lease hold will be sufficient. Its much cheaper. Our role now is to retain the last stronghold muslim country, that is our country Malaysia from the wicked Anwar and gang to gain control of the country. LBGT, Liberism is a treat to our society that can lead to chaos to our generations. If we can't control this phenomena, then the world is ending even faster than we might think of. But for sure, there will be no calender year after 1500 hijrah. We will not be here in this world when the time come, but our children or grand children has to face the day when Israfil exercise his duty.....Lets work hard to ensure our country and children really understand the challenge that we are facing and prepare them for a better Malaysia. Nevertheless we have to abide to Qada and Qadar Allah swt.

10. I think Israel and its allies would like to see Bashar overthrown. Is it unthinkable that Israel and allies are behind the rebels? After all Israel is still occupying Golan Heights.

Dear Tun,

is it wise to lead the General Public to suspect that Israel is behind the rebels who want to see Bashar Al-Assad of Syria gone when it is a known fact that the funds for the Syrian rebels come mainly from the Emirate of Doha? I don't think so!

It is foremost the Arab World who wants to see Bashar Al-Assad become history sooner rather than later.

Israel still occupies the Golan Heights alright but this stems from a war way back in 1967. Seeing how Syria has behaved since then and how it is still behaving today, Israel has no motivation whatsoever to give up the Golan Heights, suspicious that if they did, they'd be attacked right off these Heights the very next day. So this Status Quo is not likely to change any time soon.

In regard to the current Syrian internal conflict Israel can not afford to fund the Syrian Rebels, for if this was later found out by the International Community Israel would be even more isolated in the World than it already is when, what Israel is really seeking is more support in the World Community.

No, it is not likely that Israel is funding those rebels. More likely than not, these funds are coming from Doha as is learned from the international press these days. I tend to believe this.

Good to see you contributing to the discussion in general though I keep admiring your vitality and wish you continued good health and many good years to come, last but not least so that we can continue to count and rely on your wisdom and experience!

The problem Tun, even their fellow brethren like Saudi Arabia, UAE, Kuwait and Jordan support and armed the oppositions in Syria.

They tend to forget that as an absolute monarchy state, they are no different than their fellow dictators brethren.

Saudi Arabia also forgot that Syria once save their neck during the first gulf war by sending a small contingent of their army as a deterrent to Saddam's advancing army.

Tun, i was once in Egypt on a tour to that country and a question that arise on my mind is "how come that this country with more than 20 million people living in Cairo could be rule by one man who happens to be a dictator?".

The same question also arise when i went to Iraq after the first gulf war.

Staying in Baghdad is like living in a police state seen in movies and TV.

The fear of being watch or spied by Saddam's secret police is there eventhou as an invited guest on Saddam's birthday parties.

It makes me wonders what would happens to Iraq now if Saddam's is still there?

Would a similiar thing also happens in that country as in Syria today?or will he be more brutal than his dictator brethren in crushing the uprising?

Tun, i did not condone foreign intervention in Syria (especially by the western countries) or any other country but i also have a mixed feelling whether we should support a dictator or an absolute monarchy regime in the middle east.

Tun, i am not an isreali sympathyser but somtimes it makes me wonder whether the calamity in the middle east especially in the arabs states is because of their own undoing?

Salam Tun;

War is always about Leaders that want to be in power and maintain their lavish life styles. They just butchers and will kill who ever and do what ever just to stay in power.

There are no bad people, no bad races, no bad religions but we do have a lot bad leaders that will use races/religions etc just to justify the killings. World war 2 because of Hitler and millions of people got killed. Iraq because of George Bush and Saddam and the famous unjustifiable 911 .(Which to me an inside job as no way 3 tall buildings can drop all the way to the ground in few seconds i,e those metals cannot melted that fast and concretes cannot just turned to dust/powders).

The world we had today still cannot do anything to stop those bad leaders that even kill their own people just to stay in power. They already so rich but still want to be in power. What is UN do about it ??

Races and religions are not the main issues. We do not have much problem about races and religions in Malaysia but we do have problem with those extremist that just listen to their TUK GURU , their corrupt leaders that will do anything just to be in power. The people just tools to them , or stupid tools.

We do not want leaders like Nik Aziz , Anwar , Ambiga that will use any kind of things and get the people to start hating and kill each others. ISA to me is still necessary (otherwise why Singapore and USA still not get rid of such similar law). What did Anwar /Nik Aziz /Ambiga contributed so far to Malaysia?? Why we need to put our own neck out or become their stupid tools??

Askm Tun and may Allah bless you with good physical and healthy mind to continue to express what majority of people afraid to openly say.

For dtan's comment, I would not expect for him to say otherwise. He read, heard & saw and commented what seem to be so obvious for many to agree. He does not have the intellectual capacity to see & think beyond as you normally did as you have proven many times. That's the difference.

I strongly support and share intrepid traveller's comment. I hope that our present & future leaders should be very careful when dealing with our southern neighbour. It is indeed What is happening in other Muslim countries may easily happen to us. Obviously, the hidden "hands" have been at play in all these cases if we care to think analytically.

The editorial column in last week Mingguan Malaysia had interestingly expressed concern on clear interference

by our kiasu southern neighbour in our internal politics in clear support for PR. Can you imagine what will happen if the situation is reversed? Malaysian cannot be so tolerant just as to “respect” our neighbours. Sometime we should show our some kind of “kurang ajar” approach in order to secure respect .

As for the Muslims, the current events/problems in most Muslim countries will continue to happen as long as Muslims do not obey Allah’s command as mentioned in Quran 3:103. Pointing fingers to Israel & USA will not solve the problem of the Muslims but seeking Allah’s help will likely do.

May Allah bless & protect us all.

1-For Muslims everywhere it would be a natural inclination for them to blame the conspiracies of the West and their cohort Israel in all the mess involving the Middle East. After all before the British and the other European powers appeared on these lands, the whole of the Middle East was a part of a united Ottoman Empire.

2-But after the empire disintegrated and the West took over ,these lands had been systematically broken up consistent with their ‘Divide and Rule Policy’ everywhere. Suddenly the Sunnis ,Shites and other school of thought just emerged with very distinct identities that simply cannot live with each other.

3-In India the Hindus and Muslims had been living side by side for centuries, but the moment the British wanted to create Pakistan as a new nation to check on India, the Muslims and Hindus were starting to kill each other. These generally Christian Colonial power are real experts in creating divisions and pitting one upon the other.

4-Their suspicion on a Western conspiracy is obviously not unfounded. Looking at how the Western media has been feeding untrue negative stories about Malaysia now and then we know how their media can distort information and conceal the truth from the outside world to suit whatever their imperialist agenda.

5-The Zionists(not those sincere good Jews Dtan’s late uncle is a part of) dominate the global media. They shape the world’s opinion. And they have an agenda to demonize Islam as a religion that spread terror. Admittedly it had been an extremely successful agenda. Muslims are now are actually perceived as terrorists, especially those with the long unkept beards. This violent behavior is supposed to be motivated by their belief system . Muslims it seems must kill infidels wherever they can find them.

6-All these cruelty inflicted by these Muslim leaders on its own people like what the Syrian leadership is doing now is clear evidence of these terrorist teachings of Islam. Even many Muslims has fallen for this stereotype. In Indonesia and Africa the Christian population is growing and the Muslim population is dwindling.

7-Christianity through these same media is promoted as a’ religion of peace’. When the Christian Europeans killed 70 million people during the world wars it has nothing to do with the religion. Innocent civilians in Hiroshima and Nagasaki and elsewhere are all exterminated for the sake of peace. When Muslims on the other hand resort to violence for their struggle it is because of Islam.

8-But D’tan and his friends are not altogether wrong. Shi’ites and Sunnis have great differences that could lead them to killing of one another. Where is the brotherhood true believers in this religion of peace are supposed to become?

9-In Malaysia even PAS Muslims are different from UMNO Muslims. UMNO Muslims cannot be imams to PAS Muslims. PKR Muslims are at the moment recognized by PAS Muslims. Both PKR and PAS Muslims can go to heaven if they vote for PAS and their allies in the elections. If it becomes expedient for their political survival later PAS can simply declare UMNO Muslims as apostates and a civil war like the one we see in Afghanistan, Somalia and Sudan can soon be brought to our shores.

10-In the light of all these unbrotherly tendencies of Muslims everywhere can any sincere Muslim show Dtan

how Islam is actually still the religion of peace? Where did we go wrong? Maybe my brothers Wajaperak, AbdulAziz Omar, Amin Tan, Sudin, Prof_ridcully would like to try to enlighten...

Dear Doctor Mahathir,

I too mourn for Syrians who are being murdered.

I was hoping that some inner- fortitude would move you to influence or at least advice your brethren to count the cost of murdering their own people.

I am disappointed that you are grasping at straws as to point the finger at Western or Jewish influences as to rebel activity. Is it hard to believe that the Assad Regime has and continues to murder its oppressed peoples for the last few decades. Clearly, Sunni and Shiite sectarian Islamic violence are the norm.

Per 8. Who are they getting weapons from? The Saudis probably. Your Brethren hide the fact that they hate each other with a passion. Iran has been propping up the Shiite Government from its Sunni majority for decades.

All your observations always point to Israel and the West being the cause of all the problems in the middle-east. Maybe, it shouldn't be a United Nations mandated disarmament. You were not happy on how they dealt with the Bosnians. Your Brethren are massed at the borders of Syria. Show the rest of the World how Islam is the 'Religion of Peace'.

Shalom in Yeshua's Name

It make sense

America can no more have more war
So their NATO Intelligence creates and intigates the opposition to fight the Syrian,the Libyan Govt
To de stabilze to chaos the nations

So suddenly
America want democracy in Syria,Libya
So suddenly
The oppositions,the rebels are so suddenly
Equipt with strong weapons made in USA
So suddenly the rebels are able to have strength

My fellow Iraqis
My fellow Libyans
My fellow Syrians
Don,t you see you are not fighting for Democracy

You are fighting a war for America
For Israels
You are not fighting for your children
You are indeeds destroying your generaions future
To benefits Israel
To consent America to destroy yourself

So my brother
I know it,s not easy to put things behind
It hurts a lot
It,s very scary
You need to know who is your true enemy
You are trapping your future
You are trapping yourself
In the name of Allah
Brother lets put things behind
I have kill your family
So do you have kill my family

Know our true enemy

Assalamualaikum Tun,

When fighting happens, revenge killings will keep on spiraling. Settlement would be slow and timely, usually much longer than time it took to start fighting.

Syrian must have been yearning for happier time without Bashar. Not sure whether present condition is better than before. One thing for sure, people are dying and being killed more easily.

UN peacekeeper must play its true role as peacekeeper that is to control both from fighting. Syrian, be them pro or anti government, must cease all fighting and start negotiating. Easier said than done but that must done. Do not hope so much for savior from outside because they are likely with own agenda.

Lesson to us Malaysian, we can be different during campaign and election, but do not jeopardize peace that Malaysian enjoy. Revolutions, street demos, rallies, mass gatherings and such are actually not peaceful should be avoided in Malaysia. Political parties, pro or anti government NGO's or ethnic groups, religious bodies tend to voice their point in this manner now a day.

Just bear in mind, when demos and rallies turn to full pledge revolution, there may be fighting and killing. God forbid. . . What bright alternative future would it be? Negotiations and Elections are there for people to determine their leader and nation even though it may take longer. . . the truth will prevail.

May Allah bless Tun with good health and strength to enlighten Malaysian and the world.

A sound and neutral solution to the Syrian problem. Mahathir should fill the UN Secretary General post.

People love to kill people to get the objective fullfil

Look at bersih 3. They hoping somebody get kill so that the blame game happen. They need cause so that more people can get kill.

I m not understand why people like to get kill for ambiga. For anwar. Utterly rubbish reason.

My fren which been working in sudan, say these people are stubborn. He did posted a question, if the bersih 3 people that were injured, if they stay at home, do you think they will get injured? Only stupid people will say yes.

You all never seen dead people bergelimpangan on the street in real situation. It is horror. Try go to sudan or syria now. Definitely u say the present peaceful n harmony of malaysia is a good place to stay.

Why we should be anjing paria for somebody ambition? Only a fool have that reason.

Dear Tun,

You are observant. The situation in Syria has been repeated all over in Libya, Iraq, Egypt where the CIA and MOSSAD cultivate and finance internal dissent they would ultimately lead to the overthrow the legal government. Even in Malaysia, Al Gore was sent to shout 'refomasi' in a formal Government function. rm3 billions in 20 accounts controlled by Tun's former deputy to destabilise Tun and the government is similar to the modus operandi in Syria. Datuk Ambiga is roped in to organise the street demonstration BERSEH 3. We do not know how much exactly CIA or MOSSAD paid her for fomenting unrest at the Merdeka square. Maybe somebody can check at the Bank of Israel in Singapore to verify how many millions of fixed deposit she has. The amount may exceed that of Sharizat.

Dear Tun,

This could happen in Malaysia if we are not careful, if the Malays are not united. My worries is that little "Israel" in the south will come in an interfere. If that happens would say Indonesia comes in and help us?
