

“9/11 REVISITED – SEEKING THE TRUTH”

By Tun Dr. Mahathir Mohamad

Speech by Tun Dr Mahathir bin Mohamad at the International Conference on 9/11 Revisited at Dewan Tun Dr Ismail, PWTC, Kuala Lumpur on Monday, 19 November 2012

1. The Perdana Global Peace Foundation is doing the unthinkable. It is going to seek the truth about the destruction of the twin World Trade Centre buildings in New York on 9/11 i.e. on 11th September 2001.

2. The immediate reaction to this unprecedented aerial attack in America was that it was the work of Muslim terrorists. The Al-Qaeda is especially identified as the organisation behind this act. As a result President Bush wanted to go on a crusade against Muslims. He later withdrew that statement. But in fact his subsequent acts against Muslims reflected this mindset. He attacked two Muslim countries, Afghanistan and Iraq, killing their people and destroying these two countries, destabilising them and arresting their progress, even after knowing that the hijackers were not Afghans or Iraqis.

3. The whole Muslim world became suspect. The Muslims are distrusted, subjected to humiliating discrimination and detained without trial and tortured at will for years in camps situated outside the jurisdiction of US laws – in Guantanamo, Cuba for example and in Iraq. Others were flown to countries where torture was practiced so they could be tortured and not break us laws. Then the US actually passed a law legalising torture, a retrogressive act most unworthy of its claims as leader of modern civilisation.

4. But the US & Europe are even now paranoid that another similar attack might take place. Security measures and laws have been tightened. All of them were clearly directed against Muslims. Muslim airline passengers have been subjected to humiliating searches. Shoes have to be taken off for examination, toothpaste and hair creams and liquid cosmetics confiscated. Machines are developed to scan the whole body and at the slightest suspicion passengers were hauled off for questioning and detention.

5. The fact that Muslims have been more busy killing each other rather than Americans or Europeans has not changed the attitudes of the Europeans. Perhaps it is because they feel guilty and expect revenge for the injustices perpetrated by them that they fear Muslims, any Muslim. And more than a

decade since 9/11, they are still obsessed with their own security, to the detriment of the security of other people.

6. The official explanation for the destruction of the twin towers is still about an attack by suicidal Muslim extremists. But even among Americans this explanation is beginning to wear thin and to be questioned. In fact, certain American groups have thoroughly analysed various aspects of the attack and destruction of the twin towers, the pentagon building and the reported crash in Pennsylvania. And their investigations reveal many aspects of the attack which cannot be explained by attributing them to attacks by terrorists, Muslim or non-Muslim.

7. Some of these Americans and many other prominent people have been invited by the Perdana Global Peace Foundation to give their views on 9/11. These people have no axe to grind. They are only interested in seeking the truth. The truth is important because 9/11 has triggered attacks on muslim countries and people in which hundreds of thousands have been killed and their countries devastated by the 'shock and awe' wars.

8. I have thought a lot about 9/11. I have seen pictures and video clips of the attacks. I have heard the narrators give their opinions regarding the attacks. But to this i would like to add my own opinion based on my observation of the Arabs at peace and at war.

9. The Arabs may have been great warriors in the past but after they fell under western rule they seem to have lost their prowess in wars. In their wars against Israel they were so inept that they have never won a single battle, even when their forces far outnumbered the Israelis. In the years immediately after the formation of the State of Israel, the combined armies of Egypt, Jordan and Syria were defeated by smaller Israeli forces. The Arabs never seem to be able to plan or strategise and certainly their execution of battle plans are just plain bad.

10. They are not a disciplined people and this lack of discipline shows everywhere. And they cannot keep anything secret. Someone would leak whatever plan they may have worked out. For money there are Arabs who are prepared to reveal the hiding places of their leaders.

11. The attacks on 9/11 involved very complex elements which needed detailed planning, precise timings and disciplined execution.

12. There has never been (and will never be) a hijacking of four large aircrafts simultaneously. Yet this was what was supposed to have happened. At apparently the same time the hijackers took command of four aircrafts while flying in different airspace in different directions.

13. We cannot know whether the hijackers carried arms but there has been no report of guns in the debris of all the four aircrafts. How they could overwhelm the whole crew and take control of four aircrafts at about the same time is a mystery.

14. Then the hijackers were supposed to make the aircrafts change course and fly to the four places. Pilots who realised they were going to die anyhow would have tried to steer away from the towers when it was obvious they were going to crash into them. It would not need much change of direction to miss the towers. But the planes hit the towers squarely, bursting into flames apparently due to the fuel they carried.

15. Maybe the hijackers were actually flying the aircrafts. But we are told they had only trained with small aircrafts. How did they know how to navigate the huge aircrafts so perfectly after changing course. And time was the essence. If the second plane was delayed, the ground control would have detected that there was something wrong with the second, third and fourth planes.

16. I can imagine trained operatives like those in the CIA or Mossad planning and executing this complex operation but i cannot imagine an Arab like Osama bin Laden planning and directing this sophisticated aerial attack from some remote place in Afghanistan. They would need an airport control tower with sophisticated instruments to do this. And they would need to be near enough to observe the flights and give instructions.

17. The planning alone would have been extremely complex. Lots of data would have to be collected a long time earlier. The pilots had to be trained for very many years before they could fly and navigate the commercial aircrafts.

18. The hijackers needed to take over the four aircrafts at about the same time while in flight. The aircrafts to be hijacked must be well selected so as not to be too far from the targets. The aircrafts had to be diverted at the right time for each to reach their targets at about the same time.

19. All these would require a lot of detailed planning from deciding which planes should be hijacked, to the number of hijackers for each plane, to the different roles of the hijackers to control the passengers and seize control of the aircrafts from the pilots, to the change in the flight plan, to the routes to be taken, to forcing the pilots to take the new routes or for the hijackers to take over the piloting of the planes etc etc.

20. Hijacking one aircraft is difficult enough. But hijacking four aircrafts and flying them so as to hit the targets at about the same time is an impossible task for amateurs. Even professionals would find it difficult to do. Yet four aircrafts crashed at about the same time.

21. I apologise to the Arabs but planning and executing of these complex operations are not something that they can do well. They are brave and they are willing to die for their beliefs. But they are not like the American Seals who planned and carried out the assassination of Osama bin Laden. Their planning included the disposal of the body of their victim. And they were "brilliant". This is something that they were trained for years to do.

22. If the Arabs were to undertake such training it would soon become known to the CIA or Mossad and they would ensure that the whole operation be aborted.

23. But the fact remains that four planes were hijacked and they all crashed on their targets. If the hijackers could not be Arabs, then who were the "brilliant" hijackers. Clearly there is a need to know, for the event changed the world, making it insecure for everyone, and launching a clash of civilizations as predicted by [Huntington](#).

24. I may be wrong of course but this forum will hopefully reveal the truth behind the events of 9/11. The Pearl Harbour attacks forced the us to join the second world war. I don't think the Arabs planned to force the us to go to war against the Muslim world. But 9/11 did just what Pearl Harbour did, launch a horrific war which killed hundreds of thousands of Muslims, devastated Iraq and Afghanistan, and made Muslims the universal enemies of the whole world. Someone obviously gained from this.

25. Find the beneficiaries and I believe you will find the real terrorists.

26. This conference is about finding the truth regarding the world-shaking events of 9/11. Attempts will be made to blackout reports on the talks and discussions here. They will be made by the very protagonists of free speech and the free press. But the alternative media will frustrate them and shed light on the events.

27. The majority will probably conclude that the revelations by the speakers are preposterous. But a substantial number will believe or at least rethink their views of the events.

28. As I said earlier 9/11 had resulted in the deaths of hundreds of thousands of Iraqis and afghans, as well as a few thousand us and British soldiers. It has devastated two Muslim countries and destabilised them with fratricidal wars which promise to last a very long time. It has divided the world into Muslim and non-Muslim, and sowed the seeds of suspicion and hatred between them. It has undermined the security of nations everywhere, forcing them to spend trillions of dollars on security measures. Yet the threat remains, not so much from alleged terrorists as from the powerful states and their crusade to change the world.

29. Truly 9/11 is the worst man-made disaster for the world since the end of the last world war.

30. For that reason alone, it is important that we seek the truth, because when truth is revealed than we can really prepare to protect and secure ourselves.

A WORD TO ALL TO CLOSE THE SUBJECT

I want thank all who agree with me be it but to some extent.

To all who disagree so furiously be they reminded that this is a forum for discussion – all views should be heard and tolerated. Many who do not agree with me have their reasons why and those reasons must be respected which doesn't mean one must agree and take the same stand on the issue.

You hear my views – I hear your views ... this is the essence of debates and debates are good. In Spain we say: "Hablando la gente se entiende" meaning that properly talking people will -eventually- understand each other.

So while we keep talking their is hope for an understanding.

A modern proverb in Israel says "lass' uns reden, wer redet ist nicht tot – let's talk for the talking are not dead". Somewhat macabre maybe but it stems for a reality there – the same proverb could have initiated in Palestine, in Gaza and maybe it even did, who knows?

It is better to talk than to fight and bomb.

May all who are negotiating the Palestine issue now that there is a cease fire be inspired to finally find PEACE in that region once and for all.

9/11 is an issue that will forever be controversial. I am glad my thoughts had some reactions here.

Tun

Maybe it is time for our Ministry of Education produces a more comprehensive history curriculum on the rise and fall of empires, of civilizations and of world class personaliities in a simplified and generalised form for our schools.

Of the 4 world civilizations, the Islamic, the Indian, the Chinese and the Western, the Indian and Chinese civilizations have arisen since they were suppressed and subdued centuries ago eg. the former in 1947 and the latter 1949.

The Indians rose in revolt against colonialism during the Indian Mutiny of mid-19th century and they only regain their Independence in 1947 about 100 years after the event. At the end of World War 2, the British Tommy was tired of fighting and wanted to go home to Blighty. I would have thought the British also bungled here because they sent out Lord Mountbatten an erstwhile playboy. Many questions were unanswered before Independence was granted and left some non-viable States floundering to this day.

China was really the sick man of the first half of the 20th century. Yet, the proverbial authoritarian Government took command in 1949 and led it to its socio-economic success today.

The Malaysian Chinese in Malaysia will do well to remember before they take to running round the streets of Kuala Lumpur on behalf of others who want to be the Prime Minister to rule us all that China had no democracy and human rights for 5,000 years to this day, 2012. No Chinaman runs around the streets except in Kuala Lumpur and Hong Kong – and this only happened after the colonial master left in 1997. And the Malaysian Chinese are the best treated here than in Singapore, Hong Kong, Taiwan, China and the rest of the World.

How to set a placid and peaceful population on fire ?

By the simple action of agitation of innocent folks and money – lots of it.

On the Western civilization, a Fellow of history at Jesus College, the University of Cambridge told me many years ago that if there are more and more foreigners appearing in the mother lands of empires, it is a sure sign of the decay and failure of these empires eg. the United States, the UK. the EU etc. Vide. the last US Elections.

The Roman Empire's, the role model of Western Civilization, northern-most forts and settlements became the advancing and leading edge of the Barbarians at the beginning of the end of the Empire.

The Islamic Civilization will rise, strong and resurgent, and it is only a matter of time. The mystery of 9/11 is just a nitty-gritty in the broad strokes of a much bigger picture which Tun you understand well.

I am of the opinion that the Islamic Civilization will arise faster, stronger and more independent. This might not happen in our life-times. But mark my word, it will definitely happen – in what form no one can foretell !

Thanks to 9/11 which in fact acted as a catalyst or trigger to the impending and ultimate rise of the Islamic Civilization.

This mysterious incident could have been the regretful mistake of the Western Civilization which values the power of the gun more than the spiritual values of

Islam, throughout the centuries. In this, the protagonist of fire-power and slaughter of innocent men, women and children is out-dated.

Vote BN. All Malaysians. We under the BN with the rock-solid leadership of the UMNO have advanced over more than half of 100 years in peace, harmony and prosperity. Do not take the minor cracks of scandals (which could be easily rectified once normality returns) distract you from the gigantic fault lines of Lee Kuan Yew whom the Opposition has pledged to copy.

Hidup Malaysia ! Hidup all Malaysians ! Hidup the BN as led by the UMNO !

Assalamualaikum TUN,

It was a clockwork precision operation.

Obviously Osama or AlQaidah are not capable of executing such massive operation involving precise works to the very details.

To those who still thinks it was AlQaidah and Osama who did 911, take note that most if not all the theories about others doing it are from American themselves.

Some have even died mysteriously after speaking out about conspiracy theory.

Evidences are plenty to point towards conspiracy.

Simply put only CIA and MOSSAD are capable of conducting such huge operation involving logistics and administrative to the very fine details.

Go read about conspiracy theories and you will find plenty of evidences pointing to the US govt involvement in 911.

And finally DON'T give credit to Osama and Alqaidah for something they are not capable of.

As we can see later that Osama was busy with 3 or 4 wives when he was captured by the SEALS.

Thanks TUN.

Salam Tun and fellow bloggers,

1. A real muslim will avoid using his nafsu (feelings, especially the negative ones) or thinking (not congruent to Islamic teachings) to make judgment. But instead, he/she uses positive feelings, thinking (based on Islam) and iman to help him make assessment or judgment. I strongly believed Tun is a real muslim because his actions are based on the Islamic teachings.

2. Therefore for those who are still living in the tempurongs (even though you are academicians), who knows nothing about what are going on in this world, should just shut up and do some research/study like what Tun has been doing or just listen to Tun – his actions have consistently been good and for the human

kinds. Tun is a real muslim (there are too many evidence to show his Islamic thinking)

3. We have heard of Tun criticizing even BN leaders or UMNO (not only commenting the oppositions like what pakatan people are doing) or leaders of other nations who are out of line; dictatorship, injustice, etc. This is a true muslim, salah cakap salah, betul kata betul...but just take a look at the PR leaders who are only interested in fault-findings in BN/UMNO. Do not get me wrong...I am just trying to convince you all that Tun is a man of his words, just swinging like lalang like anwar or PR leaders. So for someone who has principles, a consistent one, on justice, good stuffs...we should listen to him and try not to become 'bodoh-sombong' people of Malaysia.

4. But, these idiots (especially from PR) will believe whatever their leaders said, even though there are no proofs – my god, as though they are a herd of cows! No brains....

5. Seek high and low on the truths of 9/11 – go ahead read and analyze both proofs supplied by both sides, not just using your heart to judge but your rational thinking.

Tun,

The Perdana Global Peace Foundation can make-up whatever it wants about the twin World Trade Centre.

While you're at it. You can also re-visit these other incidents which the Muslim world is suspected of being involved.

WTC Bombing in Feb 26,93

http://en.wikipedia.org/wiki/World_Trade_Center_bombing

Mumbai Attacks Nov 26,08

http://en.wikipedia.org/wiki/Mumbai_attacks

Bali Bombings in Oct 12, 02

http://en.wikipedia.org/wiki/2002_Bali_bombings

Madrid Bombings in Mar 11, 04

http://en.wikipedia.org/wiki/2004_Madrid_train_bombings

London Bombings in July 7, 05

http://en.wikipedia.org/wiki/7_July_2005_London_bombings

etc,etc,etc

No one, can force the Muslim World to accept personal responsibility for its actions. As a Believer in Yeshua, i think, it is better to do it now, rather than on the 'Day of Judgement'. Self Introspection is the hardest thing anyone can make, and Brain Washing is the worst abuse anyone can do to their followers

alfred.willner@euromotors.ltd.gj,

1. Tun M is NOT the only one in the world arguing that the terrorists who destroyed the WTC cannot have been Arabs because Arabs generally lack the skills it takes to do that.

There are many many arguments and justifications in the internet and books and some important people in the US and around the world who think like what Tun M is tinkering and believe. Please check before you say this to Tun M.

2. No. The West will and never going to listen to a Malaysian statesman because we are a small country. Listen and hear is two different things. Tun M is a Muslim so that is another point. We still remember when Tun M's speech in the UN was not given the coverage and respect by the world media back then. Look at what happened to another Muslim like Iran's Ahmadinejad....

3. If Tun M's stand and views are not good for the worldwide audience, than it is HARMLESS compared to what the Zionist have done since the 40s till now and what have Bush done to the Muslim world....Weapon of Mass Destruction ? Bush is happily resting at his ranch. The Muslims in Iraq, Palestine, Afghanistan ???? The Saudis as the US believed are the perpetrators of the collapsed of the Twin Tower so why did they bombed and murdered other countries and NOT Saudi Arabia ??? because SAUDI ARABIA rich people have lots of money stacked in the US banks and US are using this money to survive and....use this money to go against the MUSLIMS....you can ask the Zionist for clarification.

4. Tun M has his own views and too bad it may not be pleasant to you or anybody here. Tun M is not here to please anyone.

5. Even John Galliano from Dior was convicted in Paris in 2011 of hate crimes after making anti- Semitic and racist remarks against Jews and declaring a love for Hitler.

6. The Zionists rule the world by their proxy. Their number one proxy is US. Each and every President of the US must declare their "love" and support for the Zionist or they will never make it to the White House. Period.

Salam Tun;

Are we dumb enough to belief

a) The twin towers hundred over floors can just collapsed within few seconds? Metal can melts that fast and concrete became dust/powders??? To torch cut a metal beam will take few minutes and no way a building that tall can just collapsed without any resistance .

b) Building 7 (FBI building , total 47 floors) can just collapsed all the way to the ground without being hit by any airplane?

c) The Pentagon with highest security level with cameras every where cannot even show the photos of how the actual plane approached and hit the building? What happen to the security cameras and satellite photos??

Are we dumb??

It is best if we can declare war with israel. Now I like hitler more after i saw what zionist has done to the palestinians. Wish another hitler will rise to this world soon.

Tun

I am no expert in the mysterious events surrounding the catastrophic collapse of buildings containing human beings on 9/11. However, through my abiding interest in political history I have noted that 2 mysterious events in the United States history which are seldom highlighted :-

1898. The explosion and the sinking of the new USS Maine in Havana Harbour led to the beginning of the Spanish-American War which established the United States as an imperial power for the very first time.

1941 7 December. The 4 battle aircraft carriers were absent from the harbour at Honolulu, Hawaii when the Imperial Japanese Navy struck on that fateful morning. Much has been written about how the American Navy broke the Japanese Navy code before the outbreak of war on 7 December 1941 and the diplomatic exchanges which took place in increasing intensity through the months of 1940 and 1941. Further, concomitant with the rise of Hitler in Germany and the British were hammered around the World, most Americans were against War and some of them were pro-German like Joseph Kennedy Senior, Lindbergh the aviator, etc. At heart, Roosevelt was an Anglo-phile but could not do much because of American democratic constraints. Why only the most important assets in the US Navy missing on that crucial date ?

2001 9 September. This maybe one great mystery of Mankind.

Vote BN. All Malaysians. There should be no mysteries for us, nice and hospitable folks. No need to be ashamed of BN as led by the UMNO because how many of us realise the following Malaysian icons are unique to the World eg. i) the Royal Sultans ii) the Constitution iii) the UMNO iv) the NEP v) the Malaysian Democracy.

Do not be misled by 3 chaps sleeping on the same bed who used to have 3 separate dreams but now, they have confessed to have only 2 dreams of which one is to play second fiddle.

Would Lee Kuan Yew of Singapore allow DAP this freedom ?

Askm Tun and may Allah SWT bless us all with good health and peace of mind.

You may be right in what you believed and said however, as Mr Alfred Willner said, it is difficult after more than a decade, to find the proof as to convince the world. To a certain extend, I share your views and somehow, sometime the answer may appear. (Note: some people are still trying to find the answer as who really killed JFK. Now work has been done to check what really killed Arafat)

In modern world with sophisticated technologies, everything is possible. People with evil mind, those not believing in GOD, will continue to initiate or carry-out activities that will cause the destruction of the world and human being as the main purpose in their lives. There are groups who believe that they, in order to survive, must have control the strategic resources of the world; energy is one. They are the one who plan grand design to cause and maintain chaos, human suffering, mistrust among human being, broken fabric of human institution etc that will have end-result in the destruction & death.

I fully agree with Alfred that it would better at this time to focus your energy to look into the prevailing crisis i.e in Syria and Gaza. You still have the world leaders support if you can organise effort to find ways and platforms to stop these disaster. I believe Tun may be well-blessed to see beyond what many people can see. We all know that UN, EU, OIC and others have miserably failed, again and again and may be forever. USA has NOT shown/proven, again and again as an honest mediator for peace especially in Arab-Israel conflict and will never be. I just and many more may wonder why should we will depend on USA. Why we still beat the dead horse?

My view as a Muslim and with little knowledge I learn from studying the Quran & Hadith, THE WORLD IS CREATED AND ADMINISTERED BY ALLAH SWT as such, to HIM we, the true believers, should refer for protection, help and guidance in our present lives which is ONLY a temporary one before we ALL die. When we die, we will be judged for our deeds in during our lives in this world and one will either go to paradise or fire of hell, and in them we remain forever and ever, unending. The choice is ours.

We should always be grateful for what we have and be patient to challengers we face and paradise be our destination.

Obama called Sandy as Mother Nature so I wonder what will Father Nature look like as for him is such an ignorant human being even as a Christian to blame NATURE.

May Allah SWT bless us all.

Hi alfred.willner@euromotors.ltd.gj

Interesting post you have there.

I have always knew that something was not right about the event of 9/11. Numerous people and research groups have presented their evidence which is pretty reasonable and convincing. These evidences clearly show (1) how the WTC cannot be brought down by fire but was likely brought down by controlled

demolition, (2) that those "planes" were not likely to be commercial aircrafts, (3) the illogical fact on how the US air force (who are well known for their air superiority) had failed to defend NY and Washington (two major cities in the US), (4) the illogical fact on how other surrounding buildings collapsed, (5) as highlighted by DrM, the questionable capability in carrying out the attacks, (6) the suspicious way and secrecy of the officials in dealing with the aftermath and there are numerous other issues. There are plenty of videos on youtube and other websites up to the point I got sick of watching them 😊 No reasonable man with the right, sound and open mind can dismiss these evidence easily. The answers by the US officials are just not satisfactory and just leads to more questions than answers.

The effect of 9/11 is the so called "war on terror" and all those legislation which restrict freedom. This is why I think uncovering 9/11 is still relevant – from a historical perspective and for the future. Talk about upholding "innocent until proven guilty", how can US invade Iraq and Afghanistan without proof of guilt? How can you detain someone without proof? And even if the ones on those planes were from Afghan/Iraq, how can the rest of the population in Afghanistan and Iraq suffer as a result of few individuals? Years from now, if 9/11 was really planned in order to be the "pearl harbour" for the "war on terror" and those paranoid legislation, our kids and grand kids deserve to know how the very few manipulated the US and even the entire world into committing such a criminal act.

As a conclusion, I do agree that THE TRUTH ABOUT WHO CARRIED OUT THE WTC ATTACK ON 9/11 IS AS YET TO BE UNCOVERED especially who is actually behind it. And I support all moves to uncover the truth.

Peace be upon you all.

Saya tertarik isu ini bilamana seorang pak janggut menceritakan dalam youtube apa yang boleh dikatakan konspirasi atau perancangan rapi itu.

4 buah kapal terbang itu dipandu pilot yang hilang kawalan sama sekali kapal terbangnya.

Atau ia memang dilakukan orang2 Osama Laden atau teroris lain tetapi 'dibantu' dan disokong penuh segala kelengkapan segala perancangan rapi latihan berjalan lancar, dan diapi-diapikan oleh 'penyokong/simpatil/' tali barut ini yang masuk menyusup masuk ke dalam al Qaida.

Ada kemungkinan ini berlaku seperti di Malaysia dan lain-lain negara.

IT,S A JIHAD FOR ALL MUSLIMS

Dear Tun,

you are a very wise Elder Statesman with a vast Ocean of Experience to tap when you need it to give weight and strength to what you argue in public. I was your admirer already way back when many in your country weren't really convinced of what you were doing there for the good and better of all as it eventually turned out.

When I now read what you are arguing about finding the truth in regard to the destruction of the Twin Tower of the World Trade Center in New York on 9/11 I do wonder what was the real aim behind your speech. You must be the only one in the world arguing that the terrorists who destroyed the WTC cannot have been Arabs because Arabs generally lack the skills it takes to do that.

Maybe one could follow your argument if you offered a more precise reasoning for that, dear Tun – merely insinuating and supposing is not good enough there.

Sure, it is true that the Arabs have never won a single battle against Israel even when their forces far out numbered the Israelis. What is also true though is that any and all of such battles were at all times imposed upon Israel by attacking Arab Forces – in the years after the formation of Israel, the combined armies of Egypt, Jordan and Syria were defeated by smaller Israeli forces, as you well point out yourself – something you might also have wanted to state and make clear in your previous posting here maybe which you title “A Lawless World” where you accuse Israel of attacking its neighbors for no reason which is not really true. Israel has never fought an attacking war – its acts were at all times either acts of defense and/or retaliation. But this is besides the point here!

Your point here seems to be that neither Arabs nor Muslims can have carried out the WTC attack of 9/11 for lack of proper skills to do so and that under light and title of the International Conference of The Perdana Global Peace Foundation you advocate that finding the beneficiaries (of the attack to WTC on 9/11) the real terrorists would emerge. You illustrate this argument by praising the American Seals and how “brilliant” they carried out the assassination of Osama Bin Laden. Without you expressly saying so, the reader is thus led to think that it is suggested that the WTC attack on 9/11 might well have been the doing of American Seals.

You finish your speech saying that truly 9/11 is the worst man-made disaster since the last World War and that for this reason alone it is important to seek the truth (of who carried out the WTC attack on 9/11) because when truth is revealed we can prepare to protect and secure ourselves and you should have continued saying BETTER there for the world at large is today already protecting itself reasonably within their means from further terrorist attacks like this.

Another thing you leave said here though and again without explicitly saying so is that THE TRUTH ABOUT WHO CARRIED OUT THE WTC ATTACK ON 9/11 IS AS YET NOT BEEN FOUND, something a greater part of the world will today not agree with as you do very well point out yourself in your speak.

This doesn't make this greater part of the world think that your "revelations" are preposterous, simply because they are no revelations. You have not revealed anything to the world that proves that the attackers of the WTC on 9/11 were not Arabs, were not Muslims. You are supposing and insinuating this only. In regard to who would or could have carried out those attacks you are offering but insinuations and suppositions.

Dear Tun, this is not good enough for the well educated world wide audience you addressed here. The majority of the world believes that it was indeed Arabs and Muslims who carried out this worst man-made disaster since World War II – ill-lead and fanatic Arabs and Muslims but Arabs and Muslims just the same. ARABS AND MUSLIMS but was the TENOR of your speech and that they are not smart and disciplined enough to have carried this out. A poor argument and maybe even an insult to many an Arab and many a Muslim if not to their vast majority.

Dear Tun, a number of World Authorities have offered well believable proof of who carried out the attacks on the WTC on 9/11. To challenge this on 19 November 2012, more than 11 years after the incident, is too late – to raise but one counter argument. You had better dedicated the 19 November 2012 on offering your thoughts of how to solve the current fighting in Israel and Gaza. You are an Elder Statesman that the World is still listening to. President Musri of Epypt as current mediator there could do with some well meant advise and I don't think he would discard what you have to say.

The subject may ask you to jump over your own shadow but as your admirer I am confident that you can do it. They need peace in this part of the world and all mediators of the West have failed to-date. If Tun Dr. Mahathir Mohamad had a solution to offer the world would listen to it!

Saalam, dear Tun and good health for many years to come!

Salam Tun.

Those proven to be anti-Muslim like 'dtan' will not believe/accept a word of of truth in Tun's lengthy statement.

They have devious eyes with the very obvious "full of hatred" look in them, yet unashamedly preach to others about their religion. They are actually the equivalent of little Rasputins of 21st century!
