

Lahad Datu
Chedet.cc
9 April 2013
Tun Dr Mahathir Mohamad

1. I visited Lahad Datu on March 17, to see the members of our security forces and get a short briefing as to what was happening.
2. I was surprised to learn that the Felda palm oil plantation there is as big as the state of Melaka. There is a good-sized port at Lahad Datu equipped with modern cranes. I had expected to see forests there but the whole area has been opened up and Felda settlers live in large houses built by them. They are obviously well-off.
3. The security boys are in good spirit and seem prepared to do their duty despite the real danger of their being killed or wounded by the Kiram terrorists.
4. The situation there is very complex. The Felda settlers are Malaysian citizens of many tribal origins including Suluk. But there are also non-citizen Suluk living in the villages in the area.
5. The non-citizens seem to have been allowed to cultivate oil palms. However, at least one of them was very aggressive and insisted that he owned the part of the Felda estate next to his. Apparently, he collected the fruits and sold them for high profits as the palm oil prices were very high. Nobody dared to take any action against him.
6. There were quite a lot of non-citizen Suluks living in the area and many of them seem to have relations in the Philippines. They seem to move in and out of Sabah freely. Some apparently cooperated with the terrorists, probably sheltering them and keeping weapons for them. It is most likely that the weapons for the terrorists had been smuggled in earlier and stored in the "water-village" which dot the Sabah coast.
7. It is noted that for some time now there were no police, immigration or customs personnel stationed in these water villages. It is easy for boats to come in and leave without any official knowing their movements. In any case the water-villages have rickety gangways of narrow planks, laid over loosely on trestles. The dwellings are very close together, making it very difficult to observe the whereabouts of the villagers. It is really dangerous for the police to enter the water villages as they could be shot from the houses abutting the narrow walkways or from underneath them.
8. In any plan for securing the area, the water villages have to be demolished and the people settled on land. Apart from posing security risks, they are a source of rubbish and they use the water underneath as their toilet. Often when the tide is low, the mud underneath is exposed, with all the filth and rubbish that had been thrown into the sea.
9. Children bathe in the water around the water-villages and they must be exposed to all kinds of water-borne diseases.

10. These water villages may be picturesque but they are an anachronism. It is time they are removed and the people settled in proper villages on land. As for the people living there, if they qualify they should be allowed to apply for Malaysian citizenship. Non-citizens should be sent back to their countries.

11. In the meantime the security situation have to be tightened. It will cost money but it will be money well spent. Armed incursions into Sabah must be stopped completely. There must be a thorough search for weapons of all kinds including the parang. The security of the people must be the responsibility of the police. This is not America where people have to carry guns to protect themselves.

12. I must pay tribute to the security forces for their dedication and steadfastness in carrying out their duty. Whatever the shortcomings, the Malaysian Police are still the guardians of the safety of Malaysians.

13. My condolences to the families of those who died in the line of duty. I thank also those who are wounded and those who put their lives at risk so we may live in peace and security.

No doubts, the look east policy of natural resources have made political party members squandered billions of money.

They squandered billions into the pocket of their party members, not the state Federal Government.

Therefore, they are not welcome to invest in developed countries in the world.

What should they do?

From the pics, we can see the difference between heaven and hell.

In heaven, we feed one another, that's why we feel kenyang.

In hell, we do not feed one another, that's why we always feel lapar.

Vote wisely.

Malaysians of all races do not do this due to “Kepercayaan Kepada Tuhan”.

Who can do this to earn extra money in this election since they are new in the country, Mubarak Chan?

As I said, I respect and accept democracy as we are approaching developed status in the next 7 years.

“All settlements by these foreigners must be eliminated. I’m very worried when I see ‘kampung myanmar, kampung Bangladesh, Kampung Indonesia, and so many more . I somehow find the comment from Farzs’ is relevant and not racist if we see in a angle of Malaysian who hold citizen ship and also agree with it.

Obviously, as Malaysian I wouldn’t be happy if Malaysia’s resources is being used by non Malaysian and to those who does not have affiliation to Malaysia. How could I allow Bangladeshi, Indonesian, Indian, Chinese or what ever races they are draining all Malaysia’s resources freely, competing with Malaysian like they have rights to do so.

The close example of these situation can be see in Jalan Pudu, Chowkit, Nilai 3, Petaling Street, Jalan TAR and any other places that i don’t mention.

At all these places, we can easily see Indonesian, Bangladeshi and Pakistani selling stuff like , clothes, food and other, what do i want to point is they’re doing entrepreneurship but yet they’re not Malaysian and even some of them come illegally to Malaysia.

For certain that these new entrepreneurs are not paying any taxes or other charges that Malaysian’s entrepreneurs are required to pay.

How can this happened.. shouldn’t we do something about this and I strongly urge relevant party who has the authority please look into this.

it is not hard to identify these new entrepreneurs, if you go the alan Pudu, Chowkit, Nilai 3, Petaling Street, Jalan TAR, they're there, operate their business openly and freely and its like they're mocking Malaysia's law silently.

Yang Amat Berbahagia Tun yang dikasihi

Saya dengan rendah diri minta Tun supaya nasihat kat YAB Dato' Najib supaya jangan ambil apa2 tindakan kepada calon UMNO Pasir Mas Che Johan Che Pa kerana tidak menyerah kertas calon semasa hari pencalonan tempuh hari untuk memberi laluan kepada Dato Ibrahim Ali agar undi tidak berpecah. saya rasa dia telah beri penjelasan sebab2 yang dia menarik diri di hari pencalonan tersebut. sebagai ahli UMNO dulu kini dan selamanya saya amat bersetuju atas keputusan yang di ambil oleh beliau supaya kerusi tersebut memihak kepada Dato Ibrahim dimana beliau adalah penyokong kuat BN. selama ini Dato Ibrahim Ali sebagai Presiden PERKASA telah menjelajah keseluruhan Malaysia memberi sokongan yang padu kepada BN dan saya juga mendapat tahu yang TUN telah mencadang agar kursi Pasir Mas diberi kpd Dato Ibrahim dan TUN sendiri sanggup turun padang untuk membantu beliau. untuk info Tun kebanyak ahli2 PERKASA akan tersinggung jika tindakan di ambil terharap sdr Che Johan.

saya berpendapat Che Johan telah membuat satu pengorbanan yang amat besar memberi laluan tersebut tidak seperti setengah2 orang jika tak dapat bertanding akan mensabotaj parti sendiri tapi tidak Che Johan. orang seperti inilah sepatutnya menjadi tauladan kepada orang2 lain....

saya dengan ikhlas berharap agar TUN dapat menyelesaikan masaalah ini dengan sebaik2nya.

salam. semoga Tun sekeluarga di rahmanti ALLAH|

Salam untuk Tun dan rakan pengunjung chedet.cc

Peperangan telah berlaku dan akan berlaku. Begitu juga pencerobohan dan penyusupan Peperangan adalah strategi dan perancangan. Ingat kisah Singapura dilanggar todak, pendapat seorang budak telah mengilhamkan satu strategi pertahanan yang mengagumkan. Saya bukanlah pakar ketenteraan tapi ingin mengutarakan sumbangan pendapat seperti budak tersebut.

Pertahanan dalaman

1. Rakyat dan barisan hadapan-tentera, polis, kastam, imigresen, APM dan badan penguatkuasa yang lain perlu jatidiri tinggi sayangkan negara dan anti rasuah. Apaguna peralatan canggih jika rasuah enjin jet pun boleh dijual. Lihat betapa pendatang Indonesia, Filipina, Myanmar, Thailand dan lain-lain negara begitu mudah keluar masuk dan dibuktikan seperti yang berlaku dipusat pemeriksaan Imigresen Pulau Ketam. Bayangkan rakyat biasa negara tersebut pun boleh menyusup dengan mudah ke Malaysia bagaimana pula dengan komando atau perisikan mereka. Dicadang semua penguatkuasa membuat Sumpah Laknat agar tidak mengambil rasuah. Pendatang asing yang tidak terkawal mendedahkan risiko sabotaj oleh kerajaan asing seperti kisah peperangan Trojan. Senario ini disahkan dalam insiden Lahad Datu. Kenyataan KPN (B) Dato Musa Hassan yang pendatang haram adalah tentera asing tersedia perlu diambil berat.

2. Pertahanan rakyat- RELA, JPA, Wataniah, PLKN, PELAPES, Pertubuhan-pertubuhan silat dan kebatinan dan lain-lain perlu diselaras dan digerakan kearah Pertahan Menyeluruh Malaysia- Latihan pesenjataan dan ideologi pertahanan di pertingkatkan.

3. Aset pertahanan semulajadi negara perlu dijaga: hutan, bukit bukau banjaran gunung ganang paya, lembah, sungai-sungai adalah amat sesuai untuk peperangan gerila. Serang dan undur. Kepakaran tentera dan polis dalam perang gerila perlu dipertingkatkan lagi walau pun akhir-akhir ini latihan banyak tertumpu kepada peperangan terbuka. Tentera asing mungkin boleh menawan Malaysia dengan mudah tetapi tidak akan dapat berundur dengan selamat

4. Dadah, ajaran sesat, politik pelampau dan gejala sosial melemahkan pertahanan dalaman. Pembenterasan berterusan dan tegas perlu dijalankan dengan berkesan

5. Pasukan risikan tentera, polis, kastam, SPRM, APM dan lain di gabungkan dan dikoordinasi menjadi Agensi Perisikan Nasional Malaysia dan diperkuatkan. Perisikan yang berkesan adalah strategi cegah rintang yang terbaik. Penguatkuasa yang bersekongkol dengan pengedar dadah, tekong tekong pendatang haram atau yang membocorkan maklumat kepada perisikan asing akan dapat dibenteras. Perisikan asing dan cubaan campur tangan luar juga akan mudah dikesan dan di pantau.

Pertahanan luaran

1. Menarik perlaburan dari pelbagai negara. Pelaburan yang seimbang antara kuasa-kuasa besar seperti AS, Russia, China, India, Perancis dan Negara-Negara jiran mesti dilaksanakan dan penempatan perlaburan di seratakan diseluruh Malaysia. Sekiranya-sekiranya AS menyerang Malaysia, Russia China India dan lain lain negara tidak akan berdiam diri kerana aset dan perlaburannya akan terjejas sama.

2. Aset pertahanan canggih samada buatan luar dan dalam negara perlu di tambah dan peruntukan pertahanan perlu ditingkatkan. Radar radar pertahanan perlu ditempatkan sepanjang perairan Malaysia. Latih para nelayan kita sebagai agen perisikan dan pemberi maklumat kepada agensi keselamatan kita.

3. Banjaran gunung-gunung di Semenanjung dan di Sabah dan Sarawak adalah aset yang boleh dibuat kubu-kubu bawah tanah yang boleh menahan serangan bom nuklear kerana kemungkinan perang nuklear pada masa hadapan tidak mustahil kerana tampuk pemerintahan negara kuasa nuklear mungkin diambil alih oleh pemimpin yang gila dan sadis.

Sekian semoga dapat perhatian pihak pembuat dasar
Terima kasih Tun

Salam Tun,

Firstly, a short snipe at Farz's extremely racist comment please.

All settlements by these foreigners must be eliminated. I'm very worried when I see 'kampung myanmar, kampung Bangladesh, Kampung Indonesia, and so many more . The ones from China and India could easily mingle with the locals. We make their life easy here compared to the life in their own country.

1. All i can say, to such racist remark is, my Orang Asal or Orang Asli friends would have loved to say the same thing about the early Malay kampung settlers, such as himself.

I honestly don't know what it takes to reduce or eliminate racism, but we can progress much better and built true harmony without racism. I think racists will be left way behind in our general human progress, forever chanting their doctrine of melanin.

Okay, on to Lahad Datu.

2. Please Leave Peaceful Communities Alone

We have a group of people, a community who lives on water, and they have been doing so for thousand of years. And then comes "the government", what happens ? They are told to move, leave their heritage, squat on land.

I think this kind "modernization" is going to destroy mankind, if not the nuclear arsenal. Eventually, what we will have from the Bajau Laut and similar tribes are Burger Stalls and their children chewing McDonalds goodies.

So my message is simple. Leave traditional communities alone with their lifestyle. Help them, with sanitation, education, medical and even boats. Help them with whatever else the huge government machinery can afford to, instead of spending on self publicity, fame and arrogance.

Tourists come to this country for many reasons, and among them, in the hope to see the original natural human civilizations such as these water villages. Also our rich tropical jungle as well as its plentiful wildlife. I really hate to see my great grand children having to live near shopping complexes, concrete jungle, and have no clue at all what is orang Bajau or Suluk or whatever else is out there.

Please leave these people alone, help them, for they have been in the region for thousands of years, until come this thing called “Malaysia, Philipines and Indonesia.” Suddenly, they are “non-citizens” of some or all of these Nations. Oh boy, i really feel sad for them.

Thank You Tun

Dearest Tun,

Assalamulaikum, yes, the arm incursions must be stopped. I hope we have learned our lesson well enough not to allow this to ever happen again. The intruders must have come because they must have believed that they have the support from the families that have been living here and even from the locals. My gratitude to our arm forces and their families. Not just to those who fought in the Lahat Datu incident but also to those who fought the communists years ago. But then, history has also taught us that intrusion could be in many forms that invade our minds and souls. I hope our people nowadays are not as generous and trustworthy as our ancestors in welcoming foreigners into our country. Too many of these foreign will destabilize our country. The risk is too high. Again, I'm pleading, immigration and all those respective enforcement departments, please work harder. All settlements by these foreigners must be eliminated. I'm very worried when I see 'kampung myanmar, kampung Bangladesh, Kampung Indonesia, and so many more . The ones from China and India could easily mingle with the locals. We make their life easy here compared to the life in their own country.

The sovereignty of Malaysia cannot be left in the hands of the opposition, critical neighbours or NGO's. It is for parliament and the government of the day to enforce the sovereign rights of a nation. Even if this includes giving citizenship rights to illegals or reversing land rights.

The concept and the doctrine of sovereignty is universally understood by leaders of every civilized nation on earth. Of course out of political expediency there are those who will seek to undermine the sovereignty of other nations where there is political mileage to be gained and territorial economic and other advantages to be had. The US has a history of such expedient and convenient recognition of other peoples rights over others when it has suited them even if it were to the detriment of continuity and consistency in international law.

What happened in Lahad Datu was a conspiracy hatched to produce maximum confusion and distractions in Malaysia during the election period. The events and those behind it must not be forgotten or forgiven or Malaysia will lose its credibility as a political entity and sovereign state.

Regardless of a political leaders rights to fight a government lawfully however bitter the divisions may be between them and government, such an action is effectively conspiring with an enemy to violently overthrow government and its authority and in many places is punishable by death. Government however small its majority must exercise all its powers to go after each and every conspirator however small their role and have them tried in special courts then executed if found guilty.

There is a body of Malaysians who have been conspiring with outside forces from the private sector (George Soro's civil societies) to foreign governments in an effort to undermine the authority of the state and to create chaos like as been occurring in Egypt, Syria, Irak and Tunisia. It must be stopped with decisive and exemplary action.

An attack on Lahad Datu is an attack on all Malaysians. Over to you Anwar to explain your meetings with the Sulu Sultans separatists movement as described in a US Embassy Jakarta cable to Washington.

Assallammualaikum Tun.Terima kasih kerana ruangan..

Saudara Nyot75..

Mengapa agaknya mengikut kepala otak self enlightened agama adalah amalan peribadi?

Saya cuba melihat dari sudut kebersihan.

Jika jiran kita membuat kotor dan membela nyamuk adakah Jabatan Kesihatan akan membiarkan sahaja?..

Self Enlightened akan di gigit nyamuk aedes..biarkan..biarkan..

Tetapi malangnya..Aedes yang di ternak oleh Self Enlightened akan menyerang kita jirannya!!..

Tolonglah wahai nyamuk aedes..Janganlah gigit aku..

Gigit sahaja orang yang telah membiarkan kekotoran di rumahnya..

Bukan aku yang menjaga kebersihan..

Begitulah Tun..

Jika jiran kita sudah mati dan berbau bangkai,kita juga akan menerima akibatnya.

Self enlightened mengajarkan ajaran kafir dan cuba memperbodohkan umat Islam..

Keganasan kerana agama adalah sangat violent dan most virulent.
Malaysia aman tenteram kerana affirmative action dari pemimpin seperti Tun.
Anasir subversif seperti Self Enlightened mestilah di basmi dan di hapuskan kerana dia hanya membawa budaya bangkai dan contagious disease's..

Terima kasih Tun.

Salam YB Tun

Perkara ini tiada kaitan langsung dgn isu Lahad Datu tapi ada kaitan dari segi kesinambungan dan kestabilan negara. Saya ada baca ttg Perancangan Strategik DAP yg boleh diinferenskan sbg satu plot konspirasi ke atas Tanah Melayu... oleh Mohamad Razali Abd Rahman (Aktivis DAP)...didedahkan melalui Blog AIDC bertarikh 10 Apr 2013. Confession yg agak sukar dinafikan. Mohon respons drp YB Tun. TQ

QUOTE

The security of the people must be the responsibility of the police. This is not America where people have to carry guns to protect themselves.

UNQUOTE

Very well said, dear Tun!

The United States of America are indeed a very barbaric lot in this regard and at times one wonders whether they will ever become a truly Civilized Society. Who wants to live in a country where you might have to face a gun if you don't agree with your neighbor?

I certainly don't. Rather, I am looking forward with enthusiasm to applying for PR in Malaysia under the Malaysia my Second Home program in the not too distant future. The time is ripe and Malaysia is a blessed country I know I will enjoy living in!

Alaykum Salam and God bless you!

Assalamualaikum Tun,

A month have past since the first gun battle. Its been quite a while since our army have seen the Sulu intruders. We know the enemy have not eaten since their food supply have been cut off. It would be a miracle if they could have survived without food for one month. I think the enemy have been completely decimated. Even if by chance, somehow some of them have escaped, they would definitely be in very small number, maybe less than 10. It would be suicidal if they even try to fight. They would be of no threat, and the police could be use to track them, just like hunting down a normal criminal.

I think we are expecting too much from Jamalul Kiram. Remember, before the incursion he was a nobody. He was, but 1 of 60 self proclaimed Sulu of Sultans. He claim to be the poorest Sultan in the world. I suspect the 200 armed intruders was not a part of his army, but his only army. Even the 200 armed intruders, was deceived by Jamalul Kiram, promising them titles, riches and land in Sabah. I doubt future intruders would believe him anymore now that they know he is a not capable of delivering what he had promised. When that army is decimated, he has no more men.

Strategically speaking, it would be a suicide mission for any future intruders to enter Sabah. Sabah is currently the most heavily fortified state in Malaysia.

As expected, he has to start making lies to make himself still relevant. Some of his amusing comments are Malaysia have sent assassins to kill him and thousands more are coming to Sabah. Recently he says 400 new recruits have joined Agidmudin. All this was conveyed to him by Agidmuddin. The so called Raja Muda must really have a good handphone to be able to use it to communicate for more than a month without charging the batteries. Apple and Samsung would want to have look at this handphone of his.

I have read how certain Filipinos are sympathetic to this fake Sultan. If their sympathies are genuine, why not give him Mindanau, Tawa-tawi, Basilan and the surrounding islands to him? Remember, the former Sulu Sultanate does not compose only Sabah, but also part of the Philippines as well.

Why continue to address him as Sultan when you have stripped him of all powers when the Philippines became a republic?

It must also be noted, the area in dispute is not the whole of Sabah but only the eastern side. So forget about the oil because that is on the west side of Sabah.

assalamualaikum chedet,

Firstly i want to thank you for your visit at Masjid Iskandar, Jalan Datok Kumbar recently. It is a pleasure to meet you at your hometown, Alor Setar and I have no idea that you could visit us at our humble village. Its really funny when I hear you still able to talk in kedah slang. unfortunately i cant have a chance to took a picture by your side but to be able to shake hand with you for couple of times is already a bless, someday maybe insyaallah.Me as a Kedahan, No doubt I will pray for you so that you can see your 2020 vision will come true!!

1. About Lahad Datu, i strongly agree on the decision to demolish the water house and by my view, the water house should not allowed to be build in the first places, but because of our people way of ” sudah terhantuk baru tergadah” then we couldn’t do anything about it unless we “change” our way first.

2. The PDRM is really the first line guardian of Malaysian citizen. Sadly, still there are some Malaysian didn’t appreciate it and most sadly some people say they just died for nothing or “mati katak” i just wondering where is their common sense?? For me this Malaysian shouldn’t be Malaysian at all. When the sense of patriotism is lost in the heart of people, the the is no use for independence.

3. My view, the decision to reinforce the defense of Sabah coastline is indeed a brilliant idea made by the government and im proud of it. Sabah is one of the key asset for the Malaysia. It should not be given to anybody on any threat. If Sabah lost it can give a huge blow to Malaysia. We already loose Singapore is enough. I hope not anymore state should be lost from Malaysia.

4. Lastly, I want to give my full respect to all Malaysian for their support and commitment to gave their money for Tabung Wira Lahad Datu in respect for the lost of our security force especially the PDRM. For you chedet, I salute you, despite of your age, you still feel responsible for Malaysia and still hardworking on it, going on conference here and there anytime without know the meaning of tired, you are indeed a TRUE MALAYSIAN!!
Dr.Mahathir Mohammad you are my mentor & idol !!! Malaysia Boleh!!

Sincerely,
budak kedah

Salam Tun,

Thank you for being a great leader to our nation. May Allah rewards you for your good deeds.

Tun, I believe that you are an avid book reader. Is it possible if you could share a list of recommended books on various field (economics, politics, religion, leadership, business, biography etc).

Also, how many hours do you spend reading vs working now that you are retired? I'm really curious how you manage your time properly.
Thank you.

Ybhg. Tun ,

Pertama kali saya menjejaki ke Lahad Datu pada tahun 2010. Masa itu , syarikat hantar saya membuat kerja-kerja binaan di tapak cadangan bangunan Polis Marin . Padamas itu , kami baru selesai membuat kerja di Lapangan Terbang Antarabangsa Kota Kinabalu (KKIA) Bagaimanapun ada ura-ura hendak menukarkan status bangunan tu sebagai Agensi Maratim (APMM) .

Saya dan rakan-rakan tinggal di bangunan seberang sungai berhampiran laut. Dekat dengan masjid Lahad Datu. Kami berlawan , 7 cina dan saya seorang melayu. Kami tinggal di rumah kedai yang telah di bahagi dengan plywood .Lapan orang dalam satu bilik . Saya tak kisah tinggal dengan mereka , sebab ,pertama tak boleh masak , jadi mereka tak berpeluang membawa makan 'mereka' . Kedua mereka bukan kaki botol dan kaki mabuk . Mereka bangsa cina yang sangat baik bagi saya.

Di sini juga komputer riba saya hilang . Bila sekumpulan remaja mencero boh bilik penginapan kami . Dalam komputer ni ada 6 projek kertas kerja saya yang berjumlah hampir RM3juta keseluruhannya . Saya membuat laporan polis dan mereka dengan segera datang membuat siasatan . Namun sampai hari ini , komputer riba saya tak jumpa.

Apa yang menarik perhatian saya di Lahad Datu adalah persekitaran dan suasana yang kurang menyenangkan . Malam , bila kami keluar , saya nampak di kaki lima , ramai pendedatang asing bergelimpangan di merata tempat . Mabuk pulak tu . Mereka minum beramai-ramai dan membuat bising. Setiap malam kami keluar mesti dalam berkumpulan.

Pada pandangan mata saya , ramai lagi warga asing berniaga di tepi-tepi jalan berbanding rakyat tempatan .

Saya tahu serba sedikit tentang hal sabah apabila kerajaan ingin menubuhkan Pairin. Kawan saya -Melayu Sabah- cukup berterima kasih kepada UMNO . Bagi dia UMNO mempunyai pahala yang besar dalam membawa keamanan di Sabah. Sebelum itu mereka hidup dalam ketakutan bila pihak agama lain boleh membuat penyembelihan khinzir dalam masjid dan melepaskan anjing peliharaan dalam madrasah . Agama lain ini , mereka tidak menanamkan nilai-nilai murni dalam hubungan . Mereka hanya mengajar Islam adalah musuh mereka . Kita kena kaji puak yang menganuti agama lain ini asalnya dari keturunan asli peribumi . Mereka hidup berdasarkan hukum rimba . Agama lain ini mengambil peluang menyebarkan agama mereka berdasarkan kekuatan hukum rimba . Mereka tidak menyemai nilai-nilai murni dalam bermasyarakat.

Sabah , majoriti puak agama lain ini adalah dari kaum Kadazan . Islam pun ada kadazan. Bila UMNO masuk ke Sabah . Mereka menyatukan kedua-dua mereka , yang mana ada antaranya sekeluarga . UMNO menyatukan mereka dengan fahaman yang sama . Jadi timbul saling hormat-menghormati antara satu sama lain. Bukan seperti zaman pemerintahan Pairin.

Kedatangan pendedatang asing ini pun ada tujuan. Hal ini terlalu sensitif. Tapi saya sokong usaha kerajaan. Yang penting negara aman . Tiada perselisihan agama . Tapi ... mereka menimbulkan masalah yang lain pula . Seagama dan sebangsa . Tapi mereka tidak mempedulikan hukum dan asas agama. Pemimpin mereka di seberang , berperang dengan kerajaan sendiri , atas alasan nak menuntut autonomi Islam konon , tapi rakyat mereka tak sehaluan.

Saya bersyukur mempunyai kerajaan yang mementingkan hal rakyat . Kita semua dapat. Ilmu, keamanan, kemakmuran dan kekayaan .

Saya terbaca satu artikel mengatakan bahawa Bangsa Melayu adalah 'The Lost Tribe of Israel -MALAI' . Kita dari keturunan Nabi Ibrahim ber-ibukan Keturah . Bangsa ini di cari oleh YAHUDI kerana Bangsa MALAI ini yang akan bersama Imam Mahadi menghapuskan mereka.

Tidak hairan lah kalau saya katakan , Yahudi menaja pembangkang berbillion dollar untuk menjatuhkan bangsa Malai yang berdaulat ini dalam PRU13.

Salam YAB & diKasihi Tun,

1. Selamat berjuang kepada Pasukan Keselamatan Malaysia. Semoga Allah SWT sentiasa melindungi mereka semua kerana ikhlas mempertahankan kedaulatan Malaysia.
2. Penempatan semula rumah-rumah air satu langkah yang bijak bagi memudahkan pemantauan oleh pihak berkuasa.
3. Kerajaan Malaysia mesti bertegas untuk menghantar pulang sesiapa saja yang bukan rakyat Malaysia jika tidak memiliki dokumen perjalanan yang sah.

Terima kasih Tun.

Salam Tun,

berbanding dengan blog lain, saya perhatikan blog Tun kurang mendapat perhatian mungkin kerana Tun banyak tulis dalam bahasa Inggeris.

Apakata Tun lebih menulis dalam bahasa rasmi negara?

Salam Tun,

The public, especially the Chinese Ah Bengs and Ah Mois too must also acknowledge the sacrifices by our defense forces which enabled them to live and prosper in this land of milk and honey. Never take our peace and stability for granted.

These Ah Bengs and Ah Mois must never forget our nation's history as many of them like to downplay and ignore the incomparable sacrifices done by the Malays to accomodate their ancestors which is unprecedented in the history of mankind.
