

The Lobby System
Chedet.cc
14 April 2014
Tun Dr Mahathir Mohamad

1. We all know what a lobby is. But in the U.S. lobby refers largely to people specialising in influencing the Government through their contacts with the Congressmen and Senators and members of the Government including the President. We don't have lobbyists in Malaysia. They would be considered as cronies of the Government.

2. In the U.S. the lobbyists are paid to work for certain interests. The Cuban lobby at one time lobbied successfully for the U.S. Government to purchase sugar from Cuba. There was also a lobby firm which was hired by Malaysia to influence the U.S. Government not to undermine the tin, rubber and palm oil markets. We were not very successful.

3. But the most powerful lobby in the U.S. is the AIPAC (America Israel Public Affairs Committee). It can reach the President, all members of the American Government and all Congressmen and Senators as well as their staff at any time. This lobby which was responsible for U.S. support for the setting up of Israel and subsequent pro-Israel policies, is so powerful that candidates for President and other offices in the U.S. Government have to literally pledge support for Israel to his lobby or they would lose in elections.

4. An American Congressman of five terms lost the election after he wrote a book exposing the influence of the Jewish lobby. So powerful is AIPAC that not only does it ensure U.S. support for Israel policies but also U.S. funding of billions of dollars to the Israel Government.

5. For the U.S. the lobby system is totally democratic as ownership of firearms by all citizens is democratic. Malaysians would never think of condemning this system. For Malaysians, especially the liberal NGOs, and the opposition, everything and anything that is done by the U.S. and the West are regarded as democratic. They would never condemn the US for this blatant fee-based influence-peddling.

6. And of course we will agree to the TPPA irrespective of how much the majority of Malaysians are against it.

7. Clearly while the West condemns us for not allowing freedom of the press and cronyism, the west is blatantly practising censorship and cronyism.

8. I will not mention other undemocratic practises of the great advocates and crusaders for democracy and clean Government. Tapping phone calls and writing dossiers on their own citizens are now accepted democratic practices in the name of patriotism and national security.

National school does not teach us this, but it will good if we can take a look how the world fiat money works. To me, I always see the glass half full, and I believe fiat money out of thin air is not bad at all for the policy makers at the frederal level to pounder. Why? When make policy, dont look at race or religion, it will complicate the process making. Malaysians aint stupid, but political parties are stupid to think that voters must support them. My [best bet](#) is pm najib, but he cant do much not because he is no good, he cant do much because umno baru is pressuring him from taking a bold step to avoid middle income trap that will definitely will squeeze the pockets of middle income earners which the opposition parties will play until they got elected in the next ge. Give us hope, let us have the desire to fulfill our dreams as malaysians. We cant changed what went wrong, but we definitely can improve what went wrong. It is what we have learned in the past lesson, we will apply this lesson in the future. Dont stop in the middle. Either we change, or be changed.

For sudin. You are great. I have been with this Singapore thingy since October 1951. Maybe I am the only person with the details from 1951 – 2014. What I do not like is for one human being to make a mockery of another through lies. I appreciate your comments with their gems of wisdom very much. Despite, the wandering recalcitrants, I am confident that the good people outnumber the bad and our beloved Malaysia will prevail.

To mubarakchan,

Other than the use of the words nyonya sayur or vege seller, I've long stopped any other reference on its existence, including mentioning its name.

I envy you for your vast knowledge, great memories even to the details, and most of all the full truth in your postings irrespective of who's on the other/receiving end. There are times when we have to consider being polite to everyone has its limits.

For Karl. The opposition to the TPPA is not a question of not doing business with the United States and only doing business with China. It is the encapsulation of the [complete](#)  freedom of Malaysia's business endeavours and enterprises which are geared to balance the apparent internal imbalance by the TPPA with its Devil in the fine print or nitty-gritty.

Let us be reminded that the 19 rounds of secret negotiations must have been engineered by the country with the most interest in the success of the IPPA which is Singapore. We have been taken for a ride by the 1962 Water Agreement, the rush to deliver the Pulau Batu Puteh and now this TPPA which has so many volumes of text to be digested and at the end, if any wrong doing Malaysia is advised to go to a hall of justice. Singapore has been preparing an arbitration tribunal hub more than 10 years ago. See the vision. See the money.

I have an uneasy feeling that there might be some conflict of interest somewhere in the Malaysian negotiating team of civil servants ! Remember Wikileaks exposure on the surveillance by Singapore on her best friends and abang adeks and the information was passed on to Third Parties since 1972.

Malaysia should do business with all countries if it does not impinge on her sovereignty, national interest, self-esteem. A book of how smart Singapore was in the Pulau Batu Putih saga was published 3 years ago

HBT6,

YOU are worse than the discriminative America Lobbyist group by believing and writing this statement –

“It wont be surprised if american with mixed iranian blood becomes 1st president of the usa if he is raised in the american christianity way of life”...

Is it so democratic that America has to restrict that only a person who has “American” “Christianity” “Way of Life” can be the President of the USA ?

Through HBT6 statement referring to “Democracy in USA” , we can bel sure that the Democratic Action Party only uses – “Democracy” as a hypocrisy tool to hoodwink the people, and when they are in power , then they will restrict that a person need to be living the “DAP” way of life before they can be the Prime Minister of Malaysia.

1. Saya fikir pada jangkamasa panjang, kesan dari kerjasama ekonomi Malaysia-US melalui TPPA adalah jauh lebih bermanfaat daripada terpengaruh dengan ekonomi copycat China Tongsan.

2. Seperti mana yang terbukti dalam kes MH370, sikap Cina DAPigs dan China Tongsan adalah sama buruk dan hodoh. **[ANDA BOLEH LIHAT SENDIRI](#)**

3. If we have to choose between the two evils, I believe it's better we do business with the US who are far more civilised than the China people and their government plus the local Chinese who are 97% DAPigs breed. Oink.

How many of us realise that the Opposition's leadership is at its lowest ebb today ?

The media reported that President Obama has declined to meet the de facto leader of the Opposition. The latter's kaleidoscopic encyclopedia of actions since 1982 or 1972, with the apparent backing of American support all these years has become a zero sum game to the think-tanks of Washington DC. The whole world loves a WINNER.

There were the many BERSIH BERSIHs, followed by the men in black. One thing I noticed is that the good lady who had a very small set of suites in a KL building has since been ennobled and are now doing great things representing the big shots of the Opposition in conflict with the Government.

The sad thing were the many attempts to turn our beloved Malaysia into Malaysian Springs. This ended without a whimper and whoever responsible should now realised that it does not pay to be a copycat if we go back to basics – which is the history of the Arab World.

The Arab States of today were created out of 2 World Wars by the British and the French after the fall of the Ottoman Empire in 1919 which held sway for at least over 400 years before this and did not practise Western Democracy.

Whoever thought up the Arab Spring thingy must have been very hard up for a job at Washington DC.

All the Arab Springs failed across the Arab World. The suddenly enfranchised populace was expected to vote in a liberal minded Western type of Government of which they knew nothing about. As it is said by Prime Minister Curtin, 'two Wongs do not make a right.' After a huge loss of lives of innocent men, women and children, all the Arab States so affected are back to square one PLUS INSTABILITY which is of no good to anybody especially those who believes in 'Globalization, Free Trade and Human Rights'. This is best illustrated by the fate of Mr Humpty Dumpty.

Syria was in peace and harmony.

The Arab Spring leaped-frog and arrived on its door-step. In no time at all, 200,000 innocent men, women and children died or injured. Another 2 millions were displaced from their centuries old homes. What a mess ! Syrian before this was already contained. But to fail and not to succeed with Arab Spring, someone must be accountable for all these fiascos of Arab Spring !

Audacious opponents who had benefitted much including the DAP with a Singapore bias from the BN tried to copy-cat the failed prototype of Arab Spring. And their fizzled out is concomitant failure of an ill-thought out adventure.

The Malaysian Spring already took place with the aborted Malayan Union of 1946 !

The Ukraine caper must be the icing on top of the cake of failure. The Ukrainians were encouraged to revolt every night and when the crunch time came for the West to produce the hardware, nothing was delivered. All the tough talk from NATO turned gibberish when the proponents were faced with the real and ruffled Russian bear. And now all those gents who encouraged the Ukrainians to revolt are now talking about de-escalation which escalation never happened in the first place because the cards were all in the Russian hands.

We may treat this as politics, I suppose. Like our Malaysian Bersih Bersih, one gainer and the rest losers !

Tun perak, it wont be surprised if american with mixed iranian blood becomes 1st president of the usa if he is raised in the american christianity way of life. Any american can be the president of the usa if he or she capture the aspiration of the american dream under ticket democrat or republican. As I said, in a democratic country like malaysia with the Tuhan way of life, any malaysians can be pm one day under ticket bn or pr. The rest is history.

This article is very clear. The problem statement in the article is not really about “Lobby System” but it is about the discrimination and the hypocrisy of the West who are also the advocates and crusaders of the democracy agenda.

Much so, it is the United States of America and Russia who wage Middle East countries with weaponry and etc. to fight it’s proxy war in Iran; and the cold war elsewhere but once some of them , for example Saddam Hussein has gone overboard by invading Kuwait, they hanged Saddam.

Now, with all the American and foreign lobbyist did the lobby to ensure some dictatorial leadership in the Mid-East retain power and ensure the region is always in conflict, we have the people in the Middle East trapped in the “Dark Ages” of the modern society which lacks education, health and [economic growth](#) 🇸🇦. So, where did

the good muslim in the middle east go? In a very interesting turn of event, many of the good Middle Eastern people migrated to the West and America and contributed to the advancement of the knowledge and society in the West while it is the West who fueled the dictator with weaponry and applied economic sanction on these Middle Eastern countries to ensure that these countries flounder. Sheer hypocrisy but a top class strategy.

Allow me to give several example of “American Genius” or soon to be “American Geniuses” originated from the Middle East.

The most valued tech company in the world according to my subjective opinion is founded by the son of an Arab Syrian immigrant – keyword “Apple Inc.”, “Steve Jobs” and “Abdul Fattah Jandali”.

An article by “Newsweek” – <http://www.newsweek.com/surprising-success-irans-universities-87853> stated that

(1) “Stanford University’s Electrical Engineering Department were startled when a group of foreign students aced the notoriously difficult Ph.D. entrance exam, getting some of the highest scores ever. That the whiz kids weren’t American wasn’t odd; students from Asia and elsewhere excel in U.S. programs. The surprising thing, say Stanford administrators, is that the majority came from one country and one school: Sharif University of Science and Technology in Iran”. and.... ,

(2) “Silicon Valley companies from Google to Yahoo now employ hundreds of Iranian grads, as do research institutes throughout the West. Olympiad winners are especially attractive; according to the Iranian press, up to 90 percent of them now leave the country for [graduate school](#) or work abroad.”

My experience while studying Kanji (Chinese Characters) in Japan.... top student with almost 100% mark is from Iran, second top student with average score of 96% mark is an Arab from Algeria....a Chinese student came at 90% score mark and this poor Malaysia student is with average 84% marks, still an A but a so-so A type.

Well while I hated to say that the world has the reversal of “dark age” with a pattern that matches only about 80% of previous medieval age, but due to this phenomena, the seed of new Islamic modern communities is actually growing in the West, led by a Cambridge professor – Prof. Tariq Ramadan.

Going back to Malaysia – this wonderful nation has a lot more spaces to grow into a prosperous nation if certain criteria is fulfilled.

First – “Stability” – the country need to be stable , or else citizen mind will be pre-occupied with “waging war” and we lose the precious time to ensure our generation is well-educated and gain the wealth for themselves and everybody surrounding them. The leaders need to say to those “street demonstrators” we need stability or else everyone will suffer.

Second – “Strong Opinion in the International Arena” – instead of becoming followers, this nation leadership needs to be the trend-setter or the agenda setters for

international reform (we need to reform the West and the America and those external parties who tend and has the intention to oppress us) movers and shakers. Without strong opinion and leadership, it is hard to unite the country multiracial groups and move them in a productive direction while protecting the nation interest.

Third – “Genuity in Thinking and Thoughts” – Leaders should not act only as signatories to paperwork written by others with the help of consultants and their cohorts like the American McKinsey, BCG , and ect.; but Leaders need to put their fingers on top of the work itself hands-on with the objective – to ensure that the nation interest come first during the implementation of the strategist.

With this three criterias being put in the forefront, it is very unlikely that “Foreign Lobbyist” get a free hand and easy jobs to chart this nation direction according the “Foreign Democratic Agenda”.

Here is a solid example of a lobby.

From 2001 to 2005 before the advent of the 2 [casinos](#) 🇸🇬, Singapore’s meritocrats were in a flap when the GDP dipped below 7 after the decades of the heady years of the Cold War. By 1991 the Americans came up with ‘ Globalization, free trade, human rights.’ which is anathema to the traditional Singaporean ways of doing things and making money. The meritocrats from the now defunct meritocratic pyramid came up with a FREE FREE TRADE AGREEMENT with the United States leading the pack. When it was launched in 2006 by Singapore , only 2 countries, New Zealand and Chile showed interest.

These were the heady days of pre October 2008. The leading lights of the Western World were not interested. But the opportunity came Singapore’s way after October 2008 which is confirmed by the brilliant Lee Kuan Yew’s with his 15 failed Policies for Singapore, in June 2009. He must have been much encouraged by Singapore’s LOBBY of Washington DC to do the TPPA as the leading light and Washington DC agreed. Hence, the brilliant Lee Kuan Yew made his audacious trip to the Ulus to examine at first hand that the ground is fertile – in preparation of the ANT RIDING THE DONKEY ACT !

The introduction of the 2 casinos has its limitations as a stop-gap morale boosting event for the ordinary folk. BUT THE TPPA IS SUSTAINABLE AND ENDURING FOR SINGAPORE AS IT OPENS THE MARKET OF MALAYSIA FOREVER AND EVER. And the appeals to the courts to undo any wrong doing – this is a pipe-dream. Malaysia has not got a good record in the international halls of justice.

IF MALAYSIA DRINKS THIS POISONED CHALICE TPPA, MALAYSIA DIES PRONTO, SINGAPORE LIVES FOREVER AND EVER AT OUR EXPENSE !

Tun, is it not that this Singapore-Washington DC-TPPA saga reveals to all what lobbyists can do ?

The question is why and what USA need from Israel. It is nothing about Israel been a developed and large economy. China and Russia economy are much larger, bigger, faster and more developed country than Israel. Why USA dont protect and support China and Russia? For Malaysia politics, it is not the party but it is about the people that leading the party. Dont be too sure that PR is a better, they are all the same. My opinion is dont fall into any political trap by any political group and be a slave to them. Voters are just nobody, when they want your votes they come looking for you and after GE all of them only take-care of their pockets and family. The better way is for the voters to demand service and accountability from them in black and white (better sign with their blood as ink) before election, dont just accept or take their promises as they can never keep their promises. Why I say that is because if a person is genuine and sincere he/she will not pick politics as their profession or cari-makan.

Assalamualaikum Tun.

Di Malaysia tiada pelobi.

Tetapi saya pernah baca bahawa setiap surat yang diterima oleh Tun pasti akan dibalas.

Begitu juga dalam berkongsi pendapat di sini. Saya tahu bahawa setiap isu yang dibincangkan oleh kita diselesaikan dalam tempoh 3 hari bekerja walaupun Tun dah bersara dari kerajaan.

Saya menikmati kebahagiaan apabila melihat masalah cuba diatasi bersungguh sungguh dan selesai.

Namun apabila saya cuba meneruskan perkara ini di alam pekerjaan, hasilnya amat mengecewakan. Setiap masalah yang wujud pasti tidak akan diselesaikan. Malah dibiarkan berlarutan tanpa menghapuskan puncanya.

Saya tidak biasa dengan membiarkan masalah berlarutan. Ia menghantui diri saya. Malah eksiden motosikal yang berlaku dulu berlaku kerana saya tidak dapat menerima keadaan seperti ini.

Dan saya terpaksa biarkan juga ia tetap begitu. Saya tiada pilihan.

Kini apabila rasa susah bernafas kerana terlalu kenyang, maka saya fikir amal saya makin sedikit dan saya belum sedia untuk mati.

“Ya Allah! Berikanlah kebaikan dunia dan akhirat kepada kami dan jauhkanlah seksaan api neraka dari kami”.

Terima kasih Tun.

<http://en.wikipedia.org/wiki/Israel>

Israel is a representative democracy with a parliamentary system, proportional representation and universal suffrage.[25][26] The Prime Minister serves as head of government and the Knesset serves as Israel’s unicameral legislative body. Israel is a developed country and an OECD member,[27] with the 43rd-largest economy in the world by nominal gross domestic product as of 2012. Israel has the highest standard of living in the Middle East and the third highest in Asia,[28] and among the highest life expectancies in the world.[29]

balance, the questions that you asked have shown that you do not even read and understand simple facts of Israel and you go and put irrelevant questions and you named them as difficult questions. The rest is history, Malaysians are more matured in democracy and there is no way BN can win 2/3 majority in the future via vote bribing and fear mongering.

KUALA LUMPUR 12 April – Kementerian Kewangan optimis penubuhan pejabat Kumpulan Bank Dunia di negara ini mampu memperluas dan mengeratkan kerjasama berterusan dengan Malaysia.

Menurut Menteri Kewangan II, Datuk Seri Ahmad Husni Mohamad Hanadzlah, keyakinan terhadap perkara itu susulan komitmen Kumpulan Bank Dunia dan Malaysia memeterai

memorandum persefahaman (MoU) di Washington DC, Amerika Syarikat semalam dalam proses menubuhkan pejabat badan itu di Kuala Lumpur.

MoU tersebut ditandatangani di luar Mesyuarat Tahunan Musim Bunga oleh Kumpulan Bank Dunia dan Tabung Kewangan Antarabangsa (IMF) di Washington DC.

Matlamat utama penubuhan pejabat ini bagi jangka masa panjang adalah bagi memudahkan Malaysia berkongsi pengalaman mengenai kemajuan dalam sektor tertentu seperti membasmi kemiskinan dan pembangunan kewangan yang teguh, dengan negara membangun lain di seluruh dunia.

Malah, dengan kehadiran Kumpulan Bank Dunia juga membolehkan Malaysia mendapat pengetahuan global secara langsung dan kepakarannya dalam meningkatkan kapasiti untuk transformasi menuju ke arah negara berpendapatan tinggi,” kata beliau dalam kenyataan di sini hari ini.

Dalam pada itu Ahmad Husni berkata, Malaysia berada pada kedudukan baik untuk bekerjasama dengan Kumpulan Bank Dunia bagi mencapai matlamatnya membasmi kemiskinan [serta](#)  mempromosi kemakmuran bersama di peringkat global.

Ini selaras dengan pencapaian negara yang telah mencapai kemajuan besar dalam membasmi kemiskinan serta meningkatkan kebajikan golongan masyarakat yang tidak berkemampuan sebanyak 40 peratus,” katanya.

Ahmad Husni mengetuai delegasi Malaysia ke mesyuarat berkenaan dari semalam sehingga Ahad ini.

Tambah kenyataan itu, Naib Presiden Bank Dunia bagi Asia Timur, Axel van Trotsenburg berkata, penubuhan pejabat badan itu di Malaysia amat sesuai dengan konteks penglibatan strategik Bank Dunia yang lebih luas dengan negara-negara berpendapatan pertengahan.

Tun,

Dont condemn them as a matter of fact we should encourage them to continue their funding and all other things. By condemning them we actually teaching them to find solutions to avoid mistakes and failure. We must encourage them so that they will think that they are so so right and mighty then only they can make mistakes and it is the only way to shorten their evil ways. Time is the only medicine to cure evil doing, no one can stop the mighty USA only

the citizen of USA can do something. If the citizens of USA are so stupid not to realize that their Govt is taking their money to fund a few people agendas then it is their suffering and fate. As long as Malaysian Govt is not doing the same we shall live in peace, happiness and harmony. You have the capabilities to ensure we are not following those stupid ways. Anyway, it is better to ask ourselves first whether we are doing those same things of funding a few people for no reasons.

Difficult questions:

Why are the Jews so important to USA?

What is there in Israel the USA need or want?
