

Boycott Israeli Products
Chedet.cc
10 February 2014
Tun Dr Mahathir Mohamad

1. Europeans have supported Israel since its formation 60 years ago. After all Israel was created by the Europeans. As a result they close their eyes to all the undemocratic and inhuman deeds of the Israelis.
2. Now a group of Europeans have formed a Non-Government Organisation to fight injustice. And they consider the Israeli settlements built on Palestinian land as against international law.
3. Al Jazeera in its Inside Story series hosted a debate between two Jews and one Palestinian. But one of the Jews, a former head of the Israeli Parliament, the Knesset, was not blindly supportive of Israeli settlements.
4. The pro-Israeli Jew came up with some idiotic arguments against the boycott of Israeli products made on the settlements. He insisted that it was wrong if it was meant to force Israelis to abandon the settlements, as the objective is political i.e. to force Israel to give up the settlement and to have peace with the Palestinians.
5. He described the Palestinian prisoners who were released recently as murderers. I don't remember trials in Israeli courts for the 10,000 Palestinians incarcerated in Israeli jails at any one time for years and years.
6. I suppose the murder charges were based on rocket and bomb attacks said to be launched by the Palestinians. But what about Israeli attacks against Palestinian towns and villages, killing thousands and razing to the ground whole villages. What about the bulldozers which reduced houses to rubble often while their occupants were still inside?
7. The Israelis built roads through Palestinian land but do not allow the Palestinians to use them.
8. Israelis build high walls through Palestinian land and villages, separating Palestinian families from each other
9. The Palestinians have no rights in their own land. They cannot even call their country "Palestine". They can only refer to themselves as the "Palestinian Authority". Those who live in Israel proper have no rights yet Israel claims to be the only democracy in the Middle East.
10. As to Israeli claim that the boycott of Israeli goods is wrong, what about Israeli blockade of Gaza which resulted in the Israeli navy stopping relief vessels in international waters and killing 9 Turkish humanitarian workers? This is blatantly against international law.

11. If Israelis can do that, why cannot those fighting injustice boycott Israeli goods?

12. I think the whole world in the interest of justice should boycott doing business with Israel. This is truly a pariah state which is immoral and beyond the pale of human laws.

Salam Tun.

Nak sambung sikit kisah “ikan yu” dari Sinopura yang teramat kelahap tu. Kalau dulu “todak melanggar Singapura” hanyalah cerita rakyat, tapi “kuan yew membaham Melayu Singapura sambil ketawa terbahak” adalah kisah masakini dan masih lagi berleluasa. Yang anehnya seorang Melayu yang bergelar si “tok guru(?) N.ajis” tu sanggup berpeluk mesra dengan seekor ikan yu kelahap yang sedang melakukan ethnic cleansing Melayu Singapura!

Masa Tunku tergopoh-gapah membenarkan Singapura keluar Malaysia tahun 1963 dulu, keturunan Sino disana ialah 56%, Melayu 33%, baki dari kaum India & lain2. Kini kaum Sino menghampiri 75%, Melayu tinggal 15%.

Sepatutnya rakyat Singapura tak boleh bertambah bila polisi “tak boleh lebih 2 anak” dilaksana, tapi polisi itu hanya dimestikan patuh 100% untuk Melayu, untuk kaum Sino banyak kelonggaran. Kemudian panggil berjuta2 warga China untuk tambah warga Sinopura, sehinggakan pada tahun 2010 Singapura muncul “women’s table tennis world champion” dengan dibintangi 100% pemain & jurulatih “China mali”. TAK MALU!

Tahun lepas ikan yu menang tanpa bertanding bila lawannya konon2 tiba lewat dipusat penamaan calon. He! He! He!

Kenapalah Melayu di Malaysia ni masih ramai lagi yang terlalu bermegah mengakui diri “aku moron” bila terang2an sokong DAP tanpa was-was, walaupun diketahui “dengan terang lagi bersuluh” kit siang tu jari telunjuk kuan yu!

Tun,

Dalam kita sibuk untuk memboikot barangan keluaran Israel, kita ada “seorang brother” meminjam ayat yang digunakan oleh seorang paderi iaitu Father George Harrison terhadap Anwar Ibrahim yang kini sibuk memberi ceramah dalam sebuah gereja iaitu the church of the

Holy Family di Kajang kerana kempen 'Kajang Move' untuk menjadi Menteri Besar Selangor.

Berikut ialah petikan daripada sebuah portal propembangkang yang saya petik untuk tatapan orang ramai terutama oleh golongan Melayu profesional khususnya dan Melayu Islam amnya. :-

“Rebuffed by keepers of his own faith when he tried to preach at a mosque last month, Datuk Seri Anwar Ibrahim was welcomed with open arms at the church of the Holy Family in Kajang after the English and Mandarin masses today.

Parish priest Father George Harrison welcomed the opposition leader as “our brother” before he gave the floor to Anwar, who vowed the 1,200-strong crowd with his 25-minute speech on various issues.

When he was asked about his stand on the religious issues currently affecting the country and the rights of Bahasa Malaysia-speaking Christians to use the word Allah, Anwar said that even international Muslim scholars thought it was a subject unworthy of debate.

“When I asked an international scholar about it, he asked me what kind of question that was.

“I told him it was Umno’s question, so he explained that Muslims recite five times a day: “Praise be to Allah, Lord of Heaven and Earth.

“So, if Allah is Lord for the entire universe, how can there be limitations?” Anwar pointed out.

He also stressed that for Umno, the Allah issue was clearly not about faith.

“If it was, then their stand must be binding on all. But in this case they are saying Sabah and Sarawak can use the word but not in the peninsula,” Anwar said to loud cheers.

He then joked that this meant that a person who boarded a flight from Kuching to Kuala Lumpur will say “Insyallah I’m going to KL” when he gets on the flight but when he lands, he will have to say “Alhamdu Lord”.

Berikut pula adalah petikan komen daripada beberapa penganut kristian dalam gereja itu selepas mendengar ceramah ‘brother Anwar’,:-

“Beaming from ear to ear, a 72-year old parishioner, who wants to be known only as Alex, said: “I have heard him speak many times, and I wouldn’t want to miss this.

“We totally support him and want to hear what he has to say, especially on the Allah issue,” he added.

Alex said that during the 8.30am mass, their priest had told the congregation to welcome the opposition leader as “he is our brother”.

Alex said that to address the concern among a small group of parishioners who had questioned the wisdom of allowing Anwar to speak at their parish for fear of a backlash from Muslim extremists, Harrison had told his congregation “not to be afraid”.

“I believe the church’s stand is to accept everybody, so even if it was an Umno politician who wanted to speak in our church, we are not going to say no,” Alex said.

Debbie, a housewife, agreed, saying that she and her friends were eager to hear Anwar’s plans.

“As Christians we are taught never to resort to violence, and we stick to that.

“But the country needs a change of political power because what we want is unity not just in talk, but in action.

Another parishioner Andrew Loh agreed, saying that Christians were concerned over the Allah issue and wanted to hear what Anwar had to say about it.

“The Allah case is in court because that is the only avenue for us. As Debbie said, we will not resort to violence, but it is our right to go to court,” he said.

Another parishioner, Bernard, 45, agreed, saying that the case was about principles and the “rights of Christians”.

Kepada orang Melayu beragama Islam yang boleh berfikir dan berfikiran waras boleh meneliti sikap dan perangai ‘brother Anwar’ (meminjam ungkapan paderi itu) (atau pemimpin anugerah Tuhan, meminjam istilah isteri brother Anwar) berhubung pendirian Anwar terhadap Islam melalui ceramahnya.

Bagi brother Anwar, tiada apa yang tidak boleh dijual dalam kempen politiknya meraih undi (termasuk daripada golongan kristian dan minoriti negara ini) demi untuk menjayakan agenda kepentingan peribadinya.

Isunya brother Anwar ialah Allah yang mana satu yang brother Anwar mahu perjuangkan?

Adakah Allah yang mengikut kepercayaan trinititi penganut agama kristian iaitu ada tuhan bapa, tuhan anak dan roh kudus?

Mengapa brother Anwar tidak menggunakan kesempatan berceramah dalam gereja itu mengajak penganut kristian di Semenanjung yang mahu bersungguh-sungguh menggunakan kalimah Allah bahawa mereka boleh menggunakan kalimah Allah dengan syarat mengakui bahawa Allah itu Esa, tidak beranak dan tidak pula diberakkan dan menolak konsep trinititi?

Adakah brother Anwar berani? Adakah akan ada applause yang bergemuruh daripada penganut kristian kepada brother Anwar nanti?

Tak pa lah, itu cerita brother Anwar, bagaimana pula cerita brother-brother dan sister-sister pengundi Kajang khususnya pengundi Melayu di Kajang nanti?

Brother-brother dan sister-sister pengundi Melayu, mak cik dan pak cik di Kajang khususnya bukalah mata, cerdiklah sedikit dan jangan sia-siakan masa hadapan anda dengan memberi kepercayaan terhadap seorang pemimpin yang kata pepatah Melayu sudah terang lagi bersuluh berhubung perangnya yang jelik bukan sahaja dari segi moral malah prinsip perjuangannya terhadap bangsa Melayu dan Islam dan negara. Wallahualam.

Salam Tun.

Salam, Tun,

Tumpang lalu.

Bro Sudin,

a) Could I add? Terima kasih! Malaysia would not boycott Singapore's products! Look at those "freebies" already, e.g. water, Pedra Blanca ("Pulau Batu Putih" to those uninitiated!), TM, part of Johore, etc. You would think they would stop? Fat chance! Let us wonder what more would "Sinopura" get after this? What to do; it is all fated! ("Dah takde rezeki!"). Ok,

ok. Let us perform solat hajat, doa, then drink those blessed water (“Air Jampi” to those uninitiated!). Let us hope that Allah SWT will make us less stupid! Amin.

b) Anyone volunteering to go to “Sinopura” to jihad? Palestine is too far. Besides, instead of dying as martyr, you might die as victim of sodomite! LOL.

c) Incidentally, what ever happened to those other Muslims in Southern Thailand, Southern Philippines, Eastern Europe, Middle Africa, Myanmar, etc? Are not going to jihad there? What? Too far! No “Al Aqsa!” Hello? What is going on? Why all these hypocrisy? Anyway, how are your immediate neighbors? Did they manage to meet doctors for their illnesses? Did they manage to buy those books that their children schools could not provide? Did your nephews and nieces have enough money to buy new school uniforms? Did you stop staring at your neighbor’s wife and daughters? Did you...

Sekian, Tun, terima kasih. Wassalam.

Tun,

It is the Israel Govt that is doing the injustices not the Jews people. I think there is a different between Govt and common people. I think if anyone want to shout any condemnation they should target the Israel Govt and selective people or group. I think not all Jews or Jews company agree or support the Israel Govt policies as there are Jews groups and individuals that are supporting the Palestinian, giving aids and moral support.

I think the correct things to do is to voice out more or louder by creating a international pressure group against the Israel Govt unfairness and prosecution of Palestine and its people. If there is any monetary aids intended pls use from your own pocket not from Malaysian Govt. Then we can see how many people in this blog are willing to use their own money or “give all” to support this movement. There are a lot of ideas and smart comments but how many are willing to go the extra mile as armchair critics are comfortable and self-praising pastime of many. Will you give all your asset or half to support the Palestinians? If you will be the first to do then maybe there are more hope for the Palestinians. We should start by give/do more prayers and aspiration to the people of Palestine and hope that they can help themselves and their God can help them to succeed.

Salam Tun.

Referring to Tun's Statement,

“The Palestinians have no rights in their own land. They cannot even call their country “Palestine”. They can only refer to themselves as the “Palestinian Authority”. Those who live in Israel proper have no rights yet Israel claims to be the only democracy in the Middle East.”

How about the fate of the Malays in their own land of Singapura?
The Malays there cannot even call their country Singapura!

Products of israel are seldom to be found in Malaysia, probably unavailable. Thus the “boycott israeli products” is not applicable, and israel is too far away to be bothered of its products.

However the ever-hungry little shark called “ikan yu” who never even leave behind crumbs for the Malays of Singapura, has always been treating the Malays in a manner similar (or even worse?) to that of the jews treatment of Palestinians are often overlooked!

the ikan yu's belligerent stance towards the Malays need no introduction! It is even considering to change the Malay name “Singapura” to Sinopura!
Why don't we “BOYCOTT SINGAPURA PRODUCTS” first and foremost, starting from today.

Wow, the jews mata sepet boikot umno in the last ge13 boleh pulak. Melayu nak boikot jews mata sepet tak boleh. Mmg betul la jews, dier boleh org lain tak boleh. Cehhhh.

Kiter boikot barangan jews bukan semua. Pragmatik sikit. Buat macam buy british last. So look for alternative la bro.

So kalu pegi kedai jews mata sepet every day 24/7 in the past, ubah sikit, may be 5 hari seminggu. Itu pun dah cukup. Dapat kurang lagi, lagi bagus. U can see the different of that kedai jews mata sepet. Within 2 or 3 years bungkus lah.

So boikot la mana yang mampu, less the frequency, you can make the different.

For kajang folks, undi lah saper ko nak. We only kene tipu once, kalu twice memang lah bodoh.

Mari kita tunggu aper kater jews mata sepet yang komrn itu hari

My greatest`complimens dr Tun, or Che Det.

As MM2h member I wanted to live in Malaysia, because of the rare positive public opinion about the suffering by the Palestinians.

I remember the tribunal about Palestine a few months ago, where a very good judgement was spoken.

Boycott Divestment and Sanctions seems the only possibility for justice to the Palestinians after more than 60 years of occupation, and refusing to abide to UN resolutions.

Just one, may be stupid question.

After all of this, how is it possible that the Banks in Malaysia use G4s security systems for their security (transports) ?

For G4s is high on the Boycotting list of BDS.

My own bank cannot give me an answer.

Nobody can tell me.

Assallammualaikum Tun.Mohon diizinkan ruangan.

Sheesh..

Again??

What economy got to do with our faith?

Yes.To the Arab Dusun “commoner” in Rasullulah s.a.w time, economy is everything to him.What about Orang Asli the previous time when earlier preacher came to their home?

Please..come and follow us to Palestine..jihad..No?

How many generation will it takes to drive home the message?

What year was that?

1940?

And this year 2014.How many Orang Asli have ‘extricate’ themselves from the cycle?

And in between the Christian missionary comes and go giving us this question.

“Buat apa nak masuk Islam?Jadi Kristian senang.Sembahyang seminggu sekali je..”

Our answers will be?

Pakcik..Islam gives you nothing in this world but the tranquillity and peace of mind..

Will the early settler of Orang Asli will accept those or we will be patient hoping his grandson will accept our answers?

How many generation it will take for the answers to become relevant?..

Yes.In this present moment even the ordinary Hafiz cannot give you the answers how to feed your family.

Why is that?

There is hierarchy.

In skill and comprehension.

For the Arab Dusun, simple meal and simply living is sufficient.But then Tsalabah wants to venture more..and what he gets in the end?

To be fair,thousand upon thousand’s our graduate did not have this proper proficiency in knowledge.Why?

They study but did not amass knowledge.Especially divine knowledge..

Become government servant missing the very essence of service provider..

How sad..Not pathetic though..)

To each and every..there must be,
Functionality.

Compassion for every folks that needs service community.
The very essence of deception is humanity!...)
Aha..In Al Syuaara..thou shall seek,
Say the very Israeli!
Hierachy,hierachy of comprehension and the blessed one that be..
In contribution, lies one legacy.
Hypocrisy is one who cannot fulfill the oath in the presence of Al Mighty!
Saints,sage and mukminin of Allah realm is our far reaching bounty.
Reality..reality..do you fingers them or it's slip through your sense and sensibility??
Al Quran.

“Dan mereka tidak takut kepada celaan pencela”.

Al An Am.

“Kebenaran itu jelas dan nyata.Sesiapa yang nampak kebaikan kembali kepadanya.
Sesiapa yang buta,aku bukanlah pemelihara”.

Az Zariyat.

“Demi langit yang mempunyai jalan-jalan.Sesungguhnya kamu berbeza-beza pendapat.Di palingkan daripadanya orang-orang yang di palingkan.Terkutuklah orang yang berdusta.Mereka tenggelam di dalam kebodohan dan kelalaian.Dan mereka bertanya..

BILAKAH HARI PEMBALASAN??

Tun.Terima kasih.

Salam, Tun,

I beg your pardon. I do not mean to be rude, thank you!

1. Definisi “Jiran” di dalam Bahasa Arab:

(a) Dari segi bahasa atau etimologi, jiran berasal daripada bahasa Arab yang membawa pengertian orang yang tinggal bersebelahan atau tetangga.

(b) Dari segi istilah jiran adalah orang-orang yang tinggal bersebelahan dengan rumah, bersebelahan kampung, daerah malahan lebih besar daripada itu iaitu jiran yang bersebelahan dengan negara.

(c) Jiran juga bererti ahli-ahli 40 buah rumah setiap penjuru yang mengelilingi rumah individu.

(d) Sebagaimana hadith riwayat Abu Daud RA, telah bersabda Rasulullah SAW yang maksudnya: “Empat puluh buah rumah tetap sebagai jiran tetangga”

(e) Firman Allah SWT di dalam Surah an-Nisaa’ ayat 36 yang bermaksud: Dan hendaklah kamu beribadat kepada Allah dan janganlah kamu sekutukan Dia dengan sesuatu apa jua dan hendaklah kamu berbuat baik kepada kedua ibubapa, dan kaum kerabat, dan anak-anak yatim, dan orang-orang miskin, dan jiran tetangga yang dekat, dan jiran tetangga yang jauh, dan rakan sejawat, dan orang musafir yang terlantar, dan juga hamba yang kamu miliki. Sesungguhnya Allah tidak suka kepada orang-orang yang sombong takbur dan membanggakan diri.

2. “Dari Abi Hurairah RA, sesungguhnya Rasulullah SAW bersabda: Barangsiapa yang beriman dengan Allah dan hari akhirat maka hendaklah ia memuliakan jirannya” (Riwayat Imam Al-Bukhari)

3. Dari Abi Hurairah RA, sesungguhnya Rasulullah SAW bersabda: Tidak akan masuk syurga barangsiapa yang menyebabkan jirannya tidak merasa aman dari gangguannya” (Riwayat Al-Imam Muslim)

4. Firman Allah SWT di dalam surah Al-Ahzab ayat 58 yang bermaksud: “Sesiapa yang mengganggu serta menyakiti lelaki yang beriman dan wanita yang beriman dengan perkataan atau perbuatan yang tidak menepati kesalahan yang dilakukan oleh mereka, maka sesungguhnya mereka telah memikul kesalahan, menuduh secara dusta dan berbuat dosa yang amat nyata”

5. Firman Allah SWT di dalam surah Al-Imran ayat 200 yang bermaksud: “Wahai orang-orang yang beriman! Bersabarlah kamu menghadapi segala kesukaran dalam mengerjakan perkara-perkara yang berkebjajikan, dan pewatakanlah kesabaran kamu lebih daripada kesabaran musuh di medan perjuangan, dan bersedialah dengan kekuatan pertahanan di daerah-daerah sempadan serta bertakwalah kamu kepada Allah, supaya kamu berjaya mencapai kemenangan”

6. Firman Allah SWT di dalam surah Al-Hujuraat ayat 13 yang bermaksud: “Wahai umat manusia! Sesungguhnya Kami telah menciptakan kamu daripada lelaki dan perempuan, dan Kami menjadikan kamu pelbagai bangsa dan puak supaya kamu berkenal-kenalan dan beramah mesra antara satu sama lain. Sesungguhnya semulia-mulia kamu disisi Allah adalah orang yang paling bertakwa di antara kamu bukan kerana keturunan atau bangsanya. Sesungguhnya Allah Maha Mengetahui lagi Maha Mendalam Pengetahuannya akan keadaan dan amalan kamu”

7. Have you said “Hello” to your neighbour today? Is he/she well?

Sekian, Tun. Wassalam.

Tun Perak you raise a very valid set of points in this discussion. Facebook's Mark Zuckerberg is a Zionist and a supporter of Israel even if that means supporting its brutality against innocent Palestinians and crushing their rights.

Perhaps not many are aware here that during the so called "Arab Springs", Facebook was recruited to provide the conveyance of messages even though at the time the Egyptian, Syrian, Tunisian, Moroccan and Libyan intelligence agencies had tried to jam or restrict their circulation by taking down or disabling mobile phone towers and jamming proxy internet sites in these countries.

The Arabs failed in the exercise of blocking social media networks because they were given alternative channels and IP's to operate from in these countries by the British, French and Americans operating in conjunction with the state of Israel. Facebook became a by word for the propaganda as much as it was effectively used in Malaysia by "Datuk" Ambiga Sreenivasan in her yellow livered and yellow coloured attempt to overthrow the state.

Back to the point. It was not long after discovered that the Palestinians had engaged in a similarly creative way using Facebook and twitter to muster a third Intifada and had in excess of 500,000 new Facebook members in less than a week. Each of the Arab states that were not affected previously were suddenly in the grip of this madness and the threat to the old pro American and oppressive regimes became real and destabilizing.

They jammed Facebook. An article in the New York Times and Bloomberg at the clearly said that Mark Zuckerberg was contacted personally by IPAC the powerful Israeli lobby in the US and by the Israeli authorities to disable any Palestinian accounts. Disable it he did and in a hurry.

Now lets look at the simplicity of this whole networking thing and how lame and dumb we have become. Creating another face book exclusively for those of us who really seek peace, harmony and a non American non European (with some limitation) existence, Say a Muslim version of Facebook, is not rocket science.

A client and colleague of mine originally from Bosnia now the CEO and Chairman of a well known record company in the US (New York) has already completed the framework for such an alternative social networking site. Do you think any of the middle eastern countries with billions of dollars of Petro dollars would bother investing a cent into the venture? no. A Jew from New York gave him his starting capital of US\$100,000. Now how do we pick on Jews instead of the state of Israel alone to boycott? he was commissioned our firm to raise an additional \$780,000 for him and chances are Jews in the US will subscribe first and take that risk with him.

Does not charity begin at home? Do we not start with our own kind first? We are so in awe of the US and Europe in truth we cannot see the weaknesses in our own selves.

Facebook is a tool and a very effective tool as is twitter and the others that now dominate our lives. In seconds a good creative team can take an idea and make it go viral. Good language skills, learning how to nuance a situation, changing people's minds in seconds, taking dangerous choices away from people, helping them make other choices all come with a little investment and planning and self confidence.

The west has it all over us. Today India and China have imbued that into their children who go abroad and do things we never dreamed possible not a long time ago.

Unless we take the “bull by the horns” and do what needs to be done we are ourselves done for good.

Good blogging is getting to be a bit passé these days. It is social media that counts. Any takers? or are we just talkers??

Salam Tun,

& Salam Bloggers especially The Muslim,

Israelis is a society which prevents injustice other than the injustice that they commits on their own. They blame Nazis; but they themselves are Nazis; by their own making.

Europe and America are Israel bed partners, Palestine is molested by Israel and the rest of the world “mind” are prostituted by Israel into accepting “Injustice, aggression, ethnic cleansing, killing, discrimination” of the Palestinian, as something that Palestinian deserves.

Muhammad, SAW said.

A Muslim is the brother of a Muslim. He neither oppresses him nor humiliates him nor looks down upon him. The piety is here, (and while saying so) he pointed towards his chest thrice. It is a serious evil for a Muslim that he should look down upon his brother Muslim. All things of a Muslim are inviolable for his brother in faith; his blood, his wealth and his honor. Sahih Muslim Book 31, Number 6219.

Economic sanction will work if the world vote for it.

Boycotting Israel product is something that we have done. Malaysia does not have any diplomatic relation with Israel so I presume we do not buy any Israel goods.

What about Jewish product such as “Facebook”. I found it hard for ourselves to close down our Facebook account. Zuckerberg is a Jew as much as Spielberg or Iceberg or Carlsberg. So, if “boycott” is a honest idea, closing Facebook account is the first thing that we have to close. Facebook share capitalization is bigger than the GDP of certain African country or some developing countries and we are contributing to it.

Perhaps, we take it easy by assuming that Jews are not necessarily supportive of Israel, and hence benefit of doubt is given to Facebook.. ?

To solve Palestinian problem, the solution for layman like us is to do something simple , that is to condemn the aggression, molestation, injustice of Israelis onto the innocence Palestine citizen.

Palestine are our brothers and sisters. Imagine, what would you do if your mother and sisters are raped and your brothers and sisters are killed ? Would you say to your mother, sisters and brothers that their pain is not part of your problem ?

Assallammualaikum Tun.
Saya mohon ruangan.

Since there is a need to scrub.I will scrub.Ask for it.I will not turn you down.
Tun.Let's go to the time when British come here under 'invitation'.
Pandak Maharajalela and other's finally have resorted to kill JWW Birch.Again.We could say that Birch keep asking and keep scrubbing so they had to give isn't it?..
And the first war broke in Tanah Melayu.British against the Malays.
British sent her fleet up Sungai Perak and met many resistance up to Kampung Kota Lama Kanan to the very sand of Iwojima..eh..sorry Tun.The sand bank of Kota Lama Kanan near the famous Masjid Kota Lama Kanan.
The last Malay stand.
According to the British account they have routed the Malays just in few hour's.
I read somewhere "The resistance last until evening which only one British officer's casualty".
But my grandfather said the people of Kota Lama Kanan fought bravely for few months.
According to my late Ustaz Zainuddin, the tide turned when British shelled many ?gold coins that made the resistance scattered and scampered away for the gold coins.Thus breaking up the discipline.
To made the acrominous defeat bitter is Malays themselves from Kampung Kota Lama Kiri and Sayong our so called neighbours ganged up and finally overcame the courageous folks of Kampung Kota Lama Kanan.
Defeats mean disaster.British tired..ops sorry..:)
British tried to torch the Kampung Kota Lama Kanan mosque.As the story goes it did not catch fire eventhough drenched in kerosene.There is another story about the flood and the dragon...:)
The crux of the matter is how people look at the event.
Some did not even believed it happened.
British downplayed the courageous folks of Kampung Kota Lama Kanan.
"They last few hour's only" wich actually took months.
Consider this.Beside the traffic light at Clifford school is the first hospital in Tanah Melayu.Why would British set up this hospital to tend their wounded soldier's for a few hour's worth of fighting?The fact is there for whom are willing to acknowledge the truth.
The British and the Portugues before them praised the Malays who joined them in liberation of Malacca and Tanah Melayu.For me they are traitors.
Finally what we have here in Tun blog is a matter of perspective.
If you like the Palestinian struggles you are collaborating with the uncouth beast.
If you like the 'other' party you are beautiful in conduct and writing.Thank you for that...:)
Tun.
Like always,I chose to be an uncouth beast in delivering the message.

There is a moral and a legal principle that needs to be upheld here in this proposal by the UN. It is an age old principal in international law which prohibits the acquisition of land through occupation and through acquisition by military force. It is a breach of this principal which is at the root of the problem of the Palestinians in an occupied state of Israel (a theocracy disguised as a parliamentary democracy).

This problem has endured for decades and the world body by its flawed composition especially at the UN security council has allowed the continued abuse of rights by the state of Israel and the breaches of international law by the state of Israel against the Palestinians and their Arab neighbours to go unpunished for so long.

The last time there was an international boycott of the state of Israel, it hurt those companies and states that traded with the state of Israel. It was highly effective till leaders of third world and developing countries were bribed, weakened and compromised by the west to drop the boycott and to withdraw the UN resolution that Zionism is racism. Even the Arabs (new regimes agreed to the resolutions led by the Saudis and Gulf Arab states)

A new generation some 35 years later attempts to revive the use of trade and cultural boycotts as tool of pressure to force Israel to review and abandon its unlawful treatment of the Palestinians and to comply with international resolutions.

More importantly the boycotts attempt to precipitate an internal debate amongst Israeli's themselves into changing their society to be more compliant with international human rights obligations and standards.

The oil embargo of South Africa and Israel in the 1970's unfortunately brought into existence a class of opportunists amongst mainly the leaders of middle eastern states like the Shah of Iran and the sons of King Faisal (himself an honourable man). There were also many of the newly formed Arab Gulf states, who at the behest of the British were content to break the embargo and to sell oil to third parties who would on sell the embargoed oil onwards to south Africa and Israel or to their backers. Kuwait and the UAE being two of the others. Singapore acted as a middle man broker. (Professor Anthony Sampson (Sovereign States, the Arms Bazaar and others).

The proposition that some island in the region could resolve this problem is preposterous. The fact of the existence of the Palestinians within close proximity to the state of Israel is in itself considered a threat to the Israelis which the Israelis will not tolerate is at the heart of the drive to kill or drive the Palestinians as far away from Israel as is possible. Its is state policy rooted in Deuteronomy in the Old Testament.

Israel exists and its existence is justified not only by the Holocaust but by the fear mongering and siege mentality the state promotes amongst its citizens. It is not by the political argument of whether the Palestinians have a right or no right to exist somewhere else. The Palestinians

are simply a bogeyman and a convenient scapegoat to dangle in front of Jews who oppose the existence of the state of Israel in its present form.

The Israeli's have after all for decades pushed the idea that the Palestinians should migrate en masse into Jordan where after all nearly 60% of the population are Palestinians and call it their homeland. And when the Palestinians attempted to retake parts of their homeland (Jordan) in 1972, the Americans at the request of King Hussein of Jordan dispatched a mercenary force of Pakistanis under then Brigadier Zia Ul Haq (a brilliant commander) to ruthlessly suppress that revolt. For that Zia was rewarded by Kissinger who sanctioned the coup against Zulfikar Ali Bhutto (who he promised to make an ugly example of) installing Zia as President of Pakistan.

The state of Jordan, once Trans Jordan is an artificial entity created by the British and allied powers and can be once more transformed into another state. And Jordan is just next door accessible by the Allenby Bridge and other porous points along their common borders. It is not the point.

Putting the Palestinians on an island of 200,000 acres or more does not cure the defect of the breach of a legal and moral principal that: if you dislike or consider less a group of people you can find such artificial solutions in breach of international law to resolve the problems after taking their lands from them. It is absurd it is wrong. It is an insult to the Palestinians and to all those displaced people who demand a right to their homelands.

It may be okay for Singaporeans because they are runaways, refugees and settlers on someone else's land which they occupy but certainly not for the Palestinians.

The island solution if allowed will justify the acquisition of land by force, by false 'treaties' and by occupation and plunder. The west is in a bind.

Israel is only the second state in the blundering history of the British to have been created in breach of Britain's own constitutional principles of the separation of church and state. The other an equally failed state is Pakistan. Such states never work even with the force of the gun over everyone's head.

What needs to be done is to apply the pressure on the state of Israel and the duplicitous Arab regimes, old rogues who have themselves pawned the rights and the future of the Palestinians with their pious platitudes, their hand wringing and their oil shocks.

The proceeds of their actions have been an open book for all to see. Saudi and other Arab princes and their royal elite plundering their national treasuries squandering it for their perverted personal pleasures in the Casinos and brothels of Europe and the US.

They pay lip service to the cause and defile the teachings of the Prophet Mohammed with their poor example. Not one of the rulers of the middle eastern states save for Iran which is Persia, and without exception, is free of the guilt of having collaborated with the west and Israel to undermine the Palestinian causes in order to receive the protection to keep them secure in their undemocratic positions as heads of state.

There is much angst amongst Israelis themselves about the state of the Palestinians. The Israeli army has suffered record numbers of defections, conscientious objectors, disobeying

orders on the front line and outspoken criticisms about their conduct towards the Palestinians in the name of the state of Israel and their God.

What needs be done is to resolve the problem along internationally accepted principles and not novel solutions which will never ever work. Never.

The Palestinians are a hardworking and resourceful people. Throughout the diaspora they excel in every field of endeavor and continue to dream of their right to a free Palestine. They live comfortably else where the equivalent of many of these proposed island solutions. But it is not their home and it never will be the home they yearn for.

As Suhaila Marzuk, the Palestinian broadcaster and activist once said to a visiting Israeli dignitary who commented about how poor an independent Palestinian state would be:

“I would rather the poverty coupled with my freedom than all the riches and comforts the Saudi and Kuwaiti and Australian societies offer me for my work, because all those comforts and riches are theirs to give me or take away from me as and when they so desire. There I am not free. In Palestine, poor though I be, I will be free. And poverty in those circumstances is a price any Palestinian, Jew or Indian will be prepared to pay if they have any sense of dignity”.

Lets not stray from the principle. Suhaila was a dear friend of mine now resting in peace in a Maronite Orthodox cemetery in Brisbane’s Mount Gravatt. Like her there are many many more to whom the right to freedom and to their dignity is non negotiable. And to us there is an obligation to ensure their right to their dignity and their freedoms because it is inextricably tied to theirs. If each of Israel’s war hero generals could have come to recognize that point in the end, who are we to seek otherwise?

Per GR Kumar February 12,2014

Mr Kumar,

Why are you muddling the waters by painting a broad brush on the Hebrew Nation. Yes, there are the Ultra Orthodox Extremist’s, and Israeli freedom fighters were involved in sectarian violence. Do you really want to go there? Because, i haven’t heard reports of them eating body parts the likes of what is occurring in a neighbouring northern country. There are also organizations like Shavei Israel that have facilitated the return of lost tribe’s. In fact, one of them was from India. My Uncle’s tribe.

You cannot argue, proper consultation when Emir Faizal and King Abdullah ratified the Balfour Declaration at the the St Remo Conference in 1920. To make matters worse. No one forced the Ottoman Empire to support the Nazi’s (Haj Amin’s Muslim Handzar Divisions) by fighting the Allies.

The proposed boycott of Israeli goods in Malaysia should be for a purpose.

Within the context of your forward thinking then it should be to draw a line in the sand that enough is enough of the suppression of the Palestinians after stealing their hereditary lands by the Zionist Jews in 1947 when the British abdicated their duties and responsibilities by giving up their Mandate given to them after the fall of the Ottoman Empire in 1919.

This injustice has been going on since 1947 and the State of Israel was founded in 1949.

Taking up your forward thinking on a solution for this injustice done to a whole tribe of people of many millions which are now displaced throughout the Middle East, it is only logical that a group of nations be made responsible to fund and reclaim a piece of land as big as the island of Singapore, say 200,000 acres at low tide in keeping with your original thoughts on this subject.

The United States, the Western Nations, Israel, the rich and powerful sympathizers to the cause of giving the dispossessed Palestinians a homeland of their own, should head the list.

AND OUR BELOVED MALAYSIA SHOULD BE THE LEAD PROMOTER OF THIS EXCITING CONCEPT OF TUN DR MAHATHIR MOHAMAD. The suppression of the Palestinians cannot be permitted to go on for another 60 years given the fact that the reclamation of a piece of land from the sea next to the Gaza Strip does not need a rocket scientist from Singapore to work out the socio-economics. We only need one good Dr Alfred Winsemius to do the job. You remember the good Dr Winsemius of the transformation of the entreport of Singapore fame.

200,000 acres for say 5 million Palestinians will just fit in nicely. With perks like free-trade zones, guaranteed purchase of manufactures by the UN, a non-aggression pact with Israel, democracy and freedom which the West wishes so much to impose in the Middle East, will

boom beyond imagination within a Palestinian socio-economic system. The whole world will flock in to invest and to visit this new Pearl of the Mediterranean. This must be the hope and the land of milk and honey for the dispossessed Palestinians who have suffered for so long and other Middle Eastern people too.

Tun, your concept is the only practical solution to a quagmire of wrongs heaped upon wrongs and then bound together with super-power politics. There must be an end to this human sufferings which can be brought about by practical means and a win-win situation for all.

The existing enclaves of Palestinians are permitted to co-exist with the Israelis and the new State of Palestine blooms in all its dynamism and intensity of pent-up ambitions and desires for so long.

Let the World gather together as promoted by Malaysia on the Tun's signal concept, to create a new State of Palestine on 200,000 acres of reclaimed land from the sea. The World will benefit. There is no doubt about this. A large part of the Middle East is stabilised in practical terms.

As the Tun said, ' It can be done. '

Your comment is so precise and cute. Like the way you write, humorous and happy. Yes if anyone wants to help anything it is better to do nearest to you and within your capabilities. It is also better to look within than look out. There is this saying "better to change yourself than trying to change the world". Malaysia is now at the cross-road and it will be better if we correct our problem before we look so far away. Racial, and religion problems are all over the world and there is only one that can solve the problem is the creator. So let's start with ourselves by not being judgmental, prejudice and racist. Let's believe or have faith in anything we want to believe or have faith in and don't tell/say others are wrong or right. Let others take or choose their choices and wish them the best.

Let us also start now to be positive, be contented, loving, sharing, aspiration for peace and control or tame our negative emotions, thoughts and influences. If we can start this "paying forward" attitude then we are doing something for man-kind and for world peace.

We should all do what our conscience tells us]

Again.Thank you.You have brought up the issue tit for tat.So it is not worth mentioning.

Tun.

I am appaled to say the least that so called muslimin view Palestinian issues is not their's.

It is all coming back to education.Our basic education.

My first assignment during my studies is "Lifelong learning began in school".

Most student believe and stated that school is physical thing hence education started at the age of 6 year's old.

I stated that education started at school which is not physical that is since our inception in our mother womb.

As we grow's,it is Allah who decided what education that is actually knowledge whom Allah allowed us to own.Most people believing strongly in their capability which is wrong by this Rasullulah s.a.w doa..

"Ya Allah Ya Tuhanku..Janganlah engkau biarkan aku kepada nasib diriku sendiri".

Most of us did not understands what this doa mean.It is actually meant one must do their best in all aspect of life and yet must abide it is not in their will and power who determines thing and aspect of life.It is Allah allowance that is so.

Example.It is downright 'makan bangkai saudara mu sendiri' or belittling fellow muslimin by this statement..

"Hoi.Engkau bila nak kahwin lagi?Nak jadi bujang terlajak?Aku dah nak anak 3 dah.."

Maybe this fellow means well but he transgress in this statement and boasted the fact that he 'made his own destiny' in getting a wife.Making his wife produced babies.Healthy children at that.All in erred thinking he himself 'made' this possible.

A serious transgressing contradicting Al Quran.

Tun.

To lesser extend I could say's that they who cannot 'see' the relevance of Palestinian cause is erred too.They did not study the way muslim mainstream study and most confounding aspect is they rely solely in their power of reasoning as opposed to the Rasululah s.a.w doa that we need Allah guidance in life comprehension and how to live in this world.

Tun.

It is useless to describe to the uninitiated how to perform surgery.The basis of cutaneous,subcutaneous,dermis and epidermis would not 'kick' their thinking.So we leave our explanation of life clinical aspect "To whom it may conscience"..

TO WHOM IT MAY CONSCIENCE

Leave your thinking cap at home and tries to see thing with third eye..

From Surah Al Haj.

YANG BUTA ITU BUKANLAH MATA.TETAPI MATA YANG DI DALAM DADA.

p.s I meant offence to nobody,so none should be offended.

Thank you Tun.

Salam Tun,

what Israel fears the most?

1. Iran
2. Sunni-Shia unity
3. Quranic knowledges/revelations about the Jewish people

Just as Israel put Iran at the top of its enemy list, Malaysia in contra must declare Iran as our preferred partner and ally. Malaysia on all accounts must defend and support Iran without fail in all UN resolutions. To support Israel's enemy should be our number one priority. And it is in my opinion, will be more effective and substantive than the call to boycott Israeli products.

Malaysia should open more trades with Iran and pro-actively support their economy. Give Iran the preferential treatment for all diplomatic ties or business dealings. After all, KL has a twin-city relationship with Khorasan. Already a street nearby KL Sogo shopping complex is named after the Iranian city. We should also encourage PETRONAS to JV with Iranian petrol industry. LUTH should explore business opportunities and place investments in Iran, PROTON can create a new market in that country, our army and intel should work closely etc etc. Malaysian government should buy weapons and computer technology from Iran. It has the best defense and computer scientist in the world. Even the late Steve Jobs was in fact, half Iranian.

Tun and former Iranian President Khatami made an important and a visionary call for Muslim unity, on May 22 last year, to put an end to the Sunni-Shi'a antagonism and conflicts. So far, the Najib government, and Zahid Hamidi in particular, went as far as to snub Tun's peaceful appeal with inappropriate announcements and provocations towards the Shia Muslim. Compare that with Zahid's rather ball-less and rather idiotic response towards the Evangelist Christian DAPist Teresa Kok in the recent CNY video taunts.

Quranic historical revelations about the Jews and the Christians must be exposed and made known clearly to all Muslims, as guidance on how to deal with them and neutralize the ploy

they plant in the Muslim countries throughout the ages. The WW2 hero US General Patton could have escaped assassination by the Jews if he had known what the Muslims knew about the Jewish conspirational and political operating system. The khalifa Umar al-Khattab (r.a.) was murdered because of a tax dispute, where a former Jewish Rabbi and a Christian Arab were among the conspirators. Even William Shakespeare (ShaykhMusafir) had warned us about the Jews in his brilliant plays. Like the many documented historical events, it circles around their obsession with worldly wealth, manifested in their banking system and the spiritual dearth that follows with the cruelty and atrocities they set upon all humanity, the imbalance which is causing much of the trouble everywhere in the world today.

D Tan I don't wish to allow my response here to become a long thread for accusation and counter accusation about who did what. Israel as created by the British under the watchful guidance of Sir Arthur Balfour a staunch Zionist and British member of parliament in 1948. It was called the Balfour Declaration. The original inhabitants of the land then called Palestine a British Mandate were never properly consulted on the British idea of giving that land away to Europeans who identified with Zionism (a political philosophy of the Polish Jew Jabotinsky).

On arrival the European Jews massacred British soldiers and Palestinians alike. Dier Yassin is a prime example of their handiwork.

Four Israeli Prime Ministers as thugs and members of the outlawed Haganah, the Stern gang and the Shin Beth in a series of massacres of innocents including the Dier Yassin massacre.

The British identified Yitzak Shamir, Ariel Sharon, Shimon Perez and the most brutal and barbaric of them all Menachim Begin amongst others in the massacres of innocents.

Yasser Arafat and the PLO the umbrella organization Al Fatah were a late comer to the politics of the middle east. Amongst its members were Catholics, Maronite Christians and yes Muslims. The propaganda was of course like it is today to band them all together as Muslims. A great way of demonizing them all.

George Habash leader of the Popular Front for the Liberation of Palestine who waged war against Israel and its supporters as far away as Italy, France, England, Holland and Canada was a Maronite Catholic.

Abu Nidal who was killed by the Iraqi Secret service in Baghdad was also a Catholic. The names are not Muslim names they are Arabic names.

Yasser Arafat's inner security detail and his force 17 consisted of at least a dozen Yemenite, Moroccan and Iraqi Jews. All Sephardic Jews who suffer persecution and discrimination at the hands of the Ashkenazi majority who rule Israel.

What Arafat and his people did was not invade Israel. They were fighting the invasion of Palestine by Europeans. Theirs was a defensive war and it is a war imposed on them.

Remember that Amal, Hezbollah and Hamas and other Shi'ite militia were created by the Israelis to split the Muslims along sectarian lines and to destroy the secular Sunni led Fatah PLO movement.

They turned against Israel on the overwhelming and compelling evidence that Israel and its Ashkenazis did not care for any secular state of equality but instead wanted to create an Apartheid state for White Jews alone.

India's Jews are one of the oldest Jewish communities in the world. The Jewish tribes themselves are by some historic accounts originally from India, expelled then settled in Iraq and Egypt later declaring themselves a tribe in what they called Israel. Of course that does not fit in with the Ashkenazi view of Judaism which they tout as a white superior blue eyed race in much the same way as Hitler who also borrowed from Manu the Indian philosopher who was also later quoted in the works of Friedrich Nietzsche and other German writers.

Nothing is as simple as you put it. The idea of boycotting Israel is not the same as discriminating Jews who work for the AG as one writer suggests here. It's the state of Israel and not the individual Jew.

Salam, Tun,

1. As I have stated before, “Palestinians’ problems are their own doings (continuous bickering, divided, ‘Sunni-Syiah’ conflicts, etc. since time immemorial) and those responsible to help them are their neighbours (those other stupid and ignorance Arab bloods and their likes!), and not us”.
2. We are too far away to help them meaningfully, and we have our own problem in our own midst that needing resolving! While my heart goes to those innocent Palestinians, Muslims or otherwise, especially children, women, and aged, I could just pray to God to bless them here and hereafter.
3. Back home, Muslims are trying to convert their fellow Muslims. Teachers are trying to convert children into “Taliban” and “Mullahs” (instead of into Doctors and Architects, Engineers and Accountants, etc.), and Ustazs are teaching their pupils that, “suicide bombers are martyrs” (instead of teaching them true meanings of Islam, etc.). We are sending millions of ringgits to Palestinians and what not but ignoring our own living in destitute, hungry, and alienated. Those are my concern. I do not care what I drink or eat (as long as they are ‘halal!’). Hence, where are we heading, really? Heaven or Hell? I see us as just a bunch of hypocrites!
4. Do not get angry with me “buddy”, as I am also “Islam Hadhari.” I have no PHD, just an MCE. Please maintain our humility, nurse our modesty, and treasure our sanity. In the end, we chart our own destiny, with or without money. It is what it is, “buddy”, and I am not here to determine anybody’s destiny.

Sekian, Tun, terima kasih. Wassalam.

P.S.

On a lighter note, my take on Electric Vehicle is that if you were a golfer, you could tell that owning it is b**sh*t. First, you need to purchase it, which is expensive. Then, you have to maintain it, which is messy. Next, you have to charge its battery, which does not guarantee longevity. When it is dying, it is very troubling, and when it is malfunctioning, you are “pening”, as there is no mechanic to make it functioning. I am sharing my experience just on electric trolley and not even on an electric golf buggy! Now, I have discarded those ‘funnies’ and stick with my God given abilities, i.e. to be able to pull my trolley and maintain my flat tummy.

I wonder whether the situation between the Israel, Gaza, and the West Bank, have any similarities with the indian subcontinent.

As i see it. India was once a subcontinent that had large multiracial ethnicities and diversity. A particular religion, i don't know which one. It decided, that it was treated unfairly. Sued for a partition, thus millions died, and were slaughtered. Of course, it was not the fault of that particular religion. The strangest thing is, after they created, their utopia's. The kindness of that particular religion has reduced the numbers down to 3.7%.

Coming back to Israel. On my visit to Palestinian controlled Bethlehem in the West Bank. Christians are treated so well, that they are down to single digit percentages as they leave in droves. They used to be a majority. Similarly, in Gaza. Unexplained deaths of Vittorio Arrigoni (Palestinian Activist), Rami Ayyad (Gaza Bible Society) etc seem all to common. Dear Mr. dtan,
I can safely say that you have a biased view against islam and muslims. Your good christian heart is blackened with misplaced hatred against islam and muslims. You are the modern version of Abu Lahab as mentioned in the holy Quran in Surah Al Matab. You are a one man crusade against the religion of peace, islam, accusing Muslims of killing millions of Hindus in India and Bangladesh through sly and veiled sarcasm. You are even suspicious of the imam preaching hatred against non muslims like you, during Friday sermon in the mosques across the world. I advise you to change your outlook and perception of Muslims and islam by making friends with them and read more books on the religions written by muslims. The Malays say;

I am well aware of the atrocities committed by the Christian Phalangists Militia. I raised the issue with a Palestinian friend years ago and felt very sorry for what occurred. Although, no part, of my involvement, apologized to him for the behaviour of others. This was not the message from Yeshua to love thy neighbour

Ok , Mia Culpa.

Now, since this issue was brought up. Let me ask you. Prior to these incidents. You must also be aware that the Palestinian Militia under Arafat also brought upon themselves the full brunt of the Hashemite Kingdom i.e. on what was referred to as Black September. Establishing themselves in Christian Lebanon before turning it into Hezbollah Land. After the [Shabra and Shatilla\(Sept 1982\)](#) massacre's. This was followed by another butcher feast by Shiite's at the Shatila and Burj-el Barajneh camps(May 1985). Why?

If we could not and have not the abilities to stand up against the persecution of our muslimin brother's we should be very ashamed coming here.

Muslimin must never rest.It is in Al Quran conceptually that true muslimin never rest.

Can you imagine doing this as Al Quran mentioned?

They who could not do this can still do other thing within one capacity and capability.

Do not rest much here in the world.

Rest all you want in hereafter.Dialectic needs concession.

Sorry Tun, Peace Trail tadi tu diasaskan oleh Lauren Booth, ipar Tony Blair bukan Laura Blair. Mohon copy paste:

In August 2008 she traveled to Gaza by ship from Cyprus, along with 46 other activists, to highlight the blockade of the Gaza Strip and deliver hearing aids and balloons to a deaf school in Gaza. Booth was subsequently refused entry into both Israel and Egypt. She said that by refusing her the right to leave Gaza and return to her home country, Israel was in breach of Article 13 of the Universal Declaration of Human Rights, specifically regarding freedom of movement. Booth stated that Gaza is “the largest concentration camp in the world today”.

Since 2012 she has returned on several occasions as the Chair of Trustees with the charity she co-founded <http://peacetrail.org.uk/> delivering assistance to students and families in the region.

Booth appeared at the Islam Channel’s Global Peace and Unity event on 23 October 2010, dressed in loose clothing and with a hijab, declaring: “My name is Lauren Booth, and I am a Muslim”.

Assalamualaikum,

Noted Tun will try my best to boycott the Israeli’s products. Although it is a very long list of irresistible products (<https://lh4.googleusercontent.com/-EEExUPeCxusc/Uvm-gvsa3I/AAAAAAAAAKjo/u9N3tH71Sp0/s9999/Boycott%2520Israeli%2520products%2520list%2520-%2520Melaka%2520Bandaraya%2520Warisan%2520Dunia%2520gotomelaka.blogspot.com%2520Malacca%2520World%2520Heritage%2520City%2520UNESCO%2520Malaysia%2520save%2520Palestine.jpg>), I like to be sure I am not one of the sponsors for slaughtering of the Children of Palestine.

Great effort by Laura Blair, visit: <http://peacetrail.org.uk/>

There was a TV documentary last night on the Australian national broadcaster the ABC (Australian Broadcasting Corporation) about the detention of children by the Israeli army in the occupied territories and in the Palestinian Territories supposedly given by Israel after the Oslo accord to the Palestinians in exchange for peace.

What they do is to pick up children from their beds kicking and screaming because the soldiers kick them and their mothers and anyone else who comes in the way with guns pointed at their heads. All this in the middle of the night. All of this by armed Israeli soldiers, all this in the name of protecting Israel in Palestine by a race of people who claim to have been the only victims of Nazism.

On each of these occasions the justification is that there had been a complaint by a Jewish “settler” (read an illegal Jewish occupant of Palestinian territory) that the child is suspected of throwing stones at them. There is no proof, no identification, no evidence capable of being admitted to any court let alone a military court. But Children are molested, tortured, kept in cages outside whilst it is snowing and beaten, starved and electrocuted. All of this whilst Ban Ki Moon who the US Jewish lobby pushed to be made UN secretary general remains mute and delicate in his condemnations of his masters the IPAC or the US Jewish lobby.

During the interview in the ABC programme there were Israeli officials who admitted to the arrest and detention of children against all norms of human decency and international human rights especially the rights of the child. One Israeli state official goes so far as after admitting to it, saying they were doing their best to prevent it happening again.

More disturbing the cameras of the ABC film Jewish settlers shooting at unarmed Palestinians children returning home from school. Injuring one in the head. On none of the film clips does one see a provocation by the Palestinians. All of a sudden the Israeli soldiers shoot tear gas at young school children going to school. Israeli soldiers on patrol in the area do nothing whilst the Jewish settlers shoot unarmed children.

The son of a Holocaust survivor a former Jewish military commander explains the tactic used by Israel. “It is to harass the non Jews out of the area and to show them that Israel is in control”.

Not all Jews, not all Israelis believe in the legitimacy of the state of Israel or of its tactics and its treatment of Palestinians. A growing number question their government and its reasons for funding and supporting the fanatical settler movements. But they are only a growing voice and not the majority sadly.

The real majority who support this form of Nazism are the rest of us who remains silent and join in the demonization of the Arabs and through them Islam as a religion. We meaning those of us who support the Americanization of Malaysia, of the rest of the world and who chant slogans and write articles that defame Muslims and Arabs.

All three of Israel's great generals from the first, Moshe Dayan to Yitzak Rabin (felled by a Jewish terrorist settler's bullet) to Ariel Sharon admitted in the end: There will be no peace till Israel gives back land to the Palestinians and accept the inaccuracy of their slogan: "A land without people for a people without land".

The boycott of south African trade felled the equally powerful and western supported Apartheid regime. The boycott of Israel will do the same.

However with the Saudis and Gulf Arabs quietly supporting them on the side, Israel will continue to survive, thrive and ill treat the Palestinians.

Saudi Arabia's F15 fighters till quite recently was serviced at Israeli Airforce bases flying there via Switzerland changing their colours and decals in Switzerland.

Saudi and Gulf investment money is fuelled via Jewish Bankers in Europe and often finds its way via Israel to investments in the US and elsewhere where equipment is made and sold to persecute and torture Palestinians.

The conduct of Israel is not only shameful, it legitimizes what the Nazis did to them in World War 2. It is a sad indictment of a people who claim to have been persecuted for no reason throughout history.

Assalamualaikum Tun.

Tahniah pada Datuk Mukhriz kerana kembangkan amalan kerohanian seperti program Kedah Berselawat.

Kepada Encik Ahmad (ahli PAS) yang mengatakan pelajar pelajar didesak menghadiri program kerohanian itu dan berkata itu tak sepatutnya berlaku, kerana ia adalah perlu atas kesedaran diri sendiri....apakah Encik Ahmad berniat mahu mengajar saya supaya jangan bermotosikal selama 45 minit ke tempat kerja saya setiap hari?

Encik Ahmad, encik ahmad....

Terima kasih Tun.

Salam Tun,I agreed to your preamble in the write up but I find to solve Palestinian issue is not appropriate.The Israel population of less than 10 million do not required huge trade to survive their basic needs.We need to do more than that.Thus any trade sanction will be of limited percuniary effect to the state.After all the American can supply their economic need. My suggestion is as follows.

1. Restrict the migration of jews,or movement whether inter countries and intra countries.
2. Restrict capital and money movement so that their most important resources will be curbed.
- 3.The financial market must be free of interest,unreasonable financial instrument and manipulative traders
- 4.The EEU and US must guranteed that the existence of Israel will not compromise the securities of its neighbour.
5. Encourage the reasonable and far sighted jews the importance of living in peace and harmony and based on the holy scripture these seemed to drag until the judgement day. There are many other ways,but I will be accused of anti semetics and racist to the core,but how do we ensure global peace and securities.The president of America whether republican and democrat seemed to unable to solve.At the most it is mere window dressing diplomacy.Yes ther was holocaust(mass murder of 6 million jews) but two wrong does not make one right.

Can those powerful persons,countries,organisation do some thing about it. 6 million more innocent must die to pay the price for world peace and harmony.

I rest my case Tun.I hope only devine intervention could stop this brutalities.

It does not really help to boycott Israel.

In the real world, if one is not advance, well educated, rich and possess great military power, no one is not going to pay attention.

Imagine, if Malaysia possessed a great fleet of battleships, fighter jets, submarines or maybe nuke, a sniff from the PM could cause turbulents in the region. I am not suggesting one should resort to threatening but this is how the real world works.

Guess that Islamic world has lagged half a century in doing so and from what I see they are still remain stagnant.

Malaysia could be a great country but at the rate we are going, we will be still lagging those great power countries in term of income, education, public utilities and military power.

Boycott Israel Product ? ? ?

What product when we have in mind , when we now are using one Israel Technologies as in the Internet , World is using now
IT IS BORN MUCH BY THEM

The best option to me is to Copyright their product
ILLEGALLY TO LEGALLY IN MALAYSIA
As much as in the CD,Perfume ,Cosmetics , Clothing ,etc

WE MAD THEIR PRODUCT ILLEGAL TO THEM LEGAL TO US
AS MUCH AS THEIR DOINGS OF ILLEGALS
U.S RECOGNIZE AS LEGAL

China is BESTS for COPYRIGHTS
WE MUST ENCOURAGE CHINA TO PRODUCE MORE COPYRIGHTS

Tun,

I think Israel was created to fulfill the Bible prophecy and as it is not a natural occurrence and a forceful occurrence, so it won't last. The reverse of this forceful and unnatural is already starting to appear and wait a little longer you will see the true result and the magnitude of the reverse force. Look at US homeland security policies and their bullying around policies, it is also backfiring too as now the terrorists are within rather than from external. American school kids and street gangs kill more than any bombing. In Malaysia the unnatural things done by the Govt are also backfiring. Trying to divide and rule and using religion and race as propaganda tools are backfiring. Negative energy/force can never sustain only positive energy, attitude and thoughts are sustainable because positive energy makes people happy and happy people don't fight but continue to be happy, working, living and smiling.

Don't worry be happy

the Quran already mentioned about the Jews and their intentions.
one option to help Palestine is by visiting there and put our donation there; visit to Al Aqsa Mosque will open the Muslim's eyes.

if we study the history, the British with its alliance were the one who helped to open the Israel state. the alliance here is including the horse battalion from Australia. The one who defended the Palestine state was the German army and the Ottoman Empire army. well, the history was not been revealed enough....(
