

## **Boeing Technology – What Goes Up Must Come Down**

**Chedet.cc**

**18 May 2014**

**Tun Dr Mahathir Mohamad**

1. What goes up must come down. Airplanes can go up and stay up for long periods of time. But even they must come down eventually. They can land safely or they may crash. But airplanes don't just disappear. Certainly not these days with all the powerful communication systems, radio and satellite tracking and filmless cameras which operate almost indefinitely and possess huge storage capacities.
2. I wrote about the disabling of MH370's communication system as well as the signals for GPS. The system must have been disabled or else the ground station could have called the plane. The GPS too must have been disabled or else the flight of MH370 would have been tracked by satellites which normally provide data on all commercial flights, inclusive of data on location, kind of aircraft, flight number, departure airport and destination. But the data seems unavailable. The plane just disappeared seemingly from all screens.
3. MH370 is a Boeing 777 aircraft. It was built and equipped by Boeing. All the communications and GPS equipment must have been installed by Boeing. If they failed or have been disabled Boeing must know how it can be done. Surely Boeing would ensure that they cannot be easily disabled as they are vital to the safety and operation of the plane.
4. A search on the Internet reveals that Boeing in 2006 received a US patent for a system that, once activated, removes all control from pilots to automatically return a commercial airliner to a pre-determined landing location.
5. The Flightglobal.com article by John Croft, datelined Washington DC (1st December, 2006) further mentioned "The 'uninterruptible' autopilot would be activated – either by pilot, by on board sensors, or even remotely by radio or satellite links by government agencies like the Central Intelligence Agency, if terrorists attempt to gain control of the flight deck".
6. Clearly Boeing and certain agencies have the capacity to take over "uninterruptible control" of commercial airliners of which MH370 B777 is one.
7. Can it not be that the pilot of MH370 lost control of their aircraft after someone directly or remotely activated the equipment for seizure of control of the aircraft.
8. It is a waste of time and money to look for debris or oil slick or to listen for "pings" from the black box. This is most likely not an ordinary crash after fuel was exhausted. The plane is somewhere, maybe without MAS markings.

9. Boeing should explain about this so-called anti-terrorism auto-land system. I cannot imagine the pilots made a soft-landing in rough seas and then quietly drown with the aircraft.

10. Someone is hiding something. It is not fair that MAS and Malaysia should take the blame.

11. For some reason the media will not print anything that involves Boeing or the CIA. I hope my readers will read this.

Means, Motive, Opportunity are the three questions asked by Detectives. Who in the world other than the top intelligence agencies have the ability to carry off this hijacking? Please name the Alphabet soup agencies? CIA, British SAS, French CIA, German Intel, and what about the Japanese Yakuza? What was the motive of crime? Does it have something to do with Carlyle Corporation and their Employees Patent Rights? The Law of Averages is that Carlyle and the CIA or other American Military Assets were involved and also follow the money and ask yourself “Qui Bono?”

55. Even uitm is opened to other races, they do not want to be with them.

56. Young malaysians of all races have so many choices of public, semi-private, and private [higher education](#) in the country, why waste time to change your mindset, anti-jiboak?

57. Without the support of other political party to supports to membasmikan kemiskinan bumiputra garnered by the 4th pm in the federal parliament, you think you can talk big here?

58. Change or be changed, that is the trend.

59. If anti-jiboak racist to me as chinese, he can be racist to other malay not from his kampung in the name of your faithbto Allah, it wont hurt me as malaysian because I

accept and respect democracy of 1 person, 1 vote tanpa vote bribing or fear mongering.

60. To be or not to be, the young malaysians will show you the result in next ballot boxes.

61. If anti-jiboak is fearless, do it in pau.

62. To vote umno or not, let voters decide, habis cerita.

46. Burgerking, classified is a general term for case to be investigated as a separate issue since mr obama is the 44th democat president for the americans, investing money on the soil of malaysia to improve bilateral trades.

47. This mh370 case is complicated, and take time.

48. Just like malay seling ramlee burgers in front of shop lots or roads, non malay and mppj treat this case as classified, kita mana ada kacau mereka to buat bisness?

49. After 54 years of independence, still hear sharizat and razali ibrahim calling dyna a malay traitor not only a shame to umno, it is a shame to malaysians of all races.

50. As 4th bapa to umno, I can feel how he tries his very best to protect these umno putra, puteri, wanita and puteri.

51. As bapa he can maaf them, but malaysians cannot forgive and forget what they have done in the past.

52. As malaysian, I feel proud and energetic to see a young lady like her has the courage to breakthrough ketuanan melayu.

53. This shows that young malay no longer need political protection.

54. They do not want to be spoon feed anymore, it is a good sign for malaysia to progress to be the developed nation by 2020.

Hi there.., Hantu Bukit Tinggi 456..,

24. Hopefully..., Dr. Mujahid Yusof Rawa (from PAS) tak kena belit atau kena telan by those Ular Sawa from DAP.
25. UiTM terrorised and violated nothing other than telling the real picture as it is. OK..!?
26. What do you mean 'non-Muslim colleges'..., huh..!?! Have UiTM ever claimed to be a 'Muslim' college..! Your idiocy is beyond measure.
27. There's nothing wrong with the UiTM seminar..., only plenty wrong with malaysiakini.com..., who are the silly 'Spy-Leman' and Spin-masters of those damn DAP kiasus.
28. Yes..., Muslim Brotherhood and ISMA can work together..., meh..! What's your problem..!?
29. If bomoh pakai pin 1-Malaysia..., and can do his 'product demo' at KLIA..., then you think if that bomoh pakai pin/label UMNO..., then he go inside the KLIA Control-Tower ka..? Lu moloh punya jibaok-kiasu..!?
30. Don't spin again & again maah...! You are the one who really think that Malaysians are stupid..., as rebutted earlier..., meh..!
31. Yes..., instead of participating in street demonstration, the best way out is to show our civility is through the ballot boxes..., that have continuously returned UMNO/BN back into power over and again..., thank God-Almighty.
32. Wrong..!! So many domestic crimes are NOT done by those immigrants..., but committed by those streets & bangkang dari longkang demonstrators, causing misery & hardship to many..., as perpetrated by those Penipu Rakyat (PR) proponents such as in Bersih 1.0, 2.0, 3.0..., etc..., etc..
33. Yes..., in the end, taxpayers of all races need to pay for gaji PM, all Ministers as well as those Members of Parliament from the pakatan Penipu Rakyat.
34. Singapore PAP is definitely NOT smarter and wiser than BN because they offer citizenships to those poor Chinese nationals from China to take-up jobs such as housemaids and taxi-drivers..., in their government's filthy strategy to counter-balance the rising birth-rate of the Malays in Singapore. However, it is back-firing though..., because those Chinese nationals are not easily adaptable nor easily 'controllable'.
35. Yes..., non-Muslim from MCA or MIC need not want to be PM of Malaysia..., however those damn evangelical DAP kiasu Chinese are always eyeing to be the PM of Malaysia..., even though they have to make-use of that Anwar Al-Juburi and having to 'kowtim' with PAS.
36. But good non-Muslim (Kafir Dzimmi) certainly have the basic human right to vote for the government of their wish..., but those bad non-Muslims (Kafir Harbi) like yourself and your kiasu DAP colleagues should be given a good swift kick in the groin to make you people come to your senses and behave as good non-Muslims.

37. Yes..., stick to the Federal Constitution, make sure those Kapir-kapir Harbi like yourself never gets into power in Malaysia. Understand..!?
38. UMNO/BN need not use quantitative measure to stay in power..., but provide good governance..., as always.
39. Some immigrants need not pay a single cent to the state or Federal Government..., because life is not all about MONEY..! Understand again..!?
40. They come here to work, and they send the money back to their countries..., but they pay also taxes and hefty work levies.
41. Despite massive money leaving the country annually..., but then are you willing to work in their place..., as bar-benders, concretors, carpenters & general workers at our construction sites, to build the houses as the one you are living in now..., or those huge sky-scrappers in our cities. Or..., perhaps you would like to work as a waiter in the Mamak shop on a 12-hour shift, 7-days a week..., or perhaps as a [janitor cleaning](#) public toilets in untold number of buildings. Only baghal kiasu DAP like yourself yang pandai cakap-kosong tapi mau bikin langsung tak boleh. Lu empty vessel punya jibaok..!
42. Nobody wants to contribute taxes to any corrupted government..., but taxes are taxes and kiasu like you wiil still have pay..., maah..!
43. Boeing technology..., shall not apply to Malaysian politics..., meh..! OK..!?
44. Property, Education and Investment costs can all come down or even come to a standstill..., if rioting or civil-war happens or some huge war breaks out. Where will idiot kiasu DAP like you hide if such a situation happens..? So..., be grateful and cherish what you now have. Ada paham lagi..!?

Cheerio for now..., Hantu Bukit Tinggi 456.

Salam sejahtera Tun....

1. Sementara Tun menyalahkan Boeing dan CIA didalam kehilangan pesawat MAS MH370;

PM telah membuat pengakuan melalui penulisannya di laman WSJ bahawa memang terdapat kelemahan dipihak kita pada permulaan pencarian.

2. Saya ingin menambah lagi disini bukan saja terdapat kelemahan pada peringkat permulaan pencarian tetapi kecuaiian daripada pegawai-pegawai penguatkuasaan menjalankan tugas; kurang kerjasama diantara pihak radar militari dengan Menara

Kawalan Udara (ATC) dan MAS turut membantu kehilangan pesawat. Disamping itu terdapat kelemahan keatas sistem imigresen dan penguatkuasaan diseluruh pintu masuk kedalam negara. Kita harus akui kelemahan-kelemahan ini dan diperbetulkan dengan segera.

3. Lazimnya bila berlaku kesilapan-kesilapan manusia yang akibatnya memudaratkan harta benda negara dan nyawa tidak akan ada sesiapa yang akan mengaku kebertanggungjawaban. Penghidupan pun diteruskan seperti tiada apa yang berlaku.

4. Saya setuju diatas rumusan Tun bahawa ada pihak yang hendak menyembunyikan sesuatu mengenai kejadian hilangnya pesawat. Dalam hal ini kerajaan harus bertindak tegas jika ada kebarangkalian pihak yang merupakan gunting dalam lipatan.

5. Saya pun setuju dengan Tun bahawa usahlah kita menghabiskan masa dan wang mencari benda yang tiada ditempat yang salah.

6. Kita boleh jimatkan tenaga dan kos dengan mengambil pakar-pakar tempatan dan bekerjasama dengan China dan Boeing untuk duduk semeja dan merubah hala tuju. Paling penting Malaysia dan China harus bersatu hati didalam pencarian ini.

Since MH370 disappearing..

Through watching youtube video's recent, I am lead to believe Boeing supply the US and other militaries with military fighter jets. This latest video I discovered, showed and described the latest military weapons as Fighter jet with advanced Radar Scrambling state of the art weaponry.

So how many of these type of fighter jets where in the "Cobra" exercises(you can watch all the fighters "armed & heavily weaponised" on Youtube ) "unclassified" or the alternate exercises, conducted in Thailand mysteriously at the time MH370 disappeared.

I find the scenario, transponders and all communications switched off and the sudden climb, to 450 (45,000 feet) ...

Could suggest that the pilots of MH370 had detected a missile locked on.

I make this assessment after watching the Korean airlines shot down by a Russian Fighter plan years ago. SO now it gets sensitive. Could Boeing's latest military technology or older technology;make a fundamental mistake?

Perhaps a trainee; got it wrong somehow? This has happened before.

Why would Obama declare; MH370 “classified” if there is nothing to hide and everything is transparent.

Also with interest reading news on ; I am lead to believe that China’s radar systems detected recently....  
presumably one of these new “stealth” fighter jets ; US based in Japan and because it was not publicised; Under some law had it removed from the area; on grounds of intimidation of a nation or enemy.

I have no idea of the accuracy of what I have viewed or read on-line; but these sources appeared credible.

This flight isn’t just about MH370 and their families. All citizens who use [air travel](#) are entitled to SAFE air travel; Most definitely to know where your loved ones are; alive or not at the end of their flight. I feel we the Global Public community have not been told all the facts; including the Cargo Manifest; The 2 Tonnes, unclassified/documentated; with lithium batteries consignment. Perhaps this was either illegal cargo or “classified” cargo, which if it was should not have been on a Civilian flight – period.

Assalamualaikum Tun.

Terima kasih pada saudara pengarang kerana megembangkan penulisan saya di blog ini ke media akhbar.

Terima kasih. Lagipun saya belum lagi terbuka hati untuk menulis di akhbar, mungkin kerana berasa kekurangan dari segi maklumat penulisan. Menulis juga perlu pada maklumat yang sah dan berada dalam kelompok apa yang kita tulis.

Tidak menjadi masalah pada saya.

Terima kasih Tun.

Assalamualaikum Tun.

Mungkin ini adalah rancangan seperti 9/11. Ia diadakan untuk memusnahkan musuh di Negara Arab. Mempopularkan perkataan terrorism dan Islamofobia.

MH307 diadakan untuk mengimbangi kebangkitan China dan India di Asia. Tetapi rancangannya kelihatan tak berapa sempurna kerana MH307 dikatakan ended di Lautan Hindi.

Sepatutnya MH307 ended di Lautan China Selatan.

Yang jadi terbeban adalah Malaysia kerana terpaksa menanggung kos pencarian walaupun tak sepenuhnya. Namun saya fikir ia tak mendatangkan kemudatan yang sangat, sama seperti peristiwa Lahad Datu.

Sebenarnya, sebelum kejadian MH307, kedua dua mata saya sudah berkedip kedip lebih kurang 2 minggu sehinggakan saya mengeluh sedikit, apa petandanya?

Orang tua tua kata, ada orang jauh nak datang. Tapi yang pasti saya melakukan sedikit google, dan takdelah pulak mengatakan akan bersedih berdasarkan kedipan tersebut – sekadar selitan

Jumpa atau tidak MH370, ia tak mendatangkan kemudatan sangat pada Malaysia kerana ia tertumpu pada Lautan Hindi dan Australia.

Cuma ia melibatkan kos dan kewangan negara. Pada ekonomi mungkin ia tidak memberikan kesan yang sangat kecuai pada MAS. Industri pelancongan tetap berkembang.

Keselamatan negara tetap terjaga kerana semua orang tahu yang Malaysia cuma negara Islam yang kecil. Radar pun guna yang murah. Kapal selam pun kecoh dikatakan tak boleh menyelam.

Malaysia tak ada apa apa pun.

Terima kasih Tun.

43. BOEING TECHNOLOGY – WHAT GOES UP MUST COME DOWN

44. Property, Education and Investment costs just like Boing Technology will never come down too because there are accumulated from the start until today.

10. HBT456

May 19, 2014 at 5:45 PM | [Permalink](#)

32. So many domestic crimes are done by these immigrants.
33. By the end, Federal taxpayers of all races need to pay gaji PM, all Ministries and penceen involved.
34. Pakcik Mubarak Chan, Singapore PAP is definitely smarter and wiser than BN because they offer citizenships to rich and educated people.
35. Non-Muslim will never want to be PM of Malaysia because of the official religion.
36. But non-Muslim certainly have the basic human right to vote for the clean government.
37. Therefore, stick to the Federal Constitution, either one of the coalitions that has the most votes will form the Federal Government.
38. BN can choose to use quantitative measure to increase the population of Malaysia.
39. But these immigrants do not pay a single cent to the state or Federal Governments.
40. They come here to work, and they send the money back to their countries.
41. This is one of the factor why there is massive money leaving the country annually.
42. Just ask yourself, who wants to contribute taxes to corrupted government like BN?

The next step is “who can silent Boeing and the CIA ?”. Eustace Mullins told that since the very beginning finance had its agents in the CIA :

<https://www.youtube.com/watch?v=Dh2GPSjyAUo&noredirect=1>

I guess only Rothschild can silent both Boeing and CIA. Rolls Royce is involved too, as a commentator wrote. As I wrote you after another of your articles, I send mails for I am sure it is a monstrous plan which was done to target Bill Gates, Ginni Rometty (IBM’s CEO) and Jim McNerney (Boeing’s CEO). As long as the zionist lobby is protected, as long the truth can’t be done. Have you seen what they write on the demise of America ?

<http://ddata.over-blog.com/1/67/15/03/2014/042014/Scales.pdf>

<http://ddata.over-blog.com/1/67/15/03/2014/042014/Scales-a.pdf>

This seems to me a huge occasion to address reincarnation’s patterns. I ignore if you appreciate Edgar Cayce. He told the same persons are at the same period of time on earth. I guess Salem witches trials damaged many families and we are now on a

period of time during which it has to be cared. Giles Corey's death was public and long to come. So would have been the social deaths of the three persons I name if Philip Wood had not sent his message, if false flags had happened. They were in the making with both 777, the Malaysian one and the GATEsis which is in Tel Aviv since last November.

Look here :

<http://ddata.over-blog.com/1/67/15/03/2014/Mai-2014/MH370-mail-sur-aspect-reincarnation-Salem.pdf>

and here :

<http://ddata.over-blog.com/1/67/15/03/2014/Mai-2014/MH370-envoi-armee-us-notamment-18-mai-2014-1.pdf>

I sent both these mails to the CIA. They know I do so, and to very many persons. Don't say a word. They are on my blog. It is clear Malaysia is not responsible. Neither is Boeing, neither the CIA. It is Rothschild's mafia.

I would say the Yanks have always been playing a cat and mouse game with the world. Besides the CIA and Boeing, no mention was ever discussed about Diego Garcia, the Yanks secretive base in the Indian Ocean. But then the engine was Rolls Royce, they should have something to say too?

If Saddam was found hiding underground with technology they have why cant they find MH 370?

The plane is somewhere but not beneath the sea?

Tun if you were still at the helm now, a lot of unanswered questions would be answered and eyes and ears would be opened.

Thank you Tun

Kehilangan Pesawat MH370 : Pandangan Daripada Aspek Politik

Terdapat dua fakta penting yang menjadi asas untuk memahami misteri kehilangan Pesawat MH370. Pertama, Pesawat MH370 telah menukar laluan dengan sengaja daripada laluan asalnya dengan cara yang sangat teratur dan terancang serta dapat melepaskan diri daripada dikesan oleh sistem radar.

Kedua, sehingga kini, kerajaan Malaysia masih belum dapat menemui pesawat MH370 walaupun usaha pencarian begitu giat dilakukan dengan menggunakan pelbagai jenis teknologi serta usaha pencarian turut dibantu oleh beberapa buah negara termasuklah dua buah negara kuasa besar iaitu Amerika dan China.

HBT456..,

12. Who cares if you pay your measly income tax all these years, which is not even enough to pay for ones day's worth of detergent to clean & upkeep for just one of DBKL's public toilet.

13. When GST is implemented, you can continue to complain and participate in the (bangkang dari longkang) street demonstrations.

14. Not only Tok Det but Yours Truly here shall continue to point fingers at the Boeing company for their inequity and the 'Sindrom Bisu' in the missing Flight MH370 issue.

15. Those who fail UMNO (like e.g. Mat Taib – Cash & Carry) must be sacked while new fearless and committed leaders scouted for & groomed to fulfill the nation's Restructuring of Society objectives.

16. The words such as 'racists' and 'anti-Semites' are actually words coined by those damn Zionist rascals which have been deceptively used by silly jibaoks such as HBT456.

17. Laughing is still the best medicine in observing the silly antics of idiots in the likes of HBT456 who simply loves to – Baling batu, sembunyi tangan & tuding-jari kepada orang lain..!

18. Inflation and age will never come down..., while the idiocy and psychotic syndrome of HBT456 shall never cease.

19. Stick to the most reliable and proven ruling party is the best promise for future generations..., and don't take unnecessary risks with unproven and unruly parties who gang-up as a mere marriage of convenience.

20. Today, the younger generation can be doomed and compelled to repeat and face grave consequence if they do not learn from past history.

21. Today, many parents do not guide and lead their children by good examples, but would pamper and succumb to the antics and fancies of their children, as exemplified by the morally degrading and hedonistic Western societies that have now gradually crept into and emulated by many Eastern societies.

22. In the past, Orang Barat bagi candu (opium) kepada kaum Cina dan arak-todi kepada kaum India untuk 'menghanyutkan' mereka.

23. Today, masih lagi ada kaum Melayu yang 'ketagihkan' rasuah dan 'nyanyian politik sumbang' daripada kaum Cina jenis yang kiasu.

Ada apa-apa lagi lu mahu tambah ke..., wahai..., Apek/Ahso kiasu..., HBT456..!?

18. *sudin*

May 19, 2014 at 12:34 AM | [Permalink](#)

Salam Tun.

The more we hear and then deduce own assumptions on the circumstances to MH370's disappearance, that's exactly the way the real perpetrators are counting on.

I'll stick to my earlier belief, that the MAS Boeing 777 was carrying some very highly sophisticated and invaluable material/component, which culminated to its annihilation together with everything it's carrying (including all the dead passengers and crews).

It was most unfortunate that flight MH370 was chosen by someone/agency/government to put on board that sophisticated item, and worse still was when some other very interested party were made aware the item/s whereabouts.

All other happenings and reporting of whatnot were actually prearranged/planned to make logical diversion of the actual drama.

I'll copy & paste my earlier comment, which was posted about a month ago:

“The tragic event can be arranged to happen to any plane anytime, irrespective of made or nationality. All it takes is for that plane to carry something of paramount importance.

“The general believe on MAS MH370’s disappearance has long ago changed,  
1. that all communications systems (including to h/phones) were disabled immediately after the plane’s trekking was neither monitored by Malaysia nor Vietnam,

2. that the plane’s flight path was then fully remote-controlled to a specific destination, by a nation with high tech capability,

3. that the plane were dismantled and completely dissolved, together with everything inside (including all the dead bodies), less the items of interest to that nation.

“Almost 2 months and still zero findings on anything related to the plane, the luggage or plane parts, because everything has perished indefinitely since day 3 the plane was reported as missing.

“No more than 2 days is required before the whole vanishing act is put into action.”

19. *Hajar*

May 18, 2014 at 11:39 PM | [Permalink](#)

Dearest YAB Tun,

1. From the beginning, I noticed that Malaysia and MAS are made to be the ‘kambing hitam’.

2. Our acting Transport Minister and PM will not have the guts to question Boeing and the superpower.

3. DS Hishammuddin already said that Boeing has been very cooperative.

4. When asked about the possibility of Boeing 777 having the [remote control](#) ability by a third party, DS Hishammuddin DENIED it without even doing any research on this matter. In my opinion, he is only good at denying things, and also good at talking. DS Hishammuddin is not good at having things done if some ACTIONS need to be taken. He is also very good at giving warnings (‘Menteri Amaran’).

5. We need leaders like Tun – FEARLESS.

Thanks Tun.

\*\*\* May ALLAH SWT bless Tun and family \*\*\*

Thank you Tun for pointing this patent.

[The patent](#) is verified true. Check out this link <http://www.google.com/patents/US7142971>.

I know... any system engineer would be very excited if they could design or create this type of system... They would feel being on top of the world !

Just like nuclear, all good system has drawbacks. Human creates but his creation could not be greater than his creator. Human has thinking limitation. If we look carefully the system, it is good but it has limitation. The limitation of that system is that it is not robust. It does not consider every possible scenarios that could happen. The system allowed the authority on the plane to be transfered from human pilot to non-human pilot and non-pilot human unnegotiable or automatically. The weaknesses of this system is at the remote-end.

We have many crazy system that is inter-connected with the world. Eventually, the system could not handle unauthorised intrusion, which intend to take over the control of the system remotely and illegally.

An infamous example of unauthorised intrusion is the penetration of Stuxnet malicious software into the Iran nuclear plant from some remote location. Iran was using the famous Germany "Siemen" software and hardware and Stuxnet was created by Israel and American agencies. It could cause serious nuclear accident.

Suppose, MH370 was equipped with "System and method for automatically controlling a path of travel of a vehicle" , it is possible to remotely control the plane illegally.

BOEING has a big explanation to do.

Tun

As far as I am aware, the United States has the technology to fly a pilotless plane to land and take-off for some years.

12. Don't worry Tuntuah, I have been paying taxes all these years since I came out to work.

13. When GST is implemented, no need to bribe voters ala BrIM to get projects.

14. Nanti Tok Det ingat Boeing yang salah pulak kerana orang kuat UMNO yang beliau pilih mesti popular, tak faham technical and engineering words dalam bahasa Inggeris pun takpa janji menang.

15. Those who failed United Malay National and caused this party loose so much votes should bow and apologize not only to the members but also to all Malaysians.

16. Tuntuah, Melayu mana racist. Hanya puak2 UMNO baru saja yang racist saja.

17. Laughing is still the best medicine for this sandiwara wayang kulit.

No accident in politics, be it 'natural' disasters, air/road/sea accident, misunderstanding 'resulted' in wars..... When something happens at specific location at 'strange' occasion in 'mismatch' proportion, including the deafening silence from authorities concerned or experts.  
This author has already point them out, and yet..... frightened cats?

It is pity.  
Even aso mainland secret service cannot unfold this mystery.

Boeing is very quiet from the beginning. They know something and we know they knew everything on what has happen to mh370.

Other things.

Bn has made a bold move not to fill candidate at bukit gelugor. Hahaha. Bukit gelugor folks paling rugi pasal no new development, no new thing at bukit gelugor now until next ge14.

Well done mca, mic and umno baru. No need to spend money at bukit gelugor.

Btw bukit gelugor folks can ask all that from DAPig.... Hahahah good luck lah.. Or please ask from aso the Pendatang as well. Aso paid taxes ma... Hahahahahaha

Huuurrrrah
