

1MDB
Chedet.cc
13 March 2015
Tun Dr Mahathir Mohamad

1. UMNO telah mengadakan majlis penerangan tertutup yang dihadiri oleh sebahagian dari Ketua-Ketua Bahagian pada 8 Mac. Keputusan majlis mengikut akhbar ialah menyokong penuh Presiden parti.
2. Tidak diketahui tentang penjelasan oleh Presiden berkenaan kontroversi 1MDB, yang sedang dibincang dengan meluas oleh rakyat. Bahawa perkara ini dibawa oleh parti lawan, justeru itu ia adalah fitnah belaka tidak mencukupi untuk rakyat menolak tuduhan-tuduhan berkenaan 1MDB.
3. Rakyat masih tidak puas hati berkenaan 1MDB. Mereka bincang perkara ini dimana sahaja. Jika mereka tidak puas hati dan tidak sokong Barisan Nasional (BN) dalam PRU akan datang, BN mungkin kalah. Dan jika BN ditolak, sokongan kepada Presiden oleh pemimpin bahagian UMNO tidak lagi bermakna.
4. 1MDB bukan buat hutang biasa seperti Kerajaan yang biasanya berjumlah hanya ratusan juta sahaja. 1MDB telah hutang berbillion Ringgit. Walaupun 1MDB bukan Kerajaan tetapi ia adalah badan yang ditubuh dan dimiliki oleh Kerajaan sepenuhnya dengan modal sebanyak 1 juta Ringgit. Ada juga jaminan oleh Kerajaan terhadap beberapa hutang 1MDB. Oleh itu Kerajaan tidak boleh dakwa bahawa ini masalah syarikat dan bukan masalah Kerajaan.
5. Kerajaan sudah melantik Auditor General untuk memeriksa akaun 1MDB. Tetapi ini tidak akan menjawab banyak soalan yang telah dikemukakan dan dibincang oleh rakyat.
6. Dakwaan-dakwaan yang telah dibuat terhadap 1MDB bukan berbentuk tuduhan melulu. Ia disertai dengan fakta yang jelas, iaitu jumlah hutang, siapa yang mengurus, siapa yang menerima wang berbillion Ringgit, pelaburan yang dibuat, dimana wang ini disimpan, dalam bentuk apa.
7. Nama Jho Low disebut berkali-kali. Demikian juga nama-nama syarikat miliknya. Tuduhan dibuat berkenaan dengan pembelian rumah mewah olehnya di London, New York dan Hollywood. Lepas itu rumah dijual kepada anak tiri Perdana Menteri dengan harga ratusan juta Ringgit. Sudah tentu ini tidak disebut dalam akaun 1MDB yang akan diperiksa oleh AG.
8. Pada mulanya duit Riza Aziz dikatakan warisan harta kekayaan dari keluarga Tun Razak. Kemudian dakwaan ini dinafi. Soalannya jika tidak dari keluarga Tun Razak dari mana datang wang yang banyak ini. Apakah ianya hasil dari perniagaan? Jika ya, apa perniagaan, dimana? Sudahkah cukai pendapatan dibayar? Kepada Kerajaan mana?

9. Pelaburan ratusan juta untuk filem “The Wolf of Wall Street” oleh Riza Aziz, anak tiri Dato Sri Najib datang dari mana? Filem ini tidak memberi keuntungan. Tidak mungkin filem ini membiayai rumah mewah yang dibeli dengan ratusan juta Ringgit atau Dolar Amerika.

10. Semua perkara-perkara ini tidak akan terdapat dalam akaun 1MDB. Tetapi rakyat ingin tahu kerana melibatkan Jho Low. Dan Jho Low disebut-sebut berkenaan dengan pengurusan 700 juta USD dari 1MDB.

11. Ada yang disebut berkenaan Petro Saudi yang juga menerima bayaran ratusan juta dolar dari 1MDB Benarkah Petro Saudi ini mendapat konsesi kawasan minyak dan gas di Argentina, di Turkmenistan dll. Apa buktinya? Benarkah JV dibuat dengan Petro Saudi sebelum ‘due diligence’ dibuat. Katanya sementara 1MDB melabur USD1 billion dalam JV dengan Petro Saudi, tetapi Petro Saudi tidak melabur satu sen pun. Apa jadi kepada wang 1MDB dalam JV tidak jelas.

12. Apa sebabnya lebih dari 6 billion Ringgit (Dollar) disimpan di Cayman Island? Kerajaan tidak pernah simpan duit di lain negara selain pembelian bond. Apakah bond dibeli? Apa hasilnya?

13. Katanya wang sebanyak USD1 billion sudah dibawa balik dari Cayman dan disimpan dalam bank Singapura. Kononnya Bank Negara menjadi masalah kerana proses menyimpan wang yang banyak mesti melalui proses yang rumit. Bolehkan Bank Negara jelas kenapa timbul masalah sedangkan 1MDB adalah syarikat Kerajaan yang dikuasai oleh Kementerian Kewangan. Jika mudah di Singapura kenapa susah sangat di Malaysia?

14. Urusan Kerajaan pernah dirahsia. Tetapi soal bayar balik hutang adalah public knowledge (dalam pengetahuan orang ramai). Orang ramai ingin tahu benarkah Ananda Krishnan memberi pinjam RM 2 billion untuk bayar faedah ini. Apakah faedah yang dikenakan oleh Ananda? Apa cara bayaran balik hutang Ananda? 1MDB dikatakan untung. Kenapa tidak dapat bayar faedah 2 billion Ringgit.

15. Juga diketahui umum ialah permohonan hutang sebanyak 3 billion dari Kerajaan baru-baru ini. Apakah Kabinet melulus pinjaman yang begitu besar ini? Apakah syarat yang dikenakan? Bagaimanakah hutang ini akan dibayar balik oleh 1MDB

16. Tanah Kerajaan di Jalan Tun Razak dan Lapangan Terbang Sungai Besi telah dibeli oleh 1MDB. Apakah harga yang dibayar? Apakah tanah ini yang dikatakan asset 1MDB? Bagaimanakah dinilai harga tanah ini? Kerajaan berhak mendapat pulangan yang setimpal apabila tanah ini dijual kepada sesiapa pun. Berapakah harga satu kaki persegi. Tanah berdekatan dijual

dengan harga RM7000/- satu kaki persegi. 1MDB juga membeli tanah di Pulau Pinang. Apa harganya. Apa jenis pembangunan yang dicadangkan. Sudah dimulakah?

17. Jika tanah-tanah ini menjadi aset 1MDB, apakah nilai tinggi aset ini disebabkan kenaikan (revaluation) dari harga belian yang murah dan harga pasaran yang tinggi.

18. 1MDB meminjam lebih dari 10 billion Ringgit untuk beli beberapa stesyen janakuasa. Harga yang dibayar dikatakan lebih tinggi dari harga pasaran. Lesen stesyen-stesyen ini akan mati tidak lama lagi. Kenapa tidak tunggu hingga lesen mati sebelum membeli. Harga selepas mati lesen tentu amat rendah. Membeli dengan harga tinggi sebelum lesen mati amat merugikan.

19. Wang untuk membeli stesyen janakuasa dipinjam. Laporan menunjuk komisyen sebanyak lebih dari 10% dibayar kepada Goldman Sachs untuk mengurus penjualan bond.

20. Jika komisyen 10%, 1MDB akan dapat hanya 90% dari jumlah yang dihutang. Tetapi faedah perlu dibayar keatas 100% jumlah hutang. Ini menghairankan!

21. Biasanya hutang yang dijamin oleh Kerajaan dikenakan faedah 3%. Hutang yang diurus oleh Goldman Sachs dikenakan faedah sebanyak 5.9%.

22. Jumlah hutang sudah meningkat kepada 42 billion Ringgit. Faedah keatas jumlah ini, jika hanya 5% pun akan berjumlah 2.6 billion Ringgit setahun. Ini adalah satu jumlah yang amat besar.

23. Sebaliknya jumlah keuntungan dari pelaburan dalam stesyen janakuasa tidak akan mencukupi untuk membayar faedah ini. Demikian juga pelaburan untuk beli tanah di Kuala Lumpur dan Pulau Pinang tidak akan beri apa-apa pulangan sebelum di bangun atau dijual.

24. Sesungguhnya 1MDB menimbulkan banyak soalan tentang pengurusan dan kegunaannya. Dan jumlahnya juga amat besar. Rakyat berhak merasa curiga akan cara dan kegunaan wang mereka yang banyak ini.

25. Ulasan bahawa semua tuduhan adalah fitnah tidak mencukupi. Mereka yang mendakwa bahawa ada penyelewengan dalam pengurusan 1MDB berani membuat kenyataan terhadap Kerajaan dan individu-individu tertentu walaupun terdedah kepada tindakan saman malu. Tetapi mereka mendakwa mereka memiliki bukti-bukti yang jelas seperti e-mail, surat perjanjian dan bukti-bukti lain. Tarikh dan nama-nama diberi tanpa bersembunyi. Pembohongankah tuduhan mereka!!

26. Sehingga kini Kerajaan tidak menjawab secara yang masuk akal. Umpamanya 1MDB tidak punyai masalah kerana asetnya lebih dari hutang. Tetapi hanya untuk bayar faedah 2 billion, tidak

ada wang sehingga tidak dapat tutup akaun ikut jadual. Kemungkinan terpaksa hutang untuk bayar faedah.

27. Sejak Arul Kanda Kandasamy mengambil jawatan CEO, banyaklah kenyataannya yang tidak munasabah yang dibuat. Kononnya wang di Cayman sudah dibawa balik. Kemudian wang ini tidak boleh bawa balik. Kemudian sudah dibawa balik tetapi disimpan di Singapura.

28. Yang diperlukan bukan audit biasa buku akaun. Yang diperlukan ialah siasatan forensik oleh polis akan tuduhan yang dbuat terhadap beberapa orang yang terlibat dengan pengurusan wang 1MDB.

29. Jika ini tidak dibuat dan dibuat secepat mungkin, sokongan rakyat yang sudah pun merosot dalam PRU 2008, 2013 akan merosot lagi. Besar kemungkinan BN akan kalah pada 2018, walaupun ketua-ketua UMNO sokong dan terima dengan puas hati penerangan yang dibuat. Ingatlah undi orang UMNO sahaja tidak cukup untuk menang pilihanraya.

Salam YAB & Yg diKasihi Tun,

Terima kasih kembali Saudara Hj. Amin Tan (March 25, 2015 at 1:37 PM).

Kita setuju yang GST tidak patut dilaksana sekarang. Namun kita tidak sependapat tentang TPPA. TPPA juga akan menjadi pemangkin kepada 'kejatuhan BN/UMNO'. Jika kita ingin bersaing, kena 'ukur baju di badan sendiri'. Jika TPPA dipersetujui, ini lagi satu tindakan 'bunuh diri/sabotaj' Kerajaan. Lagipun, perbincangan2 TPPA secara 'rahsia' juga menjadikan ia sebagai satu perkara yang boleh mengundang pelbagai masaalah (sama seperti 1MDB – contoh terdekat) seolah-olah ada perkara yang ingin disembunyikan.

GST akan berkuat-kuasa pada 1 April 2015, dan PM berjanji yang GST tidak akan membebaskan rakyat. Wah! PM berjanji lagi (boleh percaya ke?), dan mengarahkan persoalan2 berkaitan GST di jawab oleh pihak yg dipertanggung-jawabkan; seperti biasa, cakap saja berdegar2.

Tapi, beliau sendiri sebagai Penasihat 1MDB @ Menteri Kewangan GAGAL menjawab kesemua persoalan2 mengenai 1MDB. Sekarang heboh pula tentang hutang baru 1MDB berjumlah RM2 Billion yang Ananda/Tanjong '*tolong dapatkan*' daripada '*private investors*' bagi menyelesaikan hutang 1MDB yang dulu tertunggak selama beberapa bulan. BERHUTANG untuk bayar hutang. Agaknya sampai bila boleh habis bayar hutang yang berbillion2 tersebut???

Saya harap 1MDB tidak berhutang dengan 'Ceti @ AhLong' (atau yg sewaktunya dengannya) sebab dengar khabarnya 'bunga' kena bayar dalam masa 6 bulan (ada ciri2 pinjam duit dari AhLong...). Berapa pula agaknya 'bunga/komisen' yg terlibat?

Saya cuma berdoa yang duit saya (dan orang lain) dalam KWSP/Tabung Haji/ASN/ASB tidak dilabur dalam 1MDB yang saya lihat sebagai satu entiti yang terbukti GAGAL.

Terima kasih Tun.

*** Semoga Allah SWT sentiasa melindungi Tun sekeluarga. ***

Terdengar pengurusan 1MDB mengaitkan Tanah sebagai Cagaran
Amat saya rasa mengambil senang tanpa berikhtiar
Ini dasar pemalas dan tidak bertanggung jawab

Inilah permikiran Kerajaan Melayu Permikiran Orang Melayu umumnya
Mereka mengambil senang tidak bertanggung jawab seolah
Pergadaian Tanah selesai semua masalah

Tanah adalah Pusaka
Tanah adalah Harta
Tanah adalah Keturunan

Tanah adalah Maruah
Tanah tidak akan Basi

Dengan Tanah kita bercucuk tanam , pembangunan ,perindustrian
pelombongan dan sebagainya untuk medapat hasil dengan berkerja keras berasaskan
pemikiran manusia dengan bijak dengan jentera UNTUK mendapat Hasilnya
BUKAN menjual tanah ,mempergadaikannya untuk mendapat wang ringgit sementara

Hilang Tanah Hilanglah Hak Hilanglah Kuasa
Dari Tanah kita dibesarkan dari bayi ,budak,dewasa & tua
Dan ke Tanah juga Kita akan di kembalikan
Bukan wang Ringgit ,Rumah mewah ,kereta mewah dan sebagainya

Bolih kita memperdagangkan atau mempergadaikan hasil bumi seperti Kelapa Sawit
untuk tukaran lain dengan dunia luar sebab ia merupakan Product
Product bolih dijual beli besok lusa ia bolih berbuah lagi
Tanah tidak bolih beranak atau berbuah lagi

Harap Kerajaan Malaysia prihatin tentang pengurusan Tanah

Kelihatan Kerajaan Malaysia sekarang mengambil pendekatan urusan mentakbir Negara seperti Singapura

Ini tidak salah jika ada Kebaikan untuk Malaysia

GST walau sebagai Rakyat saya pun kena bayar

Saya amat setuju demi untuk Malaysia bukan untuk UMNO atau sesiapa

Ini perlu sebab Kerajaan tidak bolih mentakbir negara jika tidak ada modal

Tidak bolih harapkan sangat hasil bumi seperti minyak & sebagainya sebab hasil bumi akan berkurangan atau Kerajaan sampai nak bergadai Tanah seperti keperluan 1 MDB

Begitu juga Rakyat sering complain Sekitaran Kotor , Longkang longkang tidak dibersihkan secara routine, perumahan flat tidak berseri serupa Singapura

Kita tidak bolih salahkan Kerajaan Malaysia sebab Rakyat Malaysia asik bangkang jika cost cost tersebut perlu dibiayai oleh Rakyat

Di Singapura kesemua pentakbiran Consevrancy ,Maintainance , Sewerage dan sebagainya di biayai oleh Penghuni iaitu Rakyat Singapura

Malah Kerajaan Singapura mengambil kesempatan keuntungan akan tugas tersebut

Cukai harta, cukai pendapatan ,cukai perniagaan ramai Rakyat Malaysia menggelak termasuk saya juga

Jadi bagai mana Kerajaan perlu berfungsi effectively

Sampaikan 1 MDB Kerajaan Malaysia sampai nak bergadai Tanah

Ini urusan kiat sesama kita ,sesama Rakyat & Kerajaan juga KeSultanan

Ini Tanggung jawab kita bersama bukan hanya asik nak menunjuk jari saja

Yg penting kita tidak bolih memberi laluan ,memberi kesempatan anasir luar mengambil kesempatan akan kesulitan kita

Begitu juga Kerajaan mesti terbuka dengan Kenyataan supaya Rakyat tidak pandang Serong

Salam Tun,

It can't get any worse than this.. Everything is on auto-pilot. Everyone say what they want without having to be responsible for what they said. Today I flip, tomorrow I flop.. What's the big deal! Let me start showing what I mean and I am glad to be pointed wrong in my observations!

1. Financial

– First they said it was paid using the reclaimed its reclaim fund from Cayman Islands, now the story change again! How can we trust what these guys are saying! It looks like nowadays billion doesn't seem to be such a big number after all.

[Now minister claims Ananda Krishnan's Tanjong helped 1MDB settle RM2b loan](#)

2. Cost of Living

– First, deputy PM requested Land Public Transport Commission (SPAD) to postpone their fare hike. Few days later, taxi price hike to still go ahead.. Bravo! To be fair, at least express bus and KTM price hike is deferred. So, what's the effect of these policies. It indirectly encourages people to drive rather than promoting public transport.

[Cabinet instructs SPAD to postpone fare hike](#)

[Nancy: Government agrees to taxi fare hike](#)

3. Education

– According to our Education Minister cum Deputy PM, he is surprise why we are not on par with their foreign counterparts. Obviously, there is something very wrong with WHERE AND HOW the big budget is spent. Recently, deputy education minister is urging on our students to be more “proactive”. Obviously, it is the responsibility of the parents, teachers and the headteachers to lead and guide our new generation.

“Malaysian students are surprisingly not on par with their foreign counterparts, despite the nation having one of the biggest budget allocations for education worldwide, said Tan Sri Muhyiddin Yassin.”

[Muhyiddin: Malaysian students surprisingly below par](#)

[Kamalanathan calls on students to be proactive in improving English proficiency](#)

4. Public security

– Recently, our beloved IGP just issued a statement that our public security is getting better. He can't be serious..

[Crimes reduced by 12 percent in 2014, says IGP](#)

However, let's take a look at these and just go around and ask people on the street and they will most likely tell you the truth. Again, I wonder if we live in two totally different world... With implementation of GST and with more and more desperate people, it will just get worse rather than better.... Hartz.....

Pictures tell a thousand stories.

I hereby urge the government not to be arrogant and just find some excuse to cancel GST.

GST IS NOT GOOD not us. On the contrary, it will contribute to the downfall of the present government and bring about anarchy to our society. Please do not take the road of the anarchy.

What sinister motives behind the move can be traced to Mat Syabu the DAP darling. This is the 'politik dunia' that some bastards are playing. PAS supporters are taken for a ride and made to look like fools.

Assalamualaikum Tun,

Ramai dari kalangan pemimpin-pemimpin UMNO yang mahukan Tun berhenti dari terus menegur kerajaan. Bahkan ada juga yang mengatakan andainya BN kalah pada PRU akan datang, BN kalah kerana teguran bertalu-talu Tun kepada kerajaan.

Saya berpendapatan rakyat tidak akan sewenang-wenangnya menukar kerajaan hanya kerana teguran pemimpin-pemimpin terdahulu. Pada zaman pemerintahan Tun pun, dua bekas Perdana Menteri iaitu Tunku Abdul Rahman dan Tun Hussein Onn telah mengkritik Tun. Bahkan Tun Hussein Onn telah berpihak dengan Ku Li sehingga tertubuhnya Parti Semangat 46. Walaupun Tun menerima kritikan dari dua bekas Perdana Menteri, rakyat terus memberi kepercayaan kepada Tun untuk terus memerintah sehingga mendapat 2/3 kerusi parlimen. Ini menunjukkan jatuh bangunnya sesebuah kerajaan adalah disebabkan tindakan atau polisi kerajaan itu sendiri.

Kalau kerajaan itu bijak mentadbir, walau bertalu-talu kritikan Tun, rakyat akan terus menyokong kerajaan. Sebaliknya, kalau kerajaan tidak bijak mentadbir, walaupun Tun berdiam diri, kerajaan akan tetap tumbang. Ini dapat dilihat pada zaman pemerintahan Pak Lah. Pada PRU masa Pak Lah, semua orang sangka BN akan terus mendapat 2/3 majority disebabkan 'feel good factor'. Mana nak disangka BN kalah sehingga kehilangan 2/3 dan tewas di beberapa negeri.

Jadi usahlah salahkan Tun andaikata BN kalah di PRU akan datang. Kalau kerajaan bijak mentadbir, pasti BN akan terus dapat sokongan rakyat. Persoalannya, adakah BN bijak mentadbir? Tepuk dada, tanya selera. Jangan syok sendiri sudah.

1MDB adalah satu contoh di mana rakyat menilai bagaimana kerajaan mentadbir negara. Hutang 1MDB yang berjumlah RM42 billion amat merisaukan rakyat. Bagi penyokong-penyokong 1MDB, mereka mengatakan 1MDB bagus kerana ia membantu rakyat melalui Corporate Social Responsibility (CSR) nya. Tetapi perlukah sampai RM42 billion hanya untuk menjalankan CSR? Adakah manfaat yang diperolehi melebihi kos yang dikenakan?

Saya difahamkan hutang 1MDB ini adalah kerana ketidakcekapan pihak pengurusan. Akan tetapi sekarang timbul pula unsur-unsur "fraud" atau penipuan. Ini membawa masalah 1MDB ke tahap yang baru. Saya pernah belajar 'forensic accounting' dan selalunya penipuan atau 'fraud' yang terbongkar hanyalah 'the tip of the iceberg'. Jarang 'fraud' atau penipuan berlaku sekali sahaja. Mungkin ada lagi 'fraud' yang belum ditemui.

Pada sayalah, nasib baik Tun tegur mengenai 1MDB. Jika Tun senyap, mungkin hutang 1MDB akan naik lebih dari RM42 billion. Tentunya rakyat yang akan menanggung beban hutang ini.

Siasatan 1MDB sekarang sudah berada di tahap mana? Adakah mereka yang terlibat sudah ditemuramah? Adakah akaun yang disebut dalam email itu telah disiasat adakan benar duit masuk ke akaun tersebut? Siapakah yang telah menandatangani pengeluaran duit tersebut? Adakah bank-bank yang terlibat telah melaporkan kepada Bank Negara untuk pemindahan sebegitu banyak duit?

Saya mungkin silap, tetapi saya rasa sekurang-kurangnya patut ada "preliminary findings" dan tidak memerlukan masa yang panjang untuk disiasat.

Siasatan perlulah cepat, supaya jika benar ada penipuan, maka mereka yang bertanggungjawab perlu di bawa ke muka pengadilan dan duit itu dikembalikan seberapa segera.

Salam YAB & Yg diKasihi Tun,

1. Saya sokong pendapat Saudara Hj. Amin Tan @ <http://chedet.cc/?p=1613#comment-122280>,
March 22, 2015 at 11:56 AM.

Memang pada mulanya saya yakin GST baik, dan percaya kepada manfaat yang akan menyusul. Akan tetapi bila saya nampak 'pembaziran melampau' dan juga cara 1MDB diurus termasuklah HUTANGnya yang amat tinggi dan entah apa2 masaalah berbangkit saya sudah hilang keyakinan/kepercayaan terhadap PM Ah Jib Gor terutama ke atas kebolehan beliau selaku Menteri Kewangan. Saya bimbang duit dari kutipan GST disalah-guna dan yang menanggung beban ialah rakyat yang terpaksa bayar GST & semestinya kos sara hidup menjadi jauh lebih tinggi.

Satu contoh kesan GST. Setahu saya caj penyelenggaraan ('maintenance cost') untuk apt/condominium sepatutnya tidak dikenakan GST. Akan tetapi, **caj penyelenggaraan di tempat tinggal saya sudah dinaikkan sebanyak 10%** semenjak Mac 2015 lagi. Bila disoal, jawapannya mudah yaitu kos servis/perkhidmatan lain sudah naik. Saya masih boleh bayar, tetapi mereka yang ada caj tertunggak (beribu ringgit) mampukah?

2. Kerajaan pimpinan PM Ah Jib Gor patut cari siapa dia 'JEMUAN-JEMUAN' yang ada di dalam Kerajaan yang membuatkan Kerajaan sentiasa tidak pernah putus dengan 'idea bernas' untuk menSABOTAJ Kerajaan UMNO/BN (tindakan 'bunuh diri'). Jangan nanti jika UMNO/BN tumbang pada PRU-14, para pemimpin UMNO/BN yang akan dilabel sebagai 'para JEMUAN' kepada Agama, Bangsa dan Negara.

3. Batalkan saja pelaksanaan GST. Alasan bahawa lebih 160 negara telah melaksanakan GST tidak sekuat mana (tidak releven) sebab keadaan ekonomi mereka pun ada yang jauh lebih teruk dari Malaysia. Dari pengamatan saya, tahap pengangguran di banyak negara2 yang ada GST lebih buruk dari Malaysia. Keadaan Malaysia masih lebih baik berkat hasil kerja keras PM sebelum PM ke-5 dan PM ke-6.

4. Bubarkan 1MDB, dan jual kesemua aset 1MDB, kecuali tanah2 yg Kerajaan 'sedekahkan' untuk tujuan pembangunan. Daripada rugi habis dan Kerajaan kena 'bailout', lebih baik ambil saja apa yang masih boleh diselamatkan ('cut losses') untuk bayar hutang.

Terima kasih Tun. Saya doakan Tun dipanjangkan usia untuk terus menyumbang.

*** Semoga Allah SWT sentiasa melindungi Tun sekeluarga. ***

Assalamualaikum Tun.

Saya setuju dengan HBT, kalau kita tak suka pada kerajaan maka tak payahlah undi.

Cuma janganlah kerana kita hidup susah, maka kita juga menyalahkan kerajaan. Kita ada Tuhan. Tidakkah kita terfikir yang kadangkala Tuhan menguji kita?

Kesalahan kerajaan juga adalah satu isu yang lain. Lihatlah pada diri kita sendiri.

HBT, hukum Allah adalah kita berbuat baik pada manusia walaupun diri kita dikeji. Ia dinamakan sabar. Kemudian sabar kita akan dibalas dengan diberikan pengetahuan ilmu/kelapangan hidup.

Bukan setakat cerita dapat pahala atau dosa.

Sabar ada tahapnya. Ia dinamakan ujian hidup. Bilamana kamu melepasi tahap ujian sabar, maka kamu akan diberikan pengetahuan untuk mengatasi kejian manusia lain. Ia dinamakan tahap yang bertahap perkembangan dalam diri manusia.

Politik dan agama tidak semua orang miliki keupayaan pengetahuan sekaligus. Kerana itulah Muhammad Rasulullah itu hebat. Baginda dianugerahkan pengetahuan agama dan politik/mentadbir

Sekarang tiada manusia miliki kehebatan agama dan politik sekaligus walaupun Azmin Ali ataupun Anwar Ibrahim walaupun Najib Tun Razak. Mahupun Allahyarham Nik Abdul Aziz.

Bersyukurlah dengan apa yang kita ada. Berusahalah untuk diri sendiri dan keluarga.

Terima kasih Tun.

Agreed with Ibnu Mukmin

Singapore has been stealing from Malaysia a lot and its a Lot
From Water , Sand and many more

Malaysia still needs GST

Starts with a smaller percentage first to roll the ball

S,pore starts with 3 % first followed by 7 % now

It is the best form of Govt taxes as most Business gets away with most fraud hidden account hardly for Govt to track

When Malaysia borrowed money are Bank in to Singapore

Something tells me things are not Right

Some Souls has been sold to Singapore

Putting National money at foreign Bank ? Its very Fishy

Singapore Govt has been playing hide & seek, now & then with Malaysia

We Malaysia did not Realize

I think Tun knows better

I read of Tun article of his experience when Pak Lah takes place

Tun was not even allowed to enter the Govt Offices though he has retired to give advise

Its very much seen foreign influences has invaded Putra Jaya

These will Destroy Malaysia

So as much seen in Najib now

Incompetence of an important post the PM, can Bankrupt the Nation

Its seen much S,pore gets away with many from Malaysia

Formal & Informal , Malaysia has been Robbed Day & Night

Whilst Malaysia Govt are busy entertaining Sodomy matters

someone assholes & Opposition nuisance to distracts to defame

Hello Malaysia , Selamat Pagi Malaysia

Wake UP ! Bangun !

Dear Sir,

1MDB are fully supported by all rakyat, the voters, all BN components parties (majority of leaders and members) and the truth facts is making lots of money, nothing goes wrong with 1MDB

I assumed that already answered your concern and the government has responded diligently through each channels of media

Does the low income group really cares about 1MDB? Almost 80% Bumiputeras are representing this group

The poor does not care about pollutions, climate changes and 1MDB

Surprisingly enough their loyalty to vote for government in every elections is undivided

So to say the 1MDB issue will bring down the Prime Minister is only a perception and not true

Rampant mega projects for commercial and residential with price tag more than half millions ringgit worrying me so much

These projects are meant for other races and foreigners with superior purchase power than a Malay

Malay are politically marginalized, as you said ” kita tak pandai tolak permintaan orang”

In the next 10 years this mega city will be fulfilled by other races and foreigners and take total control in economic and political decision in the area

The Malay will be squeezed out and live in the jungle

The increased cost of living added to make things worst to the Malay

In my opinion, GST is not necessary as Malaysia is full of natural sources which generate revenues to government to run the country

In countries that not fortunate as Malaysia, GST is an income to the government

Our border are so porous

More than a million PATI moved freely in and out of country, some breeding among themselves, some breeding locals

They prosper and some become millionaire

For years we cannot managed this PATI, maybe we do not have capable person or we lack of technology or we are not consistent and serious

The social problem they created is a burden to this country

I do hope phase by phase the locals will replaced them in all industries and they are better managed and traceable

The upward trend now is too dependable on foreigners, not only in workforce where unskilled and uneducated PATI are robbing the locals opportunity, the white collar too are choosing foreigners

We still have a mindset that the “White Rajah” is more superior than us

Corporate sectors, government advisors and even in sports, the “White Rajah” obviously chosen in a driving seat

Read below – the reason 1MDB moeny is parked in Singapore, perhaps..
Singapore must have been stealing from Malaysia Taxes from many year by this means...

If we can block this perhaps we do not need GST. Any way PM says GST is not suppose to increase the daily essentials. BUT WHAT WE ARE GETTING NOW IS PRACTICALLY EVERY THING HAS GONE UP AND WITH GST IMPLEMENTED MORE HAVE BEEN SAID WILL GO UP...WHAT IS THIS?

We do not mind GST BUT WE AS HELL OPPOSE INCREASE IN COST OF LIVING. IF GST IS GOING TO BE THE REASON FOR THESE WE – ALL CITIZENS – WILL OPPOSE IT....IF PM DON'T BELIEVE WAIT FOR NEXT GE. WHEN IT WILL BE TOO LATE.

Singapore

Singapore is more than just a shining city state, a place of untrammelled commerce and cleanliness, and the jewel of Asia's economic miracle. It is a tax haven that presents an ever-increasing menace to Australia's revenue base and future prosperity.

“Robbing us blind” would be another way to put it.

Singapore risk is on the rise, according to documents obtained under Freedom of Information from the Australian Tax Office by advocacy group Tax Justice Network:

Singapore is a popular tax haunt. Photo: AFP

“Our links with Asia – and risks associated with low tax jurisdictions – are reflected in the large and growing numbers of related entities in Singapore and Hong Kong, while established havens ... such as Bermuda and British Virgin Islands continue to be utilised,” says one internal Tax Office document.

The documents are heavily redacted but there is enough data to get the picture. “The top five countries for transfers of intangible property are USA, Singapore, Japan, Switzerland and Ireland.”

Then there are the transfers of money, billions every year. By now, Singapore may have even knocked off Switzerland as the No. 1 tax haven for Australian business.

Illustration: Michael Mucci.

“In 2012 there were 7834 International Dealing Schedules lodged by taxpayers in Australia covering international related party dealings (IRPD) totalling \$272 billion. Singapore accounted for around 33 per cent of total IRPD expenditure. Switzerland accounted for around 35 per cent.”

The significance of these “related party dealings” is that companies are selling more to themselves than ever. You can charge yourself interest too, so when the loan from yourself from overseas is big enough, you can shift hundreds of millions of dollars a year to yourself in another jurisdiction and scarp out of income tax here.

Singapore is fastidious about its reputation but it's time it was called what it is. On the Tax Justice Network's global secrecy rankings, the city state sits just one rung below the infamous Cayman Islands as the world's fifth most secretive place. Jersey is at 9 and Bermuda at 14.

The Tax Office documents also canvass the threat of inducements: "Foreign governments offering tax holidays and incentives to promote the movement of certain business functions to their country (eg the Economic Development Board in Singapore)."

The corporate tax rate in Singapore is 17 per cent, compared with 30 per cent in Australia, but 17 per cent is merely the headline rate. If you push enough business their way they will tax you 5 per cent or 10 per cent. If you move your headquarters there you may pay zero.

Rise of the marketing hub

So it is that Australian and multinational companies operating in this country have been setting up "marketing hubs" in Singapore in their droves. BHP and Rio were pioneers of the Singapore marketing hub. Our third largest miner, Swiss group Glencore, is hard on their heels.

In 2010, Glencore Coal Investments Australia sold 10 per cent of its coal to related Glencore entities. That rose to 16 per cent the following year, through 27 per cent to 46 per cent of its \$4.3 billion in sales in 2013.

A Fairfax investigation found that at the same time Glencore was quickly moving to sell almost half its coal to itself, it was also setting up a slew of marketing companies in Singapore.

According to the TJN, Singapore does not require that company accounts be available on public record, nor does it require that company ownership details are publicly available online, nor even that companies maintain their ownership details in official records – so there is no clear picture of what is going on.

However, it must be tempting for companies in general to sell products and resources cheaply from Australia to Singapore then jack up the price on the next leg of the global trip, as both profits and royalty payments can be minimised.

In the case of the oil majors Chevron and Shell, which make revenue in the tens of billions in Australia but register little in the way of profits income tax, is it a coincidence that their trading operations in Singapore are so fabulously profitable?

Mind you, Singapore has been veritably, historically, a trading hub for oil. What it has never been is a large trading partner for real goods. It is no small irony that China is our largest trading partner but when it comes to related party transactions, China is tiny compared with Singapore.

It should be said that all is fair in tax and war. Australia's corporate tax rate is almost double Singapore's headline rate. The business lobby is right to a point in calling for a lower tax rate in Australia.

The fact remains that if multinationals paid their fair share and if the Tax Office stamped out uncommercial, tax-driven transactions, this could be achieved. The playing field for business would be levelled in the process, and the budget would be repaired. Yet the business lobby continues to act like the one-trick pony, calling for

lower rates but failing to call for profit shifting to be policed more effectively.

As for Singapore, the ask-no-questions culture that made it a hub for smuggling activity in colonial times persists to this day. Only technology has changed, rendering capital flows faster.

Dear Tun,

Fall of Thatcher

The riot in central London did much to contribute to the downfall of Margaret Thatcher, who resigned as Prime Minister on November 28th the same year 1989. The national opposition to the poll tax (especially vehement in the North of England and Scotland) was the major factor; an opinion poll had found 78% opposed to it. John Major, who succeeded Thatcher, announced that the tax would be abolished.

Dear Tun,

1. what is the idea of the government wanting to make so much money by implementing GST? We know that inflation will follow swiftly by at least 6%, and could be by 30%. The attention and negative backlash would be greater as everyone is busy condemning GST. It is not just simply the increase of 6% on all prices, but the man hour and the management to implement and enforcement may cause resentment and anger.

2. Margaret Thatcher lost her election to Labour after she introduced poll tax in Britain.
3. Tun Abdullah Badawi's government lost 5 states to the opposition during March 8, 2008 General Election because the government increased petrol price by 40 %, 2 months before the election.

Pak lah needed large sums of money to build corridors of development all over the country.

4. It is said that Malaysia credit rating would improve from junk to c if we implement GST. The credit rating to borrow money? As Tun Dr Mahathir had said the money we borrow is not our money. We have to pay back the money plus interest which is forbidden in islam. All expenditure whether on investment or consumption, if the money/capital is borrowed it is not prudent and judicious.

5. Recent developments and the leakages of government transactions, secrets plus exaggeration and propaganda by the opposition make the government look irresponsible, wasteful and incompetent.

6. What is the difference between GST 6% and the government just print 6% of fiat money just like the American General Easing.?

7. I would like to urge the government not to proceed with the gst, meaning cancel GST altogether and present to the people a happy ending. If the government is adamant to go ahead with GST and burden the people with the yoke of GST, at least defer the implementation until after GE14 in 2018.

8. The negative effects of GST would be inflation. It would be a burden on the fixed income earners like private sectors and government workers.

For the moment Malaysia does not need any grand or mega projects to create employment opportunities because we already have full employment. At the moment we have 3 millions foreign labour in the country. Wallah alam.

amin tan

DAP tolak Hudud walau Hudud tidak berhukum terhadap siKafir bukan kerana Hukumannya
Ia kerana DAP menolak kenyataan bahwa Malaysia bukan Negara Islam dan bukan dari
Ketuaan Melayu

DAP serupa PAP yg telah menukar sejarah identiti Singapura kononya orang Singapura
semuanya Pendatang termasuk orang melayu asli

Ini bagi memperkuat kan Kehadiran DAP bagi agenda Racists mereka yg tersirat

Begitu juga DAP menolak Sedition & ISA kerana ini akan memperkuatkan tujuan DAP

Sedangkan PAP abang tiri DAP masih menganut Defamation act & ISD bagi memperkukuhkan
kerajaan PAP Singapura

Tertanya pula kenapa DAP menolak ISA & Sedition sedangkan abang mereka masih kuat
menganutnya ?

UMNO doperbodohkan dan begitu juga tujuan mereka menolak Hudud seumpama Malaysia
bukan identiti Melayu & Islam

PAS juga akan di Perbodohkan

Assalamualaikum, Tun.

Kalaulah kes 1MDB ini membabitkan salah-urus wang, maka ia adalah bercanggahan dengan agenda politik UMNO memperjuangkan hak Melayu.

Kenalah faham bumi ini tanah pusaka kita. Melayu tak akan berhijrah ke mana-mana kerana inilah tanah tumpah darah, di mana generasi-generasi akan datang kekal bermastautin. Justeru itu, kebangkrapan negara akan membebankan anak cucu kita.

Oleh itu, baik seluruh Rakyat memainkan peranan mengawas dan memastikan yang betul-betul bersih dan berwibawa dipertanggungjawabkan mengurus wang dan memerintah negara.

Salam YAB & Yg diKasihi Tun,

1MDB

1. Nampaknya Pembangkang suka PM Najib @ Ah Jib Gor untuk terus jadi Presiden UMNO walaupun beliau lemah dan gagal menangani banyak isu/masalah negara termasuk isu 1MDB. Sebabnya mudah; beliau senang diperkotak-katik & digertak oleh Pembangkang supaya menuruti kehendak mereka.

2. UMNO/BN masih relevan, tapi pemimpin2 yang LEMAH & tidak berfungsi serta yg 'kaki kipas/para pembodek/Pak Turut' eloklah berundur sebelum terlambat. Isu yang sudah meledak mengenai 1MDB pun gagal ditangani sebab tiada seorang pun di kalangan pihak Pengurusan 1MDB dan Menteri2 Kabinet berserta PM yang tahu/berkebolehan menjawab persoalan2

mengenai 1MDB dengan baik dan jelas – cuma jawapan2 dangkal dan bercanggah antara satu sama lain yang diberi. Lebih melucukan ada kalangan pemimpin2 UMNO yg yakin/percaya bahawa apa2 isu yang ditimbulkan mengenai 1MDB adalah 'fitnah' semata-mata. Sebagai contoh, takkanlah kenyataan/fakta berkenaan 'kredit siap sedia' bernilai RM950 juta (peruntukan Kerajaan kepada 1MDB sebagai bantuan kewangan kerana kesempitan wang – ini duit 'warisan' ke?) dan duit 1MDB melebihi RM4 BILLION (ditebus dari Cayman) yang disimpan di Singapura (kerana transaksi melebihi RM50 juta perlu kelulusan BNM), juga fitnah. Hakikatnya, PM Ah Jib Gor sendiri tiada keyakinan ke atas polisi2 Kewangan negara walaupun beliau Menteri Kewangan (amat memalukan). Lain2 pemimpin (Menteri2/Ketua2 Bahagian) bukan main lagi ber-SO-LI-DA-RI-TI tanpa tahu fakta sebenar. Ini sudah dikira 'kebangangan/kejahilan' melampau di pihak PM & gang.

3. Kita lihat samada mereka yang ber-SO-LI-DA-RI-TI ini akan 'tertawa/bergembira' dengan solidariti mereka mempertahankan PM Ah Jib Gor bila BN/UMNO menang tipis atau lebih teruk lagi tumbang pada PRU-14. Undi mereka saja sudah pasti tidak cukup. Saya (salah seorang ahli UMNO dari lebih 3 juta ahli2 UMNO) sudah teramat meluat dengan 'gelagat' mereka ini. Saya ulang lagi kenyataan saya bahawa saya tidak akan keluar mengundi jika PM Najib @ Ah Jib Gor masih lagi Presiden UMNO pada PRU-14. Mungkin 1 undi dari saya tidak berharga. Namun jika ramai yang seperti saya, UMNO/BN akan terganggu.

Terima kasih Tun.

*** Semoga Allah SWT sentiasa melindungi Tun sekeluarga. ***

March 20, 2015 at 9:34 AM | [Permalink](#)

Assalamualaikum,

DS Najib dan ramai pengikut beliau masih belum menyedari akan kesan policy mereka terhadap rakyat bawahan yang rata-rata pengundi setia BN.

Kesusahan rakyat yang bermula sejak dari zaman Pak Lah lagi dimana kos sara hidup meningkat dengan mendadak, telah menjadi semakin teruk. Peningkatan gaji jauh lebih perlahan dari kos inflasi yang terpaksa dibayar.

Kos rumah, kos makanan, kos pendidikan, baby-sitter, etc, segalanya makin menaik lebih cepat dari kenaikan gaji setahun. Ini tidak dibendung dengan baik malahan cukai tambahan dikenakan. Ini dapat saya rasakan walhal gaji saya lebih dari lima angka. Ini kurang saya rasakan dizaman Tun walhal gaji saya pada masa itu baru RM2k.

Bagaimanakah keperitan rakyat bawahan yang berpendapatan kurang dari RM5k sebulan? Jumlah mereka bukan sedikit. Majoriti dari penduduk Malaysia yakni lebih 60% berpendapatan RM5k kebawah. Perlu saya ingatkan Dato' Seri, undi dari ketua bahagian, menteri2 dan ketua2 GLC tak mencukupi untuk mempertahankan kerajaan Dato' Seri.

Disebalik menjadikan Malaysia sebuah negara yang selesa untuk diduduki, mereka2 ini menjadikan Malaysia sebuah negara yang semakin membebankan. Kerajaan ternampak kaya,

pemimpin kaya belaka, rakyat ramai yang papa kedana. Jenayah meningkat dan maksiat bermaharaja lela.

Kini kita semakin meniru negara2 maju. Tahukah anda rakyat meraka saban hari semakin tertekan. Menjadi maju bukan bermakna harus jadi Amerika. Yang penting kesejahteraan hidup, kemajuan industri tempatan, merapatkan jurang antara kaya dan miskin, pendidikan yang melahirkan penguasaan ilmu, akhlak budi bahasa moral maka kita akan maju. Tahukah anda bahawa Brunei adalah sebuah negara maju? Maju bukan bererti mengikut telunjuk anasir Amerika.

Apa yang pemimpin selepas Tun masih dangkal ialah peranan mereka sebagai seorang pemimpin Islam. Berikut adalah contoh pimpinan Islam yang harus difahami oleh pemimpin kita yang menceduk bulat2 fahaman Barat:

Tatkala Khalifah Umar bin Abd al-Aziz apabila beliau dilantik menjadi khalifah, beliau seakan tergamam dan begitu hiba. Beliau terus bersendirian bersolat dan menangis. Airmatanya bercucuran hingga ke janggutnya. Apabila isterinya Fatimah bertanya, dia berkata: “Wahai Fatimah! Aku telah dikalungkan urusan umat Muhammad ini yang berbagai bangsa. Maka aku terfikir tentang orang fakir yang lapar, yang sakit lagi derita, orang yang tidak berpakaian yang susah, orang yang dizalimi lagi dipaksa, tawanan perang yang jauh, orang tua yang uzur, orang yang mempunyai keluarga yang ramai sedangkan hartanya sedikit dan seumpama mereka yang berada di segala tempat dan penjuru negara. Aku tahu Tuhanku akan bertanya aku mengenai mereka pada hari kiamat kelak. Aku bimbang alaskanku tidak cukup kukuh untuk menjawabnya, lalu aku pun menangis” (Al-Zahabi, Tarikh al-Islam wa Wafayat al-Masyahir wa al-A’lam, 7/197. Beirut: Dar al-Kitab al-‘Arabi/1407H)

Ada pemimpin Islam kita apabila diberi pangkat besar maka terus berselfie dengan meriahnya, maka lihat sahajalah akan bahananya nanti. Saya lihat kita semua kini jiwa kacau hati runsing sebab kita semua semakin jauh dari Allah. Pemimpin macam Dato’ Seri Najib ialah orang pertama yang akan disoal akan sebabnya semakin meluasnya kejahilan.

Kita harus maju dengan acuan kita sendiri. Meniru skim2 yang datang dari Barat tak akan dapat memerdekakan jiwa. Islam itu sejahtera. Belajarlah DS Najib. saya doakan semoga anda akan dapat hidayah dan kefahaman dari sisi Allah sepertimana yang kami juga inginkan.

Assalammualaikum Tun,
Saya ade bebrapa soalan :

1. Mengapakah SPAD perlu menaikkan tambang untuk perkhidmatan awam?
2. Mengapakah kesan gst yang berlaku sekarang berlainan dengan apa yang dijanjikan?
3. Apakah tindakan yang akan diambil oleh kerajaan dalam mengawal harga barang?
4. Apakah tindakan kerajaan dalam memastikan sistem pembelajaran negara setaraf antarabangsa?

Selain itu, sebagai rakyat biasa saya juga berharap agar tun memahami kesusahan yang dialami rakyat sekarang, janganlah hanya menerima bulat2 apa yang dilihat sewaktu para pemimpin 'turun padang'.

Assalamualaikum Tun. Izinkan saya bersuara melalui puisi tradisi Melayu:

(1)

Negarawan Terbilang

Permata nibong diikat suasa,
Walaupun tua masih berbisa.

Padi disabit hingga ke tunas,
Fikiran tajam ideanya bernas.

Kelapa pandan banyak nira,
Budi dan jasanya tidak terkira.

20.01.2015

Bukit Tambun, Pulau Pinang.

(2)

Ke Urat Leher

(Syair-Pantun)

Rakyat semakin merasa rimas
Banyak sangat jawapan kabur
Adakah jemuan sedang cemas
Semakin dekat akan terkubur.

Doktor Umum semakin galak
Ke urat leher doktor menekan
Sampai bilakah boleh mengelak
Semakin lama; semakin sakan.

Jawab segera jangan beralih
Rakyat sekarang semakin pandai
Jikalau letih segeralah beralih
Jangan sampai semua tergadai.

Wslm, semoga Tun selalu 'tajam,' semoga Tun diberi kesihatan untuk meneruskan agenda 'blogging to unblock' ini. Amin!

Lucu tapi Benar

Pembangunan Ekonomi Malaysia di sangkak oleh sengketa Dhubur

Satu organ manusia yg mengeluarkan Najis

Banyak buang masa pada cerita Bodoh Anuar

Selepas Bapa sekarang anak Nurul

Macamlah Bapa dia seorang punya masalah dalam Malaysia

Kenapa kita jadi Bloody Fool untuk melayan ini semua

Malaysia harus kedepan , bukan kebelakang

Nak ke Belakang pergi sebelah ,Sebelah semua di Halalkan asal bayar Gangster Besar

Pembangkok bergiat sungguh mengaibkan image Kerajaan
Kerajaan Malaysia tak perfect , tapi lagi bagus dari negara jiran seperti Thailand,
Indonesia, Phillipine, Vietnam, Burma diantara negara besar di Asia
Jangan di banding Singapura , negeri Kecil dengan Brunei , 100 kali baik Brunei
Compare an Apple to an Apple an Orange to an Orange
These Lee Kuan Yew must learn before he Die
As he always compared Singapore progress with Malaysia
The fact that S,pore are small in size , in Populations
He made the Wrong calculations

Saya tak Faham Pembangkang Malaysia DAP ,PKR
yg selalu mengagongkan Singapura
Menuduh ,menjatuhkan images Kerajaan UMNO sesedap mulut
Seperti Sediton Act seolah No Freedom of Speech
Sedangkan S,pore menganut juga Sediton, Defamation Act
Dan Masih menganut ISA serupa ISD kita yg sudah Bubarkan
So apa sebenarnya Pembangkang ingin pertikaikan
Menuduh Kerajaan UMNO corrupted tanpa Bukti
Tahukah anda Menteri Singapura dalam dapat gaji yg termahal di Dunia
Masih mereka mempunyai investment pada swata Semi Govt
Cuba check siapa investor Capital land ,SIA , NTUC& banyak lagi
Takkah itu mengambil kesempatan atas Jawatan mereka
Tidakah itu serupai adik tiri Corrupsi ?
Sekarang Pembangkang begitu manja dengan US dan mengaibkan image Malaysia di seluruh
Dunia bagi Agenda Pembangkang BUKAN untuk Demokrasi
BUKAN untuk Malaysia
Apa US tu betul ke ? DAP . PKR !
US hari hari ada tunjuk perasaan Racist, hari hari ada Demo
Kalau US bagus takdalah macam ini
Yg awak Rujuk kat dia buat apa ? Bodohkan
Lebuh baik rujuk kat Bangaldesh , Jarang Demo

Kerajaan UMNO mesti Tegas
Tubuhkan National Service , Perhidmatan Negara bagi memperkukukah Malaysia
Baik untuk Kerajaan Baik untuk anak Muda Malaysia

Salam Tun

Malaysia is blessed with one of the most dynamic and futuristic PM TUN. His vision, hardwork, development and plans during his last 20 years will be ruin shortly. Not only 1MDB is a major sad back in fact far too many issues and projects had been done without proper planing and approval. As a senior PM Tun should shoulder the blame for all the current issues, due to his negligent to find suitable PM just exactly as what is Manchester united supporters blame Alex Ferguson for not find a suitable replacement for the team.

As a senior PM Tun with so many years in the government and high level contacts, don't say Tun can't do anything. A person with is caliber and vision I am very sure he can do the necessary changes and save malaysia from bankruptcy like Greece.

Dear Tun you are the one and only guy in malaysia who has the capacity to save and protect malaysian from future agony.

Pls come back

Salam YAB & Yg diKasihi Tun,

1MDB

1. Dengan segala isu/persoalan (lama dan baru) yang berlegar mengenai 1MDB yang tidak dapat dijawab dengan baik oleh pihak pengurusan 1MDB dan juga Penasihatnya yaitu PM, eloklah dengan segala hormatnya PM Najib @ Ah Jib Gor mengundur diri sebagai PM.

Berkorbanlah. Saya merayu supaya PM meletak jawatan dengan cara terhormat. Jangan cuma bercakap berdegar-degar tentang 'pengorbanan', tetapi diri sendiri tidak sanggup berbuat demikian demi Agama, Bangsa, dan Negara.

2. Saya harap duit 'kredit siap sedia' berjumlah RM950 JUTA (almost RM1 BILLION) yang Kerajaan sediakan untuk membantu 1MDB tidak HANGUS begitu saja (semata-mata untuk membayar gaji/elaun pihak Pengurusan dan lain2 kos operasi 1MDB, tetapi 'result' hampeh...). Tapi, nampak gayanya memang akan hangus lah duit tersebut. Pendapatan tidak seberapa, tapi perbelanjaan mengalahkan orang/syarikat yang tidak berhutang. Alahai 1MDB! Elok dibubarkan saja.

Terima kasih Tun.

*** Semoga Allah SWT sentiasa melindungi Tun sekeluarga. ***

For PKRshit a.k.a DAPshit. Thank you very much Saudara for your honest and factual opinion. It is through facts and transparency that we see the lies as expressed by these fakirs. I have nothing to be afraid of when it comes to our beloved Malaysia's SOVEREIGNTY, NATIONAL INTEREST, SELF-ESTEEM.

If after over 57 years of Merdeka, we are still afraid to express the facts and the truths, then, we have still got a lot to learn. Acheh !

As we can all see over the years since I first appeared here in September 2011, our beloved Malaysia is something for all of us who contributed to its development, human and other resources like our beloved Tun, you all and me. We all did an honest job for menial returns. And we are not complaining. We are NORMAL.

gst wajar ditangguhkan kerana hutang isi rumah tinggi...

kerajaan wajar mendengar rintihan dan kritikan rakyat yang menegur secara lembut...

cuma kalau masih dengan buat bodoh jer macam selalu takut ianya merebak pula ke jalanan...

kebanyakan rakyat masih belum rasa kesan gst...

tapi produk pun dh byk buat re-packaging sekarang...berat dikurangkan...

itu kesan awal...

gst juga dilancarkan pada ketika 1mdb kena bayar balik pinjaman...

wajar siasatan diraja dilaksanakan dalam menangani 1mdb...

bangkitkan kembali sistem beraja dalam menjadi kuasa penimbal antara rakyat dan eksekutif...bukan pembangkang sebagai kuasa penimbal...

kalau di peringkat parti pula perlu kuasa pada 'majlis penasihat' parti...bukan presiden...

sebagai tanda kematangan demokrasi...

adakah kutipan gst mmg dirangka awal untuk tutup lubang 1mdb?

6% juga tersangat tinggi sebagai permulaan..

kempen government dlm media harga brg x naik...tapi kalau berlaku sebaliknya pasti bertambah kebencian pada gomen kerana sekali lagi cakap x serupa bikin...

gomen nk pau rakyat guna gst tu masalah negara...1mdb tu problem company...kenapa gomen pulak nak kena setel problem company?

disaat ekonomi x menentu sekarang, fokus gomen sepatutnya pada kebajikan rakyat...bukan fokus untuk selamatkan satu company...

byk lagi company kecik2 yg struggle nk setel hutang dan overhead yg perlu dibantu...

adehh...tak paham betul...semuanya berlaku secara terang-terangan dan cuma boleh tengok jer...

pening tgk gomen skarang...

cacamarba n autopilot...

sapa bigg boss pun dh x tau...penanggungjawab yg perlu 'tanggung dan jawab' semua masalah dasar yg timbul...

sorry panjang sikit tulis kali ni...dh lama x menulis kat blog tun...

Do we care???

Well I'm a Malay, and majority of Malays are Muslims here in Malaysia, don't know about other Malays in other places in the world.

So as a Muslim we want to go to Jannah' that's our ultimate goal in Life and true meaning of success, which means you get whatever you want, by just saying it in your heart, not in this in this world where you need to shed a blood or friendship. Well to go to Jannah' we must earn it. And ISLAM is a way of life, which means we must live the life of a Muslim.....so how is the life of a Muslim???? One Pious Man articulately described that living the life of a Muslim is how to use our Wealth, Assets, Eyes (seeing only Halal things), Ears (listen to only Halal things), Mouth (Tongue) (speak only Halal things), Mind (think only Halal things), Hand (touch only Halal things), Feet (walk to Halal places) and even Our Sex Organs (off course if we are a man we don't shove it into a man's behind), in short use it only to Please ALLAH S.W.T. so how ALLAH S.W.T. is pleased with the way we used all these things? Our usage must be the same as how Nabi SAW used it. And if we are unable to meet the standards that ALLAH S.W.T decree we must seek forgiveness from ALLAH S.W.T.

So to be the best of mankind we must have the best infrastructure. What kind infrastructure do we need? A bullet train? A space ship? A Laser transporter.....beam me up Scottie???? No, No, No, all we need is a Mosque that serves the same function as the Mosque of Nabi SAW during the days of Nabi SAW. During the days of Nabi SAW, his Mosque runs 24hrs Day with 4 Amaal:

1. Dakwah – reminding and calling people to ALLAH SWT
2. Ta'alim – Learning Tauhid, Al-Quran, Masail, Fadhail
3. Ibadah – Solah, reciting Al-Quran, Zikir, Doa
4. Khidmat – helping people

All the 4 Amaal runs concurrently. Muslims take turns in ensuring the Mosque is functioning 24hrs a days, so instead of watching TV on Surfing the Internet, Muslims found Solace in doing Amaal in the mosque. This is the sacrifices that every Muslims must make and not being paid as a form of sacrifice fro pleasure of ALLAH. Give time to do all the 4 Amaal for the Mosque.

So to solve the Mat Rempit, Bohsia, Bojan, Drug Addicts, Booze among the Malays we have to go back to how Nabi SAW solve the problems of people of Mecca. Some Sahabah's were once lived the life worst than the rempits, e.g. Syaiddina Umar volunteered to kill Nabi SAW, but once he embraced Islam, be closed to Nabi SAW and doing what Nabi SAW does.....later Nabi SAW says that if there's a Prophet after me Umar will be the one. So Umar is a changed man.....don't

need to wait for old age and due to sickness and being lethargic and needs other people's help one person has to be nice....

Another example is Bani Taqif...they decide to embrace Islam but decide not to comply all, they says to Nabi SAW that they won't destroy their Idols, never to perform Solah...etc. But Nabi SAW did not scold them but Nabi SAW ask them to sit in the mosque for 3 days. After 3 days sitting in the Mosque Bani Taqif freely volunteered to do what they rejected at first. So if we really care for the Malays in Malaysia go back to how Nabi SAW did for the Sahabah's.

So the question is DO WE REALLY CARE??? Or after reading this we would say there is a shorter and easier way other than this??? Well it's the proven methodology.....look at the Sahabah prior being a Muslim....how long did it took Nabi SAW to change the Sahabah.....Nabi SAW worked on changing their hearts.....requesting to instill pure Iman inside their hearts.

Once Iman is corrected their Amaal will be corrected, their Amaal is pleasing ALLAH. Only good Amaal pleases ALLAH. What is Good Amaal??? It's the Amaal of Nabi SAW. Only the Amaal of Nabi SAW pleases ALLAH.

So this is my proposal to the Religious bodies, instead of becoming a profit center.....opening Ma'ahad Tahfiz or religious schools to be a source to increase our own income. Do more good deeds and not just thinking about getting more money.

Class F do wonders for the country and for everybody.

I like those days where there are lots of Class F projects.

These Class F projects does not constitute to free money. Free money makes people lazy. Just like rich kids where their parents has no time for them so out of guilt they replace their time with money. Take a look at the expansive coffee shops at 9pm above where parents so called spend their time with their children, father and mother on I-phone or IPADS doing work, while their children also playing games with their smart phone, so is this the way of spending quality time with your kids? And when the 1 to 3 year olds like to play run and hide their parents would scream at them saying please behave. Hmm such a good upbringing. So the kids will be brought as spoil brats. These spoil brats will eventually grow up then becomes worst...if their parents aren't able to sustain their wants they find other means..... so when they grow up to be an adults...they will complain and complain and complain.....saying everything is miserable....WHY? its because they are taught from young that they are born to this world is to fulfill their desires.....only their desires. Once adult, things becomes more expansive as they need the expansive cars, expansive clothes, and expansive watches, RM18 for a cup of coffee and RM8 for a slice of cake, well their parents thought them that is LIFE by fulfilling their desires. So they are angry...very angry...don't know who to be blame...offcourse they wont blame their selves so the easiest to blame is their leader....manager in the company.....CEO....and you know who.....if their voices are not heard...street DEMO baby.....

Now our we get free money????? Spoiling us????? Making our people to be lazy????? Just for the sake winning praises from People????

At least Class F, makes people work.....they have to deliver to the accepted quality and time frame then get paid otherwise liquidated ascertain damages will be imposed on them.....and furthermore they have the defect liability warranty period for 1 year where they have to fix any issues or problems.

Maybe we can improve the Class F further by having online systems where they can update their project online. Have certification for brick layers, cement mixing etc, just in IT therefore Quality is not compromise.

It'll create more jobs opportunity and entrepreneurial skills among Malaysians. The Hardware shops will boom, then we can export the expertise. Have a conglomerate Class F contractors.

HBT 456..,

Wah.., wah.., wah.., banyak cantik awak cakap –

“...the problem is kerajaan memang lembap, slow in running the projects, and almost 100 percent adalah melayu....”

Obviously, you just simply can't wait if Lim Guan Eng can become the Prime Minister.., is it..? Then perhaps Tian Chua can become the Defence & Home Minister. Maybe (say) Tony Pua as Finance Minister. Then most possibly Gobind Singh Deo can become Law Minister.

How about V. Ambiga becoming Chairman & CEO of Petronas..? Also possibly, Hannah Yeoh can become Chairman of Tabung Haji, KWSP and also PNB.., because she may prefer the much higher corporate emoluments rather than receiving the basic cabinet minister's pay.

However.., perhaps Nurul Izzah gets only to become Menteri Wanita.., because she is Melayu thus obviously lembab.

Which such a less of the Melayu leadership line-up.., do you reckon that Malaysia can truly be stable, prosperous and achieve much greater heights..? What say you.., Ahso..?

Bye, bye for now.., OK..?

Sadness looms all our hearts with the turn of many events. Most lead to nothing but one ... the down slope of our economy and with that disappearance many of our dreams and visions (including W2020).

I am an ardent fan and I feel you have shown us (and still are) and also the world what a leader should be. The way you whisked us from the 1997 economic armageddon, was simply ingenious and I hope we do have someone to do that now; though I doubt it.

I still feel you are probably the only person who can save us from this most unfortunate corner that we have been thrown to at this point.

I will pray for your good health as well as for the change of luck.

Yang Amat Berbahagia Tun,

Semoga sentiasa berada dalam keadaan sihat sejahtera.

2. Saya merasakan ada sesuatu yang tidak kena pada masa ini.

3. Bukan sahaja 1MDB, malahan ada sahaja perkara-perkara yang dilaksanakan tanpa mengendahkan dasar-dasar negara yang sedia ada.

4. Rundingan TPP, sebagai contoh, tetap diteruskan. Walaupun jaminan diberi untuk melindungi kepentingan Bumiputera, tiada jaminan bahawa kesemua dasar-dasar yang mengandungi kepentingan Bumiputera dipatuhi. Apabila perjanjian TPP ditandatangani nanti, mungkin kerajaan pula yang terpaksa mengubah dasar-dasar negara yang sedia ada mengikut apa yang telah dijanjikan kepada pihak luar.

5. Sepatutnya apa-apa perjanjian dengan pihak luar hendaklah berpandukan dasar-dasar yang ada. Inilah ciri kedaulatan sebagai sebuah negara.
6. Satu lagi perkara ialah mengenai perancangan RMK-11, iaitu Rancangan Malaysia ke-11 (bermula dari 2016 hingga 2020).
7. Kira-kira lima tahun dahulu, negara telah memperkenalkan National Key Economic Areas (NKEAs). Terdapat 12 Key Economic Areas dan tumpuan akan diberikan ke atas bidang-bidang tersebut demi mencapai status negara maju pada tahun 2020.
8. Akan tetapi, pegawai-pegawai kerajaan kini seolah-olah tidak menekankan bidang-bidang ekonomi utama tersebut apabila mencadangkan projek-projek bagi RMK-11.
9. Apakah bidang-bidang ekonomi utama tersebut tidak boleh diharapkan lagi? Atau adakah perancangan yang dibuat lima tahun dahulu tidak mempunyai asas yang kukuh? Saya keliru.

issues currently faced by fellow countrymen

- a. Expansive petrol – to solve this issue is not only to reduce the price of petrol but instead it requires an Ecosystem of Cars design with NGV in Mind and more Petrol Station with NGV.
 - i. Produce petrol cars with NGV in mind where the NGV tank is not taking the boot space but instead it is properly tucked away like the petrol tank. As for now if they want to convert to NGV they have to sacrifice the boot space, and the conversion cost is in the range of RM5k therefore it's a bit too steep for people to earning monthly less than RM3k a month. If the car has good design it'll help to boost the car sales.
 - ii. Petrol Station with NGV – every township to have at least 1 NGV station
- b. Food – issue is cost of transportation and rental of place,
 - i. for example the where place has the rental of RM12K for ground floor shop space the price of food there will be RM9 for a plate of rice, 1 piece of chicken, vege and plain water, so therefore the authority should intervene by providing 1 place for eatery provided by the government where cost is controlled and provide min. food items. If the people chose to eat luxury food then it's their choice.
 - ii. if all the lorries utilizes NGV because there more petrol station providing NGV
- c. House – we let the speculators dictate (so called supply and demand for the rich they have

nothing to loose) for example for low rank government servants and people above age 30 earning below RM3k – each room has the size of 12' x 10'

d. Living in a good society – to have a good society the wellbeing has to be taken care since the infancy stage. When I was young the kindergarten where I go to is next to the primary school. And it is free. Nowadays, the babies are either taken care of their maids or improper day care center where 15 toddlers are taken care by a grumpy woman. So why not go back to the old days whereby day care centers and kindergarten is provided by the government. The care takers works in 3 shifts (07:00 to 11:00, 11:00 to 15:00, 15:00 to 19:00) – it'll provide more job opportunity and ease for parents where they can focus on their work.

Hi Tun,

You are always my hero. You have the visions for this country and i see you hearts in loving this country as we all do.

The government should focus on how to run the country well.. focus on expanding the middle income group nations, as we see currently, only the rich becoming richer, and the poor becoming poorer, and this is not healthy in terms of the country and in terms of the economic..

Singapore have notice the issue and providing the quota to limit the import of the foreigner worker, each foreigner that bring in, will need to make sure there are another 5 Singaporean employees will be hired. This will be making sure that their own nation, will have the proper working opportunity too.

and in my small eyes, i still can not find any country that will protect the majority of the nation when all countries is protecting the minority most of the time. If Malaysia want to continue to protect the certain race and this is also the majority of the nation, the country will have to be really wealthy like Saudi in other to do this.

In Saudi, only the original Saudi is allow to buy property and others non-saudi nation, like Yemen, and etc, will have to rent the house from Saudi, and in this case, the Saudi are protected in a certain ways.

Over protecting one nation will not bring any benefits to the countries, except for the political reason, but if you want to make the county strong, this should be cut off immediately. And that time, they will start to treasure the country and start to study hard and work hard.

Because to protect a certain majority people, we have bring down the education standard, and most of the youngest are not able to have the competency to compete in the international society. Some one said, even in the survey of the international Educational standard, we were rank bottom three, we still produce Doctors and Engineers.... yes, we produce,... but can our doctors and engineers go internationally to compete with other countries doctors and engineers? Are they able to work or hire by those countries? Does the other country accepts Malaysia Standard?

Another things, there should not link any political / government parties into any business at all. Cause once the Politician lay hands on business, it will no longer a clear business.

Beside 1MDB, there are still many government own company that not many people heard of..

Pembinaan PFI Sdn Bhd.. which own EPF RM 20-47 Billion, The Director of PFI, is sitting on EPF board and also PFI broad, is this another 1MDB case?

I am really worry for the country Tun...

Hope Malaysia government is really wanting to build the country like you...

Salam Tun.

1. Mengenai isu 1MDB ini, jawapan dari pejabat PM dan Najib sendiri sehingga kini masih kabur lagi mengaburi.
2. Rakyat semua ingin kepastian, apa motif sebenar sehingga 1MDB berurusniaga di pusat lanun kewangan kepulauan Caymans sedangkan ada banyak lagi pusat [offshore bank](#) yang ada reputasi lebih baik, malahan di Labuan, Malaysia pun ada. Dekat saja tu ...!
3. Pepohon bisnes 1MDB diuar-uarkan seperti sudah tinggi melangit dan lebat merimbun – tapi sayang seribu kali sayang, bila buah yang cantik jatuh di laman orang. Sekaligus memberi persepsi bahawa motif dan agenda di sebalik penubuhan 1MDB didalangi oleh nawaitu yang songsang untuk kayakan segelintir manusia yang cerdik memanipulasi sikap tamak yang ada pada diri manusia yang diangkat menjadi pemimpin.
4. Saya fikir PAC, PDRM dan Auditor General juga perlu melihat buku akaun Terengganu Investment Authority (TIA) di mana bermulanya, asal-usul penjelmaan 1MDB.
5. Let's go back to the origin source code to unfold this mysterious nonpareil private ludicracy of 1MDB. Perhaps, its just a very simple case of 'Creative Accounting' after all, involving some naughty hands that got stucked in a cookie jar, where instead of removing the hands, they re-label the jar.

There are many ways to justify a Leader's capability.

Wrong management, Unsound Advisor who inputed wrong strategy with poor planning, never thin wisely all these are resulted Unhappiness to the whole nation.

Giving an example; during GE13, Winnable Candidates were not field – but ‘prefer’ to lost the seats ! What kind of strategy was that ?

I was wondering, is he thinking only one party or instead the whole game which able to bring in a better result as a whole -BN ?

Assalamualaikum Tun.

Ini adalah pendapat saya dan tidak kena mengena dengan mana mana pandangan orang lain di dalam alam maya ini.

Antara sebab utama saya berada di sini pada mei 2008 adalah kerana timbulnya perasaan ingin membalas budi pada bekas pemimpin negara ketika sedang dihina dan disisihkan oleh pemimpin semasa itu.

Perasaan tersebut timbul setelah saya membaca artikel berkenaan Tokku Paloh di dalam akhbar. Di mana ketika itu saya langsung tidak tahu menahu berkenaan tasawuf mahupun kaitan saya

dengan mana mana salasilah dan darah daging kerana saya adalah orang muda yang kurang mengambil tahu dengan sejarah (rasanya orang muda lain pun sama).

Seiring dengan perjalanan di dalam blog ini, pengetahuan dan penulisan saya makin berkembang setelah perasaan ingin tahu membuatkan saya membuat sedikit kajian sendiri.

Ketika dalam pencarian ; benarlah kata kata Syeikh malaysia bahawa yang terkehadapan dalam mempertahankan negara adalah orang tasawuf. Dan ilmu ini dikurniakan kepada orang orang yang baik. Kata kata yang menyuluh ketika saya dalam kegelapan.

Kata kunci kenapa saya berada di sini adalah kerana bekas pemimpin, Tun Mahathir dihina dan disisihkan.

Benarlah juga tazkirah ustaz berkenaan surah Ad Dhuha bahawa Rasulullah s.a.w tiada ibu dan bapa (yatim piatu) kerana Allah s.w.t menduga manusia (Aulia') dengan pandangan manusia dalam serba kekurangan dan kehinaan. Sehingga diangkat ke tahap yang lebih mulia di sisi Allah s.w.t

Berkenaan perkara 1MDB di atas, saya mengetahui apa yang ditulis melalui apa yang beredar di alam maya. Sama apa yang Tun tulis.

Dan pandangan saya adalah sama sebelum ini. Saya berada di sini lagi kerana Tun pernah berkata sebab untuk meneruskan blog kerana ingin membantu kerajaan dan bukan kerana ingin menjatuhkan kerajaan.

Ingin menegur dan bukan menjatuhkan kepimpinan.

Walau betul sekalipun, terdapat hukum dalam Islam dalam menjatuhkan pemimpin. Dan saya takut pada Allah s.w.t sebagaimana saya pernah lalui bersama sama Tun pada 2008. Hukum dalam Islam adalah keutamaan saya.

Kecualilah saya diberikan petunjuk sama seperti dulu dalam memainkan peranan dalam berblog.

Kita hanyalah manusia, amat lemah untuk mengetahui perancangan Allah s.w.t dan kita cuma boleh berusaha setelah diberi jalan dan keizinan (dari pelbagai cara) dari Allah s.w.t

Kita boleh selesaikan MH17 melalui izin Allah s.w.t tetapi kita tidak boleh mengetahui apa yang terjadi pada MH370 kerana Allah belum menghendaki kita mengetahui rahsia mentadbirNya.

Jadi saya tidak bersama sama dengan Tun walaupun perkara 1MDB ini adalah benar. Cukuplah bagi saya dengan respon dari Dato' Seri Najib yang telah diberikan (lagipun saya yang mintak Najib jawab dari mulut sendiri dalam komen terdahulu berkenaan hala tuju beliau dan beliau telah jawab dari mulut sendiri).

Kita berdialog dan berblog mengikut hukum melalui hidayah yang dipandu secara kita tidak sedar sebelum ini.

Wassalam.

On a totally separate note but something of huge significance to our fellow Malaysians, GST. With GST coming into action very soon, our current “smarter than all others” Government seems quite convinced that the impact of GST to our fellow Malaysians are very minimal. However, if we read this article, it seems to implies something very different. BN can pray hard that Malaysian still keep their old “mudah lupa” culture. If not, say bye bye to Putrajaya.

YABhg. Tun Dr.,

Itulah dia keadaannya kalau kita dapat pemimpin yang ada penyakit TB..!

Namun, penyakit TB itu bukan pula penyakit Batuk Kering atau Tuberculosis..., akan tetapi adalah suatu penyakit iaitu., ‘Takut Bini’..!

Bukannya jadi rahsia lagi bahawa Dato’ Seri Najib cukup takutkan si Rosmah Mansor (RM) tu. Perkara itu sudah lama diketahui ramai pihak. Kenapa boleh jadi macam tu..?

Antara sayangkan bini dan takut kat bini ada banyak bezanya. Apatah lagi apabila takutkan bini yang boleh mengganggu-gugat segala urusan dan kerja suami. Apatah lagi apabila urusan tugas suami itu adalah dalam menerajui dan mentabir segala urusan demi menjaga kepentingan negara dan juga rakyat.

Kalaulah begitulah keadaannya maka bukanlah suami yang menerajui dan mengendali segala urusan negara akan tetapi banyak pula dipengaruhi atau dicampurtangan oleh si bini. Bukan ke begitu..?

Maka.., siapakah sebenarnya yang banyak mempengaruhi dalam urusan 1MDB..? Apakah si Rosmah (RM) ada campurtangan dan mempengaruhi urusan 1MDB..? Soal itu.., semua rakyat perlu tahu. Ini bukannya perkara kecil. Silap-silap haribulan, boleh tunggang-terbalik ekonomi dan kestabilan negara dibuatnya. Jangan main-main..!

Bersambung lagi di lain ketika.., insya Allah.

Wassalam.

Tun

What has happened to our beloved Malaysia, 57 years after Merdeka in 1957 ? Have we lost our heads over MONEY MONEY MONEY by aping the Ruler's (1959-2015) GODLESS ULTRA COMMUNISTIC POLITICAL AND SOCIAL SYSTEM IMPOSED ON HIS CITIZENS THROUGH APPARATCHIKS. How many of us realize that the once balmy squeaky clean Republic of Singapore is now known internationally as a 'RICH CUBA WITHOUT THE HAVANAS BUT THE BANANAS ?'

We Malaysians practise a political System entirely different from the Ruler's (1959-2015). No democracy of the World with elected Governments do business to raise money for their coffers in lieu of the Private Sector. In America, they will call us COMMUNISTS. And yet, our beloved Malaysia has at least 3 distinct financial Empire recently built within 10 years with Government funds, breaching Government promises and imbalancing our delicate equation in big and small businesses amongst the different communities. Our Free Malaysian Style Democracy with Capitalistic Characteristics was not created by a Ruler but it was a System

formed through consensus before Merdeka in 1957. But in the Godless Ultra Communistic Republic of Singapore, the System was tailor-made by the Ruler (1959-2015) himself who finished off the job by tightening the legal loose ends being a skill practitioner of the laws. He MICRO-MANAGED THE WHOLE SHOW. It is not the Singaporean Digits which failed. It is their Political System which has gone toxic.

IN THE CASE OF OUR BELOVED MALAYSIA, OUR RELIABLE AND TESTED FREE MALAYSIAN STYLE DEMOCRATIC SYSTEM WITH CAPITALISTIC CHARACTERISTICS DID NOT FAILED US. It is the digits which failed us time and time again in recent years since 2003.

The Federa Government now spends much time juggling with billions and billions of ringgits instead of ruling over us and caring for the welfare of all Rakyat. As I said many times before, the GLCs should be despatched back to the Private Sector which has the job of making money FOR THE GOVERNMENT TO TAX ! The 3 MONEY EMPIRES SET-UP IN RECENT YEARS eg. The Kazanah, The 1MDB and the FELDA GV are managed by civil servants with no accountability and no ownership – AND NOT MICRO-MANAGED BY A SINGLE RULER ! So much MONEY MONEY MONEY managed by so FEW !

The above is the background to the presen daily money conundrum affecting the Rakyat. But let us put this MONEY MONEY CONUNDRUM WITHIN HISTORICAL CONTEXT.

The Chinese of Malaysia have always been cheated by a small number of their kind. I am not talking about fake doctorates, foundations etc but SCAMS which have been artfully exploited by Chinese crooks. eg.

1. 1949-1956. The MCA Social Welfare Lottery.
2. 1949-1962. The Tontine Caper.
3. 1959-1961. The Mushroom Insurance Caper.
4. 1971-1972. The Gemini Chit Fund Caper.
5. 1976-1981. The Co-operative Societies Caper.
6. 1976-2015. The RM2 tax-free incorporated churches Caper. 4 crooked Chinese tycoons formed their own churches to collect money. Of which, 2 of them are convicted felons !
7. 1976-2015. The Share Rigging and Insider Trading Capers.
8. 2003-2009. The Forex Caper.
9. 2009-2013. The Gold Bullion Caper.
10. 2009-2015. The Pennsylvanian Huckster Caper. This fellow is no better than the guy who wore a 555 undershirt who sold the MCA Social Welfare Lottery tickets in 1949. This Caper only adds to the long list of MALAYSIAN CHINESE CAPERS – these are all the same.

FORTUNATELY, MOST OF THE CHINESE ARE HARD-WORKING AND HONEST.unlike these caperers.

MALAYSIA BOLEH ! MALAYS BOLEH ! MALAYSIANS BOLEH !

GST Dan 1MDB : Apa Yang Rakyat Perlu Tahu

Tidak ada apa-apa makna jika ketirisan, rasuah, kronisme, salah guna kuasa dan lain-lain sebagainya didedahkan, tetapi hanya melihatnya berpunca daripada urustadbir negara yang tidak telus dan tidak cekap. Walhal sebenarnya, sistem pengurusan ekonomi itulah yang menjadi punca kepada berlakunya pelbagai kerosakan dalam pengurusan ekonomi sehingga menyebabkan kehidupan rakyat secara keseluruhannya menjadi semakin sempit.

Jika pembangkang berjaya mengambil alih pentadbiran kerajaan tetapi tetap sahaja menggunakan sistem kapitalis dalam pengurusan ekonomi, hakikatnya tidak akan ada apa-apa perubahan yang lebih baik akan berlaku.

Assalaualaikum Ybgh Tun

In my opinion:

All these investigations yang baru bermula eventhough it was weeks past since the first police report lodge and the expose by foreign medias.It should have took place earlier and speedily.Also need to update the rakyat on the investigations and there must be a time line,otherwise many more leakages and huge undertakings .Investigations could carry on for years and later be told once again no wrongdoings detected.

I do not understand why government must use rakyat saving investments for the overseas ventures. I would like to suggest that EPF (Employees Provident Fund) undertakes to invest these saving into building affordable homes (250K,159K,100K and less than 100 K) for the penyimpan.I do not understand why Kwasaland,Putrajaya Perdana and 1PRIMA undertakes these housing projects for the rakyat especially using EPF savings of the rakyat. I suggest houses built using EPF money must be for its contributors only,Not for government employees and not for those non EPF contributors. barulah adil and direct benefit to EPF members. please convince EPF to do the right thing and make sure it give direct benefit now and not have to wait until 55 to get meagre lump sum that still unaffordable for them to buy homes.I work in a private sector as a clerk,a single mother and now suffering from host of diseases from multiple minor strokes,asthma,nerve problems and suspected cervical cancer.retired and still homeless.

There are hundredth of thousand EPF contributors out here who felt that EPF had done so little and too slow.Why EPF allow these syarikats to gained profits at the rakyat's expense?Like this 1MDB.

It is important for the government to do the followings to 1MDB and avoid recurring events:

1. Identify and investigate who are responsible for this investments that caused loss/debt of 42billion rgt.
2. Why has no one in 1MDB or the finance ministry aware of it from the start? Whose responsibility ?
3. How did it ballooned to the mammoth debt? No monitoring?
4. Why was it not curtail immediately and person/persons responsible suspended or sacked from the job.?

A credit standby or bailout by any other names will not fix the problems or any other problems of this magnitude. A complete revamp of all the staffs top to bottom and serious review if Malaysia can do without 1MDB must be considered. Let's us not fix 1MDB like sakit gigi berlubang besar tampal koyok or tampal jalanraya berlubang without wanting to investigate thoroughly why it keep berlubang and keep tampalan.

As we are all familiar with the 1MDB issue, there are still some questions unanswered. Why is this? because they are afraid. To be honest Tun, I am not taking sides of the government nor am I taking side of the oppositions. I believe that everything should be fair and the government should not hide anything from the people. I also want the nation to be a better nation, but this seems so far to achieve with the current economical issues not only in the government level but also to the people. There too much poverty, too much injustice. Please, I hope the UMNO’ president will explain this 1MDB issue and tell the truth to the people. We only want justice.

Salam Tun,

This is a comment from my friend nicknamed “Old School”. He tried to register to comment but couldn’t due to unknown reasons (maybe new commentators are being deliberately blocked by hackers.)

So I am posting this on his behalf as I also share the same sentiments.

“Assalamuallaikum Tun,

I’ve never commented on your blog before despite I’ve been reading them since its inception. All these years you’ve been writing, I can only draw one conclusion that no leader past and present in this beloved nation has the dedication, utmost sincerity and the highest spirit of patriotism than you.

Unfortunately, the leaders we have today do not possess ten percent of your leadership qualities, be it in knowledge, integrity, vision, boldness, strength, dedication or sincerity. I honestly dont think Allah SWT will grant us anyone like you in the foreseeable future, we will only be left with mediocres. Now, we have slightly intelligent leaders but are crooks but most are copy and paste leaders where they are very much dependent on others to write their speeches and at lost when they are reading them, hence, they talk rubbish when confronted with the local press let alone the foreign press. They will never get the recognition nor the respect like you commanded.

Tun, you are not the type who show piety publicly but I can see there are so much fear in Allah SWT in whatever you do. This is what is lacking in this country leadership now. They ape the west especially USA so much that to them there is no right and wrong anymore but just grey. They commit crime with impunity and they not only allow gay marriages but also gay adoptions. This will make their citizens go into acute mental sickness beyond repair which they already have right now. The saddest part is that most of our voters now worshipping this type of freedom of choice.

Tun, I dont think you can recall this but my family and I met you once long time ago at the Pavilion Shopping Mall and when I shook your hands I told you this country needed you for 20 years more to guide and to tap your wisdom. I’m not at all surprised now to see the younger generation, my children and their children’s children wants you to come back and lead this

beloved country of ours.

We with our utmost sincerity pray to Allah SWT to shower you with good health for many more years to come to steer this country on the right path again so that we can be proud to be called Malaysians with the admiration of other nations just like when you were the PM of Malaysia.

Wasallam.

There is no justification in censorship in questioning the operation and lack of disclosures in the 1MDB fund if indeed this is what the interruption to the Tun’s website is about. Censorship in such circumstances is an act of desperation and an invitation to draw inferences of guilt or fear of the truth by the public about what is clearly a matter of public interest and public concern.

Dr. Mahathir Mohamed is indeed a man with significant experience in politics and as some say a man of vision. His questions by any measure of the yardstick are reasonable and his analysis of the operation of the fund as perceived by many proper.

As a senior citizen (and a former prime minister) he has as much of a right to speak out on issues he finds to be short of answers or short on answer as anyone else does without having to fear sanction or censorship. That’s a tool of Kit Siang, the Malaysian Bar and Anwar Ibrahim’s clique. It should not be adopted by a government of the caliber of the government of Najib Razak which has thus far successfully endured the scrutiny of a rattled public.

To censor Tun Dr. M or anyone else for that matter is to commit political suicide. Whilst I do support the prime minister in office who has been properly elected at the ballot box, like many others I do not support anyone censoring the views of Tun Dr. Mahathir (or anyone else) however hurtful their views may be as long as those views do not breach the laws of the country which would justify sanction in the form of censorship.

The current PM has built up a significant portfolio of unexplained conduct and precipitated a degree of uncertainty, insecurity and has failed to properly address several situations around which rumours swirl.

Whilst not given to the seduction of rumours, it is undeniable that many Malaysians tend to make truth out of these rumours (many of which are based on half known facts embellished by fiction where a complete explanation is absent or not forthcoming).

Rumours and conspiracy theories arise out of a vacuum created by silence and implausible explanation of events by those who ought to know better and have a duty to explain themselves but who do not.

Unless the PM makes the effort to thwart the staple of the opposition (rumours created by his silence and lack of response), he will create the opportunity and the situations like the one that exists now which demand a response provided eventually by people like Dr. Mahathir in his analysis of the 1MDB fund.

It all goes in the end to credibility. Inaction and silence coupled with censorship are no substitute for a proper, logical and rational explanation of things that are in the public interest. In fact silence at this time in this situation is not an option.

Silence and censorship are never options or rational alternatives to the right to be heard and the right to express oneself or where disclosure and transparency are concerned.

Tun Dr. Mahathir has his rights as any other to express his views and to be heard however offensive others may perceive these expressions and views to be.

The fact that the Auditor General has had to be called in to audit the affairs of 1MDB is in itself an indictment of the PM and his deafening silence on such an important issue as the Cayman Islands fund and the transactions alleged to have been undertaken through it which is the subject of much damaging speculation.

It is not acceptable to simply say the PM cannot be answering or answerable to 'all kinds of rumours'. As prime minister and head of the executive government the PM is answerable not only to quell damaging rumours about the 'radical' fund.

The PM and executive government also has a duty to respond properly to legitimate requests for answers in situations such as those relating to the 1MDB. It is not rumour that there has been an abject and utter failure to disclose the nature and structure of 1MDB and the reasons for it being parked outside jurisdiction.

The fact of that failure is the absence of any clear understanding or knowledge of how the fund is structured, why it is placed offshore outside the jurisdiction of Malaysia, what the trust deed that controls the fund, looks like or what it allows the trustees to do and whether such objects and powers of the trust under the trust deed are by Malaysian law lawful.

The failures to respond is also evidenced by the jurisdictional alienation of the fund (and anything connected to it including the alleged Jho Low transactions) from parliament and the courts of Malaysia.

It is incumbent on the PM to explain that situation and not to bring in the Auditor General who is not independent except in theory. The separation of powers doctrine is but a convention and a theory and not a cure for all evils or a panacea for the problems of the kind the prime minister chooses to ignore, remain silent on or sideline. In situations such as this the Auditor General cannot be totally independent because he is an officer of government.

This is not a case of rumour alone. Rumour and conspiracy theories are what arise out of a vacuum created by silence of government and those in authority with a duty to disclose maintaining a deafening silence on important issues like the controversial 1MDB. And this is an important issue made more controversial by the mystery that surrounds it.

There have been sufficient instances when the opportunity had arisen for the PM to stand up and to curtail or put a stop to these “rumours” as the government refer to them as.

It is the height of political and legal irresponsibility and arrogance to allow these questions and “rumours” to fester like an open festering sore when it ought to be dealt with in a mature and a sensible way with a substantial credible response. There is an obligation to answer the many unanswered questions that swirl around the fund and its operation but I acknowledge the obligation to answer is to not all of them as put by the Tun Dr. M.

The situation I am afraid the PM and his government face is the fact that the fund and its transactions are outside the jurisdiction of Malaysia’s parliament and its courts. It may have been placed out of jurisdiction in a place like the Caymans for precisely the reason why anyone parks their business affairs and finances in the Cayman Islands. Secrecy and minimal if not no disclosure at all being the answer.

The AG is unable to breach such firewalls wall as exists in the Caymans where the laws of that tiny British protectorate of a state are designed specifically to combat such intrusions and inquiries.

The Caymans has in the past defeated US presidential inquiries and demands for disclosure on many matters of a similar nature also involving governments (not theirs). It has silenced and frozen FBI led inquiries into cocaine and arms trafficking money parked there and other sovereign inquiries into the hoards stashed there by dictators after their overthrow.

Has the Malaysian government in anyone’s opinion any greater leverage than the US in this regard over the Caymans?

This particular matter of 1MDB stands out like the proverbial sore thumb because of the highly questionable nature of a highly leveraged high risk sovereign “fund” reputedly engaging in practices that would likely be unlawful if they were executed onshore in Malaysia where all of it necessarily belongs. and all of this is guaranteed by the Malaysian government?

What makes 1MDB more controversial is the wall of silence and the shroud of secrecy placed over it in a parliamentary democracy. It is an anachronism in a democracy as Malaysia is. It is violation of the principle of open government and dare I say also a precedent on undermining the concept of parliamentary sovereignty.

The fund as Dr. M has suggested is a fund owned and guaranteed by the sovereign state of Malaysia. On account of this guarantee the government must account to the people and to parliament when it is asked about the fund. It is not inappropriate or a privilege for any citizen to ask for answers to the fund which is highly secretive except for knowledge of its existence. That veil of secrecy needs to be drawn because Malaysia is a parliamentary and constitutional democracy.

What has occurred if it is proved in at least the Jho Low transaction and proved to be true, was that a series of round robin highly inflated transactions with the so called Saudi petroleum group and others involving state funds had occurred being underpinned by the security and obligations of state guarantees of the 1MDB fund provided by the Malaysian government.

But we can't prove the truth of these assertions by whoever it is who makes them because the right to know anything about the fund has not even been disclosed to parliament. That's because that is what the legislation of the Caymans which protects the secrecy of the fund does.

To park those funds in a pirates den in the Cayman Islands and to create a risk high leverage (debt) situation with non-disclosure laws in a low disclosure strict secrecy jurisdiction (with its history of money laundering) is to add fuel to the fire that a government as respected otherwise as Malaysia's is suspect.

Why Malaysia should be involved in such schemes (as reported) which would be illegal and in breach of its own laws if carried out locally but for the fact it is elsewhere is questionable.

Dr. Mahathir's statements cannot be ignored and certainly not one people ought to ignore. His right to speak up in whatever capacity is not the subject of government largesse, its benevolence or threats of sanction. He has a right like any other citizen to speak his mind on any issue especially where his voice carries far more credibility and weight than that of many politicians in active service today.

Tony Pua's comments on the other hand are not in the same vein as those of Dr. M's. Tony Pua firstly has a history of making statements or backing those of others which are short on fact and

long on fiction. So too are the comments of Sivarasah and Amrick Singh Siddhu or for that matter Ambiga Sreenivasan and the other hoots who are part of the so called opposition.

In order for the AG's report to have any semblance of independence or credibility to it now that the heat is on is for it to be preceded by a proper open independent inquiry with as broad as possible terms of reference to investigate what is a highly irregular set of financial transactions entered into by a state and its leaders who have failed to comply with parliamentary and constitutional rules.

No one is yet saying there is any guilt to be apportioned on anyone, but I won't say that there is none either. And having been put on notice by a number of parties without an axe to grind, the PM ought to take a less casual approach to this matter.

Not everything Tun Dr. M makes reference to is necessarily answerable, but to suggest the PM should not or cannot answer or is unanswerable is to say the least ill informed.

Salam Tun,

I am staggered by the sheer size of this venture. I am beginning to lose faith with the current administration and demand the PM to be held accountable for this colossal mismanagement. How could you mismanage public money at the expense of the rakyat?

Thank you Tun for questioning some of the rotten deals. Nobody can match your credibility when commenting on this as the opposition will be tainted by political motives.

Your voice of conscience is much needed to counter balance the expected lame excuses given by the numerous white collar morons involved in this shit.

I just hope that the people responsible for this will pay for their misdeeds even if it implicates the very top echelon of the government. Even if it means the PM should step down.

Salam Tun,

Izinkan saya petik daripada tulisan Tun yang amat bernas di atas,

27. Sejak Arul Kanda Kandasamy mengambil jawatan CEO, banyaklah kenyataannya yang tidak munasabah yang dibuat. Kononnya wang di Cayman sudah dibawa balik. Kemudian wang ini tidak boleh bawa balik. Kemudian sudah dibawa balik tetapi disimpan di Singapura.

Kenapa begitu sangat putarbelit? Inilah CEO 1MDB. Saya ingat Ketua Audit Negara akan hadapi masalah lekaran dan pembelitan 1MDB dalam urusan mengaudit.

Saya ingat satu negara akan dibelitnya dan diputar olehnya melainkan mungkin Tan Sri Shafee Abdullah mempunyai kaliber yang setimpal boleh mematahkan dan menjinak putarbelit En Kanda. Wallahu alam.
