

CORRUPTION IN MALAYSIA

Chedet.cc

15 February 2016

Tun Dr Mahathir Mohamad

1. There has always been corruption in Malaysia but for years after independence the scale was small. A country where corruption is rampant can never be developed. But Malaysia developed at a good rate.

2. At the time of independence Malaysia was a poor third world country. All development work was done by the Government through the JKR (Public Works Department) with its own staff.

3. But as Malaysia developed rapidly the Government machinery was unable to cope with the development of infrastructure such as roads and railways, Government offices and buildings and staff housing, generation of power and water supply, ports and airports, telecommunications etc. So contracts had to be given to the private sector.

4. The contest for contracts by the private sector created opportunities for corruption. The bigger the contracts the bigger would be the amount of illegal gratification offered.

5. However, the political leaders in the Government were not obviously involved initially. Then came Najib who believes in "Cash is King". This is just another name for influencing decision on the basis of money to be gained for the decision makers. As the contracts grew bigger the leverage and decision of the decision makers became more valuable. Unscrupulous contractors would offer bigger and bigger amounts in order to get the contracts. It came to a stage when the decision maker accepts higher cost in order to include his sweetener for the contract. In fact many are aware of demands for 30% share in the project if the contracts are to be approved. Of course proxies are used. And the gratification for getting the contracts can go into billions of Ringgit. Government had to pay more than the real cost of the project.

6. The decision makers collect lots of money. Getting proofs or evidence for cases of corruption is very difficult. No contractor would come forward to give evidence because he would be marked and his business and future contracts would be affected. Good contractors may withdraw and so do good officers. But they would never come forward to give evidence especially when their bosses and powerful people are involved. The more powerful their bosses the less would they be inclined to make reports on corruption. The Government says it will protect whistle blowers but only if the person exposed are not powerful.

7. The best way for the anti-corruption commission to act would be to audit the life-style of the suspects. Are they living within their means? If it is beyond their means a thorough investigation must be made on all sources of income of the suspect.

8. Although the Commission is free and can investigate even the Prime Minister but an unscrupulous Prime Minister can frustrate the Commission in many ways. Malaysian Prime Minister, Ministers and high officials are not very highly paid but with all the perks such as housing, payment of water and electricity bills, traveling allowances, motor cars and even aeroplanes, they can have a decent life in keeping with their official status.

9. But if their life-style is lavish, owning luxurious homes and mansions in the country and abroad, their shopping involve buying of high priced things occupying crates and crates, their personal entertainment such as weddings etc very lavish and if they have money in the banks or elsewhere very much in excess of their sources of income, then it can safely be assumed that they may be in receipt of illegal gratification. The source of great wealth needs to be investigated by the authorities and institutions of the country.

10. The Inland Revenue Board was set up as an independent authority so that they can act without fear or favour. It is within their right to investigate everyone including the Prime Minister.

11. Of late we are seeing clear interference with the functioning of the Anti-Corruption Commission. Since the Board of Inland Revenue appeared not to be doing their duty in a case involving the Prime Minister, principally the ownership of the 2.6 billion Ringgit in his private account in Ambank, this amount of money is obviously beyond what a Prime Minister of Malaysia can have, investigations need to be made.

12. Because of the status of the Prime Minister concerned authorities set up a special powerful task force to investigate the source of this money. There was to be no fear or favour. The task force consist of the Attorney General, the Inspector General of Police, the Governor of the Central Bank and the Anti Corruption Commission.

13. Malaysia is fortunate in that officers of Government are professionals. They do not get involved in politics. They simply take orders from the elected Government. But what if the Government ask them to break the law? Well they did not think this would happen. But this has happened. They are in a quandary. But better obey orders than refusing orders and have to face unpleasant consequence.

14. Today Malaysia is listed among the 10 most corrupt countries in the world. No doubt the involvement of Dato Seri Najib in the formation and management of huge sums of borrowed money for 1MDB with clear support from the Government and the subsequent loss of a big portion of this money, the buying of Independent Power Plants at inflated prices, the commission of 10 per cent to Goldman Sachs as well as the interest rate at 5.9 per cent, the inability to repay the loans, the 2.6 billion Ringgit in Najib's personal account, plus lots of other unsavoury stories and the publications in foreign press, lead to Malaysia becoming one of the 10 most corrupt in the world. Saying that it is all untrue and the Attorney General has cleared Dato Seri Najib does not carry water. Only a full investigation including the identification and questioning of the donor or donors, sources of income and the documentary evidence of money transfer to Najib's account would clear the air.

15. The AG has no credibility at all after his dismissal of the reports by Bank Negara and the MACC. He proposes life imprisonment for leaking Government information – a sure indication that he is hiding the truth.

16. As a good Muslim he should swear on the Quran in a mosque witnessed by mosque officials and the public that the reports did not implicate Najib in any way. He should not try to cheat by vowing in his heart something else, and swearing aloud something else. That would be a double sin. He will go to a worse hell.

17. And the new publicity chief suggests I am doing this because I want to be arrested. That is as clear a warning as can be of the wish to arrest me.

18. And so Najib's Cash is King creed must be promoted because it advocates corruption as a means of holding on to power. The country is now one of the 10 most corrupt countries but don't say anything about 1MDB and the 2.6 Billion Ringgit if you wish to remain free.

dahulu Tun cakap demokrasi mainan mat salleh dan tidak sesuai di negara ini ... pembodek-pembodek angkat tangan katakan "yes yes"

sekarang terkejut dengar Tun katakan demokrasi amat diperlukan supaya kerajaan tidak salah laku ... pembodek-pembodek pun angkat kaki katakan "yes yes"

macam-macam pendirian pun ada ... tukar-tukar pendirian ...

Tun nampak lebih kepada hendak menjatuhkan "perseorangan" daripada "menyelamatkan negara" ...

pilih seseorang kata dia baik, lepas itu tumbangkan kata dia tak baik, tersilap pilih ... pilih lagi, silap lagi, tumbangkan lagi ... nak sampai bila rangkaian ini perlu diteruskan? Tumbangkan apa-apa yang sedia ada, macam mana nak pastikan yang baru itu tidak salah pilih lagi?

Bukankah revolusi pada sistem pentadbiran yang diperlukan agar ketelusan itu dapat dipupuk? Apakah sumbangan Tun selama 22 tahun dalam usaha ini? Apakah cadangan Tun dalam usaha menuju ke arah ini untuk memperbaiki apa yang kekurangan?

Tiap-tiap hari pakcik depan rumah saya mengadu tepi jalan penuh dengan semak ... terbeliak mata melihatnya, dialah punca semak hari ini kerana menyemai benih masa dia jadi ketua kampung dahulu

...

Salam Tun,
Tumpang laluan.

Salam Saudara Wajaperak,
Saya merujuk kepada tulisan saudara yang dibawah ini,

"I would not say that I agree in certain manner that Tok Jangut and Mr Mubarak Chan 'bash' people but for goodness sake please respect their profession of MEDICAL DOCTOR that is a physician..

Can we say that our achievement match those of them?
Honestly no.

We may agree or disagree but please have a thinking cap comprehension of how difficult it is to be a doctor."

Ya, diakui bukan mudah untuk menjadi seorang Pegawai Perubatan, tetapi bukanlah mudah juga untuk menjadi apa-apa sahaja didunia ini tanpa usaha yang gigih. Mungkin untuk menjadi penagih dadah atau sebagai agak mudah tetapi bila difikirkan, untuk membeli dadah mereka harus berusaha juga seperti mencuri, merompak dan sebagainya, mmm.... susah juga.

Seterusnya saya mengulas serba sedikit mengenai penulisan ini,

"I am sorry and would apologize for you in their behalf.

Can I say something of their approach?

Do you know how the Surgeon and Specialist 'bash' up their protege and junior Doctor's?

Very bad from the perspective of layman. Ask Tun, ask Mr Mubarak Chan and ask our not so 'friendly' Dr Tok Jangut...)

They almost shout at their 'protege' when doing ward round picking wrong here and there and all subordinate must respect them because they are God given to all of us. YOU WANT TO DEFIED GOD?...:))"

Perkara-perkara kebiasaan yang dilakukan semasa ditempat kerja, kita seharusnya biarkan ianya disana sahaja. Apabila kita berhadapan dengan orang awam (seperti didalam blog ini), kita perlu menjaga adab sopan kita demi memertabatkan tahap 'professionalism' kita.

Salam kembali Saudara Wajaperak.

Terima kasih Tun.

Assallammualaikum Tun.

Saya mohon ruangan.

Tuan umranrc

[Apa yang saya cuba sampaikan, bidang yang dibesarkan-besarkan oleh saudara hanyalah sebahagian sahaja daripada tamadun dunia ini]

Tak faham saya maksud tuan.

Apa yang saya faham telah pun saya terangkan banyak di dalam Al Quran yang saya pelajari.

Mereka yang tidak berdaya amatlah jengkel dengan kebenaran yang disebutkan Allah di dalam surah Al Fath.

Muhammad (s.a.w) bersabda..katanya Musa (a.s) lebih banyak disakiti tetapi dia bersabar.Tetapi setau saya Muhammad (s.a.w) yang paling banyak disakiti.

Mengapa kita tidak kembali ajaran agama Islam yang sebenar?

Memanjangkan sillaturrahim? Bertukar-tukar fikiran di dalam E-MEL??

Saya masih menunggu-nunggu alamat e mel tuan..

Terima kasih tuan.

Terima kasih Tun.

Assalamualaikum Tun,

Why is it Tun there are still people who are lamenting that it is because of you Vision 2020 will fail?

After you resigned Tun they have almost 20 years to steer the country towards that vision. What happened along the way Tun? Did they abandon completely the very steps and foundations that you have prepared and set for them to follow? If they have then the new administration is to be blamed.

They purposely crumbled it down. They wanted a new vision of their own. What is it Tun? Vision 1MDB? Vision RM2.6billion?

Tun, does Tun Musa Hitam still holds a grudge on you? Now he's blaming you for the failure of Vision 2020, he predicted it to be so. He said you removed potential political leaders, and instead you retained and trained followers. And these trained followers took over the leadership and are loyal to whoever sits at the top.

Doesn't he sound to you like someone frustrated because he did not achieve his dream? What is his intention? I thought he is your friend Tun. But he did admit you are brilliant Tun. So in other words

Tun, your closest aides are to be blamed for all the failures after you resigned, and not you. Can anyone refute this claim? Tun Musa Hitam has indirectly indicated it is so. This is what I deduce from his statements.

Maaf Tun, jika diizinkan saya ingin memanjangkan sedikit pemikiran saya. Saya percaya mereka (saya fikir Tun tentu tahu siapa mereka) ini sudah lama bertapak di blog Tun. Blog Tun seperti 'rumah' kedua mereka. Kalau Tun tak suka kepada mereka ini sudah tentu Tun tutup 'pintu rumah' Tun terhadap mereka. Tun sudah faham dengan gaya 'perangai' mereka, dengan gaya mereka 'berkomunikasi', dengan gaya mereka 'menyampai' dan dengan gaya mereka 'berinteraksi'. Saya percaya ada diantara mereka sudah lama 'mengenal' antara satu sama lain. Mungkin pada tahun lepas dan tahun ini 'pengenalan' itu menjadi sedikit 'rapat' dan personal. Nampak Tun ok je dengan mereka.

Kepada mereka yang masih baru ini mungkin mengundang 'budaya kejutan' dengan cara 'aggressiveness' mereka ini.

Tetapi lama kelamaan kita dapat atau terpaksa menerimanya kerana itulah mereka, itulah cara mereka. Kita tak boleh mengubah mereka tetapi tak salah kita memberi sedikit teguran atau pendapat. Dan terpulanglah kepada diri kita sendiri (bukan mereka) bagaimana dan cara mana kita hendak menerima balik hujah atau kritikan mereka terhadap kita. Mereka yang sudah lama 'berumah' disini sudah membina keyakinan yang tinggi dan tidak gentar dengan sebarang serangan, berani tapi bukan bersifat sombong sebab sombong bukan dalam kamus mereka. Kita yang tidak faham dengan cara mereka akan ingat sebegitu. Sudah tentu kerana bersifat manusia kadang2 kita tak berapa suka dengan gaya atau kata2 mereka yang kurang manis. Tetapi kadang2 bak kata orang, kebenaran itu pahit dan pahit itu manis.

Maka kepada yang baru masuk 'rumah' Tun atau yang ingin merasai 'rumah' Tun, janganlah rajuk dan ambil hati sangat dengan mereka. Sejukkanlah hati terhadap mereka yang telah terlebih dulu makan asam garam dunia ini. Hati orang muda cepat naik darah dan hati orang tua cepat tersinggung. Kadang2 orang yang lebih tua bercakap ada maksud yang tersirat atau untuk 'testing' orang yang muda saja. Orang yang banyak pengalaman begitu caranya. So buka minda dan lapangkan dada.

So kalau bolehlah kita jaga hati antara satu sama lain barulah boleh duduk dalam 'rumah' Tun dalam suasana harmoni. Contoh yang paling baik, ikut cara Tun. Saya sendiri tak tahu bagaimana Tun boleh menerima dan menghadapi segala macam serangan yang disembur oleh pihak lawan dan kadang2 pihak kawan. Kalau tak ada ketabahan hati yang kuat, kalau tak ada keyakinan diri yang kental, kalau tak ada sokongan dan kepercayaan daripada keluarga dan kawan, sudah tentu Tun lama dah rebah. Alhamdulillah, Tun masih berdiri teguh kerana berada di pihak yang benar. Siapakah yang layak dan sama taraf dengan Tun?

Maafkan saya Tun, saya bukan nak memandai-mandai, hanya nak berkongsi saja. Yang boleh terima Alhamdulillah, yang tak boleh tak perlu fikirkan sangat.

May Allah Bless you Tun. May Allah Protect you Tun. May Allah grant you wealth in health, happiness and knowledge. Take extra care Tun and Thank you so much.

Salam YAB dan Yang DiKasihi Tun,

Maaf Tun, pembedulan – tertinggal 'tahun' (Feb 22,2016 12:31 AM)

1. PM Najib @ Ah Jib Gor diraikan dalam majlis (tajaan UMNO?) sambutan ke-40 TAHUN beliau bergiat dalam politik.

—

Saya harap Tun GANDAKAN USAHA DAN KRITIKAN untuk menyingkirkan PM Najib @ Ah Jib Gor. Beliau tidak selama-lamanya boleh berkuasa; namun adalah amat penting untuk menurunkan beliau secepat mungkin (soonest possible) sebelum beliau melakukan lebih banyak kerosakan kepada UMNO / BN khususnya, dan Malaysia amnya.

Jika cuma pada PRU-14 beliau ditumbangkan, saya bimbang kehancuran sudah di tahap yang amat sukar untuk dipulihkan (too late...:() terutama dari segi tahap KORUPSI (corruption level) di Malaysia.

Terima kasih Tun.

Tun

When the Federal Government under your Prime Ministership appointed the Distinguished and Honourable Tan Sri Basir Ismail and myself to the Board of Bank Bumiputera on 1st January 1984 to restructure the Bank, we became the bosses of the Chief Accountant who is the brother of isayso as he claims.

I recall his brother was brilliant, competent and courteous who did not bully me, call me a quack doctor, bodoh, abuse, insult, assassinate my character, vilify me. No wonder he became one of the finest corporate chiefs wanted on both sides of the Causeway.

On my proposed forums at the appropriate time on Tun Dr Mahathir Mohamad and Lee Kuan Yew at Cambridge, I hope to get my friends the richest Muslim in India and Sir Martin Sorell of the World's largest advertising firm to be the Moderators.

Assalamualaikum Dearest Tun,

For our beloved Uncle MC.

It's hightime that you Sir as the most learned and knowledgable blogger here to actually create your own blog.

Not to worry Sir you now have a long list of followers from September 2011 to 21 February 2016 here in Tun's blog and I rest assured you won't be bullied ever again but praises all over there.

Then again I rest assured nobody will belittle you in your own blog because everybody is sacred with one tall good looking guardian angel who wants to be a general among the rank and file there.

What to worry with tons of money running by the hundreds of million hinggit you could actually reward them base on their entries and at last there is something in common with your Most Honourable and Distinguished Pee M slogan 'Cash is King'.

Lastly my 2 cents advise if ever you wants to donate to charity make sure don't bank into anybody personal account even though he could be your England good friend you know who.

Most Malaysian are not aware Sir that for an organisation to get tax exemption they will have to apply from IRD under Section 44(6) Akta Cukai Pendapatan 1967 and it doesn't apply to individual meaning that when you donate to an individual he or she is taxable under the law.

Anyway if you donates to your Pee M then it's okay I guess because the last time he received some donations he was scot free from taxes!

I wish you all the best Sir.

Wassallam Tun.

Salam YAB dan Yang DiKasihi Tun,

1. PM Najib @ Ah Jib Gor diraikan dalam majlis (tajaan UMNO?) sambutan ke-40 beliau bergiat dalam politik.
2. Bukankah majlis sebegini satu PEMBAZIRAN disaat ekonomi yang merudum?
3. Orang lain yang telah bergiat dalam politik lebih lama (contohnya Tun M) pun tidak pernah buat majlis sedemikian. Tun M lagi hebat – berjaya jadi PM yg CEMERLANG selama 22 tahun!
4. Lainlah kalau PM Ah Jib Gor dapat bertahan sebagai PM Malaysia selama 40 TAHUN, atau pun paling kurang 23 tahun. Ini memang pecah rekod, dan wajarlah beliau diraikan (jika menjadi hakikat).
5. Tunku Aziz yang amat BERINTEGRITI apa khabar? Mengapa beliau senyap saja dalam isu 'derma RM2.6 Billion' dan 'wang SRCI RM42 Juta' yang masuk ke akaun2 peribadi PM Ah Jib Gor?
6. AG (TS Apandi) pula buat helah 'batal / tunda / elak' dalam isu skandal RM2.6 Billion dan SRC International. Takut? 'Everything to hide?' Ataupun sedang siapkan 'skrip' terbaru?
7. Eloklah PM dan AG berterus-terang. Lama kelamaan KEBENARAN akan terserlah.
8. Terimalah hakikat bahwa PM Najib @ Ah Jib Gor memang KORUP dan terlibat dalam KORUPSI dan PECAH AMANAH. Lebih baik LETAK JAWATAN sekarang sebelum keadaan jadi lebih parah.

9. DS Salleh Keruak mesti 'block' juga blog2 pro-Najib yang turut melanggar undang2 negara kerana memfitnah & menghasut; jangan CUMA BERTINDAK MENINDAS mereka yang tidak pro-Najib. Jika menghukum, mestilah ADIL dan SAKSAMA. Ataupun, memang benar kita sekarang berada di bawah UNDANG-UNDANG NAJIB?

P/S: Amat menjengkelkan yang blog Chedet sudah jadi tempat SEGELINTIR mereka yang ada agenda peribadi – masalah2 peribadi dan untuk mempromosi diri/agenda sendiri. Seperti yang saya pernah bangkitkan, mereka ini memang tidak menghormati langsung pemilik blog & HAK PEMBACA2 LAIN – bodoh sombong. 'Ustaz' sew*l pun ada – kerjanya menghukum/ menghina orang yang tidak sependapat dengan beliau – 'arguments' pun hampeh. Maaf Tun...

Terima kasih Tun.

Salam Tun

Mohon laluan untuk berbicara dengan Saudara Wajaperak.

Salam Saudara Wajaperak,

Dunia ini "besar", kemajuan didunia ini boleh berlaku hanya dengan majunya pengetahuan kita

tentang pelbagai perkara. Sebetulnya, bidang perubatan sendiri tidak boleh maju sekiranya tiada sokongan dari kemajuan sains dan teknologi.

Apa yang saya cuba sampaikan, bidang yang dibesarkan-besarkan oleh saudara hanyalah sebahagian sahaja daripada tamadun dunia ini.

Luaskan pemikiran minda kita, yakni lihatlah dari pelbagai sudut kehidupan. Sekiranya Pegawai Perubatan yang senior memaki hamun mereka-mereka yang baru itu adalah sebagai tradisi kerja mereka, tidakkah anda terfikir bidang-bidang lain juga begitu?

Jawapannya YA. Ini adalah kerana kita tidak mahu mereka-mereka yang baru memulakan kerjaya dalam apa juga bidang sekalipun untuk melakukan kesilapan. Saya sampaikan sedikit contoh disini. Sekiranya seorang pegawai perubatan melakukan kesilapan, berkemungkinan seorang manusia akan kehilangan nyawa pada satu-satu masa. Sekiranya seseorang mekanik bas melakukan kesilapan semasa memasang sistem brek bas, tidakkah 44 orang boleh kehilangan nyawa?

Maksudnya, kita semua mesti bertanggungjawab serta professional keatas kerja yang dilakukan. Untuk ini, setiap pelatih pekerjaan akan didedahkan dengan maki hamun supaya mereka beringat akan tanggungjawab masing-masing.

Baiklah, sekarang kita semua sedar bahawa didalam apa juga bidang pekerjaan, perkara-perkara seperti itu berlaku. Akan tetapi bolehkah ianya dijadikan alasan untuk kita membuah pendapat kita secara kasar begitu dihadapan puluhan mahupun ratusan ribu Rakyat yang membaca ruangan ini? Disinilah kita sepatutnya membawa sifat professional kita. Tiada sesiapapun melarang untuk memberikan pendapat walaupun pendapat-pendapat tersebut berkemungkinan berlawanan daripada yang tercatat disini, akan tetapi kita harus lebih beradab dalam menyampaikannya.

Salam Kembali Saudara Wajaperak.

Terima Kasih Tun untuk laluan ini.

Assallammualaikum Tun.

Saya mohon ruangan.

[Dear Mr Mubarak Chan.

I will consider giving the RM 140 millions to charity]

Our governments and state Hospital's is in dire need.

You must know because you practiced before.

Among main issue's is patient waiting time.

Many have design software to facilitate this issue.

MOH (Minsitry Of Health) have pledged that from the registration to first service provider the waiting time will be 30 minutes.

I have got the permission from then Dato' Dr Pratapha Senan to initiate a computer software to adress the issue in 2004.

The main contention like always is the directive.

It is not dead but I cannot 'erect' enough to perform.

Currently in Perak,only HRPB is awarded the software but it is still very long way before it can actually help reduce patient waiting time.

As a doctor you may have seen those patient waiting area when crowded.

It is truly sad the lab result which can help making decision faster is 'conditioned' on certain policy.

Dear Mr Mubarak Chan.

When I went visiting Jabatan Kesihatan Negeri Sabah,Dr Nelbon the Deputy Director (Health) said thing is a lot worse in Sabah citing KK Luyang which daily attendance is 1,000 patient a day.

He was interested in my software and ask for a paper work.

I cannot grant him because Dato' Dr Nurdianah our former State Director mum on my request.

Prior to that I have asked Dato Dr Razin our former Sate Director for allocation of budget to commenced the trial run of my software alas I have been denied again by the panel.

Consequently the number of patient increased every where daily in our outpatient department.

If you can afford a little time maybe I can show you or anybody who cares that my software is feasible by commendation no less than our former State Director.

If you happen to know (I know you do) any philanthropist please consider time and space for the demonstration of my software for 'Reducing Patient Time' in Outpatient Department.

Like Tun,you must take care of your health.

I have been rude before and uncouth.But that is only my fulfillment of role as an Agent Provocateur.

If ever I need to be contacted this is my email zubirwaja@gmail.com or my hp 010-3356516

Thank you for your consideration for the patient.

Maybe Tok Jangut can help?..)

Terima kasih Tun.

1. All the unsalubrious comments on the Net about me were left untouched for years by me so that these act as a trap for the unwary.

They stole my money amounting to nearly RM 100 millions and connived to do me in the hope that I die first. On 21 February 2016, I did not. They pay and pay. My claim for damages is for RM 140 millions. The biggest ever legal claim in Malaysia.

Assalamualaikum, Tun.

Rakyat could see a big leap in addressing the issue of corruption, with the set-up of MACC, during the era of Pak Lah.

Rakyat would like to see more big "fishes" caught and convicted, particularly those cases already divulged to public knowledge, such as NFC and Ministry of Education officer's not channelling of allocations to schools, but somewhere else claimed to be for flood victims' welfare etc.

Rakyat would like to see the country's leaders practicing "Leadership by Good Example".

[Dear Mr Mubarak Chan.
Glad to know you are from the medical world too. Many thanks]

I cannot say that I am from exactly the medical world because I am the lowest from any rung of speciality. But one thing that I do is understanding. And I understands them correspondingly even by the lowest of the hierachy.

Last night I was in Aman Jaya Convention Centre. I saw how Sultan Nazrin mingle with the crowd of his subject. I saw something different from what the critic's say. The critic question role of the Sultans. But I say that they have performs their role ably.

This go as well when we were invited for an occasion in Istana some time ago.
I saw something in contrary what the critic says about role of the Palace.
Some thing are just not meant for layman.

So..

Mr Mubarak Chan.

Please continues highlighting your good deed in your anecdot medical practice's.
Forget and forgive the critic's.

I would like to say that your experience in 'Tropical Medicine' still happening to our junior Doctor's. Imagine having to study in England, America Egypt and Europe and elsewhere only to stumble phenomenon not in their textbook defined as 'Tropical Medicine', Internal Cassification Of Disease's 10 et cetera.

But what is the best virtue of Medical Doctor that have been amply demonstrated by your goodself?

The ability to improvise in the nick of time.
That is what intelligence is all about. The practical intelligence.
Dr Palaniyappan our ex Deputy Director said..

'The Doctor might not be expert in many fields but our intelligence help us to any mitigating circumstance's'.

Thank you Mr Mubarak Chan sir.

Terima kasih Tun.

I am sorry and would apologize for you in their behalf.

Can I say something of their approach?

Do you know how the Surgeon and Specialist 'bash' up their protege and junior Doctor's?

Very bad from the perspective of layman. Ask Tun, ask Mr Mubarak Chan and ask our not so 'friendly'

Dr Tok Jangut...)

They almost shout at their 'protege' when doing ward round picking wrong here and there and all subordinate must respect them because they are God given to all of us. YOU WANT TO DEFIED GOD?...))

The utterance and mutterance among the junior Doctor's will be..

'What is all this crap? We took the punishment in OT (Operation Theater), Labour Room, the ER (Emergency Room), Outpatient Department and the Clinics. We have trouble having decent meal, trouble with our spouses, children and the public and we have to put up with our bosses crap too?

THEY WOULD HAVE UNDERSTAND OUR PREDICAMENT..

THEY ARE DOCTOR'S TOO..

WHAT IS IT??

THEY WANT TO SEE US FAIL AND HEAP UP THE MISERY AMONG ALREADY AILING MEDICAL PROFESSION??

This complaints is not new.

They are ages as old as the medical profession.

What the students did not realize behind those charade and facade of the 'LORDING SPECIALIST' is a very concerns of the quality of medical care and professional care.

One Ophthalmologist Dato' Dr B who is Sultan Specialist and Consultant told me..

We tried very hard to instill the old values in Medical Profession but I am afraid that they erodes away..

Lemme tell you one story from my doctor friend account.

His Dean failed him in the final exam by just a mere point. (One only).

He begged earnestly but the Dean insisted on failing him.

I rather you fail me here than you fail me in the Operation Theater.

Mr isayso..

There is a lot in mind and thought of Medical Doctor's.

Mr Mubarak Chan have been generous enough in relating us his contribution in life saving patients.They are worth billion's in earning but he instead chose to highlight another matter. Simply said he is a humble man.
For all his contributions for Malaysia we must salute him.
We might strongly object the abject nature of Dr Tok Jangut approach.
But I believe he meant well.
We all here agree to disagree.
I disagree the way they glorified Najib and the gang.And the way the see certain issue's.
Respect have to be earned.
Why not we give them the earning so..

THEY CAN RESPECT US INSTEAD?..

Terima kasih Tun.

Tun,

For Tok Jangut/Mubarakchan.

Mahathir was making a serious thesis and you joked? You are belittling his thesis. You have no respect for Mahathir and for the time he spent on writing that post. When you gave your excuse for your frivolous remarks, I replied.

I had hoped that reply would have made you grow up and realise that there is time and place for a joke. But that was not the time. For reasons best know to you, you failed to refer to it.

You said respect had to be earned. I am afraid you will not get any.

Firstly, I must congratulate you for making an entry in this blog without insulting Tun. Suddenly, Tun's post is now regarded an important thesis by you. Go through the entire post to remind yourself how you have insulted the thesis.

I did not see the need to respond to your reply because my main point is your failure to read into a joke shows you are dumb ass and not a Harley Street doctor. In my comment yesterday, I said **I made a joke and I readily accept it was out of context, flipant even, but it harmed nobody.** It recognized your comment.

I enjoy the respect I get from my family and friends, my workers and from my suppliers and customers. Why in heaven's name would anyone want to be respected by a quack doctor so quick with cheap, gutter level insults? I have said this before to you: **BODOH.**

Assalammualaikum Ayahanda Tun,

Anakanda rakyat mohon ruangan berbicara dengan bro Zubir @ wajaperak yang sekarang ni di bawah naungan Dr pakar beri MC dan Dr kambing gurun sesat di negeri orang.

Bro memang kelakor orangnya, nama samaran gempak tapi pendirian alahai lemah lembut gayanya (macam lalang) sejak dapat berkawan dengan para pegawai perubatan pencen kununnya.

Olehkerana terlampau seronok diterima masuk dalam kumpulan pakcik-pakcik pencen (bukan 'The 3 Stooges' tapi up sikit 'The 3 Musketeers' barulah boleh berlungan dengan 'The Magnificent 6' versi

terkini tanpa bro) maka bro lupa apa yang pernah dicoretkan bro tidak lama dahulu di bawah tajuk Malaysia's Shame pada 8 Feb 2016 jam 7.21mlm;

[Oleh itu wahai kesemua blogger yang benar-benar sayangkan Tun dengan tulus ikhlas mari kita belashah Tok Jangut..]

Setuju sangat dengan Isayso, Umranrc, Sudin dan Daeng bahawa "respect has to be earned" bukan hak mutlak seseorang Pegawai Perubatan dan tidakkah anda sedar bahawa waimanya seorang Perdana Menteri sekalipun tidak akan dihormati sekiranya banyak sangat terpalit dengan skandal dan salahlaku!

Tahukah anda tangan kedua-dua pakcik pencen inilah yang banyak menfitnah dan menghina ayahanda Tun yang juga seorang bekas doktor perubatan.

Bro Waja, saya bersetuju jika anda bermati-matian mempertahankan Ketua Pengarah anda Datuk Dr Noor Hisham Abdullah yang ramai orang tidak mengetahui masih melakukan pembedahan selaku pakar bedah walaupun berpangkat Ketua Pengarah.

Terus terang saya katakan di sini bahawa saya telah hilang hormat pada pakcik MC yang mempersendakan amarah ayahanda Tun dan rakyat terhadap Najib dengan beliau masih mempertahankan dan menjulang Najib sambil memuji-muji Tun dari sudut yang lain.

Bagi si kambing sesat itu beliau memang suka dijadikan "punching bag" dan selagi beliau menghina ayahanda Tun selagi itu kami akan terus membelashah beliau supaya beliau hilang tumpuan terhadap Tun dan biarlah kami jadi galang ganti untuk menerima cercaan dan makian dari beliau.

Untuk perhatian anda ini adalah taktik dan strategi perang saraf dunia siber kami mempertahankan Negarawan yang dikasihi hanya sekelumit jika dibandingkan pengorbanan besar ayahanda Tun terhadap rakyat Malaysia keseluruhannya.

Kepada sdr wajaperak pulanglah ke pangkal jalan dan janganlah terus-terusan menghina orang yang tidak setaraf dengan anda walaupun beliau hanya seorang pembuat roti bernama Musato saudara muslimin kita juga.

Wassalam Tun.

Assalamualaikum Tun,

This is sure one big headache Tun. What is our policymakers doing? Aren't they suppose to make our lives easier? They, the policymakers are like playing aci-aci with us. One day like this, one day like that.

Oh dear, where exactly are they steering us towards to? Yesterday they steered us forward. Today they steer us backwards. Tomorrow they'll steer us to the right. The day after tomorrow they'll steer us to the left. Till they too become pening kepala they don't know where to steer us towards next. Why are they so fickle minded? This is getting very tiresome and annoying. Are you feeling it too Tun?

Tun, what is happening to them? One says this way, the other says that way. As if they are not in unison. Why propose a policy if they haven't done enough study on it. They announced to put forward the proposal and then backtrack. And a non-Malaysian got the nerve to say on behalf of the Malaysian government that it is just an eyewash to cool down the local resentment. I think definitely we have a kabinet kayu. Why are they so silly to show to the people they are weak-minded? Why be angry and become so emotional just because the people disagree? They have to buckle up and not added more SHAME to Malaysia. Start acting wise in words and actions if they want to stay on.

Now this 1MDB and donation issue is really getting complicated each day. This issue will forever be rewind and rewind until and unless DSN be brave enough to face and sue WSJ for criminal defamation and false allegations. If he wants to gain back the people's confidence and trust he has to take this one and the only one wise action. The people want to know the answers. More questions popped up than answers. What are his advisers and lawyers doing now? They have to work around the clock to make sure he's forever clean and be seen clean, as the most powerful person in the country he has to be until the next PRU.

Please excuse me Tun, on another matter. As was said before, facts or false will reveal itself. Who to believe and what to believe is another matter. The strained relations here is a sad affair, to me especially. Would it be possible to forgive and to forget cause we don't know when is our calling. To forgive is divine. It is a comforting feeling. It will lift our burdens from our heart and soul. It will make us see and think clearly. It will make us a better person than yesterday, Insyallah. Wouldn't it be nice to be thankful and grateful and able (and some has) to share their most precious wealth ie. their life's experiences with us, be they good or bad, as something useful to be learned so that we can be a better person. Our life's experiences are our best teachers. I know it is easier said than done. But when we still have the will, that is given by the Almighty, do it before it's too late. Sorry if what I say has offended anyone here. Thank you.

May Allah Bless you Tun. May Allah Protect you Tun. May Allah grant you wealth in health, happiness and knowledge. Take extra care and Thank you Tun.

Assalamualaikum Tun.

Kita semakin sedari sejak akhir-akhir ini "balaci-balaci" Najib semakin hilang akal dan marah-marah bila berucap.

Selain Salleh Said Keruak, terkini adalah Zahid Hamidi yang mengkritik dan marah-marah mengatakan bahawa "bekas pemimpin ibarat orang gila talak mengkritik kerajaan".

Saya mahu maklumkan bahawa "bekas pemimpin" yang mengkritik kerajaan bukanlah gila talak tetapi sebagai orang tengah kepada rakyat dan kerajaan.

Mereka menyuarakan bantahan rakyat dan bukan bercakap tiada asas.

Rakyat sedar bahawa "Dr" tiruan yang dimiliki oleh Zahid sekarang adalah bukan datangnya dari "kebijaksanaan ilmunya" tetapi adalah "dr" yang diperolehi ilmu "ampunya".

Dalam hal yang serupa, pingat yang membawa gelaran "dato" atau "datuk" sekarang seolah-olah semakin hilang nilainya.

Kepada Zahid dan Salleh Said Keruak, kami cabar kerajaan sekarang kalau tidak percaya teguran "bekas pemimpin" yang mengkritik dan menegur kerajaan itu adalah benar datangnya dari rakyat, sila adakan PRU14 sekarang. Jika takut, sekurang-kurangnya adakan PAU dalam tahun ini segera, kita lihat apa hala tuju pemimpin yang ahli-ahli UMNO mahu.

Jika Najib, Zahid dan Salleh Said Keruak anak jantan, sila pastikan adakan PAU segera, bukan berdolak-dalik politik "kotor" yang bertiga ini amalkan selama ini.

Wassalam.

For wajaperak, a good friend and gentleman like those I admire and respect for a life-time. Glad to know you are from the medical world too. Many thanks.

From now on every anecdote of my medical experiences I will dedicate it to you, The first.....

I was on emergency call as a houseman earning RM 401 per month in Ward 14 of the KLGH. I remember it was late afternoon and I was beginning to think of going off to have my bath and dinner and some rest. But as always when I thought about of sweet things when on call, up pop an unexpected real emergency case which would send all my pleasant thoughts of relaxation and leisure out of the window of my mind in a jiffy ! And what was this urgent emergency case ?

Lo and behold ! As the patient was trolleyed in, I could see a very sick Indian woman patient groaning with discomfort. The nurses rolled her on to the bed without washing her body or changing her soiled clothes. To say she smelled a bit would be an understatement. I still remember how her odours of that moment ! She was a mine worker living with her family in the far outskirts of Kuala Lumpur.

Her urgent predicament was that her left arm was swollen and taut as big as an elephant's leg after being bitten in her left hand by a big black cobra while doing her ablutions by the side of a mining pool. Oh My !

In all my years of intense medical study in the northern temperate country of England, there had never been a single reference to the treatment of tropical snake bites especially by the big black cobra in those voluminous medical textbooks which every medic endeavoured to remember. What to do ?

In the London hospital where I was trained, no clinical student was permitted to apply invasive treatment on a patient for legal reasons. What to do ?

To me this Indian woman patient with her left arm now swollen to the size of an elephant's leg posed a real medical problem and dilemma to me. In my untested mind, it dawned on me vestigially that the patient needs an anti-dote of anti-snake venom serum fast, and very fast because she may succumb to heart and kidney failure and the symptoms and effects which go with toxic snake poisoning. What to do ?

As always in us human beings, urgent conditions made our adrenaline flowed in greater quantities and faster. Suddenly, my mind clicked.

I asked the Indian staff nurse, ' Staff nurse, what did the other doctors give to snake bite patients. ' She replied loud and clear, ' They (some of the doctors were trained in India the land of over 500 types of snakes !) always prescribed this anti-snake venom serum made by the Institute of Anti-snake toxin serum in Calcutta.'

I quickly scribbled off a note to the dispensary and soon this vital life saving bottle (not phial) of anti-snake venom serum arrived. It was about 250 cc. With great speed I read the descriptive label and injected the whole bottle of anti-snake venom serum into the groaning Indian patient. I went off after I made sure that the drip was in working order.

After my nervous experience in applying the drip to my first emergency case of the 12 year old diabetic Malay boy with the collapsed veins, by now I could introduce the drip into any vein blind folded !

The following day, the patient's swollen arm had subsided and by the late afternoon she was discharged. Another ill and groaning patient took her place ! In those days, there were about 37 emergency patients in a day and night.

MALAYSIA BOLEH ! MALAYS BOLEH ! MALAYSIANS BOLEH ! THE WORLD CHINA AND SINGAPORE LOVE VERY MUCH OUR ICONIC UMNO ! UMNO BOLEH !

Salam Tun,

With your permission Tun, I would like to express my thoughts on some of the contributors here.

I'm a Malaysian, I can speak well both in Bahasa Malaysia and English. In both languages, my writing ability is questionable yet I believed many can understand. Many writers here, although there are some English technical issues, the content of the writings still understandable by many. In view of this, the comments about "bad" English shouldn't be made especially from a non-Malaysian. Lucky enough we're in Malaysia, if somehow we're Thai's or Japanese for that matter, do not expect the locals to appreciate anything that has been written by foreigners if it wasn't in their local language.

I agree with the notion that "respect is earned". Disregard whether you're a Medical Officer or in any other field, you'll be respected nonetheless if you earned it. Noticed that I used MO to describe "Medical Doctors" and not Doctors directly. It is simple fact actually, the title Doctor should be reserved for those who actually added something to the knowledge of the World i.e. those who got thru their Philosophical Doctorate Papers.

For some foreigners who seems to bash up Tun on the past history, I simply do not understand it. Why? Were you denied of anything during Tun's reign? Simply lost. The truth is, my personal self also doesn't agree with some of the policies made by Tun, but that can't be made a reason to bash up anyone! Very unprofessional yet we say we're a leading medical practitioner in London and so and so....

Another issue, I was looking for something new from writers here, unfortunately some simply playback what has been written time after time. For example, repetitively talking about "junior executive receiving huge amount of shares", "family with Singaporean VVIPs" and many of this sorts.

Yes, we need to know our history in order to move forward, but repeatedly saying the same thing will not help as I believe Tun's motive in starting this blog is to provide constructive comments in moving this nation into a good and prosperous future.

Thank you Tun.

You may not know but there are doctors among convicted murderers as well]

Of course I do.

In HBUK and Tampoi there is a certain ward that house only certain type of criminal. The criminally insane.

They came from all walk of life and sadly from all kind of profession.

Lemme see..

Is a baker training worth million's..:))

From certain point of perspective it is true we must care only our own deed.

From another there is something legal and binding role and function of muslimin namely Fardu Kifayah.

In secular approach we would say social and civic obligation.

At present najib and his henchperson running riot in Malaysia.

We all must stand united and must do something meaningful to stop this rot.

In another there is hadith that decree that Najib and his band of merry men might just be forgiven and we who hold ourselves mighty and haughty might not..

So..we have to tread carefully.

Some blogger is brazen here.

They make fun of muslimin practices and yet have gall and cheek pontificating other's of MUHASABAH..

Tsk..Tsk..Mister..

Let's all agree to disagree.

They who could not exchange e mail is a coward.

But they have this right.

But remember you are not practicing muslimin who are willing to die for their faith..

So..bona fide..

Assalam Tun.

Another flip-flop coming very soon....?

The hopeful Banglas have their say....

"Putrajaya's temporary freeze on foreign worker intakes will not kill off its agreement to recruit at least some of the 1.5 million workers offered by Bangladesh, an official in Dhaka has asserted.

Speaking to the Dhaka Tribune, Bangladesh Expatriates' Welfare and Overseas Employment Ministry acting secretary Begum Shamsun Nahar also described the move as an "eyewash".

"The Malaysian government has made the announcement to calm local pressure groups who are opposed to recruiting foreign workers," she was quoted as saying by the Bangladeshi newspaper.

She then expressed belief that Putrajaya will honour the memorandum of understanding it signed with Dhaka on Thursday, just a day before it announced the moratorium, to recruit some of the 1.5 million labourers available.

Deputy Prime Minister Datuk Seri Ahmad Zahid Hamidi yesterday announced that Putrajaya was suspending the intake of all foreign workers with immediate effect and urging employers to hire locals instead."

please respect their profession of MEDICAL DOCTOR

Respect has to be earned. Whether a person is a doctor or an astronaut makes no difference to me. Thus I will respect a taxi driver if he does not gouge his passenger and delivers his passenger safely to his/her destination. I will respect a businessman if he borrows money from a bank or a relative and repay the debt instead of running away for protection under the country's laws.

For isayso. Thank you very much for giving me so much publicity which I do not deserve.

Do you realise that at least 3 members of your family benefitted from the efforts of my family on both sides of the Causeway ?

1. isayso became rich and wealthy from a huge allotment of shares by a Senior Minister after 1992 through his own efforts by using Sime Darby as a platform to touch base with the good and the great while he was a junior executive and ranked pari passu with the other 10 million Malays.

In 1972, my concept of the ownership of Sime Darby by Malay interests to give the Chinese a leeway in business was supported by the Father of Development Tun Abdul Razak and YBM Tan Sri Tengku Razaleigh Hamzah. The acquisition of British assets were completed by our beloved Tun Dr Mahathir Mohamad in 1992.

2. isayso famous brother is now employed by his hero Lee Kuan Yew's son the Prime Minister who is the son of Lee Kuan Yew who was my brother-in-law !

3. isayso relative – "M" – appeared in a picture in The Edge 20 February 2016 as a senior member of the RHB Bank which is made up of Kwong Yik Bank (1913) founded by my father and his friends and Development and Commercial Bank (1961) founded by our prominent Malaysian brother-in-law.

So you see isayso, 3 members of your family including your goodself benefitted from the efforts of the Father of Development, Tun Abdul Razak, YBM Tan Sri Tengku Razaleigh, our beloved Tun Dr Mahathir Mohamad and my father, our prominent Malaysian brother-in-law. your hero our brother-in-law, Lee Kuan Yew, his son the Prime Minister and myself. Without their efforts, you would not be

where you are today- ennobled, very rich, a family and a luxurious life-style with famous relatives. What more does a person want, the, faradina, isayso ?

I am exceedingly happy. I do not understand why you kept on insulting, abusing, vilifying, bullying, harassing, walloping, put words into my mouth, etc me. I am a apolitical chinaman with no political powers to stop you and your Opposition Boss on your way to Putrajaya.

Is it because I said the following Comments which did not meet with your approval after our beloved Tun the host here did not find anything untoward anyone because my comments have always been based on facts unlike your type of character assassination to kill me. Please remember I am a nobody.

1. The Political System as created by the crooked conman and Dictator Lee Kuan Yew (1959-2015) is a Godless neo/ultra Communistic Political and Social System imposed on the citizens by apparatchiks aka meritocrats.

2. Our Malaysian Style Democracy has capitalistic characteristics and a Malay bias with our loyalty and devotion towards our Yang Di Pertuan Agong and the Royal Sultans, and our cherished Constitution which safeguards Islam and all the other religions.

3. The Three Golden Attributes to be a Prime Minister.

i) Commonsense. ii) The Ability to Think out of the Box iii) Compassion

4. The 47 Failed Policies of Lee Kuan Yew. Vide. <http://chedet.cc/?p=464>

6. Why the Opposition failed ?

i) In 1997, if the Distinguished and Honourable (YAB) Deputy Prime Minister had taken a holiday in the United States, he would have returned as the Distinguished and Honourable (YAB) Prime Minister of Malaysia. One Easy Step.

ii) In 2009, if the 32 Aduns had been sorted out BEFORE and NOT AFTER the 12th General Elections, the Opposition would have been in Putrajaya since. This would have cost them no money. One Easy Step.

iii) In 2013, if the Opposition had boycotted the 13th General Elections, checked into the 1st Class Ward of the KLGH and declared a 100 day fast the Opposition would have been in Putrajaya since May 2013. One Easy Step.

7. " I STILL SAY THAT THE CLOSEST AIDES CREATED THE SCANDALS AND PUT THE BLAME ON OUR DISTINGUISHED AND HONOURABLE (YAB) TUN DR MAHATHIR MOHAMAD AND OUR DISTINGUISHED AND HONOURABLE (YAB) PRIME MINISTER DATO SERI NAJIB BIN TUN HAJI ABDUL RAZAK."

8. T.J.S. GEORGE a prominent journalist of Mother India from his Blogspot June 2010.

" The West has spread the impression that Singapore's Lee Kuan Yew is Asia's outstanding economic miracle man while Malaysia's Mahathir as a cantankerous ogre, hater of white people and dictator to boot. Both are made up portraits. What makes Mahathir special is that while pursuing economic

progress he never lost sight of the larger picture of human values. That cannot be said of Lee Kuan Yew and certainly not of Indonesia's Suharto or Thailand's Thaksin Shinawatra."

For Tok Jangut @ Mubarakchan or vice versa]

I would not say that I agree in certain manner that Tok Jangut and Mr Mubarak Chan 'bash' people but for goodness sake please respect their profession of MEDICAL DOCTOR that is a physician..

Can we say that our achievement match those of them?

Honestly no.

We may agree or disagree but please have a thinking cap comprehension of how difficult it is to be a doctor.

Next to pilot and cosmonaut and few other's that cost million to train and skillful achievement, Doctor are hard to come by.

Every single of them. So have a respect for a profession only few can attain.

They have steady hand, finger's and nerve of steel to perform surgery.

We need all those succesfull surgery done by physician and Dr.

You would not have a BAKER holding a scalpel over you in OT (Operation Theater) would you??

So..

Let have a moment of stand down here and everybody please say the magic word..

Thank you MR Mubarak Chan.

My Opinion

Corruptions happens everywhere even in Singapore

As money is never King

Money is Evil

Money Blinded us not just Najib

What I hate of my Govt

Is the attitude of the Govt servant from Head to Toe

The attitude of never stringent

The attitude of too much Bodek the Leader

When the head comes the body the tail

Starts to wiggle

Too much respect being given to these leaders

Instead of looking into the very foundations of the organization

The purpose of the organization

The leader , when to much being Bodek

He then feel He is on top of the world

He feels he owes every body every thing

These could be the reasons of Najib feelings

The also reasons The AG thought the Law belongs to him

Yes every of us has our own Agendas

Lets no be hypocrites on these

These agendas should be met with rules & regulations not suka suka

Our Govt does not know how to do Business

The reasons of our collapsed and Debt ridden

Many foreigner have advantage and make Millionaire out of our Incompetency

That has lacks us a lot

Malaysia are indeed Rich in Natural Resources

But Very Poor in Human Management

The very Weak , Un disciple attitude

That results to Corruptions

The Tidak apa attitude

The Asal Bolih attitude

The Bodek Membodek attitude

The Police , the Authority Officer not being respected by public

The not sure knowledge of their scope of work

The Ular attitude , go home while working
The playing of HP whilst on duty and many others

These contributes to Govt Failure
It starts with the Leader and us all
As these has been The Stupid Budaya Melayu

For isayso. The once courteous, affable and gentle Malay gentleman who was my ex-employee at Sime Darby, could obtain a huge allotment of shares from a Senior Minister (over and above the other 10 million Malays who ranked pari passu with him) and retired to wallop innocents like innocents as an Opposition closest aide. No wonder the Opposition lost every time.

Assalam,

In my opinion, either corruption or no corruption, i can't see any significant development or seeing Malaysia moving forward in any sectors.

Yes, there are many so called "development" in every state of Malaysia. But most of them are left "vacant". Why? Because its totally not affordable for 90% of Malaysians.

How can we Malaysians be motivated when our fellow asean region worker working in Malaysian earning more income than Malaysian. Are we that lazy? Are them really hardworking?
Please show some respect goverment. Not just when PRU you give us "candy" to chew on and spit back out once we know it rotten inside.

Najib lose vote from this working class people who are been pushed to work extra mile for the lesser income and get robbed openly by implementing more and more taxes by the goverment.

Do foreigner pay income tax? Road tax? House tax? Company tax? Or even zakat? While local need to pay all these. No wonder the money that flows out of the country reach billions.

To be the TOP 10 out of 200++ country that existed in this world. It must be a heck amount of money that we are talking about here and take a lot of "effort" to get there. Even our football team are ranked 171 in FIFA ranking. I wish they could take examples from our goverment.

For Malaysian Airlines, i hope you'll get the "tender" to transport 1.5million bangladeshi to Malaysia. It will boost the revenue for the next 3 year(s).

But, let look at the brighter side right, we are the United States of Malaya. We are united, live in harmony and multiracial tolerance.

TQ

Assalamualaikum Tun,

Another good article by Kunta Kinte in BH today Tun. It also got to do with the controversial issue about the need to bring in 1.5 million Bangladeshis to the country. I would like to quote a few lines (in Malay):

"...sebagai negara membangun, ekonomi kita sebenar besar berbanding banyak negara yang sama taraf. Salah satu sebabnya adalah dari zaman penjajah lagi kita bergantung kepada buruh asing. Kerana tak cukup buruh tempatan atau buruh tempatan kurang sesuai, British bawa masuk buruh dari Cina, India dan Jawa untuk kerja di ladang2 getah, kelapa dan teh, lombong2 emas dan timah, perhutanan dan perkhidmatan awam. Jadi ekonomi kita lebih besar daripada yang boleh di tampung oleh tenaga buruh tempatan . Aliran ini berterusan sampailah hari ini. Yang buruknya adalah bila boleh bergantung kepada buruh asing, kita jadi malas dan cari jalan mudah. Ramai orang kita marah dengan kemasukan buruh asing. Tetapi nmereka lebih suka menganggur atau buat kerja ringan yang

rendah gaji berbanding apa yang dibuat oleh buruh asing.....”

.....”Cuma yang kita tak berapa seronok dengar adalah import pekerja asing ini dah jadi industri berbillion-billion ringgit dan dikuatiri sudah dijangkiti unsur salah guna kuasa dan rasuah. Ini yang kita tak mahu. Kita takut kerana ada orang buat duit atas angin, negara kita dibanjiri orang asing yang kita sendiri tak tahu latar belakangnya.....”

Tun, if it's alright with you I've something to speak out my mind. You can wallop me Tun if I'm out of boundary. Please not too hard Tun.

Tun, is it wrong for me to say that this trading of humans for working purposes is like modern day slavery, with the exceptional that they are well taken care of according to labour laws and regulations agreed between the countries concerned. Maybe I shouldn't say slavery...it's too harsh. You have another word for it Tun?

I presume people in all sectors of businesses know pretty well the importance of having skilled, hardworking and dedicated workers for the growth and development of their business. But have they really used up all available human resources here in Malaysia Tun? Had not our tok nenek moyang dulu-dulu did all these 3D jobs? We are forever thankful for their hard diligence and blood sweat and tears to bring us where we are now.

But Tun, the question I want to ask is who make us, the Malays malas? Who segregated us into categories?...the Indians in the estates, jkr, pwd, the Chinese in mining town ares, ports, trades and of course the Malays in the kampong areas, fishing, farming and the civil services.

Sad to say Tun, the Malays since the very beginning have been pampered and nurtured this way, easy going and complacent, by whom?...by the government at that time of course, before and after Independence. The Malay youths had no choice in terms of studies, they either were in the arts stream or the science stream. Then they were sent for further studies in the country or abroad and expected to work in air-conditioned offices. They were never told or taught in schools and higher learning the importance, the self-sacrifices and self-satisfaction of working under the sun for love of the country. I know Tun because I'm one of the product. I was ignorant, I just follow the course laid out by the authorities. What's the outcome Tun? The stigma that the Malays are malas and choosy were thrust on our youths from that day on wards.

So who's to blame Tun? the authorities? our parents? or ourselves?

Do we ever learn from past mistakes?

The people are not against development but they are afraid because they had seen and learned from past mistakes when these foreigners in turn controlled their economy and lifestyles. This huge influx of foreigners or the import of human workers will surely lead to social ills, no doubt about that. The authorities even now cannot control or keep track of the many so many many millions already living here, how are they to clamp down another 1.5 millions Tun. What if these 1.5m (are they all males Tun?) marry and beranak pinak or bring their spouses, where are we going to place these many many millions plus the kacukans plus whatever there is to plus? Peninsular Malaysia will be taken over! Nay, we have brilliant DSN and his merry making (money?) men, to come with all the Plan Bs they have in the 'kabinet' to sooth the people's insecurities and sentiments.

Tun, what does this got to do with corruption? Hope it got nothing to do with corruption or misuse of rules of law. Hope the bringing in the many millions of them is just for the sake of recruitment for the development of our country, nothing else no hidden agenda, no 'buat duit atas angin', right Tun. Doing business is not an easy job, is it Tun?

So many things to take care of. The main thing is everything done must equate with rules of law and honesty.

May Allah Bless you Tun. May Allah Protect you Tun. May Allah grant you wealth in health, happiness and knowledge. Take extra care and Thank you Tun.

1MDB says:

"Contrary to the Wall Street Journal's baseless and unproven allegations, 1MDB has consistently maintained that it has not paid any funds to the personal accounts of the prime minister.

"This has been reiterated by multiple lawful authorities, including the Malaysian Anti-Corruption Commission, attorney-general, and various reputable international publications, who have confirmed that these funds came from Saudi Arabia," 1MDB said in a statement today.

1MDB thinks people in Malaysia are stupid.

WSJ never ever said monies were paid DIRECTLY into the accounts of the the Honorable and Distinguished Prime Minister Nabin Tun Abdul Razak.

For all. Bloggers especially for those who wanted to know more about the 'closest aides' and their scandals from me. I am not permitted to say what is forbidden by the Official Secrets Act. Hence, the true tales which follow have no name or chronological order. You will find these 'closest aides' funny to the core !

Let us stop walloping one another and enjoy a few of these true tales from my treasury of a life-time ! For my friend wajaperak, I have a special one for you later !

1. This closest aide not only did he made a North to South Pole fight, he circled the globe on the same trip as well. This is fortitude for you and me.

2. This closest aide, a son of some occupying force in Asia, began life carrying brief-cases for his bosses in a tiny factory down South. In time, he established a platform from which he could sell trust properties cheap, cheap to his Kuala Lumpur and Hong Kong who were also my friends. Lucky him ! Whilst our precious ringgits take a dip, he now collects Stradivarius violins made in 18th Century Cremona, Italy at US5 millions a piece. He boasts he has many which he on lent to the Singapore Philharmonic but not the KI Philharmonic. Maybe even the Shanghai Philharmonic.

3. An eye-witness who was probably drunk and naked as well, told me that this closest aide who was naked as a new-born babe had a gala time in the penthouse suite of this 6 star hotel in Hong Kong.

4. My phone rang in the early hours of the morning. My Swiss friend was on the line. He said, ' I just had dinner with your friend and his companion at the Beau Rivage Hotel.' ' Oh yes !' I replied. My Swiss friend was referring to my 'closest aide' friend who at his peak not only collected works of art but the Singapore Art Gallery with its owner as well ! Tis a small world !

5. This snobbish 'closest aide' used to ignore my wife and daughter living in the same block of luxury flats behind Harrods Knightsbridge London along Sloane Street even though they were in the same tiny lift. This block of luxury flats has a fountain in front of the entrance. He was obviously not a Malay !

6. This closest aide, my good friend, ran his brand new Aston Martin into the flooded road. He claimed to cycle into Malaysia with just a Straits Dollar and a screw driver in his pocket. I knew his brothers living in their mansion with a tennis court in Cairnhill Road, Singapore since 1948. Their fortune was made through the ingenuity of his father during the Korean War. Later, the Americans had a long memory.

7. One closest aide invited me to fly with him in his private jet to Hanoi of all places. Wild horse will not drive me to fly by these private jets. No way. Tun Tan Siew invited me to fly with him in a single engined 8 seater Cessna. They landed in an emergency in Batang Berjuntai without me !

8. There were so many 'closest aides' carrying the goodies who should be at work and not at play, walking along New Bond Street, Regent Street, Oxford Street, London whom I could observe from the upper deck of a London bus that these could make up a rugger team with reserves !

9. One closest aide demanded from the lady communications manager on arrival in New Zealand, a companion. The lady manager who was my relative later arranged for this closest aide to be flown home in a stretcher !

10. One closest aide bumped up his Board Meeting attendance allowance of S\$350 per attendance to S\$3,500 every time. The Finance Department had a good laugh every time.

It is a small small World !

MALAYSIA BOLEH ! MALAYS BOLEH ! MALAYSIANS BOLEH ! THW WORLD CHINA AND SINGAPORE LOVE VERY MUCH OUR ICONIC UMNO ! UMNO BOLEH !

Tun,

For Tok Jangut @ Mubarakchan or vice versa,

You [Faridina] and that Sudin chap must be related. You are a jackass and he is a donkey – both of you are laughable.

The same could be said for you and Mubarakchan (MC). You two are so much alike in the way you insult people. Amazing likeness and manner of speech. More to this in a while.

Back in November Tun had a post entitled "Everything is Fine." I made a joke and I readily accept it was out of context, flippant even, but it harmed nobody. What I said was:

"Everything is Fine" applies to Singapore as well.

They fine you for uninating in the lift, for jaywalking and even for chewing bubble gum.

Your reply was what is so readily expected from you now, a Harley St doctor, made millions, have a Rolls and drive a third-rate car.

Isayso – you are stupid. What is wrong with fining or punishing anti-social activities. I wish Malaysia has the same laws instead of the scandals that now p league the country.

I replied I was shocked that a supposedly intelligent person like you could not discern a simple joke. I concluded you are an airhead. This may sound morbid, but if MC accidentally discharges his gun while cleaning it and the bullet goes into the middle of your forehead, the surgeon will find you survived because the bullet went clean through. There is nothing inside. Therefore, look in the mirror before you comment about the intelligence or standard of *England* of another person.

Back to the odd couple if I may.

I have wondered why MC and you have studiously avoided each other like the plague. You let loose on people who have made negative comments about Singapore and heaped insults on MC's beloved Tun. And MC of course is well known for his hair dryer treatment of people who make positive statements about LKY or Singapore. One would expect some kind of faceoff. None whatsoever. Even people like me challenge you but not MC.

MC offered this pure drivel response to me on why he is staying clear of TJ:

There is no proof that Tok Jangut has not been set-up by the Opposition deliberately for the Opposition members embedded in this Distinguished and Honourable BLog to attack him/she to show that in 2016, they are all for the love and support of our beloved Tun Dr Mahathir Mohamad. But what did the Opposition say about Tun from 2003 to 2015 ?

Huh? There is no proof that the Magnificent 7 are politicians or opposition members and yet that does not stop the name calling and insults. The above response is so ridiculously lame.

And now this similar naivete on monetary exchange policy (plus the usual insult, of course:

Najib is brilliant and has done a lot for Malaysia. For example, a low ringgit is good for Malaysia. Malaysia's exports are now cheaper. If exports are cheaper, Malaysia will sell more and soon the economy will improve. It might even help Mahathir sell his third rate Protons.

Hello? The above comment is somewhat similar in effect to what MC has said more than once; that Malaysia adopted a monetary policy to facilitate exports. This is his reason whenever someone makes the point that the Ringgit/Singapore dollar has gone from 1:1 to 3:1.

A case of 'wise men think alike'? It can't be because you Tok Jangut is a proven dumb box and wise businessmen don't go bankrupt. Thus it is more likely a case of 'fools make the same mistake'. Or could it be a case of two persons wearing the same trousers? Hmmmmmmmm.

It is more important to debunk the overly simplistic views spoken like the Gospel truth.

I will offer facts that can be verified. I do not manufacture headlines or facts, hoping to convince a dolt.

I refer readers to the Summary of Monthly Trade in 2015 compiled by MATRADE:<http://www.matrade.gov.my/en/malaysia-exporters-section/33-trade-statistics/3812-summary-of-malaysias-monthly-trade-2015>

The gap between exports and imports (balance of trade) was narrowest in July 2015 at a positive RM2.37 billion. The widest gap was recorded in October 2015, positive RM12.16 billion. The average monthly gap for 2015 was RM7.85 billion positive.

The fact is Malaysia imports a lot. While a weak exchange rate benefits exporters, importers face a hefty increase in cost. A manufacturer who imports raw materials but sells its manufactured goods mainly in the local market must either absorb the higher cost or pass them on by increasing the selling price. This is why people are complaining about a rising cost of living. On top of this we have GST. Caviar must cost more these days, eh MC@TokJangut? Lucky for me, telur from ikan tenggiri is

still affordable. That's what BMW-chauffeured junior executives in a GLC can only afford. Never mind. Tastes good deep-fried.

There can be offsetting effects of course. For example, a manufacturer who now pays more Ringgit for imported raw materials shall be able to recoup the increased cost if the manufacturer in turn exports its goods in US dollars, unchanged. The luckiest are sellers who use mainly local raw materials and sell a lot overseas. If the goods are normally priced in, say, US terms, they simple get more ringgit; 4.30 ringgit per US dollar now as opposed to 3.30 before.

Exporters can also benefit if the demand and supply for a particular product is elastic. The weak ringgit is beneficial to exporters generally speaking because the buyer pays less of the foreign currency involved. On the other hand, a down to earth vegetable grower in Cameron Highlands will not sell more greens to a Casino hotel in Singapore because the hotel's guests can only eat so much a day.

If you think so lowly of PM DS Najib, why don't you form a political party of like minded people and take him on in the next election? Stop wailing like a baby. It's pathetic.

As I said before, PM DS Najib is simply brilliant. He has now visited Telsa. Proton may have to close shop if he convince Telsa to set up a factory here. This is good as it will stop the of wasting public funds.

To farina.

No wonder Rafidah Aziz lamented that the standard of English is deplorable in Malaysia. Your comments are a confirmation.

I have never said I can only afford a 2nd hand Proton. I said that when I bought a Toyota, it was stolen within 6 months. I now drive a Proton. It is the safest car because nobody wants to steal a 3rd rate car. The car thieves do not want to dirty their hand stealing a Proton. So unlike you, it is not because I can only afford a Proton that I buy one. I own a Rolls in London. I bet you have not smell the inside of such a car.

I was a leading doctor in London in my field with a clinic in Harley Street. I have made more money than I can spend. That was the reason, I retired early. Unlike you, I do not need to find money for my family. They are already well provided for. I now do charity work in Indonesia, Pakistan and now among the refugees in Europe. I come to Malaysia to buy medicines for these poor people.

Malaysia does not feed me. In fact, it is the other way round. I feed Malaysia by spending my moneys here. You think Malaysia will give residence to a poor person or a person without substance? Get

real!!! For your information, I got residence in Hong Kong and Australia as well. I challenge you to and see if you can even get residence in Thailand.

I do not have to insult your intelligence. You insult your own intelligence by the things you say. It is obvious from the way you express yourself that you did not have the intellect to go to a good university. Your English is so poor. That is why people like you have to work all your life because you are so poorly paid and can only afford, at best, a Proton. The cleverer ones go to Singapore and get paid much more and, with a low ringgit, automatically 3 times more. Therefore, you cannot perceive that I am not low class like you and that I do not need to work.

You and that Sudin chap must be related. You are a jackass and he is a donkey – both of you are laughable.

Simple Common Sense

We know its a game played in Life

Not just politician ,businessman , employee even in Mosques management these includes others religious management too

There are Insulting , Defamation , Discrimination ,Lies ,Stealing , Bad Mouth
Bad Stabbing and many others Satanic verses exists

Having huge sum of money deposited into Najib personal account
Simply it reveals two facts

1. Najib being framed . We Malaysia will be behind him

2. Najib knows what is going on .That builds up upon his luxurious and the whole family package lifestyles that he can never deny

ITS WSJ now the second time news
Swiss AG reveals so

But nevertheless matters should be place on the table
No such leniency on part of the AG

No one is above the Law Not even the AG nor the Sultan
If Politicians nor Sultanate nor any Rules is above the Law
Najib is behaving like President Al Assad
The Nation will Breaks down and shattered into pieces

When one failed to pay his monthly car installment
Finance will legally get Towing Service to Tow the said vehicle
And if the said Tow vehicle also failed to pay their monthly installments
The Finance will legally ask another Towing to Tow the unpaid Towing vehicle

These is Foundations None can Rule

Dearest YAB Tun,

Allow me Tun:

- 1, This 'Tok Jangut' thinks he's so smart and very knowledgeable.
2. But the truth is that he does not even know who TOK JANGGUT was. He misspelled 'Tok Janggut', but when someone pointed it out he claimed that he's using an 'avatar' out of respect to the real 'Tok Janggut' – so he only used 1 'g' in the avatar. Alahai...what a stup*d explanation to cover his own ignorance.
3. He claimed that he's a foreigner (and not a Malay); I believe he's from Singapore since he loves Lee Kuan Yew so much.
4. He also worships the Americans ('orang putih') – something that 'Tok JANGGUT' would never consider doing. This also proved that this fake 'Tok Jangut' has no idea who 'Tok JANGGUT' was.
5. 'Tok Jangut' also thinks highly of our most CORRUPT PM, Najib @ Ah Jib Gor.
6. To 'Tok Jangut', please stop making a fool of yourself here. Not only you look like an idi*t, you also show how ignorant you are to all the readers here.
7. This fake 'Tok Jangut' MEMALUKAN the real TOK JANGGUT.

Thanks Tun.

*** May Allah S.W.T. bless Tun and family ***

38. It is not malaysian government, it is umno government in putrajaya that decided to go with this syriah compliance strategy.
39. No man is an island.
40. Such legacy started when tdm imposed capital control, depeg of rm against trading usdollar, sacked bank governor and jailed dsai with sodomy charges.
41. Putrajaya represents umno and their interest only, not malaysians in general.
42. Syariah compliance at putrajaya simply means nep, that is you must be a bumiputra.
43. If you are not moslem, do not use arabic blessing eg asalamualaikum.
44. You might get yourself landed in trouble with umno kdn and jakim.

45. Money cannot buy power forever especially when voters know where they stand.
46. If putrajaya and mof think meriocrity is the way to stay relevant by granting foreign moslem workers the basic right to vote just like what they did to sabah, they have committed treason.
47. Syariah compliance is akin to change the ownerships from the origin owners to moslem owners via company acts.
48. If you think this is righteous, vote bn.
49. If you think thid is wrong vote opposition parties.
50. If you think both sides are wrong, then dont vote.

Assalamualaikum Dearest Tun,

With your permission, for the self declared expatriate ha..ha..ha.. "Tok Young Goat" who can only afford a 2nd hand proton car and spent many weekends with fellow expatriate ha..ha..ha.. at the KLCC where the land given by God to the Malaysian.

Don't waste your time commenting in this blog, go to work get some descent income and send back to the love ones at home! After all that's the reason you landed here.

Be grateful at least you have a car to move around doing nothing and busying sending all this crap here. We Malaysians don't give a damn but you are insulting our intelligence. Who knows Tun Mahathir better, if not we the Malaysians and who do you think you are?

By practise an expatriate coming here to Malaysia is highly paid providing high end skills and expertise and they are professionals who will partly contribute to the growth of a nation and not doing something not so clever as one 'Tok Young Goat' who might not have his permit renewed or worse still he maybe an illegal immigrant.

Don't be like a dog, you let them free in return they bite you back! Or could it be, we fed the dog and in return it bites your hand!?

Thank you to our Malaysian father and grandfather Tun Dr Mahathir, not yours okay!

Wassalam Tun Berdua.

To Ali Akbar Bin Hashim,

The proverb is "where there is smoke, there is fire". RPK is not mad just because you disagree with him. There a lot of things that he says has substance. Mahathir is no angel and neither is PM DS Najib. Mahathir's diatribe on PM DS Najib is just the pot calling the kettle black.

Najib is brilliant and has done a lot for Malaysia. For example, a low ringgit is good for Malaysia. Malaysia's exports are now cheaper. If exports are cheaper, Malaysia will sell more and soon the economy will improve. It might even help Mahathir sell his third rate Protons.

Further thoughts on corruption in Malaysia vs Singapore.

Evolutionary game dynamics realistically portrays oscillating reign of Dove/Bourgeois/Hawk which in my scheme becomes Pious/Bourgeois/Wicked where bourgeois serves as in between pious and wicked and bourgeois meaning government of legitimately rich who become complacent and oppressive (wicked) after some time only to be replaced in turn by the pious. So, we have God-is-King/Bourgeois-is-King/Cash-is-King. So if we compare Singapore and Malaysia, we can see Singapore's inspiration comes not from God-is-King as Vision 2020 but from some more uthoritarian mold bordering on Cash-is-king on the right and therefore cannot be robust and free up potential talent. I think most governments try to operate a stable Bourgeois-is-King regime within a chaotic hysteresis. Native wisdom knows when ones's actions are skewed to the left or right, but can't really do anything if its going to be carried away as part of some hyper cyclical morphogenesis.

You folks are getting too serious and hot under the collar. For a change, I think I will share a joke which I saw on the internet with you –

A man dies..

In heaven he sees a large Wall full of Clocks..!!

He asks angel: "What are these for?"

Angel answers: "These are Lie Clocks, every person has lie clock!

Whenever you lie on earth, the clock moves..!!"

The man points towards a clock and asks: "Whose clock is this??"

Angel says: "Its Mother Teresa's.. It never moved, showing that she never told lie.."

Then The man asks: "Where is Najib's clock?"

Angel replies: "That one is in our office ... We use it as TABLE FAN."

Dear Sir,

The Mad Dog RPK without failed each day insinuated you to defend his Bugis Warrior

Now he claimed Najib's grandfather was a multi billionaire so that the reason why Najib's entitled to a grand wedding to his daughter and no one should talk about it

RPK is not Malay, he belittle Malay and his attitude towards Malay is just the same as "The White Rajah", White Man is always superior than a stupid Malay

At one point he said you failed on your Math regarding 1MDB issue but in comparison he is a failure in his business but you have built this nation from zero to hero!

His interpretation on Islam too is very dangerous

Obviously they are going to destroyed your legacy and MAKING A HISTORY in Malaysia where the former Prime Minister will be jailed

The new law will be introduced and passed to give absolute power to a Prime Minister, no one can question on any things he did

Just like royals, they are super immune to law and order and free what to do and no one should not asked

In one state the peoples asking Allah each week in the mosque to bless the Royals and his family but if we seek help he just listen and keep in his heart

No one should challenged the Royals and this absolute power too wanted by Najib, what a greedy

Your big sin was you created and groom this monster

Najib unforgiven sin was to implemented GST and lifted the oil subsidy for the peoples

And he is now wanted to be a hero to American, capturing and executing Muslims that pray to the same God as him

I wonder why the real terrorist i.e. the Jews and Americans was not captured, hunted and put on trial

They are a big bully and killing Palestinian almost every day, no one see!

p.s.

End of the day nobody to blame because this government was elected by the peoples

The peoples choose and wanted and truly love this government

We are making so much noise about it but the government has fully support and endorsed by the peoples

The oppositions are poor and crippled

Where can we go?

Let me complete my thoughts.

5. Like operative memes elsewhere, corrupt have got in using religious, ethnic pretexts.

18. Cash-is-King has to run its course until reigned in by Bourgeois-is-King (your vision), which approximates the God-is-King. The operative meme today is good governance (asabiya). While ethnic, religious ones are legitimate and even 'good governance' can be abused, we need a new operative meme today -not the abused, corrupted UMNO/BN.

Assalamualaikum Dearest Tun,

When I was in primary school just after the 'Peperiksaan Penilaian Darjah Lima', I was selected to represent my school in the English Public Speaking contest at district level.

Ironically till this day I still recall the topic given to me by my english teacher (but I've forgotten his name) which is "The 3 Cs" –
Communism, Corruption and Chauvinism.

Tun Razak was the Prime Minister of the day then and my teacher told me that this topic is one great speech by his honourable PM Tun Razak himself and I must deliver the best to catch the attention of the audience and the judges.

Anyway Tun Razak has made known to us then that the 3 Cs are our biggest threats to national security!

Wow minus 1 C there are still 2 Cs left which are still relevant today and Tun Razak really have got excellent visions here.

Yes corruption is one of our biggest threats to national securities today but can you imagine that Tun Razak own bloodline is advocating corruption as a means of holding on to power as described by ayahanda Tun.

Now I really need some help here to trace this popular 3 Cs speech and whether it's really from Tun Razak or he was quoting from some other great leader? Anyone out there who is aware about this speech please post it here in Tun's blog please..

Wasallam Tun.

p/s – This reminds me of a great movie S.W.A.L.K (sealed with a loving kiss) in the seventies and been asking friends whether they remembered this movie and only 9 years ago finally someone recalls it and we had the most wonderful time refreshing our memories with the storyline and could clearly visualise Mark Lester and Jack Wild. I should have kept the bookmark for the movie but can still enjoy the song Melody Fair.

Assalamualaikum Tun.

Jikalau ada orang bertanya kepada saya siapa penggantinya? Saya akan jawab saya tidak memilih sesiapa, ia terpulang kepada kebijaksanaan UMNO sendiri. Saya tidak mencampuri urusan itu. Kalau ada pertandingan maka adalah.

Dulu pun saya tidak memilih Najib. Cuma mengikut sistem itulah pilihan Tun. Saya tidak menolak atau mengiakan.

Mungkin ramai orang tidak tahu bahawa perkara utama yang membawa kepada Pak Lah bersetuju turun dari jawatan adalah kerana penyelesaian krisis minyak pada 2008 telah ditemui dan ia dirundingkan supaya Pak Lah setuju turun.

Siapa yang rundingkan? Tentulah Najib. Hasil dari usaha Tun Mahathir. Masih ingatkah Najib guna kuasa whip ketika itu?

Pada masa itu, saya sertai blog ini kerana Tun Mahathir dihina dan dikeji. Mungkin ia boleh dikatakan bahawa 'sesuatu tugas' telah diberikan kepada saya.

Seperti saya tulis sebelum ini, idea penyelesaian krisis minyak 2008 adalah hasil dari ilham ketika saya berada di kawasan cabang tiga, iaitu ditempat kelahiran Tokku Paloh (1818-1918) iaitu keluarga Sayyid yang dikatakan keluarga Ahlul Bait dari gelombang kedua ke Tanah Melayu setelah keluarga Ahlul Bait, Sharif Muhammad Al Baghdadi gelombang pertama ke Tanah Melayu.

Beliau adalah nenek moyang kepada Syeikh Abdul Malek (Tok Pulau Manis) yang saya selalu sebutkan.

Mereka mereka ini adalah berdarah pemerintah sejak turun temurun dan bertitisan sebagai Wali Allah dari moyang terus kepada datuk, anak dan cucu.

Maka sekarang semua orang tahu bahawa itulah rahsia kepada kemasyuran kerajaan Abbasiyah berzaman lamanya. Kerana itulah sejarah Sharif Muhammad Al Baghdadi.

Najib juga tahu dari mana idea penyelesaian krisis minyak 2008 ini datang.

Malah dasar GST sekarang juga Najib cuba meniru cara penyelesaian 2008. Dan atas sebab itulah saya menulis panjang lebar tentang bagaimana cara penyelesaian 2008 itu berlaku.

Untuk berada selama 7 tahun di blog chedet ini pun saya dah takut separuh mati. Najib tak takut ke terkena tulah?

Kuasa Allah itu besar. Allah Maha Besar dan Maha Berkuasa.

Sekarang kita diterangkan bahawa Najib ini adalah pecah amanah dan menipu. Jawatan Najib adalah Perdana Menteri Malaysia.

Apa yang patut kita lakukan? Saya bukan politikus. Saya cuma baker (tukang buat roti).

Dan saya tidak memilih sesiapa menjadi pengganti Najib. Terpulang kepada kebijaksanaan UMNO.

Terima kasih Tun.

For me who build or contacted to build or joint-venture to build is not the point. Owning the project is the point. Tun may not be perfect or done many mistakes or power crazy but who is perfect or done no mistakes or don't like power. At least Tun did his best for the country or bring a better image than current situation. I also think whatever business deals using the country money was with good intention to grow the country. Some fail and some succeed and we should not expect 100% success only from Tun.

For me Tun 1st mistake is to over-do or out-do PAS in using religion in Politics

2nd mistake is not allowing certain type people to grow and learn naturally to become successful and a better life. Tun push forcefully and now the push become an expectation and greed which will bring down the hand that feed that certain type of people.

Assalamualaikum Tun,

IRB targeting the tax evaders. That's right, IRB go catch the real culprits. Why mention only the lawyers, the doctors, the artists? What about the politicians? The con-artists? They are well-known too. I bet there're lots of DSN's people who haven't behave as good taxpayers. Mr IRB chief, have you sent them your 'love letters'?

Now, the job of IGP is to catch the real criminals. Why then does he want to probe on you Tun for criminal defamation? Oh yes, someone must have sent them to make the report.

On what grounds? For telling the truth? Didn't you make the statements and prediction came out truthfully? So what kind of defamation is there? They have no credible basis whatsoever to charge you Tun.

Anyway, what criminal defamation? I don't see Mr New Ag's reputation has been tarnished. In fact he got rewards for job done. His periuk nasi is still intact. Of course Tun criticise logically, so therefore Tun has done no damage whatsoever to Mr New Ag's reputation, right Mr IGP.

Tun, how many more mouths do they want to shut? What is their plan Tun?

To wipe out all the dissents?

Tun, you have a new platform now to voice out the peoples' discontentment on DSN's many unsavoury issues. We have seen how he administer this country, like its his own. And we don't want a would-be dictator to rule us, do we Tun. He may not give a heed to the peoples' grouses but has lost a huge chunk of percentage of the peoples' trusts. It is said that his nama sudah tidak sedap disebut dan tidak sedap didengari. To mend it he has to do the wise thing, step down.

May Allah Bless you Tun. May Allah Protect you Tun. May Allah grant you wealth in health, happiness and knowledge. Take care and Thank you Tun.

3-4 While under your reign contracts may have been given in good faith, without any tolerance for corruption at the highest levels, that has not been the case after your tenure.

5. The leaders up to and including yourself were effectively God-is-King. Thereafter, Cash-is-King: no fear of God in their eyes. Like other operative memes elsewhere, they (the corrupt) have used ethnic and religious pretexts to get in.

6. Cash-is-King reigns, which detracts from we achieving our full potential.

7-13 What can the auditor do if both client and owner are the same Cash-is-King and not God-is-King?

14-16 Well, we are in a Cash-is-King phase and there is only so much credibility we can place on oaths and promises. Only God knows.

17 I wouldn't be surprised if they did. Piety doesn't come cheap. We all have to sacrifice. History is full of even more sordid stories.

18. Cash-is-King has to run his course until the moderates and pious reign him in. Have we systematically interfered with the checks and balances inherent in a parliamentary monarchy to render them impotent?

Salam YAB dan Yang DiKasihi Tun,

1. CORRUPTIONS exist in all agencies / companies / governments / countries in this world since we have many people who adore / worship MONEY.
2. Even that 'small' country (only a dot in the world map) near us also is NOT AN EXCEPTION.
3. I wonder why that 'small' country did not investigate 1MDB's accounts and those powerful 'individuals' involved in 1MDB scandal much earlier (happened since 2009)?
4. Is the scandal being used as a weapon to 'threaten' certain 'individual / individuals' (held for ransom) to agree with 'agreements / negotiations' (including on-going and future negotiations) that definitely would benefit certain 'parties'?
5. Blaming UMNO members for all this mess created by PM Najib @ Ah Jib Gor will not bring any benefit – nothing will change by blaming one particular group. As we can see, PM Najib @ Ah Jib Gor & gang treat UMNO members WORSE than non-members just (to scare them off). Just look at how they 'treat' Tun M – Tun M is their number 1 enemy! Other UMNO members were also PUNISHED unnecessarily (look at DS Mukhriz's case & other cases).
6. To those who keep on saying that the UMNO members are 'cowards' / stup*d / corrupt, may be you can prove that all of you are **not cowards and 'smart people'** and of course NOT CORRUPT by making/lodging police reports against PM Najib and 1MDB.
7. I would also like to suggest all of the BERSIH's participants to lodge police reports against PM Najib and 1MDB to show that all of you really want him out of office ASAP.

Terima kasih Tun.

Assalamualaikum Tun.

Semasa perbincangan topik mengenai Ronghiya saya memberi cadangan agar amalan zikir dilakukan termasuk dalam UMNO.

Dan perkara ini mewujudkan qasidah selawat ke atas Rasulullah s.a.w yang berkumandang ke seluruh pelusuk negara.

Tetapi bagaimana dengan UMNO?

Melalui pembacaan saya dalam Terjemahan Kitab Hikam dijelaskan bahawa berzikirlah samada kita lalai ataupun tidak.

Dan juga ada suruhan yang menyuruh bertanyalah pada ahli zikir.

Qasidah yang berkumandang adalah selawat ke Rasulullah s.a.w oleh itu dengan cara lain berzikirlah kita semua kepada Allah swt kerana kita punyai jasad dan roh.

Mungkin bacaan zikir sembahyang taubat juga elok untuk UMNO.

Tentukan niat dan matlamat perjuangan.

Bangkitkan jiwa kerana Allah swt kerana jika Tun Mahathir sudah tiada nanti, benarkah perjuangan kita ini kerana kebenaran dan kerana Allah swt semata mata?

Terima kasih Tun.

Assalamualaikum Tun.

Jika benar Tun dilantik sebagai GKCM UMNO, ianya saya anggap langkah yang bijak dan baik setelah demokrasi di dalam UMNO dan Malaysia semakin berkubur.

Tetapi kumpulan ini wajarlah bergerak aktif dan pantas agar Najib mesti diturunkan setahun sebelum PRU14.

Ini boleh memulihkan kembali keyakinan rakyat terhadap UMNO untuk menghadapi PRU14 nanti.

Satu langkah baik jika ini menjadi kenyataan, pengganti PM adalah Tengku Razaleigh Hamzah memandangkan rekodnya agak bersih dan mesti ada hubungan baik dengan Tun sebagai penasihat pentadbiran kerajaan jika perlu.

Sebelum itu ingin sy bertanya... Pernahkah sy mengutuk anda? Pendapat kamu ttg klcc adalah nasik yg sudah menjadi bubur... Dan. Bubur itulah yg pernah menjadi yg paling terlaris sehingga barulah dunia kenal apa itu bubur malaysia cap klcc... Barulah org kenal untuk berniaga dan berkeyakinan utk berniaga dgn msia..

Sama jugak dlm kehidupan... Msia tidak kaya pd waktu itu... Tp mampu buat bubur terlaris kerana berhutang dan apa sekalipun yg anda katakan.. org msia kalu x berutang dgn seng heng... Courts mammoth.. rumah kita buruk... Sapa nak masuk? Komunikasi di k.l penting... Kerana ianya pusat bandar.. kenapa maki benda dah jadi? Xkan nak runtuhkan menara komunikasi dan klcc? Apa kata tok janggut bagi pencerahan sikit selain drpd mengkritik... Kerana malu lah sikit dgn sy yg umo setahun jagung tahun kuda ni... Ikut la cara nabi... Assalamualaikum Tun.

Kita hargai kehadiran Mr Dinturtle di sini.

Kita mengharapkan tekanan dari dalaman untuk menyedarkan penyokong Najib bahawa usahlah menyokong perkara yang tidak betul malah samar samar. Jika was was elok ditinggalkan.

Saya faham berkenaan kenyataan yang dikatakan oleh Tun semasa perjumpaan dengan GKCM.

Mungkin saya bukan ahli UMNO dan tidak dapat bergerak dari dalam. Maka kita berharap GKCM dapat menjayakan tekanan untuk kesedaran bagi yang gelap mata dengan habuan habuan.

Walau berapa ramai sebelum ini telah berjumpa Tun, namun nasihat saya adalah Tun masih keseorangan dan saya fikir ia mempengaruhi Tun untuk membuat U Turn semasa itu.

Kita memerlukan gerakan dalaman kerana ia adalah tanggungjawab bagi yang bekerja politik. Ia adalah amanah rakyat.

Sedangkan bagi gerakan dari luar ia mungkin tidak begitu baik sekiranya kita mengambil hukum dalam Islam.

Saya tidak begitu fasih mengenai peraturan dalam UMNO dan ia begitu baik sekali sekiranya GKCM dapat menggunakan peraturan tersebut dengan bijaksana dalam mencari penyelesaian.

Mungkin pendekatan saya ini sedikit berbeza dengan Tun, namun jika UMNO sendiri itu rosak, berbuatlah macam mana sekalipun hatta tukar Presiden Parti maka tiada gunanya.

Rosak maksud saya, yang salah dikata betul, seperti sekarang.

Bersihkan UMNO bagi saya itu lebih utama tujuannya dan secara tidak langsung Presiden Parti akan bertukar.

Terima kasih Tun.

Assalam Tun.

Political corruption in Malaysia were started by the MOF.

Ku Li & Lorraine's BMF scandal and later the subsequent challenge by the former for the UMNO presidency's post, which he almost won, using the unlimited funding at his disposal to buy votes.

Later that Daim "diam" started to monopoly all mega projects and the stock market.

Office boys, drivers, clerks were used to camouflage his activities. Many became directors of listed companies and owning huge chunks of shares.

Never-heard-before contractors were awarded multi-million ringgit projects, all on direct nego.

Fortunately for Tun M, "diam" was not ambitious politically, but he did drag down Tun's name to a great extend.

When Anwar maniac became MOF in 1992, he finetuned the word corruption, or for simplicity, corruption became an art!!

The second board, kontraktor berwibawa, turnkey projects were the new games in town. Long list of big time cronies became overnight millionaires, Ghafar Baba was whitewashed (except 1 in Banggi, Tun Mustapa's constituency) in the Sabah UMNO divisional elections, Ghafar's supposedly fortress, and Anwar was somehow allowed to practice vote buying as legally acceptable, but not to his critics/opponents.

He had amassed enough votes and ready to face Tun M....

Unfortunately for him, he's also a sex maniac.

Let's try to forget Pak Dol PM5 and his then jobless s.i.l. budak KJ, when they acted openly to tell all Malaysians as though they owned the finance Ministry!!

When Najib mentioned cash is king, just a reminder to all, budak KJ has the cash and he also wants to become king!

The present scenario under Najib & Rosmah is the worst in our history....

1. Negara kita telah tersenarai dalam 10 negara teratas yang mengamalkan rasuah.
2. Tun berkata rasuah ini dari dulu lagi berlaku dalam pentadbiran kerajaan dan swasta tetapi tidaklah berlaku dalam pucuk pimpinan yang berjumlah 'berbillion' ringgit.
3. Malah disenaraikan bilamana cara menghapuskan gejala rasuah ini agak terasing dan berlainan bila perbandingan dilakukan dengan negara luar.
4. Mungkin kita memandang rendah kepada orang asing kerana bangsa dan agamanya dalam menghapuskan gejala rasuah.
5. Walau bagaimana pun mereka tetap beranggapan rasuah ini musuh kepada kehidupan manusia sejagat.
6. Kepada umat Islam disini kita huraikan riwayat yang telah di tinggalkan kepada umat Nabi Muhammad s.a.w.
7. Penyuaap dan yang disuap tempatnya di neraka. Hadis riwayat Tabrani.
8. Allah s.w.t mengutuk orang yang menyuap dan yang menerima suapan dalam menjatuhkan hukuman. Hadis riwayat Ahmad dan Abu Dawud.
9. Dari Jabir: "berkata:"Kudengar dari Rasullullah s.a.w. bersabda: "Bagaimana dapat disucikan suatu ummat kalau tidak dapat diambil tindakan terhadap si kuat untuk mengembalikan hak si lemah dari ummat itu ?. Hadis riwayat Ibnu Hibbaan.
10. Pendakwa harus memberi keterangan (bukti) dan si terdakwa harus bersumpah (kalau mungkir). Hadis riwayat Tabrani.
11. Dan apabila kamu menjatuhkan hukuman diantara manusia, hendaklah kamu menghukum dengan adil. Al-Quran.An-Nisaa' ayat 58.
12. Ada tiga jenis hakim , dua di neraka dan satu di surga.
13. Seorang hakim tau, mana yang benar dan yang salah, kemudian ia menghukum apa semestinya. Hakim ini tempatnya di surga.
14. Seorang hakim tau yang benar dan siapa yang salah, lalu ia menghukum tidak adil. Hakim ini tempatnya di neraka.
15. Seorang hakim tidak mengerti siapa yang salah dan siapa yang benar, kemudian hakim ini menjatuhkan hukuman tanpa pengertian. Hakim ini tempatnya di neraka. Hadis riwayat Abu Dawud dan Tirmidzi.

To balance

Malaysians have nothing to be proud of KLCC.

The building was built by Koreans. After completion, it was managed by Australians. The only contribution by Malaysia is the piece of land, even then, it is given by God.

The article is not a silly article. It may be very strong but certainly not silly. The aphorism that "none is as blind as those who do not want to see" is a certainly true here.

Tun Mahathir Mohamed

The Best of all among Today's Malaysia Prime Minister

Najib The Worst of all

Perhaps Behind a Failed Man

Is a woman likewise behind a Successful man is also a woman

I dislike Anwar Ibrahim for his aggressiveness that stirred Malaysia

But I now have to say this

Perhaps Anwar Ibrahim is much much better than Najib

PakLah is a Good Honorable Man

But We need a Leader who simply is a different

A Tiger of Malaysia

Compare an Orange to an Orange
Apple to an Apple

Yes Malaysia We have corrupted Govt
From top to toe
S,pore not much corrupted as
The minister don,t need corruptions as they are paid well
It is small ,easy to manage and the people are more educated
Educations plays a major role in an individual and nation buildings

Comments from late LKY
Johor has much crimes & thefts . It is very True
The different is Johor only when you expose you got rob
Singapore everyday , every split seconds from adults to children
No matter how much you cautions You will be Rob legally
I see no differences
Only in Malaysia
It goes into many small pockets
There every cents goes to one Big pockets
No rooms for small pockets

Regardless Malaysia among Indonesia, Philippine , Burma , Thailand
Are much in control as perhaps Islam deters much
Again Cash is never King , Cash is Evil

Much of our land are being robbed and looks legal
By the facts there are much corruptions that involves
The developer , the Gangster that spent few ringgits to the Authority
The head , body and tail
In returns of tremendous vast of land they earned from throwing a few ringgits
Likewise we see in Najib 1MDB
Why should our land be the loses of his failure ?
It is his call not Malaysia to be accountable and to be burden

Assalamualaikum Tun.

Berkenaan kekurangan pekerja tempatan dalam bidang bidang tertentu, saya juga menghadapi masalah tersebut.

Walau bagaimanapun, saya melihat ini sebagai satu kesilapan pengurusan sumber manusia dan operasi.

Pada pendapat saya, walaupun pekerja berkemahiran berjaya kita lahirkan, tetapi mereka ini tidak semestinya berupaya dalam berfikiran mengurus.

Mempunyai pengurus yang pandai dan adil serta boleh mencungkil kebolehan lain mereka ini amatlah penting.

Di tempat kerja saya, terdapat peraturan tidak rasmi mesti kerja 12 jam untuk jawatan pengurusan yang mana saya tidak setuju.

la menurunkan produktiviti dan membuatkan suasana tidak harmoni.

Itu adalah cara pengurusan orang tempatan yang tidak bersekolah tapi penuh dengan pengalaman kerja selama 30 tahun.

Namun sekarang, bos saya adalah orang Perancis. Kerja lebih masa sampai 9 jam dah kena halau balik.

Syarikat tetap berjalan dan untung.

Saya tidak bersetuju dengan Zahid Hamidi. Mengambil cara mudah untuk selesaikan masalah.

Dalam realiti, saya juga sedang menghadapi dan selesaikan masalah ini.

Ia memerlukan sedikit usaha yang perlu berfikir bukan dengan cari jalan mudah. Itu tugas pemimpin.

Orang Melayu tidak malas. Orang Melayu bukan penakut.

Lihatlah sekarang, Orang Melayu masih berdiam diri sehingga mana pemimpin pemimpin terus menerus menekan rakyat.

Kerana kita tahu kita di Malaysia ada Pilihanraya. Berhati hati.

Terima kasih Tun.

Cash is King

Is a religion much embrace by S,pore Govt

Najib learned a lot from S,pore

Can be seen when Najib gives our Malaysia KTM Tanjung Pagar land

Without a fight , more of submission than a bargain

1MDB is a copy cat of Capital Land , Tamasek Holdings and the many more of the S,pore Corpoartion
Much partly also own by the Dynasty

Whose the Shareholders or the Director of 1MDB

Why when they did it in private , no one knows

Even Deputy PM Muhiddin does not know

When it becomes a failure , a tremendous failure indeed

Malaysia as a whole the Govt and the people

Has to burden and to absorbs the shits of 1MDM

Our vast land again and again was being pounded

So if it is a success , this success will goes to the called Shareholders

Najib copy cat of S,pore is clearly seen

They'd difference is S,pore makes it a success

The success was owned by the Govt not the people

Najib failed it and burdens it to Malaysia

The first time I watched X Deputy Muhideen Yasin

Speech in Johor ,Bluewave Hotel

I was very much impressed y Muhideen foundations of Islamic foundations and his well experience in
Politics

Muhideen is the Right Man

Tun it's also yr mistake of appointing Najib as yr successor

Just because He has the looks , the Height

If you want looks and height you could have just appoint Our local actor who has height and looks
And they are much younger , more physically muscle than our white flabby elephant

We need the Sultan legislations and public voice
To re elect our PM
As it has proven to the worst
Not just incompetency but a Messy Leadership
Will destroy Malaysia as a Whole

Dear YABhg. Tun,

The UMNO leaders do not simply think that they can forever do wonders. In actual fact, most of them are hopeless and useless! They probably forgot that they have to earn respect and trust from us, RAKYAT. In fact, they have lost both as well as their integrity.

Everyone that I know (most of them are UMNO members), including government servants are against those clowns. Eventually, we will have the last laugh, right...

Biarkan Luncai-Luncai terjun dengan labu-labu mereka dari puncak PTT / KLCC. A good friend of mine used to tell me that 95% of our worries will never happen. Wallahualam.

Tak kan la depa sampai hati nak tangkap dan penjarakan Tun disebabkan Tun bercakap yang benar kan... The truth, nothing but the truth! Kecuali, akai depa kat lutut atau depa tak dak akai langsung. Orang Kedah kata, BUTA PERUT!

Please take a superb care of yourself, Tun.

Dearest YAB Tun,

1. PM Najib @ Ah Jib Gor will be remembered as 'Bapa Perasuah Negara' @ 'Bapa Pelingkup Negara'.
2. He will also be remembered as the only PM of Malaysia who openly promotes 'corrupt practices through examples'. Definitely, he sets such a bad example to Malaysians.
3. I'm afraid that some day (under DSN) Malaysia will become like a few countries in this region where 'cash' ('wang pelincir / rasuah') must be given just to make government officers (or any officers/staff in any agencies) perform their duties /responsibilities – 'no money no talk...'
4. I wonder what happened to the police report (reports) against our PM & 1MDB? I thought the IGP would investigate any issues if a police report has been lodged – I just saw him on TV saying that he's (police) going to investigate Tun's blog contents after several people lodged police reports against Tun.

5. Both our IGP and AG are HOPELESS

...

6. How about IRB / LHDN? Also hopeless?

They only harass common 'rakyat'.

Thanks Tun.

Seingat saya, pasukan saya sentiasa diberi kemenangan. Kalau tak dapat juara pun, alhamdulillah dapat juga naib juara.

Melainkan saya takde, sampai sekarang pasukan tak dapat masuk separuh akhir. Suku akhir pun kira dah mujur.

Saya tak tahu kenapa beberapa minat saya cepat pudar. Panas hanya sekejap.

Namun saya berada di sini adalah paling lama sepanjang perjalanan hidup saya. Tak pernah saya lakukan sesuatu secara konsisten paling lama melainkan menulis di blog chedet.

Punca mencari rezeki dengan jadi baker pun tak selama berada di sini.

Saya bertukar fikiran dengan seorang yang berumur 90 tahun dan dia adalah seorang pemimpin yang dikagumi oleh seluruh dunia termasuk Israel.

Dan umur saya adalah hampir separuh dari umurnya yang amat berpengalaman.

Jadi saya fikir itu adalah antara sebab kenapa saya cepat sejuk.

Tolonglah panaskan hati saya wahai menteri menteri sekalian.

ASLKM...

Yang Mulia Tun, saya mendoakan kesihatan yang baik untuk Tun & Tun Dr Hasmah.

Kes-kes rasuah di zaman Tun pun banyak. Banyak juga yang terlepas di Mahkamah. Saya rasa zaman Tun dulu pun tak serius bab rasuah ni. sekarang ni, kebanyakan orang yang terlepas sedang memegang jawatan penting dalam kerajaan. Di zaman Pak Lah, jauh lebih teruk. seorang yang ditangkap dengan duit tunai terlepas di Mahkamah sekarang diberi gelaran Dato' Seri dan menerajui persatuan sukan yang berprestij. Di dalam pentadbiran kerajaan, ada yang bil pergigian dibayar oleh

kontraktor tetapi bebas di Mahkamah. Kes kes berprofil tinggi semua bebas...itu yang didakwa, yang tidak didakwa lagi banyak... yang kena kebanyakannya ikan-ikan bilis. sekarang ini kudis sudah menjadi barah...

dan sebagai seorang doctor yang sepatutnya merawat kudis tersebut semasa bertugas gagal melakukannya menyebabkan ia merebak menjadi barah yang kritikal...

Negara ini sudah rosak oleh tangan-tangan yang kotor dan mereka ini akan bebas lagi walaupun pemerintahan bertukar tangan...mana pernah mereka ini dikenakan tindakan. Yang kena hanyalah pesalah yang tidak di hati pemimpin lagi seperti bekas MB Selangor...

Malu kita di Negara Islam ini rasuah menjadi isu paling teruk sedangkan Imam Ghazali berkata kedua-dua pemberi dan penerima rasuah di dalam neraka...nauzubillah.

Orang yang tidak mahukan rasuah akan menjadi mangsa dan ketinggalan terutamanya di dalam perniagaan...isu pencegahan rasuah hanyalah retorik dari dulu hingga kini...pendakwaan kes rasuah menjadi bahan lawak jenaka kepada masyarakat...

Assallammualaikum Tun.

Saya mohon ruangan.

[don't say anything about 1MDB and the 2.6 Billion Ringgit if you wish to remain free]

Tun..

What is exactly definition of free?

If free meaning living like a dog,I would rather be dead a lion.

Tun..

Like always life is all about understanding and comprehension.

In this understanding we have hierachy,degree and level.

For the basic education we have

- 1) Kindergarden
- 2) Standard 1
- 3) Standard 2
- 4) Standard 3
- 5) Standard 4
- 5) Standard 5
- 6) Standard 6
- 7) Form 1
- 8) Form 2
- 9) Form 3
- 10)Form 4
- 11)Form 5
- 12)Lower 6
- 13)Upper 6

- 14) Matriculation and all kind of Pre U
- 15) 3 years for a diploma
- 16) 5 years for a degree
- 17) 2 or 3 more year's for Master or is it Monster?
- 18) 2 or 3 more year's for Doctorate.

Here is how you got Doctor Zahid Hamidi...)

In Islamic education you get all kind of mainstream and 'sidestream' education which 'Hafazan' is the best of them all. A Hafiz and Hafizah is Allah 'GRANDSTAND LICENCE' or Lesen Agung..

My contention of issue will be

1) Wahai Nabi, peransangkanlah orang-orang yang beriman itu untuk berperang. Jika ada di antara kamu dua puluh yang sabar, nescaya mereka dapat menewaskan dua ratus orang (dari pihak musuh yang kafir itu) dan jika ada di antara kamu seratus orang, nescaya mereka dapat menewaskan seribu orang dari golongan yang kafir, disebabkan mereka (yang kafir itu) orang-orang yang tidak mengerti.

2) 9-127: Dan apabila diturunkan suatu surah, sebahagian daripada mereka memandang sebahagian yang lain (sambil berkata): "Adakah sesiapa (dari kalangan orang yang beriman) melihat kamu?" Kemudian mereka berpaling pergi. Allah memalingkan hati mereka kerana mereka itu kaum yang tidak mengerti.

3) "Dia jualah yang menurunkan Kitab kepada kamu. Sebahagiannya adalah ayat-ayat yang menghukum, yaitu ibu-ibu bagi Kitab, dan (sebahagian) yang lain adalah ayat-ayat yang perlukan takwil. Adapun orang-orang yang di hati mereka ada kesesatan mencari-cari apa yang ditakwil daripadanya kerana hendak membuat fitnah dan kerana hendak membuat takwilnya sendiri padahal tidak mengetahui takwilnya melainkan Allah dan orang-orang yang teguh kuat di dalam ilmu berkata, 'Kami beriman kepadanya (kerana) semua itu daripada Tuhan kami', dan tidak mengerti melainkan orang-orang yang mempunyai fikiran". (Surah Imraan, ayat 7)

Mereka yang mengerti dan

MEREKA YANG TIDAK MENGETI..

Tun..mari kita semua teruskan perjuangan..

Hingga kita berjaya..

Atau..

Binasa kerananya..

Shame on The AG, the BNM, The Macc and Police for letting this happened in Malaysia.

UMNO as the leader of BN pact also now must take the blame.

I was given to understand by a friend who worked in Government sector that all administration and out-station expenses are to cut off.

The problem is according to him, if the staff did not go out to survey on the price hiking and consumer household income, they were told to do it randomly and estimate according to percentage that might not reflected actual economy situation. I do not know what is the detail but surely whatever future economy indicator pointed out by the Government, it would not reflected on the actual figure happening on the ground.

And to see the Government of the day working, i am not surprised if the data would be well cook just to pleased the people.

Do you know that you need to spend RM10.00 for lunch? Last three years it was only RM5.00!

Take care Tun.

Thank you.
