Tun Dr Mahathir Mohamad

1. At independence Malaysia faced a big unemployment problem. To solve this we started with opening land for the landless. But development of land was not able to create enough jobs. It was therefore decided that Malaysia should industrialise. But Malaysia had no manufacturing expertise, no capital, no big corporations and no knowledge of the world market.

2. Accordingly Malaysia decided to invite foreign investors. By this we meant that foreign manufacturing companies could set up labour intensive plants in Malaysia to produce for export. The Government would provide land and infrastructure and give tax holidays.

3. FDI solved most of our unemployment problem and enriched the country through industrialisation and inflow of capital. But a large amount of the capital was raised domestically.

4. But today Najib's Government has given a new definition for Foreign Direct Investment. He regards foreigners bringing in money to buy land and develop towns and cities where their people would come and stay as foreign direct investment.

5. The result benefits us not at all. Much of the most valuable land will now be owned and occupied by foreigners. In effect they will become foreign land.

6. When we sold Singapore island to the Brits we must know that Singapore with all its wealth and development has become a foreign country. We cannot be proud of its achievement anymore than we can of the development of other countries in the world.

7. Currently we are seeing huge tracts of land around Johor Bahru being sold to foreigners with no restriction on the sale of properties developed to them and mass immigration to take up residence in these new cities. One example is Forest City developed by a China-based company. Already thousands of units have been completed and sold to mainland Chinese. Bloomberg reports that 700,000 mainland Chinese would stay there. And the same agency pointed out that around Forest City, and therefore around Johor Bahru, there are 60 similar projects which can house more than one million people.

8. Typically Chinese contractors prefer to bring in their own workers, architects and engineers. Few Malaysians would be employed in these projects. And few Malaysians would be able to buy the flats being built.

9. Actually our own people are quite capable of developing our land. They may not have the capital to invest immediately. The development may be slower and the scale may not be so big. The buyers will be local.

10. It doesn't need much imagination to see how much this benefits Malaysia, Malaysians and the Malaysian Government.

11. But if we consider inflow of foreign capital to buy, develop and occupy our land as FDI, then we must expect huge areas of our land becoming foreign enclaves.

12. In most countries foreigners are not allowed to buy land. They may be given contracts to build but they will be only contractors. Certainly what they build will not be for huge numbers of foreign people to occupy almost exclusively.

13. But we are very generous. Even when we limit foreign buyers to buying only the expensive property but the Government, including the state Government would give exemption so that even low cost or affordable houses can be bought by foreigners.

14. We claim that – these foreigners will not stay permanently in the enclaves they develop. We claim they will stay here only for the winter months.

15. But we are kidding ourselves. Can we imagine hundreds of thousands of foreign people flying into the country to stay for three months and then flying out to their country to live there for nine months. Can we imagine for nine months these towns and cities will be empty – the shops, flats, offices, hotels, and recreation areas being closed. They will become ghost cities and towns. Empty roads and streets. Empty shopping complexes. It is absurd. Denying that 700,000 would occupy Forest City is self-deluding. No condition on who can stay in these houses has been stipulated.

16. But some point out that the investment will come from many countries. Agreed. But most of them have not enough people to settle in foreign lands. They would be investing in industries to benefit from our low-cost labour. They would build their plants in the industrial estates we put up. They will not engage in huge housing development projects. They will not settle here.

17. We can allow for foreign ownership of small plots of land. We can lease the land to them.

18. But we cannot allow thousands of acres to be owned, developed and settled by foreigners. If we do that literally they would become foreign enclaves, troublesome for local authorities to manage. Indeed difficult even for the central Government to manage.

19. We want our country to develop. Experience have shown that Malaysians can develop their own country. Their development is second to none. But their development would be for Malaysians.

20. But during Najib's China trip, he claimed that he succeeded in getting 150 billion Ringgit of FDI. No details were given. I am sure that most of this FDI would involve selling land, Government's and 1MDB land to pay the debts which everyone knows have been incurred by them. We are going to see large chunks of Malaysia being developed by the foreign buyers and being occupied by them. Eventually they would demand for citizenship and they will participate in Malaysian politics including in elections. Whatever ideology they believe in might change the colour of Malaysian politics.

21. As much as we cannot be proud of the development in parts of land which have become a foreign country, we cannot be proud of a magnificently developed Malaysia, occupied and owned by foreigners.

Tun has his points regarding FDI. We have to be a bit critical. I am not sure the characteristics of overseas Chinese as laid out by the Australian professor are applicable to the current crop of Chinese from mainland China. Unless the Chinese from PRC are emigrated to Johor/Malaysia with uplifting of their roots, they do not share the same traits or characteristics of overseas Chinese stated. For one, PRC Chinese are more aggressive in their pursuit of their dreams. Some of them have very strong financial backing/background.

The economic model used in selling land and eventual development enterprise undertaken by the foreigners is an extractive one from Malaysia point of view. As pointed out by Tun, the locals do not enjoy the benefits as much as desired and the long term economic benefit to the locals is only consequential and not direct.

The peninsula Malaysia is only a small area relatively speaking. We should consider the impact and eventual difficulty faced by locals with so much land in the hands of foreigners. It is easier to sell land than embarking on another round of industrialisation or technological push in our industrial development. The current government should think a bit harder. Is it in the best interest of Malaysians? Can we do better than this?

Selling land and giving development projects to the Chinese, be it infrastructure or property, is easier relatively. China can plan for you and build everything for you. And they can do it. They provide the financing and soft loans. With the current international credit ratings, Malaysia is hard pushed to secure favourable financing.

Many tend to agree with Tun on the consequences of this sort of FDI. How it will play out eventually should be new experience or lesson for us. We might be right.

Assalamualaikum Tun.

Kepada SSLee dan Bersatu,

Berfikiran luas sedikit, bila Tun bangkitkan FDI dari China bermaksud Cina daripada China.

lanya tiada kaitan dengan Cina rakyat Malaysia.

Sekian.

Syabas kepada SSLee. Harap semua warga cina Malaysia berfikir seperti saudara. Saya bersetuju dengan saudara dan dapat memahami perasaan saudara biarpun saya bukanlah seorang cina. Rasa kecewa kerana kesetiaan kepada negara seperti tidak dihargai. Lagipun, setiap orang ada sifat berbeza. Sama jugalah dengan Melayu. Kata cintakan negara, tapi susahkan rakyat dan bangsa seperti pemerintahan sekarang.

Saya memang tak sokong UMNO. Sejak Tun tak jadi PM, saya sudah mula undi pembangkang dan saya juga memang nak undi Pakatan lagi untuk GE akan datang.

Cuma... statement Tun kebelakangan ini saya fikir sudah tidak ketentuan dan membuat rakyat yang menyokong mula tawar hati. Pasal Tun kata BRIM rasuah sedangkan ramai orang hargai BRIM itu biarpun mereka tak pangkah BN. Kata duit naik haji Yayasan 1MDB buatkan haji orang itu tak mabrur. Ramai orang yang tak berkemampuan nak pergi rumah Allah tu, mabrur atau tidak, itu kerja Allah, bukan Tun. itu sebab ramai mufti sanggah pendapat Tun itu dan sertakan contoh2 tertentu. Wang BRIM dan sedekah naik haji tu membantu wahai Tun, untuk golongan2 yang susah ini, dan mereka ini termasuk orang yang tidak pangkah BN.

Penyelewengan Najib, keluarga dan kroninya boleh Tun war-warkan agar rakyat celik mata, tapi bila Tun kaitkan sesuatu isu itu berlebihan macam Forest City sehingga terasa yang kita perlu takut pada orang Cina macam kata SS Lee, itu yang jadi merapunya.

Siapa suka Najib sekarang ini kecuali juak-juak dia? Semua orang tak suka dia termasuklah orang Umno sendiri. Patutnya Tun guna kesempatan ini sebaik-baiknya dan jangan merosakkan peluang yang ada. Kata-kata Tun orang lebih percaya dan hormat, bukan Tan Sri Muhyiddin, Datuk Mukhriz, DS Anwar atau sesiapa pun. Saya pun percaya cakap Tun, tapi kadangkala kita kena hormat juga perasaan orang lain yang tidak bersangkutan bila kita berkata sesuatu.

Maaf jika pandangan saya ini menyinggung perasaan Tun atau pembaca lain. Demi Allah, itu yang saya rasakan dan perlu saya luahkan agar Tun dapat menilainya sendiri. Apapun, saya tetap undi pemerintah sekarang (Pakatan Harapan) di Serdang, Selangor. Terima kasih.

DrM's famous Look East policy is now following a new track that leads to Beijing, and not towards Tokyo anymore.

Najib's unilateral move has upset many of DrM cronies in business who, fighting for financial survival, are now trapped between choosing their loyalty to DrM or following Najib in a fresh new direction.

Nothing short of sabotage, massive derailment and a new political engineering is required to set this train back to its original destination.

Long story short, Najib must *undur* (backtrack) and reset his control panel. No two ways about it.

Just imagine if Forest City was to be developed by a Japanese company, would DrM vehemently object to it?

Dear Tun Dr. Mahathir,

Allow me to point out some misaligned facts on Forest City Mega Project in Johor that Tun might unintentionally/unaware of, thus omitting it from your write-up. I derived the fact from: <http://www.malysiakini.com/news/292541>

Your attack on Forest City Project had stir up the hornet's nest in our RUKUN NEGARA Principles, namely principle Number 2: LOYALTY TO THE KING AND COUNTRY.

Your write-up can be misconstrued as disrespecting the Johor Sultan Ibrahim Sultan Iskandar and your attack on Mainland Chinese FDI by insinuating the potential political and security risk by the Mainland Chinese may impose on Malaysia can raise suspicion that we, the Malaysian Chinese are an ungrateful lots and disloyal to our beloved KING AND COUNTRY and are conspiring with Mainland China to take over Malaysia?

In my previous comment on New Year I wrote:

My SJK(C) Keat Hwa (H) in Alor Setar had taught me the RUKUN NEGARA and as such I am a true Malaysian in Heart and Soul.

I have to say to Tun, your write-up did not help your righteousness struggle and in fact gifted your political opponent with ammunition to fire back at you. Moreover I am hurt by your negative connotation on my loyalty to my beloved Malaysia. I had done my duty to my country and family with dignity and pride so please empathies with us we do not choice to be born a Chinese. But we cannot change the fact that we are Chinese Malaysian and as Chinese Malaysian we work extra hard to succeed in life.

Dear Tun Dr. Mahathir,

Allow me to post an article by Chan-Lui Lee, Ph.D. on how a Chinese Malaysian feels like just been born as Chinese:

Subject: Being Chinese?

The simple plain truth about the Chinese

This Chinese-Australian professor has a funny but true explanation about the Chinese people. Why do Chinese people work so hard to succeed in life?

Chinese people don't go about bombing, terrorizing others and causing religious hatred. We live peacefully with everyone on Earth.

Here is the plain truth.

#1. There are over 1 billion of us on this earth. We are like Photostat copies of each other. You get rid of one, 5 magically appears (like ballot boxes). Yes, it is scary, especially for us. We acknowledge that we are replaceable, thus we are not particularly 'special'. If you think you are smart, there are a few thousand more people smarter than you. If you think you are strong, there are a few thousand people stronger than you.

#2. We have been crawling all over this earth for far more centuries than most civilizations. Our DNA is designed for survival. We are like cockroaches. Put us anywhere on earth and we will make a colony and thrive. We survive on anything around us and make the best of it. Some keep migrating but others will stay and multiply.

#3. NOBODY cares if we succeed as individuals or not. But our families take pride in knowing we have succeeded. Yes, some will fail. We take nothing for granted. We don't expect privileges to fall on our laps. No one owes us anything.

#4. We know we have nothing to lose if we try to succeed. Thus, we have no fear trying. That is why Chinese are addicted to gambling. We thrive on taking risks. All or nothing.

#5. From young we are taught to count every cent. What we take for granted like money management, I have found out recently, is not something other cultures practice at home with their children. It surprised me. But truth is not all societies or cultures teach their young this set of skills because it is rude to them. Yes, most of us can count because we are forced to and the logic of money is pounded into us from the beginning of time (when mama tells us how much she has spent on our milk and diapers)

#6. We acknowledge life cycles. We accept that wealth in a family stays for three generations (urban myth?). Thus, every 4th generation will have to work from scratch. I.e. first generation earns the money from scratch, second generation spends the money on education, third generation gets spoiled and wastes all the inheritance. Then we are back to square one. Some families hang on to their wealth a little longer than most.

#7. It is our culture to push our next generation to do better than the last. Be smarter. Be stronger. Be faster. Be more righteous. Be more pious. Be more innovative. Be more creative. Be richer. Be everything that you can be in this lifetime.

#8. Our society judges us by our achievements... and we have no choice but to do something worthwhile because Chinese New Year comes around every year and Chinese relatives have no qualms about asking you straight in your face – how much are you making? When was your last promotion? How big is your office? What car do you drive? Where do you stay? You have boyfriend? You have

girlfriend? When are you getting married? When are you having children? When is the next child? When you getting a boy? Got maid yet? Does your company send you overseas? etc etc etc. It NEVER ENDS... so, we can't stop chasing the illusive train – we are damned to a materialistic society. If you are not Chinese, consider yourself lucky!

#9. We have been taught from young that if you have two hands, two feet, two eyes, and a mouth, what are you doing with it? "People with no hands can do better than you!"

#10. Ironically, the Chinese also believe in giving back to save their wretched materialistic souls. Balance is needed. The more their children succeed in life, the more our parents will give back to society as gratitude for the good fortune bestowed on their children. Yes. That is true. And that is why our society progresses forward in all conditions.

Nobody pities us.
We accept that.

No one owes us anything.
We know that.

There are too many of us for charity to reach all of us.
We acknowledge that.

But that does not stop us from making a better life.
This lifetime.

Opportunity is as we make of it.
So, pardon us if we feel obliged to make a better place for ourselves in this country we call home.
It is in our DNA to progress forward for a more comfortable life.

But if history were to be our teacher, look around this globe.

Every country has a Chinatown (seriously) but how many government/countries are 'taken' over by the Chinese people.

Don't be afraid of us overwhelming your majority, we are not looking to conquer.
If we have moved away from China and Chinese governed countries, we are NOT looking for another country to administer.
Our representatives are only there to look after our collective welfare. They are duty bound.
We prefer to blend in and enjoy the fruits of our labor.
We enjoy the company of like minded people of all races.
After all, we are only passing through a small period in the history of time... so, use our skills and we can all progress forward together.

Assalamualaikum dan salam sejahtera semuanya...

Especially to all people of the book...

Cara kita untuk membawa perubahan... Bermulanya pada diri kita sendiri... Kita semua tahu... Kita tidak layak untuk ke Syurga... Saya yakin semuanya percaya akan kewujudan Tuhan sekalian alam yg memiliki segala yg di langit dan di bumi serta di antaranya...

Tapi segala-galanya bermula dari dalam diri kalian untuk mengubah apa yg di sekitar kalian... Di hadapan kalian serta yg di belakang...

Lihatlah manusia2 sekeliling anda... Perhatikanlah... Tidak kira dari yang kecil hingga ke dewasa... Putih atau hitam... Tua atau muda... Semuanya mengejar benda yang sama...

1. Wang dan emas
2. Rumah dan Tanah
3. Kereta mewah
4. Popularity / Perhatian / Selfie?
5. Anak yang berjaya
6. Perempuan @ Lelaki
7. Kuasa / Pangkat

Lihatlah sekeliling kalian... Rata ratanya mengutuk dan mencaci... Menonton video2 yg tidak bermanfaat...

Berapa ramaikah di antara kita yg lebih meluangkan masa menonton dokumentari berbanding menonton vid2 facebook? Berapa ramai anak2 muda yg suka membaca buku? Apatah lagi membaca Al Quran mahupun Bible...

Berapa ramaikah rakyat Malaysia yg menginginkan kedamaian? Keamanan dan menjalin keharmonian di antara kaum? Sedangkan yang di atas memainkan isu2 kaum? Bagaikan bapak ketam mengajar anak ketam berjalan lurus.. Bagaimana mahu mengubah sekira kerjanya hanya mengutuk kerjanya, provokasi, mencaci, membuat statement2 yg tidak mendatangkan manfaat di kaca tv? Bagaimana mahu mengubah dunia ini sekiranya hanya dengan menulis dan mengharap?

"Do not wish for it but work for it"

Pengaruhilah orang2 yg berada di sekiling kamu untuk berbuat kebaikan dengan membuat kebaikan kepada mereka ikhlas semata2 kerana Tuhan...

Apakah ada yg lebih baik daripada ikhlas semata mata kerana Tuhan yg Maha Esa?

Contohnya keperibadian Rasulullah SAW...

Ingatlah... Umat ini adalah umat yang sedang menghadapi ujian... Apakah yang anda lakukan untuk umat Nabi Muhammad ini? Adakah hanya berserah dan "Membutakan Sebelah Mata?" Tiada cara lain dengan hanya kembali kepada kitab2 dan mengagungkan sifat2 Nabi Isa, Nabi Musa apatah lagi Nabi Muhammad yg dari kecilnya hidup tiada ibu serta bapa...

Sedangkan Perompak serta pencuri boleh bertaubat dan cuba untuk melakukan sesuatu untuk agama Tuhan ini... Apatah lagi seorang polis dan para pembesar...

Dengan ini... Saya akhiri...

Dengan nama Allah, Yang Maha Pemurah, lagi Maha Mengasihani.

Demi Masa!

Sesungguhnya manusia itu dalam kerugian –

Kecuali orang-orang yang beriman dan beramal soleh, dan mereka pula berpesan-pesan dengan kebenaran serta berpesan-pesan dengan sabar.

Assalamualaikum Tun.

Terpanggil saya menulis di sini berkenaan realiti apabila terlibat dengan dunia nyata dalam berpersatuan seperti menyertai Bersatu.

Mungkin ada yang kecewa apabila niat murni bersungguh sungguh dalam menyokong Tun tetapi dikecewakan dengan sifat biasa manusia iaitu inginkan jawatan dan kedudukan.

Pada saya alhamdulillah, saya dibiasakan diri dengan berada di sini. Malah dibiasakan sejak sebelum berada di sini lagi.

Pada saya tiada rasa kerisauan dan berfikiran tidak tentu hala kerana telah dibiasakan.

Dengar kata ada juga SB sampai sanggup ke tempat kerja untuk selidik keanggotaan Bersatu. Entah benar entah tidak. Tapi calon ketua bahagian saya ada bertanya samada ada orang luar atau orang dalam telefon saya tak. Tak ada bagi saya setakat ini.

Benar kata Tun bila saya katakan saya tidak berminat dengan politik. Tun kata "dalam politik boleh kenal ramai orang".

Terima kasih Tun.

Assalamualaikum,

Some property development type of FDI is only self-serving kepada tuan tanah and does not gives benefits to other Malaysian if no jobs are created for Malaysian, no supplies of materials are bought from Malaysian companies and nothing are sold to Malaysian as the price is too expensive for the ordinary people to buy. Money circulation reduces and its effect on overall economic growth is minimized. Government job is to collect taxes from business. Because of this, tax collection is not optimal.

The Straits Times reported that government will wind up 1MDB. Debt to be serviced RM 22 billion. Additional debt that may be serviced (in dispute) RM 27 billion. Altogether, close to RM 50 billion.

Selling of land or equity in property development project had been 1MDB aims as it owns land, which is not liquid.

Monetization of asset delayed. 60% of capital injection by China Railroad Group of around RM 7.41 billion not yet materialized, and State owned China Metallurgical corp buying into a stake in Penang Island of around RM 3 billion. Chinese state owned companies started to become doubtful about 1MDB sincerity. These will lead to the projects to generate income become terbengkalai.

Since, 1MDB debt will be taken over by government, Government debt would increase by RM 50 billion.

<http://www.straitstimes.com/asia/se-asia/malaysia-government-to-wind-up-1mdb-a-look-at-the-state-funds-debts-assets-and>

Meanwhile, there are signs that tertiary education quality in Malaysia would reduce (because facilities would be neglected and the contracts of world standing lecturers and researchers would not be continued), and public universities fees would increase. Malaysian public universities are facing austerities measures.

Quite agreed with Mislah Crazy Idea

Tun , you should contest for the next PRU
You should be the President of BERSATU & the leader of Pakatan
You have the name as Najib will come with his Big bags of Dirty Money
To corrupt his Votes

Good Name ,Good Reputations Verses Dirty Money , Bad Intentions
As for Muhideen , Mukhliz & others they are not strong enough
It is just for this year a 92 yr old man Tun Mahathir Mohamed will track the record in the history of
Mankind . You will be remembered Tun
Then after awhile Tun , you can pass the Baton to yr reliable candidate
Be sure to choose the right one , again do not let go yr string
Having said these , my prime concern
You have the right of yr health . Its your decision , simply its just a suggestions
As long as BERSATU will crown We will put every guilt of them behind Bars even AG Apandi
As AG Apandi is the man responsible that obstruct Justice

Again is the right decision of yours ,together the right of yr beautiful wife Datin Siti Hasmah .We will
respect both yr decision
A Big Thank you Tun

61. Trump's first day at the oval office after being the elected president. First briefing by the cia,
pentagon, fbi:-

Trump: we must destroy isis immediately, no delays.

Cia: we cannot do that, sir. We created them along with turkey, saudi and qatar.

Trump: the democrat created them.

Cia: we created isis, sir. You need them or else you would lose funding from natural gas lobby.

Trump: stop funding pakistan. Let india deal with them.

Cia: we cant do that.

Trump: why is that?

Cia: india will cut balochistan out of pak.

Trump: i dont care.

Cia: india will have peace in kashmir. They will stop buying our weapons. They will become superpower. We have to fund pakistan to keep india in kashmir.

Trump: you have to destroy the taliban.

Cia: sir, we cant do that. We created the taliban to keep russia in check during the 80s. Now they are keeping pakistan busy and away from their nukes (nukes mean informal).

Trump: we have to destroy terror sponsoring regimes in the middle east. Let us start with the saudi.

Cia: we cant do that. We created those regimes in the middle east because we wanted their oil. We cant have democracy there, otherwise their people will get that oil-and we cannot let their people go own it.

Trump: then let us invade iran.

Pentagon: we cannot do that either, sir.

Trump: why not?

Cia: we are talking to them, sir.

Trump: what? Why?

Cia: we want our stealth drones back. If we attack them, russia will obliterate (means destroy) us as they did to our buddy isis in syria. Besides we need iran to keep israel in check.

Trump: then let us invade iraq again.

Cia: sir, our friends(isis) are already occupying 1/3 of iraq.

Trump: why not the whole iraq?

Cia: we need the shi'te govt of iraq to keep isis in check.

Trump: i am banning muslims from entering us.

Fbi: we cant do that.

Trump: why not?

Fbi: then our own pupulation will become fearless.

Trump: i am deporting all illegal immigrants to south of the border.

Border patrol: you cant do that sir.

Trump: why not?

Border patrol: if they're gone, who will build the wall.

Trump: i am banning H1B visa (The H-1B is a non-immigrant visa in the United States under the Immigration and Nationality Act, section 101(a)(15)(H). It allows U.S. employers to temporarily employ foreign workers in specialty occupations)

Uscis: you cannot do that.

Trump: why?

Chief of staff: if you do so, we'll have to outsource white house operation to banglore, which is india (it means american do not want to work in white house)

Trump: (sweating profusely by now): what the hell should i do as president???

Cia: enjoy the white house, sir! We will take care of the rest!

Remark: true or not, does it matter?

Salam Tun.

1. Masa penjajah British pendatang dari China dan India golongan ini asalnya adalah pekerja buruh pelombong dan pekerja ladang.
2. Golongan ini terkenal rajin bekerja dan ketika di China golongan ini agak terpinggir dalam masa pemerintahan komunis malah tidak suka dengan pemerintahan komunis.
3. Sebab itu golongan ini merasa syukur dengan nikmat yang diberi kerana berpeluang BERNIAGA di bumi Malaysia malah di terima kaum bumiputra Melayu.
4. Malah cina yang berada di bumi Malaysia ini berasa bertuah kerana di terima menjadi warganegara Malaysia.
5. Asalnya cina terdahulu begitu baik cuma seberapa sahaja yang membawa fahaman komunis (kerajaan Malaysia telah menghapuskannya) serta yang membawa pengaruh kongsi gelab (juga di atasi Polis).
6. Namun setelah tiada lagi jenerasi lama yang kini jenerasi baru yang tidak mengenal sejarah perjuangan negara sudah melupakan pesan nenek moyang mereka maka timbul nama seperti JHLOW yang pro China Komunis.
7. Malah di Amerika sendiri mula terasa oleh kaum Islam warga Amerika bangsa negro, setengah warga kulit putih mengganggu kerana populasi warga cina Amerika yang di bantu kongsi gelabnya mula menguasai ekonomi lebih FDI USD 100 Billion.
8. Jadi apa yang di katakan saudara asahamat betul ia tidak membantu banyak peluang kepada penduduk asal Malaysia atau menambah industri milik tempatan.
9. Itu belum lagi kehadiran ramai jenerasi baru cina dari China yang rata-rata telah terpengaruh dengan budaya komunis atau kongsi gelab.
10. Bangsa cina lama dan yang ada sekarang perlu menghargai kaum2 lain yang ada di Malaysia kerana telah lama bersama takkan senang tidak sangsi langsung dengan cina komunis dari China.
11. Rimba Emas pasti cina yang ada sekarang samada tidak atau menganggotai Parti seperti DAP , MCA ,GERAKAN dll tidak sama dengan cina dari negara China yang berfahaman komunis sekarang.
12. Agama yang bertuhan pasti membawa sesuatu yang baik kepada pengikutnya daripada penganut yang tidak mempercayai ketuhanan.

Wallahua'lam.

Assalamualaikum Tun, harapan saya Tun dan Isteri sentisa berada dalam keadaan sehat, AAMIIN.

Berdasarkan keadaan semasa apa yang difahamkan, banyak kemusnahan dari yang mendangkan hasil, yang di takbir oleh Najib. Berbagai usaha yang telah dibuat, kerajaan di Malaysia masih mengatakan TIADA KES bagi mensabitkan kesalah kepada Najib, walaupun ADA diantara Negara diluar Negara telah menyatakan sebaliknya. Sebagai Rakyat biasa kita semua jadi KELIRU mana satu yang benar dan seterusnya berlakulah fitnah memfitnah dikalangan kita semua.

Olih itu Tun, saya berpendapat supaya kita semua Umat Islam mengadakan pehimpunan bagi tujuan SOLAT HAJAT MEMOHON PERTUNJUK KEBENARAN DARI ALLAH APA YANG SEBENARNYA YANG TELAH BERLAKU DAN POHON PERTUNJUK BAGI MEMULIHKAN EKONOMI YANG TERTEKAN KETIKA INI. Manakala yang menganut lain2 ugama mereka bolih melakukannya dengan cara fahaman mereka masing2.

Tempat mungkin di Stadium Bukit Jalil. Mungkin solat ini juga diadakan serentak ditiap2 negeri seluruh negara supaya mereka tak perlu datang ka Kuala Lumpur dan melibatkan kos.

Iman bolih dilantik dikalangan pendawah2 bebas.

Insyallah, ALLAH akan tunjukkan kebenaran, AAMIIN.

Assalamualaikum Tun,

I'm about to give some crazy idea about the PM choice for pakatan. To me, the PM to be should be some one who can fight Najib head on. And of course bring the most votes to Pakatan. The PM to be should not be someone who is PM on behalf of someone because that someone is in prison.

How about if you become PM once again Tun? I think you would have the charisma and the leadership to lead pakatan. Many of the rakyat long for Malaysia to be when you were PM.

We were proud Malaysians, everywhere in the world people knew Malaysia and they knew you. Now Malaysia is the most corrupt.

Please Tun, for you and the Pakatan allies to consider since Anwar is in prison. At least to unseat Najib as PM.

I know you have retired but I think you have the best chance among the other PM candidates of beating Najib.

Assalamualikum Tun.

Dalam istilah "bodoh" ada 2 Tun iaitu:

1. bodoh yang tidak menyusahkan orang lain;
2. bodoh yang menyusahkan orang lain seperti Najib iaitu sebagai PM bodoh menyusahkan 30 juta rakyat Malaysia.

Semuga kesejahteraan dan kesihatan Tun berpanjangan.

Salam Dearest YAB Tun,

PM Najib @ Ah Jib Gor is going to be remembered as 'PENGKHIANAT NEGARA'.

Tun's article reminded me of the following song:-

///

WARISAN

Anak kecil main api
Terbakar hatinya yang sepi
Air mata darah bercampur keringat
BUMI DIPIJAK MILIK ORANG

Nenek moyang kaya-raja
TERGADAI SELURUH HARTA BENDA
Akibat sengketa sesamalah kita
Cinta lenyap diarus zaman

Indahnya bumi kita
Warisan berkurun lamanya
Hasil mengalir ketangan yang lain
Peribumi merintah sendiri

MASA DEPAN SUNGGUH KELAM
Kan lenyap peristiwa semalam
Tertutup hati terkunci mati
MARUAH PERIBADI DAH HILANG

Kini kita cuma tinggal kuasa
Yang akan menentukan bangsa
BERSATUlah hati bersama berbakti
Pulih kembali harga diri

Kita sudah tiada masa
Majulah dengan maha perkasa

Janganlah terlalai teruskan usaha
MELAYUKAN GAGAH DI NUSANTARA (3X)
///

Thanks Tun.

*** May Allah S.W.T. bless Tun and family ***

Tun M...the other point which I humbly wanted to highlight here is...Thief Najis planned to eat a chunk out those China loan amount to use in next GE.
His corrupted family and his slaves with tongues out are with less bran now.

Assalamualaikum Tun.

Setuju dengan pandangan Tun tentang FDI ala Najis khususnya no 4:

4But today Najib's Government has given a new definition for Foreign Direct Investment. He regards foreigners bringing in money to buy land and develop towns and cities where their people would come and stay as foreign direct investment.

Setuju juga dengan pandangan asahamat dan lebih teruk lagi "Projek bersifat Free Hold."

Siapa yang untung di sini? Kalau pun untung untuk jangka pendek sahaja dan yang untung jangka pendek adalah segelintir rakyat Malaysia yang berkepentingan seperti MB johor bodoh, PM bodoh dan segelintir orang yang menyokong projek tersebut termasuklah bekas PM bodoh ie Dolah.

Ibarat menang sorak kampung tergadai.

Selagi orang bodoh memerintah Malaysia, sedikit demi sedikit negara tergadai.

Apalah SIAL yang menimpa Malaysia Tun? Semuga SIAL dari PM akan padam sedikit masa lagi.

AAmiin. Wassalam.

' Mari mengerjakan Sholat
Mari mengejar Kejayaan '

Siapa yg mengejar kita supaya Cepat mengejar Kejayaan
Ada kah Tiru orang lain membabi buta hingga kemudian anak cucu sengsara dinamakan Kejayaan ?

Najib memang menjahamkan Malaysia mengikut hawa nafsu beliau
Tanpa menimbang nimbang Kebijaksanaan untuk masa depan
Beliau hanya fikir sekarang

Begitu juga saya Si Botak sering selalu di Blog Chedet ini
Menbentangkan

Apa guna Pembangunan jika Pembangunan ini bukan milik kita
Anaka Bumi hanya menang Shiok saja
Kan lebih baik dan mulia
Beratap Rumbia , Berkaki Ayam daripada Tanah juga Maruah tergadai
KEMANA pula Haluan anak cucu kita kelak ? ? ?
Tidakkah sejarah Sinagapura mengajar dan membuka mata kita
Kesudahan anak bumi ,orang melayu merempat di tanah air sendiri
dek kearana alasan Pembangunan

Adakah pembangunan mencakar langit , ekonomi yg pesat , memakai kot seperti orang barat
Hidup menyerupai budaya barat , bergaul budaya barat , makan budaya barat , menyundal di
kalangan masyarakat kita dek kerana ekonomi yg sempit dan terpaksa , terpaksa menubuhkan casino
menjemput pelancungan,dan sebagainya sebagai satu Kejayaan ?

Kejayaan itu milik kita .Kita yg menentukan kejayaan kita sendiri
Ada orang bergaji , berkereta , rumah Besar dan sebagainya satu kejayaan
Ada orang hidup kesederhanaan juga satu kejayaan

Pada saya mempunyai tempat Tedur yg sederhana , makanan bertitik peluh yg halal
masa ibadah untuk Tuhan saya juga masa untuk keluarga ,saudara mara , sahabat handai ,jiran
tertangga , masyarakat dalah satu kejayaan yg luar biasa

Kenapa perlu kita memperhambakan diri pada Duniawi sedangkan Akhirat itu yg Kekal
Namun perlu kita seimbang keduanya menyahut seruan Azan

Ini hari kita kaya raya ,besok kita miskin papa kedana
Lebih baik graphik kita maintain saja , tidak terlalu tinggi tidak terlalu rendah
Ini juga satu dari Sunnah Rasul

Najib tidak mampu membawa kita kepada Kejayaan Duniawi sebab beliau
Tidak peka akan ekonomi. 1MDB Bukti yg nyata
Beliau membabi buta , mengikut nasihat luaran yg menguntungkan mereka
Sampingan Najib juga mengambil kesempatan akan serpihan Hutang Piutang
Yg jadi mangsa adalah kita Malaysia

Najib bukan orang nya
Malah Najib akan menghancurkan Malaysia
Sudah terhidu ,sudah kelihatan , sudah terasa bahangnya

Di Dubai , Kerajaan Dubai mempunyai system kerajaan yg Unik
Meraka juga Membangun Pesat malah lebih indah dari negara Barat atau negara Maju yg lain
Kesemua pegawai kerajaan adalah anak bumi Dubai

Dari Immigrasi ,Custom ,Polis , Mahkamah ,Badan Pembangunan dan sebagainya
Ya memastikan undang undang mengikut kehendak juga kepentingan anak cucu meraka

Orang Asing ,diberi peluang perlabuhan yg terbuka , tidak bercukai tinggi
Tetapi mereka tidak mengalakan orang asing berakar umbi di tanah mereka
Cukup si perlabuh asing yg sudah tua harus pulang ke tanah air masing masing
Cara bergini Kerajaan Dubai dapat menimbang nimbang Kerjayaan juga
Kepentingan masa depan anak cucu mereka

Najib dengan membawa perlabuhan membabi buta
Tanpa kawalan , tanpa panduan yg mementingkan hak rakyat Malaysia
Akan Bakal mengugat masa depa anak bumi sendiri

Naluri Manusia , masing masing punya agenda masing masing
Begitu juga China , Singapura yg berbaik dengan pemimpin bodoh kita
Najib bin Razak ...pakai nampak seluar dalam kita juga akan tergadai

Kita bolih bangun cara kita sendiri
Tak perlu kelam kabutnanti tercabut
Kita sekolahkan ilmu pada generasi kita
Besok , biar mereka yg membangunkan Malaysia cara mereka

Bukan mengikut hehendak asing dengan hanya perlu menampar Pemimpin kita dengan kebendaan
Mereka tidak perlu tampar satu Malaysia untuk mendapat tujuan mereka

DrM, Trump & Sinophobia

True to form, DrM has come out of his "selamat zone" to attack the Chinese FDI by insinuating the potential political and security risks the Chinese people may impose on us.

Jika Cina DAP boleh berpelukan dgn Melayu PPBM; apalah sangat Melayu UMNO bekerjasama dgn Cina Tanah Besar. Tak perlu timbulkan isu perkauman, kerana ini adalah urusan ekonomi.

Apapun, dunia sedang menyaksikan banjir FDI China. Di US sahaja, jumlah terkumpul FDI China setakat 2016 sudah melebihi USD100 billion.

Malaysia, is on bonus standby for anything that Trump will say to drive them out. If not, the deals that Najib brought home recently from China would be sufficient to stimulate our economy in 2017.

Semoga usaha DrM dan Najib meningkatkan pertumbuhan ekonomi negara menjadi kenyataan.

InsyaAllah

Assalamualaikum, Tun.

For the country to sustain its attractiveness in grabbing FDI, first of all, we need to improve the civil workforce quality and efficiency. Next, we must curb corruption. Corruption leads to heavy hidden cost of running business, and siphoning of country's resources into individuals' pocket.

Please be back to the old days where our politicians and leaders always put the nation's interest above all.

Assalamualaikum, Tun.

With the current weak RM performance, coupled with high corruption incidence among the civil workforce, it is very hard for the country to have FDI as foreigners fear forex loss in trade and heavy hidden cost of running business.

And, with Donald Trump taking over US Presidency, likely some US MNCs will pull back their investments in this country.

Today, we need to look at the fact of China still pouring in investments as a positive thing. But, of course, we do not want them to merely buy land and settle down. We want productive investments that carry the effects of creating jobs and revenue for the Government in the form of tax.

Assalamualaikum wbt Tun.

Saya pergi melawat Forest City itu semalam. Saya disambut oleh gadis China (China Chinese) yg BI tak brp betul n BM haram jadah tak reti. Saya agak 95% pelayan di sana adalah China.

(2) Semua bangunan adalah berasaskan besi, aluminium dan kaca. Kita bukan pembuat bhn2 ini. Semua didatangkan dari China. Finishing juga akhirnya dari China sebab custome made. Ini termasuklah semua electrical applies. So kita tak dapat manufacturing gain.

(4) Pekerja bangunan kita tidak diperlukan di sini. Teknologi binaan adalah asas besi, aluminium dan cermin. Anak2 tempatan tak banyak mahir dlm bidang ini, n ini semua boleh dikerjakan oleh boroh n teknologi China.

(4) Kerja2 landscaping dari Bangladesh. Kawalan keselamatan dari Nepal. Pelayanan dari China. Pasti nanti eksekutif juga China. Employment gain, negligence!

(5) Sale n purchase deal semua di China.

(6) Projek bersifat Free Hold.

Sesungguhnya, apa untung yg Melayu, Cina, n India dapat dari Projek ini? Yg pasti Projek ini akan meningkatkan Belanja Hidup di JB n sekitarnya. Saya tidak nampak bagaimana Selat Teberau akhirnya

kita dapat laluan bebas berdaulat lagi. Projek ini jadi mimpi indah Singapura utk menguasai sepenuhnya Selat Teberau.

Mimpi ngeri buat Tanahairku!
