

THE DICTATOR 10

Tun Dr Mahathir Mohamad

1. People and the media never fail to point out that I was a dictator. I presided over an authoritarian Government of Malaysia for 22 years. Any mention of my name must be preceded or followed with the qualification "dictator".

2. Looking back now, I realise why, as Prime Minister of Malaysia I was described as a dictator. There were many things I did which were typically dictatorial.

3. Actually I showed this tendency very early. Upon being appointed as Minister of Education, the first command I made was for the "Menteri" plate above the number plate of my official car to be ripped off. Maybe I feared assassination. I don't know. But, unlike other democratic ministers I did not have the "Menteri" plate on my car.

4. I also demanded for a six men police escort. But they told me that a minister gets only one plain-clothed policeman. I warned them to wait until I became Prime Minister.

5. When I became Prime Minister I demanded for UTK (Special Forces) plainclothes escorts as well as ten outriders. They gave me only four. It was really not enough. I felt very unsafe. I had to look right and left and also behind to identify assailants early. Now that I am not the Prime Minister, you will not see my numerous bodyguards. This is because they are invisible.

6. In America I was surrounded by six burly secret service men. If anyone shot at me they would take the bullet. President Kennedy was almost saved by them. President Reagan was more lucky. I wanted the same body-guards at home. But there were no six-footers in Malaysia to absorb the bullets. I have to make-do with smallish Malay policeman.

7. Now I dare not get into a crowd. I don't shake hands and selfies are not allowed. My invisible bodyguards check all cameras and hand phones of those who get within 10 feet from me.

8. As Education Minister I demanded that schools must not be named after me. All my democratic predecessors had schools named after them. One even had a school named after his wife.

9. I did not want schools to be named after me because dictators normally do not like personality cults. So when I became Prime Minister I did not allow my name to be attached to any building, road or public toilets. Now the Najib Government is doing me a favour. Reference to me in text books have been erased. Thank you Najib for being such a democrat.

10. To continue the narration about my dictatorship, upon being appointed Prime Minister I ordered the release of 21 political detainees, detained under ISA by my predecessors. This release was of course the tradition with dictators. Previous democratic PMs did not release any detainees. They in fact added more because that was the democratic thing to do.

11. But what about Ops Lalang. Well, Tun Hanif is on video to say that it was his decision. He was my security adviser and he said I could not countermand him. He says that as my security adviser, he decides.

12. It is not true of course. I went over his head and ordered as many people as possible to be detained and tortured. If he denies it must be because of bran. Still he does not seem to like bran.

13. Then there is Tan Sri Abu Talib, the AG in my time. He recently declared that I was not responsible for Tun Salleh Abas' dismissal. This just cannot be true. Everyone saw how I caught hold of Salleh Abas by the scruff of his neck and threw him out of his court.

I don't know why Abu Talib should deny popular belief. Maybe I gave him bran. I don't remember.

14. As wife of Prime Minister, Hasmah was also known as FLOMH (First Lady of my house). She was fond of pink diamonds and Hermes handbags.

15. She bought many of them in the flea markets in London and Hong Kong. She wore them around her neck, arms and fingers every day. There are lots of pictures of her, loaded with expensive jewels. No one can fail to notice that she was the wife of a dictator. She also has a food taster.

16. My children held high posts in the Government and UMNO. They naturally got Government contracts which they sold at good prices. That is why they are among the super rich. Unknown to anyone, Mukhriz has been appointed PH's Deputy Prime Minister in waiting.

17. I set up five heavy industries and pocketed a good percentage of the capital. The money is kept in secret accounts in numerous banks. The accounts are so secret that I myself don't know which bank. Not to worry. The police will find out. Another RCI can be set up.

18. Tun Abdullah and Tun-to-be Najib conducted a search for the money I had stolen. So far they have not been able to trace any. But not to be disappointed, Najib discovered that 30 billion Ringgit was lost by Bank Negara 30 years ago. Since I was the Prime Minister at that time, it must have been me who had stolen the money. So he set up a Royal Commission of Inquiry and sure enough I was found guilty.

19. I inherited from Tun Hussein a Boeing 737 business jet. It was big and expensive. So I decided to sell it and buy a smaller aircraft. I believe the savings went into my secret account. I don't know where. There should be a police investigation.

20. As a dictator I made sure the Prime Minister's residence in Putrajaya had a tunnel connecting it to KLIA. If anything happened I could escape through this tunnel to a waiting plane. Until now the tunnel cannot be found.

21. With the money I had stolen, I built two private palaces in Country Heights and the Mines. They are surrounded by high walls and guarded 24 hours a day by security forces. I also have fierce dogs. Anyone visiting me is frisked for weapons.

22. When I was about to retire, some people suggested that they build a memorial library for me. All American Presidents have memorial libraries.

23. I commanded as a true dictator that the memorial be dedicated to previous Prime Ministers also. I instructed that it be called the Perdana Leadership Foundation. The great achievements of all previous Prime Ministers must be kept there. Of course my record as a dictator is preserved for eternity there. All the valuable gifts given to me as PM, including 26 cars, are kept in the Galleria in Langkawi. Unfortunately the Government refuse to return them to me.

24. There are many other authoritarian acts perpetrated by me. But, to cut a long story short, as a true dictator I decided to resign. All dictators do this. Hitler and Mussolini unfortunately died before they could resign. Franco of Spain and Salazar of Portugal were about to resign when they died.

25. But I was lucky. I was able to resign before I die. This confirms that I was a true dictator. I ordered some ministers to rush up to me and cry when I made the announcement.

26. No one should know about all my authoritarian acts. It is sufficient just to state that I was a dictator. If asked why you say I was a dictator, just say everyone said so before. Therefore it must be true.

27. So carry on calling me an authoritarian dictator, a Mahazalim and Mahafiraun, who was undemocratic, and has become super rich through corruption. It is the truth, the whole truth and nothing but the truth.

Tun,

This article is so cute yet so sarcastic and true. If they called you dictator then you must be the best dictator in the world. Your dictatorship make Malaysia a better country but your dictatorship did not make many Malaysians to better people instead many become terrible OKU. Whatever and however people call you is not important but deep inside everyone know you are the best PM and you done so much for the country. This time when you come back, hope you can create racial unity, remove religious extremism so that country and the people can shine and grow together again. My wish is to have the people of Malaysia to live happily together and freely without prejudice about religion and race. Wishing you happiness and blissfulness.

Petikan daripada Al-Quran, Ar-Ra'd (13:15)

وَلِلّٰهِ يَسْجُدُ مَنْ فِي السَّمَاوَاتِ وَالْأَرْضِ طَوْعًا وَكَرْهًا وَظِلَالًا لَهُمْ يَالْعُذُو وَالْآصَالِ ﴿١٥﴾

Walillahi yasjudu man fee alssamawati waalardi tawAAan wakarhan wathilaluhum bialghuduwwi waalasalī

Dan kepada Allah jualah sekalian makhluk yang ada di langit dan di bumi tunduk menurut, sama ada dengan sukarela atau dengan terpaksa; dan (demikian juga) bayang-bayang mereka; pada waktu pagi dan petang.

Assalamualaikum Tun.

Terasa kurang sedikit keinginan mahu menaip.

Tetapi perhatikan artikel terbaru "diktator" rangsangan mahu berbicara kembali menjelma.

Sampai pada pengetahuan saya, bahawa pembaca Tun di sini berpendapat bahawa Tun sudah lanjut usia, dan mereka mahu melihat siapa selepas Tun.

Saya telah lama menulis di sini. Mungkin saya turut punyai ramai pembaca setiap komen saya.

Walaupun saya tidak terlibat secara langsung melalui kehadiran fizikal saya, namun sejak zaman Pak Lah lagi saya fikir anggota keselamatan kita cekap dalam menjalankan tugas mereka.

Kadangkala kehadiran saya dalam program Tun dapat dihidu secara jelas (atau ia mungkin saya yang syok sendiri sahaja).

Senang cerita untuk bacaan orang ramai, SB ada ikut saya. Dan saya tiada apa rahsia untuk disorokkan.

Oleh kerana itu pergerakan saya mungkin akan dijejaki ke mana saya pergi.

Mungkin satu kebetulan juga apabila secara jelas saya paparkan no akaun bahagian saya di sini, bahagian saya telah disogok. Termasuk KB saya sendiri memberitahu saya secara

peribadi siapa yang telah cuba menyogok beliau. Mungkin ia cuma satu kebetulan mungkin.

Berkemungkinan saya akan bersiar siar di Kuala Lumpur sambil memperkenalkan wajah 'penasihat Tun Mahathir' kepada bahagian Bersatu yang berkaitan.

Assassin? Nak cari 6 orang 6 kaki ambil peluru?

Saya sempat menziarahi makam Tok Pulau Manis sebelum saya mendaftar masuk PPBM. Tapi saya tak lama di situ, sebab rasa janggal bila tengok orang tengah pegang tasbih sambil berzikir di makam. (bukan kufarat ye, ia berlaku di siang hari dan orang ramai tahu).

Terima kasih Tun.

Salam Tun.

1. Bila dalam sesebuah negara selalunya golongan yang terlalu ekstrem dalam sesuatu pegangan tidak mendapat sebarang manfaat terhadap sesuatu pembangunan pastilah akan digelar seseorang itu mahafiraun.
2. Walau pun sebenarnya seseorang itu bukannya Firaun tetapi di gelar kerana menyerupainya.
3. Firaun sifatnya lebih kejam kerana menganggap dirinya tuhan kepada manusia yang lain.

4. Setakat mengadakan pembangunan seperti Firaun , kaun Saddum dan kaum yang kuat membina bangunan dari batu-batu gunung untuk kediaman yang mana di musnahkan tuhan akhirnya bukan musababnya.

5. Kemusnahan berlaku bilamana manusia itu melawan atau memusnahkan utusan atau peringatan daripada tuhan yang menjadikan semua makhluk di bumi ini.

6. Dalam sejarah agama pemerintah kuku besi ini akhirnya akan di musnahkan juga oleh tuhan melalui utusan mana-mana makhluk ciptaannya.

7. Kembalilah kita kepada tuhan yang di sembah dan kepadanya kita menyerah selepas berusaha mematuhi perintahnya.

Wallahua'lam.
