

# We must have new values: Maha thir

N.S.T. - 9 JUL 1978

**'THEY SHOULD NOT  
BLAME OTHERS  
OR BEGRUDGE  
THE RICH MALAYS'**

KUALA LUMPUR, Thursday.  
DEPUTY Prime Minister Dr. Mahathir

Mohamed spoke today of the need for Malays to change their attitude and outdated values if they wish to keep on the same level of progress as the other races.

He said they should not blame others when they were in difficulty or to begrudge other Malays who were rich.

Dr. Mahathir was speaking on "Bumiputras before and after The Malay Dilemma" at a talk organised by the Universiti Kebangsaan's Geographical Department.

Dr. Mahathir urged the Malays to study the finer points of good management so that their efforts would not be wasted.

He said it would be futile for the Government to provide business opportunities to people who could not carry out their duties satisfactorily.

He said this was why it was important that new values of life should be instilled among the Malays.

## Free enterprise

Dr. Mahathir felt that the country needed both the free enterprise and state enterprise systems.

Free enterprise could accommodate any loss incurred by the state enterprise.

He also said that the country needed money to implement development projects for the people.

The head of the university's Geographical Department, Dr. Zakaria Awang Soh, presented a souvenir to Dr. Mahathir after the talk.
