

# Help beautify city, Dr M tells residents

KUALA LUMPUR, Sat. — Datuk Seri Dr Mahathir Mohamad urged residents here, especially owners of high-rise buildings, to beautify the city by planting more trees and landscaping their buildings.

He said by doing so, they were co-operating with the Government in its efforts to make Kuala Lumpur a garden city.

"Besides, high-rise buildings can command higher rentals if they have beautiful landscaping and flowering plants," he added when opening the 23-storey Plaza MBf

here tonight.

The \$46 million headquarters of the Malaysia Borneo Finance Holdings Bhd is set amidst a landscaped surrounding.

The Prime Minister reminded management of financial institutions of its responsibility to "look" after the public's money.

He later pulled a special lever to send water sprouting from a fountain in front of the building which was then followed by a colourful laser display on the walls of the building.
