

# PM hopes KL will attain parity with world's major cities

KUALA LUMPUR, Wed.  
— The Government hopes that Kuala Lumpur will develop into a city that is on par with major cities of the world.

It therefore welcomes constructive suggestions and opinions, Prime Minister Datuk Seri Dr Mahathir Mohamad said.

"By learning from the experiences of other established cities and not making their mistakes, Kuala Lumpur may become even more successful," he said at the launch of the *Lot 10* shopping complex tonight.

Dr Mahathir said KL was fast gaining a reputation as a clean and beautiful city.

It was also becoming a popular tourist destination, and a shoppers' paradise.

The Government had abolished duties on many consumer items to encourage shopping.
