KELANTAN GOVT SHOULD COOPERATE WITH FEDERAL GOVT

PASIR PUTEH, Kelantan, Feb 8 (Bernama) -- The Kelantan Government should cooperate with the Federal Government to develop industrial areas at Kampung Tok Bali near here, Rural Development Minister Datuk Annuar Musa said tonight.

He said the Federal Government had so far allocated RM346 million under the Kemasin-Semerak (Perkasa) project to develop part of the area.

Speaking to Bernama after breaking the fast with Prime Minister Datuk Seri Dr Mahathir Mohamad at the Sekolah Menengah Tok Janggut near here, he said this showed the Federal Government had long been ready to help develop the area.

Annuar said the Federal Government had long set aside political issues to help in the state's development and hence the Kelantan Government should cooperate and review its policies. -- BERNAMA
