Kriss-Market

KLANG VALLEY FOLKS BUY 800 KRISS MOTORCYCLES WITHIN TWO DAYS

KUALA LUMPUR, Nov 18 (Bernama) -- More than 800 110cc Kriss motorcycles built in Gurun, Kedah, have been sold in the Klang Valley in the last two days.

Sole agents of Motosikal dan Enjin Nasional (Modenas) Sdn Bhd said large crowds had been turning up at the showrooms to place their orders.

Each of the agents sold an average of 30 Kriss motorcyces but one agent Syarikat Soon Weng Trading (M) Sdn Bhd said they had received more than 100 bookings.

Nearly everyone who visited the Modenas showroom placed his booking and paid the deposit, one of the agents said.

Most people went for the green colour and there were equal number of orders for the 110E (kick starter) and 110F (press button starter), the agent said.

The other colours available are red and blue.

Buyers will have to wait for between three and five weeks to get their motorcycles.

Civil servant Abdul Rahman Nasir, 31, said he decided to buy the motorcycle after seeing Prime Minister Datuk Seri Dr Mahathir Mohamad riding it when launching it early last month.

The on-the-road price of the 110E kick starter is RM3,798 while the other 110F model costs RM4,098. -- BERNAMA
