Congressmen are the ones who should apologise and resign

T. Ramachandran

THE draft resolution by 34 American Congressmen tells us they are trying to make a "mountain out of a mole hill". They should be aware that such bullying tactics no longer work.

The fact that Malaysians, comprising of people of various races and religions, are living in peace and harmony under the excellent leadership of Datuk Seri Dr Mahathir Mohamad, clearly shows our Prime Minister is not against any race or religion.

Therefore, the Congressmen should concentrate their efforts on worthwhile issues such as finding ways to reduce the rising crime rate in the US.

If there is anyone who should apologise and resign, it should be the group of Congressmen whose remarks are totally uncalled for and are sheer nonsense.

We are proud to have Dr Mahathir as our Prime Minister and we support him one hundred per cent.
