Gift of 200 saplings to school

INDAH Water Konsortium Sdn Bhd handed more than 200 tree saplings and 800kg of organic soil conditioner to Sekolah Menengah Kebangsaan Gombak Setia at the school's compound recently.

Indah Water senior general manager communications division Mirza Mohamed Tariq handed over the tree saplings to school principal Aminah Abu Bakar.

Mirza said the effort was part of the company's corporate social responsibility.

"The tree saplings will be handed to the school's environment club and will mark the launch of the school's landscaping project."

He said Indah Water's contribution was in support of the national tree-planting campaign launched by Prime Minister Datuk Seri Dr Mahathir Mohamad on March 3.
