Lee: Reject punk culture

KUALA LUMPUR, Sat. - Pemadam vice-president Datuk Lee Lam Thye said today it was appropriate for Prime Minister Datuk Seri Dr Mahathir Mohamad to call on Malaysian youths to reject punk culture.

He said in a statement the emergence of punk culture should be a matter of serious concern not only to the Government but also youth organisations, NGOs and parents.

"It is deplorable that punk culture has now found its way to Malaysia and is slowly taking root in our Federal capital especially at amusement centres," he said.
