PSYCHOLOGISTS TO HELP ADVISE UMNO CERAMAH SPEAKERS

KOTA BAHARU, Feb 21 (Bernama) -- Kelantan Umno will get the help of psychologists to advise the party's ceramah speakers on tailoring their talks to the aspirations of the people.

The move is in preparation for a new five-month series of ceramah to launched in the state next month, state Umno deputy chief Datuk Annuar Musa said today.

Kelantan-born people living outside the state would also help out in the ceramah, he told reporters after meeting Kemas supervisors at Seri Puri, Bukit Marak, near here.

Annuar also said Prime Minister Datuk Seri Dr Mahathir Mohamad will open a two-day Kelantan Umno convention in April.

More than 5,400 members would take part in the convention aimed at strengthening the state Umno election machinery.

"Among the matters to be discussed are discipline, administration and the best ways to woo the people to support Umno," he said.

To further strengthen the party, 300 intensive courses would be held for those involved in the election machinery after the convention. --
