Support PM's fight for fair play

Zulkarnain Ibrahim

FOR quite some time now, there has been a Datuk Seri Dr Mahathir Mohamad bashing by the Western media because he has been fighting single-handedly over the question of international currency trading.

He must be supported by all Malaysians not because he is the Prime Minister nor because he is the chairman of the Barisan Nasional and the president of Umno, but because he is fighting for what is right.

In international currency trading, the name of George Soros will be mentioned.

It must be stated very clearly that Dr Mahathir is not fighting Soros, the person, nor Soros, the Jew. He is neither against the Jews nor Judaism.

Dr Mahathir is not against international currency trading per se. He is against the impact of unfettered and unregulated trading where the sufferings of the citizens of a country are real and devastating.

Since the currency of a country is intricately and delicately related to its economy, the Prime Minister is fighting to ensure that there is an orderly development in international finance and trade where justice and fair play prevails.
