Tamil version of AIDS Charter

TAMIL VERSION ... Malaysian AIDS Council president Datin Paduka Marina Mahathir receiving copies of the Tamil version of the Malaysian AIDS Charter from Malaysia Nanban chief editor Athi Kumanan yesterday.

The Tamil version of the Charter was translated and printed by the Malaysia Nanban, a local Tamil daily.

The Charter was previously available only in Malay and English.

Marina later handed over copies of the Charter to Tamil community leaders and organisations.

Speaking later, Marina said the council hoped to launch a Chinese version by the end of the year.

"Malaysians AIDS' awareness is still disappointing," she said, "and much more needs to be done."
