Case of ignorant man jumping the gun

A. Fitri & Friends

AMERICA seems to have decided that we need reformasi. If their decision is based on the feedback from their embassy and their ambassador in Kuala Lumpur, then they were wrongly advised.

The country's political and judicial systems have been around for some time now. It is fascinating as to why the US government is so concerned about the country's system only now.

I have never heard America voicing this concern before.

As ordinary citizens who love our country Malaysia, we find it disgusting and intolerable for the American Government to incite such disharmony by providing such a speech through its Vice-President Al Gore at the Apec business summit.

We always thought the US was a democratic country and was fair, sensitive and tolerant towards others, but we now tend to agree with America's critics. America is a big bully! Before I would plead for patience but now it is a plain butt out!

Does Gore honestly believe justice has been done via his speech? We cannot understand the urgency and the forum used. Malaysia to date does not have any death or civil unrest due to the sacking of the former Deputy Prime Minister Datuk Seri Anwar Ibrahim.

Surely the numerous deaths and incidents of rape in Indonesia should cause greater concern and be investigated first by the so-called world guardian, the US Government, that is, if their main concern is the people.

Gore has jumped the gun!

I do not know Datuk Seri Dr Mahathir Mohamad or Anwar personally. But what we do know is that in his 17 years in office Dr Mahathir has been consistent and is a good Prime Minister.

I believe we Malaysians can think for ourselves. So let us do so without any demonstrations and violence.

Our option is the ballot box.
