Dr Mahathir on nation-building

iewed by Habsah Marjuni

THIS latest effort by former journalist is an impartial study of a man with a unique style, a tribute to the man who has changed Malaysia. The book covers various facets of Datuk Seri Dr Mahathir's role as the Father of Modern Malaysia and discusses the challenges and struggles he faces in leading a plural society and in pushing for modernisation. A selection of his important speeches is also included, for when historians come to measure him, they no doubt will seek to match his rhetorics and his actions.
