Eyesore in tourist area

IRRESPONSIBLE ACT ... Does it take the Prime Minister to speak up before the authorities act on this irresponsible contractor?

More than nine months after Datuk Seri Dr Mahathir Mohamad called for stern action against litterbugs after seeing rubbish strewn not far from this spot along Jalan Bukit Bintang in Kuala Lumpur, scenes like this continue to surface.

Obviously, this contractor wants to save time and effort in storing these tools in a proper place before coming back to complete the job.

But he failed to realise that the area is a popular tourist destination with its five-star hotels and glitzy shopping lots, and the shovels and wheelbarrows chained to a post and left in the open were certainly an eyesore.
