Motoria's package for used Proton cars

Sarban Singh

USED Proton cars being marketed by Eon Motoria Sdn Bhd yesterday received VIP endorsement from the Prime Minister himself when he dropped by the company's Auto Fair in Jalan Ampang, Kuala Lumpur.

Datuk Seri Dr Mahathir Mohamad said the Proton models offered by Motoria, a wholly-owned subsidiary of Edaran Otomobil Nasional Bhd, were not only "as good as new models" but under its package, buyers will also be able to obtain loans easily.

"Under this concept (by Motoria), many Malaysians who don't have enough money to buy cars will still be able to own Proton models which are sold at reasonable prices here.

"This is so despite the economic problems faced by the country," he added.

Also present were Diversified Resources Bhd Group executive chairman Datuk Wira Mohd Saleh Sulong and EON managing director Datuk Adzmi Abdul Wahab.
