(Umno president Datuk Seri ... )

UMNO president Datuk Seri Dr Mahathir Mohamad continues to keep the country guessing over his new deputy. Asked by reporters after the Umno extraordinary general meeting, he said in jest that if he had it his way, he would like the person to be his exact replica. Dr Mahathir, however, said what is important is that the person, once appointed, will continue with the Government's existing policies in developing the country so as not to scare away foreign investors.

Asked whether there are those who fit the criteria for the Deputy Prime Minister's position now, he replied: "Some fit here, some fit there. If it is a complete fit, it will be my twin. But you know, I do not have a twin."
